 B. LEOP, 0478, dated 17 December 1960
 C. DIR-17181, dated 13 December 1960

1. A dispatch had been prepared outlining the various administrative and operational details pertinent to the WIROGUE project. Receipt of reference B negated its value and we prepared this one in its stead. Suffice it to say that all steps outlined in reference A were accomplished and he was dispatched with the specific instructions outlined in paragraph 2 of reference C.

2. During WIROGUE/1's association with the undersigned, the subject of a vehicle was raised by him. He stated he needed one to accomplish his mission. It was suggested to him that under the present circumstances in the Congo it would not be wise to consider such a purchase until he has discussed it fully with you and received your concurrence. If he did purchase a vehicle after receiving your approval, then he would have to do it from his own funds and not use funds made available to him to establish his cover business. Obviously he has violated the suggestions.

3. While WIROGUE/1 was in the employment of REDWOOD, there was a communication channel set up between him and his family. This was an arrangement with a letter drop in Sao Paulo. He would write a letter, post date it, and give it opened to the Case Officer who would pouch it to the COB, Sao Paulo for mailing. Letters to WIROGUE/1 would come to a post office box in Sao Paulo where it would be serviced by ALLICOMETER-2 and pouched to the Case Officer. We leave it to your discretion, as to whether or not you wish to continue this type of arrangement. Nonetheless, under separate cover, attachment A is a letter for WIROGUE/1 which was received through this channel.

4. I am sure that WIROGUE/1 will undoubtedly want you to set up a similar arrangement through Germany for him so that he may communicate with a female acquaintance of his in FBPRIME. We are not adverse to the idea of his having such a channel, but only on the condition you are able to censure

1. The plans and development of the WIROGUE project have reached a point whereby a summation of the progress made and the plans for the future is in order. At this writing it is anticipated that WIROGUE/1 will be on the Leopoldville scene on the first of December.

2. WIROGUE/1 had originally been recruited in Europe for a REDSOX operation. He was flown to FBPRIME "black" and underwent an extensive training program. This included survival, small arms and other similar type FM training. After a year of such training the project failed to materialize, as a result subject was preparing for resettlement in South America. The AF/Division took interest in WIROGUE/1 and after an assessment decided that with his peculiar background, talents and general makeup he could effectively be utilized along the lines cited in reference A. On 21 October 1960 the case was transferred officially to the Africa Division.

3. Since that date to the present, every effort has been made to psychologically orient WIROGUE/1 for this assignment and to prepare him operationally for its fulfillment. To insure the security of the operation, prevent any identification with ODYOKE and/or KUBARK, and to preclude any unexpected uncovering of WIROGUE/1's past which would associate him with his pre-KUBARK life, a number of basic steps were taken. Those were:

- a. WIROGUE/1 underwent plastic surgery, which changed the shape of his nose.
- b. A toupee had been made for his constant use. This and the plastic surgery have altered him sufficiently to obviate any recognition.

c. Documentation prepared with accompanying cover story to show that WIROGUE/1 is an Austrian and who has never had ODYOKE connections, nor ever been in FBIRIME. (See separate cover attachment A).

4. It is planned at this time to take WIROGUE/1 "black" to Germany. There he will be met by the undersigned, given his Austrian documentation, contact instructions and letter of credit, stripped of any FBIRIME clothing or personal effects, and dispatched. He is to proceed to Leopoldville on his own and upon arrival make contact. The cover assignment for subject is temporarily left open, although he has been told to look into the prospects of opening a photo or general repair shop. He has actually done photographic work but the decision on this we will leave to your on-the-spot judgment. The letter of credit for three thousand dollars is to be used to finance this venture. There will also be a reserve of one thousand dollars in a Swiss account should expenses necessitate a greater outlay. This money will constitute a non-interest bearing, operational loan which must be repaid by WIROGUE/1 from profits over a period of years. All other profits after the loan is paid off will be WIROGUE/1's.

5. A word about the manner of man with whom we are dealing. He is a small, energetic individual, who has displayed shrewdness, cunning, ingenuity and inventiveness. He has a peculiar turn of mind which lends itself remarkably to nefarious and extra-legal activities. Excitement and intrigue are important factors in his life, he relishes it and as a result may be a little delicate to handle. WIROGUE/1 likes order and clear cut chains of command. He admires the Prussian approach and as a result will take orders even if he may disagree. It is important to him to have the trust and confidence of his case officer. If in his own mind he feels assured of this and is confident of the professional KUTUSE-type competence of the CO, he will reciprocate in kind. He is indeed aware of the precepts of right and wrong, but if he is given an assignment which may be morally wrong in the eyes of the world, but necessary because his case officer ordered him to carry it out, then it is right and he will dutifully undertake appropriate action for its execution without pangs of conscience. In a word, he can rationalize all actions. One last thought which may be useful. Best results will probably be gotten if, when given an assignment, he be permitted to accomplish it in his own way. The latter is connected with his idea of trust and confidence.

REFERENCE(S)

1. WIROGUE has received political recognition from the West German government and is fully documented in the name of Georg Frank Sanders. This was accomplished with the cooperation of ODIBEX on the basis of the fabricated story stating that Subject is a Georgian who defected from East Berlin on 14 July 1962 while with a tourist group. It was necessary to acquire political recognition for Subject because this was the only sure means to backstop him if and when he applies for immigration to South America. A Fremdenpass would not withstand the investigation required by immigration authorities.

2. All the South American Consulates in West Germany were contacted with the assistance of CAMANTILLA in an attempt to collect information which would enable HARVARD to select the most likely country to which Subject could immigrate based on his personal preference, opportunities for emigrants, immigration requirements, etc. Columbia, Chile or Peru offer the best possibility.

3. The next step will be for Subject to apply to the appropriate Consulate and begin his processing. Prior to having Subject take this step HARVARD will require Headquarters guidance and thinking regarding the following:

a. Subject as a prospective emigrant will have to furnish proof of employment or proof of financial solvency. Subject's West German documentation indicates that he is an engineer. This does not mean that he is a diplomaed engineer but rather a master mechanic. This is borne out by the details of his falsified life history and in fact by Subject's actual skills in electrical and mechanical fields. HARVARD feels that Subject can satisfy any South American Consulate that he is experienced enough in electrical and mechanical fields to be of value to the economy of the South American country of his choice. Once Subject is admitted to South America, HARVARD has no doubt that he can find employment if he desires it. The ideal solution, however, would be for Subject to have a firm offer of employment prior to his immigration. If KUBARK can arrange this, HARVARD feels that Subject's immigration could be practically assured. Subject could seek employment through the German language newspaper in Santiago, Chile but HARVARD feels that no South American firm would take the chance of hiring him sight unseen unless he were a highly qualified specialist.

b. If proof of employment cannot be provided, proof of solvency is the next requirement. Only one of the South American countries has stated what it considers to be the minimum proof of solvency. The prospective emigrant must show that he has the funds to subsist for two years at the rate of \$125.00 per month. HARVARD feels that to deposit \$3,000 to Subject's account would be a grave mistake. HARVARD has no doubt that Subject is capable of taking the money and departing for parts unknown unless there were sufficient inducements awaiting him in South America. HARVARD could probably arrange for a letter attesting to the fact that Subject has \$3,000 being held for him. Subject could have been working for ODIBEX as a consultant since his defection. The \$3,000 would be bonuses and salary.

c. HARVARD has not considered processing Subject for immigration through a bona fide refugee organization in order not to involve Subject with the United States Escapee Program and to keep from making a refugee organization a party to fraud with the possibility of embarrassing complications if the immigration does not come off properly. Working through a refugee organization would mean additional paper work and additional problems which at the present would indicate that this immigration avenue should not be considered except as a last resort.

d. When filling out his application forms Subject will have to provide employment and residence addresses consistent with the dates when he was supposedly living and working in the Georgian S.S.R. His wartime military service will have to be covered also. HARVARD feels that this information can be acquired through the facilities of SR/6 when needed.

