2.2 In. NO, calling from Finnish Embassy, with Rojas (v), who answers. Finnish Amb. wants to talk to Dr. Hernandez Armas. He has gone to Cuba, but they can talk to someone else. The phone number of his secretary is 14-42-37.

2.5 Out to 35-54-12. Rings once and cuts off.

Out to 35-54-12, at 1205. Felipe Rojas asks NO, who answers, for Max (Rojas).

Max takes phone. Aparicio came by Embassy. Said that tomorrow at 1700, Saturday, about 5 persons will meet there (at Cuban Institute). One of persons who will be there is Dr. Castro Villagras and Aparicio. Max thinks he could be there. Will Rojas be at the Embassy in the morning? He can come in. Max could let Felipe know if he could go at 1700 or not. Or he does not go in, call Max around noontime. Max would not be able to go only in case the Dr. told him he had to go to bed. The Institute has not been swept, but it is not very dirty since not many people have gone there.

3.2 In. Wrong number. Rojas (v) answers.

3.5 25-07-95. Rojas with Consuelo Esperon, who answers, for Bertita. They would like to see if anything came in in the pouch - a reply to Sr. Caruso, who phones them daily (about this).

No, CB has not received anything in the notes given to CH, but will see if it is somewhere else. Can't find Bertita. Can call Rojas when she comes in...One moment.

Bertita comes to the phone. Sr. Caruso phoned again asking about his case. Explain that since there was no airplane and there was nothing on Monday, they couldn't have a reply (yet).

After 1230

4.2 In. Wrong number.

4.5 In, 3 times. No answer, complete. Sr. Caruso with Rojas, who answers. There is nothing new yet. Probably won't have anything until next airplane comes in. Normally flight comes in today, but R. is not sure it came in. Best he call Rojas back on Tuesday. C. will come by on Tuesday.

5.0 In, twice. No answer, complete. Aparicio (v) with Rojas (v), who answers. Ap. has "this ready" for payment of the...Yes, but (someone) did not pay (checks). They did not accept the bill and said best to wait until next bill (electricity). Then, ask them to bring his money back to him. He needs money until next bill comes in. Jorjin has the money...Left about \$100 pesos (to pay the bill).

Rojas has an invitation for theater tomorrow...children's theater. That is very important. Take it by to Aparicio.

Did Rojas talk to ~~Aparicio~~ Max Rojas? Yes, and he said he would try to be (at Institute), but Felipe should phone him tomorrow.

Alberu was there (yesterday) afternoon and A. talked to the Secretary (of Commission), Sr. Allende. Yes, but the Embassy told them that Alberu would go by this morning and this is why they have been waiting for him. That was an error.

WO asks if Sr. Sinova (ph) is in Mexico. Alberu does not know. WO was told that he might come in today, that he has been attending some congress. Alberu will ask him call them.

11.7 contd.

MO says that they are very interested in talking to Alberu. If Alberu can't come to see them, perhaps he could indicate a place where they could get together. Alberu could go by there to see them at 1500. Couldn't they go to see him right now since they have a lot of things to see and do after seeing Alberu and even depending on the conversation they have with Alberu and people of the Embassy. Meanwhile, they are waiting (about going to Cuba)? If they like, they can come by the Embassy. Alberu will wait for them. They will come by right now.

6.7 In. MO with Alberu, who answers, for the Cultural Attache.
A. is he. MO is Prof. Jaime Cooksor (very ph) of Stanford University.
MO is editor of "American Report," their magazine. It is edited in
English with textual articles on Spanish speaking world. The Institute
of ~~Spanish~~ Pan American Studies of Stanford, California, wants
MO to meet Alberu and ask him a favor. They have a problem of getting
newspapers and propaganda from Communist countries in the U.S. They
have a problem with respect to Cuba - is that the newspapers "Hoy,"
"El Mundo," "Revolucion," "Cuba..." and the rest come in very late.
It is almost impossible to write the truth on Cuba since they get all
news very late. They have to publish their magazine (on time). The
Director, Prof. Ronald Juken (very ph), was invited by Premier (?)
Hoppital for the celebrations on 26 July, this year, but when he
arrived in Mexico, the flight to Cuba was so delayed that the Prof.
could not arrive there on time, couldn't not go and couldn't leave
Mexico. Alberu could see MO on Monday morning around 1000. Would
like MO to bring his request in writing. MO has a letter in English
which Prof. (Director) wrote MO - introducing MO to Cultural Attache.
Can show him all the documents (to identify himself) and so they trust
them. It is not that they don't trust ~~them~~ him, but what they want.
MO has some copies of their magazine and also the publication of Her-
bert Batchelor (very ph), "Return to Cuba." Herbert B. is newspaper-
man of "New York Time" and New York Time said that they did not want
to publish his study on Cuba - very recently. So, they published
this report (in their magazine). Can bring a lot of documents of in-
terest for them (Cubans) and MO thinks they can have a chat which would

4.7 In. WO asks Alberu, who answers, for Sr. Rojas. He has not come in. Call back tomorrow around this time.

4.9 In. Ester Guerrero with Alberu, who answers. EG is a friend of Humberto Peña. The Cuban engraver? Yes. He has been writing EG - since he left, he has been writing EG. He was interested in coming to Mexico at the end of this year or beginning of next year. Told EG to call Alberu to find out if it is possible to get a visa for him here (in Mexico) - and what is the quickest way. That is somewhat difficult. Would have to go to Mexican Embassy in Habana. He thinks that this has to be handled here. Yes, but Alberu can't arrange this. He should go to Mexican Embassy there or in the place where he works in Habana. Officially Alberu is not permitted to do anything about this. She should write him and say he should arrange this where he works and the office can handle it for him.

5.2 In. MO with Alberu, who answers. MO is Sr. Caruso. Alberu has not had any news. Did the courier come in? Alberu does not know, but knows he has not had any news. MO does not know what to do because if he leaves now (to return to his country. He is not Mexico)...then what. He would return to Venezuela or Italia. (it He is Italian.) MO has lost 6 or 7 months in this way. Yes, but this is not in hands of Alberu. Couldn't Caruso talk to Counsellor? Phone 14-42-37.

5.9 In. Caruso with Alberu, who answers. Caruso talked to a Srita. at other number and she said that Caruso had to talk to Alberu. That Alberu was the only to resolve. Yes, but Alberu does not decide anything. They decide things in Cuba. (About his going to live or visit Cuba... probably to live.) Caruso says things are very grave now since he has no more money (to continue waiting here). This does not ~~ax~~ depend on Alberu. Couldn't they send a telegram? Alberu sent them a reminder. Still no answer. Sra. Machado took a paper (on this matter with her when she went). Yes, but this is now over 50 days (not 6 or 7 months). Caruso asks if he could talk to Counsellor - to see they could send a cable. Ask for an appt. early tomorrow morning. Caruso will go by there tomorrow at 0900 or 0930. Fine.

that (Juan Jose) Gurrola - the one who was going to Cuba, but didn't go after all? The ~~xxx~~ theatrical director? Alberu does not recall. Ap. wanted to ask Rojas to call Gurrola. Max is going to take down the engraving exposition because they are going to put up another exposition. He would like Felipe to call some of the people on the list of intellectuals. That is the Institute list and Max' list have already been advised (that is, have already called these people.) Rojas should select some people from his list (to invite). The list that Rojas has been using at Embassy is the list of doctors. The list of the Institute contained a lot of intellectuals, very well known group. Max has very few on his Institute list. They should check over their lists. Felipe can call the doctors. Then, one day they can check over the lists - after Felipe finishes his (University) exams. Max has about 14 intellectuals on his list (which is not such). Max has another 10 on his private list - making a total of 25. This means they lack a lot (of intellectual group). Alberu takes the phone. MO is the newspaperman - Povis (7ph) who came in on Saturday. According to the program of "these friends," there will apparently be a long interruption. MO should be in New York this week, but Alberu has made MO think that the Consulate and the U.S. will not give MO the visa. That would mean that MO can't go there (to U.S.) so "I will have to follow the program of the scholarship in Geneva which is the following stop-over on the trip." 23.5 contd.

