Mr. Raymond H. Gerende

Dear Mr. Gerende:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 1 October 1955, as amended.

Effective 1 July 1965 said contract, as amended, is further amended by deleting the figure \$6000 from the first sentence of paragraph one (1) entitled "Compensation" and substituting in lieu thereof the figure \$6500.

Effective 1 October 1965 said contract, as amended, is extended for a period of one (1) year.

All other terms and conditions of the contract, as amended, remain in full force and effect.

PROPOSED ACTION (Include Branch and/or field recommendations;
specific operational tasks performed by in-
dividual; views re long and/or short range
utility of individual for Branch area and over-
all Division needs)

The contract for Raymond H. GERENDE expires on 30 September 1965. The Mexico City Station has recommended that the contract be extended for one year, and that GERENDE be granted a salary increase from \$6,000 to \$6,500 per annum.

GERENDE received his last salary raise on 1 August 1963, from \$5,500 to \$6,000. He was first placed under contract on 1 October 1955 at \$3,600.

There are sufficient funds in the LIEMPTY Project to cover this salary increase, and GERENDE's local cover job can logically cover this additional income.

Chronological Narrative
Performance Report

NAME/PSEUDONYM:

(Summary of evaluation of past performance /if applicable/ with emphasis and details of current performance for assigned operational tasks)

DATES

LOCATION

AGENCY TASK

GERENDE was recruited in March 1955, just prior to his graduation from the Mexico City College. He was trained as a member of a surveillance team, and was also used as an investigator to collect operational data on persons and organizations of interest to the Station. He quickly demonstrated a capacity for leadership and at one time was leader of the team.

He was also used as a basehouse keeper in an audio operation and processor of tapes. He excelled in this type of work because of his bilingual Spanish/English facility, and, more importantly, due to his diversified experience in clandestine operations which permitted him to spot operational leads.

Since 1958 his primary use has been as main cutout/principal agent to a group of photographic basehouses targeted against the Soviet Embassy, and one mobile photographic truck. He processes the raw photographic take and services the majority of the accommodation addresses used by the Station. He has contributed significantly to the AMROD operation.

He performs all his tasks in a professional manner. He is well suited to intelligence work, and plans to make KUBARK his career. The Station depends heavily on him because of his knowledge of Mexico, and his mobility as a Mexican. He works full time for KUBARK; cover company requires very little time.

In case of "New Hire" give a personality assessment in terms of capability, attitude, and projected suitability; state names of Division personnel who have interviewed him; give account of his performance in current non-Agency job.

<p>1. Station Mexico City fully agrees with Headquarters evaluation of Subject as a "valuable long term asset with stay behind potential." In order to place the matter of the 2,100 pesos in the appropriate frame of reference it is felt that a few background points should be noted.</p> <p>In January 1956 the LIMPTY/LILYRIC basehouse was set up and placed in operation in a site which provided visual coverage of the LIMERICK installation. A deposit of three months rent was made per terms of the rental contract at that time (2,100 pesos.) In April 1961 the building in which LIMPTY/LILYRIC is located was sold by the owner. Normally the rental deposit would have been transferred to the new owner as part of the sale transaction. However, approximately three months after the transfer of the property to the new owner, the rental deposit was returned to the basehouse operator, LIMPTY-15. The deposit was then returned to GERENDE. GERENDE did not inform the then LIMPTY case officer nor the present case officer of the return of the LIMPTY/LILYRIC deposit. This 2,100 pesos continued to be carried on the Station books as an outstanding operational advance charged to GERENDE. GERENDE used part of this 2,100 pesos to make loans to two sub-agents (LIMPTY-6 and LIMPTY-9.) It is probably that he also used some of this on occasion for his own purposes.</p> <p>On 16 October 1963 GERENDE returned the 2,100 pesos to the case officer and the Station has adjusted its books to reflect the return of this money. GERENDE noted at the time of the return that he had this money intact but did not know how to go about returning it so long after having received it. This is the same as he stated at the time of the LCFLUTTER interview. GERENDE was obviously impressed with his inability to "beat" the LCFLUTTER. He was sincerely remorseful when talking to the case officer</p>

about the incident and has twice stated that nothing of this nature would happen again. With the reality of future LCFLUTTER tests set firmly in GERENDE's mind, it is believed that he will not attempt any such action again.

As to what can be done of a positive nature (other than periodic re-LCFLUTTER) to prevent recurrence it must be noted that GERENDE kept apart the 2,100 pesos which were really still charged to him and the Station had no way of knowing that the money had been returned to him by the basehousekeeper. Only when the close down of the LILY/ LILYRIC basehouse would be effected would the Station expect to have the rental deposit returned. Until such time the deposit would remain charged to GERENDE. The only way to completely safeguard against this type of action would be for the case officer to meet directly with the basehouse keepers, thereby eliminating GERENDE from the operation and causing unacceptable security risks. It is believed that periodic LCFLUTTER of GERENDE is the best insurance against a similar occurrence in the future.

As to GERENDE's regular operational revolving fund, irregularities have never been discovered in his handling of these funds. Cash counts are conducted by the case officer to control the unspent portion of the revolving fund by comparison with accountings (receipts) GERENDE takes every two weeks. GERENDE's revolving fund is kept at the minimum amount consistent with efficient conduct of the operation for which GERENDE is responsible.

The "other false claims" GERENDE admitted making involved occasional use of his QP vehicle for personal driving while entering all receipts for gas on his KUEARK accountings. Station does not consider this a major problem. If GERENDE used his QP car for only operational employment any hostile surveillance of him would be relatively easy (i.e., surveilling only when he is using his QP vehicle) and it is believed that latitude must be allowed in this area for indigenous agents.

2. In the area of GERENDE's morale and his statement that he "is not being utilized to his full potential" the Station is as fully concerned as Headquarters. It should be noted however, that GERENDE has never written the report setting forth what he thinks he can do and when prodded on this has stated that he had been thinking about what additional work he could assume and that he "just does not know". The reason he gives is he does not know what else is being done in the operations area other than that to which he is already exposed. Additional operational work is assigned to GERENDE when this can be done securely and taking into account compartmentation of operations. An example of this was his introduction to the AMROD operation. Station is reluctant to expose GERENDE to additional operations only for the purpose of "improving his morale" since he already has considerable knowledge of many Station past and going operations. The Station appreciates Headquarters comments on the results of GERENDE's LCFLUTTER and will make every effort to determine the best possible utilization of GERENDE in the future.

Mr. Raymond H. Gerende

Dear Mr. Gerende:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 1 October 1955, as amended.

Effective 1 July 1959, the amendment effective 1 July 1959 to said contract is revised to read as follows:

(a) The figure \$4080 is deleted from the first sentence of paragraph one (1) entitled "Compensation" and in lieu thereof the figure \$4560 is substituted.

(b) The following paragraph is added after paragraph ten (10), entitled "Term":

"11. Terminal Payment. In the event your contractual relationship with the Government hereunder is severed for one of the reasons set forth below, you, or your estate, will be entitled to a terminal payment of one (1) month's compensation for each full year of your utilization by the Government after 18 March 1955. Said amount shall be calculated at the contractual rate of compensation applicable at the time said payment becomes due."

(a) Said contract is terminated by the Government under subparagraph (a) of paragraph ten (10) above, or

(b) Said contract expires and is not renewed by the Government, or

(c) Your resignation hereunder is accepted by the Government as being in its best interests (the Government's determination as to what constitutes its best interests shall be final and conclusive), or

(d) In the event of your death during the period said contract is in effect.

All other terms and conditions of the contract, as amended, remain in full force and effect.

1. As requested by reference, KURIOT is herewith forwarding the following:
(Confirming documentation charging you for this item will be issued in the near future.)
1 each Mineralight Model SL-3660
Long Wave Ultraviolet Lamp

2. For ordinary F&S work, the difference between long and short wave lamps is very minor and the long wave UV lamp should prove adequate for the needs of Raymond H. GEREDE. Should a special need arise demanding the use of a short wave UV lamp by GEREDE, it will be supplied by KURIOT.

3. Disclosure of the existence, advantages, or uses of short wave UV lamps, or in any way making available such lamps to other than KUBARK personnel requires prior Headquarters approval. A copy of Instruction No. 20-2 containing the basic KURIOT policy governing the use of short wave UV lamps is herewith enclosed for your guidance.

4. Short wave UV lamps embody a definite health hazard and should be used with caution. Short wave UV rays quickly cause sunburn, to which the eyes are particularly susceptible, and should not be used without wearing protective goggles. Ordinary eye glasses cut out most of the harmful rays, but even persons wearing glasses may receive harmful eye burns from UV rays entering at the sides of the glasses. Short wave UV lamps also produce small quantities of ozone so that the lamp should be used in a well ventilated room, which, of course, must also be darkened. For the above reasons, it is advisable to use only a long wave UV lamp whenever possible.

<p>1. In compliance with the KUBARK regulation, CSI-F No. 230-60, Annex A, concerning contact arrangements under emergency conditions, the following information, including recognition signals and bona fides, is forwarded for Headquarters records. Due to the sensitivity of the information, it was believed more appropriate to forward it separately rather than to include it with reference (Request for Renewal of Project LIEMPTY).</p> <p>2. Insofar as can be determined at the present time, GERENDE could probably be contacted at one of the following places:</p> <p>a. Present Residence: IDENTITY A</p> <p>b. Mother's Residence: IDENTITY B</p> <p>c. Cover Employment Address: IDENTITY C</p> <p>3. The following oral recognition signals, using the English language, are to be used as indicated:</p> <p>CONTACT: "Mr. (GERENDE-true name), I bring the most sincere wishes and greetings from your Aunt and Uncle."</p> <p>GERENDE: "Then you are referring to the <u>IDENTITY D.</u>"</p> <p>CONTACT: "No, I am referring to your other relatives in South Carolina, the <u>IDENTITY E.</u>"</p> <p>GERENDE: "Yes, Auntie is my Mother's sister."</p> <p>4. For use as physical bona fides, the Station is forwarding a one peso note with the serial number T348510 for Headquarters files. GERENDE has been given a one peso note with the next higher serial number, T348511, to keep in a safe place pending his having to show it to some future KUBARK contact. It has been explained to GERENDE that he is to show his half of the physical bona fides only after the recognition signals have been completely and accurately recited and his new contact has requested to see his physical bona fides. GERENDE has also been instructed to assure himself of his contact's bona fides by asking to see the contact's one peso note (T348510).</p> <p>5. Assuming that adequate time will be available at the beginning of an emergency condition, it may well be possible to instruct GERENDE in Secret Writing so that correspondence could be conducted using IDENTITY D or E addresses.</p>

1. In compliance with a Station Request, LIEMPT principal agent Raymond H. GURKINDE, is being given training in basic flaps and seals techniques. It is felt advisable to have a second person outside the Station who can service this type of requirement in case WULFORD is prevented from doing so by the security situation arising from the ALPHEA case.

2. As an aid to this training, a copy of the portion of the KURIOT Operations Manual (Section I.D.1.) dealing with basic flaps and seals work has been made and turned over to GURKINDE. A second copy is being forwarded herewith to Headquarters. This material was prepared on the basis of the content of the KURIOT training course of mid-1957. If KURIOT training is in possession of newer and improved techniques in this field and will make them available to WULFORD for use here, it would be greatly appreciated.

