interview with Walter P. Haltigan 3111157

SECRET

Date: June 13, 1978

interviewed by: Mickey Holdamitt and Betsy Wolf

A copy of the omnibus letter was given to Mr. Haltigan who read it and indicated that he understood the contents.

H Mr. Haltigan was given a copy of CIA # 435-173-A which consists of a cover letter dated 12/12/63 from Robert H. Hamprell to the Chiefs of SR and WE and to the Chief of Station in Paris forwarding a memo dated 11/25/63 which was written by Thomas S. Casarin to Walter P. Haltigan concerning Casarin's prior interest in Lee Harvey Oswald. This document served as the basis for our questioning.

H Haltigan stated that in 1963 he served as Chief of the Soviet Section of the Paris station under ~~diplomatic~~ cover. He explained that Casarin was also an officer in the Paris station but he served ~~under non-official cover and worked out of his home~~ using cut-outs to make contact with others in the Paris station. Due to the nature of this arrangement, Casarin frequently wrote informal memos such as the one in #435-173-A which were then passed along to the station. These memos would then be forwarded to Headquarters, generally by Haltigan. In this particular instance, Hamprell, who served under Haltigan, forwarded the letter to Headquarters because Haltigan was in the hospital at the time.

H Haltigan explained the following portions of Casarin's memo:
- "REDWOOD" represents the Soviet Division.
- The "6 Branch" was the Operational Support and Research Branch for the Soviet Division. Its main function was the collection of

C

information. Casarin was chief of the 6 Branch until his transfer to Paris.

- KUTUMF was the cryptonym for the Office of Operations which is currently known as the DCO. If the CIA wished to contact a returning defector, it would have made contact through this office. However, Haltigan stated that it probably was not standard operating procedure to interview returning defectors due to a variety of factors such as a lack of proper follow-up measures or the fact that these cases would have fallen into the jurisdiction of the FBI.

- ODAID was the cryptonym for the State Department. Haltigan explained that it was not unusual that Casarin would have seen a State Department dispatch on Oswald as it would have been routine to receive most of State Department memos.

- Casarin's recollection of having discussed the Oswald case "in Summer 1960" as stated in the memo, must have been a mistake. Instead, he probably ^{meant the summer} should have ~~it~~ of 1962.

- BI refers to biographic information.

- **DOVE** was a cryptonym for a cover which was probably a business firm. KU DOVE was the cryptonym for the DDP.

H. Haltigan explained that in paragraph 3, Casarin's ^{did not mean} ~~reference~~ that he was phasing out of the DDP altogether. Instead, his reference to phasing out of the DDP referred only to his Headquarters assignment within DDP.

- **ABOCEAN** was the Legal Traveller program, whereby they (the DDP) gave certain ^{persons} travelling to Soviet bloc countries observational requirements which they reported back to the Agency upon their return.

SECRET

1955 to 1958 or 1959.

~~SECRET~~

From 1/58 until 4/61, Haltigan worked in SR/9 which was Special Operations within the Soviet Union. SR/9 was composed of 6 persons at this time. He explained that SR/10 was responsible for the Legal Travellers program which utilized U.S. citizens and that SR/2, 3, 4 & 5 ~~were~~ ^{were} responsible for running foreigners in that program. Since Haltigan ^{by SR/10} was generally apprised of those persons who were travelling to the USSR under the program, he expressed the belief that it was almost impossible for them not to have known if Oswald had had some involvement with the Agency in this capacity.

Haltigan advised that SR/9 was responsible for maintaining its own records which they kept in the same manner as DDO files. If someone needed to know if a particular person was being used, they would be able to check it through the files. However, Agency association would not be directly reflected in a 201 file. Instead, there would be a paper in the file ^{referring} ~~directing~~ to another file in which operational information would be stored. Haltigan explained that a 201 file documents the person but not what the person is doing. A 201 file ~~would~~ ^{might} contain a PRQ, Part I which is entirely biographical information, a security check and newspaper clipping concerning the individual. A case file, on the other hand, reflects the operational information. A case file would have a two part number, such as 74-6, where the first number reflects the country or area of interest and the second number refers to the specific operation. In regard to the accessibility of case files, Haltigan stated that the area of primary interest is reflected on a 201 file opening sheet and that ~~SR/9~~ ~~SR/10~~ go to that branch to seek operational information.

