MEIORANDUH POR: Chief, SR/CI

SUBJECT : 3-13 May Interrogation of MOSENKO

- 1. Although I have attended all nine (9) sessions in the current phase of MOSEMKO's interrogation, I as yet have been unable to determine the reasons for the interrogation() conduct and manner and the true purpose of the phase itself.
- 2. As the interrogator noted in the beginning, he is to be concerned only with "certain personal matters." The interrogation of NOSENKO along such lines and W.EENKO's responses neither have produced any change in my opinion of NOSENKO nor have appeared to have opened up any new, useful or valuable information to us.
- 3. Perhaps, from the psychologists' point of view, this interrogation has been of some value; but, even if this is so, I cannot see it from a review of his reports. These reports all contain basic errors arising from the psychologist's lack of knowledge of Soviet meality and his lack of experience with the true nature of Soviet man. The psychologist is not prepared to preparly deal with and evaluate NOSELKO because NOSENKO is first, a Russian; second, a Soviet; third, a Communist; and, in addition to all of this, a highly trained intelligence agent.
- A. ROSENKO is one of a kind. It is quite likely that the psychologist never has experienced such a personality before. Then, with the wide difference in their backgrounds and the psychologist's resulting inability to understand NCSENKO's character, it is understandable that he cannot properly judge NOSENKO and his conduct. The most we can know make go on in MOSENKO's case inastronomy are the carefully a neidered epinions of these who

CIA HISTORICAL REVIEW PROGRAM

This document is made available through the declassification efforts and research of John Greenewald, Jr., creator of:

The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA) document clearinghouse in the world. The research efforts here are responsible for the declassification of hundreds of thousands of pages released by the U.S. Government & Military.

Discover the Truth at: http://www.theblackvault.com

have backgrounds more similar to that of MOSENAO and experience with persons of MOSENAO's type. This becomes more and more obvious to me as I hearing the psychologist say, "Well, he is probably telling the truth," when in I have seen clearly that MOSENAO has been lying. There have been many such cases in this EM latest phase of the interrogation.

- 5. As a result of such instances instances of "soft interregation," where MOSENKO's obvious lies have not been challenged MOSENKO can now only be getting the impression that there still is a way out for him. We must remember that MOSENKO came to us prepared only for complete success or failure; he expected that in the case of failure he would be subjected to MOSENKO hard interregation, harsh treatment, strong punishment. Yet he new finds himself in the peculiar position of having FORMACCOMMONATEMENT outwardly failed in his primary assignment, yet being fairly well treated and allowed to continue with his lies and dezinformatsiya despite his detention. He can now only be thinking that there still is some hope for him and for his mission.
- 6. In his report on the 3 May session (first session), the dector wrote: "... After apologizing for having stemach trouble he became most receptive and even eager to cooperate. In general his manner during the interview remained relaxed, spentaneous and relevant.... As the interview progressed it was apparent to me that he was getting considerable psychological relief from the interview. At the time he left, he actually told me goodbye...."

 This is typical of many such statements are incidents which are my reasons for asking do we really need this kind of interrogation? Progression of the report itself we must ask if we really need to concern our selves with giving MOSEREO "psychological relief." If not and since it is obvious we are getting nothing else out of it then this type of

interrogation should be abandened.

- 7. Elsewhere the frychologist writes that "the picutre that HOSENKO painted of his father was that of a hard working man.... Accredited as a worker at 13 or 14.... He graduated from the institute the year after MOSENKO was born in 1928. MOSENKO tells of being teld that his father would work at home on his studies while helding MOSENKO acress his knees to quiet him when he would cry." We knew all of this except the fact that KOSENKO held his son acress his knees from the Seviet newspaper, Prayda, in a August 1956; and what father has not held his crying child acress his knees to confort him?
- 8. It is certain that REM our MCSENKO did have a father, and them it is quite likely that this father held him across his kneed. Yet this does not answer the real question is our MCSENKO's father Ivan Isiderevich MCSENKO?
- 9. MOSENKO teld us in this first seesien that his father studied in
 the Rabfak and the institute while working full-time suring the years 1923-28.
 The dector was quite impressed with MOSENKO's statements on this. Yet Pravia noted only the studies of (again on 3 August 1956, in MOSENKO's obituary) mainty insta / MOSENKO, Ivan
 if had
 Isiderevich; Amelenai (1926 MOSENKO, Ivan Isiderevich, also/been working at the
 time he was studying, Pravia would have mentioned this without fail, because
 it was that much more to MOSENKO's credit. Further, the 3 August 1956 Pravia clearly stated that after graduation from the institute, MOSENKO, I. I., was sent to MOM a ship-building plant.
- 10. In the same session, MOSENKO stated that at some point in 1922 his
 (3 Aug 56)
 father was admitted to the Party. Pravial states that MOSENKO I. I. entered the
 Party in 1925. According to MOSENKO his family moved to Leningrad early in 1934.

 Pravia (3 Aug 56) states that they moved in 1935.

- 11. If EDSERKO does not remember what his father did how he worked and studied, when the family neved, when he was admitted to the CPSU why does no not say so? Why is he apparently guessing at these things? Also, why can't he remember these things when he can remember being held across his father's knees?
- 12. The psychologists report includes and assessment of MOSENKO's nother:

 "An hypothesis that could be made based on the description of the mother, would be that she would have difficulty adjusting away from Mikelayev where she had been bern and where she could depend on her rather." Of whom is this not true?

