MEMORANDUM FOR: Deputy Director of Security

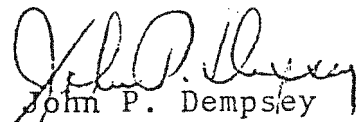

THROUGH : Deputy Director, PSI

SUBJECT : Charles William Wiley
#343 589

1. Attached is Mr. Vasaly's examination of the "S" or Saroyan fund as it pertains to the request contained in Mr. Kane's memorandum of 12 April 1974.

2. I concur with Mr. Vasaly's analysis and rationale that there does not appear to be any legal or moral grounds upon which Wiley can base a claim for reimbursement of the "S" fund deficit. However, if Vasaly's suspicions are true, i.e., Wiley is using the "S" fund deficit as a vehicle to obtain a better settlement, then I feel that the additional incremental payment to Wiley would be money well spent.

3. Should Wiley be awarded the additional increment, I would recommend that it be in an amount either slightly smaller or larger than the amount he claims and he be told the new amount is an increase in his termination bonus and not a payment for the "S" fund.

17 April 1974

MEMORANDUM TO: Chief, RB/CD

SUBJECT : WILEY, Charles W.
#343 589

REFERENCE : Director of Security Memorandum for the
Record, dated 12 April 1974 on the same
Subject.

1. Referenced memorandum concerns the termination proceedings relating to Subject and to his apparent claim for reimbursement for an alleged deficit of \$7,475.01 in the so-called "SAROYAN" (or "S") Fund. The Director's memorandum indicated that a review of the "S" fund will be undertaken in an effort to determine the validity of WILEY's claim so that proper consideration may be given to its disposition.

2. Instant memorandum attempts to relate some of the significant factors which should be considered in arriving at an appropriate decision in this matter. Attached hereto are certain research papers for reference in conjunction with this commentary. A recommendation is contained in the final paragraph herein.

3. WILEY is a Contract Agent of the Office of Security and functions under the terms of a contract, which has several amendments relating to salary only, effective 1 July 1959. Review of the contract discloses it to be essentially the standard form for a Contract Agent. Nowhere does it specifically refer to or even contemplate the utilization of such a financial accounting device as a "SAROYAN" fund. "Chester E. SAROYAN" is the pseudonym furnished by the Agency Pseudonym Register for use in the covert handling of WILEY's records. The contract preamble states that the U. S. Government contracts with WILEY as an independent contractor for the submission of certain information and related services of a confidential nature. In the paragraph on Status, WILEY is advised that he is not an employee of the U. S. Government under this agreement and is not entitled to any benefits normally incident to an employee status. In

SEP 30 1975

CIA

~~SECRET~~

SECRET

addition to his basic compensation he was to receive 5% additional salary in lieu of insurance, retirement, medical and health programs, etc. Regarding Travel, the contract states that WILEY will be advanced or reimbursed funds for necessary expenses incurred in connection with such operational travel as may be directed or authorized by the Government. This may include per diem in lieu of subsistence in the course of such travel and while on temporary duty away from New York, N. Y. Payment and accounting for such expenses will be in substantial conformance with applicable Government regulations. As to Operational Expenses, it states that WILEY will be advanced or reimbursed funds for necessary operational expenses as specifically approved and financially limited by the Government. Such funds will be subject to payment and accounting in substantial conformance with applicable Government regulations. A standard paragraph on Offset reflects that if WILEY should receive any financial emoluments required under the terms of this agreement from or through a cover facility, such emoluments will be used to offset those due WILEY under this agreement by the Government. Such emoluments thus received from or through a cover facility are acknowledged and agreed to be payment by the Government within the provisions of this contract. It is the opinion of this writer that this proviso does not refer to the type of activity engaged in by WILEY wherein he operated independently and not for a cover firm. It could not be reasonably maintained that it was the intention of the Office that his income for the last thirteen years was to be limited to the maximum of his salary. Another standard paragraph covers Unauthorized Commitments and states that no promises or commitments pertaining to rights, privileges or benefits other than those expressly stipulated in writing in this agreement or any amendment thereto shall be binding on the Government.

