### Jack Anderson and Les Whitten

Maria mobster John Roseili may have taken the secret of the John F. Kennedy assassination with him to his death. He was brutally murdered a few weeks ago, his hacked-up body stuffed into an oil drum and dumped. into Miami's Biscayne Bay.

Before he died, Roselli hinted to 25sociates that he knew who had arranged President Kennedy's murder... It was the same conspirators, he suggested, whom he had recruited earlier a to kill Cuban Premier Fidel Castro.

By Roselli's cryptic account, Castro learned the identity of the underworld contacts in Havana who had been trying to knock him off. He believed, not altogether without basis, that Pres-Hent Kennedy was behind the plot.

The Cuban leader, as the supreme irony, decided to turn the ables and use the same crowd to arrange Kennedy's assassination, according to Roselli's scenario. To save their skins, the plotters lined up Lee Harvey Oswald to pull the trigger.

Reselli could never be pinned down on names or details. It was also difficult to assess whether he knew what he was talking about or whether he merely described what he thought might have happened: Certainly there is no real evidence to support Roselli's story. But there are enough curious. circumstances to justify telling it. Here are the fascinating highlights. "

The ruggedly handsome Roselli, a flamboyant mobster with underworld contacts in Havana, was recruited by the Central Intelligence Agency in 1960 to assassinate Castro. He had no authority, however, over the underworld elements in Havana. . .

They were under the loose control of Florida's Malia chieftan; Santos Trafficante. His gambling enterprises in Havana had been closed down by Castro after the 1959 revolution in fact, Trafficante had been lodged for a period in a Cuban fail, an indignity that didn't endear Castro to him...

After Trafficante made it back to his Florida haunts, he left part of his organization behind in Havana. Some of his henchmen even managed to develop contacts in Castro's inner circle. These were the people Roseili wanted to use to knock off Castro.

. But Roselli didn't have the stature inside the Malla to make the necessaryarrangements with Traificante. So Roselli called in his patron, the Chicago godiather Sam (Momo) Giancana, to deal with Trailicante.

. As Roselli's associates tell it, he persuaded Glancana that it would be to their advantage to win the good will of the CIA. Convinced, Glancana flew down to Florida to make the preliminary arrangements.

Once Giancana and Trailicants set it up, Roselli used the Havana underworld to plot Castro's demise. At first, they tried to plant poison pills, supplied by the CIA, in Castro's food. The pills would have made it appear that he died of natural causes. When this failed, sulpers were dispatched to a Havana rooftop. They were caught

The word reached Roseili that some of the plotters had been fortured and that Castro had learned about the whole operation.

The CIA called off the Roselli operation in March, 1983, but recruited a Castro associate, Rolando Cubela, lo murder Castro.

Beln an impromptu, three hour interview with Associated Press reporter Daniel Harker, Castro indicated that he knew about the attempts on his life. and warned that U.S. leaders also might not be safe. That was Sept. 7. 1983.

According to Roselli, Castro enlisted the same underworld elements whom he had caught plotting against him. They supposedly were Cubans from the old Trafficante organization. Worlding with Cuban intelligence, they allegedly lined up an ex-Marine sharpshooter, Lee Harvey Oswald, who had been active in the pro-Castro movement

According to Roselli's version, Oswald may have shot Kennedy or may have acted as a decoy while others ambushed him from closer range. When Oswald was picked up, Roselli suggested, the underworld conspirators feared he would crack and disclose information that might lead to them. This almost certainly would have brought a massive U.S. crackdown on the Maffa.

So Jack Ruby was ordered to eliminate Oswald, making it appear as an act of reprisal against the President's killer. At least this is how Roselll explained the tragedy in Dallas.

Several key CIA officials believed that Castro was behind the Kennedy assassination.

It has also been established that Jack Ruby, indeed, had been in Cuba and had connections in the Havana underworld. One CIA cable, dated Nov. 28, 1983, reported that "an American gangster type named Ruby" had visited Trafficante in his Cuban prison...

# CIA Withheld Data in JFK Probe

After President John F. Kennedy was struck down on Nov. 22, 1963, the Central Intelligence Agency received evidence suggesting that Cuban Promier Fidel Castro arranged the assassibation in retaliation for attempts on his life.

Yet sources privy to the secret discustions at the highest levels of the CIA during those hexite days now tell us that the CIA deliberately withheid the evidence from the Warren Commission investigating Kennedy's death.

Our sources cite two reasons for holding back this eridence. One was a resolve to cover up the secret that the CIA had enlisted Mails mobiters to kill Castro.

There also was a legitimate concern that the Castro revelations might toframe the American people, whose grief could have turned into a terrible wrath, that might have peccipitated some rash action.

Only a few key people knew about the CIA plot to assassmane Castro. One was Attorney General Robert F. Kennedy, who was his brother's personal watchdog over the CIA. It has now been mitablished that Robert Kennedy was briefed on May 7, 1597, about the attempt to use anderworld inliers to knock off Castro.

Two days later, Robert Rennedy captioned the CLA not to go alread with the insumation without consulting him. Since Robert Rennedy rode herd on the CLA it must be assumed that he was kept advised of subsequent assassination attempts. However, there is no

documentary evidence of thes.

Records now available show that
Robert Kennedy informed FBI thief L

Edgar Hoorer of the plot on May 10.

