Specimens received 4/17/68, from FBI, Los Angeles

- Q216 Bank of America money order #0799 18037, payable to "Locksmithing Institute," signed as purchaser "Eric S. Galt"
- Q217 Bank of America money order #0799 18288, payable to "Free Press, Newspapers," signed as purchaser "Eric Galt"
- Q218 Bank of America money order #0799 18289, payable to "M. Hedgpeth," signed as purchaser "Eric Galt"
- Q219 Bank of America money order #0799 17281, payable to "Locksmithing Institute, Little Falls, N.J.," signed as purchaser "Eric S. Galt"
- Q220 Bank of America money order #0799 19430, payable to "Futura Books," signed as purchaser "Eric S. Galt"
- Q221 Bank of America money order #0799 19701, payable to "Locksmithing Institute," signed as purchaser "Eric S. Galt"
- Q222 Bank of America money order #0799 19702, payable to "Tiffany Enterprises," signed as purchaser "Eric S. Galt"
- Q223 Bank of America money order #0799 19704, payable to "Locksmith Ledger," signed as purchaser "Eric S. Galt"
- Q224 Bank of America money order #0799 19703, payable to "Tiffany Enterprises," signed as purchaser "Eric S. Galt"

Page 1

(continued on next page)

JHM:AW (13)

Q225 Sheet of paper bearing typewritten message beginning "Dear Sir, Inclosed is..." signed "Eric S. Galt"

Q225 Post Office Department Application For Delivery of Mail Through Agent, Form 1583, signed "Eric S. Galt"

Result of examination:

It was concluded that the "Eric S. Galt" and the "Eric Galt" signatures on Q216 through Q221, Q223 and Q224 were prepared by the writer of the signatures in this name appearing on specimens previously received. The signatures on Q222 are too distorted for identification with these previous signatures but similarities were noted.

Because of the lack of comparable writings and variations, it could not be determined whether the other writings appearing on Q216 through Q224 were prepared by the writer of the available writings which are attributable to Galt, however, similarities were noted between the payee names on money orders and the "Galt" writings.

Because of the lack of comparable letters and letter combinations necessary for an adequate comparison, it could not be determined whether the "Harvey Lowmyer" signature on the Q72 gun invoice was prepared by the writer of the money orders, Q216 through Q224, and other writings attributed to Galt.

It was concluded that the questioned signatures on Q225 and Q226 were prepared by the writer of the "Galt" signatures on other specimens previously submitted.

The typewritten impressions appearing on Q225 are the same style as those appearing on other items believed emanating from Galt, but the lack of identifying defects precludes a determination that the same typewriter was used to prepared all of these items.

The submitted specimens are temporarily retained. Photographs were made.

UNITED STATES GOVERNMENT

Memorandum

TO : DIRECTOR, FBI (44-38861)

FROM : SAC, LOS ANGELES (44-1574)

SUBJECT: MURKIN

DATE: 4/16/68

ATTN: FBI Laboratory,
Latent Fingerprint
Section

Enclosed are nine Bank of America money orders, numbered 0799 17281; 0799 18037; 0799 18288; 0799 18289; 0799 19430; 0799 19701; 0799 19702; 0799 19703; and 0799 19704. These money orders were obtained from the Bank of America, Hollywood-Western Branch, 5454 Hollywood Boulevard, Hollywood, California, on 4/16/68.

Allegedly each of these money orders were purchased by a person using the name ERIC S. GALT or ERIC GALT.

It is requested that the handwriting contained on these instruments be analyzed and compared with previously submitted items in this matter.

It is further requested that each of these items be processed for latent fingerprints, and returned to the Los Angeles office upon completion of examination for return to the Bank of America.