4. The aforementioned contract is broad enough and flexible enough to permit the payment of such expense claims as WILEY submitted and were approved and authorized by this Office. It is somewhat difficult to trace the evolution of the "S" fund through its various stages. There does not appear to have ever been any firm set of instructions established and/or conveyed to WILEY--certainly not in written form. The fund's handling changed through the years as did WILEY's activities and his headquarters handlers. It was intended, and so resulted, that WILEY would establish his own cover as an

RECEIVED FROM

SEP 30 1975

CIA

-2-

SECRET

SECRET

independent researcher, writer, lecturer, etc. This obviously would and did generate income. In order to build his natural cover and increase his capability and potential value to the Office, in the early years overseas travel was not only permitted but was encouraged. Separate travel allowances were authorized and in several instances advances were given to enable WILEY to undertake the trips. No advance for overseas travel nor any separate travel vouchers were approved and paid by the Finance Division after 1964. He either secured separate funding from other outside sources, including foreign governments, for at least part of his expenses or covered them himself and charged all or part of the expense off against his outside income as reported in his "S" fund accountings.

5. The first rendition of an "S" fund was for the period, 12/59-6/60 and it indicates he had had no prior outside income. It should be noted that this pre-dates establishment of his firm, World News Analysis (WNA). WNA, when established in January 1961, supplied WILEY only a portion of his cover. In addition to this largely nominal news service, he operated as a lecturer, photographer, writer, and in the years after 1966, as an organizer and public relations promoter, also.

6. From October 1959 to February 1964, travel vouchers were submitted to this Office, authorized, and payment made in cash to an SRS representative for transmittal to WILEY. These vouchers covered primarily stateside travel, phones, operational lunches, etc. In June 1964, the system was changed to enable direct payment into WILEY's New York bank account and the first such payment made covered his travel voucher for the period, 2/1-5/30, 1964.

7. No "S" fund accounting was rendered for the fiscal years 7/62-6/63 and 7/63-6/64; however, commencing with the calendar year 1964, annual calendar year accountings were received. In April 1965, a travel voucher for the period 7/1-11/15, 1964 was received. After some discussion about its merits between E. MENDOZA and C/SRS, WILEY was told to take reimbursement from the "S" fund. Apparently WILEY had no advance warning that this change was to occur. After some further discussion and hold-up of his travel vouchers for the first six months in 1965, they

SEP 30 1975

CIA

-3-

SECRET

SECRET

were all approved by Morse ALLEN and paid by Finance Division to WILEY's bank account. Subsequent to June 1965, all expenses incurred, and/or claimed by WILEY, domestic and overseas, have been charged against the "S" fund income and no separate reimbursements have been made from Agency funds. The records reflect, however, an intention that WILEY would submit these expense claims frequently and regularly for approval. By 1967 this had disintegrated into merely an annual return and WILEY's figures were not seriously questioned. The rationale would seem to have been that he was going through an exercise which involved pretty much an accounting for his own income and expenditures.

8. The figures utilized herein were necessarily essentially supplied by WILEY, either in receipts, vouchers or reports. There is and was apparently little opportunity for either pre-expenditure or post-expenditure confirmation or approval of most expenses listed. WILEY had a natural cover and worked under uncontrolled conditions in an area remote from Agency Headquarters. This was particularly true after 1966 when he submitted only annual accountings. While the expenditures may have actually been made, there was then, and there is even less now, little real possibility to determine the reason for the expenditures and for whose benefit they were undertaken. It would seem that his figures were accepted and deemed to be part of his general activities and therefore part and parcel of his natural cover. Some could have been purely personal and non-business related in any sense, but to assume this is to question WILEY's honesty.

9. WILEY's income tax returns were assumed to be, hopefully, honest and reasonably accurate. His federal return (Form 1040) Schedule C-Profit or Loss From Business or Profession (Sole Proprietorship) generally reflects his business activity to be "Writer, Photographer, Broadcaster, Lecturer." No business name is listed. His business address is his home. In 1967 and earlier he also included "Research" as an activity and showed the business name to be his own name.

10. As his charges as expenses were left largely to his own discretion, so was his rendering of his "income" necessarily accepted at face value. There is and was little possibility to audit or check these figures. Various receipts and papers were submitted to support many of those listed but there is and was no way to confirm whether all

