1. On 16 January 1963, the undersigned discussed the PECHORD use of UNREVEAL/2 as noted in the above reference, with Harry H. LANGDON from the Munich Base transiting Paris.

2. The Station pointed out that it has no objections to the use of UNREVEAL/2 as outlined in the above reference. LANGDON was briefed, however, of the inherent security concern in view of the fact that the local French services have attempted to approach UNREVEAL/2 for possible FIBERTEL activities. Arrangements for continued safe contact with UNREVEAL/2 from Munich has been arranged and given to LANGDON.
