Earling the past year, the table of supervising the M. (Chile Branch has been a most challenging one. Chile has become a knotty foreign policy problem, and is the subject of continuous and extensive discussions between the Agency, the State Department, and other conjenents of the Government, while receiving the attention of the most senior policy makers. Recurrements from many directions have required constant pressure to respond with ideas, methods, precedenes and the subsequent position papers. Through it all Mr. Williamson has maintained a sence of balance and profession lish which permits a proper focus on the crisis of the moment. We have been fortunate in having an officer of Mr. Williamson's caliber in this position during such a difficult period.

In recognition of Mr. Williemson's demonstrated continuous superior performance as a senior intelligence officer, which has contributed to the accomplishment of the mission of the Agency, it is recommended that he be awarded the Certificate of Distinction.

#### 21 March 1973

#### Dear Earl:

You have just completed, at my direction, seven weeks of full-time service on the GS-13 Clandestine Service Personnel Evaluation Board. I know that this work has been particularly demanding. Your participation and diligent application of your professional experience have been decisive factors in the successful accomplishment of the Board's missions.

In the course of this assignment you have become thoroughly familiar with the use and interpretation of personnel files and personnel practices of the Clandestine Service. Having reviewed and analyzed the files of one hundred or more CS officers, you have had to make judgments and recommendations concerning their relative-ranking and their qualifications for promotion, for training required to overcome a deficiency or enhance career effectiveness, for changes of assignment to further career development and for Quality Step Increases to recognize outstanding performance. In so doing, you have carefully studied the career development of a large number of officers in all components of the CS, both as individuals and in relationship to each other in terms of morit and value to the Clandestine Service.

You have become familiar with a broad spectrum of personnel and administrative problems on a practical working level and have acquired a knowledge of personnel management which will better equip you to handle supervisory positions which require personnel reporting and career development of subordinates. The committee format of the panels has also deepened your understanding of the conference approach to management problems.

I wish to commend you personally for your participation in an evaluation procedure which helps to strengthen the Clandestine Service Career Service. A copy of this letter will be included in your official personnel file so that your supervisors and future Evaluation Boards may make due note of this service.

 MEMORANDUM FOR:

Earl J. Williamson

SUBJECT

: Foreign Divorce Decree

1. The purpose of this memorandum is to bring certain information to your attention which relates to the fact that your current spouse was a party to the dissolution in Mexico of a former marriage.

2. Recently, the Office of General Counsel completed a study of the validity of a Maxican divorce decree and potential problems arising from such a divorce for JKLANCE employees concerned and JKLANCE. A summary of OGC's study is attached.

3. You will note from the attachment that the employee whose current marriage follows a Mexican divorce may be confronted with serious problems affecting eligibility for payment of various government benefits such as reimbursement of hospitalization expenses, survivorship benefits and certain types of overseas allowances. My purpose in writing to you, therefore, is to be sure you are made aware of and understand the seriousness of the problems which would arise in the event of a challenge to the validity of the Mexican divorce and, consequently, to the validity of the current marriage. This challenge could arise at any time and from a number of sources.

4. JKLANCE has another interest stornming from Mexican divorces and this is one of security, depending upon the employee's specific employment. In the event such a divorce is challenged, subsequent litigation and attendant publicity become quite probable. It is, of course, in JKLANCE's best interest that this sort of activity be avoided where possible.

5. Recognizing that there are various types of Mexican divorce, and also that the various states in the United States have decided cases in different ways depending on the type of Mexican divorce involved and its own case law. you may wish to discuss your personal situation with your attorney or a representative of JKLANCE's Office of General Counsel. In the meantime, however, JKLANCE's position with respect to your situation is that it assumes the validity of your current marriage, unless the earlier Mexican divorce action and your current marriage are challenged. Should that challenge ever occur, it may be necessary for JKLANCE to determine that your eligibility for benefits based on your current marriage must be suspended until such time as the challenge is litigated or otherwise resolved. Special note should be taken of the fact that such a challenge might arise after your death, possibly resulting in the distribution of insurance proceeds and other death benefits to other than your immediate family as constituted at your death and contrary to your own intentions and wishes.

6. Please advise me of your plans and any actions taken in connection with the above. If you have any questions on the substance of this memorandum or its purpose, please do not besitate to let me know.

WSLUCCAGE - - Botification of Designation as a Farticipant in the Organization Setirement and Discoility System

Action: Advise Subject REF: Book Dispatch 5096

1. Subject has been found to be qualified as a participant in the organisation Retirement and Disability bystem and has been so designated effective 24 October 1965.