Mr. Conrad

April 19, 1968

W. D. Griffith

MURKIN
CR

The General Investigative Division has forwarded to the Laboratory an anonymous typewritten letter which was postmarked at Long Beach, California, on April 15, 1968, and addressed to The Federal Bureau of Investigation. The paper on which this anonymous letter was prepared bears the letterhead "Army Air Forces, Technical Training Command, Miami Beach, Florida," and is dated April 15, 1968. This letter, obviously referring to the recovery of the white Mustang of Eric Starvo Galt in Atlanta, Georgia, requested that the Bureau please take care of the writer's white Mustang and the letter bore the typewritten signature "Eric Stavio Galt."

The typewritten impressions on the envelope and letter referred to above were compared with the typewriter impressions appearing on specimens received in this investigation which have been attributed to Eric Starvo Galt and these were found to be not identical.

The letter and envelope were also searched in the Anonymous Letter File without effecting an identification and have been forwarded to the Latent Fingerprint Section for appropriate examination.

RECOMMENDATION: None. For information.

REPORT
of theFEDERAL BUREAU OF INVESTIGATION
WASHINGTON, D. C. 20535

To: FBI, Memphis (44-1987)
Re: MURKIN
CR

Date: April 19, 1968
FBI File No. 44-38861
Lab. No. D-560624 JK

Specimens received 4/12/68

ITEMS FROM 1966 FORD MUSTANG:

Q118 A piece of Kleenex box bearing letters "At pool" on one side and names "Ginger Day and Anita Katzwinkel, 1535 Serrano, Apt. 6," on other side

Q119 One air release shutter in original package

Q120 Sunglasses with case

Q121 Two pieces of cardboard from trunk

Q122 Scraps of paper from glove compartment

Q123 Scraps of paper from under rear seat

ALSO SUBMITTED: Four lifts of latent impressions found on auto Rearview mirror

1967 Alabama license plate 1A 88354

1968 Alabama license plate 138993

Result of examination:

It was concluded that the writings appearing on Q118 were not prepared by the writer of the other material attributable to the unknown subject also known as Eric S. Galt. While the limited nature of the "Harvey Lowmyer" signature on Q72 and the lack of comparable letters for comparison precluded an adequate examination, differences were noted between the writings on Q118 and the questioned "Lowmyer" signature.

Among the miscellaneous items in Q122 and Q123 were two tickets stapled together, one red and one green. The top red ticket bears the numbers "4" over "4591" which appear on each half of this ticket. The green ticket is printed "FLAG-TAGS," "STRY-LENKOFF Co.," "Louisville, Ky." "FT. 35," "printed in USA."

Also included in the above were twenty "S&H" green stamps, each of which had "14LK" printed at the top and "627" printed at the bottom.

These items, Q118 through Q123, were examined for indented impressions and other markings but other than that set out above, nothing of significance was noted.

The evidence has been retained.

Among the miss. items in Q122 and Q123 were two tickets stapled together, one red and one green. The top red ticket bears the numbers "4" over "4591" which appear on each half of this ticket. The green ticket is printed "FLAG-TAGS," "STRY-LENKOFF Co.," "LOUISVILLE, KY." "PT. 35," "PRINTED IN U.S.A."

Also included in the above were twenty "55H" green stamps, each of which has "14LK" printed at the top and "627" printed at the bottom.

These items, Q118 through Q123, were examined for indented impressions and other markings but other than that set out above, nothing of significance was noted.

The evidence retained.

On 4/18/68, SA Roger D. Ashland, Washington Field Office, brought to the Laboratory the photograph and signature of one Robert J. Corcoran who is currently applying for a passport and who was thought to be a "look alike" for Eric S. Galt. Corcoran, whose date of birth is given as [redacted], at Baltimore, Maryland, resides at 1929 Gwynn Oak Avenue, Baltimore, Maryland, and listed occupation as a salesman.

The writings received in this case lack the comparability for an adequate comparison with the signature Robert J. Corcoran; however, nothing of particular significance was noted between the signature of Corcoran when compared with the writings attributed to Eric S. Galt, from such a comparison as could be made.

The Washington Field Office has forwarded this information to the Baltimore Division for further investigation and the above information was furnished to the Latent Fingerprint Section for a search of the records of the Identification Division and a subsequent comparison of any fingerprint cards located with the unidentified latents appearing on items received in this matter.

