On 5/9/68, WFO received information that RAY, as ERIC S. GALT, as early as December, 1967, was inquiring as to procedures to enter Rhodesia. In view of this, WFO recommended that plans be effected with the Passport Office, United States Department of State, to arrange for a systematic review of all passport applications received since RAY's prison escape in April, 1967.

This project was commenced and over 700,000 of a total of about 2,100,000 applications were reviewed before the project was halted on 6/4/68, as a result of investigative developments from a similar project in Canada.

As many as 36 Agents a day were used in this review which in some instances consisted of round-the-clock work. Miss FRANCES G. KNIGHT, Director, Passport Office, and Mr. ROBERT D. JOHNSON, Deputy Director, Passport Office, were most cooperative in arranging for this review.

Miss KNIGHT unhesitatingly made available the full facilities of the Passport Office and Mr. JOHNSON made arrangements for passport employees to be on duty in order that WFO's search could be continued during other than normal working hours. He also arranged for Agent personnel to use the garage facilities of the Passport Office in view of the absence of public transportation available to Agent personnel arriving for work or departing from work at the Passport Office at midnight.

It is recommended that the Director send a letter to Miss KNIGHT expressing appreciation for her warm and whole-

It is further recommended that the Director express thanks to Mr. JOHNSON for assisting WFO personnel in perfecting the fine details of this review and handling of necessary administrative changes. WFO files reflect that both Miss KNIGHT and Mr. JOHNSON have been staunch Bureau friends for years.

RECOMMENDATION OF GENERAL INVESTIGATIVE DIVISION:

The General Investigative Division recommends that letters of appreciation be sent to Miss Frances G. Knight and Mr. Robert D. color photo is made a part of the license issued. Negatives are available from the Metropolitan Police Department for all permits issued. At the conclusion of search of learner's permits, WFO will obtain these negatives, have the Laboratory reproduce them as positives on 35mm black and white movie film, and review them on microfilm viewers. Approximately 600 to 1,000 permits are issued each workday and approximately 30,000 have been issued since 4/1/68. Approximately 50 one hundred foot rolls of 35mm black and white film will be required for above project. This film costs \$2.90 per hundred foot roll, plus 46 cents for developing chemicals. Labor will amount to approximately 50 hours at \$2.85 per hour. Total cost about \$310.50.

It is recommended the Bureau approve the above as the cost of Agent time and use of Bureau equipment to resolve the identities of permit holders would exceed the above many times. It is noted DMV personnel estimate that only 10 to 15 per cent of permits issued are to white males 30 to 55 years of age, and since race is not listed on application, it would be necessary to conduct investigation to eliminate a great number of non-whites if above costs are not approved.

Re: Circularization of all doctors
in the United States of America

Dear Joe:

As I understand it there are approximately 310,000 practicing physicians in the United States.

If you arrange for the Bureau to:

1. Prepare a one page insert (with photo, descriptive data and requests);
2. Fold and insert into franked envelope and seal envelope;
3. Deliver to Fisher Stevens Company, 120 Brighton Road, Clifton, New Jersey; then

Fisher Stevens will address each envelope and will bag and mail the material for a charge of \$12.15 per thousand. This would come to an approximate total of \$3,766.

Another possibility is to obtain the addressing material from Fisher Stevens and perform the addressing and mailing function at the Bureau. This would involve an approximate cost of \$6.65 per thousand or total of \$2,061. Fisher Stevens is completely computerized and set up for this type service and could do the job of addressing and so forth in about three days.

The X-Agent at Fisher Stevens is Mr. Ralph Duke Powell who has advised me that they have previously done work of a similar nature for the FBI. He specifically mentioned having circularized dentists in connection with the identification of specific dental work.

There exists one to several other companies which perform similar services. However, I do not know their identities.

ENCLOSURE

44-38861-4255

If you institute such a program through Fisher Stevens I would suggest that someone from the Bureau make personal contact with Mr. Powell. In fact if you would like more precise information you could call him directly at 201 WA 4-4360. Mr. Powell spent a number of years in the Newark Division and is well known to a number of agents who have been there for some time.

The foregoing took no more trouble than a telephone call and I am sure you realize that I am more than anxious to help in any way possible. Please let me know if there are any other inquiries you would like us to make.

Please convey my personal regards to your wife and daughter.

Sincerely,

Joseph W. Lucca