When asked about the significance of CI/SEB opening Oswald's 201

file, Haltigan responded that he couldn't really say as he does not know what CI/SIG was doing at the time.

H.
Haltigan was asked whether it was possible to purge an individual's file of any operational information by removing any ^{such} reference cards in the 201 file and then removing the pertinent information from the case file. H.
Haltigan stated that he does not know of this type of thing occurring in his experience. He stated that file maintenance was essential for the protection of the operation and stressed that SR/9 in particular was meticulous in its file maintenance.

Interview with Marguerite D. Stevens

Date: June 13, 1978

Interviewed by: Mickey Holdsmith and Betty Wolf

Ms. Stevens was given a copy of the omnibus letter whereupon she read it and indicated that she had no questions concerning the contents.

Ms. Stevens stated that she was employed by the CIA from 1945 until her retirement in 1968, during which time she was assigned to the Security Research Staff within the Office of Security. She stated that she was specifically assigned to the CI portion of this staff as a Researcher. Eventually, she had seniority in her department which had a bearing on her specific job assignments, but she did not have any kind of supervisory authority. During the late 1950's and early 1960's, she believes that Sheffield Edwards was head of the Office of Security while Bruce Solie and his deputy, Jack Rempney, were her more immediate supervisors.

Ms. Stevens advised that the purpose of the Office of Security is to ensure that the Agency is not penetrated. Its responsibilities were to conduct background investigations on all potential employees and to deal with defectors from other countries in establishing their bona fides and then gathering information from them. She had no immediate recollection of any dealings with American defectors.

Ms. Stevens was given a copy of a 10/31/60 Memorandum to the Chief, Security Research Staff ^{that} which she had written on the subject of American defectors. After reading the memorandum, she advised that she recalled having files on American defectors in order to determine whether those persons had penetrated the CIA and ^{thus} whether any of them presented a security risk to the Agency. She stated that

~~SECRET~~

~~SECRET~~

3111163

she did not know whether other components within the Agency would have been apprised that files had been opened on ^{the} ~~these~~ individuals mentioned in this memo. When asked if she knew Ann Egerton, Mrs. Stevens replied that she knew her and worked with her peripherally.

In regard to the 10/31/60 memo, Mrs. Stevens was asked about the significance of the line, "Several of the above referred to defectors have been of interest to CIA." The "above referred to defectors" included Simon F. Mitchell, William H. Martin, Robert E. Webster, Lee Harvey Oswald, Gherardo Ricciardelli, Vladimir Stoboda and Joseph Dutkiewicz. At first, Mrs. Stevens stated that LHO was of interest because of the assassination but when it was pointed out to her that the memo was written three years before the assassination, she stated that she could not recall the significance. She stated that "MS" indicated a miscellaneous Office of Security file which would be used for anything other than an employee file. She stated that a newspaper clipping on a defector would have been cause to open a file for future reference purposes.

Mrs. Stevens was shown a copy of the 10/31/59 Dept. of State telegram regarding Oswald's defection and his offer to give the Soviets information ^{and} ~~obtained~~ during his military service. This document, in the original, appears in the Office of Security's file on Oswald.

Mrs. Stevens stated that she had no recollection of working with the Oswald case until after the assassination, nor did she know who would have received this document in the Office of Security. She stated that she did not know whether, ^{in fact,} the CI staff would have received this information, but she thought that they should have had it.

Mrs. Stevens stated that she could not recall ever opening a 201 file.

~~SECRET~~

~~SECRET~~

3111164

Ms. Stevens advised that she knew of no agency utilization of Oswald. She stated that she received much information regarding the Oswald case and none of it reflected an agency connection.

In regard to the Garrison investigation, Ms. Stevens stated that they were interested in anything that tied to LHO in any way. When asked if the CIA had an operational interest in Clay Shaw, she responded that she recalled nothing ⁱⁿ connection with Shaw other than the general "who struck Tole" issue. She explained that this phrase meant "who killed Kennedy" to her. She had no specific recollections regarding David Ferrie. Ms. Stevens stated that she knew of no action taken by the Agency to impede the Garrison investigation in any manner. She recalled spending a lot of time on this investigation, but considered it to have been perfectly normal to have done so in light of their interest in the Kennedy assassination and in LHO. She further stated that the Agency would have been vitally concerned to see whether any of Garrison's suspects had any connection with the CIA.

