ALL OFFICES PLEASE NOTE: Bureau teletype to All Continental Offices, 4/9/68, stated that all laundries should be contacted in an effort to identify the tape on the shorts and tee-shirt believed to have been abandoned by UNSUB. The Textile Marking Machine Company has advised that the above are the only machines known by that company to be in the above listed states which would be capable of producing the laundry mark on the garments. This company advised that the tapes on the garments are their tapes exclusively and that there is no other marking machine in the world which could have produced the tapes.

Further note, the following are names and addresses with telephone numbers of sales representatives of Textile Marking Machine Company covering the above territories:

ALL OFFICES should index names of these locations in their territories for future use in other type cases.

The Bureau has been requested to supply to all of the offices covering the above states copies of color photographs of the tapes attached to the garments recovered. The Bureau has advised that this is being done.

THE ABOVE LIST IS ALPHABETICAL BY STATES AND EACH OFFICE IS RESPONSIBLE FOR DETERMINING THE CONTACTS IN ITS OWN AREA. This has been done in the interest of saving time since there are approximately 3,000 machine locations to be accounted for.

ALL OFFICES

It is suggested in contacts with above establishments the actual operators of Thermo-Seal machines rather than supervisory personnel be contacted. It is further suggested, on the basis of consultation with Textile Marking Machine Company personnel that the letter "O" in instant tape may have been used rather than a dash for first character. If the code is recognizable by insertion of a dash instead of letter "O", or if the code is recognizable as it appears on instant tape, obtain sample of tape and immediately submit to FBI Laboratory for examination.

Public phone booth with number 322-9343 a short distance away from rooming house where GALT stayed was checked on 4/11/68. T. CHANDLER JOSEY, State Security Agent, Southern Bell Telephone & Telegraph Company, Phoenix Building (protect identity) caused this number to be checked, and the pay station is officially listed as being located at 1130-26th Street, South, and is a non-published number listed to the City of Birmingham. This address, plus fact it is a non-published number listed to City of Birmingham, seemed to conflict with address stated by SA SHANAHAN, Niazuma Avenue and Highland Avenue corner. Request was made for verification of this number, and SA SCHWEIN physically checked the number, and found it to be at corner of Highland Avenue, at 26th Street, and across the street from Niazuma Avenue, and correct as originally stated.

Toll records were not available for August, and most of September, as they had been destroyed under phone company policy of destroying toll records over 6 months old. However, 4 toll tickets were found, two for dates in last of September, and two for month of October 1967. Numbers called in remote areas were then checked for identities of subscribers, and results of this check is summarized as follows:

9/28/67 call at 8:45 PM lasting 16 minutes made to 452-1412, subscriber determined to be LLOYD GRADY GORUM, 638 Gehrig Avenue, Prichard, Alabama. Notation on toll ticket is "from BUDDY PERKINS at 322-8481". Subscriber to latter number is Mrs. A. C. CHESNUTT, 1434 Milner Street, Bham.

9/30/67 call at 12:25 PM lasting 6 minutes made to telephone number 932-4542. The subscriber is L. G. RAINEY, Box 263, Fayette, Alabama. Notation on toll ticket indicated it was at first a person-to-person call to G. RAINEY, then changed to station call.

10/4/67 call at 4:35 AM lasting 8 minutes made to 661-0323 - Subscriber to this phone determined to be: THOMAS H. BROWN, 3058 W. Brookline Drive, Mobile, Alabama.

10/6/67 call at 2:45 PM lasting 3 minutes made to 404-232-9343, and notation on toll ticket is "Darling School for Boys". Due to hour in Atlanta at time of Birmingham check, office was closed, and subscriber cannot be determined locally until morning of 4/12/68. This being handled, but teletype also sent to Atlanta, since area code 404 is the Atlanta, Georgia, area, to check this out anyway.

Teletype was sent night of 4/11/68 covering all out-of-division leads.

LEADS BIRMINGHAM At Fayette, Alabama

Handle investigation by contacting L. G. RAINEY, Box 263, Fayette, Alabama, in effort to determine any knowledge or connection with GALT. Be discreet, and not disclose source of above information.

Retel from Dallas 4/10/68. (lead to locate JAMES POUNDERS in Russellville re ERIC STARVO GALT)

On 4/11/68 Mrs. EARL POUNDERS, 311 Eastside Apts., Russellville, Ala. advised JAMES ALTON POUNDERS, W,M, born [redacted] is her son and she has not seen or heard from him since Dec. 1967. She explained that he has been out of the army for about 12 years and during those years he has had serious problems with his nerves, ulcers and he is also a diabetic. During the past 4 or 5 years he has been in the VA Hospital in Birmingham numerous times. He was in Bryce Hospital, Tuscaloosa, Ala. for about the month of Nov. 1967.

Mrs. POUNDERS advised that in early Dec. 1967 she heard from JAMES ALTON POUNDERS by phone and he claimed he was in Birmingham and had been working for about a week. He did not mention the type of job he had but she speculated he probably was working at a gas station. She knew of no relatives or friends he had in BH and speculated that he probably was living with someone he had met in the VA hospital. She mentioned that he drinks quite a lot and probably has been arrested in BH as a drunk. He is in very poor physical and mental condition. She said no one had called there for him and he had not brought any of his friends to her home. She said the artist's conception did not look familiar to her and she had never heard the name of GALT.

POSSIBLE LEAD AT BH

If it is considered pertinent to make further efforts to locate JAMES ALTON POUNDERS, W,M, born [redacted] to determine if he is acquainted with GALT will search BH PD, SO, Credit Bureau and VA Hospital records for leads which might be of value in locating him in BH.

