#### LIVER FUNCTION TESTS

On 24 October 1968, I saw Dr. Daly of the Bio-chemistry Laboratory of West London Hospital for liver function tests. My family doctor, Dr. Hodes, sent me to Daly as a private patient, as British practice is not to take these tests unless the patient's condition seems to be worsening. My doctor thought I showed no signs of a recurrence of hepatitis and the normal practice would have been, at most, for me to have been examined by the specialist at the hospital, who might then decide to ask for the tests.

Daly said that all required tests, except the B.S.P., would be done. He said he thought the B.S.P. unnecessary unless the others indicated negative factors. In which case, he said he would ask me to come in again for that test.

Daly will send me the results of the tests and his bill c/o American Express, Rome, within a week.

ACTION REQUIRED - REFERENCES

- 1. After considering several alternatives and given QRPHONE/1's lack of financial forward planning, LCPIPIT believes that it would be beneficial and advantageous for WOFIRM to offer to subsidize a portion of an overt life insurance program designed to give him both life insurance and a cash value toward retirement. We have discussed this with QRPHONE/1 and he has agreed to the desirability of such a program. He is willing to participate in such an arrangement and has undertaken to explore the possibilities available to him. We are forwarding under separate cover a copy of several proposals which he has received from the local representative of a reputable WOLADY insurance firm.
- 2. LCPIPIT requests authority to subsidize up to 1/2 of the cost of a life insurance program for QRPHONE/1. (This WOFIRM portion not to exceed \$50 per month.) From an administration standpoint this would merely take the form of an increased monthly payment and we would take the necessary steps to verify that the funds were indeed being devoted to their designated purpose.

2. In terms of our operational utilization of QRPHONE/1 at this time. while they reserve finite comment until all the returns (per above) are in, the Medical Staff did stress the paramount importance proper rest and of not overtaxing the strength of the agent, coupled with his strict adherence to regular, warm, balanced meals in accordance with the dietary restrictions usually imposed, and complete absence of alcohol, in order to prevent a relapso. So long as these caveats are adhered to, however, there is no reason why he could not make some more short trips during the next few months, if necessary. However, since he also has an office to set up and we would like him to concentrate on the Kambona offer, perhaps it would be a good idea to keep those trips to a minimum for the time being.

3. The Medical Staff will be glad to review any further chemical tests per para, I above suggestions, or any others which his doctor may have already run.

1. At their meeting on 4 September QRPHONE/1 submitted a report to RODIGAST on his hospitalization for hepatitis. Attached to his report is a copy of this medical record with results of blood and urine analyses written in Serbo-Croatian. We are forwarding a copy of the report under separate cover for evaluation by the Medical Staff. We are interested in having as thorough as possible an evaluation made of QRPHONE/1's illness in order that we may assure ourselves of his condition and the degree to which he ought to be active in the forthcoming months. We will appreciate it if Headquarters will pursue this matter with the Medical Staff and advise us of its findings and recommendations.

2. Also forwarded under separate cover is a memorandum prepared from RODIGAST's notes which elaborates upon QRPHONE/1's symptoms.

Hepatitis was diagnosed by a doctor in Komiza, Vis, where my family had been holidaying since the beginning of July, and I was hospitalized in the isolation section of Split Hospital (there is no hospital on Vis) on the 7th of August.

My liver was swollen by one finger and blood and urine analysis indicated a fairly severe infection. Treatment consisted of terramycin and cortisone therapy, with massive doses of vitamins.

I was put on a fat-free diet, which I have been told to follow for at least six months. Naturally, no alcohol.

On 20 August, I was released from the hospital, mainly because I was pestering the doctors to let me go. \*\* was told to have \*\* "absolute rest\* for four to six weeks and to have another blood test within several weeks.

(Attached is the Yugoslav doctor's description of my case and treatment, with results of all blood and urine analyses. It is written greating in Serbo-Croatian.)

#### REVISED MEMORANDUM OF ORAL COMMITMENT

- 1. QRPHONE/1 collaborates with WOFIRM as a Field Agent who provides certain services of a confidential nature. He has received a Provisional Operational Approval, dated 22 MAY 66. Financial aspects of his activity are charged to approved Project ORPHONE.
- 2. QRPHONE/1's employment by WOFIRM, which began 1 June 1965, was originally formalized by a Letter of Agreement for a period of three months, replaced by a Memorandum of Oral Commitment dated 1 September 1965. Under this MOC, which remains in effect (as amended) since that date, QRPHONE/1's employment continues on a month-to-month basis. It can be terminated by either party on a 30-day notice.
  - 3. QRPHONE/1 receives the following financial entitlements:
    - "tax-free" income of \$800 per month (this figure effective 1 July 1967).

      NOTE: The actual breakdown of QRPHONE/1's finances as carried on WOFIRM's books is \$800 monthly salary and \$70 per month tax supplement withheld at Head-quarters to discharge QRPHONE/1's WOLADY tax obligation. These taxes are remitted through the Covert Tax Committee. This procedure was devised to honor the original "tax free" commitment made at the time of his recruitment and at the same time to fulfill the requirement that all WOLADY citizens pay taxes on funds received from LNFORT.
    - b. Reimbursement for operational expenses and travel unless these are paid by other sources in which case WOFIRM will offset such outside reimbursement against WOFIRM financial obligations to QRPHONE/1. Since security considerations preclude processing of detailed accountings for miscellaneous operational expenses, and as an added inducement to QRPHONE/1 in connection with his obtaining certain confidential information of interest to WOFIRM, a small operational payment, as authorized by Chief, LCPIPIT will be made to QRPHONE/1 for each day during which he is required to be absent from his home on confidential business.

NOTE: Write-off of the funds passed to QRPHONE/1 is to be effected on the basis of the procedure approved by Chief, LCPIPIT and COS/London, a copy of which is attached. This procedure is authorized in view of the security considerations applicable to QRPHONE/1 and the need to limit the knowledge of this operation within WOMACE.

c. QRPHONE/1 is authorized to receive a non-accountable office allowance of \$100 per month.

SECRETAVIAT

15.

- QRPHONE/1 will be compensated by WOFIRM in an amount mutually agreed upon for the relocation of himself and his family to a new residence if such relocation is considered desirable by him and WOFIRM. NOTE: This provision was included in ORPHONE/1's original Lotter of Agreement and was retained in this MOC since it may be operationally desirable for QRPHONE/1 to accept employment with a target organization based elsewhere.
- WOFIRM has arranged for a portion of QRPHONE/1's financial entitlements to be funded to him by QRPURE, which has also agreed to repatriate QRPHONE/1 to WOLADY. This has been done for operational reasons to enable QRPHONE/1 to qualify for foreign residence. Should QRPURE be obliged to honor this commitment. WOFIRM will quarantee this QRPURE commitment and will reimburse QRPURE for any costs incurred.
- 6. LCPIPIT is authorized to approve purchase by QRPHONE/1 of certain items of operational equipment which are to be nonaccountable and which shall be charged against the operational expense category of approved Project QRPHONE.
- 7. QRPHONE/1 signed a separate Secrecy Agreement (in true name) at the time of his original recruitment. He is aware that its provisions are still in effect.
- ORPHONE/1 is aware that he may be required, from time to time, to undertake an SGSWIRL.
- 9. QRPHONE/1 is aware of all provisions of the Memorandum of Oral Commitment with the exceptions of paragraph 6, which describes an internal WOFIRM procedure; certain aspects of paragraph 3a--specifically that WOFIRM is paying LNFORT taxes in his behalf; and certain aspects of paragraph 3b--specifically the procedure for write-off of funds since this is an internal WOFIRM procedure.

### BRITISH VISA GRANTED

On 10 April 68, I was finally granted a British visa, without restrictions, valid until 15 Feb. 1969. No questions were asked when I went to the Home Office to get the visa.

My Home Office file number is: G 110880.

Prom the Metropolitan Police, I received Aliens Registration Certifficate E 662567, which lists me as correspondent for Negro Fress International.

I was told by the police that I could apply within a year to have the registration requirement waivered because I am married to a British subject. Moreover, I am face to take any sort of employment or open a business without restriction; or having to request permission from the ministry of Labour.

### INLAND REVENUE MONOLOGUE (required)

Until April of this year (1968), I lived mainly on assistance from my wife's family and occasional freelance journalism outside Britain. Also, I had some savings and investments in America and Switzerland to draw upon. My brother-inlaw, Gordon Kaye, purchased a house at 32 Hartswood Road, Stamford Brook, London, W.12 for us — the price of the house being considered a loan to be repaid over the years as is possible. My children's school fees were paid by convenant by my brother-in-law, as well as a grant in convenant to my youngest daughter.

I was not a legal resident of the U.K. until 8 April 1968, and on that date I began officially my duties as Overseas Representative and Correspondent for Negro Press International of Chicago, with a salary of \$300 per month.

TM# 072385 23/4/68

My brother-in-law asked me to send him from abroad the following letter, which I mailed on 16 April 68 from Rotterdam.

### RRENCHOLARYX

- 1. Forwarded under separate cover is a revised Memorandum of Oral Commitment covering the WOFIRM relationship with QRPHONE/1. This revision reflects most of the suggestions made in Reference A.
- 2. As said in Reference B, QRPHONE/I does not fall into the category of WOFIRM asset usually handled by LCPIPIT. This fact plus the very stringent security considerations which must apply to this operation dictate that certain procedure be followed in QRPHONE/I's case. Handling of this case has been facilitated by Headquarters' understanding and approval of the need for such care.