Sr. Domenech takes phone. MO puts on Ing. Lazcano. Greetings. Asks if D. has had any news from Habana yet. No, but D. called long distance with Cabrera (ph), who is still in Canada. He (Cab) said that he had thought the trip would be shorter, but he is there reorganizing the office there (in Canada), planning for the personnel to go there, and increasing the personnel. He will have about 35 persons working there because business with Canada has grown extraordinarily, like here in Mexico. Cab. had told D. that a person, substituting Garcia Lara, would come during this period. Garcia Lara, the ex-Commercial Attache, but this person has not arrived. Cab. said that "he would come as soon as possible, but this would not be before 15th of Dec." (His replacement. But D. has had no news? Just what D. told Lazcano already. That was the last on this.

There is another matter, not on fertilizers (above), but on cotton. Sr. Cano came by to see Lazcano and said he had gotten into touch with D. That is right.

MO is interested in garlic sales. The farmers of Bajio sold Cuba garlic last year. D. knows about this. This same group - Cuba complained about the quality of the garlic and they gave them a check for a different amount (that is, discounted for quality), adjusted the price - wants to re-operate with Cubans again if they are interested. These are very serious persons and would like to recommend them. The garlic matter will be taken up around middle of Jan. There are plans to buy, but this won't be taken up until Jan. MO will tell the men to provide a price quotation. That would be all right. Asks if D. would like to know how much garlic they would buy. D. does not have data. He does not think it would be a large quantity at one time. Thinks it would be only around 200 tons. D. says that they have a very good agricultural year in Cuba and have had satisfactory results (production of) cotton, rice, and garlic and onions, also potatoes. Agriculture has increased its production. That is very good! They will, for that reason, change their plans (for purchase). They will increase what they needed and reduce what was produced in larger quantity. Fortunately for Cuba, they will buy cotton, but not in the quantities as first thought. MO will tell this group of people (Bajio) to prepare their price quotation and will take them by to see D. one day. Fine.

2.0 Out to 35-54-12. Felipe Rojas asks WO, who answers, for Max (Rojas).

MR takes the phone. Cinova told FR that Mercedes Morales had a list (of persons to invite to institute functions). No, they are making up that list, but it is not finished yet. All the new members of the Committee of the Instituto (Cubano) are making up this new list. Max is also making another part of the list. MR however has still not received the lists (yet from the persons making them). MR has to send a copy of this list once it is finished to Mercedes (Morales), but not finished yet.

FR asks if Max has invited Dr. Toriz (ph). Yes, already invited him. Max has invited several and FR does not have on his list the doctor friends (Max has)(which he has already invited). Fine.

About FR's exam....

If FR sees Cinovas, tell him about the list. Yes. When C. told FR about it, he was thinking that he only saw Mercedes once in the Cultural Office. He saw her a few times at the other office, but she never mentioned any list.

Aparicio acted as liaison. SM gave him letters and packages for Casa de las Americas. Even sent their magazine, "El Cornu explosado." Since Aparicio is no longer there, SM does not know what to do. He needs to keep sending things to Cuba "because we are very interested in being in communication" with Cuba. Make a request in writing - for this. To send packages via the Embassy. Yes, because Alberu has to consult this. SM could send them a copy of his magazine, but he now has an urgent matter - from an Argentine poet, who can't send anything from his country to Cuba. He sent his book for the competition for the Casa de las Americas. Bring the book by, Alberu can send this. Bring it by and if Alberu is not in, leave it with Rojas. Will it arrive in time for competition? If he brings it right away. About the magazine, he should make his request in writing. Alberu will contact suit this. Send it to the Embassy, or Cultural Dept. or to Luis Alberu. SM would like to know how to send the book to Casa de las Americas. SM received all five copies together, but SM understands that they are to be sent in ~~five~~ different envelopes with a payedonaya. Alberu will put on Rojas who knows about this.

Rojas takes the phone. SM explains about the book...Bring the book by and Rojas will prepare the books for sending. Bring it by and leave it with Jorjin. Or bring it by on Monday and leave it with Alberu. SM would prefer to deliver it in person so will take it on Monday. But won't that be too late for contest? No, the period is until 31st of Dec. Rojas can't be in the office on Monday. Come by Tuesday morning - around 1000. Fine. MO will come by between 1000 and 1100.

6.0 In. Consuelo Esperon (v) with Rojas, who answers. Do they have Notes 729 and 730 for Minrex there? She lacks these two. Max Alberu has not taken it by yet, that is, 730. And 729? Rojas thinks she has these; she set aside the copies, and Rojas still does not have his copies (back). She has closed the index. Yes, but they are doing 730 now. Just has to take it by there. She is making up index to close the pouch. May go out on next flight.

Alberu takes the phone. Greetings... Alberu says he has 730, dated yesterday, but this is 3 reports (combined). Yes, she only wanted to know if the number was taken. He says that he won't finish report #4, it will take all morning. It can go out in next pouch.

7.0 Out to 24-61-79. Max Rojas with MO, who answers, for Jorge.

Jorge takes the phone. Rojas has invited the Embassy people, but would like to check time (of affair). At 1700. Jorge understands that Lechuga is still here (in Mexico). That he will leave on Monday "with these people," and Jorge thinks they should invite him also. Bola de Nieve told Jorge that he (Bola de Nieve) wanted to send with Lechuga a copy of "the tape there to Cuba, although I pointed out that it was not a good recording of piano, etc," but Bola de Nieve did not mind since it showed the spirit, of the concert. MO ordered a copy made and it will be ready this morning. Lechuga is leaving on Monday. It would be good if Lechuga comes too - since he is Minister of Culture. R. will try to locate him and if he can't see him, will leave a message. Alberu knows about this (party) too. Alberu wants to know where he can get a photo of the affair - if there were any taken. MO saw Rodrigo Moya taking photos there. Moya works for "Prensa Latina." Have to get in touch with him and ask him for photos. Or through Armando Rodriguez. Rojas thinks they should invite Ramos Bracho, but Rojas does not know where to call him. Jorge has his phone. Then, he should phone him (to invite him). Fine. Will phone him and Margarita Mendoza Lopez. Rojas does not think they should invite many more people since this is almost exclusively of the Directive Board of the (Cuban) Institute. Three or four persons will go from the Politecnico. These, plus 10 or 12 from Institute, plus around 3 from the Embassy. And Bola might want to invite someone too. Since party is in honor of Bola de Nieve. This will make up around 20 or 25 persons. Was MO talked to Xochitl? No, tried to locate her yesterday, but her phone was busy. MO located Dr. and he gave up trying to call Xochitl. However, it would be good to call Armando or Xochitl. Rojas will try to call them, to remind them, and see if they can locate some others of the Institute. MO will call Ramos Paz (?not Bracho?) and Margarita Mendoza Lopez - who was also at concert and was at the meeting later. All the Directive Board (of the Institute) should go. Rojas is not sure if he should phone ... Iturrbiatu (ph). Yes, but Directive Board is over 23 20... Yes, but some won't go. The most of persons attending should be of the Institute... Also should invite Lechuga and any person coming with Lechuga. Fine.

Sr. Domenech takes the phone. MO has talked to him about this matter. Asks if they have heard about this money order. D. says they have sent this money order, but they sent it in the name of two persons who used to be there in the Commercial Office and have not been here for a long time - that is, Jose Antonio Garcia Lara, the old Commercial Attache, and Oscar Concepcion Mendoza. Mendoza left here at the end of Sept. Garcia Lara left in July. They had sent other things previously - about similar matters - were sent in the names of these two men. But now they can't cash this money order. Sr. Federico Alvarez is handling this now. He cabled Habana, pointing out the error, asking them to change the names, so they can cash this. Please call back next week to see if they have any news. The money order arrived - and the bank did not let them know about the arrival of this money order. They had to check all the banks - through which normally they receive the money orders, and they finally located in which bank it had come. Found this last Thursday...MO asks if they should send a telegram about this

much of R. vulltas since did nowrite much for piano and orchestra, but they already know this. MTR had planned to play the 5th of Beethoven. The matter of Director has been complicated (since Mexican Director is not going).

Would the concert of 10th be a complete recital of MTR? Alberú thinks so. Yes, probably with orchestra. She would like to know if this is recital or only one piece with the orchestra. Thinks she might play alone and then with orchestra.

