To: FBI, Memphis (44-1987)

Re: MURKIN
CRDate: April 16, 1968
FBI File No. 44-38861
Lab. No. D-560466 JK
D-560467 JK
PC-A 5616 IZ
PC-A 5618 IZ

Specimens received 4/11/68, from FBI, San Francisco

- K11 Piece of white cloth containing three samples of marking tape printed by Thermo-Seal Model H5K1, Serial Number 31353, obtained from Superior French Laundry, 1284 West Grand Avenue, Oakland, California
- K12 Seven samples of marking tape printed by Thermo-Seal, Model RMH 65401, Serial Number 34163, obtained from Highland Cleaners, Inc., 1201 La Salle Avenue, Seaside, California
- K13 Five samples of marking tape printed by Thermo-Seal, series 106C4, Serial Number 34690, obtained from Sterling Cleaners & Laundry, 140 Howard Avenue, Burlingame, California
- K14 Two Sanford Cleaners laundry lists containing eleven samples of marking tape printed by Thermo-Seal, Model H5L4, Serial Number 32506, obtained from Stanford Drive In Cleaners, 2875 El Camino Real, Palo Alto, California
- K15 Twelve samples of marking tape printed by Thermo-Seal, Model H5L4, Serial Number 32503, obtained from Cherry Chase Cleaners (Golden State Dry Cleaners) 2175 Winchester, Campbell, California

Specimen received 4/11/68, from FBI, Albany

- K16 Three samples of marking tape printed by Thermo-Seal Machine, Model #H5K1, Serial Number 31358 which were returned to Textile Marking Machine Company, Syracuse, New York, on 3/15/68, by Superior French Laundry, 1284 W. Grand Avenue, Oakland, California

Result of examination:

The three purple tapes in K11, five orange tapes in K13, and the light pink tapes in K14, are different from the laundry tapes removed from Q69 and Q70 in color and length.

All the other tapes in K11 through K15 are similar to the Q69 and Q70 tapes in color, construction and composition.

The three laundry tapes, K16, are similar to the Q69 and Q70 laundry tapes in color, construction and composition. One of these tapes is the same length as the Q69 and Q70 (1 1/16 inches); the other two are longer.

The printing characteristics in the laundry tags represented by K11 through K16 were found to differ from the impressions appearing on the Q69 and Q70 laundry tags.

Specimens K11 through K16 have been retained.

K8 Three tape strips of marking tape utilized by the Monarch Laundry, 1430 South Main, Las Vegas, Nevada, two of which bear the code O2B-6, and one bearing the code MOX72.

Specimen received 4/11/68, from FBI, Philadelphia

K9 Piece of white cloth containing six samples of thermo-seal marking tape obtained from Thermo-Seal Identification Machine, Model H5L1, Serial Number 32052, operated by Barclay Laundry, 1478 Broadway, Camden, N.J.

Specimen received 4/11/68, from FBI, Los Angeles

K10 Piece of paper and a cloth square each containing twelve samples of laundry marking printed by a thermo-seal marking machine manufactured by the Textile Marking Company, Syracuse, New York, and obtained from Home Service Laundry and Dry Cleaning, 5280 Hollywood Boulevard, Los Angeles, California

Result of examination:

The three pink tape strips in K8 and K9 are similar to the Q69 and Q70 laundry tapes in color, construction and composition.

The twelve laundry tapes (K10) are similar to the Q69 and Q70 laundry tapes in color, construction and composition.

Five of these tapes have the same length (1 1/16 inches) as Q69 and Q70. The other nine are longer, either 1 3/32 inches or 1 1/8 inches in length.

The K8 and K9 tapes were found to differ in printing from the tapes appearing on Q69 and Q70.

The tapes comprising K10 are of varying lengths; however, no significant differences were noted between the Q69 and Q70 laundry tapes when compared with some of the K10 tapes indicating they may have originated from the same machine.

Specimens K8, K9 and K10 are retained.

