III-32 8"x11" color photo of one pair of white, brown, and grey patterned undershorts with laundry mark "O2B-6" positively identified by Esther Nieto, Home Service Laundry, as being marked by their machine between 3/4-3/18/68.

She identifies laundry mark on outside of shorts, the defective "O" and the time by the fact the machine was not working before 3/4, and they stopped marking underwear after 3/18/68.

Undershorts (Q69)

Memphis ~~Amose Co.~~

I-151 Albany Office of FBI advised that experts at Textile Making Machine Co., Syracuse, N.Y. advised that machine printing laundry labels on undershorts is unusual in that just two type characters are 15 pt. type and last three characters are 18 pt. with middle character, letter B, probably being narrow rather than regular type.

Unusual machine carries 15 pt type for just 3 characters ~~xx~~ plus 18 pt. type for last 2 characters. Machine is defective in that it is producing a tape 7/16 inches long instead of 1/18 inches long and not projecting the tape far enough resulting in cutting off a portion of the first letter.

Textile Making Machine furnished list of concerns who purchased Thermo-Seal machines capable of printing a five character code.

Jerome Wallis Vernon was shown photo of T-shirt and shorts recovered in Memphis. Believed t-ey were similar to ones brought in by Galt - size of T-shirt would be Galt's size. Not positive that underwear belonged to Galt.

Vernon identified laundry marking on underwear in photo as similar to his laundry's mark.

Didn't know Galt's first name but entries in laundry book give it as Eric.

Vernon operated Home Service Laundry & Dry Cleaning, 5820 Hollywood Blvd., Los Angeles, from Jan 16, 1968 to Mar. 23, 1968. Identified Galt as regular customer from 20 Jan. 1968 to 16 Mar. 1968.