RECOMMENDATION: None. For information.

FBI File No. 44-38861
Lab. No. PC-A5530 BX CH JV

Examination requested by: Memphis

Reference: Airtel 4/4/68

Examination requested: Firearms - Spectrographic - Microscopic

Remarks: Specimens Q76 through Q85 are being temporarily retained in the Laboratory.

Serological examinations of the victim's clothing will be reported separately.

A microscopic examination of the fabric and yarns in the damaged areas of Q76 and Q77 indicates the object or objects causing the damage may have entered the collar from above and traveled downward through the collar, severed the necktie and exited immediately below the collar. Some of the material causing the damage to Q76 and Q77 could have also caused the damage to the Q78 coat at the same time due to the type and location of the damage.

The enclosed report confirms and supplements the teletype to the Memphis Office on April 5, 1968.

In the absence of a serial number in Q32, and because of the wide distribution of Channel Master products, it is considered highly unlikely that any vendor would be able to identify a particular unit as having been sold through his establishment.

The Memphis Office is being separately advised concerning the results of the fingerprint examination.

All of the submitted evidence is being temporarily retained in the Laboratory.

DELIVERED APRIL 5, 1968 BY SA ROBERT FITZPATRICK, MEMPHIS OFFICE

Submitted by Airtel #1 as recovered by Inspector N. E. Zachary,
Memphis Police Department in vicinity of 424 South Main Street:

- Q1 Rifle box for Browning .243 Winchester caliber rifle,
Serial Number 4744Z5
- Q2 .30-06 Springfield caliber Remington "Gamemaster" slide-
action rifle, Model 760, Serial Number 461476, with Redfield
telescope sight, Serial Number A17350, with clip
- Q3 .30-06 Springfield caliber Remington-Peters cartridge case
- Q4-Q12 Nine .30-06 Springfield caliber cartridges (five Remington-
Peters and four R-A-55) in Peters cartridge box, Index
Number 3033
- Q13 Large green and brown cloth

Submitted by Airtel #2 as recovered by Inspector N. E. Zachary,
Memphis Police Department in vicinity of 424 South Main Street:

- Q14 "Banner" binocular (Bushnell) 7 by 35, Serial Number DQ408664
(allegedly in zipper bag when recovered)
- Q15 Zipper bag

ITEMS FROM OUTSIDE COMPARTMENT OF ZIPPER BAG

- Q16 Duck-bill pliers and tack hammer marked "MAGNETIC"
- Q17 Box of "BAND-AID sheer strips"
- Q18 Georgia-Alabama Standard Oil map
- Q19 "Commercial Appeal" Memphis newspaper, first
section only, issue of April 4, 1968
- Q20 Standard Oil map of the United States

ITEM INSIDE ZIPPER BAG, IN POCKET

Q21 Partial roll of toilet paper

ITEMS LOOSE INSIDE ZIPPER BAG

Q22 Binocular case with instruction booklet, lens cloth and guarantee card

Q23 Binocular box, cardboard

Q24 "Gillette" travel kit purchased at Oliver Rexall Store, Whitehaven, price \$1.89, with razor, lotion shaving cream, deodorant, hair cream and razor blade in dispenser

Q25 Gray paper sack bearing marking "YORK ARMS CO." with receipt dated 4-4-68 in amount of \$41.55

Q26 White and yellow towel

Q27 White handkerchief

Q28 Tube of "Colgate" toothpaste

Q29-Q30 Pair of black socks

Q31 Seven-ounce can of "RIGHT GUARD" deodorant

Q32 Channel Master radio

Q33 Bottle of "BUFFERIN"

Q34 Elastic belt

Q35 Tube of "BRYLCREEM"

Q36 Bottle of "ONE A DAY" vitamins

Q37 Small bar of "Cashmere Bouquet" soap

Q38 Hairbrush

Q39 Bar of "dial" soap, bath size

Q40 Tube of "Head & Shoulders" shampoo

ITEMS LOOSE INSIDE ZIPPER BAG (continued)

