As reported in Reference A, paragraph 1, the medical/vocational rehabilitation program has reduced the number of individuals receiving monthly medical dependency payments to six "hard core" cases. One of this number, a serious medical case who resides locally, (Faustino MARTINEZ Camejo), is funded by Garcia Lines. The background of the cases and previous correspondence with Headquarters regarding resolution of the problem is contained in References B through I. Being forwarded Under Separate Cover are Attachments A, B and F, the case histories for (HERNANDEZ), (PEREZ), and (MARTINEZ). Of special interest is Reference C which forwarded case histories on (MOLINA), (ORTEGA), and (POZO) for analysis and comment by the Medical Staff. Medical reports originated subsequent to the submission of the Reference C report and are being forwarded Under Separate Cover as Attachments C, D and E.</p> <p>2. The current status of each of the remaining cases is summarized as follows:</p> <p>a. (HERNANDEZ Hernandez, Raul) (201-290405) EPILEPSY</p> <p>Receiving outpatient treatment from Dade County Department of Public Health Anti-Convulsive Clinic. 3. It is requested that the Headquarters reviewing ⁶action ⁶described in Referonco C for handling the cases of (MOLINA) (ORTEGA) and (POZO) be expanded to include all the remaining cases and that JMWAVE be ⁶informed of the conclusions reached concerning the ultimate disposition of these cases.

4. FYI. An amount of \$250,000 was originally authorized for the medical phase of the AMBUD Program. Expenditures under this program have reached a level of approximately \$245,000 with bills outstanding at the present time of \$3,250. It is evident that the cases remaining which require medical treatment as outlined above will necessitate the expenditure of sums in excess of this amount.