#### REVISED MEMOPANDUM OF ORAL COMMITMENT

- 1. ORPHONE/1 collaborates with WOPIET as a Field Agent who provides certain services of a confidential nature. He has received a Provisional Operational Approval, dated 23 MAY 66. Financial aspects of his activity are charged to approved Project ORPHONE.
- 2. QRPHONE/1's employment by WOFIRM, which began 1 June 1965, was originally formalized by a Letter of Agreement for a period of three months, replaced by a Memorandum of Oral Commitment dated 1 September 1965. Under this MOC, which remains in effect (as amended) since that date, QRPHONE/1's employment continues on a month-to-month basis. It can be terminated by either party on a 30-day notice.
  - 3. QRPHONE/1 receives the following financial entitlements:
    - "tax-free" income of \$800 per month (this figure effective 1 July 1967).

      NOTE: The actual breakdown of QRPHONE/1's finances as carried on WOFIRM's books is \$800 monthly salary and \$70 per month tax supplement withheld at Head-quarters to discharge QRPHONE/1's WOLADY tax obligation. These taxes are remitted through the Covert Tax Committee. This procedure was devised to honor the original "tax free" commitment made at the time of his recruitment and at the same time to fulfill the requirement that all WOLADY citizens pay taxes on funds received from LNFORT.
    - b. Reimbursement for operational expenses and travel unless these are paid by other sources in which case WOFIRM will offset such outside reimbursement against WOFIRM financial obligations to QRPHONE/1. Since security considerations preclude processing of detailed accountings for miscellaneous operational expenses, and as an added inducement to QRPHONE/1 in connection with his obtaining certain confidential information of interest to WOFIRM, a small operational payment, as authorized by Chief, LCPIPIT will be made to QRPHONE/1 for each day during which he is required to be absent from his home on confidential business.

NOTE: Write-off of the funds passed to QRPHONE/l is to be effected on the basis of the procedure approved by Chief, LCPIPIT and COS/London, a copy of which is attached. This procedure is authorized in view of the security considerations applicable to QRPHONE/l and the need to limit the knowledge of this operation within WOMACE.

c. QRPHONE/1 is authorized to receive a non-accountable office allowance of \$100 per month.

- 4. QRPHONE/1 will be compensated by WOPIRM in an amount mutually agreed upon for the relocation of himself and his family to a new residence if such relocation is considered desirable by him and WOFIRM. NOTE: This provision was included in QRPHOME/1's original Letter of Agreement and was retained in this MCC since it may be operationally desirable for QRPHONE/1 to accept employment with a target organization based elsewhere.
- 5. WOFIRM has arranged for a portion of QRPHONE/1's financial entitlements to be funded to him by ORPURE, which has also agreed to repatriate QRPHONE/1 to WOLADY. This has been done for operational reasons to enable QRPHONE/1 to qualify for foreign residence. Should QRPURE be obliged to honor this commitment, WOFIRM will guarantee this QRPURE commitment and will reimburse QRPURE for any costs incurred.
- 6. LCPIPIT is authorized to approve purchase by QRPHONE/1 of certain items of operational equipment which are to be nonaccountable and which shall be charged against the operational expense category of approved Project QRPHONE.

ARREST AND EXPULSION FROM SWITZERLAND

Brigue, 20 Jan. 1968.

The Milan-Geneva TEE reached the Swiss border at Brigue at about 1030. It was evident that the Eorder Police were expecting me -- the usual lone civilian inspector of passports was accompanied by a uniformed policeman. I was taken, with baggage, to the station immigration office. My wife went with me, but was apparently not covered by the ban on me. When the official in charge of the office phoned Lausanne and Berne, he was informed that I was to be expelled immediately and that they did not want to interrogate me.

Great effort was made by the official in charge of the office to be polite, especially when I made a rather vigorous protest at the expulsion, claiming that I had never been informed of the ban on my entry in Switzerland, said to date from 16 Dec. 1963, and that, in any case, I had visited Switzerland on numerous occasions since 1963 without interference. Moreover, I was a professional journalist accredited to the United Nations and was indeed on my way to Geneva to visit the U.N. Office there, I said. The official seemed somewhat baffled by this, because he had been informed I was en route to Lausanne, but I showed my tickets valid to Geneva. Nevertheless, with the greatest of apologics, I was escorted -- this time by a plain-clothesman -- to a train back to Italy at 1130. My wife could have clothed in Switzerland 1st 1 Asked have to veloce with me.

informing him of the situation, the Associated Press office in Geneva (speaking to a Mr. Atkins) and the U.S. Press Attaché, Frederick IXxxxxiin Steiner, in Berne. Actually, I had told her to phone as many wire services as possible, but she assumed I also wanted to get the Press Attaché to protest on my behalf. In any case, the shortness of time between trains prevented her from making more calls.

When given the attached formal notice of the travel ban by the Swiss official, I refused his request that I sign it and warned that the expulsion was a violation of Swiss agreements concerning the freedom of access to the U.N. Office in Geneva which I fully intended to protest formally and bring to world attention.

Later, from Verona, I spoke myself from with Gilbert Etienne, who was convinced -- quitel correctly, I believe -- that his phone is tapped and that my arrival was incommunicated to the Swiss Federal Police through a phone conversation I had with Etienne from

es enpy

swiss explusion - 2 last

Milan on 18 Jan. (By train reservation was made in Milan, not London.) I also spoke with Atkins of AP in Geneva, who told me he had filed a story after my wife's call about an American Megro journalist being refused entry into Switzerland. He asked for more background on me, claiming that New York had expressed interest in developments. Atkins believed that I could get the ban lifted by protesting to the Swiss Press Attaché in London as a professional newsman. He said he believed Swiss authorities were rather jumpy about "suspicious" individuals entering the country since the large Biafran shipments of Migerian currency to Zurich earlier in January. Whatever the real reason, although I do resent not being able to talk with Etienne -- I was counting on him to reestablish links with Mils Andersson in Albania and to give me a picture of the altered situation among pro-Chinese Communist parties in Western Europe since the latest split from Jacques Grippa's party in Belgium --, I think the expulsion is a most useful incident to prove that I am indeed a good revolutionary and I intend to exploit it as fully as possible, within reason. That is, no overt diatribes against "how the Man operates in Switzerland," say in the Ios Angeles Herald Dispatch, but to inform as many people on the Left as possible of the incident and let them draw their own conclusions.

Michael Bakafa/Petros Defta, who was expecting me in Geneva for an interview on 22 Jan. was informed by a wire from Verona that force majeure prevented me from keeping the appointment and that I would be writing him when I returned to London. 4-00000

Them to being with DOFF 1970. It would appear that the fine lies of demanation have on CPFIDIUS/11s and Wealing! and his finen-accountable open is an engage to him (if indeed he was ever fully aware of it in our own improvements forms) as to be virtually non-emission. It is equally confusing and often non-recognizable in other administrative paper-totals (see FIII 6). In terms of the tou chieshes, the SICO is a chearly been adjudicated touble and the CTA supplement has been computed as tan due on the SCO total. We suggest, therefore, in the interest of administrative circulative, that we convert the total CCO to enlary, and smooth the LCO to reflect this.

The emount that QRFHOME/1 would be accessed in, of course, not very substantial, but if LATTRIE feels ORPHONE/1 should receive greater financial assistance to further definy his personal as well as operational costs while in travel . status, we suggest that this confirm paragraph be smoothed to parmit greater Ceribility in the establishment of the per diem amount. Now worth be no appropriate time to amend the MOS to give Chief, MORIFIT! As to travel which does not emend eventight, regulations only require that SSB be deducted from his per diera, rather than the 50% which, in effect, the \$10.00 represents. MEMORANDUM FOR: CCS/NC

SUBJECT:

ORPURE/OREBONY/i Relationship

- 1. This will confirm our conversation of 18 September 1967, in which we discussed CREBONY/1's plan to visit CRPURE some time during the week of 25 September 1967, and you agreed to give CRPURE/2 prior warning of this visit. In accordance with the same conversation CREBONY/1 was briefed that his visit should be mainly a question of touching base with ORPURE, maybe a friendly luncheon with CRPURE/2 -- but that no substantive discussions affecting their ostensible relationship (i.e., amount of money, amount of QREBONY/1 production for CRPURE, etc.) were to take place. You were to brief GRPURE/2 along the same lines, and also to indicate to him that, contrary to our original thinking, we would now like to have QREBONY/1 given a byline, whenever ORPURE/2 feels he can do so.
- 2. In addition to the above, we would appreciate it if you would take up with CRPURE/2 (and/or ORPURE/1, as appropriate) the possibility of increasing the amount of money funded to CREBONY/1 via ORPURE. As indicated to you, we would like to increase the current \$100.00 monthly to \$300.00 monthly, but would like your careful examination with ORPURE principal(s) that this amount is not excessive either in terms of their willingness to handle or in terms of ORPURE's ostensible ability to cover.
- 3. Please also mention to CRPURE/2 our desire to have QREBONY/1 open a small office in and our thought of perhaps including QRPURE (along with other publications) as a name on the door or on his letterhead. Would QRPURE/2 (or QRPURE/1) have any objections? Would he have any objections if any of the other names are of more radical publications? It would not be operationally feasible or desirable to let him know in advance which these would be, but since both

Though

QRPURE's have been briefed carefully as to QREBONY/1's radical aura, presumably they would have a good idea as to the kind of publications these might be.

4. For operational reasons, we would prefer that the arrangements indicated in paras 2 and 3 above not be broached until after OREBONY/I's departure from the United States, some time in mid-October. We will advise you of his departure so that you can make the necessary arrangements thereafter at your convenience.