4. HARVARD is of the opinion that Subject has committed himself to going to South America partly because he will do anything which will prolong his association with KUBARK and partly because he is hoping to realize some personal or financial profit from the exercise. HARVARD has followed the theme that Headquarters desire is to help Subject and that it can best be done by completely legalizing him. Political recognition is the first step but we desire further that he be helped to immigrate and after 5 years acquire citizenship. Subject has asked HARVARD if he would receive financial help during the transition period in South America. He was told that we could only guarantee his plane fare, that Headquarters would decide how much and what kind of additional help he would receive if any.

5. Subject rejects the idea of staying in Germany except as a last resort. It is possible that because of his irritation with his inactivity Subject may simply request his German documentation and leave HARVARD's custody.

6. Subject has been in HARVARD's hands since 22 May 1962 and has been costing us 100 to 150 DM per week, plus many hours of case officer time. Request earliest Headquarters advice per para 3 above.

1. Iden was born in 1918, in Georgia, USSR. He emigrated to France with his family when he was three years old. He was a clever, precocious child during his lycee education in France and was frequently dismissed by school directors who did not appreciate his temperamental performance. He also attended several engineering colleges but apparently never graduated. In 1939, he volunteered for the French Foreign Legion and was sent to Tunisia. The occupation of France in 1941 ended his military career. He was demobilized and returned to Paris.

2. Subject claimed that he wanted to fight for France, but he did not wish to join a collective resistance organization. He decided to act on his own so he joined a labor force being recruited in Paris to go to Germany. For awhile he worked in a synthetic gasoline plant in Boelitz near Berlin. Later he was employed as a driver for the NSKK. During this time, he began his career in black marketing and document forging. He claimed that he forged passes into and out of Germany and did it to help imprisoned French officers to get back to France. It is felt that the ulterior motives might still have been love of excitement and wish to make money. He also claimed that he did not work for the French Resistance, although it was possible and probably that they gave him orders to fill. He did mention working through intermediaries and cut-outs, so its possible that he did actually work with the Resistance but did not want to tell us. Eventually Subject was arrested by the German regular police for his activities, and later brought to Berlin where he was interrogated for several months at Gestapo Headquarters. He ended up by spending time in jails and concentration camps. He was finally liberated by the U.S. Army.

3. After the thrill and excitement of the war years was passed, Subject could not settle down to a routine existence. So he joined up with an acquaintance who he says convinced him of the necessity to make more money. They decided to commit robberies. One was successful. Unfortunately for Subject, the other was not. His friend was apprehended and confessed. Subject spent the next five years in various rather notorious prisons in France.

He was then paroled to his brother and was living near Marseilles. He attempted to go into business using some of the inventions that he had conceived during his confinement in prison. His personality and intense drive and self-confidence quickly gained him a business partner with capital to invest in a cinematographic color reproduction system that was patented and earned decent profits for the two of them. Subject was still on parole and tied to his older brother's "self-righteous indulgence," however. It was shortly after this that Subject was approached by a member of KUBARK who was following up on Subject as an ops lead furnished by a cousin in PSPERS. Subject was favorably assessed and removed black from Franco because of travel restrictions imposed by his parole status.

4. The rest of Subject's career has been generally summarized in DIR 57443. We are also attaching a copy of SCOA-21573 for information on Subject's most recent activities.

5. Subject has been described as being very ingenious, observant, shrewd, glib, and one who relishes intrigue and daring. The latter play a very important part in his character. He learns quickly and carries out any assignment without regard for danger. His drawbacks, as enumerated by his case officers, are that he is headstrong, impulsive and constantly needs new interests, has an ego that feeds on recognition and triumphs, a low frustration point at unpredictable times, would probably "fall in love" with his CO which would make agent turn over difficult, and that he would be difficult to dispose of if he became disenchanted, i.e. Subject is a handling problem.

MEMORANDUM FOR: J. Albright, AF/5

SUBJECT : 1. Informal Character Assessment of WIROGUE
During the Period July 59-Nov 1960
2. Suggested Considerations for WIROGUE Resettlement
Phase
3. Damage Report Contribution

1. The following observations and comments are intended to represent an informal personality assessment and factors in consideration of resettlement for AESPIC, now WIROGUE. It is based on a period of training and handling prior to anticipated dispatch--early July through late November 1960. These thoughts are based on personal daily extended contact as trainer/agent handler with Subject as a member of prospective cross-border team for implementation of REDSOX Operation ASENTINEL. One member was re-assessed operationally unsuitable, which left a team of 2 agents, both of which Undersigned continued to handle. It is hoped that this assessment may be of some benefit to the AF Desk Officer, who requested it the day of this writing. It is intended that Subject's demonstrated suitability for ASENTINEL, an infiltration-exfiltration operation into difficult terrain in the Soviet Union, will serve as a mechanism rather than an end in illustrating Subject's general abilities and limitations for the task at hand. An attempt has been made to present this material in subject categories considered operationally meaningful. Quoted passages in Part I are Subject's own or the closest approximation memory permits.

2. It is my considered opinion that the Subject of this writing has the highest personal and professional regard for Undersigned. I do also consider that, although thoughtful handling and self assuredness were prerequisite agent control factors during this case, Subject did not cause an uncomfortable amount of special handling problems. The senior Project Officer was Mr. Perry Crookham, C/DOD/DOB during the training and holding prior-to-dispatch phase of the operation.

3. Subject Background and Chronological Association Factors
Deemed Operationally Significant

A. Subject is an approximately 49 year old ethnic Georgian fluent in Georgian, French, German and English. Subject emigrated to France with the remains of his family during the pre-Lycée stage of his life. His father, a TBILISI University academician and intellectual of some note, elected to stay in Soviet Georgia, during which period Soviet dominance in the West Caucasus was fairly well solidified. Subject considers that his father's decision was made of

SECRET

his own free will but which nevertheless disappointed Subject greatly, as he greatly admired him, despite the fact that Subject's father's decision was responsible for the suicide of his mother, whom Subject greatly loved. Undersigned believes that Subject's anguish in memories of his parents was genuine. Subject was a clever though precocious child during his Lycée education, and frequently was dismissed by school directors who did not appreciate his temperamental though erratically brilliant performance. Subject during this stage of development probably tried as hard as ever in his life to conform to the rules of society, which during that stage of French national education practices, would probably seem quite strict by American middle school practices. Subject greatly desired academic/professional recognition in imitation of his father. These feelings were especially frustrating because of his quick mind and seeming natural ability for mechanical and electrical theory and principals. I do not believe he ever has learned to consider conventions of living anything more than a tiresome game to be played when there is no alternative. Subject's quick mind, and early appreciation, recognition and adaptance of guile did much to ensure the necessary understanding of French culture for moderate success in that country. Subject who is an unusual looking man even by French standards, has no trouble in identifying with the under-privileged elements of French society. Subject is temporarily bald, hooked nose, short, slender, bandy legged, wiry, and of dark complexion but possessed of a dry, caustic wit eager to laugh and contribute in the Caucasian spirit of camaraderie to those whom he considers worthy of friendship. Subject, however, makes real friends cautiously, and has consciously established for himself personality assessment criteria that would do justice to many successful senior FI or CE C/O - agent handlers.

