The plot is led by Cubela and some of the March 15 movement. plus (writer believes some military officers)

"They must move more quickly because more and more people learning of the plot and thus growing risk of exposure. They are anxious to have some coordination or at least consultation with responsible Americans. They ~~are~~ are not confident that they could win an all-out fight against Castro for a few hours, killing Castro & his most effective men. They must wait for anything the Americans might do to help when the coup is attempted. They also wished to alert the US Govt as to what was being planned."

3/ 5-2

The Cubans might have turned to Earl Williamson, CIA Madrid, but believe him to be unreliable as Cuban govt sent Madrid some time ago saying Castro fooled Williamson. He arranged for her to work with International Rescue Committee. She returned to Madrid w/ plans of plot. Plotter asked Espinosa to be go between with reliable American officials. Top security man released to Havana while we report of plotters invited in Spain for answer.

Espinosa returned to N.Y. called O'Brien of FBI and asked to be put in touch with serious and reliable man from CIA.

Espinosa told story to "HAI" of CIA. Espinosa believes that someone else went to Spain to see back story.