1962. Yet neither Kennedy nor Hoover later dryulged this important information to the Warren Commission.

Of course, various CIA officials also knew about the assessimation scheme. Not the least of them was the late CIA chief Allen W. Dulles, who approved the original plan. He later served on the Warren Communission, yet he sat silently throughout the investigation without mentioning the Cuban angle.

Within hours of President Kennedy's death, the U.S. embany cabled information from Mexico City suggesting that the Cubans may have been behind the assassination. Our sources say that the CIA developed similar information in Washington.

The first person to reach Robert Rennedy's nide after the shooting war CIA Director John A. McCone, who remained alone with the Attorney General at his McLean, Va., home for nearly three hours.

McCone twore to us that Castro's name was never mentioned during the three hours. But CIA records show that the next day McCone not only mentioned Castro to the new Fresident, Lyndon B. Johnson, but briefed him on the information from Mexico City.

Yet no one brought the Cuban connection to the attention of the Warren Commission. We were the first to get word of the and-Cistro plot to Chief Justice Earl Warren, the commission chairman, four years later.

We are now free to reveal our role in the drama. Two of our confidential sources, CIA agent William Rarvey and mobiter Jonn Rosseill are deed. A third source, attorney Edward P. Mor-

gan, has waived the confidentiality we had promised him.

Morgan told us in January, 1987, about the CLA Maila assassnation plot against Castro. He raised the possibility that the plot could have backfired against Prendent Kennedy. There were suspicious circumstances, he pointed out, indicating that Castro may have learned of the ettempts on his life and may have retained against Kennedy.

Morgan refused to identify his sources because it would have violated the attorney-client privilege. But he was an attorney of such stature that we didn't doubt his word. He had deen thief unspector of the FBL He had directed the historic congressional investigation of the Pearl Harbor bombing. Later, he ran the investigation into the extenses of the late Sen. Joseph McCarthr.

We got Morgan's permission, to write a custions story. We confirmed the general outlines from a CIA source. Then on March 3, 1967, we wrote that Robert Kennedy "may have approved an assassmation plot, which then possibly backfired against but late brother."

The next day, according to records now available. Kennedy's secretary culled for a copy of the May 7, 1992, memo, which summarized the brieflog he had received on the assassination now.

On March 7 1987, we reported more decide "A reported CIA plan in 1983 to assessmant Cuch"s Pidel Castro," we wrote, "may have resulted in a counterplot by Castro to amortinate President Kennady."

# House Votes 280-65 to Probe Kennedy, King Assassinations

By Mary Russell Weshington Post Stall Wager

The House created a select committee yesterday to investigate the assasisinations of President John F. Kennedy and Dr. Mactin Luther King Jr.

The 12-member committee, established on a 280-to-65 vote, will be haeded by Rep. Thomas Downing (D-Na) for the remainder of this Conigress, Speaker Carl Albert (D-Okla.) said. Downing, however, is retiring, and Rep. Henry B. Gonzalez (D.Tex.). with Downing a prime sponsor of the terimittee, is expected to become chairman in the new session next Jan-

Downing said he would ask for \$250,000 to get the committee started and hire staff, but Rep. Frank Thomp son (D.N.J.), chairman of the House Administration Committee which must authorize the funds, indicated yesterday he might be reluctant to approve that amount

1 Because the select committee expires at the end of this year and will have to be re established by the House mext year, it should wait until then for

dunding. Thompson said

· Dewaind said the committee would not hold public hearings before the "Nov. 2 elections, to avoid charges of kapitalizing politically on the investigration, but he said it might hold some alosed hearings in order to preserve testimony.

Reasons for looking again at the 1963 Kennedy assassination, he said.

are revelations by the congressional intelligence committees that information about CIA attempts to kill Cuban Premier Fidel Castro was withheld from the Warren commission, the murder of two Mafia members enlisted by the CIA to help assassinate Castro, and the destruction of notes on Kennedy's autopsy and a note by assassin Lee Harvey Oswald to a member of the FBI.

The commission headed by Chief Justice Earl Warren investigated the assassination of Kennedy in Dallas. and cencluded that Oswald acted alone.

But Downing said yesterday, "I am convinced there was a conspiracy involved. I do not know the identity of the compirators or their motives That should be investigated in depth."

Downing promised to engage in no witch builts" and "not blame those who may have made mistakes in the original investigation."

Rep B F. Sisk (D-Calif) called the planued investigation a waste of taxpavers' money to satisfy "the melodramatic desire of the morbid to create an incident "

Though Downing and Gonzalez set out more than a year ago to create the committee they were going sowhere untit they received a push from membe s of the Congressional Black Cauous who felt they had received "new Information" in the 1978 killing of Martin Luther King Jr. that called for a congressional investigation

DC Del. Walter Fauntroy and Rep. Yvonne Burke (D Calif.) confirmed that the information came from writer and TV producer Abby Mann, who is working on a documentary on Ring's death, and from writer Mark I are, one of the first to doubt the Warren Commission conclusions.

Reportedly the information has been known since 1968 but never investigated by the FRI

It deals with the removal of King's black security chief from his side shortly before he was killed it. Memphis, and the sudden transfer of two black fitemen from the inchouse across the street from the motel where King was staying and was shot.

Edward Redditt in charge of scewrity for Kinz, was ordered to go home. about 4 pm on the day of Kina's death, because of a reported attempt on the life of Redditt's family.