 Who does not experience some difficulty in nowing away from familiar neighborhoods and friends? Do we really need this assessment of MOSENKO's nothers emotions of 35 years ago? Do we need it badly enough to spend this much time and effort getting it?
- 13. The psychologist's report continues: "... His (NCSENKO's) mether continued to get support from her father, and they apparently lived better (or beyond their means) in Leningrad." So what? Is the point that we should thank NOSENKO's grandmether for helping NCSENKO grow and come to us? NASK If not, then again what is the point? Why do we need this?
- 14. It is my epinion that the type MEMM and line of questioning used

 MY of present in this phase of MESENGO's interregation should be abandoned;

 we must drop this policy of lotting MESENGO ramble on freely and uninterruptedly—

 about the unimportant details of his youth. Instead, we should begin now

 to press MESENGO and question him in detail about such things as:
- a. His father's life (we still cannot be certain that MCSENAO's father was the I. I. MCSENAO); for example, MCSENAO's father's service in ChON (& what credit was given MCSENAO for this while he was working in State Security); was it even mentioned in his file?);
 - b. His grandfather (maternal); for example, his arrest and douth in

220777

jail, the role this played when MESENKO entered the MGB, the manner in which it was recorded in MCSENKO's file, MOSENKO's questioning in Personnel (identities of Personnel employees included) about this; MOSENKO spoke with some happiness and gratitude of the financial assistance given his family by the grandfather — the KGB would have been most unhappy to learn of this.

15. If ECSENKO were really the person he claims to be he would have speken more precisely of his father's rank (rank given and date received).

According to Pravda, in 1944 ECSENKO's father got the rank of Engineer-Rear Asmiral. MENERCEPANCE The real ECSENKO also should be able to tell us more decorations precisely of the ECTENGERIC given his father. According to Pravda, he was awarded three Orders of Lenin, Order of Eakhimov Pirst Class, three Orders of Red Banner (Laber), Order of Red Star, Order of "Medal of Hener (Znak Pecheta)."

16. Further, in order to be certain that we have the real MOSENAC, we should question him in detail about his father's death and funeral, starting with the illness and the dectors in attendance through the procession from the Hall of Columns to the Kremlin wall. I do not wish to include such detailed questions in this memo, but can decome produce them upon request/phosisms especially those on the funeral procession, having twice been in such procession myself.

17. According to Pravia (5 Aug 56), H. I. BOBROVNIKOV was a member of the funeral cormission and opened the funeral ceremony on Red Square. BOBROVNIKOV at that time was Chairman of the Moscow City Council. During the 13 May 1965 interview, MOSEMKO mentioned a girl friend, Marina, who once worked as secretary to BOBROVNIKOV. If this was the a true statement, then MCSEMGO should be able to tell us much about BOBROVNIKOV; furthermore, when talking about Marina, MCSEMKO should probably have also volunteered the information that "this was the same BOBROVNIKOV who was on the commission for my father's funeral....."

18. 3 May 1965 Interview. Even new we are not certain of the date when the MCSENKO family neved to Leningrad; MCSENKO says it was in 1934, but <u>Pravis</u> reports the move as having been in 1935. It is possible to believe that MCSENKO might have forgetten the date, but we must remember that he associates the move with his level of schooling. That is, MCSENKO says that he moved from the O-class in Mikeleyev in 1934, when he was 6 years eld; he says that in Leningrad he was in the first grade.

a. NOSENKO could promise none of his friends from Rikelayev. It is possible to believe that NOSENKO might have forgetten these friends if he had had no centact with them in later years; yet NOSENKO himself says that he wisited Nikelayev twice after the family had moved from there. Certainly he must have not with some of those friends, and man it is certain also that he would remember those meetings.

b. Although MOSENGO could remember none of his friends from Mikolayev, it is interesting to note, he remembered very well that when his family reveal to Leningrad in 1934 they were met by his father with a "GAZ# automobile."

- . MOSEMAD remembers also that while in Leningrad his family lived
 - (1) Pleshchad Stachek,
 - (2) Griboyedeva Kanal, and
- (3) ENTEROPHEN ulitsa Gorkege. THE But ROSENKO could name no friends or neighbors when he knew well while in Leningrad.
- d. MOSERKO never mentions visiting former friends when visiting former places of residence.
- e. The psychologists may accept these "lapses of memory" as being "just human," but I cannot.
 - 19. 4 May Interview. During this interview, M.SENKO changed his stery

slightly, saying that his family moved to Leningrad in March-April 1935, where he started the first grade (in Spetenber 1935). MOSENEO could not, however, describe the school or name even one of his teachers. When the dector insisted this time that MOSENEO name some friends, he gave the mickname, "Shturm," but failed to give the bey's true name; he also MARCH Even if gave the name, Oleg EXELUX SAFRONOV. Extre accept as a fact that MOSENEO manuality really cannot remember any of his friends MARCHANISM from childhood, we cannot believe that he also has completely forgetten about the naval school and the tekhnikum.

20. General. During these latest sessions, MCSEMEO has been trying very hard to put the record of his schooling in proper order. But in view of what has been stated in the past/himmersess and his present errors, it must be said that he is finding it impossible and he is much not a tall convincing. In my eximien everything he has told us about this, starting from the 1941 period, has been a lie. It is possible that he really was in Knybyshev and Baku for one reason or another, but EMMEM his then description of the circumstances and situations is unbelievable imm and fits no Seviet pattern of life.