B. World War II offered Subject the welcomed opportunity to show his ability and ingenuity by engaging in black market affairs in luxury items and travel documents in German-occupied France. Subject would wistfully recount stories of his escapades during that period, which, after really getting to know Subject, seemed to be entirely possible. Subject admired the Germans as "worthy opponents", particularly their efficiency and ability to act decisively whether the problem be tactical or strategic. An extended period of German incarceration (until war's end) did nothing to alter his opinion. Wars' end left Subject bored and unfulfilled. The excitement and thrill of "the game" were gone and Subject's unsettled, numb confusion was for quite another reason than most of Europe's milling thousands of displaced and shattered families. Therefore, it was not long before Subject and a close friend from his black market days decided on a daring daylight bank robbery in one of the suburban centers of France. Subject contends he planned the robbery from start to finish, and needed only someone to help. Subject and his accomplice carefully cased a bank, stole a heavy truck and during the height of the business day backed the truck full speed in reverse through the large street level plate glass window. Subject said he hopped out of the truck with

SECRET

an automatic weapon, while "the people were frozen solid", gathered up the money and was away quickly. Subject said the scheme failed because his accomplice went to the cache-site to get some of the money to spend before it was safe to do so. His accomplice was apprehended and in time broke down and implicated Subject. Subject said he was not bitter at his betrayer, but rather professed a genuine admiration for French interrogation techniques. Subject served a difficult confinement of 5 years, and was paroled to an older brother in Marseilles, as I recall.

C. Subject said that he began at that point to appreciate the futility of violent actions, while opposing the authority of society. He therefore attempted to go into business using some of the inventions that he had conceived during his confinement in prison. His winning personality and intense drive and self-confidence quickly gained him a business partner with capital to invest in a cinematographic color reproduction system that was patterned and earned decent profits for the venture. Subject was still on parole and tied to his older brother "self-righteous indulgence", however. It was shortly after this that Subject was approached by a member of the AIS who was following up on Subject as an ops lead furnished by a cousin in the US who was a moderately successful lawyer, and who had been long since recruited as an agent spotter for ethnic Georgians. Subject was favorably assessed and removed back from France, because of travel restrictions imposed under his parole status. I believe that this opportunity rekindled his old feelings of exhilaration and grateful enthusiasm for the opportunity to perform his deeds of doing for an authority, sanctioned by a national state, in this case the AIS.

D. Here at last, he considered, was a secure source of backing and support for his natural outlets. Subject always considered the Agency as ~~an equal~~ business partner, ally, and protector. He was therefore a grateful, sincere "tool" who thoroughly enjoyed his role as lower echelon action agent. *Subject now probably feels like an equal partner.*

E. He was a willing pupil, physically active -- since the job called for physical endurance -- and looked on self-denial and fatigue recognition as a point of honor. Undersigned was never a poor athlete, however, was bested on numerous occasions at whatever the field problem. Subject absorbed Soviet Realities, Border Troops M.O. and basic tradecraft quickly and with great applied flexibility.

F. It was during this period that Subject began to confide regularly and in depth to Undersigned. Subject would often tell Undersigned, "Fred, you must believe me, I want to do something." "I will do anything you tell me to do, only tell me." "You (meaning the Agency) want me to kill somebody. - Okay! I do it anyway you say." I believe Subject was genuinely sincere, and that this was neither an attempt to impress his C/O or a trust/assurance maneuver.

SECRET

G. When an indefinite hold was placed on ASENTINEL by higher Agency authority, one team member was re-oriented and placed on conservation in a cover job. Undersigned ultimately conducted this agent back to his Scandinavian home where resettlement was achieved with a minimum of arrangements, however, Subject was transferred to AF Division for projected operational use in central Africa. This, if memory serves, was accomplished in late 1960.

4. Personal Qualities and Motivation Factors of Possible Operational Exploitability

- A. Natural intelligence, resourcefully inventive
- B. Mechanical ability, to include photography and gadgetry
- C. A certain acumen and shrewdness
- D. Concious guile and a "clandestine mind"
- E. Physical stamina, and vitality to include extremely good eyesight
- F. Probably capacity to withstand hostile interrogation and/or physical stress-privation
- G. A sincere exponent of "the end justifies the means"
- H. Atheism
- I. A winning personality when need be
- J. Present and potential language ability
- K. Lack of racial prejudice
- L. Fierce loyalty to his C/O once respect and friendship are established.
- M. Possible self-destruction rather than blow the job in denied area op.
- N. Good independent action agent on short term ops.
- O. Anti-Communist
- P. Moderate drinker
- Q. Keen observer and excellent memory for faces and names
- R. Self-confidence to a fantastic degree

SECRET

- 5 -

5. Personal Qualities Considered Operationally Disadvantageous

- A. Naturally intelligent but headstrong
- B. Physiognomy easily remembered
- C. A blind spot in intuitive friendships, to possible include trusted female paramour
- D. Impulsiveness, and nervous energy that needs constant new interest outlets. An opportunist
- E. Lack of moral convictions and basic values many of which are divorced from reality.
- F. Ego that feeds on recognition and triumphs. (probable inferiority complex)
- G. Poor assessment of the value of money ("easy come, easy go")
- H. Possible inclination to alter ops plan to conform ^{to} Subjects appreciation of the situation, in field situation.
- I. Probably prone to "fall in love" with his C/O, which might make agent turn over difficult. *This probably would be more basis for successful relationship.*
- J. Probably poor P/A--probably has little objective confidence in subordinates
- K. Low frustration point at unpredictable times or occasions.
- L. Difficult to dispose of if he ever becomes disenchanted

6. WIROGUE Resettlement Considerations

A. AF/5 representative has requested comment from Undersigned on WIROGUE's apparent reluctance at resettlement attempts in Frankfurt a/M which are underweigh at the present time, I believe. It is undersigned's understanding that Subject ^{has} threatened has threatened to work for the French Service if resettlement negotiations do not proceed to Subject's liking. Speculation has been that this is probably a bargaining tactic to gouge an appreciable amount of additional dollars in his resettlement claim. Undersigned considers this a quite valid assumption, and entirely attributable to Subject. Subject probably views this threat as particularly critical in view of the seeming political/economic conflict with the French, and appreciates by now one of the differences between the AIS and the IS of a fascist and/or totalitarian state.

SECRET

SECRET

-6-

B. However, Undersigned would like to suggest the following interpretation for whatever value may be in it. I suggest that money, per se, is not the primary end that Subject is striving for now, just as it never seemed to be his primary concern throughout his life. I believe that Subject genuinely enjoys clandestine operations, at least, his conception of clandestine operations. Subject probably would prefer to work for the AIS or possibly the W. German Service because he has a genuine fondness for the people and many aspects of the culture of both countries. The idea of legalized, or at least internationally tolerated, "Spying" offers the opportunity to legitimize, and thereby rationalize, Subject's ~~ambitions~~ that he is protecting his equity in an important, unique, "professional" category.

C. Subject, during the period of Undersigned's exposure, always considered that if he had money—fine, if not, then enough would come his way from someplace to sustain him from one venture to the next. Subject felt that the acquisition of money would be a by-product of his opportunist schemes and technical inventions in pursuance of his main goal—personal recognition for personal achievements and triumphs.

D. I believe Subject does not expect to be accepted in his offer of employment with the French Service, but rather to let our minds jump to the next logical step—the full meaning of the result of such an attempt on his part. Subject knows very well that he has violated his parole and would be incarcerated on his return. I believe his pride and the probability of censure and ridicule of family and friends in France would dissuade him in the final analysis.

E. Subject is a most excellent chess player. I have never won from him, nor have I ever seen him lose a game. I consider that Subject has thought this line of action out thoroughly. It is apparent that he is willing to gamble his quit claim settlement on something that I believe he has specifically in mind—possibly the offer of new documents and identity in some third country. He has always had a great desire to "surprise" everyone back home (i.e. Paris): with new documents, a new identity, plastic surgery, etc. I do not believe that what he wants is necessarily more dollars, but rather for the AIS to once again help him (as co-partner) to achieve his aim of acclaim, success and recognition, possibly this time to family and friends in France.