TO: DIRECTOR, FBI (44-38861)(ATTENTION: FBI LABORATORY)
FROM: SAC, LOS ANGELES (44-1574)
SUBJECT: MURKIN

Enclosed are a paper sheet and a cloth square, each containing 12 samples of laundry marking printed by a Thermo Seal marking machine manufactured by the Textile Marking Company, Syracuse, New York. These samples were obtained on 4/10/68 from Miss LUCY PINELA, manager, Home Service Laundry and Dry Cleaning, 5280 Hollywood Boulevard, Los Angeles, California.

The paper sample was obtained by SA's FRANCIS G. KAHL and LLOYD D. JOHNSON. The cloth sample was obtained by SA's FRANCIS G. KAHL and DENNIS LEMASTER.

The Bureau is requested to compare these samples with markings on the clothing that was apparently abandoned by Unsub in Memphis. Samples need not be returned, and more can be obtained if the Bureau so desires.

Information copy being furnished Memphis, inasmuch as that office is origin.

SAC, Philadelphia (44-1368)

MURKIN

There is transmitted herewith by Special Agent courier six samples of Thermo Seal marking tape obtained from Thermo Seal Identification Machine, Model H511, Serial Number 32052. This machine was operated by the Barclay Laundry, 1478 Broadway, Camden, N.J. JACK OSOKOW, Manager, Barclay Laundry, advised that his firm does not utilize the letter "Q" in its identification markings and that D2B-6 was utilized by one of his sub-contractors, JACK STEIN, 307 South 23rd Street, Philadelphia.

JACK OSOKOW, Manager, Barclay Laundry, 253 South 10th Street, was recontacted by SA EDWARD A. SMITH and advised that there were many Thermo Seal marking machines utilized by major laundries in the Philadelphia area. He stated each of the users may utilize their own particular coding system and in his case D2B-6 indicated that D represented the fourth week, 2B the lot number, and 6 the customer number. He stated this code system has a one-time use and is utilized for inventory control and location of lost laundry articles. He advised there are 10 plain colors utilized in Thermo Seal machines plus three striped colors and that under the present system it would be possible to re-use the same number after a 72-week cycle. He stated it is probable that in laundries throughout the United States there could be several instances of this exact code number coming up on red Thermo Seal tape. He further advised there were no restrictions on utilization of any specific code on this machine.

3 - Bureau (44-38861)
1 - Philadelphia (44-1368)

EAS:ELS
(4)

HAND CARRIED

PH 44-1368

Barclay laundry also utilizes a Thermo Seal machine which must use six digits rather than five. Samples of this machine were not obtained.

The FBI Laboratory is requested to compare sample tapes with evidence obtained in MURKIN case.

CR

The General Investigative Division has forwarded to the Laboratory an anonymous letter which was received from the Department, dated April 9, 1968 addressed to the Attorney General. This letter names one Edward Gerst as the individual responsible for the assassination of Dr. Martin Luther King. The letter further describes this individual as an East German communist who is now in Cuba trying to return to England where he will find friends who will get him back to East Germany.

As the result of an indices search, a reference was located for one Edward Sherman Gerst, Bureau File 67-418747, who was a Bureau applicant in 1947 at which time he was 18 years of age.

The writings appearing in the personnel file of Edward Sherman Gerst have been compared with the writings submitted in this matter attributable to the unknown subject also known as Eric S. Galt. Nothing of significance was noted between the available writings of Edward Sherman Gerst and the afore-mentioned writings of Eric S. Galt; however, these known writings were prepared over twenty years ago when Gerst was 18 years of age.

Memorandum to Mr. Conard
Re: MURKIN
CR

The fingerprints of Gerst have been compared with unidentified latents in this matter and found not to be identical.

The above-mentioned letter has been searched in the Anonymous Letter File but could not be identified with any prior submissions included in this file.

This letter is also being processed for latent fingerprints.

RECOMMENDATION: None. For information.

Att. General Ramsey Clark
Washington, D. C.

Dear Sir:

The man you are seeking who killed Martin L. King is named Edward Gerst. He is an East German Communist, and is now in Cuba trying to return to England where he will find friends who will get him back to E. Germany.

He must be found for he will strike again. He is tall, fair haired, blue eyed, scar like a dagger on left hand. Hair now dyed black to disguise himself. He walks very rapidly.