- Q41 Can of brown "KIWI" boot polish
- Q42 Can of "PALMOLIVE RAPID-SHAVE" shaving cream
- Q43 Gray-brown button (in sack with beer)
- Q44 Black button (in sack with beer)
- Q45 Toothbrush, "Pepsodent"
- Q46 Safety razor, without blade
- Q47 Plastic bottle of "MENNEN afta" lotion
- Q48 Small bar of "Cameo" toilet soap
- Q49 Small bar of "Cashmere Bouquet" soap, bearing advertisement of Friendship Inns
- Q50-Q51 Two bobby pins
- Q52-Q53 Two cans of "Schlitz" beer, pull tab
- Q54 Plastic "six-pack" carrying device
- Q55 Brown paper sack (containing beer)
- Q56 Small brown paper sack, empty
- Q57 Key
- Q58 Toothpick
- Q59 Metal ring
- Q60-Q61 Two coat hangers
- Q62 Two links from "ADJUST-0" watchband
- Q63 Gray-brown button

Submitted by Airtel #3:

Q64 Bullet from body

Q65 Twenty dollar Federal Reserve Note, Series 1963A,
Serial Number F14002844A

Q66 Twenty dollar Federal Reserve Note, Series 1963A,
Serial Number H16164663A

Q67 Twenty dollar Federal Reserve Note, Series 1963,
Serial Number F06445143A

Q68 Fingerprint card for Bessie Ruth Brewer

Results of examination:

FIREARMS - TOOLMARKS EXAMINATIONS

The serial number on the black rifle box, Q1, was determined to be 4744Z5. This box originally contained a .243 Winchester caliber Browning rifle.

The Q3 cartridge case was identified as having been fired in the Q2 rifle. The only marks found on Q3, other than marks made during manufacturing procedures, were one extractor mark which was identified as having been made by the extractor of the Q2 rifle and the marks left on Q3 by the Q2 rifle when Q3 was fired.

The bullet, Q64, from the victim, is a .30 caliber metal-jacketed "soft-point" sporting type bullet of Remington-Peters manufacture which was fired from a barrel rifled with six lands and grooves, right twist. Based on the physical characteristics of the general rifling impressions, the Q64 bullet could have been fired from the Remington rifle, Q2. The Q64 bullet has been distorted due to mutilation and insufficient marks of value for identification remain on this bullet. Therefore, it was not possible to determine whether or not Q64 was fired from the Q2 rifle.

The Q64 bullet is identical in all remaining observable physical characteristics to the 150 grain bullets in the five loaded .30-06 Springfield caliber Remington-Peters cartridges, Q4 through Q8.

Based on physical characteristics, specimen Q64 and the cartridge case, Q3, could originally have been portions of the same cartridge, which would be the same as the Q4 through Q8 cartridges. No marks are present on Q64 of the type which would permit determining positively whether or not the Q64 bullet was originally a portion of the cartridge represented by Q3.

The five cartridges, Q4 through Q8, conform in description to the type of cartridges packaged by the manufacturer in the Peters cartridge box in which they were submitted. Because of the manner in which cartridges are boxed at the factory, it is not possible to determine whether or not the cartridge represented by Q3 or any of the

Q4 through Q8 cartridges were packaged in the same box by the manufacturer.

The Peters cartridge box in which Q4 through Q8 were submitted also contained four U. S. Military cartridges, containing full-metal jacketed 150 grain bullets, different from Q64. The manufacturer's headstamp on these cartridges is "R A 55." The "R A" indicates that these cartridges were manufactured by Remington Arms Company, Incorporated, Bridgeport, Connecticut. Cartridges bearing "55" are those normally manufactured in 1955.

