Rev. Hal Lloyd
United Presbyterian Church
Germantown, Pa.

Dear Rev.:

This may be the most important, as well as painful, letter you have ever received. It is based on your Easter Sunday service. It was the most deranged, damaging, most destructible and depraved sermon that a person could deliver. You were very successful in stirring up the people by appeals to emotion, prejudice and hatred in order to become a leader of evil and achieve selfish ends.

And now it is our task to UNLEARN you of your mental habits that are keeping you a psychological slave, unlearn the mental habit that makes you depend on other people to ration out little pieces of love, respect, enjoyment and success.

BEWARE OF HUMAN PARASITES! There are two types of people in the world: the Giver, and the Taker. For every Giver, there are a dozen Takers. They are constantly trying to latch on to you--- to make you carry them on their back-- to force you to give meaning, and value, and direction to their lives- The Negroes. The Takers have a hundred different disguises-- a hundred different "hidden strategics" to force you to become their constant servant. Your first task, therefore, if you want to achieve your own goals and not their, is to UNMASK them,-- to expose the hidden selfishness behind their so-called "noble motives"-- and to throw them off your back, and onto their own feet, for good.

THE INJUSTICE - COLLECTOR: controls you by continually giving you guilt. Manufactures incidents in which you are trapped into hurting your own White People's feeling. You did it last Sunday when you accused the White Man of being the only guilty one. This is where we challenged you. It was the most damnable and outrageous words that ever was uttered by a white person-- drunk or sober. You were counteroffensive to your own race. You are equally as evil as Dr. Martin Luther King was. He was an impostor, if ever there was one, going about inciting trouble where-ever he could, he was the cause of rioting, burning, looting and killing. Is this the goal that you are seeking? Do you wish to have your family beaten and raped? You are asking for and inciting these evils, the very same things that Dr. King did to incite trouble - the people's prayers were answered when God directed the bullet that put a stop to his wicked ways. It could be called suicide or suigenris. Are you asking for the same kind of ending? If you are, good luck and good riddance.

Sincerely,

Eric S. Galt.

THE WHITE HOUSE
APR 8 8 46 AM
RECEIVED

Mr President

I have never written the president before, but I think its time for someone to now! I would like to call to your attention a very serious problem that is vexing our wonderful country, while we sit by idle and let it happen. How can you speak of America being a "strong nation" and let a "dangerous" and "savage" man like "Martin Lucifer King" go around destroying cities and property, causing Death and flood shed every where he appears????????????????? Of course his tongue speaks great swelling words of vanity while his heart is full of lies. Yet you can't come up with a law that can stop such a "violent" creature? What is wrong with this great so called "strong" nation of ours. Could it be now that "black" holds - preminence over "white"?

44-38861 JK Q266

FBI
LABORATORY

2. what has this man done to cast such a "spell" and covering over the eyes of the officials who govern our country? When all his followers including "Adam Satan Powell" has boasted openly of "black power" and their intentions to overcome the Government from within. This is the way the Communists will win. Can't the Leader of our country see through this?

Consider, Mr President, the damage done in Memphis alone, not to mention Detroit and other like places this "evil" man has visited. What has one visit from him (King) cost the city of Memphis? The State of Tennessee as well as the Federal Government? Of which we the innocent public will have to pay for.

Why shouldn't he and his followers pay for all this damage. Since its evident he caused it all?

3. Is it not evident to our leaders yet that this man is evidently "stirring" the black race up in his so called "non violent" march speeches? Who was the Dummy who gave him the nobel peace prize? For what peace?? When and where did he bring "peace"?

Death and destruction follows every where he marches, yet he never stops around long enough to get in on the bloodshed.

Someone will kill this man soon when everyone gets enough and I say the sooner the better!

You can't even win the "war" at home much less abroad. Please Mr President do something about this "peacebreaker" I beg of you before its too late to save our country. Innocent people are suffering because of this "wolf in sheep clothing". God Bless you.

A Memphis Resident.

LESSON NO. 9

LESSON GRADE *A*

LESSON NO. 9 - Changing Combinations and Servicing the Shells

REQUIRED:

1. Using one of the mailing bags supplied for this purpose, submit the assembled cylinder and key for grading.
2. Complete top portion of this form. Place it in the brown envelope attached to the mailing bag.
3. If paying tuition in installments, detach coupon No. 9 from your payment book, attach your payment in the required amount and forward both with your lesson.

NOTE: If it is necessary to write to us about this lesson, enclose your letter with this assignment. Please do not write your comments on the examination certificate.

