Transmitted herewith are two handkerchiefs containing sample tapes with codes D2B-6; 02B-6; and 20R-3.

The gray tape samples were obtained from Thermoseal machine, model H5H4B1, serial number 32794, located at the Chamblee Sunshine Cleaning Center, 2458 Carroll Ave., Chamblee, Ga.

The yellow tape code samples were obtained from the Shallowford Sunshine Cleaning Center, Shallowford Plaza, 2604 Shallowford Road, NE, Atlanta, Ga. from Thermoseal machine, serial number 34209.

One individual operates those two establishments plus three other establishments in the northeast Atlanta metropolitan area and he has a Thermoseal machine in each establishment. He advised that he has not used yellow tape at any establishment at any time except at the Shallowford Sunshine Cleaning Center, Shallowford Plaza, Atlanta, Ga., where samples were obtained. He stated that this establishment did use two rolls of red tape at one time; but the code 02B-6 or D2B-6 would not have been used by his establishment.

Inasmuch as this chain of laundries would not have used yellow or red tape except at the one location, no other samples were obtained.

The FBI Laboratory is requested to compare the sample tapes from the Thermoseal machines enclosed with those previously submitted in captioned matter in an effort to determine if those specimens could have been made on one of the machines from which the enclosed samples were obtained.