If she could give him her repertoire, he could send a cable right away. Perhaps she could leave next Friday (for Habana). No, that is too soon. Could go next Monday, 14th (Sept).

Her They have to send a repertoire that can be prepared in a week. She would have to have an immediate answer - confirming what she will play. She can prepare one concert. Say the 5 concerti's of Beethoven, preferring the 5th. Schumann's Concerto in G Minor for orchestra. Rachmaninoff, Concerto #2. Tchaikovsky's Concerto in G Flat. Can select from these. Perhaps she could play something more modern...No, couldn't prepare it in time. She could have a complete Chopin recital, but would need to have an answer right away. Or could have recital with works of Bach, Beethoven, Schumann and Prokofiev and something by Mexican author.

She had hoped this trip was to be in Dec. Her husband has invitation to give sons lecture in Dec. She can return, Alberú says. Can arrange to return.

MTR has to renew her passport and then send it for Cuban visa, which will be quick. HIS says her passport doesn't state the Antilles. Should she have this put in? Ask at Mexican Foreign Affairs Dept.

Insist that they reply immediately about what she should play...

orchestra. Then, they ask for her repertoires. But there is very little time now to

Prefer Ponce, Chavez, ...Galindo or another. Bring (with her) Monday, 14th, score and material. Enriquez promised MTR a work, but won't be finished until December. There is another one by Galindo, finished a month ago, but there is not enough time. They are sending the ticket to Habana (to advise) Embassy.

About the recital, they make no mention, but MTR can arrange that there directly. They are concerned about what will be performed with orchestra.

MTR asked Dra. Melado about her son, but they have to get an answer on this from Habana. They have sent a cable on this.

MTR will go see about her passport tomorrow and get the passport of her son ready too - in case it is approved to take him. Might have an answer about this tomorrow. Will let her know about the son as soon as possible.

MTR says the concert of Ponce is not interesting. She can have some works by Mexican authors ready for another date.

for Montañó to set a date (for election). Mtz. suggests they call as many as possible to be at meeting tonight - for the exchange of ideas for the new Directive Board, etc. No, these are two different things. The meeting of the doctors is to get the group together and meet the directive board. Yes, but they could invite them to this too. Could also make decisions and perhaps set dates. There are a lot of people to cite. They have three pages. Rojas, Dr. Fausto and Mtz. have these. Each one could take one page and call the people. But Zalce and Montañó aren't going today. Best wait until Monday morning for decision of M. on Monday morning. Ap. will talk to Castro Villagrana tonight. Mtz. will try to go tonight. It will be at 2100. Ap. says Mtz. does not have to go. Yes, he can talk to Castro Villagrana there and perhaps they can decide something there. All right.

but late. Will MO be at hotel from 1400 to 1500? Yes. MO offers to pick Aparicio up at the Embassy and they can go out to lunch from there. They can save time and also see if there are any books there, for MO's son, which interest MO. MO will come by at 1400. A book for the thesis of his son? Yes. Thesis on Cuban Revolution. Fine.

15.2 In. WO with Aparicio, who answers, for Cultural Attache. WO is calling for Fernandez Editores.

Alberú takes the phone. Calling for Prof. Felipe Lucia (ph), Counselor of Fernandez Editores. Would like to see Alberú to find out his point of view on a book called "Continente," which has some chapters on the Republic of Cuba. Could he see him on Friday. He would have to see Aparicio too and he will be out of town. Leave this for next week so they can both see the man. Arrange for an appt. for Friday a week. Just call to confirm this. WO makes note of address...Could this be at 1200 on Friday? Would have to check on time since there is still a lot of time from here to Friday. WO will call next Thursday to confirm the time.

17.2 In. MO asks Rojas (v), who answers, for Cultural Attache. Just went downstairs. MO will come by tomorrow. He was to get the name of the Deacon of the Faculty of Medicine of Habana. His name is Dr. Portilla, but wants his first name. MO is Rigoberto Salinas. From Chile? No, Srta. of Chilean Embassy called for him. MO says he is a Nicaraguan exile. He is interested in going to Habana - to finish his studies.

Rojas checks and says Dr. Marinelo, ex-Rector of University of Habana, is now Amb. in UNESCO. They don't know complete name of Dr. Portilla. But they told him to come to see Aparicio...MO does not hear Rojas. R. hangs up.

About going to see this maid....

19.7 In. WO with Aparicio, who answers. WO talked to the Amb. about that matter of Pereira (?). Amb said he did not know anything about this. Bertita said the same thing...WO is Margot. Ap. says Margot should find out why "she" wants to make this exception with WO and her daughter. There must be some reason. One day she called her - about inviting her to lunch and told her to bring Clara, with whom WO was staying. But said they were going to eat in a restaurant, not at home. And when they said not to mix Clara up in this (??? not sure of everything she says...) and WO pointed out that Clara does not have any fault. WO did not even tell Clara this morning, but told him (Amb.) and there was no lunch. This appears to be forcing and in people who should be revolutionary. They should be frank. They luncheon was apparently cancelled...She borrowed \$50.00 pesos from Aparicio. Yes. Several days ago, quite some time ago. But this is no problem, but they made a comment on this yesterday. And was it a homage for Cuba? (Someone borrowed money or got money from him)? Ap. says yes.

(She) made the commentary to Aparicio that they could get (money) together when someone leaves and they can have a luncheon or something similar. MO had planned a luncheon for last year, but did not have it. Will have it this year. She and Clara will invite people by phone - informal luncheon. Will invite Soviet Ambassador and get in touch with others. They will invite Raquel (Aparicio), Sra. Rogelio, Sra. Ma Fran de Roble (??). They will need some economic aid for this. Of course. They should do this there in the Embassy...This would be correct.

Ap. is working on the magazine. Amb. told him to give this preference. MO sent the things there (to Aparicio). This was very opportune, since this was the last (news) which has arrived (from Cuba). (Apparently wife? of Amb?).

MO with Rojas. MO tried to call there several times yesterday from Acapulco. R. does not know MO, Guillermo Ruiz and Antonio Garcia were in Acapulco on vacation in May. Guillermo's wife, Nilda, left for Habana and took two chemistry books for MO to a student in Habana. Would like to locate them because student has not received these books and the boy needs them badly to finish his studies. Both Ruiz and Garcia are in Habana. Teresa Proenza is also there in Habana. Mirabal has also gone to Habana. MO phoned Mirabal yesterday. M. visited MO at his house (in Acapulco). Will Guillermo come back? No. This is the problem. They were in Acapulco for 5 or 6 days - at MO's house - recommended by Justo. She said she had vacations (and was going to Cuba). MO asked them to take some books. MO had these there with him and "she" (wife) took note of the address of the mother of the student. This is the Sra. (mother) who is the head of all the organization of theater in Habana. Perez Garrajo or something like that. On Calle 23. They took books in May and Sra. has now written asking where these books are. MO asked Sra. Ruiz, in case she could not deliver the books to Sra. Carrasco (not Perez Garrajo), to call her (Sra. C.) by phone or leave them with Manolito Perez, Secretary of Roa, because "Manolito also knows me very well. He also spent quite some time here at my house." MO had wanted to know where Guillermo is to write him about the books. R. will ask there at Embassy to see if they know his Habana address. Will he live there (in Cuba) definitively there? R. thinks so. Then, MO says, he can write Mimrex. That would be the best. Yes, but to whom? To Guillermo Ruiz. MO yesterday wrote Mirabal, to Mimrex, asking him to talk to Manolito Perez about these books. When will Teresa be back? Probably won't be back. She got an official job there (in Cuba) and probably won't be back. And MO comments, he went there (Cuba) to stay and then returned (after all).

MO sends his greetings to Amb. Hernandez Armas. Tell him that the man from Acapulco called "because there is a situation which was presented (to Amb) there by Mirabal (ph)." Fine.

Might ask Justo to call MO. Justo Urbieta. Tell him that Beben (ph) and ask him to phone Acapulco. MO will write Perez at Mimrex (has not written before?). Fine.