Reference (c) forwarded a contract amendment which provided increased compensation and a termination settlement for Raymond H. GERENDE. This dispatch also requested that the Station comment on the provisions of the Terminal Payment clause as written into this amendment.</p> <p>2. Since the provisions of the original contract amendment were written in general terms and did not specifically cover the circumstances under which GERENDE would be eligible for a terminal settlement as interpreted by the Station and outlined in reference (b), a revised contract amendment was written. The attached contract amendment also shows corrected compensation figures. The original contract amendment was incorrect due to the absence of the amendment, effective 1 September 1957, which increased GERENDE's compensation from \$3,600 to \$4,080.</p> <p>3. Since GERENDE's original contract was prepared at Headquarters and forwarded to you for execution and retention, this amendment should follow the same procedure. Therefore, the original and one copy are attached for your action and retention. Return one signed copy.</p> <p>4. Reference (a) requested Headquarters to comment on a two-year extension for GERENDE's contract, indicating that the extension should be from 1 July 1959, the date of the last amendment, to 1 July 1961. There seems to be some confusion on contract extension procedures which Headquarters would like to clarify at this point. Contract extensions are based on the date of the original contract not the amendments. Accordingly, GERENDE's contract, originally effective 1 October 1955 and extended to 30 September 1959, was further extended for a period of two years from 1 October 1959 to 30 September 1961.</p> <p style="text-align: right;">OLIVER O. Dear Mr. Gerende:

Reference is made to your contract with the United States Government, as represented by the Contracting Officer, effective 1 October 1955, as amended.

Effective 1 July 1959, the amendment effective 1 July 1959 to said contract is revised to read as follows:

- (a) The figure \$4080 is deleted from the first sentence of paragraph one (1) entitled "Compensation" and in lieu thereof the figure \$4560 is substituted.
- (b) The following paragraph is added after paragraph ten (10), entitled "Term":

"11. Terminal Payment. In the event your contractual relationship with the Government hereunder is severed for one of the reasons set forth below, you, or your estate, will be entitled to a terminal payment of one (1) month's compensation for each full year of your utilization by the Government after 18 March 1955. Said amount shall be calculated at the contractual rate of compensation applicable at the time said payment becomes due."

- (a) Said contract is terminated by the Government under subparagraph (a) of paragraph ten (10) above, or
- (b) Said contract expires and is not renewed by the Government, or
- (c) Your resignation hereunder is accepted by the Government as being in its best interests (the Government's determination as to what constitutes its best interests shall be final and conclusive), or
- (d) In the event of your death during the period said contract is in effect.

All other terms and conditions of the contract, as amended, remain in full force and effect.

<p>REFERENCE(S)</p> <p>A. HMMA-13063, 5 June 1959.</p> <p>B. HMMW-7959, 12 August 1959.</p> <p>1. Forwarded herewith as Attachment No. One is GERENDE's signed contract amendment. GERENDE is most appreciative for the raise in salary and is delighted with the new Terminal Payment clause.</p> <p>2. The Station interprets the Terminal Payment clause to mean any termination by the Government or acceptance of GERENDE's resignation in the "best interests of the Government." Examples in connection with the "best interests of the Government" interpretation would involve GERENDE's resignation for health reasons or other logical personal reasons such as a change of residence to some geographical area where his services could not be utilized by KUBARK. Assuming that no security problems are involved in making such a payment, the Station also interprets the clause to be applicable for payment to GERENDE's estate in the event of his death while in the employ of KUBARK.</p> <p>3. The Station understands clearly why the clause was not written as originally requested and concurs in Headquarters reasoning. Certainly, the Station would not want to give GERENDE a terminal payment, and he has been so informed, if he elects to resign just to receive some extra money or to pursue some other career. The Station hastens to add, however, that to the best of its knowledge, GERENDE has no intention of resigning from his present KUBARK job.</p> <p>4. As requested in Reference B, enclosed as Attachment No. Two are the original and one copy of the contract amendment dated 1 September 1957. Headquarters will note that the amendment was accepted by GERENDE and approved by the Chief of Station, but was not formally witnessed. It is suggested that Matthew S. DINGLEY (ps), who is presently in Headquarters, be requested to witness the document. DINGLEY was the Case Officer handling GERENDE at the time this amendment became effective.</p>

1. In accordance with your request to amend Subject's contract providing him with an increase in compensation and a termination payment, the attached contract amendment was written.

2. Paragraph (a) of this amendment states that the figure \$3600 is deleted from GERENDE's contract and in lieu thereof the figure \$4560 is substituted. This figure of \$3600 is the amount GERENDE was to receive under his original contract, dated 1 October 1955. According to the referenced dispatch, however, Subject's contract was amended on 1 September 1957 to provide him with an increase in compensation, bringing his salary up to \$4080. Neither Contract Division nor your area desk has a copy of this amendment. Please forward a copy to Headquarters for our files.

3. Your attention is also directed to the "Terminal Payment" clause. Under the provisions of the attached amendment, GERENDE is not eligible for a termination settlement if he resigns from KUBARK. Only in the event that we give him 30 days' notice of termination or fail to renew his contract is he eligible for this termination payment. Your comments on the stipulations as written into the attached amendment are requested. In the event you feel that GERENDE should be entitled to a termination payment should he resign his position, the clause will be rewritten.

4. The attached amendment should be returned to Headquarters with your comments and a copy of the contract amendment dated 1 September 1957.

MEMORANDUM FOR THE RECORD:

SUBJECT * Contract for GERENDE

In reviewing the last contract amendment, it came to note that CPD was deleting the original compensation figure of \$3600 instead of the figure sent by the Station which was \$4080. In checking this out, we find that we have no copy or notification of the amendment dated 1 September 1957 increasing his salary from \$3600 to \$4080. CPD is rewriting the contract without using a compensation figure for the amount to be deleted.

When we send this to the field, ask them to send us a copy of the contract amendment, dated 1 September 1957. Also inform them that they are to execute and retain the original copy of this new contract amendment. It may be well to point out that Subject's termination clause stipulates that he will received this benefit only if we terminate the contract.

ACTION REQUIRED Headquarters preparation of a new contract.		INDEXING CAN BE JUDGED BY QUALIFIED HQ DESK ONLY			
REFERENCES HMMW-5626, 3 December 1957					
<p>1. Raymond H. GERENDE was initially employed by the Station on 18 March 1955 under provisions of an oral agreement. Effective 1 October 1955 GERENDE was placed under a written contract, prepared by Headquarters, with an annual salary of \$3,600.00. On 1 September 1957 his contract was amended to increase his salary to \$4,080.00 per annum, which is the salary he is presently receiving. It is requested that a new two year contract be prepared, to be effective 1 July 1959, providing an increase in salary to \$4,560.00 per annum and including a termination clause which will give GERENDE a termination payment of one month's salary, calculated at the prevailing rate of compensation at the time of termination, for each full year of his KUBARK employment. All other provisions of GERENDE's initial contract should remain in force. (The increase in salary to \$4,560.00 per annum is already covered by the LIEMPTY Project.)</p> <p>2. As pointed out in the attachment to HMMA-11368, 22 October 1958, paragraph three of MEXI-2836, 25 November 1958, and in the LIEMPTY Field Project Outline, GERENDE is a highly valued full-time Station asset who carries a significant work load and who has a great deal of responsibility. He is the LIEMPTY Principal Agent who handles the LIMITED, LILYRIC and LICALLA base houses, the LIENTRAP operation, the outside photographic processing and translation service and all the agents participating in these activities. He performs his duties in a conscientious and professional manner and his already excellent abilities are showing continued improvement.</p> <p>3. Paragraph eight of HMMA-12095, 4 February 1959, indicated that the Station was considering amending GERENDE's contract to provide for some type of retirement benefits. Although it is recognized that indigenous agents are not usually granted such contract provisions, the Station believes that GERENDE should have monetary incentive, in addition to his ideology, to make a long career with KUBARK. Accordingly, the Station recommends that GERENDE's new contract provide for a termination settlement of one month's salary for each full year that he has worked for KUBARK. In other words, should GERENDE's career with KUBARK last for 24 years and his yearly salary at the end of this period is \$3,000.00, then he, or his heirs, would receive a lump sum payment of \$16,000.00. After considering different types of insurance plans, an escrow account and several other ideas, the Station considers the above proposal to come closest to meeting the criteria of control, production incentive and creation of the desire to make KUBARK a career. The date, 18 March 1955, should be used as the beginning date for the computation of GERENDE's termination benefits.</p>

1. It is requested that approval be granted to amend Raymond H. GERENDE's contract to provide him with a termination settlement of one month's salary for each full year that he works for KUBARK and to raise his salary effective July 1959 from \$4,080 to \$4,560.00 per year. His last salary increase was granted on 1 September 1957. The date, 18 March 1955, has been suggested by the Station as the beginning date for the computation of GERENDE's termination benefits. The Station believes that this benefit will provide GERENDE with the necessary incentive to make KUBARK a career and at the same time will give the Station an additional element of control.

2. As pointed out in the LIEMPTI Project Approval, GERENDE, an indigenous agent, is one of the Station's most valuable assets. He has a responsible full time job as the LIEMPTI Principal Agent who handles the LIMITED, LITMIRIC and LICALLA base houses, the LIENTRAP operation, the outside photographic processing and translation service and all the agents participating in these activities. He performs his duties in a conscientious and professional manner and his already excellent abilities are showing continued improvement.

3. Money was already allocated in the LIEMPTI Project approval for the salary increase. With the effective date of 18 March 1955, for the termination clause, GERENDE will already have accrued \$1,520 (his salary is \$4,560 per year) if he should resign today. The LIEMPTI Project, as approved, has sufficient funds to cover this cost if it is necessary to obligate this amount during the present Project year. Therefore, no additional funds are requested.

LIFTITY Progress Report - July thru Dec 1958

RE 03 - CHECK 1 ON

MAILED FOR INDEXING
NO INDEXING REQUIRED

Spec. for Headquarters information and files only.

INDEXING CAN BE DONE
BY QUALIFIED PERSON ONLYSYNOPSIS OF DEVELOPMENTS

1. During the period covered by this report, a new Case Officer, Quincey N. DUGLER, assumed operational direction of several LIFTICK assets (Oliver G. SCANTLING, Raymond H. GERLAGE, LIMITED, LICALLA, LIENTRAP and several support agents), the LIJERSEY surveillance team and the LILYRIC Base. The Section has continued to run SCANTLING, primarily, to follow up LIVESA leads obtained from LIFLA and the photographic bases; however, no positive results have been realized from his prodigious efforts except the collection of a considerable amount of operational information. GERLAGE performed his principal assignment regarding the photographic bases. LIENTRAP, LIJERSEY and until 19 December 1958 handled the LIFEAT/ECMORNING and LIFEAT/Colon radio operations. The LIJERSEY surveillance team has been used sparingly for prison interrogations and routine case surveillance as however, a principal agent, Albert D. CLACKETT, is currently being trained in Headquarters to assume the full-time direction, control, training and development of the LIJERSEY team. The progress, LIFTITY, covering all the assets discussed in this report was submitted to Headquarters on 3 October 1958 with requested project year approval period from 1 December 1958 through 30 November 1959. An operational security review of Raymond H. GERLAGE's activities was forwarded to Headquarters as an attachment to LHMMA-11363, 22 October 1958.

