Specimen received 4/15/68, from FBI, Chicago

K35 Nine sheets of paper bearing known handwriting and hand printing of GINGER NANCE

## Result of examination:

It was concluded that the hand printing appearing on the Q215 envelope was prepared by the individual responsible for the preparation of the hand printing on the Locksmithing Institute Enrollment Form and the Superior Bulk Film Company order blank which were previously submitted in this matter.

No significant indented impressions were noted on this envelope.

Except for the word "broult" it was concluded that the questioned writings on Q118 (torn "Kleenex box") were prepared by GINGER NANCE, K35. Similarities were also noted between the word "broult" and the known writings of NANCE but the lack of known writing precluded a definite opinion from being reached.

The submitted items have been retained. Photographs were made.

On 4/15/68, Mr. JAMES D. GARNER, Manager, Rooming House 113 Fourteenth Street, Atlanta, Georgia, contacted SA DONALD P. BURGESS at this residence.

GARNER stated to SA BURGESS that in the event that suspect ERIC STARVO GALT returns to this address seeking his (GALT's) television set, that GALT should contact him (GARNER) at his place of employment, 1052 Northside Drive, telephone 876-9770.

GARNER wrote out the address and phone number and made same available to SA BURGESS.

It is noted that SA BURGESS is staying at address 113 Fourteenth Street under pretext and his identity as an Agent not known to GARNER.

The FBI Laboratory Handwriting Section is requested to make a comparison of the enclosed handwriting with known handwriting of suspect GALT.

Q204 Pillow  
Q205 Pillowcase  
Q206 Green sofa pillow  
Q207 Bed sheet  
Q208 Bed sheet  
Q209 Black leather strap, 11/32" wide  
Q210 Black leather strap, 5/8" wide  
Q211 Dried plant material  
Q212 Towel with white, blue, green and yellow stripes  
Q213 Red, white and blue plastic pin and portion of pin

Results of examination:

Brown cotton fibers, green cotton fibers and green rayon fibers that could have come from the Q13 bedspread were found on Q207 and Q208. None were found on Q204, Q205, Q206 or Q212.

Several Caucasian head hairs were found on the Q206 sofa pillow and on the Q208 sheet and numerous such hairs were found on the Q207 sheet. Some of these hairs are like the previously described hairs from the Q38 hairbrush and other items and could have come from the same person. It is pointed out that hairs do not possess enough individual microscopic characteristics to be positively identified as originating from a particular person. Most of the hairs from Q206, Q207 and Q208 are different from the previously described hairs from Q38 and other items and did not originate from the same person.

000430

The Q209 strap, which appears new, measures 37½" in length. This strap fits the strap guides on the Q14 binoculars and could be the strap for Q14. No strap is presently on Q14.

A short hand strap is presently on the Q22 binoculars case. The Q210 strap has the same appearance as the hand strap on Q22 except that it is longer. Specimen Q210 could be the shoulder strap for the Q22 case. The Q210 strap appears new and measures 37" in length.

No plant material similar to specimen Q211 was found in the previously submitted debris from the Mustang.

No marks to indicate source were found on Q213. The Q213 pin appears to be a patriotic emblem.

are hairs or fibers that may be suitable for comparison with other material submitted by the Memphis Division.

*11*  
In addition, of possible interest are the two black leather straps submitted herewith. Possibility exists that they may have connection with binoculars submitted and/or rifle in instant case. The Laboratory should examine binoculars, binocular case, and/or rifles to see whether or not possibility exists markings may help associate these items.

*eff*  
In addition, the necessary examination for latent prints should be made on both leather belts.

Memphis does not know at this time whether in examination of automobile conducted by Atlanta any grassy materials recovered. In the event such was submitted, the grass submitted by Memphis should be compared if such is possible.

Markings on material submitted disclosed the initials "ELH" which represent those of E. LARRY HUTCHINSON, Investigator, Attorney General's Office, Shelby County, Memphis, Tennessee. The other initials "OVJ" are those of the Agent receiving the material from E. LARRY HUTCHINSON. In one instance, the striped towel was received by SA CYRIL F. BUSCH from Inspector N. E. ZACHARY, Memphis PD.

The plastic red, white, and blue decorative pin was located by Lt. GLENN KING, Memphis PD, and turned over to Special Agents.

All the above evidence should be returned to the Memphis Division upon completion of the requested examinations.

Result of examination:

17

Examination of Q176 ("Arrow" map of Atlanta) revealed the following markings: In area number 17, ink lines were noted on Daniel Street between Arbor Avenue and Boulevard Drive; in area number 03 an ink circle approximately  $3/8$  inch in diameter the center of which would be approximately on Auburn Avenue at Courtland; in area number 14, two ink circles which are approximately concentric with diameters of about  $1/4$  inch and  $1/2$  inch. The centers of these two circles lie approximately at the intersection of Simpson Road and Paines; in area number 09, an ink circle approximately  $1/2$  inch in diameter and the numeral 10 were noted. The center of this circle lies approximately on 14th Street between Crescent Avenue and Peachtree Road; in area number 06 an ink circle approximately  $3/8$  inch in diameter appears. The center of this circle is approximately at the meeting place of Highland View and Ponce de Leon Terrace.