Ms. Stevens was asked about her knowledge of the HTXINBUAH program. She advised that she knew that the Office of Security had something to do with the project, but that she had no specific knowledge concerning it.

Volume I of file #351-164, the Office of Security file on Oswald, was shown to Ms. Stevens. She stated that she had no recollection of having opened that file and noted that the handwriting on the newspaper clippings at the beginning of the file was not her own. She did recognize her initials as being on some of the other documents and identified CIA #1249-1010 as being an Office of Security index search request

~~SECRET~~

~~SECRET~~

that she had ordered to be run on Marina Nikolaevna Oswald, Lee Oswald and Maria Puzakova on 10/12/61. She did not recall what prompted his request at this time. She stated that this type of file was maintained in an Office of Security file room.

Ms. Stevens stated that in regard to the post-assassination investigation of Oswald, she had the basic responsibility for the Office of Security research.

Interview with Mina Voellmy Vance

Date: 6/28/78

Interviewed by Betty Wolf and Dan Hardway

Mrs. Vance was given a copy of the omnibus letter which she read and indicated that she understood.

As to her employment with the CIA during the period 1961-1964, Mrs. Vance stated that she was employed on a full-time capacity as a contact specialist in the Los Angeles office of the Contact Division of the Office of Operations until June of 1962. At that time, she got married and moved to Denver where she worked part-time as a contact specialist.

She stated that her responsibilities in this position entailed interviewing people throughout the community who had traveled overseas. When asked how she became aware of these such persons, she stated that they came to her attention largely through newspaper articles, referrals and academic publications. Most of her leads were developed on her own rather than ^{on} from instructions from Headquarters. She advised that travelers were not usually contacted prior to their departure since the Contact Division would not be aware of them at that point.

Mrs. Vance stated while she, as a contact specialist, elicited most any kind of information from her contacts, she primarily sought information that was not public knowledge. With regard to photographs, she advised that photographs of the Soviet Union were routinely checked to see if there were any of restricted areas, military installations, etc. If photos appeared to be of interest, they were sent to Headquarters.

~~SECRET~~

Although she advised that she did not know what happened with respect to the photos at Headquarters, Mrs. Vance said that the photos would ultimately

3111167

~~SECRET~~

be sent back to her, whereupon she would return them to her contacts.

Mrs. Vance was given a copy of FOIA Doc. # 614-261 which is the 3/20/64 memorandum to the FBI informing them of the photo of LHO which was found in the CIA's files. As Mrs. Vance read the document, her comment was that it was "amazing." She ^{just} stated that she had no recollection of the contact with ~~the~~ ^{Kramer} and Namau. She could remember going to Solvang but could not remember the nature of the contact. She also stated that she had never seen this particular document. She thinks that these persons probably came to her attention from the Los Angeles newspaper or from the academic community but she has no specific memory as to the circumstances surrounding this contact.

Mrs. Vance advised that, in regard to photographs, the Agency was not interested in tourist attractions but in photographs that might provide information of a military, scientific or geographical nature. When asked whether there were any regulations governing Contact Division contacts and collection, Mrs. Vance replied that they did have interest guidelines for people and photographs which would have been in the form of written requirements that were periodically updated. However, she could not recall the specifics of these requirements.

Mrs. Vance advised that she did not remember why photographs were taken from Mrs. Kramer or why the Agency would have kept them. She believes that she would have sent the photos to Headquarters ^{whereupon} and they would have been reviewed and returned to her for return to

Mrs. Kramer. She had never heard of LHO prior to the assassination of JFK and was not aware that there is any of the photos she had acquired.

Mrs. Vance was shown a copy of MH-A-29005 which is a Process Sheet for DOLC collections regarding the four cartridges of slides received by Mrs. Vance

~~SECRET~~

(Lita Volney) from Mrs. Kramer. Mrs. Vance advised that she would have prepared this and sent it to Headquarters. She doesn't remember whether Headquarters ever contacted her regarding the substance of the photos. She then looked at a 4/30/62 Presentation Form for Graphic Material concerning the above-mentioned cartridges along with an attached listing describing the contents of the cartridges. She advised that the Los Angeles office would have prepared this list based on her contact with Mrs. Kramer. In light of the fact that the list specifically notes the presence of an artist guide in some photos, Mrs. Vance was asked whether artist guides were a specific requirement in photo collection. Her response was negative.