F. I do not believe that Subject could ever be physically intimidated. He lost half his front teeth to German interrogators and the other half to French prison guards. Additionally, he does possess a defiant spirit that sometimes comes through as sheer obstinacy to friends.

G. If it is considered worthwhile, I believe an attempt should be made to locate a C/O locally who has handled him in the past. A C/O for whom Subject has respect as a higher echelon and whom he considers understands him. I suggest that this C/O interview Subject in an uncontrolled environment to determine what it is that Subject

really wants. To best of my recollection, Subject thought highly of Monty Love (T), the C/O that helped pitch him and who brought him out Black from France. Monty was to go to one of the German Stations or bases the last time I saw him in late 1959.

8. Damage Report Contribution

A. The following constitutes Undersigned's contribution to a damage report that may well be needed in view of Subject's posture in the matter at hand. It covers only that time sequent during which Undersigned actively handled Subject.

B. This span constitutes:

early July 59 - late Nov 1960

C. At that time Undersigned was a junior C/O on the AESENTINEL Project which was to be prepared and launched from the ZI by SR/DOB, a covert site ops base ~~in~~ formerly in the District of Columbia.

D. In early July of 59, Undersigned as "Fred" and George Fill (SR Staffer) as "Mr. George" met Subject and his teammate "Al" who arrived at Natl. Airport, D.C. with their agent handler and trainers. The group had returned from several weeks of survival training in Alaska, and consisted of:

Subject "Little David" (A)

Gregg Ross (T) Mr. Gregg (A)

"Al" (agent team mate) "Big Al" (A)

Bill Rohmer (T) Bill (A)

E. We drove immediately to a Safehouse in the Virginia countryside and conducted training, holding and orientations from that site until the operation was placed on indefinite conservation and ultimately cancelled because of the Powers U-2 incident.

F. Safehouse keepers were an elderly married couple - "Geof and Janie." There were approximately 6 DOB QP vehicles exposed to Subject.

G. During this holding period another C/O and several agent handlers were there on regular occasions:

Perry Crookham (T) "Mr. Pat" (A)

Myron Toloczko (T) "Ski" (A)

Ray Hanchulak (T)	"Ray" (A)
Gordon Mothes (T)	"Gordon" (A)
Joseph Betza (T)	"Joe" (A)

H. Subject knew the operating principles and handled the scale mock-up of the ELINT gear to be used on AESENTINEL. Subject was exposed to training in:

- (1) Basic and Advanced Fieldcraft, to include small arms.
- (2) Basic tradecraft techniques and practices
- (3) Soviet Russian language training
- (4) Soviet interrogation techniques
- (5) M.O. of KGB Border troops
- (6) AESENTINEL Ops. plan
- (7) Air infiltration-exfiltration techniques, to include aircraft favored for this.

SUBJECT	WIROGUE Final Resettlement of WIROGUE 261-233477		ABSTRACT	
			WE PUBLISH	

ACTION REQUIRED: REFERENCES

1. WIROGUE, former REDSOX agent candidate and African Division agent has been quitclaimed and resettled on the local economy. This dispatch summarizes the WIROGUE case from May 1962 to March 1964.
2. Subject arrived in Frankfurt/Main from the Congo on 22 May 1962. KUBARK's reasons for establishing contact were dictated by the need to relieve Subject of his KUBARK-supplied false Austrian passport, the need to institute or suggest a course of action which would encourage him to establish himself as a contributing member of society and, above all, prevent his return to the Congo.
3. Subject appeared to be primarily a resettlement problem, therefore, Orme K. DARONNAT was assigned the Case Officer responsibility.
4. Since adequate documentation was a primary consideration for successful resettlement, Subject was briefed on the relative merits of the types of FEDREP documentation available. Although Headquarters had recommended a backstopped Fremdenpass, subsequent discussions between DARONNAT and MKTOPAZ FRAN representatives indicated a Reiseausweis to be the proper document for permanent resettlement. With the cooperation of ODIBEX Camp King representatives, Subject was interviewed and granted political recognition on the basis of a fabricated story in which he claimed to be a Georgian who defected from East Berlin while with a tourist group.
5. The WIROGUE case suffered a temporary setback when in December 1962 the BUNDESVERFASSUNGSSCHUTZ (BFV), the West German organization responsible for the internal security of the FEDREP became interested in Subject and requested all available information. HARVARD briefed OCA Bonn that Subject was strictly a HARVARD agent resettlement case whose name, recognition interview story, etc were complete fabrications to insure his receiving political recognition and a Reiseausweis. OCA advised the BFV that Subject was of continuing AIS interest and HARVARD resumed its resettlement efforts.

6. By summer 1963 detailed South American immigration data had been acquired. This disclosed that Subject's language deficiencies, background, knowledge of the Soviet Union, and work history were insufficient to guarantee his smooth processing through the INTERGOVERNMENTAL COMMITTEE FOR EUROPEAN MIGRATION (ICEM). Our investigation also pointed up the fact that until Subject was provided with a detailed life history containing the information required by prospective employers and/or immigration authorities, he was not in a position to be resettled anywhere, let alone South America. As a result, HARVARD's plans to process Subject for immigration had to be cancelled, at least temporarily.

7. A CABEZONE Stage I C.O. was given the task of preparing a life story containing the factual information needed for the filling out of job applications, to stand up under detailed interviews and, if South American immigration ever took place, to satisfy immigration requirements. This legend was given to ODIBEX Camp King representatives who prepared a new political recognition interview story, arranged for the removal of copies of the old story from the various FEDREP files and replaced them with the new.

8. For the first time since Subject had arrived in HARVARD's custody the way was clear for a final resettlement. Subject's Reiseausweis was renewed and he was quitclaimed and advised to work and establish himself in Germany. He was told that nothing more could be done for him and that immigration to South America at anytime in the future would be without KUBARK assistance.

9. HARVARD has done everything to insure Subject a successful future free from problems resulting from his "black" association with KUBARK. Therefore, there is good reason to believe that KUBARK will not have to become involved with any of Subject's future problems. It is also unlikely he will attempt to coerce KUBARK with threats to reveal all. With his criminal background he is aware that he can be brought to the attention of the French authorities. He also believes that KUBARK's position in the FEDREP is such that we have nothing to fear from any action on his part.

10. At the time of this writing Subject has a position as research and development engineer with a Munich firm. He allegedly receives DM 1500 per month, has an expense account and is to receive a percentage of all profits realized from the sale of any devices he develops. He expects to move to Munich permanently about the end of May or June 1964.

11. HARVARD has arranged with CSB Data Processing Branch to publish a noforndrop notice under Subject's documented name so that any attempt to immigrate to any country will bring him to the attention of KUBARK and appropriate action can be taken.

12. It is suggested that Headquarters arrange to apprise HARVARD of any inquiries regarding Subject under his documented name or any of the names listed in Attachment C.

In Begleitung eines Dolmetschers erscheint der angebliche
ausländische Flüchtling

Georg Frank B a n d e r s,
geb. am 25. Juli 1919 in Tiflis/Georgien/UdSSR.,
wohnhaft in Oberursel/Te., Hohesaarstr. 145,
Beruf: Elektroingenieur,
Sta tsangeh.: ungeklärt, fr. UdSSR,
Eltern: Simon S. und Maria geb. Kantscheli,
beide verstorben,

und erklärt wie folgt:

" Ich weiß, weshalb ich heute hier befragt werden soll. Mein
Dolmetscher hat mir auch gesagt, daß ich die Wahrheit angeben
soll, da sonst die Gefahr besteht, daß meine Anerkennung
als ausländischer Flüchtling gefährdet ist.

Ich wurde als Ältestes Kind meiner Eltern geboren. Ich hatte
noch einen Bruder, der aber kurz nach der Geburt verstorben
ist.