21. On 4 May MOSENEO said that while he attended the 585th High School in Mascow, he had two friends — Vladimir KABANOV and Anatoliy TIMAKOV. But these were not friends who also lived on Sarafinevich Street, nor were they children of Seviet high officials. MOSENEO failed to name any friends who were children of high officials, except SABUROV.

22. NOSERIAC's description of his life on Serafirevich Street could never convince me that he ever really lived there. Among the high efficials living on Serafirevich Street, NOSERIO mentioned EMPAM SHVERHIK CLASS.

According to my knowledge, prior to WI II so many other members of the

C. Principal Control of the Control

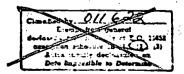

-0.0

Seviet government also were living there (KAGANOVICH, etc.). If NOSERIO is the person he claims to be he should be able freely to name and discuss many persons MAMMODAM from among the first-ranking efficials who lived on Serafinewich Street; not just SHVERHIK (whose address, incidentally, already has been published in <u>The Secret Werld</u>).

- 1. It was the intention of the undersigned to attend every session conducted by the dictor in hope to gain something new and useful for our future interrogations. During these sessions, I managed only to refresh my memory of things MCSENKO had previously said. Nothing new or significant developed during these sessions except for a few miner facts which have no great value. It should be mentioned that many of the facts that MCSENKO stated about his past life were more mixed up than the story he had proviously related.
- 2. It is not the intent of this paper to criticize the work which the doctor has done because the sessions have alreadly taken place and the work is completed. By main objection to this type of interrogation is that the doctor tried to maintain a neutral attitude and never my opinion that challanged any of NGSENKO's statements. It is/the doctor made a mistake in the last session when he told H. SENKO "Y on are HUSENKO." This leads MUSEUMO to believe we accepted his life story and family background, and it would be very hard to question him again on this subject. It is my epinion that we did not have enough information to make a definite e nelusi n that he is MCSEHMO. What HISEMMO teld us could be obtained or learned by another person very well brick on these rat ers. Wes ef the information that MCSENWO gave to us about his parents is stillnot c nvincing to make conclusions . Mest of the questi ns during the recent sessions were of a leading nature and N.SEKKO's answerms appeared to be of the type that the doctor wanted.

APPROVED FOR RELEASE 1994
CIA HISTORICAL REVIEW PROGRAM

SECRET

(·-

In my opinion, MCSEMC did not say more about his father, and in many instance loss, than the newspaper Pravda said in 1956.

3. In the doctor's epinion, MCSENKO mentioned to us quite a few family friends who were around the MCSENKO family and at the first look it is a my opinion, MCSEKO gave to us associated enly names who logically would be associated with MCSENKO or MCSENKO's revealing sather, and nothing familiary about their activities or private lives. Significantly, nost of the information MCSENKO has given us is about people who are mathematical edged or no longer in authority. For example, MALYSHEV, (former deputy chairman of the Council of Ministers, aied); VAKHRUSHEV, (died); SABURCE, (no longer a VIP); KABULOV, (shot); MUZNETSOV, MCCO., (shot); SECHERBAKOV, (died); and otherse.

4. Exentioned a few names who are VIPs new, but did not say anything nteresting about them. For example, he continued SHVERMIK who livesen with the vicha Serificovakaya Street, a fact known to everyone, er/family friendship with KLSYGIN. He know such more about KLSYGIN from PEMACVSKIY.

Lately he mentioned Farshal ZHUKOV's en ghter who he know—we/have a good picture of Rima ZHUKOVA from one of our employees as well as a good description of ZHUKCV's apartment.

5. The only conclusion we can come to from the foregoing is that RUSNERO has been allowed to-may little or nothing about the lives of important.

Soviet officials x, or this name is not RUEEEEO and all he knows is the

SECRET

is the logend which has been provided him or or answers which he could figure out himself.

6. With regard to his sether, he did not mention anything of importance to

us. He did not mention any of his mother's friends among Soviet VIPB, and tried to avoid or change the subject when this matter was brought up.

7. I am not convinced that MCSENKO lived on Serimovicha and Granovskiy Streets because he gave so little information about these areas that it is impossible to judge if he actually lived there. Although he gave correct information about a few VIPs who lived in housesin that area, other details are lacking which would confirm his residence there.

8. MCSENKO's latest information on his educational background is so mixed up and he made so many mistakes regarding Soviet realities that it is impossible to be live him any part of his education.

9. I den't believe any part of MOSENKO's story about his mil tary service.

"The Maval Preparatory School in Baku and Leningrad." According to Soviet regulation, a person was usually called in the army when he is 19 (these called be called at age 18. who have graduated from high school or otherwise have a higher caucation)

MOSENKO index was bern on than 30 October 1927, then he would be 18 years old on 30 October 1945. He could be called into the army at this time, i.e., the fall of 1945, although he should have been 18 by September of that year.

Ordinarily, he would be called to service in 1946. In my epinion, everything MOSENKO said about his military background in any kind of service school prior to the fall of 1945 is a lie. MOSENKO, then did not attend the Higher Maval Schools in Leningrad and Baku because he was too young to attend these

ST.

schools and the schools only accepted students who were ready for regular for acceptance in these schools was military service, and the lowest age/maintal 18 years. Then we still have unanswered questions on where, when, and how MCSEMMO finished high school. MCSEMMO's story that he took some courses in Mescow Evening High Gernyy
School Attached to Annix Institute and his attendance at the Loningrad Shipbuild ng Technicum, I consider as a complete lie, because it does not

legical fit any/pattern of Saviet reality.