ACCOUNT OF DEVELOPMENTS - OLIVER G. SCANTLING SEGMENT

2. Agent Information - Oliver G. SCANTLING has continued to perform his assigned tasks as an outstanding member. SCANTLING's past, current name, education, ideology and native ability for the pursuit of clandestine activities make him one of the most valuable support assets available to the Mexico City Section. The fact that SCANTLING has full time overt occupation as Chief Engineer and Production Manager for a local manufacturing company adds to his long-range potential as a KUBARK agent. On two occasions during the past six months SCANTLING has indicated to his Case Officer that he would like to resign from his overt position and devote full time to his KUBARK operational duties; however, the Case Officer has discouraged him from doing this on the basis that he has more long-range potential when his cover occupation is legitimate. Of course, SCANTLING would be more realistic if he could work full time for the Section, but not sufficiently so to warrant his resignation from his overt job (a monthly salary in his overt job is in excess of \$300.00 U. S.). The only legitimate indication that SCANTLING has evidenced to his present Case Officer as his occupational duty is properly written reports of investigations and other routine reporting reports for the file. However, this indication gradually is being overcome and it is expected that SCANTLING's reports will continue to be factual, comprehensive and soon will be promptly submitted.

3. Security Developments - SCANTLING is consistently under a considerable amount of exposure and pressure when following up LIVESA leads obtained from LIFLA and the photographic bases. Since time is always of the essence when dealing with perishable leads, SCANTLING frequently is directed to make approaches to individuals performing services for the LIFTICK target after routine, and sometimes only cursory, investigation. Therefore, the possibility always exists of his subversion to an undesirable security interest. This necessarily

of a violent end which both SCANTLING and the States were told if participation in the primary target is achieved, whether voluntarily or by a recruitment in place. SCANTLING's credit that he has not yet become involved in an incident which would have compromised him and/or alerted the target of KLASA RK's many previous efforts against them. The closest SCANTLING has come to being compromised was to being identified as a LIPSTOCK agent stems directly from the LIPSTOCK investigation from May of June 1956. The call was made by the surveillance team was made by SCANTLING in his true name at the time that he was leader of the team. SCANTLING's place in Mexico, however, has been uncovered which points to SCANTLING's target of investigation by a local police service. SCANTLING and the target have been identified and will continue to watch closely for any sign of local police and other personnel involved in his activities.

A. Operational Success and Effectiveness - Partially discussed below are some of the many operational activities in which SCANTLING participated during the period covered by this report:

A. Juan CASTRO (201-) - SCANTLING continued seeing CASTRO through November 1956 following the last time plans of meeting the original LIPSTOCK / LIPSTOCK operation through CASTRO. As late as September 1956 participation was related, at reported as exact, that CASTRO would complete his work in the primary LIPSTOCK office and that it might be possible to forward MALLERITING, which CASTRO, through SCANTLING, was the principal source of this information. This was also confirmed by LIPSTOCK. During July, August and September 1956, SCANTLING had approximately eight meetings with CASTRO. In late September 1956 LIPSTOCK indicated that the LIPSTOCK target was being returned under the agreement of one of their regular local employees, Antonio "ZEPEDA" (201-209-221). To complete some of the work CASTRO was supposed to finish and that other employees were doing jobs around the target area which CASTRO would normally be expected to do had he still been in the employ of the target. Then LIPSTOCK and LIPSTOCK confirmed that the LIPSTOCK target had been returned to CASTRO - he was not seen visiting the target installation nor did the target people attempt to get in touch with him. In view of this, SCANTLING was instructed to cease all contact with CASTRO as of 1 November 1956.

B. Pablo "MAY" Roman (201-) - During the period covered by this report SCANTLING had two interviews with MAY Roman. SCANTLING's most recent report was forwarded to Headquarters as of a reference to KLASA-11143, 1 November 1956. Unfortunately the Station has identified MAY Roman as the technician who serviced LIPSTOCK radio set home. SCANTLING will continue his development of MAY Roman (please see KLASA-11711, 19 December 1956).

C. George "VENLES" (201-) - SCANTLING's activities in connection with the LIPSTOCK / LIPSTOCK operation were also mentioned in KLASA-11197, 20 October 1956, and previous correspondence.

D. HENRIETTA GABELICH - This is the first time that made the great visit was for the LIPSTOCK installation. SCANTLING made two visits to this man's work day and succeeded in obtaining enough information to make an

accurate casting of the type done handled at LIME ROCK. This drawing was forwarded to Headquarters via RAMA-11926, 21 January 1959.

E. Casting Report on West German Embassy - During June, July and August 1958, SCANTLING prepared a detailed casting report on the West German Embassy. SCANTLING's report, which contains him to prepare accurate drawings and sketches from a multitude of data. Also, his personality and professional manner permit him to visit the inside of such establishments, with an opportunity to cover story, and receive minute details which later he converts to paper and images with a comprehensive floor plan and important construction data.

F. LIME ROCK Construction - SCANTLING's long association with this target from the casting standpoint provides the Station with an unparalleled source of information about LIME ROCK's construction from early plans, modifications and progress to present. All of the LIME ROCK casting reports on file in Headquarters are the product of SCANTLING's unusual ability and knowledge. SCANTLING keeps Headquarters Officers abreast of LIME ROCK construction from house to house in the post marking in the reporting period and they will continue to be of worthwhile importance.

G. Routine Investigations and Surveillance - Although the Station has several assets capable of performing investigations and surveillance, SCANTLING is still used in situations requiring the utmost in discretion and effectiveness. His activities in this connection are not restricted to the target; suffice it to state that he has contributed materially to the Station's collection of operational information through his investigative efforts. SCANTLING's interview of Hans F. Dietrich, KILLOGG (LH-45149) of LCMAY-KOVL, is an example of SCANTLING's use in investigations (see RAMA-11749, 17 December 1958).

H. ESCORT-15 - SCANTLING served as the escort with ESCORT-15 during the latter's December 1958 trip to Mexico City. In this connection SCANTLING is a support asset which is trustworthy and dependable. SCANTLING never displays undue curiosity in operations such as the ESCORT-15 case; he accepts the information source of information given and performs his duties in a professional and discreet manner.

I. LCMAY-13 - SCANTLING has been the administrative liaison connected with L/3. LCMAY-13, KILLOGG provides operational direction to L/3. During this reporting period, the Station had hopes of SCANTLING taking over the operational supervision of L/3's activities. However, after a four-month trial period with both SCANTLING and KILLOGG meeting with L/3, it was decided that it would be desirable for KILLOGG to continue handling L/3. L/3's personality and intellect indicated that he could best be directed by a KILLOGG command. Therefore, SCANTLING no longer handles KILLOGG's and L/3's operational matters, although he does continue to handle L/3's administrative problems.

J. Raymond H. GERSHBERG's Duties - During GERSHBERG's absence from

Mexico City in December 1958 and January 1959. It was considered appropriate for SCANTLEB to handle LIMITED, LICALLA and LIENTRAP. Although this procedure follows some correspondence principles, it was the only manner in which the Station could maintain continuity with these operations it used before. SCANTLEB has known the agent involved with LIMITED, LICALLA and LIENTRAP for several years. In fact, he was at one time the agent in charge of these three operations.

5. Operational Methods Employed During the Period - The VIDALES operation in so far as it is (1) suited to the situation the necessity for thorough intelligence and discussion with the agent making an approach to a target. This can be fully be described as a new operational method, but it does serve to the same end as the method of work that should be followed. The information for LIENTRAP IV operation wherein SCANTLEB must make the bulk of the target's holding in order for SCANTLEB and the Station the opportunity to prepare a thorough plan for SCANTLEB's recruitment work. The operation commenced proper as by SCANTLEB and the way being created by SCANTLEB and the Station should increase the working strength on SCANTLEB's own approach. (See ISMAA-11364, 12 October 1958, and ISMAW-7003, 21 November 1958, for additional details on this subject).

6. Current Status - One other comment can be made about any Station's support operations - where technical and photographic operations are possible, the quality of the information obtained is almost of considerably by means of, particularly in the case of SCANTLEB, as previously mentioned, for an operation new for this type of support.

7. Compensation - SCANTLEB's contract expires on 15 February 1959. As of that date SCANTLEB will have received an annual salary of \$3,600.00 U. S. for two years. The Station plans to raise his annual compensation to \$4,000.00 U. S. for other significant administrative problems exist.

8. Outlook for Future Development - Station plans call for the continued use of SCANTLEB in the same manner as he is presently being used. The Station will keep SCANTLEB as an independent agent and, if it is found, rather the temptation to make him a principal agent in charge of numerous sub-agents. It is believed that SCANTLEB is the type of support agent that can be worked for in the Station for many years to come and that every effort should be made to protect his security and value to KLASA BX.

ACCOUNT OF DEVELOPMENTS - RAYMOND H. GERARD SCANTLEB

9. Agent Information - Aside from the agent information given in ISMAA-11364, 22 October 1958, the only significant development was GERARD's December 1958 marriage to a U. S. educated girl of Dutch citizenship. The \$3,600.00 U. S. for the purchase of two plane tickets as a wedding gift to GERARD was assigned to pay him GERARD with the fact that KLASA BX thinks highly of him as an individual and that KLASA BX has a great interest in his intelligence career. GERARD is at the age and stage in life where he is beginning to wonder just what the future holds for him. In the near future, the Station will propose a salary raise for GERARD.

and request a new contract that provides for some type of retirement benefits - perhaps similar to the Civil Service Retirement program for KLMARK employees.

9. Security Developments - Again, the information on this subject was covered adequately in "DISPATCH". GRENDE was relieved of his LIFEAT/SECURITY and LIFEAT/Ordnance duties on 10 December 1968. This, of course, was in line with recommendations contained in FORMA-11-65 and represents a critical security development. GRENDE was told the LIFEAT/SECURITY was being terminated because it had not been productive of enough significant information and that LIFEAT/Ordnance duties were being centralized because the group was of the type that would not move. This was true where the Ordnance are concerned. Additional security improvements will be made when State II, CLACKETT returns to office and releases GRENDE of responsibility for the LIFEAT/SECURITY activities.

10. Operational Success and Efficiencies - Briefly summarized below are the reports of operational activity for the LIFEAT/SECURITY managed during the period covered by this report:

A. LIMITED - This base functioned smoothly, sanely and efficiently during the period July through December 1968. The base operator, LIFEAT V/6 demonstrated his usual competence and devotion to duty. In addition to the primary objective of taking photographs of individuals of interest, L/6 also prepared detailed daily logs on the arrivals and departures of all target personnel, weekly reports of work area activities as the LIFEAT/SECURITY base let him, prepared three one-man surveillance plans as of December working as LIFEAT V/6 in an effort to identify them by name and home address, and provided SCANTLING with information on LIFEAT/SECURITY construction. During this six-month period, LIFEAT V/6 took approximately 800 photographs from the LIFEAT/SECURITY base.

