ACTION REQUIRED - REFERENCES

For information

ESGA 5418, 10 September 1963

1. We have assembled all the material immediately available at headquarters that fulfills the request contained in the reference under Identities B and C. A list of the material is forwarded as Separate Cover Attachment 1 to this dispatch and the material itself as Separate Cover Attachment 2.
2. We have broken Separate Cover Attachment 1 down into categories (1) and (2). You will note in going over the items that we have not been too successful in filling your Identity C request, especially in category (1). We found several items in category (2) from PBPRIME sources and we have hopes of obtaining some from English and French sources. However, it has been explained to us that category (1) just does not provide a large enough market to make worthwhile the type of promotional material you wish to pass to INDEVOUT-3.
3. We wish to call your attention, however, to a company in Suisse that compiles material of the type you want, on any subject, to order. The company is well known and is used by institutions and individuals throughout the world, including KUBARK. Since INDEVOUT-3 could have heard of this company from any number of sources, you may wish to pass the name to him; and let him place an order that will fill the gaps in the material we are sending you. The name and address of the company is forwarded as Separate Cover Attachment 3.