SEP 30 1975

CIA

-4-

SECRET

SECRET

income was shown. Nor was there any way of ascertaining whether or not he made any genuine effort to produce "outside" income. An Office memorandum in June 1967 states that WILEY said his wife told him that he could make a million dollars in public relations work if he promoted something in which he was really interested. Also, that WILEY said that that was true because he had not had his heart in his recent work for us and, now, he plans to start selling America. It is believed that much of his time since 1967 was expended in domestic activities of the nature of those being generated by or actively supported by the National Committee For Responsible Patriotism (NCRP), of which WILEY has been the prime mover. It is understood that for at least some of his work with NCRP, he drew remuneration. This does not appear in the "S" fund income (WILEY has stated that he didn't feel that we would consider it appropriate for him to include it therein) and it is impossible for this office to ascertain whether he included it on his federal income tax returns as he just shows a gross income figure on his Schedule C. WILEY was specifically advised on at least one occasion, by letter on 27 January 1964, that his taxable income should include all checks received from SRS/OS, as well as his salary and in addition the return must include all outside income. We have no knowledge whatsoever relative to any income tax return accounting at other than the federal level. On those occasions where overseas travel was involved after 1965, while WILEY was not denied permission to travel, he was told that financing would be his own problem. It should be noted that overseas trips have resulted in expenses being charged to the "S" fund. In most cases, the trips were followed by articles in the media and he has continued to give lectures through the years, obviously drawing on these trips for background. Income was generated, therefore, from his travels but it would be well-nigh impossible to render a valid cost-accounting on any specific trip to determine whether it ultimately resulted in an expense.

11. It is believed that WILEY has no "paper" which would reflect that this Office has any legal obligation to reimburse him for the deficit he now shows in his Final SAROYAN Fund accounting, nor does there appear to be any such paper in office records. As an independent contractor, he has been almost completely free of control by this Office. He has on a number of occasions indicated in advance, some undertakings that he contemplated such as overseas trips. It must be conceded that had this Office made strong objection, he would

1975

CIA

-5-

SECRET

SECRET

have altered his plans, to comply with Office considerations. On an Official Routing Slip in July 1971, C/SRS noted "WILEY has established a certain image as part of his cover which makes his participation in these things almost mandatory. In other words he can't be a 'little bit pregnant'." The foregoing was in reference to some of WILEY's stateside activities but is believed representative of the Office attitude. As to the fund balances and deficits, it seems highly unlikely that had WILEY shown a large plus final balance, that this Office would have given any consideration as to whether we had either a legal or moral claim to such a balance but would have deemed the balance to be rightfully WILEY's. Mr. Edwin REETZ, Budget and Fiscal Branch, Office of Security has indicated that such is his opinion.

12. The same reasoning as stated above applies to any Office moral obligation to reimburse WILEY for his alleged deficit "SAROYAN" fund balance. It is believed, but this is conjectural, that WILEY does not really believe that he is entitled to such a payment but merely hopes that this claim has enough reason and stature to give him more leverage toward a better termination settlement. He has orally acknowledged that he probably has no legal claim. It is believed that, despite the fairly substantial size of the alleged deficit in recent years, at no time did WILEY prior to the termination discussions, request that the Office provide funds to eliminate the deficit nor did he even inquire as to the feasibility of such an action. An added factor, however, which may have some significance is that, although these "S" fund accountings have been received annually, there does not seem to have been any direct comment to WILEY regarding either their character or the plus and minus balances he has shown therein.

13. Consideration must be given to the actual or apparent significance of tendering WILEY any amount which is or would seem to be, in response to his alleged claim. Should an amount closely approximating his claimed deficit be offered WILEY, unless it were carefully delineated in writing to be other than restitution for the alleged "S" fund deficit and so acknowledged by WILEY that it represented a termination bonus and that he had no other claims against the Agency, the Agency might be placed in the position of seeming to have honored his claim. This would be unwise in that it might at least appear that the Agency had willfully supported some of those independently undertaken domestic activities and overseas trips that

RECEIVED

SEP 30 1975

CIA

-6-

SECRET

SECRET

would be embarrassing to the Agency if publicly surfaced. It is also possible that WILEY then might seek to also garner the \$4,000.00 terminal bonus first offered him.

14. It is the writer's belief that WILEY's reluctance to accept the previously offered termination bonus is primarily motivated by his desire to obtain as favorable a settlement as he can possible maneuver out of the Agency, and, while he fully understands that revelation of his past relationship with the Agency could be a source of some embarrassment and concern, he does not have any intention or desire to make any public disclosure of same. The writer cannot assess what WILEY's mood and reaction will be, if at some time in the future, it becomes patently evident to him that the Agency has surfaced him to Congressional Committees. It is suggested that an offer of some figure between \$7,000.00 to \$10,000.00 could be negotiated for a total final release of all claims by WILEY at the present time. He could also be advised that no claim will be made by this Office for any of the office equipment, fixtures, library materials, and photo equipment which he may have and to which there may be a valid Agency claim.