Mein Vater war von Beruf Ingenieur, ist aber bereits im Jahre
1924 verstorben. Ich selbst kann mich an meinen Vater nicht
mehr erinnern. Meine Mutter ist im Jahre 1934 an einem Herz-
schlag verstorben. Sie war zuletzt Korbiererin in einem
Schuhreparatur-Geschäft in Tiflis.

Meine Schulzeit begann im Jahre 1927, wo ich an meinem Geburts-
ort bis 1934 die dortige Deutsche Schule besuchte. Es war
eine Schule, in der nach deutschem Gesichtspunkten unterrichtet
wurde. Wir bedienten uns zu damaliger Zeit der deutschen Sprache
und hatten nur wenige Stunden, wo wir in der georgischen
Sprache unterrichtet wurden.

Im Jahre 1934 kam ich, nachdem ich durch eine Prüfung die Be-
fähigkeit nachweisen mußte, zum Elektro-Technikum in Tiflis, dem
auch ein Internat angeschlossen war. Die finanziellen Mittel
für diese Schule brauchte ich nicht aufbringen; sondern hatte
ein Stipendium.

An dieser Lehranstalt studierte ich vier Jahre Physik, Mathematik,
Geschichte, Englisch und Literatur.

Haben der eigentlichen Fachausbildung erhielten wir auch eine vorläufige Ausbildung, in der Körperschule mit eingeschlossen war. Während der Sommerferien waren die Studenten meist auf einer Kolchose beschäftigt, um so an der Bergung der Ernte mitzuhelfen.

Im Frühjahr 1938 hatte ich meine Abschlußprüfung. Ich bestand diese und erhielt mein Diplom.

Schon von der Lehranstalt wurden uns Arbeitsplätze zugewiesen. Wir mußten uns zu diesem Zweck auf zwei Jahre verpflichten. Ich wurde sagen, daß damit eine gewisse Rückzahlung der uns gewährten Gelder zum Zwecke des Studiums geleistet werden sollte. Ich selbst kam zur Maschinen-Traktoren-Station, die später in Reparatur-technische-Station umbenannt wurde. Mein Arbeitsplatz befand sich in Eschakaja.

Am 28. August 1941 wurde ich zur russischen Armee eingezogen. Ich kam nach Baku. Es handelte sich um eine Flak-Einheit, die in der Galfjanskiji Kaserne untergebracht war. Nach meiner zweimonatigen Grundausbildung wurde ich als Kraftfahrer ausgebildet.

Zum Schluß meiner Dienstzeit war ich Fahrer des Divisionskommandeurs, Oberstleutnant GURGENIDSE.

Im Jahre 1944 wurde ich zum Feldwebel befördert. Mit diesem Dienstgrad habe ich auch 1946 die Armee verlassen. Es war im September. Ich kehrte wieder an meinen früheren Arbeitsplatz zurück, den ich bis zu meiner Flucht innehatte.

Nun zu meinen Fluchtgründen:

Trotzdem ich in einem kommunistischen Land geboren und erzogen worden war, begann ich doch schon frühzeitig zu verstehen, daß für die Einzelperson keine persönliche Freiheit bestand. Es war mir auch klar, daß persönlicher Aufstieg nicht von dem Talent und der Rechtschaffenheit eines Menschen abhing, sondern von dem Ausmaß der politischen Betätigung. Ich erkannte die kommunistischen Lügen, da die Wirklichkeit so verschieden von der offiziellen Propaganda war. Während und nach dem Kriege traf ich Menschen, die westliche Länder besucht hatten und ich war in der Lage, Bruchstücke der Wahrheit über den Unterschied in den Lebensarten aus diesen Erzählungen abzuleiten, obwohl alle diese Berichte sehr vorsichtig vorgebracht wurden.

Ich hörte schließlich auch noch westliche Sender, um mich zu orientieren. Meine feindliche Einstellung zum Kommunismus wurde immer stärker und es wurde für mich immer schwieriger, mich mit meinen Redensarten zu kontrollieren und diesen Gefühlen nicht offenen Ausdruck zu verleihen.

Im Juni 1962 kam schließlich der Sicherheitsdienst zu mir an meinen Arbeitsplatz. In der anschließenden Vernehmung wurde ich beschuldigt, ein langjähriges Mitglied einer georgischen Widerstandsgruppe zu sein und regierungsfeindliche Äußerungen getan zu haben. Obwohl ich solche Äußerungen bei verschiedenen Gelegenheiten gemacht hatte und deshalb schuldig im Sinne des letzteren Teils der Anschuldigungen war, konnte ich fühlen, daß der Sicherheitsdienst nicht genügend Informationen besaß. Ich verneinte deshalb alle Anschuldigungen.

Nach dem Verhör wurde ich in meine Wohnung entlassen und erhielt die Auflage, meinen Wohnsitz nicht zu verlassen. Außerdem wurde mir erklärt, daß ich später vom Sicherheitsdienst noch hören würde. Alle diese Umstände ließen in mir den Gedanken der Flucht kommen. Ich lebte fortan immer in der Angst, vom Sicherheitsdienst verhaftet zu werden. Nach reiflicher Überlegung setzte ich am 25.6.62, also drei Tage nach dem Verhör, meine Fluchtabsichten in die Tat um. Wie an jedem Tag, so verließ ich auch zu gewohnter Zeit, gegen 07.00 Uhr, meine Wohnung. Anstatt aber zum Arbeitsplatz zu gehen, verließ ich die Stadt in Richtung Samtredia. Den Zug getraute ich mir nicht zu benutzen, weil ich der Meinung war, daß dieser überwacht wird. Nach etwa 2 oder 3 Kilometer wurde ich auf der Landstrasse von einem Lastwagen aufgenommen, der mich nach Samtredia brachte. Dort bestieg ich dann schließlich den Zug nach Baku, der gegen 14.00 Uhr ankam. Ich versteckte mich in der Folgezeit bis zur Dunkelheit. Ich ging am See entlang. Nach etwa 2 Kilometer Fußmarsch vernichtete ich meinen Paß (Personalausweis) und vergrub meine Kleidung. Ich mußte nämlich von diesem Ort versuchen, schwimmend türkisches Gebiet zu erreichen. Es mag unglaublich klingen, aber ich sah am bis gegen 04.00 Uhr früh. An Land gekommen, wußte ich nicht, wo ich mich befand. In einer Hütte fand ich aber Gegenstände, aus denen ich annehmen mußte, mich noch innerhalb des sowjetischen Territoriums zu befinden.

Ich versteckte mich wieder und wartete bis zum Abend. Ich ging schließlich wieder ins Wasser und schwamm nur der Küste entlang. Ich mühte mich wieder die ganze Nacht ab, ohne daß ich genau wusste, wo ich mich befand. Im Morgengrauen ging ich wieder an Land. Ich hielt mich zunächst in einer Höhle versteckt. In Laufe der nachfolgenden Stunden traf ich einen Knaben von etwa 11 oder 12 Jahren. Von ihm erfuhr ich, daß ich mich auf türkischem Gebiet, in der Nähe von Kemal-Pascha befand. Da ich immer noch nicht Sicherheit hatte, versteckte ich mich weiterhin zwei Tage. Der Not gehorchend, näherte ich mich schließlich der Ortschaft Kemal-Pascha. Mit meinen russischen Sprachkenntnissen konnte ich mich den herbeigekommenen Personen nicht verständlich machen. Man bedrohte mich mit Stöcken und Äxten, bis ich sie schließlich überzeugen konnte, daß ich aus dem russ. Gebiet käme und um Hilfe bitte. Männer der Ortschaft übergaben mich schließlich den militärischen Behörden in Kemal-Pascha.

Bei meiner Flucht war ich lediglich mit einer Badehose bekleidet. An den Füßen hatte ich Schwimmflossen. Weiter trug ich ein Klappmesser bei mir, mit dem ich mich im Notfalle verteidigen wollte.