B. LELYAC - This base is operated by LIFEAT V/13 and 14, with LIFEAT V/12 serving as a liaison between the base and GRENDE. LIFEAT V/14 does most of the photography and reporting for the base since LIFEAT V/13 has a regular job and is not on the premises during regular daytime working hours. L/14 devotes approximately six hours (0600-1200) each day to photography and the remaining time is spent preparing reports. The base personnel compile individual logs on each target personality including their arrivals and departures from the LIFEAT/SECURITY base. These reports are filed in 120 copies (one for each target personality and one for each officer in analyzing a target personality's pattern of daily activity). LELYAC also prepared a weekly report on work area activities as the Club and reports the license plate numbers of all vehicles charging or picking up individuals at LIFEAT/SECURITY. (Note: These license plate numbers are then checked out through LIFEAT V/13 (L/13) for the owner's names and addresses - in case of an unusual or interesting operational interest.) During GRENDE's recent absence from Mexico City, GUNTER met directly with LIFEAT V/12. During this period approximately 12,000 photographs were taken from the LELYAC base.

C. LICALLA - While LELYAC and LIMITED are composite bases for photographing individuals entering and leaving the LIFEAT/SECURITY base let him, the LICALLA base is the station's best source of photographs of LIFEAT/SECURITY

activity. LICALLA is an element that photographs can be made of anyone present in the garden area of LAMERICK. LIEFTY/9 is the base operator for LICALLA and in the Station's opinion performs his job in an excellent manner. As reported in HIRMA-11104, LIEFTY/9 is the brother of former LIEFTY/27 (the later LIEFTY surveillance team member arrested in Jan-1953). No recommendations, or indications of any wrongdoing, have resulted in this recently reformed team. This, certainly, is the major security problem faced by L/9 during this reporting period. L/9 and his family even will have to vacate the LICALLA base for the period of time required to complete it. The Station is quite sure that L/9 does not know that his current assignment over the LICALLA base and the three adjoining houses and every effort is being made to prevent this man from L/9. (See HIRMA-12002, 28 January 1953, for a more detailed explanation.) Of course, during the remainder of LICALLA there will not be any LICALLA reporting or photographs. In addition to taking approximately 2,500 photographs during this assignment period, the LICALLA base also played a major role in LAMERICK garden activities. These reports include which LAMERICK employees are seen together and day, which vehicles of these employees are seen together and day, construction activity and other matters which appear of significance to L/9.

D. LIENTRAP - LIENTRAP continues to be a worthwhile Station asset. Approximately 1,400 clandestine photographs have been made of numerous targets during this reporting period and LIENTRAP type activities will continue to remain one of the Station's best surveillance assets. As explained in the report from just October, forwarded to Headquarters on 8 October 1953, the Station is of the opinion that the LIENTRAP vehicle should be replaced as soon as possible. Nearly four months have elapsed without receiving Headquarters authority to replace the vehicle. The necessary action is now being taken to the end of the request. LIEFTY/13 and 14 do an excellent job as LIENTRAP operators.

E. LYRSHY - This operation can be characterized as somewhat dormant for the July - December 1953 period. Because of GERSHKE's other important activities, he did not have the time to train and work with the surveillance team. Also, the Station considered that it would be stretching security just a bit too far to have GERSHKE engaged in surveillance at the same time that he was handling the photographic base bases and performing monitoring duties for LIFEAT/BOBROWING and LIFEAT/Cuba Exile. The expected arrival of Simon D. CLACKETT in April and his relieving GERSHKE of LIFEAT with certain the Station to take, within a year, as of the time with the surveillance team. At present, LIEFTY/15, 16 and 17 compose the LYRSHY team.

F. LIFEAT - Until 10 December 1953 GERSHKE served as member in the base base consisting LIFEAT/BOBROWING and LIFEAT/Cuba Exile. In addition to living in the base house, GERSHKE also trained that the majority of the BOBROWING and Cuba Exile tapes. He performed these jobs satisfactorily even though his efficiency was hampered by numerous other duties. Relieving GERSHKE of his LIFEAT duties enables him to devote more time to his other operations with a corresponding increase in the security of all his activities.

C. LIEMPTIC/4 and 5 - LIEMPTIC/4 does a truly professional job of developing and printing the black and white photographs. His significant developments consisted in relation to L/4 except that OMLER met directly with him during the December 1953 period that GRENDE was away from Mexico City. LIEMPTIC/5, L/4's wife, continued doing routine translations in a very competent manner.

11. Advised situation - Other than the fact that LIEMPTIC and the above-mentioned portions of the LIPTEX projects were considered into this new project, LIEMPTIC, there is nothing of significance to report to the Quarter.

12. Carroll for Future Developments - Although not meaning to be repeat but in view of the fact that these recommendations made above, a summary of the situation on the future of the LIEMPTIC GRENDE Segment is believed to be appropriate. On the arrival of CLACKETT in April, GRENDE will be free to devote all his time to photographic black and white operations. GRENDE can do a lot to professionalize these operations by preparing written communications procedures, by thoroughly reviewing black and white operations on their methods of operation, by preparing detailed security reviews on each black and white by supervising the trial of new photographic equipment. GRENDE will continue to be used as an occasional consultant on technical matters and to perform other services for the Division which will not require the security of his primary regular affiliation. It is planned that CLACKETT will put some time into the LIEMPTIC surveillance team and that the Division will soon have another first class investigative group to support other Division operations.

MEMORANDUM FOR: WJ/AS - Projects Branch

SUBJECT: Wedding Gift for Raymond H. GERRARD (ps),
Contract Agent

1. It is requested that the Mexico City Station be authorized to give Raymond H. GERRARD (ps), as a wedding gift, two airplane tourist class tickets from Mexico City to San Francisco and Washington D.C. and return to Mexico City. Although this trip may appear to be a generous and unusual wedding gift, the Station considers it is more than justified in view of GERRARD's outstanding performance of his duties for the Station and his future value as a principal agent. GERRARD has been working for the Station since February 1955.

2. The Station estimates that the cost of the plane tickets will be \$600.00. The LIFE TICK Project, which covers GERRARD, can absorb this added expense.

OPERATIONAL SECURITY REVIEW OF
RAYMOND H. GERENDE'S
OPERATIONS AND ACTIVITIES

1. SITUATION

As a result of the June 1958 LIPSTICK flap, it was decided by the Chief of Station on 30 June 1958 that Quinton N. OUSLER would assume direct contact with several of Matthew S. DINGLEY's agents, one of whom was Raymond H. GERENDE. After being introduced to GERENDE by DINGLEY on 1 July 1958, OUSLER assumed contact responsibilities with GERENDE on 2 July 1958. On 18 July 1958, the Chief of Station decided that OUSLER should be assigned permanent responsibility for the management and handling of GERENDE and GERENDE's operations.

2. PURPOSE

The purpose of this operational security review is threefold:

- a. To identify possible security problems and conditions;
- b. To establish a framework for recommendations which will result in the Station's submission of a new support project (LIEMPT) with Raymond H. GERENDE as a principal agent; and
- c. To acquaint the new case officer with the operational problems and agent personnel with which he should have a comprehensive knowledge and detailed understanding.

3. PRINCIPAL AGENT - Raymond H. GERENDE

a. Background - GERENDE has been employed by KUBARK since 18 March 1955, which was just prior to his graduation from the Mexico City College. He is now only 24 years of age, but in the Station's opinion, is a mature, experienced and dedicated KUBARK contract agent. During the three and one-half years that he has been working for the Mexico City Station, GERENDE has participated in a varied assortment of support and intelligence operations. Initially, he was trained and used by Matthew S. DINGLEY as a member of the LIPSTICK surveillance team. In addition, to surveillance work, he was used as an investigator to collect operational data on persons and organizations of interest to the Station. He quickly demonstrated a capacity for leadership and at one time was the leader of the LIPSTICK team. He has been used as a LIFEAT Base House operator

SECRET

14-00000

SECRET

and processor of tapes; he has excelled in this type of work because of his bi-lingual Spanish/English facility and, more importantly, due to his diversified experience in clandestine operations which permits him to spot operational leads much more readily than the average LIFEAT monitor.

b. **Duties** - GERENDE is currently serving as the principal agent in charge of LIMITED, LICALIA, LIPSTICK Photo Truck, LIJERSEY Surveillance Team and LILYRIC. In addition, he monitors and processes the BGMORNING and Cuban Exiles LIFEAT taps. He also supervises the photographic processing of LIPSTICK-38 (his brother-in-law) and the translation work of LIPSTICK-40 (his sister). He maintains contact with and provides administrative support to LIMITATIONS 5 and 6, LICOOL-7 Base operators. Quite obviously GERENDE's many duties overlap the bounds of several Station operations, namely LIPSTICK, LIJERSEY, LIFEAT, LICOOL and several activities which are not listed under formal projects such as BGMORNING. It is recognized by the Station that it is not advisable to have one principal agent connected with as many operations as is GERENDE. However, the present scarcity of both staff and contract agents of the principal agent type necessitate such efficiency measures. Every effort is being made to compartment the various segments of GERENDE's operations and to decrease, and to eliminate where possible, all lateral communications between agents.

c. **Security Problems** - The most serious security situation surrounding GERENDE and his many activities is the fact that LIPSTICKS 12 and 30 (two of the LIPSTICK Team members arrested in the June 1958 flap) know GERENDE by true name, and knew that he also worked for KUBARK. In fact, LIPSTICK-30 is a close personal friend of GERENDE's and was originally recommended for KUBARK employment by GERENDE. The operational security hypothesis that can be constructed from these existing acquaintances are too numerous to list in this brief review; suffice to say that should GERENDE be arrested by one of the local police agencies, most of the remaining support assets would be destroyed or so seriously compromised that the Station would indeed be foolish to continue using them. It is appropriate to state here, however, that neither GERENDE nor the Station believes that GERENDE has yet been named or otherwise identified as a result of the LIPSTICK flap. It is granted though that any future questions by one of the local police agencies to the compromised LIPSTICKERS represents a continuing type of danger for GERENDE. Based on the duties which GERENDE is currently performing, the readers of this review can well imagine what the consequences to several operations

SECRET

SECRET

would be if GERENDE were arrested by one of the local police agencies and interrogated in detail. Also, the Station must forever be aware that the local police agencies are certainly capable, for only a few dollars, of selling information concerning KUBARK to the Soviets and/or Satellites.

d. Recommendations - It would be unwise to consider terminating GERENDE since he is a highly competent agent and since his termination would not eliminate the fact that he knows a great deal about the Station's support operations. He has been reminded several times, and the Case Officer will continue to remind him, that his tradecraft professionalism must improve and stay ahead of the increasing sophistication of the local police agencies and opposition services operating in Mexico.

It is the opinion of the Station that GERENDE should continue to be used in about the same manner that he is presently being used. It would be advisable, however, to separate him from the two LIFEAT functions he is currently handling, BGMORNING and the Cuban Exile taps. This is suggested not only because of the possible future security ramifications, but also because GERENDE does not have time to run properly his support mechanism and to monitor taps seven days a week.