Lesson No. 9

The pin tumbler cylinder that you set to the cut key is assembled well and operates correctly.

Now that the "mystery" of the pin tumbler cylinder has been revealed to you, I'm sure that you can handle any key fitting job of this nature that comes along. However, I don't want you to become over confident. It takes practice to build experience.

It also takes practice to gain speed in this type of work. I'd like to suggest that you visit your local junk yard and try to purchase several old cylinders so that you can experiment with them. This experience will be very helpful to you.

Moreover, you will be building up a stock of cylinders that you can use to make your own business or sideline more profitable. By having a few cylinders on hand, you will be able to make "exchanges" for your customers. In other words, if you have a cylinder just like your customer's, you can give him yours and take his in exchange. This will give him quicker service and will permit you to fit the keys to his cylinder in your leisure time.

LESSON CORRECTION

Lesson No. *8*

The successful completion of any key fitting assignment depends entirely upon directing your efforts and attention to spacing and shaping the key cuts to conform to manufacturing standards so that the key you fit will operate smoothly and dependably.

Let's review some of these important details and apply them to every key fitting assignment.

First of all the spacing of the cuts must be accurate so that the pins or discs will sit in the very bottom of the cuts. If the spacing is not accurate the tumblers will sit on the slopes of the cuts like this: This will cause you to file the cuts deeper than necessary and the pins will sit at different heights each time the key is inserted in the keyway.

Assuming now that the cuts are spaced accurately, let's take a good look at the importance of the angle formed by the slopes of the cuts.

For general key cutting the standard angle formed by the slopes is 100 degrees. This angle provides enough room for the pins or discs to seat in the very bottom of the cut and presents a gentle slope for the pins to ride up on when the key is inserted and withdrawn. The angle also eliminates those high, steep points between cuts that appear when the angle is not correct.

NOTE: Use key gage supplied in Lesson #2 to help you maintain the correct angle as you file for depth.

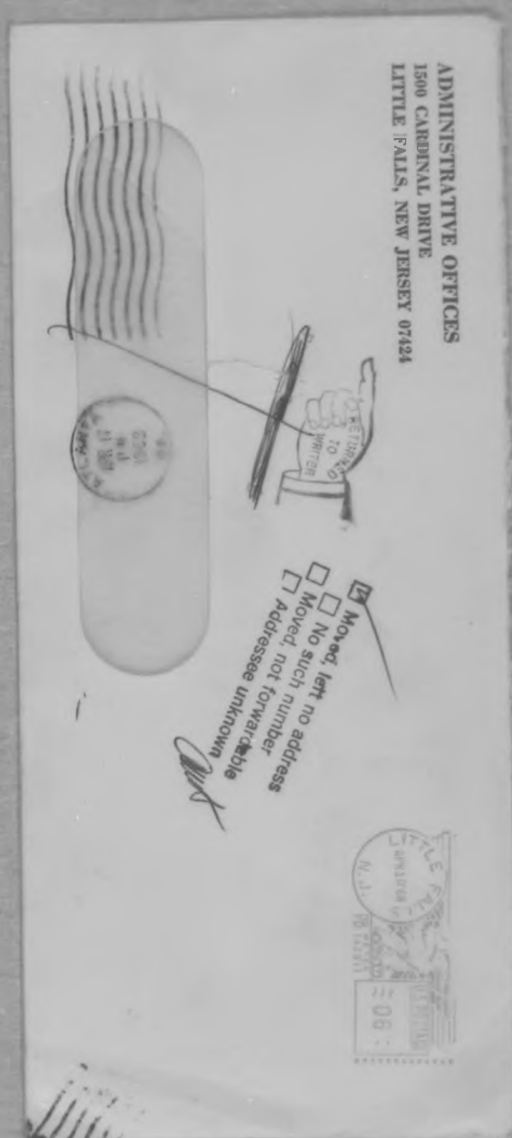

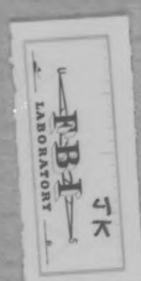

When the angle is not correct, or too steep, the pins hang between the slopes like this: Again the cuts will be deeper than necessary, weakening the key and preventing the pins or discs from meeting at the shear line each time the key is inserted in the plug. The very steep slope and high, sharp points between the cuts makes insertion and withdrawal of the key difficult and will cause excessive wear. Worst of all the pins or discs can get wedged in the cut, trapping the key in the plug.

Students very often want to know about the shape of the bottom of the cut. The bottom of the cut can be rounded or flat. This provides a base for the pins or discs to rest on and a tolerance for minor deviations in spacing.
