General Telephone source checked all calls to Auckland from Santa Barbara and San Bernardino during March and April 1968, however, was unable to locate record of instant calls.

Re: Driver's License Data

Re Indianapolis airtel dated 5/28/68, and Bureau teletype dated 6/1/68.

VERL CLARK, Director of Driver's Licensing, advised computer system used to issue license but system has no way of throwing out a new license say issued in April or May of this year except by name and address. It cannot be done by description or year of birth.

Review under this system while not impossible would entail extensive use of personnel and liaison would have to be worked out whereby this must be done at night in order not to hamper operation of DMV during regular business.

Mr. CLARK pointed out that Indiana like a number of states use the National Driver's Register Service, U.S. Department of Transportation, Washington, D.C. He stated this source is used in out-of-state applicants and on those over 21 who apply for beginner's permit.