10. It is my belief that MESINZO probably never was in actual military the service and definitely did not take/military eath the way he described it, i.e., that he makes took the path at the age of 15 or 16 in Baku. It is not conduct necessary to make any minormanical research since an individual find to be 18 and on active duty in the service in order to be eligible to take the military eath. If we believe that MESENG was admitted to the leningrad Higher Military Preparatory School in 1944 with 9 grades of however, education he would not be admitted to the school because of his age and because he could not take the eath until October 1945.

11. During the last interrogation, there was some confusion on MESENKO's part about his military ranks. And now we have three different stories about his ranks. It. — June 1947

Lt. - spring of 1951.

Sr. Lt — end of 53 or carry 54. He also has stated that he was promoted to Lt. In 1950 hast interview, he stated that he was promoted to Sr Lt in April or May 1953.

-SEGNET

Capt - July 1956

Majer - Aug/Sept 1959

ablas

He new states that he never was a major.

Lt Col-May 1963

He said his

Promotion had to be approved by the Contral Committee because of his youth. These stories about his military ranks should not be taken should be seriously and/considered as a complete lie.

SCI'B POINTS FROM THE DOCTUR'S INTERVIEW

- 1. NOSERKCIBE stated (7 May 1965) that he took the cath in Baku in 1943 when he was 15 years old, but he did not remember how he enrolled in the Baku school. In the same meeting, he stated that while he was in the Baku school he was komindir otdeleniya. Also in the same interview he stated that he was in the Moskovskiy Flotskiy Ekipazh. It should be said that the Moskovskiy Flotskiy Ekipazh was only for naval persennel who were called in the regular naval service. All of this should be considered as lie.
- 2. On 10 May 1965, MCSEME stated that scrowhere he was arrested when he was 16 years eld and was max put under home arrest. If this indicate incident really took place, it is more likely that pape helped him to get out of the arrest or it is possible to think that after this arrest for some crime unknown to us he was put in jail and then in a concentration or labor camp. This is why MCSEMEO tells us a story that in 1944, in the fall, he was working for two or three months in the forest, where he get sick and conditions were very bad. As MCSEMEO described it, the c nditions were rore ikix like a labor camp than a regular military unit.

-SFGRET---

the naval preparatory school of Frunze in 1944 but he didn't start any studies until Nevember or December 1944 because the whole school was working in the ferest. Then in February or Yarch 1945, the shooting accident teek place and he spent some time in the hospital and in May he enrelled in a shipbuilding techicum. MOSENKO tried to make us believe that while he was in the naval preparatory school he studied lith grade subjects, but as we can see, in actual fact, he did not study anything because he had no time. Laters he stated that when he enrelled and in the shipbuilding technicum in May, the next menth he gammuated and received his certificate as if he graduated from a high school, and got the right to ge to a higher institution. Only a crazy person could believe this story.

A. During all the interrogations, we never got a clear picture internal how he received his first/passport in Leningrad and how he received his first military ticket. If he really was denshized and put in the meserve it should take place somethere later than October 1945 when he became 18 years eld. Definitely there will be no talk about any military ticket before you reach 18 years old. And more likely at that time he should have been 19 years eld to have been called into the service or posted to the reserve. It should be noted here if NESKERO really was in the naval preparatory school in 1944 and 1945 and received his military ticket in 1945 then he definitely should be two years elder than he claims.

SFORFT

Cn 5 Fay , NOSENKO named more friends. He mentioned again SABULAV's sons. One of them killed his wife (Valya Yefrimova), the daughter of do uty minister YEFRIMAY). He killed her because he found her in bed with another man. Deputy Minister V. V. YEFRINEV was deputy to M. SENEC's father. He was at his funeral and delivered a speech in Red Square during the funeral ceremony. It was noticable that therefore because when we questioned h.m about friends he always mentioned SABURGV MUSEURO only mentioned YEFR. MCV by name and did not give a y details. If N SENKO is the person is the person he is supposed to be, he would known much more about the life and background of the deputy to his father. And here ag ain we have an example of a person who is monthly od who is no lenger a VIP 6. On 6 May NOSENKO told us stories about the eldest sen of SABUROV who was married the daughter of the forrer Minister of Railroads KOVALLY . It should be noted here that the full story of KCVALEV was published in my book The Secret World. KCVALEV was punished and lost his V.P status in 1950.

7. On 21 May, in answering the dector's questies about his first work in the KGB, MKSENKO told us a story h w he received an order to write a statement to arrest a Soviet citizen who was connected with foreigners. (MAXIMAX The Soviet citizen wrote a letter to the American Embassy.) According to MKSEKO he rejected this type of work although there was EERIYA's resolution for felt arrest (Russian work is respectat!). Further, MKSENKO explained that the man was not guilty. The point of this story was to prove that he was working in the SCD.

8. On 20 May RUSERKO ense again rendicated that the working hours of the KGB were from 10:30 in the morning until 1 o'clock in the morning, with a

The state of the s

break between 5 and 8 in the even ng. An I already said before Mescew Headquarters until later July or August 1953 working hours were from 11 AM to 12 PM with a reak from 5 to 8 in the evening. In oblast, KCB, inc using Mescew city, working hours were from 10:30 in the remning to 1 elected in the merning. Secondary at the end of July and the beginning of August 1953, working hours were changed and were from 9 AM to 6 PM with a lunch braix break of 1/2 to 1 hour taken between the hours of 1 PM to 3 PMM for all the effices of the KCB including heasquarters and the oblast.