Examination of the four cartridges, Q9 through Q12, revealed no marks indicating these cartridges had ever been loaded into a weapon. The only marks on these cartridges appear to be marks produced by the manufacturer's machines and marks of the type produced by metal-link ammunition belts of the type used with machine guns. The link belt marks on Q9 through Q12 are suitable for comparison with the metal links from which the cartridges were withdrawn. In metal-link belts, each cartridge serves to hold adjacent links together. As each cartridge is withdrawn, a link (which is expendable) separates from the rest of the belt.

No aluminum, screen-type scratches, paint, wood or other foreign material was found on the muzzle or side of the barrel of the Q2 rifle.

No record was located in the National Stolen Property Index or the National Crime Information Center for a Browning rifle, Serial Number 4744Z5, as originally contained in Q1; for the Q2 rifle; for a Redfield 2X-7X variable telescope sight, Serial Number A17350 (which is mounted on Q2), or for the Bushnell binocular, Q14, Serial Number DQ408664.

No serial number which would facilitate tracing was found on the Weaver telescope sight mount and base on Q2. The screws used to secure the sight tube to the mount were "finger" tight. No tool was required to loosen them and no toolmarks of value for comparison are present.

The magnification setting of the telescope sight tube was "6½x" when the Q2 rifle was received. Therefore, objects viewed would be enlarged to approximately 6½ times normal size.

HAIR EXAMINATION

Numerous brown head hairs of Caucasian origin were found on or in specimens Q13, Q15, Q26, Q29 and Q30. Numerous dark brown to black beard fragments of Caucasian origin were removed from the Q24 and Q46 razors. All of these hairs and beard fragments have been mounted on glass slides for comparisons with any suspects you may develop.

No Negroid hairs were found on or in any of the above-listed evidence.

FIBER EXAMINATION

Brown cotton fibers, green cotton fibers and lustrous green viscose fibers like those composing the Q13 bedspread were found on the Q2 rifle and in the debris removed from the Q1 box. These fibers could have originated from Q13.

MISCELLANEOUS EXAMINATIONS

Specimen Q1 is a black cardboard box measuring 6 3/4" x 2½" x 44¼". Printing on the box indicates it contained a Browning Mauser rifle, "SAFARI" grade. The number "130712" is printed on the end of the box and "4744Z5" has been hand printed on the same end.

Specimen Q13 is a large green and brown bedspread. It is composed of approximately 50% brown cotton, 25% green cotton and 25% lustrous green viscose fibers. It measures 106¼" x 85¼" and has a herringbone design. The ribs of the herringbone have a 40° angle and each rib is 3/4" in width. No visible, invisible or manufacturer's markings were found on Q13. It exhibits above-average wear and is of the type sometimes found in hotels or motels.

The Bushnell Q14 binocular was manufactured in Japan. Bushnell binoculars are distributed by Bushnell and Company, Incorporated, 639 Bushnell Building, Pasadena, California. Specimen Q14 bears number "DQ408664." A paper

label on the center post indicates Q14 was passed by the "Japan Telescopes Inspection Institute."

The Q15 zipper bag measures 15" x 20" x 5 $\frac{1}{4}$ " and is an inexpensive bag of Japanese manufacture. The bag is a "Tel-Star" model that retails for about six to seven dollars. This model bag comes in six different sizes, 16", 18", 20", 22", 24" and 26". The importer or jobber for "Tel-Star" luggage is the United Products Corporation, 2500 Genessee, Kansas City, Missouri 64141.

The Q16 duck-bill pliers are 7 $\frac{3}{4}$ " in length and the jaws are 1 $\frac{3}{8}$ " long. A price tag on one handle bears "ROMPAGE HARDWARE \$1.98." Just above the word "Rompag" are three characters printed in blue. Two characters on the left appear to be "10." The single character on the right appears to be "0." No other data was noted on the label.

Also in Q16 is a small tack hammer with a metal head 4 $\frac{1}{8}$ " long. Imprinted on the wooden handle is "MAGNETIC" The handle is painted white with a blue band around the end of the handle. The U. S. Patent Office has no record of the trademark on this hammer.