RECEIVED FROM

SEP 30 1975

CIA

SECRET

Memorandum

TO : Chief, Security Research Staff

DATE: 12 April 1965

FROM : E. Mendoza

SUBJECT: Saroyan

Telephone conversation on 9 April 1965 covered the following matters:

1. Tax and Saroyan Fund

Clarified items appearing in Saroyan Fund annual statement, which is attached hereto, along with rough statement on 1965 activity in Fund. ~~Saroyan was advised that all finance statements appear acceptable.~~ Deficit figure carried over from 1963 has to be accepted--no annual statement was received by me. Note present balance in Fund is \$1257.

In view of Subject's plan to attend the Youth Festival in August, I suggested Saroyan not repay us the \$1000 advance for the China trip, but keep it until he is assured of complete outside financing for the Algiers trip. He would, as in the past, utilize this fund to cover any deficit for his own travel costs, not for any of the group which he supervises at the Festival.

2. Overseas Trip

Subject asked what the reaction would be to his extending his travel in August, to spend perhaps a month in South America. I asked about the financing and he, as usual, refers to the Saroyan Fund. He says that he hopes to secure further returns from his work in connection with the China trip and he feels he could cover all expenses. He mentioned taking what would be considered his "two weeks leave" while on this travel, so the entire travel period would be six weeks.

I told him to discuss this with you further if time permits on Wednesday or to set out details in writing.

SUBJECT: Saroyan - Travel Vouchers

FOR SRS USE ONLY

Attached is #6 is the series of travel vouchers, covering period 1 January - 30 June 1965, which I feel need some approval other than mine.

On this particular voucher, there are four separate items for reimbursement for entertainment or operational meals, totaling \$15.00, with "details" thereon shown on 5x8 attachment. My comments below on Voucher #6 apply similarly to the other five still-unprocessed vouchers:

1. Re Oliver Davidson

I have no idea what the comment "see several previous detailed reports" is supposed to refer to. In 1963 Saroyan wrote one memo recommending Davidson as prime candidate for Agency undercover intelligence position - like Saroyan's. (FYI, this was during the period Saroyan was out recruiting for a personal assistant, and trying to convince SRS that he needed an assistant.) Agency information show Davidson to be a professional bum who wants a career in spying, as Davidson himself indicated in his correspondence with CIA. I advised Saroyan to stay away from Davidson as he appeared to have nothing from which Saroyan could benefit. To date I have seen nothing which would change my opinion. It might be interesting to see some current reports on Davidson or some detail on what he and Saroyan are involved in.

2. Re entertainment of YAF crowd

Since I levied requirement on Saroyan that he furnish us the names of persons being wine and dined (March 1965), it is interesting to note that the same people turn up on the lists. Good example is the YAF crowd, described by Saroyan as "leaders". I question the description since none of the persons listed have any position in NY YAF in any material I have seen. Further, Bill Gardiner is a long-time personal friend of Saroyan who is employed on one of the railroads and who is used by Saroyan in developing photographs, etc. when Saroyan is busy. (Gardiner incidentally is aware of Saroyan's CIA employment.)

RECEIVED FROM

SEP 30 1975

CIA

I would question whether the repeated entertaining of YAF people is worth the expenditure to either Saroyan or to SRS. Further, in view of Saroyan's cover as "free lancer", is this wise?

SECRET

3. Increase in expenditures for entertaining

Since the beginning of 1965, Saroyan has a sudden increase in claims for reimbursement for entertaining. Up to this time he averaged one item for a 30-day period (except for overseas trips) and such claim usually ran about \$3.00. During 1965 the claims suddenly jump to 4, 6 and 8 items per 30-day period, and several of them are for amounts between \$10 - 15.00.

As you know, when SRS initiates the processing on Saroyan's travel vouchers, we automatically assume the responsibility for authorizing payment, and certify that all payments are in line with Saroyan's assignments and in compliance with the usual requirements for expending Agency funds. I don't feel I should continue to process Saroyan's vouchers as has been done in the past, since I could not possibly explain the expenditures to either OS/B&F or to CF/Contract Agents Section.

1956...File contains 8 \$1000 receipts signed by Wiley for 1956.

1957...File contains 2 \$1000 receipts signed by Wiley in Jan. and March 1957.

An expense accounting by Wiley for the period 4/1956-5/1957 reflects receipt of \$10,000 which was expended as salary (14 mos.) \$8600.00 and other expenses \$1400.00. Salary approximates \$614.00 per month.