A copy of a photograph marked HH-12546 was shown to Mrs. Vance. She advised that the categories listed along the top side of the photograph are probably filing system references but she stated that she was not familiar with the manner in which photos were filed or referenced at Headquarters. As to the significance of this particular photo, Mrs. Vance stated that she does not know why they would have copied this photo. ~~The~~ ^{The} only reason would have been the fact that there was a crane and therefore possibly construction in the background.

At this point, Mrs. Vance said, "Who on earth ever identified Oswald in that picture? Someone must have spent a lot of time going through photographs."

Mrs. Vance was shown a copy of WA-63368. She advised that it looked like a telegram from the Contact Support Division at Headquarters to the Los Angeles office. She stated that she was ~~not~~ not contacted by anyone in the Agency regarding the outstanding questions raised in this document nor regarding this photograph in general.

3111169

In regard to Informator Report # 00-B-3, 212, 967, a report of her contact with Kramer and Naman, Ms. Vance advised that this is the standard form used for an interview report and that it was routine not to name the source on such a document as it was routinely disseminated to other agencies. The source's name would be used on a transmittal or process sheet because those were internal documents. She also stated that the reason that the photos weren't mentioned in the interview report was due to the different interests of the people receiving this type of report.

Ms. Vance stated that she had never been contacted regarding her contact with Kramer and Naman and the photo containing Oswald by the CIA, the FBI or the Warren Commission. She further advised that this was the first time it had ever been brought to her attention.

1) Only 10 of 117 returning U.S. defectors were interviewed by the CIA, primarily by the predecessor Domestic Contacts Division.

2) There was no policy to debrief returning American redefectors from the USSR. The CIA relied on the FBI for reporting the results of interviews it may have conducted in connection with its responsibility for internal security matters.

3) There are no manuals or regulations for the period 1958-1963 which specifically address the subject of U.S. defectors.

9/18/75 memo, Paul Hartman to Chief, LI Staff; RE: Allegations of LHO's connection w/Agency; Ref.: Memo of Conversation, Dan Ratter / Yes, Yodgley & the DCT, Dated 9/6/75

1. Memo contains 2 pts. which require comments. 1st pt. concerns allegations made shortly after assass. & later that LHO had been connected w/Agency. "The alleg. are totally unfounded."

2. Facts re this matter are as follows:

a. 11/27/63, instructed by R. G. Rocca to make a thorough check w/in Agency at HQS to determine whether LHO had ever been used by Agency or connected w/it in any way. Ordered me to make checks directly & personally to degree possible & not to accept stmts. of intermediaries. He explained he was following instructions from Helms, then ADP & who served as 1 of Agency's key contacts w/H.C.

b. Had checked Main Index of LP (then RFD) on night of assass., & rechecked Main Index & found no record beyond that which I had obtained before (plus items integrated into records system since assass.). Nothing in DDO records indicating any Agency connect. w/O.

3111185

c. DCD - no record in HQS files. Arrangements made for me to check telept. w/each DCD base in US. Chiefs of Base searched their records & spoke w/their officers. I was then advised by each of Chiefs or their designees ^{individually} that there had been no contact w/O.

d. Then checked w/ Director A, SE Div. & LA's Div's Lab. Ops. Group (COB)

for any informal disk records. Results - neg.

e. Through Security Research Section (SRS) of OS I had sec. files checked - no record of O.

f. Altko, CRS keeps no recs. on Ans., I checked their Sov. Pass. & Cuban Holdings - no record.

g. In my presence the chief of CI Staff's Admin. Office called OP & rec'd. word that there was no record on employee or applicant for employ. named LHO.

h. Checked Office of Medical Services - no record.

i. Court Action Staff - no record.

j. CI Staff's Operational Approval Group (CI/OA) - no record.

k. Checks completed on 12/4; sent brief informal note to Area specifying checks made & stating results showed that LHO had never had any contact w/ Agency. Eventually a stat. to this effect was communicated to H.C.

3111186

3. Similar checks re use or empl. of O had been made ^{by} foreign divs. of their appropriate stations, I was told, & results - neg.

4. Recall concern that O, as an Am. returning from USSR, might have been routinely debriefed by ACA, thus having estab. contact w/ Agency

(3)

1158-1000
(cont.)

