4-10422-10022	2022 RELEASE UNDER THE PRESIDENT JOHN F. KENNEDY ASSASSINATION RECORDS ACT OF 1992
	(1) What Collection requirements were issued to the field with
	regard 'to Kennedy's assassination?

	As soon as the name of Lee OSWALD was mentioned in connection
1	with the assassination of President Kennedy on 22 November. CIA file checks were begun and the Mexico City Station was asked by
	cable for more information on OSWALD. Within a week twenty-seven
· · · · · · · · · · · · · · · · · · ·	cabled reports had been sent to the White House, the Department of
	State, and the Federal Bureau of Investigation.
	CIA field stations provided bits of information during the
	week after the assassination. The Mexico City Station reviewed the
	transcripts of its telephone taps and came up with several more conversations probably involving OSWALD, but not actually mention-
	ing him by name; these transcripts connected him also to the Cuban
	Consulate in Mexico City. Several Mexicans were arrested and
•	questioned about his activities, giving a good picture of what he
	was really up to. A host of fabricators, some anonymous, bombarded
• • • • •	overseas embassies with spurious tips on the case. All of these leads were soon discredited, but they were still coming in.
	In light of OSWALD's defection to the Soviet Union where he

	had remained for almost three years and his trip to Mexico City
	where he had contact with members of the Cuban and Soviet Con-
	sulates, the possibility that OSWALD had not acted upon his own
	but may have been an agent in a plot under foreign direction could
	not he dismissed without exhaustive exploitation of all available
	foreign assets.
- <u></u> /	As the Agency responsible for the collection of foreign coun-

	to support the Federal Bureau of Investigation in its investigation
	of the President's assassination by
	a. Obtaining detailed information on every aspect of OSWALD's activities and movements abroad;
	b. Studying this information in light of the Agency's know-

The initial response to headquarters' requirements levied
on the field, after the assassination of the President, has been
treated under Question (1) above. As this information was received
in Headquarters it was compared with existing information, if any,
synthesized, analyzed, and then made available to the White House,
the Department of State, and the Federal Bureau of Investigation.
Copies of these dessimentations were also forwarded to the Secret
-Service.
Headquarters examined all new leads sent in by the field, of-
fering guidance, and, when necessary, coordinating with the appro-
priate United States government agency - primarily the FBI - when
the investigation involved an American citizen. "Most, if not all,
leads originating in the field were persons claiming to have know-
ledge of OSWALD or his wife. Investigation revealed that the
majority of these leads were fabricators.
In light of the urgency of the investigation being conducted
by the FB1, all correspondence between Agency Headquarters and its
-field-units-was-in-cable form. If necessary, messages could-be
passed-by-telephone
Agency_field_representatives_in_the_Mexico_City_Station_and
the Miami Base worked closely with the local FBI representative
keeping the latter continually apprised of all information pertain-
ing to the investigation as it became available to the Station.
The Mexico City Station and Miami Base were able to respond immedi-
ately to requirements levied by the local FBI representative. The
field reported to Headquarters on all information passed in the
field to the FBI or received from the FBI representative so that
Headquarters could make a formal dissemination to the appropriate
government agency or department in Washington.

The material relating to Lee Harvey OSWALD (internal Agency documents, reports to and from other government agencies and departments, correspondence with the Warren Commission, etc.) is held in the Agency's official file on OSWALD. The official file no. 201-289248 is held by the CI Staff and comprises 57 volumes, i.e., well over 200 separate file folders and envelopes. In addition to the official file, there are ancillary files covering various aspects of the investigation and later developments - FOIA requests for information, documents (copies) cleared for release in response to such requests, the Rockefeller Commission, etc.

A machine index of the material held in the official file reaches a total of 1829 documents or entries. There is some duplication and ommissions. It is not possible to tell from the machine index the subject of many of the documents, particularly cables, nor is it possible to ascertain the origin of many of the documents appearing under those entries marked XAAZ-.

See the attached list of files and folders reviewed to date.