Then it is possible to think that haybee senewhere in bescew oblast, Leningrad, or some other city, EC ELKO used to work as a case efficer or was closely connected with the oblast. KCB. That is where he learned the working hours. That is why he race the mistake af regarding the working hours in headquarters.

9. When the decret is writing in the summary of MCSENKO's psychological assessment the called him a bright sociepath. Maybe he is, but in my epinion he is a wory well trained agent with great ingenuity and insignams preparation. A absolutely disagree with the dector's statement that "He has been essentially and accurate in general if not always truthful in detail." In one point it is possible to agree with the dector that MCSENKO does not present to us the complete legend. In my epinion, MCSENKO developed his own story or legend himself in response to leading questions, especially about his early life and schooling up to 1953. Amfrom 1952-1953 and on, up to his defection, we should believe that it was a legend developed mostly by the KGB, of course, with his help.

SEC

SUGCESTICES.

1. It is suggested that I participate in the next hastile, needling interrogation. It would be helpful for no to have a disguse during the next interregation, although he will probably know who I am regardless of tike any disguise I use. It is also suggested that I interregate him alone in theinterregation reem , although I prefer that semeene be present in the room . But if I am aloneit will give me greater authority in MISENKO's eyes, and this may be a psychological factor working to my benefit. But if MCSTERO is taken to another place, then it is possible to interrogate him under KRSR flag to represent myself as a member of KESR in asked CiA authorities tax for a long time to talk to MCSEMAC. In the event of my participation in the interrogation to avoid mistakes and misunderstandings, the interregation should be held in Russian. It is not possible to make the interregation as hostile as it night be and to needle him if the interrogati m is held in English, as NVSKEKO does not understand strong words in English as well as he does in Russian. Larking the interregation I will not speak fast an error to rake it uncerstandable. It is understood that I am going to be correct, but not polite. I would try to avoid getting into any arguments with ECSENKO In case of arguments, I would ask him to be seated and to answer the questions. In the event he recognizes and tells we who I am, it is possible to give two answers: 1. I am not he but he is coming soon to talk to you, and you are mistaken. 2. Yes, I am D and you are going to give me proof that you are H. You have to give re proof that you did work for the KGB.

SECRET

-

In case of my participation, I would like to be able to use all the information that HUSENKO has previously told us. In utilizing this information, I would like to have a free hand to press him on certain points which I feel would be of value to use in gaining a confession from him. I need permission to use the names of Eagley, Big George, and Murphy, of course, only in the proper way and when it is necessary. The use of the changes in the Seviet government could be desscussed having in mind thouse those events in at the proper time when it is an arent that it will help him to c nfees (the use of only the fall of KHRUNICHEV without revealing the rise of SHELE IH and SECICHASTHY.) It could be used in vari us ways, for example, a newspaper on the tache table with anly the headline showing. He could be allawed to see the paper inadvertently and we could see what his reaction is. Or, the inferration could be brought out at a point in the interrogation when we are srying to attess that he must confess since we know he is telling lies, and furthermers, his bosses are no longer in authority in the S. viet Union and all is lost for him anyhow.

- 2. During the interregation stress should constantly be given to the fact that MCSENGO is being used as a tool of the KGB without proper training of American realities, and that his missi n was doomed from the start because of this.
- 3. If it is decided to give him some drugs, litshould be given prior to the hestile interrogation, so that we can use any 68 the information gained from the use of these drugs against him. The first matter which should be utradetermined if drugs are used in whether he is MOENKO or not.

SECRET

4. I would not heat tate to continue the interrogations to the point where perhaps

ECSERGO would be extremely tired and proposed less able to resist heatile enough questioning. If there is not proposed personnel for extended periods of interrogation, then he should be left in the interrogation room during breaks in the interrogation.

VULNERABLE EXXESSED AREAS TO BE EX LOITED DURING THE MEXT MOSTICE INTERCORTICE

1. Everything about MCSENIO's education starting from Leningred elementary school, move to Moscow, Moscow schooling, should be examined. And special attention should be devoted to the schools he attended in September 1941. Kubyshov, Haku, Foscov, Leningrad, and back to Foscov again. During the interregation of this period, we should challenge MCSENKO by the facts that he could not be at any military school prior to the fall of 1945. Then we do not believe his story. This in erregation should include detailed questioning about his travel to Kubyuhev, Baku, to find out where he really was at that period. At the same time , ECSEECO should be questioned about where his parents lived from October 1941 thru 1942. Also he should be questioned about h.s first passport which he is supposed to receive not earlier than thronk Bovenber 1943 and not lat r than the beginning of 1944. The same can be said about his military ticket, i.e., when and hew he received his first military ticket, through what military commissariat, because he could not receive his military ticket earlier than Ecvenber 1945. His story that he received his military ticket in the surver of 1945 is false. What redical commission kex was be examined by before he got his filitary ticket should be ascertained. It is impossible that BCSENIO was on active military service prior to 1945 including any military schools because of his He should have been called to active duty in the fall of 1945 er fore

likely in 1946. If he was posted in active reserve in 1945 or 1946 then the question is why he was not called into the army.

Together with this gies the question of M SEESO's education x in the Institute of International Relations. The story he told us is unbelievable. First he states that it was a four year course and that he graduated in 1949 and later on he changed hissbory and Eaid that It was a five year course and that he graduated in 1950.