The order was atributed to Memphis Fire and Police Director Frank C Helloman, who had worked for the FBI for 23 years part of the time in the office of the late Director J. Edgar. Hoover, who had tapped King's phone, and ordered surveillance of the civilrights leader.

Floyd Newsum, one of the black firemen abruptly transferred from the fire station across from the motel. said he had attended a King rally in-Memphis and, though he publicly teld. of the transfer at the time, says he was never interviewed by the FBI.

Did Oswald Talk About JFK Slaying?

Did Lee Harvey Oswald tell Cuban officials shortly before the assassination of President Kennedy, that he was going to kill the President?

According to a senior source at the Justice Department, former FBI Director J. Edgar Hoover wrote a memo in 1964 saying that he was told so by a highly reliable informant who was supposed to have gotten the story from Cuban Premier Fidel Castro and good and 31 23 wide to while the memo apparently does not identify the informant, Oswald was known to have visited the

Informant, Oswald was known to have visited the Cuban Embassy in Mexico City about a month before the assassination, and, according to recently released CIA documents, he had been in contact with three of Castro's suspected intelligence agents. The Justice Department source said Hoover's memo was addressed to the Warren Commission, but there is no record of its having been delivered to the commission.

WASHINGTON POST

By George Lardner Jr. Washington Post & All Writer

The chief counsel for the House investigation of the murders of President Kennedy and the Rev. Martin Luther King Jr. promised yesterday a thoroughly independent investigation that would not rely on either the FBI or the Central Intelligence Agency.

The congressional inquiry, which may take two years, would be "the laughingstock of the world" if it depended on any government agencies for its detective work, said Richard A. Sprague, chief counsel for the new House committee on assassinations.

He told reporters at a breakfast meeting that one of the chlef reasons for the new investigation into President Kennedy's death 13 years ago was the fact that the Warren Commission did not have its own investigative staff.

The commission concluded, in the fall of 1964, that Lee Harvey Oswald, acting alone, had killed the President from the sixth floor of the Dallas School Book Depository.

It later turned out that some FBI documents concerning Oswald had been destroyed and that both the CIA and the FBI had withheld relevant evidence concerning CIA-sponsored plots to kill Cuban premier Fidel Castro.

Widespread complaints have a so been raised about the FBI inquiry into King's death for which James Earl Ray is currently serving a 93-year term in Tennessee.

The Senate intelligence committee disclosed last year the FBI had waged a persistent undercover campo an to discredit King that continued even after the civil rights leader had been killed in Memphis in 1968.

Sprague said the importance of a thorough, independent investigation was the chief reason that the new assassinations committee is seeking a 170-member staff. Unless the Liquity can be conducted in a definitive, oraclessional manner that will attempt to resolve every pressing doubt about both killings, Sprague said, it would be better not to undertake it at all.

"There's no halfway part in this thing," he declared, "It's either got to be done thoroughly or you don't do it"

Sprague envisioned a staff of 15 "attorney-investigators" and another 25 investigators for each of the two killings. A career prosecutor from Philadelphia, he also plans to hire a 50-member "document and research unit" that will attempt to compile and collate every available document on the two assassinations and make sure that all new bits and pieces of information and channeled to the appropriate investigators.

A legal staff of five to uphold the committee's subpoenss and other powers, a security team, a two-member polygraph unit, along with requisite clerical and secretarial personnel, would complete the proposed committee staff.

Of polygraphs and the newer, socalled "stress evacuators" Spranue said that "I do not think that either of these two instruments are infallible I would not use either ore in a court of law. But as an investigative tool, they are valuable."

He said a stress evaluation which artempts to measure tensions in a person's voice, munt be used on tape reone of tensions as with earlies not from ble form a property

Subject to simply the sign of figures of pick of this in CIV and the months for the sign of the pick o

possible request of that nature. In a criminal investigation, he said "You just don't march 'em [with, -es] in and lef them give their version of something."

The investigation into the two creassinations will proceed simulatine ously and has already started vita the issuance of committee subjectors for pertinent records in the curry of law enforcement agencies in it as and Tennessee.

Speaking of the King case. Someone said it was "most unusual" that Tennesses uthorities did not most in a full interrogation of Ray and out statement from him in return for the plea-bargain whereby he received a plicar sentence instead of the death penalty.

"I think it is most unusual where some pody is obtaining guilty to the marder of an individual and obviously questions have arisen whether or not others were involved, or others were bollon it," Sprague said.

He said the committee starf virian numbers about 30 at present 15 3.50 attempting to check into reports that some records concerning police sarticitizate of King before he was whed man have been destroyed recently in correction with an apparently widespread destruction of surveillance records in Memphis.

At a special meeting of the Shelby County (Tean.) Law Enforcement Committee yesterday, United Pross International reported, the committee chairman, Joe Cooper, said all local records pertinent to King's assassination would be proven intact.

"The guy in Wshington overloaded his mouth when he said records were destroyed and then left it har just?" Color was quoted as saying "We're 20, if to put it on the record for the media and the public to see that the records are infact."

WASHINGTON (UPI) -- THE HOUSE COMMITTEE ON ASSASSINATIONS HAS SUBPOEMED FORMER CIA OFFICER DAVID PHILLIPS TO TESTIFY ABOUT LEE HERVEY OSWALD'S SOVIET AND CUBAN CONTACTS IN MEXICO CITY.