1957...receipts for \$5000 from Sept. thru Dec.

1958...receipts for \$3000 thru May.

An expense accounting for the period 6/1957-thru 5/1958 shows expenses of \$1148.00 less \$100.00 received...1048.00 plus salary of \$7900.00... \$650.00 per month plus a bonus of \$100.00. It appears that \$8000.00 was received...\$8948.00 spent out of the \$10,000 which had been allowable for the period.

1958...receipts for the remainder of 1958 total \$8000.00...apparently \$2000.00 apply to the previous year.

1959...receipts for \$4000.00 thru June. Also in June were smaller unexplained receipts for amounts of \$300.00, 200.00, 150.12, 100.00 and 50.00. Another receipt for 16 June is for \$556.76 which corresponds with the amount indicated in an 18 May memo. as being needed for the World Youth Festival in Vienna.

1 July 1959 is the date Wiley's contract as an agent at \$9100.00 per annum plus 5% quarterly...113.75..became effective.

1959...10 Sept. receipt for \$75.00...no details.

1959...1 Sept.-30 Sept. Form 22 Travel Voucher \$125.68. This is the first travel voucher to appear in Wiley's records. Payment was to be made to S&S staff employee (CARRICO) for transmittal to Wiley.

A regular payroll Statement of Earnings and Deductions Form 1315 begins appearing regularly in his record at this time reflecting a monthly salary of \$758.33 plus the quarterly \$113.75.

"Sarovay" fund. The first instance of reporting on this so-called "S" fund is for the period, 12/59-6/60 and indicates that there was no outside income to report previously. Note that this is prior to the establishment of Wiley's firm, World News Analysis (WNA). WNA when established supplied him only a portion of his cover. In addition to this largely nominal news service, Wiley operated as a broadcaster, lecturer, photographer, writer and, in later years particularly, as an organized and public relations man. Income..\$1162.76. Expenses charged to this account were for an overseas trip (Caribbean, incl. Cuba)..\$672.18. Bal. carried forward +\$490.58.

1 July 1960, Wiley's salary increased from \$9100.00 per annum to \$9900.00 per annum (\$825.00 monthly) plus a quarterly allowance of \$123.1

4/1/61-7/61 Travel Voucher shows an expense of \$3497.99 less an advance of \$1900.00...a difference of \$1597.00 for which no claim was apparently made to Finance Div. This was for an Europe/ Africa trip. The difference seems to appear in the expenses shown in the "S" fund for this period.

1963...6/1-6/30 Travel Voucher \$34.46 Cash for Transmittal.

"S" Fund accounting...7/62-6/63. The files reflect no accounting for this period.

1963...7/1-7/31 Travel Voucher \$166.32 Cash for Transmittal.

8/1-9/30 " " (2 mos.) 90.85 " " "

10/1-11/30 " " " " 155.21 " " "

12/1-1/31/1964. " " " " 85.45 " " "

1964...2/1-5/30 Travel Voucher (4 mos) 207.53 Payment to be made into Agent's bank account now per instructions to PD 3 June 1964.

6/1-6/30 " " 25.65 " " "

"S" Fund accounting...7/63-6/64. The files reflect no accounting for this period-fiscal 1964..however, a later accounting covering calendar 1964 does cover half of fiscal 1964.-therefore, see "S" accounting below.

1964...7/1-11/15 Travel Voucher (2½ mos.) \$259.15 Voucher was received in April 1965 and Not Paid. "Reimbursement refused-after discussion with C/SRS, Funds to be reimbursed from "S" fund. 1 April 1965. Mendoza." This was the 1st refusal of an expense voucher and suggested use of the "S" fund for the expense. No apparent advance warning was given to Wiley. He was told to "take this sum out of the operating income". Wiley does list it later in the 1965 "S" fund accounting; however, the 1st 6 1965 Travel Vouchers were paid by FD after an "OK" by Morse Allen.

11/10...\$1000.00 was advanced to Wiley from PCI funds for an F.E. trip. In Feb. 1965 he accounted for \$962.72 in expenses for the trip from 11/15-12/31/64 above that furnished by the Chinats. He returned \$37.28.

"S" Fund accounting 1964
Income...\$1603.85

Expenses. 1280.63..including an alleged 1963 deficit of -\$392.37. There was no 1963 accounting to confirm this by. A memo. 12 April 65 by Mendoza says no annual statement for 1963 was received.

Balance...+\$323.25.

Total payments from SRS Revolving fund to Wiley during 1963-64 approximated \$210.00..mostly for phone calls.