2. Although such designation under present statutes is viewed favorably by most persons, the regulation governing this retirement system gives the individual the right to appeal such a determination if he deems the designation adverse to his best interests. In order that this technical requirement may be satisfied, subject should be notified promptly of his designation and of his right to appeal. Any questions he may have should be answered in accordance with information contained in Zook Dispatch 50% or referred to Headquarters. An appeal with reasons therefore must be received in Headquarters within 60 days of the date of this dispatch or acceptance of designation will be assumed.

3. We believe that the benefits of the Urganisation retirement system are superior to the benefits of the Civil service retirement system. However, there are a few altuations in which an employee at the time of retirement may have so many years of service (almost 37) that he would receive a bigher annuity under the Civil service system. Because of this, the policy decision has been made that a participant in the Urganization system who would receive a higher annuity under the Civil service system may, not later than one year prior to his retirement, apply to be removed from our system and transferred to the Civil service system. Thus, subject should not anticipate this cortingency as a factor in deciding whether he regards his designation as a participant-adverse to his best interests.

### MEMOMANDUM FOR: Deputy Director for Central Intelligence

THROUGH : Director of Personnel

SUBJECT

à.

14-00000

Request of Earl J. Williamson, GS-15, to Remain in the Employment of CIA Following Marriage to an Alien

1. This memorandum submits a recommendation for your approval: this recommendation is contained in paragraph 7.

2. Mr. Earl J. Williamson, a CS-15 Operations Officer, has requested permission to remain in the employ of CIA as a Staff Employee following his marriage to Miss \_\_\_\_\_\_ a 26 year old Cuban citizen living in Spain. The marriage is scheduled to take place in October 1965.

3. Mr. Williamson, 50 years old, attended Loyola University in 1947-43 and Berlitz School of Languages in 1948. Prior to joining CIA, Mr. Williamson served with the U.S. Army (1942-49) achieving the rank of 1st Lieutenant in CIC. Subsequently, he was Chief, Civil Intelligence Branch in the Panama Canal Government (1949-52). Mr. Williamson entered on duty with CIA in June 1952 as a CS-12 Operations Officer with WH Division. In January 1953 he was appointed DCOB, Havana, remaining in this position until January 1959 when he was reassigned to Headquarters. In August 1960 Mr. Williamson was assigned to Madrid and in 1963 was appointed DCOS, Madrid, which is the position he presently occupies.

5. Chief, WE Division strongly believes on the basis of past performance and proven ability that Nr. Williamson is the kind of officer whom the Agency should retain. Mr. Williamson's record to date shows that he is a mature, experienced, and dedicated officer,

FYEX ROLL

Frence.

who has spared no effort to expand and improve the Agency's coverage in his area of assignment. WE Division and WH Division, where Mr. Williamson will be reassigned, foresee no difficulty, siverse effect in future usefulness or mobility as a result of this marriage.

6. I have reviewed Mr. Williamson's employment record and consider him an able and valuable member of the Clandestine Services. He has consistently performed his duties well, has strong to outstanding Fitness Reports, and is a definite asset to the Agency. I believe that the proposed marriage will not detract from his long term use by the Clandestine Services.

7. In view of the above consideration, I recommend that Mr. Williamson be continued in Staff Employment Status following his proposed marriage.

Request of Mr. Earl J. Williamson, GS-15, to Remain in Staff Status Following Marriage to an Alien

1. Attached is a request from Mr. Earl J. Williamson for permission to continue in a staff'status with the Agency following marriage to a Cuban citizen. WE Division strongly recommends favorable consideration.

2. Mr. Williamson is a fifty year old officer who entered on duty with the Agency in 1952. He has been assigned to the Madrid Station since October 1960 where he has served as the Deputy Chief of Station and since May 1964 as the Western European Coordinator for Cuban Activities. Since his assignment to the Madrid Station, Mr. Williamson's performance has been outstanding. He is a mature, experienced, and wellrounded officer who is particularly well-suited for Agency employment. In every sense of the word, Mr. Williamson is a dedicated officer who has spared no effort to expand and improve the Agency's coverage in his area of assignment.

3. WE Division concurs with the Chief of Station, Madrid, who has stated that he does not believe that Mr. Williamson's marriage will adversely affect in any way his future usefulness or mobility of assignment in the Agency. Mr. Williamson plans to proceed with the marriage in October 1965 shortly prior to his return for reassignment to WH Division. Informal discussion with WH Division has indicated that they foresce no difficulty with their plans for Mr. Williamson were he to marry this alien as planned. Mr. Williamson is \_\_\_\_\_\_ in the \_\_\_\_\_\_ and will be required to submit a similar request after Agency decision is received if he retains his \_\_\_\_\_\_ in his next assignment.