The Q17 metal "BAND-AID" box contains twenty-one regular adhesive bandages and ten "JUNIOR" adhesive bandages. The number of bandages in the box agrees with the count printed on the box. A small round price tag on top of Q17 has the numerals ".57."

Nothing of significance was noted concerning the partial role of toilet paper, Q21.

Specimen Q22 is a black binocular case for a Bushnell binocular. Inside Q22 was found an instruction booklet, lens cloth and guarantee card.

Specimen Q23 is a cardboard box for a Bushnell binocular. A price tag on Q23 has the numerals "11-67" and "\$39.95" printed on it. Also on this box was hand printed:

"3995
160
4155"

Specimen Q24 is a travel kit manufactured by Gillette. It is clear plastic and contains the following:

- 1 - Safety razor with double-edge blade
- 2 - Package of "Gillette" stainless steel double-edge blades
- 3 - 1.3 ounce can of "foamy" shaving cream
- 4 - 1 ounce can "RIGHT GUARD" deodorant
- 5 - $\frac{1}{2}$ ounce bottle "Sun Up" after shave lotion
- 6 - $\frac{3}{8}$ ounce tube "HEADS UP" hair dressing

A price tag on the top of Q24 has the following printed on it: "OLIVER REXALL," "WHITEHAVEN PHONE 397-2301," "\$1.89," "E" and "00."

The Q25 gray paper bag has the name and address of the "YORK ARMS CO." of Memphis printed on it. Inside this bag was found a cash register receipt dated "APR 4" in the amount of "\$041.55 CBH." The numerals "083" also appear on the receipt.

The Q26 white and yellow checkered towel is 26" x 15". No labels or visible or invisible markings were found on Q26.

Specimen Q27 is an inexpensive common man's handkerchief measuring $14\frac{1}{2}$ " x 15". No labels or markings were found on Q27.

Specimen Q28 is a partial tube of "Colgate" toothpaste, 3.25 ounce size.

The Q29 and Q30 socks are a pair of black knee length synthetic stretch socks. No markings or labels were found on these socks.

The Q31 can of "RIGHT GUARD" deodorant is a 7 ounce size. "M313" is printed in black on the bottom of the can.

Specimen Q32 is a Channel Master radio receiver. A label affixed to the inside of the rear cover indicates that the receiver is Model 6502, 6 transistor, super heterodyne, with a frequency range of 535-1605 Kc/s and operates

on a 9-volt battery supply. The words "CHANNEL MASTER CORP." are imprinted on the bottom of the label. The words "HONG KONG" are molded on the outside of the light-colored plastic cover, however, some components are marked "JAPAN." A 9-volt Eveready battery, #216, was connected inside the case. The front of the case is made of polished or plated metal and is stamped "6 TRANSISTOR CHANNEL MASTER." The remainder of the case, about one-third down each side, is maroon-colored plastic. The case measures approximately 4" x 2 3/8" x 1 1/4".

Radio products bearing the Channel Master name are very common.

When received, the dial indicated approximately "10" and was turned to approximately 1020 Kc/s. The tuning range of the receiver is approximately 530 Kc/s to 1660 Kc/s, which covers the regular broadcast band. The receiver was operational when received.

The Q32 radio bears scratches on one end interpreted to read "00416."

The Q33 plastic "BUFFERIN" bottle is a 60-tablet size and contained 10 whole tablets and 2 partial tablets, all bearing the letter "B."

Specimen Q34 is a man's elastic belt bearing Greek or Roman heads on the buckle. The belt is 3/4" wide and 31" long, unstretched. The waist measurement of the wearer could not be determined in view of the type of belt.

Specimen Q35 is a partial tube of "BRYLCREEM" hair dressing, 3 ounce size.

Specimen Q36 is a bottle of "ONE A DAY" vitamins, 25-tablet size. There were 21 tablets in the bottle.

Specimen Q37 is a small hotel-size bar of "Cashmere Bouquet" soap.

Specimen Q38 is a clear plastic hairbrush with white synthetic bristles. "U.S.A." has been molded to the underside of the handle.