"I HAVE BEEN SUBPOENAED TO TESTIFY BEFORE THE HOUSE COMMITTEE."

PHILLIPS SAID SATURDAY. "WHERE AND WHEN I CANNOT SAY."

PHILLIPS WAS INVOLVED IN CIA-SURVEILLANCE OF THE CUBAN EMBASSY IN MEXICO CITY IN 1963, WHEN OSKALD VISITED IT EIGHT WEEKS BEFORE PRESIDENT JOHN F. KENNEDY WAS HURDERED.

THE WASHINGTON POST REPORTED FRIDAY THAT THE CIA HAD INTERCEPTED AND RECORDED A PHONE CALL OSWALD MADE FROM THE CUBAN TO THE SOVIET EMBASSY IN MEXICO CITY DURING HIS VISIT. BUT THE POST SAID THE INTELLIGENCE AGENCY FURNISHED ONLY PART OF THE TRANSCRIPT TO THE FBI AND LATER TO THE WARREN COMMISSION WHICH INVESTIGATED THE KENNEDY MURDER.

THE POST SAID THE CIA DELETED THAT PORTION OF THE CONVERSATION IN WHICH OSKALD OFFERED "INFORMATION" OF AN UNSPECIFIED NATURE TO THE SOVIETS IN RETURN FOR PAID PASSAGE TO THE SOVIET UNION.

PHILLIPS TOLD REPORTERS FRIDRY "THAT GSHALD INTIKATED (DURING THE TELEPHONE CONVERSATION) THAT HE HAD INFORMATION WHICH MIGHT ES USEFUL TO THE SOVIETS AND CUBA AND THAT HE HOPED HE WOULD BE PROVIDED FREE TRANSPORTATION TO THE SOVIET UNION BY WAY OF CUBA ...

"I DO NOT KNOW WHAT CIA INFORMATION CONCERNING OSWALD'S VISIT WAS PASSED TO THE WARREN COMMISSION," HE SAID.

THE HARREN COMMISSION CONCLUDED THAT OSKALD HAS THE LONE ASSASSIN IN KENNEDY'S NOV. 22, 1963, DEATH. THE HOUSE COMMITTEE ON ASSASSINATIONS IS RE-OPENING THE INVESTIGATION.

### INVESTIGATIONS: Back to Square One

At daybreak, members of the Kennedy family prayed at the grave of John F. Kennedy. In Dallas, where the President was shot, more than 300 people attended a memorial service that had nearly been canceled for lack of interest. But while Americans marked the thirteenth anniversary of Kennedy's assassination last week, Congress was beginning yet another investigation of it. In what may become the nation's most extensive Congressional inquiry, the House Select Committee on Assassinations has subpoenaed records of the Kennedy murder and begun hiring a staff. At the request of the Congressional Black Caucus, the select committee will conduct a simultaneous investigation into the killing of the Rev. Dr. Martin Luther King Jr.

Many critics have never been satisfied

with the conclusion of previous investigations-that Lee Harvey Oswald, acting alone, shot Kennedy, and that James Earl Ray, acting alone, shot King. But a more important reason for another major inquiry into the Kennedy and King deaths seems to have been the recent disclosures of malfeasance and lawbreaking by the CIA and the FBI. The charges provoked strong suspicions that neither and may even have impededearlier investigations.

Piots: Both the CIA and FBI, for instance, are thought to have withheld information about a possible Cuban connection in Kennedy's death. Despite speculation that the government of Fidel Castro might have been involved in the Kennedy assassination—perhaps in retaliation for CIA efforts to kill Castrothe CIA did not tell the Warren commission of its plots against the Cuban leader. Recently, the Justice Department also uncovered a 1964 memorandum by the late FBI director J. Edgar Hoover, saying that Oswald about two months before the assassination, had told Cuban, officials in Mexico that he intended to kill the President.\* Hoover attributed this information to an informant who! claimed to have been told it by Castro. The Hoover memo was reportedly addressed to the Warren commission, but former staffers said they had no recollection of receiving it.

The committee also has some intriguing questions to consider; about King's assassination. It is known that the FBI-which led the original investigation into King's death-waged a cam-

paign to discredit him that continued even after his death. Last week the committee's chief counsel, Richard Sprague, said he found it "most unusual" that authorities did not fully interrogate Ray, or I demand that he tell all he knew about King's murder. Sprague, 51, a Philadelphía prosecutor who led the team that convicted former mineworkers' boss W.A. (Tony) Boyle for the Yablonski murders, is also checking reports that docu-ments relevant to the King case may have been burned last September in Memphis (Tennessee officials denied the reports).

Texas Democrat Henry Gonzalez, who is expected to chair the select committee when the new Congress convenes in January, has promised an investigation ' free of the headline hunting that has

characterized many Congressional commixtees. He and Sprague intend to hire 170 people to staff two separate teamsone for each murder. Their work could last two years and cost \$4 million. Says. Sprague: "I want an investigation where, if somebody says, But did you look into this possibility? I can say, Yes, we did'." The question is whether thirteen years after JFK's death and eight years after King's a comprehensive inquiry can really be conducted-and even if it can, whether it will answer all the doubts about their murders.