2. MOSENKO's first carriage to TELECIN's daughter and diverce. On this subject, MCSEMED should be questioned about his registration of the marriage, passports, what district was the marriage registered in , about branks apartments on the First Feshchanskaya Street, including his military status at this time, what kind of military ticket he had, when it was registered. Fore définite questions should be asked about the divorce announcement in the newspapers and full procedure of the divorce including the two court sessions (district and eblast' courts). Alirany - the exact amount of alimony, reminding to him that carillier he told us that he beid to his first wife 150,000 rubles form his money which he carned serving in the Far East. According to the latest MCSEME statements he spent in the Far East less than 10 months. If this is the case, then MCSERNO 33333 received more than 5,0.0 reubles a routh. To rake during the 20 months the ICC,000 rubles Even if ECSELEO was in the Par East and pecoived there a double salarly as a jr. lt. the first year of service in the GRU, he could not make more than 3,000 rubles a menth (I gave here the highest possible salarly for a junior officer)

3. Both of the subjects mentioned above should be much substantial investigated

-SECRET

along with the matter of where NISEREO was living at that time, aying special autention to Serifemicha, Granevskege and First Meshchanskaya Streets, keeping in mind that these subjects will really thew if he is MOSENKO. If we do not get proper answeres on his first two subjects, if he continues to lie or give unsatisfactory answers, then in my opinion it is not necessary to question him about his study in the foreight relations institute. If the answers are satisfactory or more realistic then we would move to the Institute of International Relations. 4. NOSEYKO's Entry to the KCB. Because we have A or 5 different dates on his entry into the KGB I think it would be a good idea to start quustioning him from the point when he said that once prior to 1952 he had complete interview with the KGB payaramanatation representative about his employment in the KCB, but he rejected their proposal because he did not like it. From this point we would go on from the beginning somewhere in 1952 when he first talked with KABULOV and so on. And he should be challenged all the time that EGB did not work he way he described to us. Then somewhere during the interrogation he should be reminded or asked questions could a person be in KGB service if be:XXX

an recomend to the KGB by a person who was shot to death as an energy of the people.

b. whose jother's background is noble (avoryan), and whose graddiathor was A Trotskiyite and who was arrested and died in jail.

c. whose fither of first wife was arrested and was in fail the day he entered the AGB.

SEC

~SECRET

- the guilty and question about he was his immerality was discussed in the party commission of the CPSU
- e. who entered the KCEX when he was already overage member of the Komsemel without any desire to become XXX a newber of the Communist Party
- f. whould a person with such background mentioned above be taken to work in the SCD American Department
- g. who wax lest his Komsemel nembership because of his misuse of operational documents and immorality.
 - h. who was arrested for 15 days for the reasons centiond above.
 - i. who was without Komsomel and party membership for 2 years.
- j. who rejected the order of the Minister to write a statement for arrest in the wourse of his work .

 etc.

It is very hard now to develop questions about h s entry into the ECB but he should be challenged all the time about his answers.

- 5. I did not mention about his being in the Far East and how he was transferred from GRU to KGB. The line of questions on this matter would be depend or connected whith answerms the about his education and how he entered the KGB. Questions about his traff transfer from the GRU to the KGB could be put together when we will question him about his entry into the KGB, his personal file, and military ranks.
- 6. I would definitely utilize and show to him the number 7, what is connected with it, anifust ask him for an explanation.
- 7. MCCEMEO's trip to Corkly in search of CHEREPAREV. This question should

SECTI

SECRET-

stabted from the point where he first heard of CHEREPANCY's defection from Moscow, NOSENKO's trip to Corkly and how long he studied the CHEREPANCY papers. Here all the NOSENKO documents should be an hand. 8. HOSEHKO's operational and social activities on Red Square during the holi ays and father's funeral also where NCSENKO's presence at the Kremlin should be closely investigated because it is my belief hervas often in Red Square as he claimed. If he was there, it was only once or twice and it would be easy to mix him up about these matters. Questions on this subject could be developed according to his answers. 9. I to 1d like to take MCSEMMO on a trip from Kurskiy Station in Moscow to his apartment on Narodnaya Streetalong Chkalovskaya Street and Taganka . Also on a trip along Dzorzhinskiy StreetSretchka Street and First Meshchanskaya Street to his apartment building where he lived with his first wife. This is necessary to be sure that he real y lived in these places. I still do not believe that he really lived at these addresses, except for the fact that he may have laved nearby in sufehouses. 10. Interregation on operational questions such as his work with agents

Note: I have no special suggestions how to exploit ECSEECO's information, it depends on the next stage of the interrogation, but I am against turning him back to the Soviets, whether he confesses of not.

We have have to everything in our power to take him confess in order to win this big game.

and his use of safehouse, etc. could be held later. It depends how the

presents interrogation goes.

If we publish his story even with our changes without his confession

From my can experience in the deviet security services I

know that the Soviets will not register the name of the father if there has not been a formal marriage - even if the identity of the common-law father is known.