Ap. said GT should give him an appt. so Rojas could deliver the material directly - so they could sign a receipt for him. Today is Tuesday. Then, on next Thursday. GT has in a hurry (to get this printed), as he explained to Carpentier, because they don't know what will happen next year (attitude of govt) and if they don't leave everything ready, MO can't be responsible (that it will get published) and MO is very interested in seeing it published. Then, Thursday at 1200, 10th floor of the Rectory Bldg. Rojas will take receipt and book.

The telegram mentioned that it would be after the 5th - that they would send the tickets. R. would have to ask Cubana (de Aviacion) about this. R. can ask if she will phone back in a little bit. WO will phone back in 15 minutes. WO says she could phone Cubana. Phone 35-79-00 and 35-79-09. Talk to Sr. Almada.

Alberú checks and says that it must be the secretary of Ruben de la Borbolla.

Has Al. talked to the Amb? Yes, talked this morning about those pictures. They are ready to be taken. They should make up an inventory and both sign it, so there are no mistakes, because the painter has left. They will take it to the Instituto (Cubano) and have the person there to make up a receipt. WO will leave the paintings there to be picked up since WO is going out. Alberú will see how he can pick these up.

WO came in yesterday from Cuba, was invited there. While there he visited the Ministry of Sugar. Talked to people there (in Ministry) and WO wanted to initiate an exchange of technical magazines, even technicians. Here the Union Nacional de Productores de Azucar edit a magazine, monthly one, which they receive (in Cuba) with great delay and irregularly. Srta. there at Balderas 36, where the publication is made, told WO that they are sending these to Ministry to Treasury, but since there have been certain changes there (in Cuba) and the Ministry of Sugar has just been formed, it would be good if the publications being sent - could be sent via Embassy so they receive these in time. If they send these to them, they will send them (on to Cuba). MO says there must be an agronomist association here which has publications. MO does not have time to find out if there is such an association (so they can send publications to Cuba too). article which came out in the last issue of "Siempre" on Cuban painting (?). Has not been able to read "Siempre." By whom? Antonio Rodriguez? No, it is against him (Antonio Rodriguez). It is very evil. Isabel Cintas signs this. Would this be the wife of Amb. Cintas? Yes. The same. She is well informed, with half-truths, which are the worse. States a lot of things which are true, but half-way. A very perverse article. RA was busy on Sunday with some writings, and did not read the magazine. RA comments that Antonio Rodriguez is in close contact with RA. RA will give MO's phone to AR so he can give MO information which RA does not have. MO read AR's work. Would MO like to write something on this. RA could get it published in "Siempre." RA has good relations there and could get it published. That would be all right. In any case MO would like Rodriguez to see this article so that he (would like to answer it). Aparicio would like MO to publish something too. MO does not sound enthusiastic. MO will see what he can do. Rodriguez was only (in Cuba) for 15 days. Yes, MO read the article. He made reference, very slightly, to this. MO's phone is 23-01-71. Aparicio will give MO's phone to Rodriguez.

MO wrote a letter to Graciela mentioning "that" (the article?). Asks when she was here? (Very indistinct...) On Thursday (at the Embassy). And the airplane came in on Friday and the letter was sent (out from the Embassy). It left Friday or Saturday (the letter). MO thanks Ap. for sending this because he is sure that she (?) will be interested in this material (and) these books (probably Graciela). MO has written her and will mail the letter. Mentioned article which without mentioning her name (Graciela's name), she is alluded to in it (the article). If MO has not closed the letter, tell Graciela that if she wants to publish something here in Mexico, send it in the diplomatic pouch to Aparicio in an envelope and Ap. will have it published. MO has closed this letter but will write again in 2 or 3 days - before MO leaves (for somewhere).

2.0 Out to 03. Time is 0813.

2.2 Out to 39-02-74. Raul Aparicio (RA) asks WG, who answers, for Antonio Rodriguez.

AR takes the phone. RA asks if he has seen a letter published in "Siempre" and signed by Isabel Cinta on Cuban painting and which tries to undermine AR's comments. AR has answered this. In case AR does not have sufficient information there is a Cuban painter here in Mexico - who lives here due to illness - Marcelo Pogoloti (ph). He is blind (??). He asked AR to phone him. Is he a relative of the person who wrote...? Yes, he is her father. Father of Graciela. AR has read several essays of hers. Pogoloti is one of their best painters. He is blind and lives here in Mexico. He married a Mexican (woman). Would like to give RA some information. RA has already sent his reply. Used cases that AR knew about - cases of Moral, of Amelia and why he fell. AR says he provoked the death ~~xxx~~ of several persons. Perhaps Pogoloti could send a letter to "Siempre," it would be very good. RA suggested this and would like Rodriguez to call him directly.

Rodriguez saw the questionnaire through Godoy. Rodriguez has an answer, but did not see Godoy yesterday to send it back to Ap. Godoy is out of town. Will be back this afternoon. Rodriguez did not see him yesterday at the Politecnico (IPN). ~~xxxx~~ Rodriguez did not ~~xxx~~ go to see Aparicio because after Rodriguez talked to Aparicio by phone, Aparicio went by there and Rodriguez gave him copies of the questions. Rodriguez wrote some things about what he knows. There is a problem in between which is something about a debt in Cuba with the Mexican products and this has caused some difficulties. Rodriguez states what he knows about this. Rodriguez knows that there is a Mexican producer who was willing to come to ~~xxxxxxx~~ an agreement with the Cuban Instituto that the debt could be paid in an original form - consisting in his going there (to Cuba) to ~~fix~~ make a film. It would be to the advantage of the Cubans. He talked to someone at the Embassy about this - a short time ago. Rodriguez talked to Guevara at the Instituto and he was worried about paying this debt in order to resolve several related problems. Ap. asks Rodriguez to mention names since Ap. wants to talk to these persons. That would be interesting way of paying a debt. Make note of his name and phone ther (on questionnaire) for Aparicio. Ap. will send for the questionnaire - to Rodriguez' home. Will send for it today. Fine.

The phone of Pogoloti (ph) is 23-01-71. Marcelo Pogoloti. Ap. will talk to Rodriguez in about a week about the problem of the exposition. Fine.

Is Mrs. Cinta an invented name? Rodriguez thinks so because it can be clearly seen that "these are things for this congress for culture." It would be very strange that a woman comes through here (for short time only) and would ~~xxx~~ know there are several painters here (in Mexico), among whom is Felipe...and so forth. This is a person in contact with the Cuban painters here (who wrote the article). Rodriguez asks what Felipe's relations are with Cuba? Ap. says he is somewhat neutral. Ap. has been a friend of his for many years, but he is somewhat distanced from Apt. when Ap. came here. They have been friends for 30 years and Ap. and Felipe published a book together - "Diez pintores del mundo," in 1944. When

they had a campaign here against Gomez Tigre, he (Felipe) came out in his defense. Ap. says he is a good friend of Gomez Tigre. MO says GT has been the greatest enemy of revolutionary painting. Ap. used to be a good friend of Gomez Tigre too, but in 1960 when Ap. was in Rio de Janeiro, Pepe (Gomez Tigre) came through there (RIO) and he did not even go to see Aparicio. And they had been University friends in 1939, 1940, 1941, 1942...Felipe is closer to these people than to Aparicio.

He has gone to the University. (Juan Jose Currola) And his wife? Moment.

Pixie Currola comes to the phone. MI puts on Aparicio. Ap. has some information for Currola - which came in yesterday from Habana. He was to have phoned Ap. yesterday and apparently he couldn't. Ask him to phone Ap. today. PG will phone him at the University and tell him. Ap. gives her his phones...The information is for him.

He has not come in yet. Ask him to phone. Lic. N. when he comes in.

9.0 In. Sr. (Juan Jose) Currola asks MI, who answers, for Aparicio.

Ap. takes the phone. The answer has arrived. They say that JJC will receive when he (JJC) is there for fees, apart from paying for his house. They will give JJC and his wife a house to live in. The fees will be in the amount of \$500 pesos - Cuban pesos (equal to dollars) and he can send 10% back to Mexico. This is an offer now from the Casa de America, Ministry of Foreign Affairs, and this can be modified since they do not know the needs of Currola. Ap. is to talk to Currola to find out his opinion. Currola accents.