"At about the same time, Oswald telephoned the Soviet Embassy in Mesico City and offered to trade information of some sort for a trip to flusing. But it was revealed last week that the City, which interrepted the conversation, did not snake a complete transcript of it available to either the FBI or the Mesica complete transcript of it available to either the FBI or

### Recommendation in JFK Probe

# Warren Critics Cite Role on Sprague

By George Lardner Jr. -,. Washington Post Staff Writer . . . ,

Two leading critics of the Warren Commission's report on the assassination of President Kennedy said yesterday that they recommended Philadelphia lawyer Richard A. Sprague as chief counsel for the new House inquiry into the murder.

ny into the murder.

One of the critics, Mark Lane, also said that he sounded out Sprague about the job at a get-together in Philadelphia Oct. 6 and subsequently accompanied Sprague to meetings with several members of the House Select.

Committee on Assassinations, including Chairman Thomas N. Downing (D-Va.), Sprague took the job Oct. 7.

"I went to Philadelphia, had dinner with him and came away convinced that if he was the man who did it, it would be an excellent investigation," said Lane, whose Citizens Commission of Inquiry has been pressing since early 1975 for a congressional probe.

The other Warren Commission critic, Washington lawyer Bernard Fensterwald, said he had initially been offered the top committee staff job by Downing, but turned it down, partly on the grounds that he could hardly be considered impartial.

The House committee has also been assigned to investigate the 1968 assassination of Martin Luther King Jr. Fensterwald represented James Farl Hay, who is serving a 99-year prison term for King's murder, from 1971 until recently.

In addition, as head of the private Committee to Investigate Assassinations, Fensterwald observed, "I've said for years that the Warren Commission report was a fairy story."

Lane and Fensterwald have been working for months with Downing and other members of Congress on the creation of the committee.

Shortly after the committee was created in September, Lane said that "Downing told me he was considering two people, Bud Fensterwald and me. I said either one would be a tragedy. You can imagine how tempted I was, but the media would have said, with absolute justification, that the committee had already reached a conclusion."

There has been considerable vagueness until now over the manner in which Sprague was selected. In an interview several days ago, for instance, Downing told a reporter that;

"Actually Sprague's name was submitted in a list offered by Congressman [Henry B.] Gonzalez I talked to Henry about it. He doesn't know, where the name came from But as I looked into it. I became convinced that he [Sprague] was the best for the job. "The looking in that same interview, Downing

In that same interview, Downing also said that Lane had never been considered. Of Fensterwald, the committee chairman said, "to say he was never considered wouldn't be right, but a lot of people were interested in this thing."

According to Lane, however, Down

According to Lane, however, Downing gave up on Fensterwald with some reluctance. Lane said that when he emphasized Fensterwald's role as Ray's lawyer, Downing countered by suggesting that Fensterwald could handle the Kennedy inquiry and Lane the investigation of King's murder.

"I said, 'No, no, that would be counterproductive," Lane recalled yesterday in a telephone interview. "I've worked too hard for this. [Downing aide Rick] Feeney said I was being too selfish, but I said, 'No, I'm being unselfish. I want an impartial committee to say I was right."

Subsequently, Lane said he and George O'Toole, another Warren Commission critic, batted the question of who should get the job back and forth over the telephone. Lane said he mentioned the name of a high-ranking lawyer in the American Civil Liberties Union, but "George" said, We're not really talking about a tivil libertarian, are we? We're talking about a tough prosecutor. I said yeah."

O'Toole finally came up with Sprague's name, because of his prominence and success as a special projecutor in the murders of United Mine Workers dissident Jock Yablinski, his wife and daughter.

That same day, either in late September or early October apparently, Lane went over to the Library of Cob-

gress, did some research on Sprague, and, duly Impressed, called him long distance. Lane said he made clear that he was "calling without portfolio" but asked Sprague, then in private practice in Philadelphia, if he would be interested in the job.

"He said the first thing you should know is that I worked for Arlen Specter [former Philadelphia District Attorney and ex-Warren Commission lawyer who authored the "single bullet theory"]. I said, 'I don't see that as a problem at all. In one week, you're going to be up to your hips in evidence of conspiracy."

Finally, Lane recalled, Sprague said he would be interested only if Congress wanted a thorough Investigation rather than "a spiash and a few headlines."

Lane said be then talked to members of the committee including Del. Walter E. Fauntroy (D-D C), about Sprague; got together with him in Philadelphia, and shortly thereafter, perhaps on Oct. 7, introduced him in separate meetings here with Fauntroy and Downing. Later, after Lane left for other engagements, the went on to meet Goizalez. He told me later, in essence that they'd offered him the job."

Sprague went on the committee payroll as acting director Oct. 7. He is known as a tough, independent prosecutor and those who have dealt with him in the past predicted yesterday that he would conduct a thoroughly independent inquiry. Washington lawyer Joseph L. Rauh Jr., who worked with Sprague in the Yabionski killings, said he recommended the Philadelphian to Fauntroy in the strongest terms. "He told a lot of congressmen he was going to be the boss and they said okay." Rauh said. "I think he's absolutely great."