To provide for a situation whereby one of the local police agencies becomes aware of GERENDE's illegal activities and assuming that either GERENDE or the Station learns of this before the local police agency can take positive action, it is imperative that a warning system of communications be established to facilitate GERENDE's removal from Mexico. Arrangements such as those used for Wilfred O. CLOWER could be set up or local arrangements could be made with ODUNIT or ODOATH for a more expeditious exit from Mexico. The Case Officer will develop this plan in detail.

4. OPERATIONS

a. Limited

(1) Target - Stationary photographic surveillance of persons entering and leaving the LIMERICK installation.

(2) Personnel - LIPSTICK-14 is the agent in charge of the LIMITED Base. According to GERENDE, LIPSTICK-14 is conscientious, security minded, speaks no English, and on occasion is a bit over confident. He performs his operational duties competently and with discretion. In addition to his photographic duties, he is also used occasionally as a one-man

SECRET

SECRET

foot surveillance to follow individuals leaving the LIMERICK installation, LIPSTICK-14 receives a monthly salary of \$1,800.00 (MN) and free rent and utilities at the LIMITED Base. His wife (LIPSTICK-27) and son (LIPSTICK-28) live with him at the LIMITED Base.

LIPSTICK-28 until 15 July 1958 assisted his father with photographic work at the LIMITED Base. However, on the above date he decided to resign from his LIMITED job and, strange as it may seem, to devote full time to working on a chicken farm. LIPSTICK-28 made this decision on his own and against the wishes of his father. He will continue to live at the LIMITED Base and it is believed that no security problems will result, since any security difficulties could adversely affect his mother and father. Although LIPSTICK-28 has been terminated and a termination report forwarded to Headquarters, it is suggested that we maintain his operational approval since he continues to live in the LIMITED Base.

(3) Communications - At the present time GERENDE meets with LIPSTICK-14 three times a week at contact points away from the Base. They have seven separate contact points which are used for their meetings. Usually the place of contact is pre-arranged at the previous meeting; however, a rapid means of communication exists whereby GERENDE telephones LIPSTICK-14 and through a pre-arranged open code, [redacted] numbers, sets the time and place of contact. LIPSTICK-14's overt occupation is [redacted] consequently, there is a cover basis for such a telephonic conversation. A reserve system of communication with LIPSTICK-14 has not yet been arranged. GERENDE has been instructed to do this as soon as possible, thereby giving the Station a means to contact LIPSTICK-14 directly should the need ever arise.

(4) Security - Excluding KUBARK staff personnel, the LIMITED Base is known to LIPSTICKS-2, 14, 27 and 28 and to Oliver G. SCANTLING and Raymond H. GERENDE and possibly to LIPSTICK-12 (GERENDE's opinion). Since LIPSTICK-14 has known LIMEWATER (LIFEAT Project) for many years and since LIMEWATER is LIPSTICK-2's brother, it is important to recognize that the desirable degree of compartmentation between LIPSTICK/LIMITED and LIFEAT probably does not exist. Although LIMEWATER must be aware of LIPSTICK-14's and 2's PEPRIME employment, it has not been possible to ascertain the extent of LIMEWATER's knowledge about their specific activities, and vice versa. LIPSTICK-14

SECRET

SECRET

worked with James O. AYCALL (LIMESTONE) during WW-II; however, he claims that the only members of AYCALL's family that he ever met was AYCALL's "alleged wife." Since she saw him only one time many years ago, LIPSTICK-14 does not believe that she would recognize him now.

Neither GERENDE nor LIPSTICK-14 are aware that KUBARK owns the LIMITED Base House. The extent of their knowledge is that LIMOUSINE is the owner and we simply rent from him.

(5) Recommendations - It is recommended that GERENDE continue to meet with LIPSTICK-14 and to supervise his operation. In this connection, GERENDE has been instructed to reorganize his existing communications arrangements with LIPSTICK-14 to include a new regular system, a rapid non-scheduled system and a reserve system. Also, GERENDE is to review with LIPSTICK-14 their cover reasons for meeting and knowing each other and to be prepared to use this cover story should they ever be apprehended together.

LIPSTICK-14 was instructed on 8 August 1958 to cease all social and business contact with LIPSTICK-2. Oliver G. SCANTLING, who has previously handled LIPSTICK-14 and sees him occasionally even now, has been directed to cease all contact with the LIMITED Base and LIPSTICK-14 except when approved by the Case Officer. (NOTE: It is necessary at times for SCANTLING to debrief LIPSTICK-14 for LIMESA leads).

b. LILYRIC

(1) Target - Stationary photographic surveillance of persons entering and leaving the LIMERICK installations.

(2) Personnel - LIJERSEY-5 is personnel manager of a Mexican affiliate of a large PBPRIME company. In addition to serving as a spotter for potential surveillance team members, he also serves as the cutout for the LILYRIC Base. GERENDE manages and directs the LILYRIC Base through LIJERSEY-5. LIJERSEY-5 maintains direct contact with LIJERSEY-2, the Base House operator, and his wife, LIJERSEY-12, who does most of the photographic work. LIJERSEY-5 is a PBPRIME citizen. He is paid a monthly salary of \$1,000.00 (MN).

SECRET

SECRET

LJERSEY-2 is the LILYRIC Base operator. He is a Captain in the Mexican Army Reserve and is also employed [redacted] as an industrial engineer. He receives a monthly salary of \$1,000.00 (MN) and he and his wife live rent and utilities free in the LILYRIC Base.

LJERSEY-12 is the wife of LJERSEY-2. She does most of the photographic and reporting work at the LILYRIC Base and has proven herself to be a capable and worthwhile asset. It has been necessary for her to become proficient in the LILYRIC work since her husband works at his regular job during the day. She receives a monthly salary of \$800.00 (MN).

(3) Communications - GERENDE contacts LJERSEY-5 twice weekly at prearranged contact points during the late afternoon hours. LJERSEY-5 contacts LJERSEY-2 two to three times weekly at prearranged car contact points and receives the "take" from the LILYRIC Base. On occasion GERENDE has contacted LJERSEY-2 directly, but this procedure is used only when LJERSEY-5 is out of town or otherwise not available. GERENDE does not know LJERSEY-12 or vice versa. No reserve system of communications exists whereby a Station officer could contact LJERSEY-2 directly should the need arise; however, GERENDE has been instructed to set up such a system of communications. The same will be done with LJERSEY-5, although he is known to several Station officers and little difficulty would be experienced in contacting him directly.

(4) Security - The security of the LILYRIC Base appears, at least on paper, to be in better shape than the Limited or LICALLA Bases. Insofar as the Case Officer has been able to determine, the only indigenous agents aware of the LILYRIC Base are GERENDE, LJERSEYS 2, 5 and 12, and LIPSTICKS 38 and 40, and all of these individuals have a close connection with the operation of the Base. The only tie-in the LILYRIC Base has with the LIPSTICK operations is through GERENDE.

(5) Recommendations - GERENDE has been instructed to change his meeting plans with LJERSEY-5 and to review the communications set-up between LJERSEY-5 and LJERSEY-2 (L-5 and L-2 are long-time friends and, consequently, the cover problem is minimized). A staggered schedule of coverage of the LIMERICK target between LILYRIC and LIMITED was initiated on 18 August 1958. Although the operators of these two bases are unaware of the existence of the other, a suitable cover story has been worked out to satisfy any

SECRET

SECRET

curiosity that LIPSTICK-14 and LIJERSEYS-2 and 12 may have. This procedure is believed desirable due to the confining nature of the photographic tasks and the lack of additional personnel to assist at each of the bases. Also, this staggered schedule of coverage should reduce some of the duplication presently coming in from the two bases.

c. LICALLA

(1) Target - Stationary photographic surveillance of persons and activities in the garden area of the LIMERICK installation.

(2) Personnel - LIPSTICK-39, his wife and three small children live at the LICALLA Base. He is an [redacted]

[redacted] and works at his cover job in the evenings. LIPSTICK-39 does an excellent and conscientious job of photographic coverage at the LICALLA Base. In addition to the photos he takes, he writes a narrative description of the events which take place in the target's garden area. He receives a monthly salary of \$2,000.00 (MN) and free rent at the LICALLA Base.

(3) Communications - GERENDE meets LIPSTICK-39 twice weekly, usually on Tuesdays and Thursdays. They have four contact points, one of which is selected at each meeting for use for the next meeting. In the event that contact is not established, GERENDE has the initiative in contacting LIPSTICK-39 by phoning him at the bus line office during the evenings. Then, by prearranged open code, a meeting site and time are agreed on. Since Oliver G. SCANTLING is also acquainted with LIPSTICK-39, it would be possible to contact him through SCANTLING should something happen to GERENDE. However, to facilitate proper and secure communications procedures, GERENDE has been directed to establish a reserve system of communications with Lipstick-39, using the customary oral and physical bonafides.

(4) Security - The most serious security problem concerning LICALLA is the fact that LIPSTICK-39 is the brother of LIPSTICK-47 [redacted]

[redacted] Although it is generally believed by Station officers that LIPSTICK-39's name was not mentioned by LIPSTICK-47 nor that any indication was given concerning LIPSTICK-39's job, it must be understood that should the local police agency decide later to interrogate LIPSTICK-47, the probability exists of compromising LIPSTICK-39 and LICALLA. The Station sees no way to overcome this possibility.

SECRET

SECRET

It is important to note here that LICALLA occupies one of the four LIMUST properties. While it is believed that LIPSTICK-39 does not know that KUBARK owns the Base or has anything to do with the other three houses, it is entirely conceivable that should one of the local police agencies or the LIMERICK personnel become aware of LICALLA activities, they could very easily arrive at some logical conclusions about all of the LIMUST property. This would be detrimental, if not fatal, to our aims. However, another Station viewpoint on this same problem is that if compromised, LICALLA would divert suspicion from, rather than to, LIMUST. Should one of the local police agencies begin an investigation which might involve LIMUST and LICALLA, then LICALLA could be sacrificed to protect the LIMUST Base. These possibilities become somewhat theoretical and perhaps impractical due to the lack of predictability of the local police agencies, but nevertheless must be weighed one against the other.

In view of the apparent importance of the LIMESA/LIMUST operation a lot of thought and discussion have transpired at the Station about continuing the LICALLA operation in its present location or suspending it for the immediate future and attempting to find another suitable location away from the LIMUST property. A sound argument can be made for terminating the base since such an alternative might have the effect of limiting any knowledge LIPSTICK-39 may have about the LIMESA/LIMUST installation. However, the termination of a productive base such as LICALLA would require an explanation to LIPSTICK-39 which could not help but leave him a bit suspicious. For Headquarters information, the local rental laws are such that LIPSTICK-39 would not be able to comprehend why we did not insist on him maintaining "squatters rights" (as stated previously, LIPSTICK-39 apparently does not know that we own LICALLA or even have an interest in any of the other LIMUST properties which can easily be done in Mexico. Therefore, any attempt to terminate LICALLA might cause more of a security problem with LIPSTICK-39 than permitting LICALLA to operate as it is now. Another possibility would be terminating LIPSTICK-39 and putting another agent in the present LICALLA Base. If this measure were followed, it would not eliminate the fact that LIPSTICK-39, even if terminated, would still know of the existence of the present LICALLA Base. Still another possibility would be to terminate LIPSTICK-39 and the LICALLA Base; however, since LICALLA and the other LIMUST properties are ostensibly owned by one man, LIMOUSINE, suspicions and investigations could still lead to LIMUST.