SECRET

4. WE Division strongly believes that on the basis of his past performance and proven capability, Mr. Williamson is the kind of officer whom the Agency should retain. We. therefore, recommend that you favorably endorse his request and forward it to the Deputy Director of Central Intelligence for consideration.

: Recommendation for Promotion - Mr. Earl J. Williamson

1. Since October 1960, Mr. Williamson has served as Deputy Chief of the Madrid Station, and during an extended period of this time, he was Acting Chief of Station. His performance has been outstanding. Not only has he assisted his Chief in the management of the Station, but simultaneously managed to reinvigorate which was the particular area of responsibility

originally assigned to him. His service has been noteworthy not only for his vigor in initiating new activities but also for his balanced, yet energetic, outting away of deadwood, useless procedures and purposeless activity.

2. In recent months, in part on his own initiative, and later under forced draft at Headquarters direction, Mr. Williamson has been instrumental in mounting an active operational program targeted against \_\_\_\_\_ Due almost entirely to the imagination, energy, and effort which he has applied, this program has already had considerable success in the acquisition of intelligence and the recruitment of agents, and promises to be even more productive in the future.

3. Mr. Williamson's activity since his assignment to Madrid is clearly of outstanding caliber and it is noteworthy that the present Chief of Station as well as the preceding Chief of Station have both, on the record, rated him as exceptionally able, energetic, and mature. Mr. Williamson has been in his current grade since December 1956. In view of the convidered judgment concerning the value of his performance in Spain, his good administrative qualities, his obvious maturity, energy, judgment and experience, it is strongly recommended that Hr. Williamson be promoted to grade QS-15.

### MEMORANDUM IN LIEU OF FITNESS REPORT

SUBJECT:

14-00000

Earl J. Williamson 1 April 1970 to 31 March 1971

Mr. Williamson departed on 21 February 1971, after having served as Chief of Station for two and one half years. The last year of his tour was highlighted by two extremely delicate, highly productive operations targeted against the operation of a most sensitive nature stemming from them. This latter operation, focused as it was around called for constant good judgment on how to pursue U.S. Government interests with this highly sensitive and significant intelligence at hand. (It was highlighted at the WH Division's Chiefs of Station Conference held in February 1971 as a classic example of both the collection and use of intelligence on the real "national interest" level.)

Throughout these operations, Mr. Williamson handled himself very well, especially during the latter part of his tenure when he was under considerable pressure as an almost inevitable consequence of the impact of these operations. Ultimately, Mr.

 Williamson's
 was requested by the

fact that, under these general circumstances, he continued to function normally, responding to numerous demands being made on him by the situation and Headquarters, and set about paving the way for his successor to take up the cudgel from the best operational platform -- all this speaks for itself and certainly underlines the fine quality of Mr. Williamson's professional and personal characteristics.

2 -

In the realm of normal activity, Mr. Williamson handled his officers with both firmness and tact. He was a good manager, ran a taut Station, and had cut back on several marginal operations, streamlined others, and initiated some new ones. He writes well and quickly, and he has exceptional fluency in Spanish. He moved very well in the local community and, during his tenure, established a wide range of contacts.

Mr. Williamson's relationship with the was excellent, and his wife was a great help to him in discharging his representational duties and within the

In sum, Mr. Williamson is a "pro" who turned in a strong performance both before and after the chips were down.

**Comments of Reviewing Official:** 

I fully concur with the Rater's comments. I am pleased that Mr. Flannery explained the circumstances surrounding Mr. Williamson's so well. His tour was a fine piece of operational work and in no way should it be tarnished by misinterpretation or gossip.

Mr. Williamson is an old "pro" who has had a variety of experiences in the intelligence field and who brings to his work maturity garnished with enthusiasm and expertise.

He has done particularly well in guiding his subordinates and extracting the maximum from them. His leadership is deft but firm.

His relationship with the past ambassador, a difficult person to deal with, who was not at first happy to have Mr. Williamson, progressed to the point that he became a valuable member of the Country Team and had the respect of the ambassador. There is a new ambassador now and it is clear that Mr. Williamson has gotten off to a very good start with him.

### SECRET

He has a large range of contacts in the community and he has been helped by a charming wife who is an asset to him in his work.

His subordinates have a high regard for him--from a professional as well as personal standpoint--and look to him for guidance and leadership.

He is judicious in the use of government funds, extracting the maximum from the operational dollar. His Spanish is excellent, and his experiences in Latin affairs have given him a grace in moving among the locals.

He is rated as Strong.