Vouchers and th So. American trip voucher.
Deficit balance...\$37.56.

1966... An undated memorandum titled SAROYAN, seems to have been written
either by Mendoza or Tighe apparently very early in Jan. 1966. Two
sections are pertinent to this financial summary.

"Travel Vouchers

No monthly travel vouchers have been approved for payment since
July 1965. In view of fact that Saro yan had close to \$1000 in Company
funds, he was told to deduct expenses from the fund rather than submit
vouchers for reimbursement. Expenses up through October were known
to be \$200 and there would be some additional for month of December. He
was out of country balance of that time, for which he would claim no
reimbursement since the overseas trip was self-funding.

ROM In addition to vouchers, there are other minor expenses (purchase
of certain items, certain telephone expenses) which were usually paid
out of our revolving fund. Morse allegedly had a collection of these
for the last few months which have never been paid, and Saroyan keeps
asking me about them. I have told him to deduct them from the company
funds, and forget about them. How shall we continue to handle these."

RECEIVED
SEP 30 1975
CIA

"3. Besides the SS tax problem, in the event Saroyan is used in Washington, or is used in a very clandestine fashion, the present method of depositing salary and voucher reimbursements into a New York City bank accounts should be changed immediately. This should be done to protect the Agency mechanics in New York since if Saroyan is blown, this could affect the security of any other agents holding similar bank accounts in Saroyan's bank."

1966...A 14 Jan. 1966 Memorandum from Tighe to C/SRS includes "c. With respect to Vouchers submitted by Saroyan for future travel expenses, etc., should we continue to accept, approve and make a reimbursement in the form of a check deposited to Saroyan's account, or should Saroyan be instructed to deduct such approved expenses from the approximate \$900.00 "Nut" he has on deposit?". The memo. is initialed by PFG but no comment appears.

A copy of a 15 March 1966 letter to Wiley from C. Tighe contains a paragraph which states:

"Future vouchers for travel and expenses should be submitted promptly as they occur. For instance, any voucher received after May 30 for expenses incurred prior to that date cannot be reimbursed to you under the arrangement which has now been setup". Reflection on this instruction to Wiley indicates it to be an impossible one to follow as it would require instantaneous submission of expense claims.

1966...1/1-4/30 Travel Voucher (4 mos.) \$237.05 Not paid by FD. "S".

"S" Fund. An Interim "S" Fund accounting through 14 May 1966 reflected:
Income..\$3420...Expenses..\$1730...with a balance on hand of +\$1690.

An undated (though obviously mid-May 1966) very rough draft of a memo. C/SRS from Cecil Tighe (it is not evident whether this was ever typed and forwarded) concerns Wiley's financial report. It reads:

"Attached for your review and approval is financial report submitted by Subject including cost of official travel, rent and other reimbursable expenses incurred from 1 Jan. thru 14 May 1966.

You may recall that in Dec. 1965 Wiley received approval that beginning in Jan. 1966 he each month was to draw on the Capital for reimbursement of official expenses incurred. This arrangement was proposed and approved as a substitute for the receipt, processing and reimbursement ~~of the monthly vouchers that were received at Headquarters in some cases 3 to 6 months in arrears.~~ by OS, A & TS of monthly vouchers that were received at Headquarters in some cases 3 to 6 months in arrears.

Wiley's attached vouchers and financial statement of funds on hand are, therefore herewith submitted for your approval in compliance with instructions issued in Dec 1955 (sic-obviously should read 1965). Since Wiley has already drawn on the capital for reimbursement in the amount of \$1730 for travel expenses, Rent and other reimbursable items for the period from 1 Jan. thru 14 May 1966 the only action to be taken is one of allowance or disallowance of the \$1730 amount claimed.

Wiley has been instructed that in the future he is to submit his account for reimbursable items on the first of each month. Upon receipt of his statement it will be forwarded for your approval and signature."

Deficit	-\$2481.62	less '72 deficit -\$4993.39
		<u>Final Def. bal. -\$7475.01</u>

If reimbursed for the so-called "S" fund deficit-what effect upon his income tax returns in which he has claimed all these expenses as "unreimbursed" through the years. Any payment would have to be picked up as income in 1974 whether termed a bonus or whatever. We would have no control on how he handled this on his 1974 tax, if at all. Question also may exist as to who has the legal property right to all the books, equipment, and fixtures he has acquired over the years-and depreciated in his tax return..and shown as a business expense in thier acquisition.