Has Aparicio sent Currola his letter yet? No, not yet. He is waiting for G. to read all the things Ap. gave (him). JJC will finish reading them today and will advise Aparicio definitely. Ap. sent a telegram (to Cuba) that day he and JJC talked - on Monday, but Ap. does not know what message JJC sent with Soledad because Ap. mentioned in the telegram that Soledad had information from JJC. Said the same thing - that JJC planned to read more works (theatrical) and would see if they could do ...Blanco, but Soledad was going to the Director of the group. JJC will phone Aparicio tomorrow. About theatrical work by Carlos Felipe. Felipe has been employee of ship customs nearly all his life. An interesting person...will call Ap. tomorrow around 1000.

it would be a good idea to publish something each month in the bibliographic section on a book which was not Mexican, but some other part of America. Could publish something on Ex Buena and/or Venezuel, etc. MO is waiting for news from him. From Salvador Bueno? No, Federico Alvarez. Alvarez has not mentioned this to Aparicio in spite he comes often to the Embassy. MO just took it up with him. And could Bueno get ~~xxxxxx~~ some benefit from this? MO presented it in this way - so that it would be a paid collaboration. They could use something of Bueno and other critics from all over America. This is now a question of budget. Should this be taken up with Agex? MO is not sure. Perhaps Aparicio could talk to Alvarez too.

Ap. called to say that he is not going to go by there and he needs the books. MO will send these to him. Please send these with discount. He wants the books of Jazz of Behring (ph), 2nd volume of Anderson ~~xxxxxxx~~ Lindberg, "La cultura y la pobreza" of Harrington, and another pamphlet which MO mentioned to another person working in the Embassy. Don't they have "El tiempo y el viento"? No. Asks what the amount is so Aparicio can leave the money there. It will cost \$48.00 pesos without discount. Would come out \$38.40. Could not send them today, but tomorrow. Come around 1400. If they can, they will send it today. Will leave money at the gate.

21.2 In. WO asks MI, who answers, for Alberd. WO is Cachita. WO asks who is talking, but MI had left phone.

Alberd takes the phone. Greetings. Alberd has been sick. Jorge is also sick. Matt (7ph) broke his glasses and had to have them fixed, but did not have the money to send to get these. Thought perhaps they could go for these and get the glasses since he could not go to the Instituto today at all. Couldn't he come by here tomorrow morning to talk to Dra. Machado? He can't come out alone. Doesn't see anything. They will cost \$270.00 pesos (for glasses). Alberd will talk to Machado. Yes, and he also has pending there some small debts. WO always gives to the Instituto and things, but this time she does not have that much money. Dra. Machado will be the one to decide on this. Will then phone them - phone 35-54-12. WO has to go to a dinner, given by Tere, now. Perhaps they could pay him one month (salary) because WO thinks they have paid him until 15th of Jan or 15th of Feb. They would like a little more money than just cost of fixing glasses, since they needsome money and will be an incentive for the boy. Say hello to Max (not Matt). Fine.

23.0 In. WO asks MI, who answers, for Sr. Garcia Lara. Not in his office. WO left a message this morning for him to call Lic. Naverro. His phone is 25-09-14, but will check to see if he is in his office. They are cut off during wait or WO hangs up. MI comes to phone.

RA is calling about the motion picture questionnaire. JG has this answered by the Secretary General of the Union - Flores. Another boy also answered this. This boy directs the Cine Club for JG at the Politecnico (IPN). JG can come by and take these to RA before he goes to the office this morning. JG also talked to Julio Tellez, the same boy mentioned above, directing Cine Club, to make the 26 July cycle and Tellez said that would be fine. JG really does not consult him, but tells him what should be done. However, he is very willing in any case. JG had wanted to bring him (Tellez) by to see RA today or tomorrow. RA has to go out today at 1200 and has something else to do. Then, will bring the boy tomorrow. To make selection (of films), decide on days, etc. Before he brings Tellez by, Ap. wants to talk to JG. Facundo belonged to the group of Ap's friends in University - the painter groups who studied with Ap. Pepe Gomez Chicle (ph) was also in the same course. Facundo was a communist until the revolution won. After the revolution won, he withdrew. (as a communist). It is very strange. P. thinks he might have become scared. Ap. does not know. Has not been able to talk to him later. P. says it might be influence of his fixax friend, Pepu. Doesn't know. P.'s attention was drawn because "he mentioned (in article) him (Facundo) and Lozano." JJC asks what he would spend all the money on in Cuba. He can buy things. He can't take these out either. 16.2 Out to 23-07-94, 2 times. Busy, ~~xxxxx~~ complete. Rojas (v) asks MO, who answers Aeronautica, for Dr. Rico Galan. Wrong number. This is air cargo company.

Out to 23-07-94. Rojas (v) with MO, who answers...wrong number.

17.2 In. Hermes Caballero with Aparicio, who answers, for Alberdi. Not there. Alberdi's uncle, the painter, died on Friday. HC talked to Alberdi to say that "we are leaving today so he (Alberdi) could be at the airport to resolve any difficulty." Who are leaving? Angelita and HC are leaving for Cuba today. Ap. did not know this. They talked to Dra. Machado and they were told to talk to Alberdi so he could help them, on departure, as when they arrived. There will be another Cuban (Embassy employee) there. Who would that be? It could be Rogelio or, eh...can find them at Cubana Airlines counter. Ap. has to go to an appt. at University and has to leave now. Call Dra. Machado. Phone 25-07-95. She knows who will be at the plane. All right. Ap. says he (Ap) ~~xxxxxxx~~ knows that Marquez has been in touch with MO. Yes, MO has invitations from here to take to Cuba - on the matter of education (inviting people in educational field to something, or vice versa). Yes, Ap. sent a report and no one has answered it - neither Leli (pu) nor Gaspar has answered. The problem of "our guests to go there" (to Cuba)...MO will present the problem when he gets there. They could even phone Ap. to arrange things. Or just a letter by diplomatic pouch.

18.2 In. Gra. Villarreal with Aparicio, who answers, for Alberdi. His uncle died on Friday and he won't be in today. V. had wanted to send the (rental?) receipt. Call him at his house 45-39-47. MO will phone him. Should she send the receipt there? Best talk to him about this.

18.7 In. Wrong number. Rojas (v) answers.

19.0 In. ~~XXXXXXXXXX~~ Angel Gonzalez with Aparicio. MO has been trying to call Dra. Machado, but unable to reach her. AG says "we are leaving today. We are here on diplomatic passports." Caballero just called Ap. Yes, have not reached Dra. M. Where are they? The hotel phone does not work for incoming calls. They are still at the hotel and it is 1035. Moment.

19.0 contd.

Ap. returns to the phone. Tells them not to worry. Leave now for the airport and Ap. will get in touch with Margot (Xachado) to have someone at the airport to help them. Plane is to leave at 1230. All right. They have a diplomatic passport. What is their fear? Just the departure. There is always someone there from the Embassy and will have them look for them.

19.5 In, 4 times. No answer and complete. MO asks Rojas (v), who answers, for Federico Alvarez. Will see if he is in his office. MO is calling from Sr. Inzunza (Inzunza) of the Cia. Editorial...ind... Moment.

Alvarez takes the phone. She puts on Susa (??, Inzunza). What news does A. have. None at all. Thinks they will have to call Banco del Comercio or the Banco del Atlantico to see if there is anything (money) for them. Sr. Sanz (ph) wants to talk to Alvarez. He is even willing to pay a long distance call to Cuba to see what has happened on this. Moment.

MO takes the phone. Before calling Cuba, it would be good to check with Banco de Comercio or Banco del Atlantico to see if this dollar transference has arrived. There are two matters in this. About the 9,000 dollars, they can call Banco de Comercio Exterior and Banco del Atlantico. What they could find out by call is if they have sent the money for the order they have there (which has not been shipped). Yes, for the "Stalin's" (books on Stalin?). On the "Soil." Yes. This has been certainly. MO offers to pay for call. All right, MI will pay for this and find out on what date they have sent this, on what bank and via what. Also MI can take up the matter of the \$9,000 dollars they ~~authorize~~ have to authorize because the insurance was in pesos ~~ex~~ instead of dollars. Ask if they have authorized this. Since that (request) left on Saturday's plane, MI thinks it should be taken up today. If they can't resolve this, it does not matter since they can here (arrange it meanwhile). Just take advantage of call. The most important thing is about the order - whether they have sent the money, how it was sent, etc... Fine. MI will call Habana. MO is Sr. Sanz (apparently).