(5) Recommendations - The Station is inclined not to "rock the

SECRET

SECRET

boat" at this stage of the game and suggests that we maintain LICALLA at its present location and with its present operator, LIPSTICK-39. One alternative appears to be about as good as another in this case, and it is an acknowledged fact that LICALLA, at its present location, is a worthwhile and productive asset. Headquarters ideas and comments on the LICALLA Base would be appreciated.

At the present time it is planned to move LIPSTICK-39 and family to a furnished apartment when the time comes to remodel the LICALLA Base. After completion of the remodeling, LIPSTICK-39 and family will return to the present LICALLA Base.

d. PHOTO TRUCK

- (1) Target - Investigative asset used for taking surreptitious photographs of persons, places and things that are from time to time of interest to the Station and Headquarters.
- (2) Personnel - LIPSTICK-2, as indicated by the low numerical designation of his cryptonym, has been employed by KUBARK for several years. At the present time LIPSTICK-2 is responsible for the day-to-day operation of the photographic surveillance truck. He is also used occasionally to spot and rent operational apartments. In the past, LIPSTICK-2 has served as team leader of a low level surveillance team (which was compromised and subsequently disbanded), as a LIFEAT line inspector (when he was not busy with the photo truck), and as a static surveillance man (i.e., used as an outside sentry during the March 1958 entry of the LIMUST Base by KUTUBE/D, KURIOT and KUCLUB technicians. (NOTE: LIPSTICK-2 was assigned the task of watching the entire area during the day for any unusual activity on the part of target personnel. He was not told that he was to watch a specific house. He was dismissed from his static surveillance before dusk and the Headquarters technicians did not enter LIMUST until after 2030 hours.) LIPSTICK-2 is the brother of LIMEWATER (LIFEAT Project) and LIPSTICK-34 (LIPSTICK Surveillance team member) is LIPSTICK-2's wife's nephew. LIPSTICK-2's cover is buying and selling cars; however, about the only business he has in this connection is when he buys and sells cars for KUBARK. His cover is quite weak. He receives a monthly salary of \$3,200.00 (MN) plus \$600.00 (MN) per month for the use of his personal car.

SECRET

SECRET

LIPSTICK-24 does not know GERENDE and, presumably, knows only LIPSTICK-2, with whom he works on the photo truck. His cover is as a salesman of electrical appliances; however, he does not pursue his cover job to the desirable extent. LIPSTICK-24 was recruited by LIPSTICK-2 about one year ago and is currently receiving a salary of \$1,000.00 (MN) per month. Since he has now worked a year for the Station, and performed satisfactorily, his salary should be raised to \$1,200.00 (MN) per month (LIEMPTY will provide for this increase).

(3) Communications - GERENDE meets LIPSTICK-2 two to three times a week. These meetings are arranged by phone and take place at previously selected contact points which can be referred to in telephonic conversations by innocent sounding code names. LIPSTICK-2 also knows GERENDE's true name, where he lives, and his phone number. In the past he has had occasion to telephone GERENDE at the latter's home. LIPSTICK-2 knows DINGLEY, and could, in an emergency situation, contact DINGLEY. However, GERENDE has been instructed to arrange a complete communications plan with LIPSTICK-2, including a reserve means of contact. For security reasons, GERENDE has been instructed to inform LIPSTICK-2 that his only contact is with GERENDE and that in the future he is not to contact anyone else in the organization without GERENDE's permission. Also, that should contact with GERENDE be disrupted, he is to await for the higher echelon to establish contact with him (all agents under GERENDE are being so instructed). This is particularly important in the case of LIPSTICK-2, since he has by-passed GERENDE in two or three instances in the past.

(4) Security - Probably the most serious security situation involving the photo truck, LIPSTICK-2 and LIPSTICK-24 is the basic knowledge of the LIPSTICK surveillance team that such an asset exists, even to the point that one of the team members (LIPSTICK-34) is the listed owner of the photo truck. The personal knowledge of LIPSTICK-2 about the LIFEAT operation also represents a security hazard of the first class. For example, if LIPSTICK-2 were compromised and arrested as a result of his activities, there is a possibility that he could compromise his brother, LIMEWATER, the LIMITED Base and LIPSTICK-14, GERENDE and our interest in the highly sensitive LIMESA/LIMUST operation. (NOTE: According to the LIFEAT Case Officer and the former LIPSTICK Case Officer, both LIMEWATER and LIPSTICK-2 have been reminded on several occasions during the past few years that they were not to discuss any aspect of their operations with each other. Also, LIPSTICK-2, to the best of the Station's

SECRET

14-00000

SECRET

knowledge, does not know the location of any of the LIFEAT Base houses).

A new truck should be purchased as soon as possible to replace the present truck. The new truck should be purchased in an assumed name and vehicle papers should list an untraceable address. LIPSTICK-2 has already been informed that he is to have no contact with LIPSTICK-14 or any other operational personnel he may know except, of course, LIPSTICK-24, with whom he works, and GERENDE, who supervises his activities. In addition to the above, the Station should begin thinking about a replacement agent for LIPSTICK-2 and every effort should be made to set up an independent and compartmented photo truck operation. This would permit the eventual termination of LIPSTICK-2, after we have given him several months to reduce his knowledge of current operations.

6. LJERSEY

(1) Target - Foot surveillance and investigative support of other Station operations.

(2) Personnel - LJERSEY-4 is of a low social class and lives with his mother in a slum area of Mexico City. He is the sole support for his mother and several younger brothers and sisters. He is described by GERENDE as having a lot of ambition and a strong desire to improve his standard of living and position in life. The Station has found him to be a good observer and, consequently, adequate for static surveillance work. Although he now has his drivers license, he is not a capable driver and probably will never develop into one. GERENDE has been encouraging LJERSEY-4 to obtain employment as a salesman to supplement his KUBARK income of \$1,000.00 (MN) and to establish himself in a cover job. However, LJERSEY-4 has not yet obtained such employment. It is the Station's opinion that LJERSEY-4 is definitely an asset of limited value and will never develop into the high-calibre surveillance asset which the Station really needs.

LJERSEY-8's situation is about the same as LJERSEY-4's. He lives with his family and is currently taking highschool courses (LJERSEY-4 is doing the same). He is not an imaginative talker and has difficulty making up cover stories and spur-of-the-moment excuses and explanations - the vital qualifications for a good surveillance man. He is the best driver of the three LJERSEY

SECRET

SECRET

team members and with more practice will probably develop into a capable and dependable driver. LIJERSEY-8 has recently shown a commendable amount of initiative where his cover situation is concerned. He has obtained a job as a

according to GERENDE, is making a substantial amount of "pin" money. However, as in the case of LIJERSEY-4, LIJERSEY-8 is at best an asset of only limited value. LIJERSEY-8 also receives a salary of \$1,000.00 (MN) per month.

LIJERSEY-13 does not know LIJERSEYS-4 and 8 and vice versa. LIJERSEY-13 is better dressed than the other two team members and can pass as a better educated and more socially flexible individual. He speaks fairly good English. He performs pretext investigation assignments with facility and imagination and is adept at making up cover stories. In brief, he makes a good impression on the people he interviews. He is not a good driver and is too nervous to develop into one. His salary is \$1,000.00 (MN) per month.

(3) Communications - GERENDE has daily contact arrangements with the three LIJERSEYS. Prearranged meeting places are used on designated days of each week and the LIJERSEYS are instructed to go to each meeting. They have standing instructions to continue going to their meeting sites

setting up new and more complete communications arrangements with the three LIJERSEYS.

(4) Security - Insofar as knowledge of other operations, personnel and assets is concerned, the LIJERSEYS appear to have the best security of any of the operations handled by GERENDE. New communications plans with the LIJERSEYS will do much toward increasing security and ability to meet contingencies. GERENDE will be instructed to give refresher training to all three LIJERSEYS in operational security, cover and communications. The major danger existing with the LIJERSEY team, and with any surveillance team, is the possibility of compromise and arrest by one of the local police agencies. Should this happen, GERENDE and his other operations would be placed in considerable danger.

SECRET

SECRET

For this reason, it is not advisable to have GERENDE connected with a surveillance team and also contacting and directing the sensitive photo base houses. Therefore, until such time as a suitable asset can be developed or acquired to take over the LIJERSEY team, their actual surveillance assignments will be kept at the minimum.

(5) Recommendations - It is suggested that the LIJERSEY framework be used for the recruitment of at least three competent and higher class local nationals for use on surveillance assignments. After the recruitment of such individuals, it may be suggested that LIJERSEYS-4 and 8 be terminated. LIJERSEY-13 should remain as an independent investigative asset to conduct "credit" and other type of inquiries which he can do without help from other agents. LIJERSEY-5 has already been asked to spot prospective candidates of a higher social standing for use on a new surveillance team; however, even under optimum conditions, one and a half years will be required to get such a team functioning. In order to recruit the type of team member that will be most worthwhile to the Station, we must plan to pay a minimum starting salary of \$1,600.00 (MN) per month. The cost of living in Mexico is continually on the rise and where \$1,000.00 (MN) was a good salary one to two years ago, it really is not adequate today.

1.

LIFEAT

(1) Target - Conversations coming from two telephone taps, BGMORNING and Cuban exiles.

(2) Personnel - GERENDE lives in the apartment where these two lines are maintained. He personally processes the take from the lines and passes it to OUSLER for Station dissemination to [redacted] (BGMORNING) and [redacted] (Cubans). GERENDE, in accordance with LIFEAT procedures, is supposed to remain in this apartment seven days a week. However, this is impossible due to his other operational assignments and activities.

(3) Communications - GERENDE meets daily with OUSLER to pass the LIFEAT "take" and to discuss other operational matters.

(4) Security - It is not a good security practice to have a LIFEAT monitor working on anything except LIFEAT. Other duties, which GERENDE certainly has, limit one's capability for maintaining the required security alertness for telephone

SECRET

SECRET

repairmen and others who might accidentally discover one of our LIFEAT taps. Also, should GERENDE be compromised through any of his other operations, it is conceivable that the EGMORNING and Cuban Exiles LIFEAT taps would be discovered by one of the local police agencies.

(5) Recommendations - It is suggested that a replacement be found as soon as possible to relieve GERENDE of his present LIFEAT duties.

8.

LICCOL-7

(1) Target - A planned technical installation against a person of interest to the Station and to Headquarters.

(2) Persomel - LIMITATION-5 and his wife, LIMITATION-6, are the LICCOL-7 Base House operators. LIMITATION-5 has been with KUBARK for several years. He was at one time the LIAXIOM Base House operator. He presently works for the DuPont Company. He dresses well, speaks some English and could be described as belonging to the rising middle class of Mexicans. His wife can do photographic work and has had previous experience with KUBARK in the dispatching of car surveillances by radio. LIMITATIONS-5 and 6 are not participating in any active work pending the installation of LICCOL-7 in their apartment. LIMITATION-5 receives a monthly salary of \$300.00 (MN) and LIMITATION-6 receives \$400.00 (MN) monthly.