REVISED MEMORANDUM OF ORAL COMMITMENT (Revised to include all changes and amendments operative as of 14 September 1967)

- 1. QRTBONY/l is employed by WOFACT as an independent contractor for certain services of a confidential nature. He has received an Operational Approval, dated . Financial aspects of his activity are charged to Project QREBONY.
- 2. QREBONY/1's employment under this agreement commenced 1 September 1965 and continues on a month-to-month basis. It can be terminated by either party on 30-day notice.
  - 3. QREBONY/1 receives the following financial entitlements:
  - a. Compensation so computed as to give QREBONY/1 a "tax-free" figure of \$800 per month (this figure effective 1 July 1967). NOTE: The actual breakdown of QREBONY/1's finances as carried on WOFACT books is \$700 monthly salary; \$100 non-accountable operational allowance; \$70 tax supplement withheld at HQS to discharge QREBONY/1's WOLADY tax obligation. These taxes are remitted through the Covert Tax Committee.
  - b. Reimbursement for operational expenses and travel, unless these are reimbursed by other sources in which case WOFACT will offset such outside reimbursement against WOFACT financial obligations to QREBONY/1. Since security considerations generally preclude the detailed accounting for miscellaneous travel expenses, per diem will be paid at the rate of \$20 per day during periods of authorized travel. This per diem authorization was qualified by a personal ruling of Chief of Station, Paris/LCPIPIT dated 12 July 1965:

"If subject is absent from his home station on authorized travel for part of one day and returns to his home station the night of the dame day (i.e. if no hotel expense is involved in the sense of overnight accommodations), then he shall be entitled to draw 1/2 of his authorized per diem of \$20 per day (i.e. \$10)."

HOTE: QREBONY/1 has a revolving fund (advance) to assist in meeting operational and travel expenses.

- 4. QREBONY/1 will be compensated by WOFACT in an amount mutually agreed upon for the relocation of himself and his family to a new residence if such relocation is considered desirable by him and WOFACT. NOTE: This provision was included in QREBONY/1's original Letter of Agreement and was retained in this MOC since it may be operationally desirable for QREBONY/1 to accept employment with a target organization based elsewhere.
- 5. LCPIPIT is authorized to approve purchase by QREBONY/1 of certain items of operational equipment which are to be non-accountable and which shall be charged against the operational expenses category of the budget attached to the FY 1968 project renewal.
- 6. QREBONY/1 signed a separate Secrecy Agreement (in true name) at the time of his original recruitment. He is aware that its provisions are still in effect.
- 7. QREBONY/l is sware of all provisions of this Memorandum of Oral Commitment with the exception of paragraph 5, which describes an internal WOFACT procedure, and certain aspects of paragraph 3b, specifically that WOFACT is paying LMFORT taxes in his behalf. MOTE: He was promised tax-free compensation in his original recruitment and we have devised the current procedure to honor this commitment while fulfilling the requirement that all WOLADY citizens pay taxes on funds received from LMFORT.

ACTION REQUIRED - REFERENCES

- 1. LCPIPIT is revising the QREBONY Project files--which have been rather haphazardly maintained over the past year or so (much of this time the project was without a case officer). In our attempts to locate basic project documents we have been unable to find any copy of the provisions of the Operational Approval applicable to QREBONY/1. We do have a copy of the Provisional Approval granted 23 May 1966 forwarded with OFLW 1591, 7 July 1966. Possibly the relevant document was destroyed during the reduction of files attendant upon the LCPIPIT move, or possibly it was inadvertantly not forwarded to LCPIPIT. At any rate we will appreciate being sent a copy.
- 2. We would also like to have a sterile version of the FY 68 Project Renewal as well as all other basic documents which ought to be available to LCPIPIT.

ACTION REQUIRED - REFERENCES We are forwarding USC a copy of a letter sent QREBONY/1 by Jacques Verges' lawyer in which he makes a settlement offer on behalf of his client. QREBONY/1 will probably accept this, after a suitable waiting period, as it offers very telling and effective ammunition for use in his continuing battle to counter Verges' allegation that he was a WOFACT agent. It is our reading at this point that QREBONY/1 has been quite successful in this effort and that this settlement from Verges will be the final triumph in his campaign. 上は AARON C. LAGINESTRA

ASE. GIBSON/ VINGES

Chers liadame et monsieur.

Je m'empresse de vous faire savoir que Maître VERGES propose de vous réglers en dinars algeriens la moitié des sommes demandées, ce qui me semble intéressant pour vous, compte tenu de l'ensemble des circonstances de cette affaire, soit :

7.500 it pour M. GIBSON d'une part,et
5.250 it pour Mme GIRSON d'autre part
total : 12.70 it

Je deis vous indiquer que cette proposition est un peu inespérée, car il est clair qu'en poursuivant la Société des NCUVALLES EDITIONS INTARMATIONALES, vous gagnerez une certaine somme dont je ne puis fixer le montant, mais ne toucherez jamais rien.

En ce qui concerne la lettre d'ut M. GIBSON m'avait entretenu, non Confrère ne me répond'sur celle-ci. Je pense qu'il n'y a quand ême pas lieu d'en faire une question de principe et que nous pourrious, dans le cudre d'un reçu, obtenir une phrase desset sur ce qui a été dit à voire sujet.

En cout état de cause et si nous parvenions à un accord sur cette base, Me VERGES propose de cenir cette soure à votre disposition dès votre premier voyage en Algrie.

Je crois qu'il serait préférable que, d'une manière ou d'une autre, cette somme soit remise à une personne ayant votre confiance.

Si toutefois vous pensez que je dois tenter d'obtenir un pen plus, vous vouirez bien je vous prie un le l'aire savoir, mais j'insiste sur ce point qu'il est quelque fois préférable d'attraper une proposition à la balle, plutôt que de risquer de tout perdre. CS COPY

### COLTILUING BRITISH INJUGRATION PROBLEM

Returning to London from Stockholm on 10 July, I was again queried by British Immigration about my failure to register as a permanent resident. At excuse has always been that I did in fact go to the Home Office, but no action was ever taken because I rarely remained in the country more than a month. However, this tale is wearing thin and I fear that I may have much more serious trouble in the near future.

It would seem to me that the best solution might be to become the official London correspondent of MPI or any other outfit that night have me. I would need a letter to that effect and would require a notional salary of about \$5,000 per year, I believe, but even this might raise questions from the British Inland Revenue.

Some advice on this problem would be appreciated.

x Must be at least 1 1000 yearly.

#### MEMORANDUM FOR THE RECORD

SUBJECT: CILIBERTI Conversation with RMSLIVER 26 April Concerning His Heeting with QREBONY/1

- 1. On 25 April BASTEAR told me that RMSLIVER was in London and was planning to meet with QREBONY/1. BASTEAR accordingly suggested that RMSLIVER be debriefed by the undersigned the following morning. Accordingly I met with PMSLIVER for about one hour, from which meeting the following highlights seem worth recording:
  - A. I told RNSLIVER that we (WOFACT) had been interested in QREBONY/1 at the time that he was writing for China Quarterly concerning his dispute with the editor of Revolution, Jacque Verges, but that we had lost tract of him of late. Now that we are in QREBONY/1's home town, RNSLIVER was told that we and Headquarters would be interested in any information on QREBONY/1 which could be reported as a result of such meetings as RNSLIVER had had with him.
  - B. RNSLIVER said that he had told \_\_\_\_\_\_\_ that he would like to meet Ibrahim to gain some understanding o" what was going on in the \_\_\_\_\_\_\_ particularly as it related to the Sino-Soviet split. \_\_\_\_\_\_ said that he thought that FNSLIVER would do much better by talking to QREBONY/1 whom he, \_\_\_\_\_\_ said was one of the few people around from whom \_\_\_\_\_\_ could learn anything.
  - C. RESLIVER met QREBONY/1 at QREBONY/1's house. RESLIVER did not have a complete roster of those who were there to participate in what RESLIVER described as a "political bull session". He remembered only (in addition to himself and QREBONY/1) of Matthew Ekoana and a girl from Mexico City named Sucesos, who he said knew a great deal about guerrilla goings-on in Venezuela and whose address he said was Calzada, Tacuboya 103, Mexico 18. RESLIVER said that Mkoana said practically nothing throughout the evening, apparently because he found ENSLIVER's presence odd and unmerwing.
  - D. RMSLIVER was as impressed with QREBONY/1 as had predicted he would be. He described QREBONY/1 as remarkably knowledgeable concerning in Western Europe and Africa. He said that QREBONY/1 had described his recent trip to and had mentioned that he had visited that he knew Jacques Grippa, and that he intended to visit Stockholm in connection with the Pussell Tribunal and a possible Stockholm visit by Robert Williams.

### COLTINUING BRITISH INVIGRATION PROBLEM

Returning to London from Stockholm on 10 July, I was again queried by British Immigration about my failure to register as a permanent resident. My excuse has always been that I did in fact go to the Home Office, but no action was ever taken because I rarely remained in the country more than a month. However, this tale is wearing thin and I fear that I may have much more serious trouble in the near future.

It would seem to me that the best solution might be to become the official London correspondent of MPI or any other outfit that night have me. I would need a letter to that effect and would require a notional salary of about \$5,000 per year, I believe, but even this might raise questions from the British Inland Revenue.

Some advice on this problem would be appreciated.

\* Must be at least 1 1000 yearly.