The other day Alvarez asked Sr. Inzunza - the other day MO gave MI a "out" which Alvarez sent to Cuban Intextex (ph?) and it now "Imprenta Nacional, that is, Alejo Carpentier (ph), via Sr. Osfala (ph) sent word to" MI to take him two. MI had asked Sr. Inzunza to send him at least one but he has not sent it to him. Just a moment. Tells Inzunza to send MI a copy of "Ingeniero Azucarero." Fine, they will take it to him.

22.2 Inside party tries to get dial tone.

Ap. had not phoned her after the concert because he has had a lot of work. RO says she went out of town afterwards. Spent nearly all last week in Jalapa. Her husband then joined her and they went to Veracruz.

RO has not had news from her friend. (Recording too low.) Has not answered her...inaudible. She is also in doubt...and they may begin on the 20th...so they could not move. Would have to begin rehearsals with the orchestra...If they start the 20th and not the 23th, RO could not move (go anywhere). If they start on the 23th, there would be time. Should know definitely this week. Ap. asks her to let him know definitely and also write down the name and the address of the teacher there so Ap. can cable him directly so RO not have to worry about this. It does not matter, since that is her work...The bad thing is when she does not have an answer. They will continue waiting this week and (if there is no answer by then), they will leave Ap. in freedom to select any other Director (of orchestra?). Ap. says he is not the one who decides. Ap. sent his report to Habana, after what RO said. They will wait this week. Next week can see if RO's friend writes. After 14th July, (can get together) because Ap. has a series of diplomatic receptions to attend. Would like to get together to hear RO's friend (play), Margarita. After 14th July. Ap. asks if RO could play for them at Embassy or at the Instituto, but Instituto is not good for piano concert. She would be happy to do so. Ap. has some Cuban piano music he would like to show her and see if she likes it. They can get together... Best RO's husband can pick it up today or tomorrow, etc., at any moment so her husband, when he goes to office (doctor's office, so is a doctor)...Also they have pending the records of Ap. of classic rumbas of Cuba and the anthology of the "Danzon," to explain this to her - listening to those, etc., so she will be familiar with this when she gets to Cuba. Fine.inaudible (RO)...Ap. says they have a record since there is no accident in over 48 hours...Meanwhile, her husband will pick up sheet music. Best call before coming by his house, to be sure someone is there (to give music).

20.5 contd.

About what they talked about, the contest, the best idea, S. thinks, is to invite a series of young writers, intellectuals, and convince some of group to enter competition. They can get together and talk about this next week. S. has a lecture a week from Sunday and is not sure about having a get-together next week. Ap. thinks he should think about list of people to invite and Ap. has another list. Will call people to party (to talk about this). Also - should invite people who went before (to Cuba) as judges. Ap. has the names, and will invite some of them. Some could talk about novel, tales, theater, etc. S. has classes late on Friday. When could they have get-together. Could be Thursday, 17th (July). Federico can help Ap. make up list of persons to invite.

There is ~~xxx~~ something published (on S's article or by him) in last issue of "Bohemia." Ap. has not seen it.

The get-together could be at 2030 on Thursday. All right. Just be sure some of board members (who have gone) should come. Also said that they should have advised her earlier (in case Gurrola was not going), so she could have had time to find another Director. Ap. thinks G. should try one of the things he read. G. points out that he does not have time. There are two problems - one is economic and the other is the fact that he can't find the work. Doesn't feel he can leave his work here. G. is opening a play on Friday. G. will think about this and call Ap. on Monday. JJS is very occupied in this play now. Best before Monday, that is late. Asks if Landruff (ph) is going to close. Yes. Ap. wants to go to see it. Will close a week from Sunday... Will go on Friday. G. invites him to play on Friday. Ap. has to go to something on Friday, but will try to get there. It is at 2100.

This task, of giving info on nature of the contest, will be undertaken, in said meeting, by several Mexican writers, ~~xx~~ imminent persons, who have, in different years, formed part of the qualifying board in its various sections: novel, ~~xxx~~ short stories, theater and essays. Also will be present some of the Mexican writers (or best, authors) who won prizes in this contest in ~~xxxxxxxxxx~~ this years - who will thus have the opportunity of transmitting their experiences.

"La Casa de las Americas is interested in (their) taking part in the next contest - the greatest number of Mexican writers possible so as to their participation, with that of the rest of the writers of the Continent and Spain, contribute in making this contest a true expression of the literary activities of Latin America.

"The experience of the already held contests shows that, not only by the number and ~~at~~ geographic diversity of the participants, but also for the quality of the prize winning works and for the composition of the judging boards, this objective is being achieved more and more fully."

Thinks not. SV thinks they are good. Try to get as many as possible to come. Both are very busy this week. Best next week. Ap. could organize something else for next Thursday. Antonio Rodriguez can give something (lecture). He has been in Cuba and can give them something. Fine.

Out to 15-31-72. Aparacio asks MO, who answers, for Sr. Camacho.

Camacho takes the phone. Dra. Margot Machado would like C. to bring samples of cloth for men and women. All right. Will come by tomorrow. Will bring samples for men's cloth especially. He has mainly things for women in cloth for coats. Ap. saw at his shop some, and was told there was some for women. He has some silks. Bring what he has. Asks if Ap. is going to order liquor. The Embassy orders this. MO will sell the cloth for that (in exchange for liquor). C. will tell Domingo to go by with samples.

4.5 In, from long distance. Morelia is calling Aparacio, who answers. Call goes through. MO is Natalia Torres (ph) of the Faculty of (Morelia) University. Greetings. One of professors, Prof. Gonzalez Vasquez, who is accompanying the Rector to Cuba, would like to know what they will have to pay for on their trip. No expense at all. Cuban govt. pays everything - plane tickets and in Cuba. They are their guests. Just have to send their passports to get visa. The Rector will be in MexCity on the 16th (of July). Rector would like to know if they can get the tickets (to leave on) Friday. Ap. says the fiestas are going to be in Santiago de Cuba and not in Habana so they have instructions to try to get them (guests) there by the 22nd in Cuba, so they have to leave on the 22nd. However, Rector told Ap. he could not leave until 23rd or 24th, but if he could leave before then, it would be much better. Therefore, it would be best if he could leave on Monday. MO will tell Rector. Rector also asked that reservations be made for return on the next flight (~~XXXXXXXXXXXX~~) reserved (by Ap.) Ap. will make the reservation.

5.2 In. Dr. with Aparacio, who answers. Ap's home phone is out of order. It is dead. Ap. asks MO to report it too. Dr. promised to bring the novel by to Ap. Will take it by Ap's house at noontime. Ap. thinks that Raquel will be home for sure around 1230. Ap. has to go out to a lunch. How is Raquel? Fair. And Ap? Fair. Ap. thinks they should plan a meeting of group of Doctors. Ap. has thought about a Directive Board, without President, but with 4 members. He had thought about this. Vocales: Montado, Zalce - Vocal Ejecutivo, Castro Villagrana and Lozano - Secretaries - and the rest to help out, including MO. MO thinks that Zalce will probably present the same reasons for not accepting Vocal Ejecutivo as he presented for not accepting the Presidency (of Instituto Cubano. Probably Leopoldo Zalce). They will see, Ap. thinks he is more willing to go along with this since this is not so evident. MO points out that Zalce should remember that the name of the group, and Ap. recalls how they had that changed, would not represent any reprisals for him (Zalce). Ap. asks MO to talk over matter with Montado and ask him and Villagrana when they would like to have the meeting. All right. MO will call them this afternoon.

2.0 Out to 03. Time is 02.

2.0 In. Adelina Zendejas with Aparicio, who answers. Greetings. About AZ's gripe. AZ saw Miraval yesterday because AZ took a lot of medicines by there. She had taken these first to the Instituto (Cuban) but was told best to bring them by Embassy. AZ had asked for the medicine which they most need (in Cuba).