Birth Certificates - Actually three copies of Marina's birth certificates are furnished. ITEM #340 is a copy of her birth certificate issued on 19 July 1961, in Arkhangelsk. The other two birth certificates are contained in ITEMS 262-270. These are notarized copies of ITEM #340, notarized in MINNE. One of these later two birth certificates was procured on 4 Aug. 1961 and the second was obtained on 8 Aug. 1961. Two different notaries notarized these two birth certificates - both obtained in Minne within a four day period. By the hand-triling it is obvious that the same person filled out the MINNE tieth marbificates - only the notary's signatures

the following questions should be asked of Marinat

- a) The origin of her NIKOLAYEVEA patronymic.
- b) Shut happened to the original of her birth certificate which she must have had in order to enter primary school, pharmacy school, and to get her presport when she reached the age of 16 in 1257.
- c) Why did she request a second copy, marked "TOUTORNAYA", of her birth certificate ITEM #349 from ARMHANGELSKY (** -
- d) ITEM #340 was issued in Arkhangelsk about a 1000 kilometers from MINSK. Did she travel there personally to apply for her birth certificate? Did she write for it. Tas is sent to her through the mail or did

she pick it up at the Binsk militia headquarters.

What reason did she give the ARKHANGELSE militia

authorities for requesting the second copy of her birth certificate. Why was she applying for this birth certificate on 19 July 1961.

e) The ITEM #340 birth certificate is supposed to be an exact duplicate of the birth certificate issued after her birth. This normally is issued several days after birth because parents do not usually rush down to register the birth of a child on the day of the birth not even in the USSR. ITEM #340 shows that MARINA's birth was registered on 14 Aug. 1941 and that she was bord on 17 July 1941. Barton applied for a copy of this certificate on 19 July 1961. For some reason the 9 in 19 July 1961, is marked over and is an obvious change of the figure 4 to a 9 in the following way 1. An examination of the original ill better shor if this was a marked over delt ----

berate change. Such a change could only be signifi-

issued in ARKHANGELSK. Personal document conscious Soviets would note such an obvious change. Certainly if she applied for the two notacized copies of her birth certificate using ITEM #340 as a basis for these new copies she would be closely questioned and it is more than likely that notarized copies would not be issued on a marked over original. Now it might be possible that the first notary would not have noticed the marked over original. However, a necond notarized birth certificate was insued in Minsk by still another notary.

4. Vancing indicate Control of the India (18-270)

In connection with discussion of Lamina OSTALDY, date

of birdy, it is methodile to note that this date is

given as "17/7/71", on her vancing on certificate. This

indicates that 17 only is the date interest to use

as a birthinte. The formion as actural errors of

using the community one == 1000 == in the date, however,

dues nothing to dispet the confusion of the year of her

birth.

a) West distails might be a feed about the professione followed in accomplishing the vaccinations and in obtaining the contification. It appears that at least Tour company tore involved in the completion of each contificate of a main signed her same to the contificate of a main signed her same to

a) Pertificate of revocatination (for Marian), issued by the Midsk (exact designation unclear in copy) Solycliair No. 3, 18 May 1961. Again. (see paragraph 9 b) above), the date does not correspond exactly. to the date of vaccination (16 May) given in Marina's International Contificate. Here also it is unlikely that an official certifying a vaccination given by someone else at an earlier date would have mistaken the date as given on the origival certificate. Then if the certifying ship's physician merely accepted the OSMAID's word for the date of the vaccinations, why did he not so indicate in the International Certificates? Now did it happen that he also accepted their word for Marina's revaccination, on a second (16 May) date? Why was he given a second date? Surely even if the Offsilb's had been unable to remember the exact date. They would have remembered that the vaccinations were accomplished on the same day. Then, why did Marina not return to her former place of employment (the Combined Third Clinical Hospital), for the vaccinations? Remembering that, according to the

the initialist the content day, and that there are get a true for the content day, and that there are get a true for it is quantille to believe that Marian had a for the for the children's hospital had then went to Polycladic No. If because it was after to that hospital. It is also possible that Marian has instructed to have the vaccinations done only at these piaces. The hy whom had under what circumstances have there instructions i made. The other similar are inquiry multiple in qualities in during section while multiple materials in contents multipled at the caseers for the question, posed and others indicated be clarified to the greatest detail.

 There How was she able to do this. That was her
 total income?
- first Tob after graduation that made her quit after the day. It is one thing not common, but not un-

The non-party with to income and then quit after one day.

Therefore or not these exists a right to a 3-day trial periodence as farma mestioned, it is almost topostible for been to save quit and gine on vacation so easily. First, she would have been in trouble immediately with the Konsomer and her trade union.

Second she has said that she spent little time in the adeptather's bone taking her meals outside, because of standard relations. For, there she stayed, apparently with to income - no may and no rore pensions, either from school or government. Then, her was she able to do this?

said that she lived with an aunt and uncle TRESASOV her mother's brother and his wife. Waring has said
nothin, more in these interviews about the DERLOV's,
whom she above mentioned in her autobiography (see
paragraph if a CD above). Maring should be asked
about books connections with both the PRESAMOV's
and the BERIOV's: particularly with the latter:
less has mentioned other relatives in his drary and
alliess book, but never the PEPLOV's (in this case,
the amestion should be addressed in just that way ---

(a) through reasons for refusing to identify various figures from her past -- former boyfriends, an marriances and even the woman who was her sugervitor in the pharmaceutical warehouse, - and for giving such vague answers to some questions regarding her bookground and her life with Lee must be ascertained. her actitude and conduct in those interviews obviousivers other than that which can properly be expectelf of the person she represents herself to be. Her testimony regarding her social life in Lenlagrad and Mirst prior to marriage is most suspicious. Her statement's regarding the attitude of her aunt and uncle -an AVD colonel or lieutemant colonel - to bee and to her marriage to an American, taken as part of her. strey of being "just a plain ordinary girl in love", are just unbelievable. Inother example of this strange combination of refunal to give names and outright doparture from the realities of Soviet life is to be found in Marina's story of her first meetings with two usamb....she refuses to name mutual acquaintarrow present at these meetings and tell of returning to her hors with this American to whom the given ber phone number, the those number of an AVD officer. And tite WD officer poses no objections to her dater most town, even marriage, with the American !