06

The notations set out below were observed on Q196 ("Atlantic Richfield Co." street map of Los Angeles.") On the top of that side of this map which contains the alphabetical street listings a small pencil circle was noted in the "Van Nuys District" at the intersection of Buffalo Avenue and Oxnard Street.

On the large map on the other side of this map the following markings were noted in the Beverly Hills area. Two vertical lines in ink at the east end of the park which is located at Olympic Boulevard and Heath Avenue; vertical lines in ink at San Vicente Boulevard and Masselin Avenue; an ink line running between the two vertical lines previously mentioned generally following Pico Boulevard and Packard Street; an ink line extending from the vertical lines at the park along Olympic Boulevard to Alfred Street.

An ink line at the intersection of Beverly Glen Boulevard and Woodruff; an ink line at the intersection of Beverly Glen Boulevard and Warnall Avenue.

Also noted was an ink marking at Sunset Boulevard and Palm Drive.

Seri 19

Ink parentheses were noted around the words "Samma Way" and "Rocca Pl" which are located in Stone Canyon.

The pair of trousers, specimen Q202, is old and soiled. The lining and pockets are yellowed, the two front pockets have holes in them and the edge of the left front pocket is threadbare. The trousers have a "NEEDLECRAFT" label. The waist is 34 1/2 inches and the inseam is 26 inches. A name handwritten in black on the right rear pocket is probably a cleaners mark. This name appears to be "Z SOLOFF;" however, the last two letters are not clear. No invisible cleaners marks were found on Q202.

Several brown to dark brown head hairs of Caucasian origin were found on the trousers and in the pocket debris. These hairs are different from the hairs from the Mustang and Memphis scene. It was concluded that they did not originate from the same source. No hairs were found on the Q201 necktie.

No fibers were found on the Q202 trousers or on the Q201 necktie that could be associated with cloth items previously submitted in this case.

No marks or labels were found on the Q201 necktie.

Examination of the other items described above disclosed no other pertinent information.

The submitted evidence has been retained.

**Q173 Change of Address Order, bearing signature  
"Eric S. Galt" (Card indicates change is temporary  
until 4/25/68)**

**Result of examination:**

It was concluded that the "Eric S. Galt" signature on Q173 was prepared by the writer of the signature in this name appearing on other specimens previously submitted in this matter.

The typewriting appearing on Q173 is the same style as that appearing on other items, but the lack of identifying defects precluded a determination as to whether the same typewriter was employed in preparing this item and other specimens believed to have emanated from Eric S. Galt.

Specimen Q173 has been retained. Photographs were made.

Results of examination:

Numerous hairs were found on the Q164 and Q165 bed sheets. The hairs include brown to black head, pubic and limb hairs of Caucasian origin. Also, one dark brown head hair of Negroid origin was found on Q165. The range of characteristics exhibited by the Caucasian hairs suggests that they are from more than one person. Some of the hairs are deteriorated and dirty, similar to hairs from floor debris.

A few of the Caucasian head hairs from Q164 and Q165 are similar in some microscopic characteristics to hairs previously found on items from the Mustang and Memphis scene but do not match in all microscopic characteristics. The possibility that these hairs originated from the same source could not be eliminated.

No fibers were found on Q164 or Q165 that could be associated with the QB bedspread or with other cloth items previously submitted from the Memphis scene or from the Mustang.

The Q171 keyhole saw is old. The brand or source of Q171 could not be determined.

Some similarities were noted between the handwritten word "florida" and other variations of this word appearing on Q167 when compared with available writings attributable to Eric S. Galt. The limited nature of the writings on Q167 precluded a more definite opinion.

The hand printing on Q170 (Jimmy Owen) is upper- and lower-case, while previous hand printing on items received has been upper-case letters. For this reason, it could not be determined whether this name was prepared by Galt; however, differences were noted.

The printed words "P<sup>P</sup>TTED" and either "PUNCH" or "BUNCH" were faintly inscribed on the newspaper designated Q169. Any significance of this is not known.

No previous road maps similar to Q166 have been received.

000444

Specimens Q166 through Q170 and Q172 were all examined for indented impressions and other markings, but except for the above, nothing of significance was noted.

Q141 Provincial Motel registration card, dated 12/17/67,  
signed "Eric S. Galt"Q142 Two sheets of blue stationery of The Provincial  
Motel bearing indented writing impressions

## Result of examination:

It was determined that the Q141 registration card was prepared by the writer of the Q86 registration card which was previously submitted. The handwriting on Q141 does not sufficiently augment previous writings of Galt to permit a satisfactory comparison of the "Harvey Lowmyer" signature with writings attributable to Galt.

Photographs of the indented impressions which were noted on Q142 have been forwarded separately to the recipients of this report.

Specimens Q141 and Q142 have been retained.