This is not a crank letter. It is urgent that this man be found before he strikes again as he seeks revolution in our country.

4-11-68Approved: _____ Sent _____ M Per _____
Special Agent in Charge

JN 157-9586

"02B-6" or "D2B-6" are not markings of his company. His tape is 5/16 inch laundry-marking tape made by the Textile Marking Machine Company, Syracuse, New York. His laundry purchases this tape from F. H. Ross and Rudolph Ramelli, both of Jackson, Mississippi. This tape comes in eight to ten colors; however, red is not a good color, in that the ink from the machine tends to fade and run on red tape.

EMMONS made available a sample of cloth with several samples of tape markings, yellow in color. He numbered the lettering on the tape as "02B-6", "MIF14," and "MIF15." He made available other items described in paragraph one which are enclosed for the Bureau.

The managers of the Rudolph Ramelli Company and F. H. Ross Company, both of Jackson, Mississippi, advised that the only machine handling Thermo-Seal to his knowledge in the central and southern portions of the state is the Phoenix Laundry in Hattiesburg, Mississippi. They do not handle northern Mississippi.

LEAD:

AT BUREAU

The FBI Laboratory is requested to compare lettering and strips of tape enclosed with the two articles recovered at the scene of the shooting 4/4/68, a white Jockey T-shirt and checkered print undershorts, containing cloth laundry tags allegedly made by a Thermo-Seal marking machine manufactured by Textile Marking Machine Company, Syracuse, New York. Results should be immediately furnished Memphis and interested offices.

MURKIN

Re Atlanta teletype to Bureau, Memphis and Albany,
dated 4/8/68.

Transmitted herewith are five sample laundry tapes
bearing Code # 02B-6.

Enclosed sample tapes were obtained from from Thermoseal
tape machine, Serial Number 31973, Model H5L1, owned and operated
by Blum's Individual Laundry and Dry Cleaning Co., 463 Cotton
Avenue, Macon, Georgia.

Investigation at Blum's revealed this establishment does
not use a code similar to Code #02B-6. Their code consist of
1- through 99 for lot number, a letter for week and last two
digits for bundle numbers running -1 through 20. Red tape is
used by Blum's for special work. They do not ordinarily place
a tape on small items such as shorts unless the work only consists
of two or three items. Blum's machine has only five characters.
The tape is cut one and one eighth inch long and there is no
indication that the machine has malfunctioned in the past causing
tape to be cut one and one sixteenth inch long.

FBI Laboratory is requested to compare enclosed sample
tapes with tape from suspect's shorts previously submitted by
the Memphis Office.

AIRTEL

TO: DIRECTOR, FBI
(Attention: FBI Laboratory)

FROM: SAC, BOSTON (157-644)

SUBJECT: MURKIN
CR
(OO: Memphis)

Re Boston teletype to Bureau 4/8/68.

Enclosed for the Laboratory are four pieces of paper each containing laundry marks on red tape which were obtained from four separate thermo-seal machines manufactured by Textile Marking Machine Co., Inc., Syracuse, N. Y., and a partial roll of unused red tape, furnished by PAUL CAMPBELL, President and General Manager, Superior Laundry Co., Inc., 625 Concord Ave., Cambridge, Mass.

For the information of the Laboratory, CAMPBELL advised that his machines print six digit numbers. He advised that his company prior to 9/67 or 10/67 used a code whereby all six digits were used as follows:

First three digits would be numbers;
then two dashes;
followed by a letter.

His company presently uses a code of six digits as follows:

3 - Bureau (Enc. 5)(RM)
1 - Memphis
2 - Boston
WJW:maf
(6)

BS 157-644

first two digits are numbers;
then a dash;
then one number;
then a dash; and
then a letter.

CAMPBELL viewed a photograph of laundry tape which was on the tee shirt and undershorts, the color photograph made available to Boston, and CAMPBELL said this tape definitely is not his marking.

FBI Laboratory is requested to make comparisons of the enclosed sample tapes with those found on the under-clothing of unsub in Memphis, Tenn.