9/201 file

THE 072269 18/8/67

- E. RNSLIVER was particularly impressed by QREBONY/1's library of radical books and paraphlets. RNSLIVER turned over to the undersigned for copying and return a recent issue of Villiams' The Crusader, and a copy of QREBONY/1's own newsletter. These were received with feigned interest, although of course we had earlier received the same items from RODIGAST (already forwarded to Headquarters).
- F. MISLIVER did not recall meeting Mrs. QMEBONY/1, and did not know how many children QMEBONY/1 had. He described QMEBONY/1's house as attractively middle class. He was aware of the fact that QMEBONY/1 had gone to Kenyon College and praised QMEBONY/1's writing skills. QMEBONY/1 showed him a number of articles he had written which PNSLIVER said completely followed the Chinese Communist line. RNSLIVER was sumprised that some of these articles had been printed in the United States in spite of their political orientation.

GRIFFITH VISIT

Conversation with Prof. William 3. Grifffith, London, 25/4/67.

Tadeusz Horko phoned my home to tell me that XEXXX Griffith, who is spending a sabbatical year in Hurich from MIT, wanted to see me. Later that evening, Leo Labekdz and Griffith arrived. Stella Joyce of Annesty International and Natthew Moana also arrived unexpectedly. It turned out that Lebedz and Joyce had often talked over thereare the phone, but had never met.

Griffith told me that he had recently visited East Africa. In Dar es Salaam, he had met David Sibeko and Ahmed G. Ebrahim of the PAC (Pan Africanist Congress). He said his distinct impression was that PAC was on a strong pro-Chinese course. Griffith said he had written to hana Mahomo's old address in London in an effort to contact him, but had learned later that Mahomo was now at kkrkk Kirkland House, Harvard University. He said he looked forward to talking with Mahomo when he went briefly to the USA in May.

Verges. He has now received a letter from his lawyer which seems to indicate that Verges is willing to make some sort of settlement--although he can only pay in Algerian dinars. QREBONY/1, of course, is willing to accept a settlement provided it includes some sort of apology from Verges. Armed with this apology QREBONY/1 could then dispose of any lingering doubts regarding his political reliability caused by Verges' accusations and would also have the ego gratification of forcing Verges to eat his own words. Monsieur GIBSON 30, Stockleigh Hall Prince Albert Road LONDON N.W.8 (Grande Bretagne)

AFF. GIBSON C/Nouvelles Editions Internationales

Cher Monsieur,

Mon confrère adverse, Conseil de la Société Nouvelle des Editions Internationales, et de Monsieur VERGES, me fait savoir qu'il a eu une conversation avec de VERGES qui lui a indiqué qu'il vit actuellement en Algérie et serait disposé à rechercher un règlement amiable des difficultés qui vous opposent.

Il m'a fait part qu'actuellement sa situation ne lui permet pas de payer en une autre monnaie que la monnaie algérienne; savoir le dinar.

Il y a là une question de principe. Pourriez-vous, je vous prie, me faire savoir si vous pourriez ênvisager une transaction aux termes de laquelle vous seriez réglé en dinars. J'ignore d'ailleurs dans quelles conditions l'exportation des capitaux d'Algérie est encore possible à ce jour.

Uuon qu'il en soit, peut-être seriez-vous intéressé par cette proposition.

Je n'ai pas encore discuté de chiffres avec mon confrère adverse puisqu'il s'agit là d'une question préjudicielle à toute discussion sur le fond de la somme due.

J'attends donc votre prochaine réponse et vous prie de croire, cher Monsieur, à l'expression de mes sentiments dévoués.

MICROFILMED MAY 1 5 1967 DOC. MICRO. SER.

I phoned Schwartzenberg and informed him I would agree to a settlement, but the amount to be maid in any currency would necessarily depend on the extent to which Jacques would necessarily depend on the extent to which Jacques Verges apologized for his accusations against me in 1964. I said I had not mind if Verges attempted to lay the blame for those accusations on a "hisunderstanding" or on erroneous or malicious misinformation given him by others.

- 1. QREBONY/1 told RODIGAST at their most recent meeting that he did not have to file an overt tax form for 1966 because his gross overt income for 1966 was less than \$600. This will not be true for the 1967 tax year and he will have to file in the Spring of 1968. The operative sentence in the 1966 Tax Guide For US Citizens Abroad, US Treasury Dept IRB Pub No 54 states—"Every citizen of the United States, regardless of where he resides who is under 65 years of age and has a gross income of \$600 or more during a tax year must file an Income tax return."

Room, of tall of the what the immigration become to the airport is, the long as he's properly documented wise current and all that, they course delicte. So as long as he seeps him nose relatively clean, he's okay. The deem't need to worry until the Home Office comes to him; when that happens and that is unlikely, the way the British law works - we will look into things further. Tell him that having a British wife makes him immune to most out-kicking activities - as long as his nose is clean.

In fact, it is all fixed with the Home "ffice. They will not take any action against him without checking with JAGUAR, and they, of course, will check with us. Bo should not be encouraged to be flippant or sassy with the Immigration people, but he doesn't need to panic, either. He should behave in a reasonably straightforward and natural way - so he should not be encouraged to think we have "fixed" things for him.

I also discussed again with JAO the question of having him taken off the watchlist. They are willing to do so, if we want, but their or hash still is that it is better for him to be watchlisted. There could probably be no better credential for him, if the velling with Ebrania of Manchanda or Raindont, or limecha of that sort, than to get the business from the tiste s or limitation people. And, of course, he should, for our sake (security, and all that) be discouraged from carrying anything incriminating, and if he knows that he may be serched any this he course or goes, that should help his quarretion along.

Now, it, on the overwhere, the simport narrassment modely goth to be too much of a burden, maybe we will what to roview the situation. On the basis of the two thoricents to iste, nowever, a vote for leaving him extchlisted.

If he womers about it, hoddy should point out that in apply of for one he would have to give so info about his become, ever, which he cream't have to do not had, again, since his bottish wife is an ace in the hole, he doesn't have to volunteer that information; so he shouldn't.

URGELT

ERITISH DOGGREGION PROBLEM

Returning to the U.X. on 15/3/67, I was warned by British Immigration at London Airport that I was spending more time in Pritain than outside the country. The Immigration Officer inspected my passport closely, counting the number of trips I had made since getting that passport, which had been issued by the U.S. Embassy in London, on 1 December 1965. However, no explanation was asked for concerning the travel. I explained that I had intended to resettle in Switzerland or France and was spending so much time in Britain only because my wife, who was British, had been helping to take care of her elderly parents in London. I was told nevertheless that I should go to the Home Office and apply for temporary residence in Britain.

Before doing so, I would need to knows

- 1) whether I should in fact do so;
- 2) how should I describe my work, if any, and source of income.

  At present, upon investigation, the British would learn that I have no visible means of income, except for perhaps for my Reports and some freelance gournalism, but nevertheless receive money regularly from a Swiss bank account.

If I told the Home Office, I was a freelance journalist, I imagine they would icomed some sort of bank or other financial statements, which would probably be examined by Brit. In text authorities for possible textion. Even if I say I have no employment of any consequence and maintain myself on income from investments made in Switzerland and elsewhere, I might have to verify that statement and pay some sort of British texes. Considering the positions of my brothers-in-lam, I doubt if either could get away with claiming to fully or partially support my family, and have my brother-in-law Cordon Eaye, who is a Chartered iccountant, has been deducting my children's school fees from his makes by means of an educational trust fund, although he no longer pays anything towards the fees. I could say that I was the beneficiary of a textime U.S. fellowship, butchermic texting and prove more cumbersome and dangerous than necessary, in the present circumstances.

In any case, I need advice on this natter urgently, as I suspect I may soon have a resit from the

Home Office if I do not go to them volumearily. (S COP)

MODRAHDEM FOR: Chief, CI/OA

ATTRECTOR :

Mr. John Brever

SIBJECT:

Field Investigation of QREBOHY; Grobony Clearance (201-306052)

1. Pursuant to our conversation of 11 February in your office, this memorandum requests that the usual field background investigation not be undertaken in the clearance process instituted for QRESORY.

2. We make this request for limitation because of our strong belief that such an investigation would run an unacceptably high risk-spproaching certainty-of causing serious damage to QREBONY's reputation and therefore his effectiveness with the targets against which he is directed as an informent. In the past, both here and abroad, QREBORY has made werm enemies, as well as friends, come dissident end leftist circles. He has particularly alignated both U.S. Communist and Trotakyist elements, apparently by his dealings with them while serving as Executive Director of the Fair Play for Cuba Committee in the early 60's. His reputation for pro-Chicom sympathies -- which is the basis of his present operational usefulness to us as a source--constitutes an additional grisvence against him by such parties as the CPUSA and the CPUS which are pro-Moscow and anti-Peking. We know from independent sources as well as from his own testimony, that such hostility has taken the form of . charges-occulately false at the time--that he was an ODENYY or NUBARN agent. (Apparently a favored seem technique in such circless this charge has been leveled in other cases with equal lack of justification.) These allegations against QREMORY have not prevented him from vinning the apparent confidence of many leftist target clements who, if they are mare of them at all, no doubt realise the prevalence of such backbiting and gossip and who have not been provented from developing personal and confidential relations with him. Such charges, however, do represent a dormant vulnerability: they have made Subject sensiting of a controversial figure in a million which rightly feels itself a target for intelligence collection and is extremely sensitive to the dengurs of penstration.