Durch türkische Behörden kam ich nach Erzerum und von dort nach Istanbul, in das Flüchtlingslager. Am 6.7.62 übernahmen mich UN-Behörden, die mich noch am gleichen Tage nach Deutschland brachten.

Das ist die Wahrheit. Ich bitte, mich als ausl. Flüchtling anzuerkennen, weil ich aus politischen Gründen und aus Angst vor Verfolgung meine Heimat verlassen habe.

Ich bin bisher noch nicht bestraft.

Wegen meiner Zukunftsabsichten befragt, erkläre ich, daß ich auszuwandern gedenke. Es ist aber auch nicht ausgeschlossen, daß ich mich in Europa niederlasse.

Das ist alles, was ich von mir aus und auf Befragen sagen kann.

Die in russischer Sprache geführte Verhandlung habe ich verstanden und bestätige die Richtigkeit durch meine Unterschrift.

EXCERPT FROM EGCA 21161 -- HARVARD RESETTLEMENT SUMMARY FOR JANUARY 1964:

WIROGUE

Subject's new legend has been translated into German and given to the ODIBEX Camp King representatives who will use it as the basis for a new political recognition interview story. As soon as the new story is completed copies will be placed in the various files to replace copies of the old story. At this point, Subject's documentation will be completely in order and actual resettlement should be accomplished in a few days.

SUMMARY OF RESETTLEMENT ACTIVITY

1 - 30 September 1963

I. DEFECTOR CASES:

Case Name

Action Taken

A. On Hand at Beginning of Reporting Period:

DS-109

Subject moved out of HARVARD housing during the month after having located appropriate employment with CAMANTILLA'S assistance. The results of Subject's T.B. tests were obtained on 24 September and are negative. He will continue in his current job and concentrate on further English study until December when he will again be considered for immigration to the U.S. under P.L. 86-648.

DS-129

Through the assistance of MKTOPAZ and ODIBEX, Subject received his Fremdenpass and was interviewed for FEDREP political recognition. Shortly after being turned over to CAMANTILLA, who is assisting him in his efforts to obtain local employment, the need for additional interrogation arose. While his job hunt was, therefore, slightly delayed, it should recommence shortly. Due to the sensitive nature of Subject's documentation problem (having been previously granted refugee recognition by another country), HARVARD will continue to maintain contact with him until the Reiseausweis is issued.

IDEN-271*

Subject immigrated to the U.S. 19 September 1963 without HARVARD assistance or CAMANTILLA sponsorship.

HARVARD Resettlement Aims: Subject's processing for immigration to the U.S. under Public Law 414 has already been completed. He is scheduled to depart 28 October 1963 via an ICEM flight for New York where CAMANTILLA will meet and assist. Until this departure date he will occupy HARVARD housing and continue his study of English.

 HARVARD Resettlement Aims: Immigration to Canada (see EGOA 20576, dated 24 September 1963).

C. Former Defector Resettlement Cases (or Cases Still in Stage II) Requiring HARVARD Action During the Reporting Period:

DS-924

Camp King informed HARVARD that Subject had applied for a Reiseausweis renewal in order to visit the FEDREP. Headquarters' answer to HARVARD's query re advisability of issuing renewal will be passed to the appropriate authorities, thru Camp King, when received.

DS-125

While immigration to the U.S. under P.L. 86-648 was initiated for Subject and his family (see EGOA-20570, 18 September 63), HARVARD now feels his best chances for U.S. entry, in view of his long C.P. membership, is under P. L. 414 first preference (see FRAN 2170). Preliminary discussions have been held with AMCONGEN and an advisory opinion will be obtained.

DS-127

Application for U.S. immigration under P. L. 86-648 has been formally turned down by the local I&NS office. CABEZONE is currently awaiting Headquarters reaction to EGOA-20573, 19 September which recommends P. L. 110 handling.

- * Resettled during the reporting period. Subject will not appear on next month's or subsequent HARVARD reports unless and until some new unforeseen aspect of the case arises requiring additional HARVARD action. In this event the case will be listed and the new action described under Category IC.

II. AGENT CASES:

DIHESITANT

At the request of FOB/SAT, HARVARD has been in contact with AMCONGEN FRAN to establish most expeditious way for Subject to be processed for immigration to the U.S. Immigration is complicated by the fact that Subject and wife are residing in another country and for security reasons must not be processed at the U.S. Consulate located in that country.

TULANCE-1

HARVARD continues to maintain contact with Subject through our local post box and is cabling Headquarters and other appropriate KUBARK elements the gist of each letter received.

IDEN-238, 241,
242

HARVARD maintains periodic contact with this family and continues to pay the widow of IDEN 238 a monthly subsistence payment of DM 150.

IDEN-239 & 240

HARVARD arranged for a meeting between the local representative of CAMANTILLA and an FOB/SAT C. O. to discuss the possibility for continued financial assistance to Subjects through U.S.E.P.

IDEN 263

The New York office of CAMANTILLA has brought to HARVARD's attention the recurring difficulties which it has had with Subject. This problem was discussed with FOB/SAT and a summary of the situation forwarded to Headquarters in FROB 5827.

- * Resettled during the reporting period. Subject will not appear on next month's or subsequent HARVARD reports unless and until some new unforeseen aspect of the case arises requiring additional HARVARD action. In this event the case will be listed and the new action described under Category IIC.

WIROGUE

Subject's new legend has been prepared and will be used to provide the details for a new FEDREP political recognition interview. The next step will be to arrange to have the new interview story substituted for the old thus paving the way for Subject's permanent resettlement.

References represent an initial misunderstanding of the problem of WIEGUE which is now being clarified.</p> <p>2. The problem of backstopping of resettlement and disposal cases has been carefully reviewed by elements of CSB concerned including CABEZONE, MKTOPAZ and CATHINK. In this connection there is attached a copy of a memorandum dated 27 August 1963 from Chief/MKTOPAZ which outlines the current situation. As will be noted MKTOPAZ has and will expand its capability for procurement of operational documents independent of the 513th ICG. It is believed that the present procedures for backstopping of resettlement and disposal cases should be continued. In theory an independent capability is desirable but not really practical at this time. Creation of an independent capability for backstopping resettlement cases would require duplication of the procedures and practices now followed by Mr. Williams of the 513th ICG. In addition, we would not have the advantage of hiding our cases from the Germans among other Army disposal cases. Furthermore, USAREUR has requested notification prior to contact with any German officials of any sensitive cases which we may desire to handle without military assistance--see USAREUR letters dated 7 August 1961 and 25 March 1962, attached. With considerable effort it would be possible to backstop some of our resettlement and disposal cases directly with German officials. It would be quite difficult, however, to prevent the Army from learning of such action which is contrary to the USAREUR request.</p> <p>3. It is possible that the FEDREP will enact new legislation on the control of non-German refugees. Likewise, new FEDREP emergency laws may affect this type of case. We will keep this situation under review and in the event the circumstances change will initiate appropriate action.</p> <p style="text-align: right;">NORRIS D. Dear Jan

As you can see I am back to Leo and in the same time to my job in the Air Force. I have crossed the river from Brazzaville to Leo without any trouble though that was and still is closed to anyone without a diplomatic passport.

So far so well but I have to ask you to send me back, soon as possible my two laissez Passer. I have show you when I was at Hilton Towers Hotel. These laissez-passer are very important for my own security and my travelling and it will be almost impossible to find two other new identification cards like that. The situation is a little tense and troubled. The white peoples are nervous because the feeling of insecurity between Gijungu's growing influence and the today's Government failure to find the right solution for the present complete disorganisation of this country and his ruin for the because of the Soviets. When I came back to my office everybody was happy to see me again and the secretary of the Defense minister told me what happen to you Mr Reiner, we are glad to have you here now. We need you very much (!!!). I hope your health is good now.