(3) Communications - A complete communications plan does not exist between GERENDE and LIMITATION-5. At the present time it is only necessary for GERENDE to see LIMITATION-5 [redacted] desires to visit the apartment for technical surveys and other work. Therefore, GERENDE and LIMITATION-5 [redacted] means of getting together. So far, this has worked quite well, but it will be necessary later to set up a more sophisticated communications system.

(4) Security - The operational aspects of LICCOL-7 are under the jurisdiction of Matthew S. DINGLEY; therefore, the author of this report is not familiar with the security ramifications, if any, surrounding this technical installation and the agents operating it.

(5) Recommendations - None.

SECRET

S E C R E T

h. MISCELLANEOUS

Also on the payroll as worthwhile assets are GERENDE's brother-in-law, LIPSTICK-38, and his sister, LIPSTICK-40. GERENDE and LIPSTICK-38 process and print all the LIMITED, LILYRIC, LICALLA and truck photos. LIPSTICK-40 does non-sensitive translation work for the Station. Both LIPSTICKS-38 and 40 are handled by GERENDE. They do not have contact with other agents or with station officers. LIPSTICK-38 receives a monthly salary of \$1,000.00 (MN). LIPSTICK-40 receives the equivalent or \$1.75 U. S. in pesos per hour for her work.

Although it is not advisable from the security point of view to have any indigenous agent aware of all three of our LIMERICK photographic bases and the photo truck, the load on the Station photographer several months ago resulted in just such a solution to the problem. Previously, GERENDE and LIPSTICK-38 had processed only the photographs from LIMITED, LILYRIC and the truck.

5. RECOMMENDATIONS

Recommendations have been included in several sections of this paper. These same recommendations, excepting those which have already been carried out or are in the process of implementation, are listed below in a composite form to facilitate the readers' overall comprehension.

- a. Continue the reorganization of communication arrangements with all agents.
- b. Relieve GERENDE of his LIPEAT duties (BGMORNING and Cuban Exiles taps) as soon as possible.
- c. Continue to use GERENDE for the time being as the principal agent in charge of LIMITED, LILYRIC, LICALLA, the Photo Truck, LIJERSEY, LIMITATIONS-5 and 6, and LIPSTICKS 38 and 40.
- d. Arrange a warning system of communications for removing GERENDE to PBPRIME should he be compromised to one of the local police agencies.
- e. Purchase a new photo truck for use by LIPSTICKS 2 and 24.
- f. Begin planning for a compartmented photo truck operation which will later permit termination of LIPSTICK-2.
- g. Spot and recruit at least three indigenous agents from the middle class social level to form the nucleus of a new LIJERSEY

S E C R E T

4-00000

SECRET

surveillance team.

h. Eventually separate GERENDE from either LIJERSEY surveillance team duties or the three photographic base houses, preferably the former. The two types of activities are not compatible with each other and should not be handled by the same principal agent.

i. Implied, but not specifically stated elsewhere in this paper, is the suggestion that GERENDE be given a "cooling off" and training period of two to three months in PBPRIME. Of course, this will not be possible until other assets are developed to take over GERENDE's present duties. After his return from PBPRIME, GERENDE could be used to develop new support assets which would be completely compartmented from all of his previous operations, personnel and activities.

6. CONCLUSIONS

It would take several weeks of uninterrupted study of files to write a really comprehensive security review of GERENDE's operations and activities. However, based on the facts contained in this paper, it is the Station's opinion that GERENDE probably is not now known to the local police agencies as a KUBARK or PBPRIME agent. It is believed that GERENDE could be identified by the local police agencies at any time they choose to interrogate LIPSTICKS-12 and 30 in detail or when one of the other agent assets formerly or currently associated with GERENDE is compromised. Furthermore, if GERENDE is arrested, he could compromise most of the Station's support assets, plus the BGMORNING and Cuban Exiles portions of LIFEAT.

Given several months time, the slow process of compartmentation can be introduced into GERENDE's operations. Such compartmentation, however, will never reach the truly desirable point, but some improvement over the existing situation can be made. If GERENDE can emerge basically unscathed from the current incidents, then KUBARK will have an extremely valuable long-range support asset.

MEMORANDUM FOR: WH/III/Mexico

SUBJECT: Raymond H. GERENDE

REFERENCE: HPM-A-11368

1. This dispatch represents the type of operational reporting we need. I think any answer to the Station should lead off with an expression of appreciation for a good job. Maybe it will encourage them to write more of this type.

2. GERENDE is very exposed and should be taken off some of his jobs at once. Specifically, my ideas are as follows:

3. Re para. 3 a, agent is very capable and should be retained if secure means can be found. Getting rid of him would not solve the problem. As long as he is in Mexico he is vulnerable. Some thought should be given to how he would be supported in the event of arrest. Personally, I believe the Station would do better to sacrifice a case officer than permit things to drag on to the point where GERENDE might tell all to the police.

Recommendations:

a. GERENDE be briefed so as to be ever ready with an innocuous story to tell the police in the event of arrest.

b. GERENDE be told to contact one of already blown Station officers like HAZLETT in the event of arrest and that the Station officer be ready to appear personally at police station to free GERENDE. If the case officer named for this duty and GERENDE both know the innocuous cover story, there should be little problem. I have done it myself. A good cover story is "looking for draft dodgers" or some such tale which does not have implications of working against Mexican citizens.

c. That if not allowed to communicate directly GERENDE should tell the senior officer present at police station that he works on (cover story) for HAZLETT and insists HAZLETT be sent for.

d. That a second blown case officer's name be given as an alternate for HAZLETT, who is often out of town and unavailable.

SECRET

SECRET

- 2 -

e. That GERENDE be taken off LIFEAT at once and all suspicious audio equipment be removed from his home or offices. At present, LIFEAT is the only illegal activity being engaged in by GERENDE; if he is made merely in connection with his physical surveillance activities he is not likely to be hurt by the Mexicans.

f. Concur preparations should be made to hide out GERENDE if it is known he is to be arrested.

4. Re para. 4 a, GERENDE's participation in LIMITED is O. K. I believe no law is being broken. However, LIMITED is probably blown to the Soviets. Here is the more real danger. Station should find out who is the registered owner of the phone at LIMITED. Prior to leaving Mexico I noted to [] it was still held in the name of LIMESTONE-3 (now fired and hence a possible threat).

5. Re para. 4 b: This is the same situation as LIMITED but not so likely blown to the Soviets. There is no reason why GERENDE should not continue this work.

6. Re para. 4 c, LICALLA is a very special problem and should be taken up at once with Headquarters elements working on LIMESA/LIMUST. I thought LICALLA had been cancelled out when LIMESA began to shape up. I consider it a danger to LIMESA. Has LICALLA produced anything of value? I think we could vacate this in such a way that the agents in LICALLA would have no cause to be suspicious. (Put an obvious tail on the agent, scare him off, etc. This would throw off the Mexican police, too, in the event they are already wise to LICALLA through LIPSTICK 47. We could pretend to believe the Soviets ran the tail and the game is up.)

Recommendation: Get rid of LICALLA unless very productive. Better do this before the remodeling begins.

7. Re para 4 d, photo truck. LIPSTICK-2 does know of the locations of some of the basehouses on LIFEAT since he was a line inspector.

Recommendations:

a. New compartmented truck should be set up. Don't use false names and addresses. It could result in great harm.

b. LIPSTICK-2 be sent off to some small town as "resident agent" for general work and to get him out of the area.

SECRET

8. Re para. 4 e. I have no particular thoughts on LIVERSEY but think it consistent for GERENDE to handle it.

9. Re para. 4 f: GERENDE should be taken off LIFEAT at once, even if it means losing lines. As of March this year the Station had enough agent personnel to handle bases for 24 lines. They should be able to fill the gap even though LIMESTONE-3 and his tribe were fired. Only 12 lines are now being handled (latest report). The way GERENDE is handling his LIFEAT work seems to be breaking all the rules we set up in seven years of experience.

10. Re para. 4 g, LICCOL-7. I see no harm in GERENDE's handling the operational aspect of this case. But through LIMITATION-5 the police could get back to LIMITATION and the main LIVERSEY tap, that is, if they were able to make GERENDE talk before we could save him. The danger to LIMITATION was not brought out in the Station's survey.

11. In re para. 5, recommendations -

- a. Approve.
- b. Get him off LIFEAT right now.
- c. Concur, but liquidate LICALLA.
- d. This needs some discussion. What do we do with GERENDE in the U. S.?
- e. Concur.
- f. Concur with reservation noted above.
- g. O. K.
- h. I don't see why he can't handle all these jobs since they are physical surveillances.
- i. Not a bad idea.

12. Final observations:

- a. What is GERENDE's cover?
- b. We must be sure he is not overworked. Sloppy work has resulted from people being overworked.

LIPSTICK Quarterly Report

27 Nov 57

C. Raymond H. GIBSON, a contract agent, was cover provided by LIPSTICK and is responsible for LIPSTICK office number 2. GIBSON supervises the work of LIPSTICK-12 who processes the film from LIPSTICK, LIPSTICK, and LIPSTICK benches. GIBSON directs the activities of the LIPSTICK surveillance team (a separate project discussed in LIPSTICK-0151). GIBSON is also responsible for the activities of the fixed surveillance benchwork, LIPSTICK.

(1) LIPSTICK is a second story apartment which affords a view into the right angle of the main gate of the LIPSTICK installation at an angle which photographs from the top of the house downward. The equipment is the same as that used in LIPSTICK and LIPSTICK and the film is processed in the same way. LIPSTICK-12 lives in this apartment and is responsible for the photographic and physical surveillance. His reports supplement but do not duplicate those submitted by the LIPSTICK benchwork. The photographs from LIPSTICK are superior in quality to those obtained from either LIPSTICK or LIPSTICK. LIPSTICK-12 is an efficient stenographer and good photographer. Also, this base offers a better position from which to take photographs.

(2) GIBSON's contacts in private investigative agencies are used to check leads from other operations. During June and July 1957 GIBSON received training at Headquarters and both he and the Case Officer feel this training has been most beneficial.

SUBJECT { GENERAL - Operational
SPECIFIC - Raymond M. GEREDE

The following is the evaluation of Raymond M. GEREDE written by the instructor of foreign trainees on 12 September 1957.

1. Instruction commenced 10 June and was concluded 12 July 1957. It covered tradecraft, observation, description, casing and reporting, principles of CE and CI, elicitation and interviewing, investigative techniques, and briefings in photo and use of recording machinery.

2. Trainee was known as "Ray". He was easy to work with. He was always pleasant, courteous, cheerful and seemed genuinely interested in every phase of the training. He can speak, read and write English without any difficulty.

3. Ray seemed well motivated, more Pro-American than Mexican. He possesses a strong interest in clandestine work. He is an avid reader. He demonstrated ability to apply principles he had learned from reading and study. He seemed possessed of initiative although there was a limited opportunity of observing this quality in action.

4. While Ray's duties to date apparently have not given him a wide and varied experience in clandestine activity, he seemed to grasp the material quite readily, and although in the field of CI and CE he stated he had never thought of many of their aspects as applying to his, he seemed glad of the opportunity to learn and absorbed them quite readily. He now possesses a good working knowledge of fundamental principles involved. However, it is felt that if he is to work primarily in this field, it should be under the supervision of a case officer with considerable experience and background in this type of activity.