- 3. Against the background of this vulnerability, it must also be stressed that the sources to be contacted by such a field investigation would include many individuals whose suspicions of government interest—and hostility toward it—we could not reasonably expect to disarm. QREDON's career in the United States in FPCC and similar groups put him in contact with a wide range of individuals who are not merely sophisticated but highly sensitive concerning any such inquiry. It is not possible to conceive of any method of approach which would not provoke their suspicions that a government connection with QREDON was involved. (It is, moreover, hardly likely that cooperation could be expected of any of them, except in such cases where the individual sensed an opportunity to record damaging information.) In view of what we know about the rapid circulation of gossip among such individuals, and their great interest in, and suspicious of government interest, such an inquiry could be calculated with reasonable confidence to spell the end of any effectiveness QREBONY could offer this Agency.
- 4. While we realise fully that the aim of such an inquiry is to resolve unknowns in an individual's background and develop materials beyond those presently available, we note that QREBOHY has been a subject of continuing interest to ODENYI for many years, and that, as a result, the basic politically decognatory associations in his past are a matter of record. As you know, a successful

such associations, and confirming (to the extent that it can be said to do so) his assortions of loyalty despite them.

5. In requesting clearance in this case, we are seeking to exploit QREMONI's ability to report information to us which he receives in the course of his contacts with national liberation leaders, pro-Chinese communists and similar personalities. Such information represents general political and biographical material relative to the interests, activities and plans of such individuals. Requirements passed to him in this connection involve instructions for the refinement and completeness of the reporting he is empable of providing from his normal intercourse with source personalities. It is anticipated that his unefulness will be increased by truvel to those areas where his access to targets known to him permits firsthand reporting. It is also anticipated that he may be able to serve selected CA purposes by surfacing information available to him, when this does not prejudice his cover status.

Ris use is understood to be, and has been, limited and precludes revelation of classified information, either by operational assignments supporting or servicing other KUBARK operations, vitting participation in the recruitment of other agents, or the passing of such requirements as would reveal a classified status of KUBARK knowledge or interest in any collection target.

## Rathard Gibson

Hitmmente residía en Barís con su esposa francesa. Era directir de la mición en Inglés del mensuario "Revolution", publicado en Lausana por Jacques Vergés, antiguo director de "Revolution Africaine", argelino de madre chima y amigo de men bella, con quien disputó al protársele que recilía dinero de China Comunista para expresar los puntos de vistas chinos en el pariódico argelino. "Revolution# era o es (ignoro si se publica todavía) financiado for China Roja. Gibson saltó de su puesto en esta publicaciones, al con cousado de ser un agente infiltrado de la CIA. En 1964 estuvo en Bruselas, ofreciendo una conferencia en la ULB (Universidad Libre), con motivo de una Baposición Latinoansricana, auspiciada por la facción pro-china de la federación Comunista de Estudiantes de Bélgica (Federación de Bruselas) y pagada por el grupo de disidentes del PCB, Grippa, Reindorf, etc. Esa noche habló sobre la Revolución cubana y su visita a Cuba y en la presidencia del acto estaba el propio Jacques Grippa.

Richrid Gibson e stuvo en Cuba en 1960, invitado especialmente por el periódico Revolución y por el magazine nunes de Revolución. Era entonces presidente del Pair Play for Cuba Committee. Pue invitado a sugerencias de Bob Taber por Pablo Armando dernández, que viajó a Nueva York para invitar a un grupo de intelectuales negros norteamericanos a los festejos del 26 de julio de 1960. Junto con Richard Gibson vi-jaron > Cuba Robert Williams, Leroy Jones, Julian Mayfield, su esposa y un nuttido grupo de escritores y poetises negres. Fue entonces que Williams conoció a Cuba. La presencia de Gibson fue mal acogids por el PSP y los núcleos intelectusles y políticos que en Cuta giratan en le orbite del Fartido Comuniste Cubeno, ye que Gibson cre acusado por el PC de USA de dejar fuera del Comité Pro Justo Trát o a Cuba a prominentes figures comunistes norteamericanes, mientras deba cabida en el mismo a trotzskyistas y gente de la Nueva Izquierda. Vil-·liams, por su perte, ere considerado un egitedor casi enarquiste, por estos mismos circulos comunistas cubeno-emericenos.

Richard Gibson es hombre de un carácter turbio. Un buan periodista y no mal escritor, pero una persona más bien desagradable, dentro de un complejo no solamente político, sino también psicológico, alimentados por SP problema racial. Es un intelectual fracasado y hombre poca franco, de una comunicabilidad torvida. La policía francesam le consideraba un agente al servicio de una potencia extranjera—ChimRoja.

ACTION REQUIRED: FYI

REF: A. PALP 5033 (IN 96553)

B. OFLA 3128 (18 Movember 1965)

1. We have discussed the substance of the question raised in Ref B through the regular Beadquarters channel with the ODENVY Rep here who has acted as a point of liaison for CRESCHY material in the past. We passed on, also, the materials which you propared for the CDENVY representative with whom you are in contact in Paris. We raised specifically the question of passing CREBONY's identity to the Paris ODENYY representative. which you mentioned in Rof B, stating that, so far as KUDARK is concerned, we had no objections. The ODENVY representative here, however, thought that this might nerve to confuse somewhat the lines of coordination for QEEFONY's information, for which COENTY headquarters has sole responsibility. He therefore felt that we should continue the present arrangement by which, in effect, GREBORY's identity is held here at the point where his material within ODENVY originates. He appreciated, bowever, your initiative in filling in the Paris ODENVY representative on the targets which QREBONY can service, thus alorting him to possible leads he might look into. He suggests also that we be kept aware of your lisison with ODENVY in the field to guard against false confirmation or other possible duplication which could lead to confusion here in those quarters of COEHVY responsible for processing the QREDOMY material.

2. With respect to Freedomvays, discussed in Ref A, and Q's possible relationship with it, we will report separately.

OFLA- 3146/1 36 Nov. 1965

In reply to the attached (Kemo on Home Situation) Redignst told QREBONY/1:

- 1. We can't do anything about his housing problem in view of non-permanent nature of our present arrangement.
- 2. Avoid formalizing periodical at this point; it should require no authorizations for publication as it is merely a news correspondent's report, mimeographed for convenience—not a magazine.
- 3. In order to control content, Q alone should have responsibility for putting out issues— can't delegate to wife and above all to other contacts.

OFLA 3146/1

HUME SITUATION

she pointed out the situation was difficult for us. The landlord in London was trying to evict us and we had no idea where we were going. I had no substantial funds from the Chinese and was still living on the generosity of the matricans ( \_\_\_\_\_\_, she said,

Moreover, she was tired of being a grass widow. I was keeping secrets from her, she had been certain for cometime, she said. She had had enough trouble with my "secrets" in the past, she said.

I emphasized to her that I had had contacted with the Chinese without hils' knowledge and that she should on no account ever mention the matter with him. She said that showed how the Chinese treated people. About was more honest than hils, she added. What was happening to him now would happen to me one day, she said.

However, she was genuinely pleased with the newsletter and spent some time trying to collect material for the dummy I was preparing. She wrotenx herself a piece on xC.A.R.D. (I havex the feeling that a lot of her resentment would be dissipated if she would allowed to hardle most of the business involved with the newsletter.)

The housing problem remains a serious one and we may have to move. A temporary furnished flat in London would cost us at least £25 to £30 a week today — at present, we pay £12-12-0 per week. We have given the case to a lawyer, but, because it is a furnished flat, we will probably have to jet out sometime soon.

Subject: QREBONY/1 - Security at home

- 1. At his 17 November meeting with Rodigast QRUBCHY/1 (Q) was asked some questions concerning keep of files and correspondence. He keeps copies of all correspondence (except routine letters transmitting articles he has written, for example) in a file to which his wife has access. He maintains a minimum of questionable notes, and keeps his personal notebook (with addresses, expenses, etc.) in his coat pocket day and night.
- 2. His wife has two brothers. The one to whom Q owes money is Gordon, a chartered accountant, who during World War II was in British Military Intelligence. He visits the Q home to tring gifts from the wife's mother to the Q children, but has a cat-and-dog relationship with Q's wife; indeed, he will not stay for a meal because he can't stand talking to her, and the feeling is mutual. Q is certain she would never think of confiding in Gordon, for example to say: "Lock at these awful letters Q has written!" Gordon is more likely to confide in Q himself. Gordon's politics are apparently solidly conservative. (His wife's other brother, less involved with them, works for Rank.)

4. Q wanted to get a lawyer's opinion on what regulations govern publishing a periodical in his country of residence (he is not of course officially a resident at all). Sensing additional costs and unnecessary formality, Rodigast suggested that he keep it on the basis of being a correspondent's reports, not a separate commercial press venture requiring eventual licenses of payment of business taxes, at least for the time being. Mailed first class, the material should require no permit from the mail authorities. A contact had suggested he might have difficulty with the locals (see report of Q's 15 November contact with WP).

Professor JOHN K. GALBRAITH, Economics Department, Harvard University, Cambridge, Massachusetts, presently vacationing at his summer residence, Newfane, Vermont, advised on July 12, 1957, that applicant has been his secretary and general assistant at Harvard University for the past four years. Professor GALBRAITH said he highly recommends the applicant as to character, reputation and loyalty. He further stated the applicant is a first-rate person, very superior, intelligent, and well qualified for the position she seeks. Professor GALBRAITH stated he is aware of the position the applicant seeks in view of the fact that he recommended her for this position.

Dear Ketzenback,

I'm pleased you have received at least one of my letters, but I still wonder if you got a large envelope containing three letters which had been held and return all at once. As one of the letters was rather detailed and dealt with matters of some importance, I'm rather disconcerted — to say the least — the to think that it may not have found its way to you. The envelope measured 8 by 5 inches and was light tan in color. A confirmation of its receipt would be appreciated.

Of course, I understood about the service, the newsletter, not being a definite thing. In any case, I am not looking for a sinecure, but for a good, deep cover and that seemed to be one. It also gave me something to offer contacts annul and would have strengthened my position considerably. At present, my cover is as light as the Emperor's new clothes.

