URGENT CABLEGRAM
 BY CABLEGRAM NO. 301194

P-R-I-C-E-A-T-Y

1. It is requested that a NEW Cuban passport be issued to UNIFRAME/2, a Cuban citizen, as one of the key station assets working on local Cuban operations. His Cuban passport expires on 7 January 1963. In view of a long history of anti-Castro activities locally and in Cuba, it is doubtful that UNIFRAME/2 could obtain a passport through the local Cuban Consulate, in spite of the fact that to date, the Cuban Government has issued passports to any Cuban who has applied for one.

2. This new passport, issued in his true name, is essential for UNIFRAME/2 to continue his service in France, as well as his operational function for the Station. Since France has not yet decided to give anti-Castro Cubans in France refugee status, UNIFRAME/2 will be without documentation after January 1963. UNIFRAME/2 stated that he had procured several "false passports" for student friends of his through the Revolutionary Committee in Paris. UNIFRAME/2 would prefer not to inflict himself personally to the Revolutionary Committee at this time, with a request for a passport for himself.

3. If this is within the possibility of the Station in Germany, and approved by Headquarters, it is requested that this passport be issued prior to the end of 1962. In the event that this type of documentation cannot be provided for UNIFRAME/2, a prompt reply would be appreciated.

4. Enclosed under separate cover is a biographic description of UNIFRAME/2, for inclusion in a new passport. Also forwarded are photographs of UNIFRAME/2. The photographs are unsigned and appear to be the copies in Cuban passports.