# CIA Withheld Data on Oswald

Assassinations Panel Issues Report to House

BY NORMAN KEMPSTER

WASHINGTON-The CIA withbeld from the FBI for almost two months in 1963 information that Lee Harvey Oswald had talked with Cuban and Soviet officials about his desire to visit those countries, a House committee reported Friday 7274 Town

 The Select Committee on Assassinvations indicated in a report to the full House that its investigation of the murder of President John F. Kennedy would focus early in 1977 on a trip Oswald had made to Mexico City in

October, 1963.
Chief Counsel Richard A. Sprague said that the committee staff had learned that a CIA message describling Oswald's activities in Mexico to efederal agencies such as the FBI had been rewritten to eliminate any mention of his request for Cuban and Soviet visas. The message was sent in October, more than a month before the Nov. 22, 1963, assassination. 🚟

The CIA discovered Oswald's presence at the embassies through its routine surveillance of those facilities. Because Oswald had once defected to the Soviet Union, the CIA and I'BI had been interested in his activities

even before the Kennedy assassina-tion. The ClA's decision to withhold information was reversed shortly after Kennedy was killed. The agency re-. ported Oswald's efforts to visit Cuba and the Soviet Union both to the FBI cluded that Oswald was the assassin and had acted alone.

Sprague told a press conference that it was impossible without more information o know why the CIA had censored its own nessage.

But he said the incident raised two intersting questions what might the other igencies have done differently if they had seen more fully informed and why did the CIA decide to remove "information that was considered pertinent enough to be put in an initial draft of the message?"

There were no firm conclusions in the report, which the 12-member committee prepared after the first three months of its investigation into the murders of Kennedy and civil rights leader Dr. Martin Luther

Technically, the committee goes out of work could go well beyond the killings of business Tuesday with the end of the session of Congress in which it was formed. The purpose of the year-end report was to urge the new Congress to reestablish the ?

viously unpursued leads in both assassina-tions," the report said.

The committee said its staff investigators had recently questioned a former CIA agent who had "personal knowledge" of Oswald's visits to the Soviet and Cuban embassies in Mexico. As a result of that interview, the report said, staff members were sent to Mexico, where they found and questioned additional witnesses.

."These witnesses had never been sought out before by any investigative body, notwithstanding the fact that they had important information concerning statements by Lee Harvey Oswald in Mexico within-60 days of the assassination of President Ken-

nedy," the report said.

The report said also that the committee staff had interviewed a person who asserted that he had discussed the King murder with James Earl Ray, who pleaded guilty to the crime. The unidentified witness said that Ray had told him about contacting an associate in Europe to receive further inblructions. The story, which was told to reporters by a committee member several weeks ago, has not been verified.

In a letter to New York Times columnist Anthony Lewis, Ray offered this week to testify under oath at a committee hearing. But Sprague and Walter F. Fauntroy, the

District of Columbia's congressional deleand to the Warren Commission, which con- gate and the chairman of the King subcommittee' said that no decision had been made on accepting Ray's offer.

However, Sprague indicated that it probably would be accepted.

"Any and all people who have relevant information will be interrogated," Sprague

In a personal statement issued in confunction with the report, Rep. Henry B. Gonzalez (D-Tex.), who is to become committee chairman in the new year, said a thorough investigation was needed to answer hundreds of pressing questions, 🥕

Gonzalez said that the committee hoped to discover whether former FBI Director J. Edgar Hoover's now well-known animosity toward King had affected the FBI's in-Yestigation of the assassination. King ... Should his whome him with However, Conzalez said, the committee's

# FBI, Assassinations Unit Collide for First Time

By Jeremlah O'Leary

The House assassination committee and the FBI are beginning to take off the gloves.

Until this week, the committee and its feisty chief counsel-director, Richard A. Sprague, had been engaged in exaggeratedly polite conversations and correspondence with the FBI and CIA about the availability of evidence, records, doct ments, witnesses and other matters related to the murders of President John F. Kennedy, and Dr. Martin Luther King Jr.

Now the first collision has occurired: Sprague and the FBI have begun what may turn into the battle of the voulets, and the parties of the

The bullets in this instance are a "new" mangled one — which the FBI has and Sprague wants — found buried near Dallas' Dealey Plaza, where Kennedy was fatally wounded, and the original bullets from Lee Harvey Oswald's rifle — which the National Archives has and the FBI wants.

SPRAGUE, IN EFFECT, controls the bullets found in Dallas when I Kennedy was killed in November 1963, while the FBI controls the bullet found there in November 1974. The FBI is trying to obtain the bullets Sprague controls, and Sprague will soon be doing the same with the bullet controlled by the FBI.

The new bullet was found two years ago by Richard H. Lester in three inches of dirt near the scene of the fatal wounding of Kennedy. Lester is a Dallas security guard whose hobby is using metal detectors to look for lost coins.

He kept the bullet a secret for two years because he found it on railroad property near Dealey Plaza, about 61 paces from the Texas School Book Depository from which, the Warren Commission said, Oswald fired the fatal shots.

But after hearing of the new investigation. Lester disclosed his discovery last month on a local radio talk show and to a Dallas newspaper before giving the bullet to the FBI. The FBI has examined it, and a spokesman said it is so mangled that the caliber cannot be determined.

That is why, an FBI spokesman sald, it is important to get the Oswald bullets from National Archives where all the evidence has been kept since 1956.

tional Archives, James O'Neill, refused the FBI request for the bullets and informed Sprague. In turn, Sprague on Monday wrote to FBI Director Cl. ence Kelley that he considered it inappropriate for any agency to attempt to obtain evidence from the archives without discussing it with the House committee.

