MEMORANDUM FOR THE RECORD:

SUBJECT: Requirements Briefing to FBI Informant Going to Cuba

1. In accordance with arrangements previously made with the FBI by SAS/CI/Liaison, the undersigned went to New York on 8 July to brief an FBI informant who is going to Cuba for two weeks. I had a short session at the FBI office in NYC with Dale Schwant, the case officer, and we then met with the informant for about two hours in a room at the Prince George Hotel. The informant had been told that I would be at the meeting and that I represented the Agency, but I was not introduced to him by name.

2. The FBI informant - ⁶⁵Victor Thomas * Vicente - is an American-born Puerto Rican born in NYC in 1930. He has been under FBI control for nearly 3 years penetrating the three pro-Castro organizations in NYC: the Fair Play for Cuba Committee (FPCC); the Casa Cuba, and the Jose Marti Club. Though the first two years Subject was only a marginal asset, in the last six months he has become a valuable penetration for the FBI into the above 3 organizations as well as the Cuban UN delegation, having apparently won the complete confidence of the pro-Castro leaders and Cuban officials in NYC. Recently he was asked to join the CPUSA. Subject works as a ⁰⁸shipping clerk in a coffee plant in Brooklyn. He has the appearance and other attributes, according to Dale Schwant, for the role of pro-Castro revolutionary. The Cubans have expressed an interest in his moving to Cuba to work. He is willing to go but his wife is against it, but idea is still alive.

Cuban Sponsorship

3. Subject is leaving NYC for ¹⁰Mexico City on 13 July ⁰⁹and he expects to go on to Cuba illegally on 15 July. The Cuban Ambassador to the UN, Raul Primellas, has arranged for a Cuban visa to be ready at the embassy in ¹⁰Mexico City, and also passage to Habana on a Cubana flight. Subject is also

armed with a letter of introduction from the National Director of the FPCC, Vincent Theodore Lee. On 6 July the 3 pro-Castro organizations named above held a party for Subject and raised \$100.00 for his trip.

Informant's Contacts in Cuba

4. Subject will contact several friends in Cuba who are milicianos, one of them in Santiago, Oriente Province. They were fellow activists in pro-Castro organizations in NYC who have returned to Cuba. He also has been given (by his Cuban friends) the address of a family whose son is the chauffeur of Carlos Rafael Rodriguez. Arrangements have also been made for Subject to talk to the American Communist in Habana, Robert Williams. Subject, who will be accompanied by his wife on this trip, has been instructed by his Cuban superiors to take a camera with him to take pictures of Cuba for showing at organizational meetings in NYC. Something similar had been done previously by the head of the FPCC on his trip to Cuba in December 1962. The note-taking in connection with the photos will be a device enabling Subject to record intel information difficult to remember.

5. I briefed Subject during a two hour period using as a guide the attached requirements outline, prepared with [redacted] SAS/Intel/Requirements, and Anita Potocki, SAS/CI/Sov-Sat. I had also discussed Subject's mission to Cuba with SAS/SO/Rodriguez and DC/SAS/EOB. I stressed, as did the FBI case officer, that while fully exploiting his militia and other contacts for the desired information, he must always be guided by security considerations. After an agent role for three years, Subject expressed confidence in his ability to carry out his mission successfully.

6. I should add that I was very cordially received at the NYC FBI office and that Mr. Schwant was most cooperative. I referred to our memorandum to his headquarters indicating that the Agency had a world-wide program [redacted] on missions to Cuba, and I expressed the hope that this might be only our first joint effort. He agreed wholeheartedly, adding that he personally would be particularly happy to cooperate if Subject informant should move permanently to Cuba and play the role of resident agent. As soon as Subject returns from Cuba Mr. Schwant will let us know and arrange for the debriefing.