Aparicio is organizing two ceremonies at Instituto. One is an exposition of engravings of the Taller de Grafica Popular, probably at end of this week or beginning of next week. Another thing - with all the judges who have gone to Casa de las Americas, to promote the attendance to these affairs (in Cuba). Can AZ go? Of course.

Did Ap. read about Frida on Sunday (Friday?). Yes, it was something which had never been published about Frida since they always talk about her in connection with Diego (Rivera). AZ wrote the article. Frida married Diego when she was 18 years old. She was an extraordinary person. AZ loved both Frida and Diego very much. She was their friend for 40 years.

Ap. is writing about era when Antonio was here. Would have to check "El Machete" and "El Imparcial." He should go to Newspaper, magazine library, located at Calle de Carmen and San Ildefonso. Ap. will go see about this. Look at newspapers of that time. Antonio at times gave speeches and sometimes in the student newspapers he wrote a lot. He might find these there. Also find out who has collection of "Politicromias." Asks AZ to jot down the places where he was or appeared. He also had a lot of meetings. He gave impetus to ...Rojo Internacional. It already existed here, but he pushed it. He founded the infantile, (children's) and juvenile (youth) sections. AZ entered this and they killed him 2 days later. He was very active. He went into the different Facultades (of Universities) and always spoke. Some of these speeches must be published in the newspapers. Julio Antonio. In the leftist magazines, AZ has nearly all these. AZ is also reconstructing something else on basis of magazines, and she will look for this at the same time. She has seen some things of Julio Antonio, while looking for other things. Come by, but may have to wait a while since he has a lot of people there. Can't in the afternoon since Ap. has engagements. MO is not sure the boys can't come since they are working. Ah, the poets (??). Ap. thought he meant people from Morelia. No, the poets - Gel (ph) and Puc (??) and Oliva (?). Then, come by this morning and the two of them can talk and Ap. can set another time for them. They don't have to come with MO. Can come alone. They wanted to talk all together. Ap. has to do a lot of things in the afternoon. Can't this afternoon or tonight. Ap. had to cancel other things since has to attend even a lecture of Abd. Come on by - anyway - to talk to MO. Ap. will be at office until 1300 or 1330. MO does not have time to get to Embassy. He is a long way off. Ap. will wait for him. MO will leave right now.

for one week. MO answered the invitation by accepting and was told all arrangements would be made via cultural office of Cuban Embassy in Mexico. Does Ap. know about this? Ap. does not have information, but will check on this. Asks where MO is staying. Hotel Regis. MO is Dr. Cesar Pacheco Velez. MO talked to Sr. Marinelo. Talked to him in Paris, after receiving the official letter. They had a meeting of Secretaries of Commissions (of UNESCO) in Paris and they invited MO on his return (thru Mexico). He is Secretary of the Customs Commission of UNESCO and Director of International Urbanizations in the Ministry of Public Education. Ap. makes note. MO talked to Juan Marinelo on 3rd or 4th of July in Paris. What is, MO received an official letter and answered it in writing and also visited Marinelo's office in Paris. Ap. has not had any information about this, but will check. The flights are twice a week, but the flight of the first of this week has been delayed and will not arrive here until Friday. It will arrive and return on Friday. This is a very bad date to travel to Cuba since they are full now - flight is MO in a hurry? MO has to return soon to his country since he has been out of it for a month and a half. He was very interested in accepting this invitation. MO could wait a sec. In case he could not leave on Friday's flight, when would it be? MO should make reservation. Suggests that MO make the reservation right away. Phone 46-61-64. Make it for next flight. Ap. will let MO know when he has some news.

Ap. is a very old friend of Juan (Marinelo). Asks if Juan mentioned details about invitation. It would be one week in Habana with round-trip ticket Mexico-Habana paid. Just said everything paid.

26.2 Out to 46-61-64. Aparicio with MO, who answers at Cubana de Aviacion, for Almada or Garcia.

Garcia takes the phone. Greetings. Does he have tickets for Cesar Pacheco Velez and Vargas deposited? One moment. What? Cesar Pacheco Velez and Vargas.

Checks and says he does not have Cesar Pacheco Velez. Has one for Teófilo Vargas Castro. Has been there since January 21, 1963. This has died now... (out of date). When do tickets run out? Once issued, at the end of one year. There are tickets which have been there for some time for Eli de Cortari. He is going to Cuba, but is not going until December. Have been deposited for some time. If Habana has not requested return of money, they are still valid. All right.

27.5 In. Angeles Varela with Aparicio, who answers. Greetings... About children... having a good time when they visited AV... Ap's phone was out of order for a long time and then they changed it to a private phone because "you know that ... something very large against me... here since the telephone appears in the diplomatic list and they also bothered me by phone." Of course. Would like to give it to her (in person). If I give it to phone, the "American Embassy is listening me with you... and (they will get it) again." AV tried to reach him and found out he had a private phone. Yes, that way "we make it more difficult for them. They have to look for it... they use it..." Does AV see Juanito Renaldo (?)? ~~xxxxxx~~ Yes. Tell him that Ap. wants to talk to him. Tell him to call the office once morning to make an appt. Ap. wants to consult some things with him. Tell him that not to take too long. AV will tell him tomorrow. AV saw him yesterday and talked to

CF takes the phone. Greetings. Ap. is organizing an affair at Instituto for all friends who have participated as judges in Casa de las Americas. Yes, CF was a judge once. Ap. has talked to Prof. Adolfo Sanchez Vasquez about this affair too. What night would be convenient for CF. This is a sort of promotion so more participants go (to contest in Cuba). Ha Get together all persons who have acted as judges at Casa de las Americas and invite a lot of young writers, intellectuals, to exchange impressions. CF says any date is convenient. They can talk on Sunday at reception to set specific date. In the first days in August. Yes, fine.

Ap. has had a letter from Alejo. What does he say? Mentions about something he has sent - an original, manuscript of his. Ap. has not received it. Ap. gets Alejo's letter...He says: I advise you the mailing of two manuscripts, which is a new book of mine...and the other one (package) which contains only part of the book to our friend, Carlos Fuentes." Ap. just got the letter...CF will be very interested in seeing this.

Did Ap. see the article in "Siempre" on the Latin American novel with 1/3rd dedicated to El Siglo de las Luces. Ap. says Alejo admires CF greatly. CF considers him the head of the novel in Spanish tongue right now. Alejo admires CF. When Ap. returned from Europe and was going to come to Mexico; Ap's house is under Alejo's house and he mentioned the fact that the best Mexican novelist is Carlos Fuentes.

They will see one another at reception on Sunday (at Embassy).

Yes, but think about that. Ap. says they are accredited with Mexican govt. not Siqueros. Yes but Mexican govt. just released Siqueros, considering him a wonderful painter. Would he accept? (During wait, Ap. said they were going to give him one at the gate. "But it is the same (one) as Lombardo Toledano (or of or by Lombardo Toledano).")
Montero takes the phone. Raquel told Montero about something and there is a space tomorrow. And he has arranged for them to keep one space for tomorrow. Try to see that the suitcase come today. M. will check with Habana to see what they will say and will stay tomorrow. Or stay until Monday. Is there a flight on Monday? Yes. When did they say they would return the suitcase from Los Angeles. M. is not sure about this. Is waiting to see if they took it off somewhere else or someone else took it. If they took it, it will be terrible since all his summer clothes and gifts for Virginia are in it. They will have to be responsible. Yes, but they won't replace things for Virginia since they are things from Brazil he bought in the different places he stayed. They can't replace this even if they pay him 5 times the worth of the suitcase. And what do they say? They are trying to locate it. They have the ticket number and everything. Isn't it at airport here? No. Then, Montero should come stay with them (at Ap's apt). M. will be at the hotel until 1130 or 1215 and then go to the airport. Has to go talk there with the man who was there last night and then go to Aparicio's house. Ap. thinks he and Amb. will have to go to the airport today since a guest Rector (of University) is leaving. Then, Montero could come with them. When would they go? Ap. is not sure. M. should go make his purchases and then go to the house. In case Raquel is not there, wait there since she might have gone for children. Ap's address - MO knows it: Zamora 199A, Colonia Condesa, corner of Michoacan. In case Raquel is not there, then come on over to the Embassy. M. will go there, then, around 1200.

a scholarship to study in Cuba last year (presented the application last year?). Come at 0930 on Monday.