Meanwhile I have seen Norman and I have let him know what I was doing now. I suppose he will make his report to you. If you want take contact with me you can always write to

However if you would like see how my pen seems to

SUMMARY OF RESETTLEMENT ACTIVITY

1 - 31 July 1963

I. DEFECTOR CASES:

Case Name

Action Taken

A. On Hand at Beginning of Reporting Period:

DS-102 Subject's processing for immigration to the U.S. under PL-110 is continuing and it is expected that he will depart in the near future.

DS-105* Subject immigrated to CANADA 8 July 1963 on ICEM ship MS ARCADIA. Case closed.

DS-108 Subject continues to study English while his processing for immigration to the U.S. under the Parolee Act is completed. He will give up his job in Ruesselsheim early next month and return to Frankfurt.

DS-109 Subject's processing for immigration to the U.S. under the Parolee Act has been deferred until December 1963. Due to a change in the right lung, discovered while comparing recent and earlier x-rays, the U.S.P.H.S. has requested the deferment until sputum tests and future x-rays indicate the condition stabilized or eliminated.

DS-129 Arrangements are being made through ODIBEX for Subject to receive FEDREP political recognition. CAMANTILLA will then assist in finding a job and housing on the local economy. In the meantime Subject is taking German language lessons.

IDEN-271 Subject's life story has been prepared with appropriate changes regarding his defection in Ireland. The story will be presented to FEDREP authorities for political recognition and Subject will be found work and housing on the local economy.

C. Former Defector Resettlement Cases (or Cases Still in Stage II) Requiring HARVARD Action During the Reporting Period:

DS-964

HARVARD has learned through CAMANTILLA that Subject and wife have returned to the U.S. where both have found employment and are now apartment hunting.

DS-984

At Subject's request HARVARD made arrangements to obtain a duplicate of the deregistration form covering Subject's move from Frankfurt to Neuss in July 1962.

DS-999

Subject and family are being assisted in obtaining West German citizenship.

DS-127

Subject's Communist Party membership was discussed informally but at some length with the local ODURGE chief. Since the latter believed that Subject's membership would, according to the strict interpretation of the law, be ruled voluntary, processing for immigration to the U.S. under Public Law 110 has been requested.

- * Resettled during the reporting period. Subject will not appear on next month's or subsequent HARVARD reports unless and until some new unforeseen aspect of the case arises requiring additional HARVARD action. In this event the case will be listed and the new action described under Category I C.

II. AGENT CASES:

Case Name

Action Taken

A. On Hand at Beginning of Reporting Period:

CAHAVOC-1

Subject has begun to look for an apartment on the local economy. In the meantime he will continue to occupy HARVARD housing.

WIROGUE

Subject's legend is being rewritten and when finished will provide the basis for a more plausible political recognition story. HARVARD hopes that with the substitution of the new story for the old, positive steps can be taken for Subject's resettlement.

IDEN-264

The morale problem created by the slow moving quota under which Subject is registered for U.S. immigration has required HARVARD to register her for immigration under the Parolee Act. It is expected that Subject will receive her visa in August or September but the Parolee Act will be used in the event the quota continues to remain unchanged.

IDEN-272

HARVARD has been informed that Subject, under no condition, should be allowed to return to Austria. ODIBEX is exploring additional possibilities for Subject to stay and work in the FEDREP without restrictions.

IDEN-274

Subject has been enrolled in a 3 month photography school located in Hamburg. It commences in early September and is designed to prepare students for taking the examination for the masters certificate in photography, a must for someone working in this field in the FEDREP. In the interim, Subject is studying photography on his own, utilizing borrowed MKTOPAZ equipment.

B. Received During Reporting Period:

NONE

C. Former Agent Resettlement Cases Requiring HARVARD Action During Reporting Period:

TULANCE-1

HARVARD continues to maintain contact with Subject through our local post box and is cabling Headquarters and other appropriate KUBARK elements the gist of each letter received.

IDEN-238, 242,
and 244

HARVARD maintains periodic contact with this family and continues to pay the widow of IDEN-238 a monthly subsistence payment of DM 150. The family has been on vacation during the last three weeks.

IDEN-247

Subject contacted HARVARD for the second time in recent weeks. She was visited and the new information passed on to BOB as before (See EGOA-20258, 22 July 1963).

IDEN-267

At Subject's request HARVARD arranged to obtain a duplicate of the deregistration form covering Subject's move from Frankfurt to Neuss in August 1962.

Aims: German Economy

While Subject aspires to be a U.S. military jet pilot, this is -- from many angles -- unrealistic. It is believed that Subject may, in time, be able to obtain an aircraft mechanic's job in West Germany and possibly a commercial pilot's license. This will probably have to be preceded by work as an automobile mechanic while learning the German language.

Subject will be processed for political recognition and appropriate FEDREP documentation. He has been made USEP eligible and through CAMANTILLA will be helped to find work and housing on the local economy.

C. Former Cases (or Cases Still in DRC Stage II) Requiring HARVARD Action During the Reporting Period.

DS-782

HARVARD, at the request of FOB, contacted AMCONGEN Frankfurt to determine the status of Subject's visa application. It was learned that the case can not be written up until necessary checks are completed. It would appear that the case will not be submitted to Washington for at least three weeks.

DS-999	Subject and family were forwarded application forms for filling out and return in connection with their obtaining West German citizenship. Subject's new address was pouched BOB in response to the latter's request.
DS-105	Subject visited the Canadian Consulate in Cologne on 30 May to initiate arrangements for his immigration. HARVARD had briefed him on this trip beforehand in accordance with the information contained in OTTA 0710. He was treated extremely well and all went very smoothly. It appears that he will be able to immigrate shortly after completion of his Stage II debriefing.
IDEN-265	At the request of Subject, HARVARD returned several of his original documents providing proof of schooling.
IDEN-273*	While Subject's limited handling by CABEZONE is being completed, HARVARD has initiated the procurement of the necessary West German documentation to allow him to remain and work in West Germany. He will be turned over to CAMANTILLA who will assist him in obtaining employment.

WIROGUE

HARVARD with the assistance of Stage I is attempting to work up a suitable legend for use in immigration to South America, consistent with Subject's political recognition interview.

IDEN-264

Subject has found work on the local economy at DM 500 monthly. She will continue to stay in HARVARD housing until her visa is issued and immigration can take place.

HARVARD continues to assist Subject in his efforts to establish, for West German income tax purposes, that he has helped contribute to the support of his ex-wife living in the USSR.

DIO-14

A request was received from the State of Maryland asking for information on Subject, who immigrated to the U.S. under PL-110 in January 1956. Since all of Subject's records were transferred with him, the inquiry was referred to Headquarters in EGQA-19903, 28 May 1963.

DMARGIN-3

In response to a query from BOB, HARVARD provided clarification on the purpose and handling of Subject's Einweisungverfuegung.

TULANCE-1

HARVARD continues to maintain contact with Subject through our local post box and is cabling Headquarters and other appropriate KUBARK elements the gist of each letter received.

IDENTITY-238,
241 and 242

HARVARD maintains periodic contact with this family and continues to pay the widow of Identity-238 a monthly subsistence payment of DM 150.

IDENTITY-270

Additional West German documentation (Abmeldebestaetigung, Versicherungskarte and Lohnsteuerkarte) were obtained during the month and forwarded to BOB. Subject is currently being processed for West German recognition.