Results of examination:

Debris found on the face of the bolt of the Q72 rifle shows that this rifle has not been fired recently. The debris has been present for a considerable length of time and this weapon probably has not been fired since manufacture.

The Memphis Office submitted a .30-06 Springfield caliber Remington Model 760 rifle, Serial Number 461476, to the Laboratory in connection with this case. A Redfield telescope sight is mounted on this rifle. No marks were found on the telescope sight tube and, therefore, the telescope sight mount, Q73, cannot be associated with this sight tube, on the basis of a toolmark examination. Therefore, it was not possible to determine whether or not the telescope sight was ever on the telescope mount.

Memorandum

TO : SAC, Birmingham (44-1740) (P)

DATE: 4/11/68

FROM : SA J. T. ARNETT

SUBJECT: MURKIN

JOE STONE, Investigator, Alcohol & Tobacco Tax Unit, 1025 - 2121 Building, Birmingham, Alabama, advised on 4/10/68 that he had an informant who had telephoned him advising he had seen a rifle prior to the shooting of MARTIN LUTHER KING, JR., which might be the rifle involved in this shooting. He said he would make this informant available for interview by SA J. T. ARNETT. Mr. STONE advised that this informant had been contacted by him over a long period of time and had always furnished reliable information.

On 4/10/68, JOHN HADDON was introduced to SA J. T. ARNETT as the informant previously referred to by Mr. STONE.

JOHN HADDON, 808 Goldwire Way, S.W., Birmingham, Alabama, advised he operates Club 401-402 located on Ishkooda Road in the Powderly section of Birmingham. He stated that on either March 5 or 12, 1968, at about 4:30 p.m., he went to the Ensley Office of Birmingham Trust National Bank located at 707 - 20th Street, Ensley, where he observed a police officer and an unknown individual in the parking area of this bank building. He stated the man with the policeman had a rifle, which he apparently assembled, and he noticed that this rifle had a small scope about six inches in length. He noticed that this individual, whom he described as a white male, approximately 6' in height, wearing civilian clothes, medium weight, was demonstrating this rifle to this police officer. He said this rifle had a very shiny surface which looked like it was chrome-plated on the bottom of the receiver. He said this demonstration and handling of the rifle was in public view and anyone passing that area could have viewed the two men as they were examining this rifle.

HADDON stated the rifle was similar length as a carbine but did not appear to be a carbine. He advised the stock and form appeared to be large in size and was not similar to a pump action rifle.

He stated he was furnishing this information in view of the assassination of MARTIN LUTHER KING for any possible connection, as he did not know the type rifle that was used in the shooting. He stated that the policeman was standing in the parking area and might have been on duty at the bank, as this occurred on a Tuesday, either 3/5/68 or 3/12/68, and the bank on this day stays open until 6:00 p.m. He stated the barrel of this rifle was not blue in color but was more a gray color, although it did not appear to be a similar type finish as an Army carbine. He stated part of the bottom of the rifle was very shiny metal as it glittered in the sun, and the length of this shiny metal appeared to be fifteen or sixteen inches in length. He said he was never close enough to give an accurate description of the rifle.

In view of the date this occurred and description furnished of the gun, it does not appear that this gun could possibly have been connected with the weapon used in the shooting of MARTIN LUTHER KING, JR.

Memorandum

TO : SAC (44-1740)

FROM : Supv. ANDREW M. SMITH

SUBJECT: MURKIN

DATE: 4/12/68

RE: MAIL RECEIVED BY ERIC GALT

On the afternoon of 4/11/68, Mr. HUGH EGERTON, Postal Inspector, Birmingham, was further contacted by SA ANDREW M. SMITH concerning checks Mr. EGERTON is making at the request of the Birmingham Office. Mr. EGERTON was requested to furnish any information available as to a package mailed to ERIC GALT at 2608 Highland Avenue, South, Birmingham, during Sept., 1967, from Chicago. He was also advised that this package had been received at 2608 Highland Avenue, South, and returned to the sender. Mr. EGERTON was further requested to furnish any information available concerning a letter addressed to ERIC GALT, 2608 Highland Avenue, South, about 3 or 4 weeks ago and returned marked "Not here." It was understood that this was 3rd class mail.

Mr. EGERTON stated that with regard to the letter, ordinarily 3rd class mail, unless return postage was guaranteed, is destroyed immediately if not delivered. He said he had determined the Carrier's Route Book contained a notation as to GALT as of 10/28/67, "Moved, left no address." Under postal regulations, on the basis of this notation, the carrier would return all first class mail to the sender and other mail, where postage is guaranteed, would be returned to the sender. Mr. EGERTON desired to know whether there was any money paid on the package referred to above, and he was subsequently advised there was no money paid, that the package was received one day and the next day GALT made the statement that the merchandise was not what he wanted and that he was returning it to the sender.

Mr. EGERTON said he would begin a search of postal records in an effort to obtain information concerning the package.

Later the same afternoon, Mr. EGERTON advised he had located a record on a certified letter, addressed to PETER CHERPES at 2608 Highland Avenue, South, Birmingham. This letter was signed for by EVELYN ERWIN or ERVIN on 9/15/67. Mr. EGERTON said he furnished this information for informational purposes and realized it probably had nothing to do with the package reportedly received by GALT.

On the morning of 4/12/68, Mr. EGERTON advised he and his staff had examined between 17,000 and 18,000 records covering packages returned to the addressee through the Birmingham Post Office, and they have been unable to locate any information on the package in question or any other mail, such as certified mail received by GALT.