6.7 In. Montero with Aparicio, who answers. M's suitcase appeared. A Sra. who lives here in Mexico had taken it - by error. M. is not at Varig offices and is going to leave today. They can see one another at the airport. Ap. has an appt. at 1100 - the Director of a ballet - something important for them. They may go to Cuba. When does M's plane leave. Cubana told Montero to be at airport at 1200, but Varig airport said the Cubana would not come until 1330 and won't leave until around 1500. Come have lunch with them. M. is going to the airport now - to check to be sure it is his suitcase. He can check it there at the airport. Don't check with Cubana. All right. Go first to his hotel, pick up his suitcase (other one), go to airport and check all luggage there and then come to Aparicio's. But ask out Ap's record. No, he has that in his hand.

MO is Andrade Barsaba (ph), Director of the Cultural Committee, w Ap. says he accepts their invitation. However, Ap. would like the Secretary of the Facultad that they are going to do this. Yes, but also the Director of the School will be advised. Wanted to be sure first that Ap. would accept. What time would this be? At 1930 on Monday. That is all right. Does Ap. have any material, film, etc. so they can get a projector for him. No, films are not any good and they can show films another time. The lecture will last some time since there will be a lot of questions. MO offers to come by the Embassy. Not necessary. However, on Monday he would like one of the students to come by for him to take him. MO will pick Ap. up at 1900 on Monday at the Embassy. Fine. PERUMEN/Confusion of Cryptonyms

ACTION REQUIRED - REFERENCES

Reference: A) ISMA-12454 dated 1 April 1964
B) ISMA-23540 dated 25 May 1964

1. The Station has read with interest the discussion of the misuse of cryptonyms forwarded by reference A. The Station agrees that for the sake of clarity and to reduce the possibility of error for those who are not familiar with Station operations, strict adherence to the true meaning of cryptonyms must be insisted upon. The errors in use of cryptonyms pointed out in reference A are due largely to the application of cryptonyms over the years to operations related to, but yet distinct from, those to which the cryptonym was originally assigned. The Station will make every effort to correct its use of cryptonyms in the future, and as a first step to this end it is suggested Headquarters assign cryptonyms to the photo-baschouse targeted against the PERUMEN official installation and to that phase of the LIFEAT operation employing the MENTRAP technique. These points are further discussed in paragraph 3 following. *LIOBAC* *LIOBAC*

Station has noted that reference A, in dealing with Station's confusion in use of cryptonyms, has used the cryptonym TPELIDE extensively. Station records indicate that this cryptonym was cancelled per COM-P 10-31 of 4 November 1963. Station requests it be informed if this cryptonym has been reinstated, and if it was originally intended to apply only to ODYKOE installations. The Station wishes to clarify an area of possible confusion by pointing out that all technical efforts targeted against the PERUMEN official installation do not relate to LIFEAT. Only those operations as PEMPULSE, "MENTRAP" and LIFEAT/LIETODE are properly in the sphere of LIFEAT. The LICCOL-11 type operation relates to MCHARITY, whose purpose is to initiate these operations. LIFEAT personnel have never been employed in this area. If, however, LIFEAT personnel could at some time provide the necessary access for LICCOL type operations they would be considered for the task.

For Headquarters information, the last LICCOL targeted against the PERUMEN official installation ceased functioning in March 1962.

|---|--------------------------------|---|
| <p>2. The Station hopes to add to Headquarters scanty records concerning the operations discussed in paragraph 6 of reference A with a short discussion. It is felt the LIFEAT system of numbering its Annexes must be explained. The present system evolved from long LIFEAT experience in working with the indigenous operational level personnel in the project. It is designed primarily to make the routing of tap lines to one of the LPs as simple as possible for those agents and still use a system of numbering that can be applied throughout the field operation and in the necessary communications between Station and Headquarters. Annexes are designated by Roman numbers I through X although all these numbers are not in use at any one time. A particular number is assigned when the LP goes into operation and this particular LP keeps that designation until it is closed. When it is closed a new LP which provides approximately the same coverage is given the Roman number of the LP just closed. Since the operational personnel must install the lines to the new location and remove those from the old site, they know the current site of each numbered LP. Since LP sites are changed with some frequency, and since the inception of LIFEAT there have been numerous sites employed for LPs, any other numbering system would have resulted in the designation of the current LP sites by widely separated numbers. This, from LIFEAT experience, causes confusion to those agents responsible for routing tags to the various LPs.</p> <p>Therefore, the LIFEAT ANNEX VI originally used as terminus for the "MKTAP" operation was closed due to the physical deterioration of the property and the planned divorce of the basehouse keepers, LIFEUD-14 and LIFEUD-17, as noted by reference A. However, late in 1962 a new LP was opened to cover approximately the same target area as that formerly covered by the LP operated by LIFEUD-14 and LIFEUD-17. This new LP was then designated Annex VI since it took over coverage of the target area of the "old" Annex VI.</p> <p>The reactivation of "MKTAP" was accomplished from LIFEAT Annex IX (called "basehouse Charlie" by the MCHARITY technician in his report for KURLOT) in November 1963. It had been planned to use the basehouse formerly employed as the LP for the LICCOOLs targeted against the PERUMEN official installation ("Basehouse BACT" or "LIERODE") for the "MKTAP" terminus thereby making LIFEUD-22 and LIFEUD-23 the basehouse keepers for the operation. However, it was learned that the necessary telephone line connections could not be made at that location. It was decided then to employ LIFEAT Annex IX for the "MKTAP" LP with LIFEUD-5, LIFEUD-11 and LIFEUD-15 as basehouse keepers. LIFEUD-22 and LIFEUD-23 continued in their assignment of photo coverage of the PERUMEN official installation from "LIERODE".</p> <p>Also in relation to paragraph 6 of reference A, the "six miles" mentioned therein refers to telephone line distance not line of sight distance.</p> <p>3. The following points are keyed to those questions raised in paragraph 7 of reference A.</p> <ol style="list-style-type: none"> <u>Photographic coverage.</u> A separate project will be prepared to cover LIFEUD-22 and LIFEUD-23. This project will include all activity and expenses connected with photographic coverage of the PERUMEN official installation. <u>LICCOOL.</u> No LICCOOLs are presently active. The Station is considering further operations of this sort and will obtain prior Headquarters approval before any such operations are mounted. <u>LIERODE.</u> At present the LIFEAT/LIERODE coverage is limited to the "MKTAP" operation. LIFEAT Annex IX (with LIFEUD-5, LIFEUD-11 and LIFEUD-15 as basehouse keepers) is employed for this purpose. <u>MKTAP.</u> Following Headquarters suggestion, Station requests Headquarters supply a new cryptonym for this coverage. It is suggested that file number 50-6-3277 be used for this phase of the LIFEAT operation. <u>Consolidated Project.</u> Although a consolidated technical project would at first appear to be a time-saving, hence welcome, simplification, it is believed that in view of the fact that the present MKTAP operation fits properly into the LIFEAT complex, it would perhaps be better to refrain from initiating an umbrella project for all technical activity aimed at the PERUMEN | | |

official installation. Since the premises occupied by LIFEUD-22 and LIFEUD-23 are well situated to serve as an LP for LICOOB type operations, it may prove wise to expand the project to be written for these two agents (see 3 a, above) to include provision for LICOOB LP activities.

EXCERPT FROM WMA-12505, 27 March 1959

OPERATION LIFEAT

On 19 February 1959, the LIFEAT operation (preliminary step) was mounted against the target in Mexico City (see MEXI 3382). This operation has a preliminary move to ascertain the best conditions under which to mount the technical operation cited in MEXI 3097. As of this date, 24 March 1959, the Station contemplates executing the LIFEAT operation in its entirety sometime during the first two weeks in April. The "take" from the LIFEAT aspect of the LIFEAT operation thus far has been scanty and of little operational value, nevertheless, it is believed that this is due chiefly to the absence of key personnel in the target installation.