(at a Marian's explanation of the renorm for antition to filling as quite and onvincing. That difficulty with the rame. Lee, the divides next chairs would geard have been "Lee", or even "Aleksey", in proference in Tables. She should be questioned further about this.

5 B A 7 *

inow nowe than she has total include the reason for see's employment in Minsk, wather than sociew and the reason for the difference between Lee's high pay for his unstilled labor and fer low salary. Tith regard to the latter, even fill the only reason was just as Lee himself presented it. Le received a subsidy grant through the Red Cross -- with no other considerations to be made, certainly Marina would have known of this, and, waters there were something sensitive about the subject, should not be relactant to discusse it.

Yet, her testiment would indicate the known little or nothing of these things. Why?

her hashand's nature? The ina remarked that...he did not discuss political with her or, to her knowledge with any other as or lates (see page 16.)" It is not remarkable that an ordinary man-on-the-street American would not discuss politics to a noticeable extent. But

It is deviced that the Countries of the Dalis Techer, copiess.

It is deviced that the Countries of the defend fide!

Costrol study the Pussian Leaguage and prepare to recovere their citizenship and go to the USUR? How many return to the US to proclaim things Marxist views and hand out pro-Castro pamphlets on street corners.

And to assassinate the President of the US? And how was such men, usually most outstanding for their verification, are able to keep noticeably sitent on political subjects even before their gives, while spending two or three years in their "political homeland". Marina must be questioned closely about these things, just as she must be questioned closely in order to identify these "other associates" with whom Lee OSWALD did not discuss politics.

- KHAR'KOV of which we would know nothing were it not for the small collection of letters written to her during her stay there. Why did she make no mention of this trip, yet talk freely of her vacation trips to Leningrad, etc. What was the purpose of the trip? What other details (length) place of residence, etc.) can she other about it.
- 13. In bulet as indicated in the foregoing, it fis the belief of the undersigned, based on the materials made

available in order to clarify not story and her cole in the actions of her husband following their return to the US.

HEMORANDUM OF TRANSMITTAL

TO : Chief, SB/CI/K

00

ITEM: AEDONOR Interrogation Transcripts

- 1. Submitted herewith, as requested, are AEDIPPER/20's verbatim transcripts (15; English-language) of his interrogation of AEDCNOR, 26 July-13 August 1935; the first five (5) of these transcripts are accompanied by the corresponding verbatim Russian-language transcripts (Russian-language transcripts for Reels #8 6 and 7 are ready for typing, if required); an index to the names mentioned in all of the transcripts also is submitted. Further, the original English-language transcripts (15), with corrections, are being returned to Headquarters with this memo; the fifteen (15) corresponding tape recordings already have been returned.
- 2. With regard to the remainder of the original Headquarters request, it has been agreed that AEDIPPER/20's transcripts are self-explanatory at most points and that his background comments on the course and content of the interrogation will be reserved, to be addressed to any future specific questions and requirements generated in Headquarters review of those transcripts.
- 3. It should be noted here, however in view of part three (3) of Headquarters' request that AEDIPPER/20 did not use false or unfounded statements for any reason in any of the interrogation sessions; it is believed possible that ideas to the contrary may have arisen during review of the original transcripts, which included many instances of improper interpretation of the Russian "double negative". Reviewing the interrogation, AEDIPPER/20 noted only two (2) points at which he did not have a basis in detailed personal knowledge (to 1954) or specific documents for statements made to AEDINGS:
- a. HRPs (Norskoy Eazvedyvatel'nyy Punkt Navy Intelligence

 Point) AEDIPPER/20 stated that at the time AEDONOR was assigned to

 duty with an MRP on the Baltic other MRPs also were in operation in

 that area; in fact, although AEDIPPER/20 knows that other MRPs were

 in operation there, he has no knowledge of their specific designations.

 APPROVED FOR RELEASE 1994

 CIA HISTORICAL REVIEW PROGRAM

- b. Letter on KRUCLOV's Removal AZDIPPER/20's statement that a letter explaining KRUCLOV's removal had been circulated within State Security was based upon personal knowledge, not of the fact itself, but of the State Security practice always of circulating such letters following the removal of other State Security chiefs, such as ADAKUMOV and RERIYA.
- 4. AEDIPPER/20's English-language transcripts employ the following key (not repeated in the transcripts):
 - a. A AEDIPPER/20;
 - b. B AEDONOR;
 - c. C T. H. BAGLEY (in the transcript of Reel # 15 only);
- d. () Single sets of parentheses enclose transliterations
 or, ir case of
- e. (2G), (XG), (XM) -- indicate a number of missing or garbled or otherwise "unreadable" words:
- f. (()) Double sets of parentheses enclose transcriber/
 translator remarks, explanations, etc., in addition to/not part of
 interrogation content;
 - g. (? ?) Queried transcriptions are thus indicated;
- h. Ellipses indicate either a brief pause in speech or an unfinished sentence, not caitted or "unreadable" phrases;
- i. ___ Underlines, except in cases of book and periodical titles, indicate emphasis in speech.
- however, there has been some "amelioration" of the few obscenities found therein.
