ALL OFFICES PLEASE NOTE: Bureau teletype to All Continental Offices, 4/9/68, stated that all laundries should be contacted in an effort to identify the tape on the shorts and tee-shirt believed to have been abandoned by UNSUB. The Textile Marking Machine Company has advised that the above are the only machines known by that company to be in the above listed states which would be capable of producing the laundry mark on the garments. This company advised that the tapes on the garments are their tapes exclusively and that there is no other marking machine in the world which could have produced the tapes.

Further note, the following are names and addresses with telephone numbers of sales representatives of Textile Marking Machine Company covering the above territories:

Telephone EM3-8963  
Covering California, Nevada, Utah, Arizona, New Mexico, Colorado, Wyoming, Montana, Idaho, Oregon and Washington.

ALL OFFICES should index names of these locations in their territories for future use in other type cases.

The Bureau has been requested to supply to all of the offices covering the above states copies of color photographs of the tapes attached to the garments recovered. The Bureau has advised that this is being done.

THE ABOVE LIST IS ALPHABETICAL BY STATES AND EACH OFFICE IS RESPONSIBLE FOR DETERMINING THE CONTACTS IN ITS OWN AREA. This has been done in the interest of saving time since there are approximately 3,000 machine locations to be accounted for.

It is suggested in contacts with above establishments the actual operators of Thermo-Seal machines rather than supervisory personnel be contacted. It is further suggested, on the basis of consultation with Textile Marking Machine Company personnel that the letter "O" in instant tape may have been used rather than a dash for first character. If the code is recognizable by insertion of a dash instead of letter "O", or if the code is recognizable as it appears on instant tape, obtain sample of tape and immediately submit to FBI Laboratory for examination.

For the information of San Juan, the following is furnished:

Search of premises believed occupied by UNSUB who assassinated Dr. MARTIN LUTHER KING on 4/4/68, disclosed suitcase in which was located tee-shirt and undershorts bearing laundry mark on red tape with black lettering believed to be Thermo-Seal type, manufactured by Textile Marking Machine Co., Inc., Syracuse, N.Y. The tape is  $\frac{1}{4}$ " wide and  $1 \frac{1}{16}$ " long and bears letters and numbers C2B-6.

Experts at Textile Marking Machine Company advise type on this machine is unusual in that the first two characters are 15 point type and the last three characters are eighteen point type, with the middle character, the letter B, probably being narrow rather than regular type. The usual machine carries 15 point type for the first three characters and 18 point type for the last two characters.

Textile Marking Machine experts also stated this machine is defective in that it is producing a tape  $1 \frac{1}{16}$ " long instead of  $1 \frac{1}{8}$ " long and is not projecting the tape far enough resulting in cutting off a portion of the first letter. The code used in the Northeast part of the U. S. is as follows:

The first letter O stands for lot number; the first number 2 indicates the day of the week, two being Tuesday; the second letter indicates the first letter of the store name, this is the letter B; the last number is the bundle number, this is 6. Color coding of the tag may designate various things such as a different month or the identity of a store in a chain. Experts also state the use of this system on laundry items is unusual in that the system is normally used on garments being dry cleaned.

The Bureau has instructed that all textile machines using this type tape be located and machines using this code be identified.

ALL OFFICES PLEASE NOTE: Bureau teletype to All Continental Offices, 4/9/68, stated that all laundries should be contacted in an effort to identify the tape on the shorts and tee-shirt believed to have been abandoned by UNSUB. The Textile Marking Machine Co. has advised that the above are the only machines known by that company to be in the above listed states which would be capable of producing the laundry mark on the garments. This company advised that the tapes on the garments are their tapes exclusively and that there is no other marking machines in the world which could have produced the tapes.

AL 44-493

ALL OFFICES should index the names of these locations in their territories for future use in other type cases.

The Bureau has been requested to supply to all of the offices covering the above states copies of color photographs of the tapes attached to the garments recovered. The Bureau has advised that this is being done.

ALL OFFICES

It is suggested in contacts with above establishments the actual operators of Thermo-Seal machines rather than supervisory personnel be contacted. It is further suggested, on the basis of consultation with Textile Marking Machine Co. personnel that the letter "O" in instant tape may have been used rather than a dash for first character. If the code is recognizable by insertion of a dash instead of letter "O", or if the code is recognizable as it appears on instant tape, obtain sample of tape and immediately submit to FBI Laboratory for examination.

ARMED AND DANGEROUS.

RE: MURKIN

In an effort to assist in handling administratively the reams of material being submitted to Memphis Division as office of origin, it is requested all offices in submission of messages use caption which will aid in handling paper. For example, should your office have investigation to report in connection with a specific suspect it would aid if, before entering into the body of text, you would utilize sub-heading after reference, such as "SUSPECT - JOHN ALLEN DOE," or another appropriate caption might be "LAUNDRY CHECKS."

Suitable sub-headings on communications will greatly facilitate the handling of material. Please comply,
