PROFESSIONAL SUMMARY

Inmate RAY, James E. No. 19121 Age 27 Date 7-19-55

This Professional Summary is being prepared at the request of the United States Penitentiary at Leavenworth, Kansas, where this former inmate is serving a sentence of 3 years and 9 months for Forging Money Orders. This request was forwarded from the Joliet Diagnostic Depot. The material in this Summary is derived from the files of the Criminologist and should be regarded as confidential.

Inmate was received at the Joliet Diagnostic Depot 6-13-52, to serve a sentence of 1 to 2 years for Robbery. He had held up a taxicab driver in Chicago, taking his vehicle, and was apprehended shortly thereafter by the police, who shot him during the capture. He admitted his guilt, stating that he was heavily intoxicated and had used a pipe in place of a gun, placing it at the back of the driver's body. He had previously been on a 2-year probation in Los Angeles, California, for burglary, he being caught in the act of entering a restaurant from a back stairway.

He was born at Alton, Illinois, [redacted] the oldest of three children, his father working regularly as a railroad brakeman until his death in 1917. He was raised primarily in Quincy, Illinois, where he graduated from eighth grade and later had some high school training under the G. I. Bill. He was in the Army between 2-18-46 and 12-23-48, when he was honorably discharged for lack of adaptability. He had been in Chicago for a short time prior to the offense, and had had several short term jobs as a factory hand or storeroom worker. He was unmarried, and seemed to be somewhat of a solitary person, with occasional alcoholic excesses.

On the Army Alpha examination, he scored 111, or superior. It was thought that he had no systematic delinquent traits, and segregation at Pontiac was recommended.

At Pontiac, he requested a farm assignment, and was so placed, after a short period in the inmates' kitchen. He worked as a cook in the farm dormitory, and a helper in the officers quarters, and was always considered an average worker. He had no punishment reports.

The latest medical report in our possession, dated 6-30-53, is essentially negative, and he was never referred to the Psychiatrist for any unusual or abnormal behavior. Our office had a couple of routine contacts with him, and it appeared that he had been behaving unstably ever since leaving the Army, and that he was subject to impulsive delinquent behavior in connection with drinking, which, in turn, was related to his tendency to become easily discouraged. Our last contact with him was on 2-19-54.

He was discharged by expiration of sentence on 3-12-54.

Stow E. Symon

PONTIAC UNIT

RELEASE PROGRESS REPORT

Name RAY, James E. No. 19121 Age 25 Color Date 2-19-54

DISCHARGE DATE 3-12-54

CRIMINOLOGIST'S COPY

Inmate was admitted to the Joliet Diagnostic Depot on 6-13-52, under a sentence of 1 to 2 years for Robbery, and was transferred to Pontiac on 7-7-52. On 5-14-53, he was given the Max "X" effective 3-12-54.

Inmate makes no physical complaints. He has received no punishment reports.

Inmate received no visits, and corresponds with his mother and brother.

He is now assigned to the honor farm, where he has been almost continuously, except for a brief period in the inmates' kitchen. At present, he is considered a good worker in the officers' quarters, and has been considered a good cook in the past.

His future plans are indefinite, although he will go to Quincy, Illinois, first.

Inmate's delinquencies seem due to impulsive behavior, especially when drinking. There is a relationship to inmate's tendency to be easily discouraged, and this tendency still exists.

Inmate has always been considered to be without psychosis or mental defect and, while in the institution and during the present examination, has evidenced no behavior which might indicate the need for a special psychiatric examination at the present time, although one will be attempted, if possible.

The prognosis is doubtful.

Stow E. Symon
Supervising Sociologist

PAROLE PROGRESS REPORT

Name RAY, James E. No. 19121 Age 25 Color White Date 4-9-53
Hearing Minimum Case Docket May, 1953

CRIMINOLOGIST'S COPY

This report is based upon the usual material gathered at the Diagnostic Depot, our attendance at Staff meetings, the receipt of Work Progress Reports, and one short and one long interview with the inmate.

The etiology of inmate's difficulties is not completely known. He seems to have been highly unsettled after leaving the Army, and we would judge that some traumatic experience occurred which he does not care to tell, or cannot verbalize. He seems to be rather solitary and unhappy, and there have been at least two instances of poorly thought out delinquent behavior connected with drinking.

When admitted, inmate expressed an interest in a farm assignment, and was placed in the inmates' kitchen temporarily, until an opening developed on the farm. He has been assigned to the farm continuously since August, 1952, as helper in the farm dormitory kitchen. The report of 10-21-52 characterized him as average in his attitude and in his ability to get along with officers and inmates. The report of 1-30-53 stated that he was good, as far as attitude toward his work was concerned, and ability to get along with officers and other inmates, but that he was only fair as far as proficiency, initiative, progress and ability to work in the free community were concerned.

He has had no punishment reports.

Little is known as to the associational pattern or friends.

He has had no visits, and corresponds with his mother and brother. If released he will have to be assisted by the Parole Officer.

It is difficult for us to make an adequate prediction in this case. In view of the two known instances of impulsive delinquent behavior connected with drinking, the lack of any indication of change or progress here, and the age at which this pattern was continuing, we would judge that he would eventually repeat this behavior, especially if discouraged.

Much would depend upon his obtaining some sort of placement with which he would be satisfied, and which would place him with people who were taking an interest in him.

The prognosis seems to be problematic to doubtful.

Stow E. Symon
Supervising Sociologist