Even if the FBI's effort to get the Oswald bullets for new laboratory examinations was the result of an oversight. Sprague's letter makes it plain that be resents any end runs around the House committee by any agency.

On the other hand, the FBI chviously considers that it has not been relieved of its mandate to investigate new evidence, such as the new bullet, and is considering sending the dispute to the attorney general.

All this is complicated by the fact that there will soon be a new attorney general, a new CIA director and perhaps a new FBI director. And it is implicit in Sprague's letter of protest to Kelley that he considers the new bullet in possession of the FBI to be evidence to which he is entitled.

commitments from the CIA and F81 to give his investigators unrestricted access to all evidence and documentation about the King and Kennedy assassinations and he fully intends to use those promises of cooperation. What is not clear is how the committee and the agencies will decide who has priority in the custody and examination of such evidence as the new bullet.

It has been evident from the outset that the FBI and CIA will, for all practical purposes, be on trial when the House committee begins its hearings that are likely to go on for the

. .

by the two years. Errors and omissions by the two agencies, including information withheld from the Warren Commission will be as much a part of the investigation as the efforts of Sprague to determine who the assassins were and why King and Kennedy were killed.

Neither Oswald nor James Earl Ray ever stood trial for the murders of which they were accused. Oswald was shot to death two days after Kennedy was killed, and Ray was allowed to plead guilty to the murder of King and has been in a Tennessee jail ever since on a 99-year sentence. Ray has been unsuccessful in attempting to recant his guilty plea and is seeking a trial but he indicated in a letter last week that he would be willing to appear before the House committee.

THE FBI IS SHOWING no signs of looking for a fight with Sprague at a time when Kelley is fighting to retain his job in the Carter administration. The FBI's ordeal since the death of J. Edgar Hoover, the undistinguished career of L. Patrick Gray and disclosures of some low-order FBI misuse of government property and services has the FBI on the defensive.

But there is some reason to believe that Sprague can make good use of a confrontation with the FBI now when it is still far from certain that the House will agree to the \$6.5 million Sprague insists he needs for the first year of the investigation. Sprague is out on a limb, too, having publicly suggested that the job cannot be done properly with less money than he has asked for.

The House opened its first day of the 95th Congress by failing to give unanimous consent for reconstituting the committee. In addition, there will be hearings before the House Administration Committee and a floor vote before Sprague can be sure of the funding he requires. House insiders say the matter probably lies in the powerful hands of Speaker Thomas P. O'Neill. If the speaker wants the committee to have the money, it will be forthcoming.

Sprague has been clear enough about how matters such as the Dallas bullets will be handled. He will not rely on FBI lab reports but intends to hire his own forensle experts to evaluate ballistic evidence. To do this properly, it is clear that he will be asking the FBI for the single bullet it has obtained from Lester and that he will oppose any further FBI role in investigating the bullets or any other aspect of the Kennedy assassination.

# Mystery Witness in JFK Inquiry

A mystery witness has sworn to congressional investigators that a Central intelligence Agency agent introduced him to Lee Harvey Cawald in Dallas three months before Cawald gunned down President John F. Kennedy.

The witness, whom we have agreed to identify only as Mr. I because of attempts of his life, is the founder of a Cuban terrorist group that worked closely with the CIA.

The group hold secret meetings at \$126 Hollandale in Dullas before the assessination. Not long after Kennedy was shot, a Dellas deputy sheriff was told by an informant that Oswald had been associating with some Cubans at

"Ji28 Hariendale."

Mr. I's dramatic testimony casts new light on the story Sylvia Odio, daughter of a wealthy opponent of Cuban Premier Fidel Castro, told to the FBI. Two months before the Kennedy killing she residence was visited in her Dallas apages 52. By three men who identified is 2 to 1/2 as friends of her father.

One was introduced to her as "Loon Cawald." When the control picture in the newspapers of the man who had shot Kennedy, she fainted from shock. It was the same Carvaid, she was certain, who had visited her spartment.

Congressional is restigators have now learned that the late I. Edgar Boover deliberately misled the Warren Commission about Odio's mysterious visitors. She was ruch a persuasive witness that the commission staff was preparing to investigate her story thoroughly.

Staff members even speculated, according to one internal memo, that the

anti-Castro forces might have recruited Oswald, a known, pro-Castro activist to MI Kennedy

activist to kill Kennedy.
"The motive on this," states the memo. "would of course be the expecta-

ine nerve on tim, series the instion that after the President was killed. Cewald would be caught or at least his identity ascertained; the law enforcement authorities and the public would then blame the assessmation on the Castro government; and the call for a forceful overthrow would be irresistible."

But Hoover abruptly blocked this line of inquiry by notifying the Warren Commission on Sept. 21, 1994, that the FBI had located and identified Odio's callers. He named them as Loran Hall, Lawrence Howard and William Seymour, all anti-Castroites. Hoover even suggested that Odio could have confused the names: "Loran Hall" and "Leon Oswaid."

Now the congressional investigators have uncovered evidence that all three denied visiting the Odio apartment and that the FRI had obtained their denials before Hoover wrote his letter

to the Warren Commission.

