In order to cover the possibility that subject may have died since commission of the crime, the U. S. Census Bureau and Department of Health, Education and Welfare were contacted and they advised that no central records of unidentified deceased are maintained by those agencies. It was suggested that each state may maintain such a record in their Bureau of Vital Statistics or similar agency.

There is no known Federal law requiring the maintenance of such information; and it is possible that if any record of unidentified dead is maintained, it would only be maintained at local police departments, morgues, medical facilities, or the like.

Each office covering state capitals should check to ascertain if such records are maintained, and if so, should check records for the period from 4-5-68, to date, for any information which might possibly identify subject Ray with unidentified deceased person over that period.

If there is no central record repository maintained in the various states or nationally in the case of Mexico and Canada, you should, in connection with your contacts with law enforcement agencies on this case or other Bureau matters, make appropriate inquiries relative to

unidentified dead for the period beginning 4-5-68; and if fingerprints on such dead are maintained, they should be compared with those on the Identification Order on Ray in order to effect identification or nonidentification. This should be handled in the normal course of business and only reasonable investigation should be pursued along these lines.

The Identification Division has placed an appropriate stop on unidentified deceased inquiries it may receive. If feasible, appropriate offices and Legats, Mexico City and Ottawa should place similar stops with appropriate state, local or national agencies in your territories.

MURKIN

John Eugene Gawron was interviewed by St. Louis Office and advised he taught Ray to be a burglar. He stated that on or about 6/23-24/67, he read in the Chicago "Tribune" of a \$50,000 bank burglary in a southern state and recalled that he and Ray cased the same bank in 1958 or 1959, but did not rob the bank at that time because he injured his leg. A few days after reading this article Gawron claims he was visited by a man whom he refuses to identify and whom he believes he introduced to Ray in 1959. This man told Gawron he and others had robbed the bank, displayed a valise full of money and gave Gawron \$250. About six weeks ago this man again visited Gawron and allegedly indicated to him that Ray and one or more other persons had been involved with him in the bank robbery.

RE: MURKIN

During this interview Gawron refused to identify the bank or the man who visited him. He did say that the bank was in the deep South in a State like Mississippi, but not in Mississippi, in a city that is not small and is near a river. The robbers were out of state in five minutes and the loot amounted to \$50,000, plus or minus two thousand.

Based upon available information, the Chicago "Tribune" and the Bureau's bank robbery files have been reviewed without finding any reference to a robbery such as Gawron described.

Gawron has now been reinterviewed and he denies having any contact with Ray since Ray's escape. Regarding the southern bank robbery Gawron previously alleged Ray was involved in, Gawron now states that this could have occurred in July, 1967, instead of June, and was in a city on the east bank of the Mississippi River.

Each office receiving this communication should make a review of their records to determine if such bank robbery or any other robbery coming within the jurisdiction of the Bureau occurred. You should make inquiry at appropriate police departments to determine if a robbery of this magnitude exists in their files.
