MEMORANDUM FOR: Director of Personnel

**SUBJECT** 

Annual Fitness Report - George Joannides

Operations Officer

6 GS-16 ESN 064818 Z3 DOB 5 July 1922 067180743

- 1. This Memorandum in Lieu of Fitness Report is prepared in accordance with HR 20-20, for the period mid-June 1978 through 12 January 1979. The occasion of the Fitness Report is the retirement of the rating official.
- 2. The undersigned was detailed in mid-May to serve as the Agency's Principal Coordinator for work with the House Select Committee on Assassinations. As it became apparent that the volume of the work required assignment of additional full-time personnel, the decision was made that one experienced officer was needed to handle the DDO account. A senior officer experienced in DDO work and available to serve for several months was requested. Mr. Joannides was known to the undersigned by reputation, although not personally, and arrangements were made for his detail to the work. While there is no way to outline the qualifications that one should have for this sort of work, it became quickly clear that Mr. Joannides was the perfect man for it.
- Mr. Joannides was responsible for a new procedure in recording of exchanges with the HSCA. As it developed, the Agency's logs and records on the status of requests by the HSCA and the Agency's responses became the only reliable record; it was clear that the HSCA often did not know the status of business in this respect and time and time again had to come to this office for clarification. Beyond that early contribution to the ordering of the affairs of the office, Mr. Joannides handled day-to-day follow-ups of requirements by telephone with the DDO focal point as well as throughout the DDO. Further, the firm position that he took with the young investigators in response to aggressive harassment on some occasions was exactly what the situation called for. A person of his maturity and experience handled the job exactly as required by the situation. If the peculiar nature of the work did not call on Mr. Joannides for all the talents of his wide experience, it nonetheless was his experience and quick perceptions that ensured a superior performance. His advice and

counselling on courses of action to cope with unique situations was always sound and responsible.

- 4. The work in this assignment provided little occasion for Mr. Joannides to demonstrate attitudes on either EEO matters or economy, considerations that are required by regulation for comment in Fitness Reports. As a result, no comment is made.
- 5. Not because of the demands on his superior talents, but because of the cool efficacy with which he handled an unusual special assignment, Mr. Joannides' work is evaluated as Outstanding.

Indicate significant strengths or weaknesses demonstrated in current position keeping in properties their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations paying ining. Comment on foreign language competence, if required for current position. Subject is a hard working, dedicated and effectives Afficer who has proven by performance that he can accomplish assigned operational tasks in allowable time limits. The period covered by this fitness report represents Subject's initial Agency exposure to those of irst echelon management responsibilities which are implicit in a branch chief's assignment in a Station that has employees. Subject responded to the challenge of the first echelon supervisory responsibilities in an exemplary manner. Subject managed a branch that had a yearly budget of two million four hundred thousand dollars. These funds were judiciously spent on printed propaganda, white and black radio programs, and on political action operations which were implemented via labor, student and professional groups. Subject has the knack of judiciously blending quality with quantity and in this melding effort, Subject reflected cost consciousness and effectiveness in the use of personnel, space equipment and funds. Subject has a distinct flair for political action operations and can translate policy directives into meaningful action programs by all of his assets. Subject has the ability to delegate authority and to appropriately fix responsibility with those officers whom he supervises. In the management field, Subject's only discernible weakness is a tendency to be abrupt with subordinates. It is believed that this minor shortcoming will be overcome with the acquisition of added experience in the field of personnel management. On balance therefore, Subject's overall performance as a supervisor and as an intelligence officer warrants an 99

Although I have had few chances to personally observe work, I concur in the supervisor's comments and rating due to my general impression of capabilities and performance of duty received in occasional meetings extending over a number of years.

Section C - Narrative Comments

Subject has additional growth potential as an intelligence officer and as a first echelon supervisor of individuals doing a basic intelligence task. Ethnic origins, foreign language fluency and experience acquired to date generally dictates a career for Subject in the general arena of Greek operations. While the major thrust of Subject's career orientation should be geared toward Greece and its related problems, it is believed that it is essential that, on a periodic basis, Subject be directed into non-Greek areas of interest, in order that the continued challenge of new horizons will stimulate Subject to develop to his full capacity. In practical terms, this means that out of any eight-year time cycle, at least two years should be spent by Subject on non-Greek or even non-European affairs. This officer has the potential to be a broad-gauged officer but he must be stimulated and led in that direction which will fully harness the totality of his potential.

The rating officer would be pleased to have Subject work with him at any other Field Station that might be entrusted to the rating officer.

#### **NARRATIVE COMMENTS**

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Reference is made to paragraph C of subject's previous fitness report dated 10 January 1963 which is still applicable. During the period covered by this report subject has done an excellent job in the handling of a significant student exile group which hitherto had successfully resisted any important degree of control. Under subject's direction an exile teachers' group reached a high level of effectiveness in the propaganda field and was turned over to another case officer.

Subject has effectively terminated unproductive operations in the propfield (one magazine and a news letter) and is building up Station radio capability directed at the maintarget.

His high professional standards, complete comprehension of the problems faced by the Station and strong urge to win in our struggle with the opposition make it a distinct pleasure to see him take over as Chief of the PW branch.