### MEMORANDUM IN LIEU OF FITNESS REPORT

### SUBJECT: Earl J. Williamson 1 April 1968 - 31 March 1969

14-00000

1

Mr. Williamson began his tour as Chief of Station, San Jose, in July 1968. He was well prepared for the responsibilities of the assignment, having served in two important stations as Deputy Chief of Station, and as Deputy Chief, WH/COG.

·....

At the outset of his assignment, Mr. Williamson was confronted with \_\_\_\_\_\_\_ who had reservations on several matters connected with the station, including problems concerning the establishment of a \_\_\_\_\_\_\_ operation. Shortly thereafter \_\_\_\_\_\_\_ activities placed an additional burden on the San Jose station and on relations with the \_\_\_\_\_\_\_ Mr. Williamson weathered these initial rough spots well, keeping Agency interests protected.

### SUBJECT: Earl J. Williamson 1 April 1968 - 31 March 1969

14-00000

Mr. Williamson has an aggressive, constructive and realistic approach to operations. He has made a good assessment of the station's operational assets and personnel and has succeeded in sharpening general performances. Coordination and cooperation between the station and Headquarters leaves nothing to be desired.

He displays appropriate cost-consciousness. The morale of station personnel is high. Mr. Williamson and his wife are highly regarded by embassy personnel, and have established a wide circle of Costa Rican friends and contacts.

×.

He has put in a Strong performance.

John R. Horton **Deputy Chief** Western Hemisphere Division

### MEMORANDUM FOR THE RECORD

14-00000

SUBJECT: Momorandum in Lieu of Fitness Report -Mr. Earl J. Williamson

1. Mr. Williamson is on the eve of his departure as an overseas Chief of Station. This is a logical and justified next step in his career development. Mr. Williamson's responsibilities have been considerable in recent years: DCOS in two important Stations; Chief, FI and then Deputy Chief of WH/COG. It should be pointed out that in the latter position he was Acting Chief for long periods, performing admirably. His new assignment indicates that the most senior officers in the Division have recognized this.

2. Mr. Williamson is a professional intelligence officer in the strictest sense of the word. He is harddriving and tenacious; despite his seniority he is on any list of activists; he has the capability of getting things going, of getting the job done. He applies rigid standards to his subordinates, but no less rigid than those he applies to himself. He is cost-conscious to an unusual degree. He is a fluent speaker of idiomatic Spanish and can handle himself well in any miliou. If Mr. Williamson is ever less than diplomatic it is when considering ersatz operational proposals or phoney practices, neither of which he can telerate.

3. There is no question that in his next assignment Mr. Williamson will benefit from the social graces of his charming wife. In his own private life Mr. Williamson maintains numerous important contacts. 4. In summary, Mr. Williamson is a dedicated and professional intelligence officer. He will undoubtedly continuo his fine performance as a Chief of Station, and should in time be promoted to the next higher grade.

### COURSE OBJECTIVES, CONTENT AND METHODS

The COS Seminar is aimed to prepare prospective Chiefs and Deputy Chiefs of Station and Chiefs of Base for field assignments. Emphasis was upon the difficulties confronting Chiefs of small or medium-sized installations, cince they must handle a peculiarly wide range of problems. Included were case studies serving to remind outgoing chiefs of various operational approaches and techniques, but more time was devoted to policy, coordination, management, reporting, and administrative responsibilities of the Chief of Station, both within CIA and in the government at large, at home and abroad,

The bulk of the course is given in lectures and question periods conducted by officials responsible for the missions, functions, programs, and services discussed. A few key items of suggested reading are included, and bibliographies of suggested reading tailored to the individual's assignment are offered for those who want them.

1. Mr. Williamson reported to WH/Cuban Operations Group in February 1966 and immediately took over the functions of Chief of the FI Branch. This Branch is concerned with the conduct of positive intelligence operations on a world-wide basis against target. A small proportion of these operations were conducted directly from Headquartors (including the

larger number of these operations was conducted through supervision involved the provision of staff support and guidance and extensive dealings

with other Divisions and, to a lesser degree, with Mr. Williamson took hold of these duties quickly and force-

fully and carried them out effectively and efficiently.

2. In July 1966, Mr. Williamson was appointed Deputy Chief of the Cuban Operations Group. In this role his dutics involved supervision of the totality of the operational offort, including FI, CI,

Again, Mr. Williamson undertook his broader duties forcefully and efficiently. He has shown qualities of leadership and good managerial skills in dealing with personnel and organizational matters.

3. During this period, Mr. Williamson has primarily been interested in substantive operational matters. He has carried out efficiently and promptly those staff functions which I have assigned to him, but I detect a certain lack of interest in these, Probably this reflects his most outstanding ability and consuming interest in the real heart of our activities-the production of intelligence and in the conduct of actions against our target. He has participated persenally in several operations and is one of the relatively few senior officers who delights in handling agents and making recruitments.