Still no positive reply from any publication in the States, and the general silence from my American "friends" is not very encouraging. Here, the situation is much-better, and if I can get to Algiers in good time, after visiting Grippa and Andersson and seeing some contacts in Paris, my position will be better, but I still see myself representing the

and/or the even suggested that I do a short paper-back book for them, gathering together the conference documents with an analysis. All of this is better than nothing, but it definitely isn't much.

On the other hand. for the future,

He has suggested that I write some features

for him, after the and that I

try to get to to discuss future projects with him while

I am in North Africa. You well know what many Africans and
think of at present, so there may not be much

that we can do with this arrangement.

This afternoon, I saw Dennis Phombeah at the Tanganian High Commission. Until three months ago, he was at the U.N. He claims that Verges came to London last December and saw Babu about me and other matters, but that Babu was not convinced. He says he did not know that I was in London until recently — this was our first meeting since the spring of 1964. Now, he proposes that he try to get the paper in Dar es Salaam, for me. We will discuss the matter again at lunch next Konday. It would be a fixed post in Dar and I can't yet mer fathom why he is willing to suggest me for the job. He claims he has not been in touch with Verges.

| SUBJECT DTDORIC/Operational QREBONY/Salary Raise for QREBONY/1   |   |   |  |  |  |
| 1. At the time of his recruitment in June 1965, QREBONY/1 was told that his \$600 monthly tax-free salary would be raised to \$800 once he got a job in a target organization, which of course was the goal of his planned summer activity in Algiers.  2. Through no fault of his own, the Algiers assignment (and other possibilities, suca as) evaporated shortly thereafter. Meanwhile, WOFACT changed its signals and eventually decided to base QREBONY/1 in Europe targeted against individuals and groups in various countries.  3. From the beginning, QREBONY/1 has proved more than satisfactory as an agent. He has carried out assignments given to him with knowledge and tact and the proper spirit, has used his own initiative as much as our guidance, and has not violated our instructions. No one will argue that he hasn't proved to be better than we collectively thought he would be, and in terms of his own abilities—apart from targets which may or may not be accessible to him—he is getting better all the time. |   |   |  |  |  |
| salary to go up from \$600 has not complained as much QRESONY/1 is responsive to respect for him as an indi he is carried along as muc   | a year later than QREEONY/1 mito \$800, we raised it to \$700. as he used to about a shortag the generally good treatment vidual and the appreciation of h by his own personal satisfacontinually breaking new ground | He wa<br>e of fi<br>he has<br>his so<br>tion in | as pleased, and he<br>mds. | 5. Nevertheless, LCPIPIT believes the time has come to raise QREEORY/1's salary to the promised level. We can all agree that we are still getting his services cheap; QREEONY/1 receives no quarters, living allowance, or educational allowance for his children. His increased gratitude, the relief he will undoubtedly feel at being able to reduce his present financial worries, are more than worth the extra \$100.  |   |   |  |  |  |

6. If Headquarters agrees, the money can be paid through QRPURE (whose monthly check will go up from \$100 to \$200 in this event). QRPURE could write to QREBONY/1 expressing his pleasure at the results of syndication of QREBONY/1's material, and announcing that the monthly fee will go up to \$200; alternatively, QREBONY/1 could write to QRPURE saying he feels the sun should go up, and QRPURE would reply affirmatively.

AFF. GIBSON C/VERGES -

Chers Madame et Monsieur,

Je m'empresse de vous faire savoir que j'ai fait citer la Société des NOUVELLES EDITIONS INTERNATIONALES pour l'audience du 13 avril prochain.

Or, je viens d'appendre que celle-ci est mise en faillite et que Monsieur PINTA, Syndic de faillite, a été nommé par jugement du Tribunal de Commerce.

Je ne vois pas, dans ces conditions, l'intérêt que vous avez à poursuivre le paiement de sommes qui vous sont dues par cette Société dont le passif dépasse de loin tout actif.

Voudriez-vous, je vous prie, me donner vos instructions définitives compte tenu de cette situation.

Je vous indique d'ailleurs que vous pouvez produire à la faillite entre les mains du syndic, mais que bien entendu celui-ci vous demandera un jugement pour pouvoir inscrire votre créance toute théorique contre la Société qui, comme je vous l'indique plus haut n'a que des dettes et aucun actif.

J'attends donc de vos nouvelles et vous prie de croire, chers Madame et Monsieur, à l'expression de mes sentiments dévoués.

q At a meeting held on August 14, 1966, STANFORD mentioned that

Rbbert Williams allegedly has \$1,000,000 available for the use of RAM.

100-300-004

NY T-10 advised on September 26, 1966, that STANFORD prior to moving to Philadelphia on September 18, 1966, discussed RAM and ROBERT F. WILLIAMS with him. According to the source, STANFORD has alleged WILLIAMS has money available for RAM.

During the course of the conversation, STANFORD stated that the contact man between RAM in the US and R. Williams' is one Richard GIBSON in Paris, France.

STANFORD stated that GIESON passes on messages from WILLIAMS and will be the man contacted by whoever is designated as a courier to go to China to get the money.

Source also stated that he was told Richard GIBSON was living in the CEX Crystal Hotel (phonetic), Paris, France, and was working out of the La Royale Cafe (phonetic), Paris, France.

INFORMATION CONCERNING

A source of this Bureau who has furnished reliable information in the past recently advised that during the Fall of 1966, a member of an Italian pro-Chinese Marxist-Leninist organization stated that one Richard Gibson was suspected of being a spy for the Central Intelligence Agency. According to this individual, Gibson recently had been in in the company of a female secretary from Paris, whose home is in New Rochelle, New York. At that time

whose home is in New Rochelle, New York. At that time Gibson remarked his travel and activities were possible because he had married a wealthy English woman. Other things were said which aroused the suspicions of the Italian.

According to our source, the Italian pro-Chinese Marxist-Leninist subsequently relayed his suspicions concerning Gibson to Rene Raindorf, a member of the Central Committee of the Communist Party of Belgium (Marxist-Leninist). Raindorf reportedly thereafter met in Brussels, Belgium, with Gibson although he had indicated the Belgian pro-Chinese communists would look into the charges of the Italian Marxist-Leninist.

II The arrangement between the cover firm and QREBORI/I should be on the basis of a regular subvention to QREBORI/I to act as a foreign stringer contributing feature-type material to the press service. An agreement having been estensibly entered into by QREBORI/I sad the cover firm during the former's trip to the U.S. (expected around 20 July), a regular monthly check should be formeried to QREBORI/I by the cover firm, along with any correspondence it may see fit (suggestions for pieces to write, extents on pieces received etc.)

#### III The following steps are proposed to set this cover in motion:

- A. At a meeting on 6 July, QREBOST/1 will be instructed to write a number of U.S. news media organizations stating that he expects to travel to the U.S. shortly, describing his news background and indicating he would be interested in developing some outlets for his writing. The cover organization is one of those addresses.
- B. CIA's contact in the cover organization receives this letter and, pursuant to our direction, writes as answer stating 1) what his firm does, 2) that it would be very interested in headling CRIDONY/1's product if it seems to fit the needs and 3) that it would be ready to releasure some of CREGONY/1's oupersons if he could come to Chicago to discuss the matter further.
- C. QHENHT/1 does not meet the contact in the cover organization. He is briefed to offer the story, on his return, that he had entered into a regular arrangement with the cover firm to produce feature natural quable by the cover firm (not specifying the frequency) in return for thich he is to receive a monthly retainer.
- D. Any letter GRECHI/1 may later wish to send to the cover fire should be given to us in copy preferably before it is sent.
- E. Copies of any correspondence initiated by the cover firm abcula be made evaluable to CIA and, particularly, to the Project Case Officer.

SUBJECT:

\_ QREBONY/1 - Amendment of Memorandum of

Oral Commitment

- 1. The Memorandum of Oral Commitment with QREBONY is amended effective 15 June 1966 to provide indemnification in the amount of \$10,000 in case of death, and payment of \$600 per month up to \$10,000 to his wife in case of total incapacitation or disappearance.
- 2. It is anticipated that a trip planned for late summer or early fall will take QREBONY into VC controlled areas of South Victnam, North Vietnam, and China. Indemnification is intended to apply to death or disability resulting from air accident, act of war, or for disappearance.
- 3. Without being able to specify the possible circumstances, it is intended that such indemnification as outlined above be deemed to apply to loss of life or functions suffered by QREMONY as a direct result of his KUMARK relationship during the trip. Such indemnification, if made, must be presented to his widow by a cover mechanism which would hide KUBARK involvement.

|                                  | 10 Pebruary 1966 Jab              |  |  |  |

A Provisional Operational Approval is granted for the use of this Subject as set forth below.

A Provisional Operational Approval issued by CI Staff grants the same authority, on a temporary basis, for the use of an individual as the authority granted in an Operational Approval unless other/ise specified by CI/OA. It is based, however, only on preliminary file checks and investigation and is subject to a further final review when all investigation is completed.

- (1) POA is granted to utilize Subject in an international context to exploit his contacts and/or associations with a wide variety of personalities and organizations (particularly Suban and Chinese) engaged in "anti-imperialist" propaganda operations. Subject will be expected to renew his old relationships and expand his circle of contacts with Afro-Asian national liberation leaders, pro Chinese Communist, and similar personalities and to report general political and biographic material relative to the interests, activities and plans of such individuals and their organizations.
- (2) Requirements passed to Subject will be confined, insofar as it is operationally feasible, to instructions for the refinement and completeness of the reporting he is capable of providing from his normal intercourse with source personalities. Disclosure of classified information will be held to a minimum, he will not be given operational assignments supporting or servicing other <u>KUPARK</u> operations, nor will he participate directly and/or vittingly in the spotting and/or recruitment of other agents
- (3) In addition to this background, certain of Subject's past statements and behavior are inconsistent with, and give rise to an uncertainty about, the nature and degree of his presently professed motivations and loyalties. It is impossible to resolve this uncertainty with the knowledge now available. At the present time, therefore, it is believed that his bona fides have not been established to an extent which would warrant handling him in any way than "at arms length".

