Bob,

There are, in my mind, two distinct problems which have to be addressed by the Task Force. These are (a) a final proofing of the sterile copy of the file, and (b) ensuring that the machine run accurately reflects what actions were taken with regard to full and partial declassification.

In the case of the final proofing only one person review the entire sensitized file to ensure consistency in the released product, eliminate duplicate materials and pick up any errors which may have slipped past, i.e. crypts etc. This should not take long, perhaps a day and should probably be done by a person with a fresh view, i.e. not having done the declassification.

The second problem may take more time. It would be the reviewing of each of the documents indicating what declassification, if any was done and accurately reflecting the action on the machine run. This would be a two man job. An attendant problem would be indicating on the machine run whenever duplicates bearing other numbers appear in the file. (In some cases we have found two, three or more copies of the same document, bearing a different number, larded throughout the files.) A tertiary problem is the marking on the machine run cases of drafts, research notes etc. My recommendation for this phase would be for a person from the Task Force, familiar with files and the entire exercise work jointly with a person from C/CI/ERO's office.

This file highlights **differences**
between the 2025 release, and previous releases.

Red: Newly revealed in 2025.
Blue: Present in earlier releases, but not in 2025.
Black: Unchanged between versions.

Notes:

Black text on a blue background indicates content
that was previously redacted using black ink.

I did my best to be accurate in revealing what is new,
but please confirm with the original sources
where accuracy is essential.

Re your remarks on a report to DDO for DCI and other DD's on the declassification exercise, it will include the following: -

Number of documents ~~XX~~ reviewed.

✓ Number of documents declassified entirely (including those with minor sanitization, such as removal of crypts, slugs, true names, etc.).

✓ Number of documents partially declassified (portions of text removed which cannot be released because of substantive content).

Number of documents remaining classified.

Number of documents referred to other agencies.

Number of manhours spent on the exercise, with professional and clerical breakdown (for possible cost estimates in future).

Number of pages of documents copied.

Are there any additional items you wish included?