Q134 Enrollment Form of the Locksmithing Institute, Little Falls, N. J., dated 7/31/67, in the name "Eric S. Galt"

Q135 "Confidential Information" form of the Locksmithing Institute, bearing the signature "Eric S. Galt"

**Result of examination:**

The "Eric S. Galt" signatures on Q128, Q130, Q131, Q132 and Q135 were prepared by the writer of the signatures in this name appearing on items previously submitted in this case.

The typewritten impressions appearing on Q127, Q128, Q130, Q131, Q132 and Q135 were found to be the same style of type but the lack of identifying defects precluded a determination as to whether the same typewriter prepared all of these items; however, no significant differences were noted between the impressions appearing on these items. The style of type appearing on these specimens conforms to a standard for Royal pica style of type spaced ten letters to the inch. This style of type also appears on a typewriter sold under the Singer name.

It was determined that the hand printing appearing the Q133 order blank and the Q134 enrollment form was prepared by the same individual. No questioned hand printing appears on the other items received.

Indented impressions were noted on the reverse side of the Q128 letter. The names "Ray," "Galt" and "Rily" and numerals "ET3623" were some of the notations interpreted on this item. A photograph of the indented writing is enclosed for the information of Los Angeles.

The submitted evidence has been retained.

Q124 A piece of brown wrapping paper containing a label bearing the number 777, a Garber shipping slip containing the number 52360, a three inch slip of paper ripped from the shipping slip, and a piece of cellophane tape

Q125 A piece of brown wrapping paper with a label attached bearing the number 6829

Q126 A cardboard box, postmarked 4/5/68

## Result of examination: 0

The hand printing appearing on the slip of paper comprising a portion of Q124 was searched in the Anonymous Letter File without effecting an identification. Appropriate photographs have been added to this file for future reference.

The cellophane tape comprising a portion of Q124 is of common  $\frac{1}{2}$  inch-wide variety, the ends of which appear to have been torn or cut unevenly.

Due to the limited nature of the questioned hand printing on Q124 and because of unexplained variations, a definite conclusion could not be reached whether the hand printing on Q124 is identical to the hand printing appearing on documents attributable to Eric S. Galt, submitted in this case. A number of significant differences were noted indicating

Enclosed for the Bureau, Birmingham, and Memphis is one xerox copy of Garber shipping slip #52360. Also enclosed for the Cleveland Division are two copies of Garber shipping slip #52360.

KATHRIN HOESON, Pittsburgh Plate Glass Company, 17851 N.W. Miami Ct., Miami, Fla., advised she had ordered some stationery supplies from the A. L. Garber Company, printers, Ashland, Ohio, through the Pittsburgh Plate Glass Co., and it arrived at Pittsburgh Plate Glass Co., Miami, Fla., 4/10/68.

Mrs. HOESON advised she opened the outer package and removed one inner package and started to remove a second inner package when she noticed a 3 inch by 1/2 inch piece of paper which had been ripped from the package copy of the shipping bill. Written on this slip of paper was, "Dr. Rev. MARTIN L. KING will be dead by 4/4/68." This slip of paper together with the shipping bill was taped with cellophane

**It was concluded that ANITA LOUISE KATZWINKEL, K26, did not prepare the questioned handwriting "Ginger & Anita Katzwinkel" appearing on Q118, the portion of a tissue box, previously submitted. Because of unexplained variations and insufficient comparable material, a definite conclusion could not be reached whether KATZWINKEL prepared any of the remaining questioned handwriting on Q118. Some significant handwriting differences were noted in this remaining questioned handwriting excluding the words "Day" and "at pool." These words are too limited and contain insufficient handwriting characteristics to determine if they were or were not prepared by KATZWINKEL.**

**Page 1****(continued on next page)****FMD:rap (13)****000461**

Due to the lack of a sufficient number of significant comparable letters, it was not possible to determine if the words "broulh" and "Olkahombe" on Q118 were prepared by the person or persons responsible for the remaining questioned handwriting appearing on this specimen.

It was concluded that the FLIKEID signatures appearing on the bottom of K27, were prepared by THOMAS M. FLIKEID, FBI#534039D.

Because of insufficient significant comparable handwriting and unexplained variations, a definite conclusion could not be reached whether the questioned Lowmyer signature on the gun invoice previously submitted or the writings attributable to Eric S. Galt, previously submitted, were prepared by the writer of K27. Some handwriting differences were noted in the handwriting attributable to Galt when compared with K27; however, these characteristics are not sufficiently strong to definitely eliminate FLIKEID as a possible writer of the Galt material.

The K28 and K29 maps are not identical with two maps, Q18 and Q20, previously submitted and recovered from the blue bag in Memphis.

Q139, Q140, K27 through K29 are temporarily retained. Appropriate photographs of the writing appearing on K27 have been made.

One 8 inch head hair of Caucasian origin was found inside the Q139 left shoe. This has been dyed black. No similar hairs were found in or on items previously submitted in this case. No other hairs or debris was found in Q139 or Q140.