III. MISCELLANEOUS ACTIVITY:

- A. Effective 10 May 1963, Arthur A. LIFALL, Chief, HARVARD, became the Station Case Officer for Project CAMANTILLA (See EGOA-19737).
- B. A request for a provisional and full covert security approval on the local ODURGE officer who does the actual interviewing of HARVARD's candidates for immigration has been initiated. CSA has already been obtained on the local ODURGE chief. The additional clearance should allow us to develop an even better working relationship with these officers than has existed heretofore. When received, it is planned to brief both individuals in greater detail on CABEZONE/HARVARD operations.

DIR 24971, dated 15 March 1963

1. In May 1962 HARVARD took over the task of resettling WIROGUE, a former KGB agent candidate and later African Division agent. Per WIROGUE's request and with Headquarters concurrence, HARVARD agreed to help subject in immigrating to South America.

2. Subject was relieved of his documents (Austrian passport in alias and not backstopped) and the first steps were taken to prepare for eventual immigration. It was decided that subject would require documentation which would stand up under the investigation of immigration authorities. Therefore, he was given a new name and with the help of [redacted] and [redacted] received a Heisenweil and political recognition from the West German Government. The latter was granted on the basis of a fabricated story in which subject purports to be a defector from the Georgian KGB who escaped while with a tourist group in East Berlin.

3. With documentation in order, subject was sent to the local Colombian Consulate to apply for permission to immigrate, as HARVARD had hopes that subject would be able to process on his own with a minimum of red tape by bypassing refugee organization channels and by having letters of recommendation and letters of solvency. This was not the case, and the Colombian Consulate informed subject he could immigrate only by processing through the Intergovernmental Committee for European Migration.

4. Due to the nature of this case and certain inherent problems, e.g., subject has a criminal record in France and was a long-time resident there, speaks less than fluent Georgian, speaks no Russian even though his story for political recognition indicates he was a lieutenant in the Soviet Army, has no real profession although he is self-taught in the electro-mechanical field and is confident he can pass a job test as master mechanic, etc, it was imperative that the specific details of ICEM processing be learned in order to find out and be prepared for the problems which would certainly arise if he immigrated through ICEM.

5. HARVARD discussed the basic outline of the problem with the Chief, Refugee Migration Section, American Consulate General, Munich and Chief, CAMAYILLA, and established that subject's processing through ICEM would include a security investigation and detailed interviews and job testing, since ICEM is determined that only "high level" types will immigrate through them to South America. HARVARD proposes to continue with the immigration plans and, although Chief [redacted] and Chief, CAMAYILLA have been most helpful and have been able to learn ICEM procedures taken on refugee migration applicants, they have been forced to refrain from appearing too inquisitive.

DECLASSIFIED

201-233477

~~SECRET~~

HARVARD felt that INSTRUMENT 17 as former special agent in charge of ICEM might be able to help with advice regarding the type of investigation which will be run on subject and possibly be in a position to stop the investigation, especially if it included a check with INTERPOL.

7. HARVARD has been able to establish that subject is not on record with INTERPOL except possibly in France and hopes to have this checked out through CARAVEL within the next month.

8. HARVARD had also hoped that INSTRUMENT 17 might have details of the ICEM mechanics which would be desirable to know for a case of this type, especially since a slip-up might cause embarrassment for KUBARK, COXINER and the Federal Republic. With these inside details we would be in a better position to prepare subject for his interview, or, if necessary, to drop the immigration plans. We feel it extremely important to know how many interviews subject will undergo, how searching these interviews will be, the probability that subject will be interviewed in Russian or in Georgian (subject speaks German and fairly good English), what preparations can be made to insure that the processing runs as smoothly as possible, how intensive is the job testing, etc.

9. HARVARD had felt that Charles T. HOREWIN's personal friendship with INSTRUMENT 17 might result in much more additional information regarding the above than would be the case with a meeting between Orso E. BARONNAT and INSTRUMENT 17 alone. Hence CARSTONE cable 7293 to Geneva.

10. It appears HOREWIN's presence is no longer required and therefore it is requested that, if INSTRUMENT 17 is in a position to supply the kind of "inside ICEM" information HARVARD needs, an appointment be made with INSTRUMENT 17 for Orso E. BARONNAT to discuss this problem with him, unless Geneva feels it is in a position to do so on HARVARD's behalf.

MEMORANDUM FOR THE ASSISTANT

SUBJECT: WIKOUS RESETTLEMENT AMERICA

DATE: 31 July 1962

FROM: Norm Roberts

I contacted Mrs. Geery, WH/1 Ops, X 5289, RM 304-04, for initial discussion concerning resettlement of WIKOUS in some South American country. She in turn brought Mr. Paul Paxton, D/C WH/1/OPS, into the discussion. They agreed that we were approaching the correct channel but were not inclined to thank us for our gift.

IN 33530 suggested WIKOUS preferred Venezuela, Chile or Columbia for resettlement. WH stated Chile is out, principally because for a foreigner to establish a legitimate business in face of government regulations is very difficult if not impossible. The same applies but to a lesser extent with Venezuela which is also a more troubled area. Mrs. Geery and Mr. Paxton both expressed the fear that WIKOUS might only add to Venezuela's troubles.

A 5613
RM 30001

The next step in this problem is to talk to Mr. Marlowe Durin, D/C BR/1 (Columbia and Venezuela) in WH and obtain his reaction. Mrs. Geery wishes to be included in this talk. Brazil was mentioned as the most likely resettlement area but the areas mentioned would be explored first. In any case, the concurrence of the COS involved would have to be obtained.

~~We all concurred that the less contact, no-matter how indirect, had with WIKOUS the better for all concerned.~~ Mr. Paxton suggested any payments made to WIKOUS might be done from Germany through an international bank thus alleviating the station or even this responsibility. It would also be one less clue to WIKOUS that our representatives might be in the area.

2. Meeting 1400, Norm reports, Mrs. Geery and Marjorie Duffin.

Mr. Duffin's viewpoint was that he could not prevent sending WIROGUE to any of the countries, but did feel some other division besides WH should assume the responsibility in case of a flap. He pointed out that SA stations were small enough so it would not be difficult for a fairly clever individual to identify the COS and probably the case officers in a station. In this case, and should WIROGUE attempt to apply pressure through such knowledge, Mr. Duffin wished someone besides a WH field officer to "take WIROGUE by the scruff of the neck and tell him to move on."

I insisted, however, that no matter how heavy the pressure became all any field officer could do was to make a denial, plausible or otherwise. Mrs. Geery suggested that perhaps SR, since they had originally recruited WIROGUE, should assume such responsibility. (She is hardly realistic but anything is possible.)

A second suggestion made by Mr. Duffin is worth further consideration. He stated that WH has had continual difficulty in establishing contract agents in business throughout SA. However, these countries tended to be much more receptive to people planning agricultural pursuits and he felt resettlement and possibility for livelihood would be much greater should WIROGUE approach the country or countries of his choice with some agricultural proposition. I remember WIROGUE mentioned that he had investigated the possibility of chicken farming in the Congo. Such an approach in SA might (a) make him more acceptable as an immigrant to that country and (b) provide a long term basis to make him self-supporting.

I did promise to keep Mr. Duffin and Mrs. Geery informed of any further actions taken concerning WIROGUE which would affect their area. It was also at least strongly implied that either Columbia or Brazil might be the best areas, though the final choice essentially rests on what country WIROGUE can enter.

Action for this cable (FRAN 1467) assumed by this branch.
Mr. Phelps on German desk said the only restriction on action at the moment is how much money we, AF/5, are willing to put out.

Next, called Mr. Kallander, TSD, ext 3391. I agreed to contact him again if and when we got down to facts as to just what documentation papers we would require. However, he pointed out that it would first be necessary for us to clear such action, i.e., putting this character into a country, with the area desk involved. Furthermore, he indicated that this may not be too easy a task given WIROGUE's background, etc. Once we get clearance from an area desk, he says we should sit down with the area desk, TSD, and AF/5 to determine the best documentation and method of resettlement. OK?
