World Confederation of Organizations of the Teaching Professions
(Funded by the Vernon Fund)

I In April 1967 a discussion was held between an Agency representative and John THOMPSON and Ray SNIKE of the WCOIP (World Confederation of Organizations of the Teaching Profession) concerning future funding for WCOIP. Because of publicity concerning the funding of WCOIP by the Vernon Fund, WCOIP leadership promised its membership that no further Vernon Fund money would be accepted until the status of the Vernon Fund was clarified. John THOMPSON felt that the best solution would be a one-time only infusion of money by sterile check into the WCOIP bank account to be backstopped by a letter from the attorney for the Vernon Fund, Bryce REA, who would attribute the money to members of the Vernon Fund Board who anonymously wished to provide WCOIP with sufficient funds to cover expenses until other sources could be found.

In May 1967 John THOMPSON of the WCOIP described to an Agency representative an interview he had with Mike MacMANUS of TIME magazine on 1 May 1967 who wanted to discuss the effects of newspaper publicity on WCOIP operations. MacMANUS was especially interested in any economies forced on WCOIP and a request for proof of the value of WCOIP operations to individual teachers. THOMPSON felt that MacMANUS did not succeed in gaining sufficient additional information from the interview to warrant writing his projected article.

the friendship of peoples of the Near and Middle East toward the United States and to combat Communism. It was incorporated as a voluntary, non-profit membership corporation under the laws of New York State. Dorothy THOMPSON, columnist, was selected as Chairman. In early 1967 AFME received a good deal of newspaper publicity concerning its Agency affiliation including articles in the Soviet press, TASS and USSR INTERNATIONAL AFFAIRS. Syria was the only country in which AFME is active that raised the question of the organization's continued existence in the light of allegations of Agency financial support; although, there were rumblings in Iraq.

There is no OS subject file on the San Jacinto Fund. The attached memorandum dated 30 January 1967 from Chief, Central Cover Group to Deputy Director, Plans - "Threat of Exposure of Agency Operations" - stated that RAMPARTS has expressed intense interest in the San Jacinto Fund, and its sources of income in particular, because it funds 3 HBEPTOME activities (youth affairs).

There is no OS subject file on the M. D. ANDERSON Foundation but OS indices reflect a file on the M. D. ANDERSON Hospital and Tumor Institute.

A study program to determine the effects in diverse Biological Systems resulting from exposure to high intensity coherent radiation was contracted with the M. D. ANDERSON Hospital and Tumor Institute, University of Texas, Houston, Texas in October 1963 but as of 16 April 1964 there was a hold order against going ahead with the contract because of a question as to why the Agency should bear the whole cost of the contract which was to be for inter-departmental use. In May 1967 a note in the file indicated that M. D. ANDERSON Hospital and Tumor Institute will be engaged in classified work for the Agency. There was no record of a clearance issued.

MARSHALL FOUNDATION

See attached memorandum dated 30 January 1967 from Chief, Central Cover Group to Deputy Director, Plans - "Threat of Exposure of Agency Operations". The MARSHALL Foundation of Houston, Texas is considered one of the most vulnerable to exposure.

A "New York Times" article for 26 February 1967 disclosed that the MARSHALL Foundation of Houston, Texas channeled funds from the Agency to the School of Industrial and Labor Relations at Cornell University from 1961 to 1963.