4. Mr. Williamson is conscientious and economical in the use of operational assets, manpower and money. No is married to a charming young woman who is socially active, entertains well and is a real asset in representational activities.

5. Mr. Williamson's Spanish is fluent and colloquial, and in combination with his extensive understanding of Latin America and its people contributes enormously to his effectiveness.

During his tour at this Station, Subject made an important contribution toward the achievement of high priority targets. He is in every sense of the word an experienced, energetic and dedicated officer.

Since Subject's activities in support of other WE stations in the conduct of Cuban operations were under the direction of Headquarters, the rating box for this specific duty has been left blank for completion by the appropriate Headquarters official.

State suggestions mills for improvement of work performance. Uve recommendations for training. Comment on foreign language competence, if required for current position. Amplity or explain ratings given in Section B to provide best basis for determining future personnel uction. <u>Manner of performance of manugerial or supervisory dutres must be described, if</u> coble. During the period under review Subject's activities in support of applicable. Cuban operations elsewhere in Europe and his responsibilities as Coordinator of Cuban activities for Western Europe have kept hip, away, from the Madrid Station approximately one half of the twelve month period. Since these activities were under the direction of Headquarters, and not this Station, the rater does not feel qualified to comment on Subject's performance of Specific Duties 2 and 3 and has therefore left those rating boxes blank for completion by the appropriato Headquarters' official. With respect to Specific Duty 1, supervision of Station's Cuban operations, Subject has applied himself aggressively and imaginatively to this task and the rater feels that Station's Cuban operations have been maintained at a high level and have been an important contribution to KUBARK's world-wide effort against this priority target. Obviously Subject's frequent and prolonged absences from the Station have not permitted him to give this task his undivided attention or the day-to-day continuity that is so necessary and important. In the conduct of the Station's Cuban operations Subject has direct supervision of officers, \_\_\_\_full time and \_\_\_\_part time officer, and a secretary. Subject is an efficient organizer and supervisor. He thinks and writes clearly. He is fluent in Spanish. In the conduct of the extensive Cuban operations he has shown himself to be SECTION D CERTIFICATION AND COMMENTS (Cont'd.) Noel BY REVIEWING OFFICIAL COMMENTS OF REVIEWING OFFICIAL I know subject and am thoroughly familiar with his work and performance. I concur in this report with one exception, namely the rating given subject for specific duty No. 6. Because of his travels which absented him from the Station for one-half of the past year, subject perforce was inadequately qualified to take charge of the station in the absence of the COS. Specializing on Cuban operations entirely, he has but a

As a well rounded operations officer and administrator, Subject is qualified to run his own station and, in my opinion, it would be an injustice to him if he is not assigned as chief of a medium sized station when his service in Spain is completed. It is my hope, however, that Subject will be given a second tour at Madrid when his current tour ends in October 1962.

MANAGERIA	L	GRID SEMINAR (50 hours)	DATES: 2	23-28 April 1967

Year of Birth	1;		Service De	signation D
Grade	:	15	No. of Stud	lents :

EOD Date : June 1952

#### COURSE OBJECTIVES AND METHOD

Course objectives are to aid participants to: learn the managerial theories contained in the Grid; understand their personal managerial styles in Grid terms; evaluate convictions about managerial values; develop team action skills; increase candidness of communication; strengthen the use of critique for problem-solving and learning; and acquire an appreciation of Organization Culture and Development.

The method of learning offers a challenge to all participants regardless of level or experience. A Grid Seminar is not "taught" in the usual sense. In Grid teams, participants solve complex management problems. Objective solutions are made baulable. Individual and team performance is repeatedly assessed. Various measuring instruments are used to evaluate effectiveness.

Critique sessions assist each participant to understand how he might change his own behavior to increase his problem-solving effectiveness. Thus managers are not told the best way to manage, but they learn by convincing themselves.

About twenty to thirty hours of study are completed as prework. Insights gained are deepened and personalized during the intensive 50-hour Seminer.

#### ACHIEVEMENT RECORD

This is a cortificate of attendance only. No attempt was made to evaluate student achievement in this course,

I recommend that he be returned to this Station following home leave in view of the high priority given to his present duties and responsibilities and the obvious fact that the important program which he is now heading up would suffer greatly if he were to be rotated, at this time, to another assignment. When he is eventually transferred from Madrid I feel strongly that he should be given a chief of station assignment within the Division in view of his consistently fine record, his experience, maturity and devotion to duty .