The investigators have also obtained the tape of a fascinating conversation, predicting two weeks in advance that Kennedy would be shot "from as office building with a high-powered rifle." The prediction was made by the late Joseph Militear, a right-wing rebile rouser, who also happened to have close estimated by the anti-Cartro leaders.

The conversation was taped on Nov. 8, 1988, in Microi by an FRI informant named Willie Somersett, who turned the tape over to the FRI the next day. Milter is heard on the tape describing

how Kennedy would die. Then the rebble rouser added knowingly that Kesaedy "knows he is a marked man."

Hilteer later admitted to the FM that he had been in Dallas in June, 1968, but denied having any knowledge of the Kennedy assassination. However, the informant told the FM that he saked Militeer after the shooting whether he had known about it in advance or had merely been guessing. Too'l do any guessing, replied Militeer

But the most explosive development is Mr. It's statement that he met Oswald in the company of a CIA agest. Congressional investigators questioned the mystery witness closely on three separate occasions. They finally concluded that "his credibility is strengthened by the details he provides consistent with what he told us before. Significantly, he remains very strong on the Cawald sighting."

The encounter corurred in a downtown Dallas building, where Mr. X had an appointment with his CIA contact. The agent was accompanied by a man whom Mr. X later recognised as Kee-

pedy's killer.

When he saw it was Orwald that killed Kennedy," the hypothesistors reported in a confidential memo, "he nearly freshed sea, but he never said

anything."

The investigators tried to pin down Mr. X on how he could be sure that man was Orwald. Mr. X replied, accessing to the man, that he had beened "how to retain the characteries of a person he had trained bissessif to do that. And K is wasn't Orwald, it was someone who was seneral, his exact double.

# CIA Tied to False Oswald Story

The Central Intelligence Agence soked one of its Cuban operatives to help fabricate a story about Lee Harvey Oswald during the investigation of the John F. Kennedy assassination, the Cuban has told congressional investigators.

In an earlier column, we reported that the same witness rlaimed be had met the accused assassin in Dallas in the company of a CIA agent three months before Kennedy was killed.

We identified the witness only as Mr. X because of attempts on his life. But we have studied his detailed, confidential statements to congressional investigators. They interviewed him three times, cross-examining him closely. He gave them such specific information that they concluded he was a "credible" witness.

He told of meeting his CIA contact in the lobby of a Dallas office building in August, 1963. "This time he brought another guy," recounted Mr. X. "The guy never talked."

Mr. X explained that he had trained himself, as an underground leader, to memorize the characteristics of people he met. He immediately recognized the CIA agent's companion after seeing Oswald on television following the Kennedy assassination.

Not long afterward, the CIA contact made a strange request of Mr. X. There had been a report that Oswald had met a Cuban couple in Mexico. "You have a cousin working for Cuban intelligence in Mexico," the CIA agent said. "Why don't you just ask him, saying we'll bribe him, if he said it was really him that Oswald met."

It isn't clear from the confidential

transcripts why the CIA would want to sabricate this evidence. Perhaps the CIA could have sought to the Kennady's killer to the Castro government.

nedy's killer to the Castro government. In any event, the CIA agent called off the scheme, and Mr. X "never did talk to his cousin," according to a summary of the interview. It should be streamed that the interview in no way implicates the CIA in the Kennedy killing.

Ing.

The mystery witness first met his CIA contact in Havana before the United States broke off relations with Cuba. Mr. X had belped to organize a group of bank accountants, who embezzled funds from the Castro regime to finance anti-Castro causes.

The agent, who used the name Morris Bishop, recruited Mr. X to plan an attempt on Castro's life. The plotters planned to fire a bazooka from a nearby apartment while Castro was delivering one of his marathon speeches

The plot was discovered by Castro's police, and Mr. X escaped to Miami. He continued for a dozen more years to work with Bishop in the anti-Castro underground.

During Castro's 1971 visit to Chile, Mr. X tried again to knock him off. The plotters included a Venezuelan security agent, named Luis Posada Carriles, who was supposed to provide forged documents laying the blame on the Soviets. This plot, too, fell through.

Only a few weeks ago, the same Posada was indicted in Venezuela on murder charges in connection with the crash of a Cuban jetliner.

. Mr. X said he worked for the CIA until 1973 for expenses. When the relationship was terminated in 1973, he

said, Morris Bishop paid bim a lump \$253,000 in cash for past services.

Callgirl Trade—Women who take up the world's oldest profession, like most other career seekers who want to get ahead in life, are looking for "higher income and an independent, exciting lifestyle."

These are the "major motivating factors" that lead women into prostitution. So concludes a scholarly study of callgirls and streetwalkers, which has just been completed at the axpayers' expense.

Two distinguished researchers from the University of Washington, Dr. Jennifer James and Jane Meyerding, were assigned to find out why women become prostitutes. Their findings will be published shortly in a 32-page document, which has been bootlegged to us before it goes to press.

Not only do women become prostitutes for the sume underlying motives that "some people become lawyers," according to the learned ladies from Seattle, but the profession requires little schooling.

For the pay, there are "virtually no other occupations available" to women of modest skills, the researchers note. They conclude that prostitution will flourish as long as there is "a consumer demand." As they put it, "Economics is the pervasive thems of prostitution."

The study also dispels old wives tale about "fallen women," who sell sex because they hate men or have abnormal sex drives or are forced into the Dishess by "the coercion of brutal pimps."