To process the Operational Approval, full information (completed PRQ Parts I and II) must be submitted as soon as possible and not later than six (6) months from this date. An Operational Approval will follow when all investigation is completed and upon the receipt of satisfactory PRQ Parts I and II. Cancellation must be requested if use of Subject by interested Divisions ceases.

- (4) This case has been discussed in detail on several occasions between representatives of CI/CA, CI/ICG, and CA/CP and there is agreement that it is primarily because of Subject's Lacaground and contacts that he is of interest and, therefore, it is believed, if he is handled with circumspection, the possible benefits to be derived justify the security risks involved in the use of Subject within the limits set forth above.
  - (5) Folygraph is recommended at least once a year.

4. Q feels that she is emotionally unstable—his firmness in dealing with her, his making in clear he was not out for her body, have made him a guardian and true friend. She seems to be a good political reporter, understanding her own (confused) political yearnings and where her various contacts stand; she also seems to have a good memory for details. Q says that her "anti-revisionism" is incipient anti-Communism. He could eventually recruit her as an ODYOKE witting agent, but that would take a lot of time and trouble; with much less effort he could effect a and indeed, he has already done this on an informal basis by making it clear that he was collecting material for his Chicom friends. She would undertake further assignments for him. He actually asked her, "Suppose I asked you to go somewhere, would you go?" To which she replied. "If it's not cold." It is unlikely, however, that she would be able to return to because of Phombeah's hostility. Wherever she goes, her main asset will be her physical attraction.

5. She could be debriefed further on any point raised in the tape interview. The ideal would be to have the questions by the time Q goes to Rome in the second half of April, but this does not seem to be a likely possibility.

Similarly, we will not dwell here on the mechanical arrangements we have evolved (with SWOTH's agreement) to expedite the passage of information to JAGUAR, on the one hand, and avoid duplicate reporting (prinicially by passing the same materials as CS dissens to SLOTH) on the other hand. Suffice it here to say that achieving both of these goals, without compromising CREECNY as a source throughout both JAGUAR and SMOTH (due largely to the wide range of areas he reports on), is a complex problem. We think we have reached a mutually satisfactory arrangement for achieving both aims. 2. What we are concerned with here, then, is JAGUAR's CREBONY for the time being at least. The exact phrasing from JAGUAR's letter, agreeing to our request is: ""ith regard to the continued **ORYBONY** while we have no objection to this provided we are kept fully informed of as much detail as possible."

We have no objection to this
provided we are kept fully informed of as much detail as

- 6. Some. It should be noted that the contemplated cover will not be a relationship which the Agent (any more than the cover) will proclaim or flaunt, given the fact that in his highly anti-American circle, such a connection would be regarded as unsavory. The purpose of the cover is to backstop the Agent's story that he receives income from back journalism which he beens separate from his "real" if unrewarding involvement with radical politics.

A. QR\_BONY/1 (Q) gives the convincing impression that he is at home in his new work. He responds well to suggestions and instructions, adds suggestions of his own for improving the plan— an indication that he wishes to please. In the beginning he showed a tendency to raise minor objections involving personal material problems (e.g., inconvenience to family life of a long tdy) but less of this was remarked as he came to realize that requirements were to be reasonable and he was to be treated as a human being with his own problems.

He has stated that he would not continue his present involvement with target personalities and institutions if it were not that we wish him to, i.e., his own inclination would be to withdraw from the political fringe. Rodigast feels that this is consistent with his background, which was not a party career; in his youth he was willfully apolitical and hostile to the "movement"; later he was involved in opposing party people in his New York work; in Paris he didn't get along with his party friends (the affair of the forged letter) and of course broke with the magazine crowd there.

He seems to be genuinely committed to working against enemies of CDYCKE, ready to accept even deeper commitment; he has expressed no reservations as to what he will do. He doesn't object to reporting on old friends, fellow FBFRIMERS, et al. He raised no objection to FLUTTER, or using s/w techniques (which he took with him on a trip to what was then a very hostile area, where he had known enemies, and where there was a recent history of fealing roughly with outsiders). When orders conflict with personal desires (for example, when he planned to spend a weekend in a city he enjoys but was told he should proceed immediately to his next stopping place), he obeys without hesitation.

The foregoing is a collection of miscellaneous facts, but taken together they paint the portrait of a promising agent, both in terms of motivations and abilities.

B. Rodigast's knowledge of Q's attitude in the months prior to recruitment (June 1965) is limited. Rodigast has the impression Q had simply reached the end of his rope—he had nowhere to go, he had earlier decided that he would like to work for or at least cooperate with ODYOKE (although earlier attempts to make contact met with no success). The humane treatment received at the hands of his recruiter, the subsequent sympathetic handling by his case officer, undoubtedly convinced him that he had not made a mistake.

The material factor is not to be underestimated. The denoralizing position of living on his wife and worse, on her family, must have lowered his resistance to any possible alternative. Rodigast simply doesn't know how Q might have responded to a reasonable offer from energies of ODYCK at that point. The prospect of immediate engagement at a decent wage may have been decisive.

Since that time, Rodigast feels Q's motivation has been reinforced and perhaps considerably altered: he has been asked to do obviously necessary tasks, and so he can feel he is needed by someone; he has been given reasonable instructions on how to accomplish them; he sees that others are concerned for his personal safety and material wellbeing. Rodigast has taken pains to avoid giving the impression that there was any confusion or error or difference of viewpoint in running the project (even at a time when there were plenty of all three); such problems were

resolved before being taken up with Q, and thus he has a somewhat rosy vitw of the operation. The satisfaction of accomplishment (i.e., being able to produce useful answers to our questions) is surely a factor in his present attitude.

Though light-skinned, with a voice and accent which would be considered acceptable in any CEPRILL society, Q is extremely sensitive to the fact that he is a Negro. He has not said or suggested any such thing to Rodigast, but this is so obvious a factor in his correspondence (even discounting the extent to which the correspondence is part of his conscious cover) that it seems to Rodigast that it must be a factor in his life. On the other hand, Rodigast has known another Negro who was a close friend of Q (and now one of his major enemies, as a result of the Paris forged letter incident and contributing events) who was so sensitive about race that he makes Q in retrospect seem like an Uncle Tom.

Still. Redigast does not believe Q could be handled by someone who is not genuinely a "nigger lover", i.e., who could not convey a convincing image of a person for whom a color difference was not a barrier (Q would surely detect the false "pal"). Q has mentioned anti-Negro prejudice as a reason for his refusal to cooperate with ODATTY. officers who talked to him while he was in New York. In fact, Q deals, with his present case officer as a possible if not a true friend; they share an interest and involvement in writing, English literature, living happily abroad, etc.; Rodigast has tried to read Dante in the original and Q has done so; Rodigast would like to write a novel and Q has published one; Rodigast doesn't know much about the post-logical positivists who interest Q but probably gives a convincing impression that he would like to know about them, and just might be capable of understanding them. What all the foregoing means is that in Q we have an accomplished person, and it is a useful tactic to treat him if not as a superior than at the very least as an equal.

There remains the possibility that opportunistic reasons are primary: Q joined the organization and stayed with us because he could not do as well in any other job, could in fact get no job (because of his background, his alien status abroad, etc). Rodigast does not exclude this, although he feels that whatever the original motivation, it has been strengthened and perhaps converted into something more worthy. But even if his primary motivation remains material, the history of the project over its first nine months suggest it is a viable one.

C. Q has lived in the underground for so many years without breaking that it is likely he will be able to continue to do so. He thinks fast, handles himself well in matters presenting security problems. He is not fully trained for clandestine activity. Rodigast's long meetings with him always include advice on one or more specific aspects of clandestine work, which when added yp may be taken to represent a short course, but that is all. The lack of training has led Q to do or say things which Rodigast would not have wished him to do or say, and whenever possible this has been brought to Q's attention, and he seems responsive to such instruction.

Rodigast would not recommend that Q be given a training course, but this would not preclude more formal sessions with Rodigast during which Rodigast could give more complete instruction on various phases of clandestine work.

Q gives the impres ion of not being easily moved. He has already survived violent attacks, questi ning by legislative committees and police (including abroad), public demunciation; now that he has KUBARK as a friend he should resist at least as well as before. One negative trait is his need to take revenge for injury, and this tendency must be controlled; his instinct to be spiteful to an enemy could conflict with a longer-range plan.

It is to be hoped that the present situation regarding his wife (who believes him to be working for the arch fee of IBERIME) will be possible to maintain. She doesn't like the situation much, but accepts it, and apparently hasn't betrayed his "confidence". If he is moved to another city which both Q and his wife would consider agreeable

she would probably be even happier and less likely to revolt. especially if a quarters allowance helped them get out of their present financial straits (they can pay rent and buy food but not save or repay debts- so his wife says he is doing an unpleasant thing without even being able to say they are better oif than they were in Paris). If he were sent to a less agreeable place for six months or a year he would went to settle his wife in a desirable place (London for the children's schooling; here too her attitude but preferably would depend on their material cosition and on the possibility of his being able to visit on occasion (if he were in say, and she he would return for visits -- which would also be cover for his meetings with his case officer). Rodigast recommends that once in place, Q's basic wage be raised (as promised in June 1965) irom \$600 to \$800, but that he also receive quarters and if possible an educational allowance.