Same pt. has now been made by 2 CBS newsmen. "Having some know-
ledge of this subject I have personally concluded that there is valid
reason for DCB's lack of interest in O at that time. He would surely
have been contacted & debriefed by DCB had he been in the USSR
& ret. to the US before 1957/1958. Travel to the S. U. by Russians,
particularly by Am., before that time was quite uncommon. We were hungry
for eyewitness info. in those days. ^{The} thaw began in @ 1956 & by the
end of that decade there were so many persons travelling to & from the
S. U. that DCB was incapable of talking to all of them. Therefore,
a program of selectivity & specific target applicability was in-
stituted. In light of the above, it seems to me that O - if he
came to DCB's attention at all - would have easily been by-passed,
because he simply did not possess the type of info. that DCB was
seeking at that time. DCB would surely have used its ext. man-
power in travellers who ^{had} had much greater access in the USSR."

3111187

5. Should be added that above-described search produced no record
or indication that any other U.S. govt. agency had used him as
a source or had considered him for recruitment.

6. 2nd pt. concerns papers avail. at HOS in O before the assass.
Specifically, there were 5 docs. which had been sent to Agency before
assass. - 2 by FBI, 2 by SA & 1 by US Navy. A 201 file
had been opened on 12/9/60 on basis of receipt of 1st of these 5 docs.
The 201 file contained no agency originated records. The MCS's
reporting of monitoring of O's activities had not yet been included in 201 file.
Espionage cables from M.C. were held at Mex. Branch at HOS, while data
contained in them had been dissem. to FBI upon receipt. Cables were

incorporated into file following areas. & were made avail. to all concerned, incl. H.C.

7. No parties great ^{attacked} negatively was path to handling of madame O before access because O's name had no past meaning before then.

8. Facts re records we possessed before access, as well as make up of our computerized records system were explained to ^{Chief Justice} ~~Mr. Harter~~, member of Comm. & group of Comm's staff members when they visited AQS in @ 3/64. 201 file on O also shows them. These visitors were satisfied w/ records system & manner in which we kept our records.

Attached: 9/6/75 Memo of Conversation: ^{Don Ratten & His Ridgely} ~~A. R. & H. M.~~ 9/3/75

Written by W. E. Colby, Dir.

3111188

- Discussed fact that CIA had not contacted an ex-Marine who worked in the S.U. & returned.
- I stated that CIA had no contact w/O either during Russ. period or afterwards.
- Ratten pointed out Helms' agitation over Marx allegations; I stated it was easily explained that Helms would be concerned that such false alleg. ^{be made} ~~was made~~ against CIA. Also stated he knew of no indication that H's agitation was because H was revealing info. @ Agency which Helms wanted to remain concealed.
- W/ respect to O's appearance in our records, I exp. that CIA might well have shield off from any interview w/ her if there was indication of prior FBI interest. As for the military, I said the Inter-Agency Source Register did not indicate Mrs. O. was a U.S. source & that DCS Joint Briefing Program w/ the mil. services from 1953 on

would probably have indicated any mil. debriefing for intell. purposes, but none appear in our files, so I believed none existed.

Has becoming increasingly interested in watching developing pattern witnessed in 6: the # of Sov. women marrying foreigners, being permitted to leave USSR, then divorcing; settling abroad w/out returning "home". ~~ABDOUCARIS~~ case was among 1st of these; also turned up @ 2 doz. similar cases. Established links bet. some of these women; K&B. KUDOVSK became interested in the developing trend. Partly out of curiosity if O's wife would accompany him to our country; partly out of interest in O's experiences in USSR, that we showed ^{until} interest in the Harvey story.

609-786 3/17 Memo for Chief, CI/R & A
Subject: Article alleging LHO was interviewed by
CIA employees

1. 2/22/64 Northern Va. Sun article alleges that "State Dept. records show that O held several mtgs. with the CIA rep. in the US Embassy in Moscow. ~~During this period~~ One State Dept. cable, No. 234, dated 11/2/59, reports that O was interviewed by the CIA & other embassy officials."

2. Allegation is completely unfounded as follows:

a. Article cites S.D. "cable" No. 234, dated 11/2/59 - must mean S.D. despatch No. 234, dated 11/2/59.

b. "Despatch contains no statement or inference that Richard E. Smyler, the 2nd Secy. of the U.S. Embassy in Moscow, who talked w/O on 31 Oct. 1959, has CIA connection. S's name is the only name of a person who might have spoken w/O."