5. As previously indicated, Ray was an avid reader. In addition to certain case studies, he read the following books:

SUBJECT: COVERT SITE

1. Reference is made to your request (Requisition No: 57-51) for safehouse facilities. Further reference is made to your subsequent request that a survey be scheduled of the Subject covert site and that you be advised of the results thereof.

2. It is the understanding of this office that the Subject covert site was utilized for the training and housing of an agent of interest to your office in connection with Project LIPSTICK. It is further understood that motion pictures would be used as part of the training program at the site. The Subject apartment was leased in the name of [redacted] cleared attorney.

3. This confirms previous verbal advice that a security survey was conducted at the Subject premises with favorable results. You were previously advised of security approval for the use of the Subject premises for the above purposes.

4. In view of the fact that you have completed your use of the Subject covert site, copies of the report of the survey of the site are being retained in this office. Safehouse Branch and the Central Cover Branch are being advised of the confirmation of the security approval for the use of the site by copies of this memorandum.

2. Subject was advanced two weeks per diem at the rate of \$12 by Mexico Station. Since his lodgings were provided by Headquarters it was decided to pay him per diem at the rate of \$8. This Station's payment was extended to cover four weeks and subject was advanced \$42 on 3 July to cover the fifth week (7 July through 13 July).
3. The net amount of Subject's telephone bill was not known at time of Subject's departure. Headquarters has Subject's receipt in the amount of \$14.29 to cover the money order made out by him to the telephone company. Some of this amount will probably be returned to Subject whereupon he should be reimbursed for the net amount of the telephone bill.

SUBJECT Audio Briefing
DATES TRAINED 3 July 1957 (1330 hours)

On 3 July 1957 an Audio Briefing was given to Raymond H. GERENDE. The major portion of the briefing was on the Revere T-700 tape recorder. When asked if he knew anything about recorders, GERENDE stated that he was quite familiar with the Revere T-700 as he had had some experience with this recorder when he was a disc jockey in a radio station. A step by step operation of the recorder was explained to him, the tape recorder head was explained also how the sound was recorded on the tape. The following were also explained to him: tape speeds, frequency response, footage indicator, dual tracks—how they can be used in the Revere T-700—, the mechanical section of the recorder and the amplifier.

The recorder was removed from the case by the Subject and the possible breakdown points were shown to him, the recorder and amplifier units were taken out of the case by him and the operation of the sections explained. The recorder was then put together by GERENDE.

GERENDE asked many questions relative to microphones and microphone installations. There were explained to him—carbon microphones, crystal microphones, dynamic and controlled reluctance.

He appeared to be intelligent and was interested in the subjects discussed.

ACTION REQUESTED: See Paragraph 5.

1. Subject is scheduled for covert training to begin Monday, 10 June 1957, and to last five weeks. Subject should arrive in Washington, if possible, on 8 or 9 June.
2. It is planned that Subject stay in a furnished apartment where he will also be trained on weekdays. For food, laundry and incidentals he will be given per diem of \$4. Entertainment of Subject will be conservative.
3. It is suggested that Mexico City Station provide Subject with a round-trip ticket by air. From a cover standpoint it might be wise to have Subject visit his mother's relatives in South Carolina on the way to Washington. If feasible he should create the impression that he is visiting New York City or both New York and Washington on this trip.
4. Subject's cover while in the U. S. will be that of tourist.
5. Please cable Subject's time of arrival and flight number. He will be met at the airport by the desk operations officer, "Larry." In the event the meeting is not made he should call the telephone number forwarded under separate cover and ask for "Larry." In the event he is still unable to make contact he should go to the National Hotel,

MEMORANDUM FOR: Chief/WH/Support

Attn: JH/B & F

SUBJECT: Contract Agent Covert Training
Raymond H. GORMAN (ps)

1. Subject, Project LIFEICE contract agent, will arrive in Washington on approximately 2-4 June 1957 for five weeks of covert training. Covert training has been arranged and a safe house obtained.

2. The matter of entertainment of Subject was discussed with Mr. Mattles, C/WH/Support, who said that entertainment of contract agents is authorized under certain conditions and that it would be permissible to entertain Subject conservatively while in Washington. He spoke to [redacted] of the General Counsel's Office who supported this view.

3. To favorably impress Subject and to maintain his morale while in Washington, it is contemplated that the desk operations office will entertain him with dinner and drinks approximately twice a week during the first and final weeks and once a week during the intervening weeks.

MEMORANDUM FOR : Chief, Safehouse Branch, Office of Logistics
THROUGH : Chief, Central Cover Branch, DS/P
REQUESTING OFFICE : WH/III/Mexico
CASE OFFICER : Lawrence B. Sulo - Extension 2555
PROJECT : LIPSTICE Allotment: 7-3570-83-130

Reference: R 45-1025, 25 June 1956.

Type of safehouse requested: Furnished apartment (efficiency apartment or larger). The apartment should be large enough to show motion pictures to trainees.

Location and Environment: Washington, D. C. Middle class or above type of environment.

Maximum Price Range: \$10 per day.

Occupancy from: 8 June 1957

To: 14 July 1957

Intended Use: Safehouse will be occupied by one (1) agent for residence and training. The agent is a Mexican (completely bilingual in Spanish and English, was born in the U. S.), aged 23, a college graduate and purchasing agent for a Mexico City firm. He will occupy the safehouse most of the time, both day and night, for five weeks. Three or four other persons (from CTR and possibly the case officer) will spend time in the safehouse during the day. Sensitive material will be in the house during the day.

Cover Arrangement: Subject will be in the U. S. as a tourist from Mexico. He has American relatives in North Carolina. WH Division's memorandum requesting training for Subject, and which included this cover plan, was approved by the FI and CI Staffs on 14 May 1957.

ACTION REQUESTED: Contact with Gerende

1. The Subject has made reservations at the Hotel Emery, 1812 G Street, N.W., Washington 6, D.C., Telephone Republic 7-1812, for 9 June 1957. He will wait at this hotel for a telephone call from Malcolm Q. EDWARDS sometime before 1200 hours on 10 May 1957. The Subject will meet EDWARDS in the lobby of the Statler Hotel at the time stated in the conversation. Should this contact fail the Subject will remain at his hotel from 1300 hours until 1800 hours on 10 May 1957 and the same times on successive days until contact is made.

2. Station Mexico appreciates the efforts of the Headquarters desk in arranging this training.

Reference: HM4-W-4410, 26 April 1957 (201-119523)

ACTION REQUESTED: See paragraph 5.

1. Subject is scheduled for covert training to begin Monday, 10 June 1957, and to last five weeks. Subject should arrive in Washington, if possible, on 8 or 9 June.
2. It is planned that Subject stay in a furnished apartment where he will also be trained on weekdays. For food, laundry and incidentals he will be given per diem of \$6. Entertainment of Subject will be conservative.
3. It is suggested that Mexico City Station provide Subject with a round-trip ticket by air. From a cover standpoint it might be wise to have Subject visit his mother's relatives in South Carolina on the way to Washington. If feasible he should create the impression that he is visiting New York City or both New York and Washington on this trip.
4. Subject's cover while in the U. S. will be that of tourist.
5. Please cable Subject's time of arrival and flight number. He will be met at the airport by the desk operations officer, "Larry." GENERAL	- Operational Matters
SPECIFIC	- Raymond E. Gerenda

Reference: BR-1-5661, 19 December 1956 (50-6-4-1316)

1. Plans are underway to bring subject to Headquarters for training as requested in reference. Gerenda is tentatively scheduled to begin his training on 10 June 1957.
2. It is anticipated that subject will be trained in Basic Tradeecraft, CI/CE matters, Photography and some audio surveillance. He should be able to complete his studies in about five weeks time.
3. It is believed that tourist cover for subject's visit to this country will be satisfactory, inasmuch as he has relatives living in South Carolina.
4. As further and more definite arrangements are made regarding the matters discussed in this dispatch, you will be so advised. Headquarters regrets the delay in answering reference dispatch.

FROM : WH/3/Mexico

SUBJECT : Request For Covert Training

Project: LIPSTICK

Pseudo : Raymond H. Gerande

1. Initiated by: WH, Branch 3, Mexico - FI

2. Date of Project Approval: 2 November 1956

Type and Date of Clearance: Amended Operational Approval C-32743
effective 19 March 1956. Supersedes OA
granted 28 February 1955.

3. Agent's Status: Contract Agent

4. Agent Nationality: Born in U.S., but renounced citizenship to
become Mexican citizen on 31 July 1952.

5. Operations Officer: Lawrence B. Sule Known to student as: Larry
Room 2114, Barton Hall, X-2555

Alternate Operations Officer: John B. Brady Known to student
as: Jack Room 2111, Barton Hall, X-3162

6. Training dates: Beginning about 10 June 1957 for approximately
5 weeks.

7. Complete biographic background of trainee:
See memorandum attached.

8. Previous intelligence training: Trained in surveillance and
related techniques by his field case officer. No formalized
training.

9. Project Objective: Physical surveillance in Mexico City area to
obtain CE and operational information on Soviet/Satellite and
Communist Party personnel, plans and activities. This project
supports a technical surveillance project in Mexico. Some of
the basehouses under Project LIPSTICK support the physical sur-
veillance aspect of Station operations whereas some of the base-
houses support technical surveillances.

10. Description of agents duties in the field: Under the direct supervision and guidance of the Case Officer, full operational and administrative responsibility and control of the following:

- a. LIPSTICK Team
 - b. LIPSTICK Cnr #4
 - c. LIPSTICK/LIMITED basehouse
 - d. LIPSTICK/ALYPU basehouse
 - e. LIPSTICK/ALIAICH basehouse
 - f. LIPSTICK
 - g. LIPSTICK office #2
 - h. Pretext investigations
 - i. Spot assignments
- add comment + task*

In summary it can be said that the subject's principal duties are administration and operational direction of the LIPSTICK team, processing 35 to 40 rolls of 35 mm film each week, contacting agents and acting as cut-out for the Case Officer, conducting individual investigations, handling cash advances, accountings, and property.

Description of agent's cover in the field: Gerardo is perfectly covered working for LIPSTICK 19 as purchasing agent. He spends approximately three to four hours per day working on his cover duties. This cover is believed by all his friends, is durable and allows sufficient freedom for operational activity.

11. Proposed cover to be used during training: It is anticipated that subject will come to the U.S. as a tourist. Inasmuch as Gerardo's mother has six sisters and three brothers living in either Columbia or Sumter, South Carolina, (as of June 1955) tourist cover for him would appear to be appropriate.
12. Student availability for training: full time.
13. Specific problems to be considered in handling trainees: None envisioned at this time. Subject speaks English.
14. Specific training subjects to be covered: Basic Tradecraft, CI/CF course, Photography, and some audio surveillance techniques.
15. Technical training requirements: Photography and audio surveillance techniques.

16. Has student in the past, or does he at present, visit overt incursions of the organization? Never in the Washington area. Presumably he has never been in the Station in Mexico City.