D. Q says he is a local PBPRDER. He now does act like one. Rodigast feels the evidence for "his loyalt" is at least as good as it is for most other PBRRIMERS he knows. Early in their relationship (probably mid-June 1965 in Paris) Q had said he had turned away from the revolutionary movement and toward his own country; even though there were opportunistic reasons for him to have done so, he is seeningly not anti-PBPRIME. His views on Negro problems in PBRPIME probably have not changed, but he never was a black nationalist, and has many friends, besides his wife, who are white). He might not agree with ODY. Ki policy in Vietnam, Cuba, or elsewhere -- he obviously has not been questioned on his personal beliefs—but his dissent, if dissent there be, is not disloyalty, and in any case should not prevent him from executing KUBARK policy to the letter. Undoubtedly he has a leftist economic orientation, but there is no evidence that it is an orthodox Marxist one (or that it ever was).

He seems to like Rodigast; in any event they work well together. He has made no effort to develop a warm relationship with Rodigast, however, apparently feeling that this is not necessary, might not be appreciated, and would con: lict with the compartmentalization so obviously kept in force by Rodigast (who hasn't told Q his true name, address, marital status, or any other personal fact which might lead to identifying him). Seemingly Q does not believe the name which Rodigast used at their introduction was a true name, for he didn't bother to remember it (the last name), and all this would tend to discourage the building up of a personal friendship.

It is probable that he respects rather than scorns KUBARK for its decent treatment of him. NUBARN through Rodigast has always kept its promises, hodigast has never been a minute late for a meeting (Q has rarely been a minute or two late, and in recent meetings—presumably because he feels that hodigast's never-failing appearance on the precise second of the meeting must mean that this is required KUBARK practice—he has been even more precise. Rodigast is always ready with a suggested solution to a security or other problem which will be faced by Q in carrying out a new assignment.

On the other hand, part of Q's satisfaction with MUBARK might derive from a feeling that MUBARK is a "soft touch". Rodigast does not recommend that anything be done to change Q's opinion (if he really does hold it); Rodigast feels that we are going to pay Q as much whether he likes us or doesn't, and for the same money we might as well make sure he likes us and will do his utmost for the organization rather than simply be a timeserver keeping up appearances. If given cause for resentment, his behavior is unpredictable, for he hasn't much to lose—reputation for lyalty, good name, etc. One solution would be to give him enough so that he would indeed stand to lose much.

Q appears to possess a realition, same view of ODYNE, what its people are like, what can and can't be done by it. As already indicated, he seems to be as loyal a FBFRIER as other people who don't give much thought to the matter, certainly a lot more loyal than his background would lead one to expect. In any case, we have no recent evidence to contradict his statement that he considers himself to be a loyal PBPRIER; it may just be true. If it isn't, this won't make any difference to the project as it is understood by Rodigast.

Q is unlikely to hold sympathetic feelings for CDENT, having had what he described as an unfortunate experience or two with them. On the other hand, he is sophisticated enough to assume that his reporting on PBPRILER is of concern to CDENT, and he must know that his own suggestion for tdy in PBPRDE to contact target institutions and old friends there would put him into ODENTY territory. He would probably accept any necessary collaboration without showing that he didn't like it.

E. Rodigast does not believe Q is at present working for another service, but it is difficult to know what would happen if another service approached him. Rodigast assumes he would report this to us, just as he reported in detail the overtures by two persons apparently working with the services of the country in which he resides. As part of the present operation involves the possibility that Q will in fact be approached by the opposition, and Q is aware of this, one assumes he is prepared to remain loyal to KUBARK; one would also assume he would recognize the heightened value of his services to us should he be approached by the other side and continue to remain loyal to us.

Q certainly would not agree to work for an opposition service for peanuts, but if offered a considerable sum of money (given that he just breaks even in his present arrangement with us, in the thinking of Q's wife), there is no telling what he would do. Then recruited, Q was told he would get a raise once he got settled "in place" (to \$800), and when this promise is kept he will have enough extra money to begin to pay debts and buy clothing, and thus have more concrete evidence of the material advantages of his present arrangement.

Rodigast would be very surprised if Q agreed to work for an opposition service not for financial reasons but through ideology.

Q likes to live well. He believes in wearing good clothes, staying in good hotels, being able to invite others out for food and

drink. He says that in the revolutionary movement poverty is no virtue, but merely indicates lack of influence. He says that the most popular persons are those who can dispense money, alcohol, and women. This may well be true. It is certainly true that such a role would please Q immensely (that is, having a plush apartment in which he could entertain target personalities, satisfying KUBARK's requirements and his personal desires).

F. Q must be dealt with firmly, with continued serving of requirements and planned itineraries for trips. At the same time, it is obvious that he improvises well when left without instructions; he is versatile, and can create situations which will result in an intelligence product. Rodigast's method is to suggest reasonable plans and to be ready to show that they can be implemented, and how they can, anticipating objections.

While there is no evidence that if left alone Q would drift, dragging out an assignment to fill time, it is possible that he would. He has not written as many free-lance articles as sodigast would have liked him to, because each requires thinking out a subject, gathering material, selecting a point of view and thinking of the public to which it would be addressed—a lot of work for articles meant to serve mainly as cover, for publication in obscure organs, or perhaps merely to be used to convince editors that he was active. On the other hand, he produced the first issue of the newsletter in record time, following instructions to the letter (indeed, accepting what must at times seem like petty editorial changes made by Rodigast). Perhats he produced the latter so efficiently because he saw in it added prestige, an opportunity to get his name back before the public in a respectable context.

Ideological motivation would not seem to be a level of control in his case. What is most important is his contentment with being (he hopes) a permanent part of a large organization, with a steady salary (he has never said this, of course); the power of ODY KE is less important than its known reputation for keeping its premise to pay, something one doesn't find among the opposition groups known to Q, and he finds new examples of this daily.

Doubtless, his tendency to bear a grudge is a factor here—Q is now in a position where he can thumb his nose at some of his enemies.

Rodigast feels that considerate dealing with Q, letting him know where he is going, what he can expect, not changing the rules abruptly or pulling a rug from under his feet, letting himsee the possibility of small but certain increases in material benefits in the course of his career, compose the ideal formula for handling him. In the course of time, the ideological factor, which is perhaps marginal at this time, would probably be reinforced, could one way be a major factor. Q, meanwhile, must feel that the persons who deal with him are concerned with his material wellbeing and also of his physical safety, appre iating the risks in his work and understanding that not all assignments will bear fruit. Our relationship with Q could be destroyed very rapidly if we failed to pay him as promised, or wasted his time with make-work, or came him confusing or contradictory instructions which suggested that KUBARK was not the all-powerful institution he may now think it is.

G. Very early in our relationship Q said that he would like to make a career in KUBARK, outside now, perhal inside some day. He would work in PBPRIEL or abroad. There was no indication then, and has been none since, that he regards the present relationship as a distasteful one to be terminated as soon as conditions permit.

He would like to settle in en expatriate's paradise, such as Paris or nome, presumably involved in journalism and other writing. If he could do these things in connection with his work formus, so much the better.

H. Q is conscious of the need for security and handles himself well—as well as an amateur could in this context. But he is far more naive about techniques and especially the nuances of technique than Rodigast would have expected in one who had been involved in the revolutionary movement for so long. He often needs instruction on obvious points, and responds quite well to it, the exception being his clumsy handling of the s/w method—he is an interlectual and not a technician, and Rodigast assumes that he (Ridigast) would not do much better if forced to use some technical system.

Q is quite observant. He will recall a personal remark made to him by Rodigast from one month to the next. His reports written some time after the event are thorough and apparently accurate.

He read A Spy and His Master by Christopher Pelix, and has mentioned it a couple of times when a remark by Rodigast reminds him of something sain in the book.

Rollgast doesn't think that even after training Q would be very good at throwing off surveillance (for example) as he seems too matter of fact to be sly, and perhaps slightly lazy about what might be gratuitous behavior (e.g., changing subway trains or taxis just on the assumption that someone might be following him). Rodigast's solution is not to depend on Q for such things, but to attempt to plan meeting and stage other operations so as to minimize the need for dependence on Q's skill in such areas. After patient briefing Q does understand the need for tradecraft efficiency, and as already noted he follows the advice.

I. At first Q cas quite concerned about money—he needed an advance for clothes, for travel, etc. His requests were really plaints, and he may have left the impression that he thinks of nothing but money. It was the complex of a poor boy who never had anyone he could turn to—despite a scholarship he had to leave a fine college after a brilliant freshman year. Once he received his advance and began receiving his money at the beginning rather than at the end of each month, and when he realized that he would receive complete and prompty reimbursement of expenses, he began to relax. Now he submits accountings without himself totalling the figures or keeping his own record (Rodigast knows this for he has seen Q's notes), so he must rely on us to tell him how much he claimed for (even Rodigast would never do that). He is, in sum, relaxed.

The same ease is to be noted in his substantive work; he submits his reports knowing he has done his best, and done well; he accepts compliments with a very slight nod. When Addigast First met Q in a hotel room, Q had something of the munted man. He still seems harried, slightly nervous at the moment of contact, but on the whole he is more sure of himself.

At the outset, Q would argue about assig ments, suggesting alternatives, worrying about not having time to buy tickets, or enough money to pay for them. Now he accepts instructions without a murmur,

even when they contradict a previous tentative plan. His excellent response to instructions may be his desire to please, his satisfaction with his job, or personal pride in accomplishment. Whatever the reason or reasons, the fact is that he does respond well.
