**CENSORSHIP**

The lawyers also asked the court to direct the sheriff to

permit them to confer in private with Ray and to permit them to exchange notes and correspondence without censorship. They said the notes they make during consulta-

tions with Ray are now read by a guard before they are permitted to leave the jail. They also said Sheriff Morris reads and censors Ray's mail to his counsel.

## Prisoner Charges Ray Favoritism

A Shelby County jail prisoner today told of life there with James Earl Ray as a fellow inmate—and complained that it means guards neglect the others.

The prisoner, Carl Lindquist, described system of red lights flashing on whenever the door to Ray's specially built enclosure is opened. The Sheriff's Department said Lindquist is in jail on charges of carrying a pistol and robbery with a deadly weapon.

Lindquist said in a written report: "Since James E. Ray has been here, on many occasions they have set our food on the benches in front of our cells and went on 'red light' (which is when they feed Ray or anytime they open his door for anything). "They usually stay on this red light for about 20 minutes, and while 72 men's food gets cold, they sneak in Ray's A-tank with his padlocked stainless steel box

containing, I imagine something somewhat better than we get.

"For your information, the A-tank where Ray is being kept has 16 bunks for one man. They seal off the inside of this floor and you couldn't get a guard to unlock this side if you cut your throat, while the red lights are on.

"When they get finished with Ray and our food is

cold, they open back up, and come around and unlock our doors so we can eat."

In telling of unrest among other prisoners in jail with Ray, who is charged with the slaying of Dr. Martin Luther King Jr., Lindquist said:

"I do not know if Ray has reading material or not, but since he got here, they stopped ours. I do know he has a TV. They call it the guards. I think they should put a couple of TVs, one at each end of the tanks, for us. It's not uncommon in large jails to have TV and it also has been known to cut down a lot of fights, etc.

"If they would put in the TV and call it the guards, we don't care. Just as long as we can watch it, we don't care what they call it. I do know without anything to read, and no recreation, and nothing to do all day, it's just a matter of time before all hell breaks loose, which nobody wants, but with so many men placed in a small confinement, it's bound to happen sooner or later."

Lindquist also said he felt a blood plasma program to help prisoners make money to buy cigarettes, stamps, envelopes and personal items would be desirable.

#### HANES

Meanwhile, Arthur Hanes, attorney for Ray, said he will not pursue a motion that would ask better jail conditions for Ray. He had lashed out earlier at around-the-clock lighting and television security of Ray. He said lights shine on Ray at all times and he has to sleep with his head under a pillow. Hanes said it was "enough to bug anybody" and said he feared for Ray's health.

Lindquist, 29, is from Tulsa, Okla. He has been in jail since March and his trial comes up Oct. 14. He is charged with two others in connection with the robbery.

Sheriff William N. Morris today took issue with some of the complaints that Lindquist made in his letter to The Press-Scimitar.

Morris conceded that county jail is overcrowded, but that this has been a continuing problem. He said conditions have been alleviated to some extent by opening up the jail facilities at the Penal Farm.

He said no recreational privileges have been taken away from the prisoners since Ray's arrival. He said there is no TV available, but prisoners are permitted radios and games such as cards, checkers and dominoes.

Morris said "the jail is one of the cleanest in the country and we serve the best food." He declined comment on Lindquist's reference to a red light system in connection with Ray's security.

Mail that prisoners send out and receive is read by guards but no attempt is made to censor it unless something involving jail security is mentioned.

"We wouldn't hold up any complaints made to a newspaper," Morris said.

# 4 Face Citations In Ray Case

James Earl Ray's chief defense counsel, Arthur B. Hanes, two Memphis newspaper reporters and a private detective today faced possible contempt citations on charges of violating Criminal Court Judge W. Preston Battle's order restricting "publicity" in the Ray case.

Hanes and the others, Roy B. Hamilton of The Press-Scimitar, Charles Edmundson of The Commercial Appeal, and Renfro Hays, a private investigator employed by the defense, were ordered by Judge Battle to appear in his court at 9:30 a.m. Friday, Sept. 27, and show cause why they should not be held in contempt.

## PETITION

A petition seeking contempt citations against the four was filed yesterday by a committee of lawyers appointed by Judge Battle to advise him on publicity and courtroom procedures in the Ray case.

The committee said that in its opinion statements attributed to Hanes and Hays in stories appearing under Hamilton's and Edmundson's bylines in their newspapers last Thursday were in violation of the court's order.

The committee said the order, entered July 18, amended July 23 and supplemented July 30, prohibited and enjoined "the perpetration of certain specific acts in connection with publication given instant case."

## STATEMENTS

The petition said the ban included extrajudicial statements involving "the treatment, acts and attitude of the defendant," and "all other statements" which might be prejudicial to his right to a fair trial.

The Commercial Appeal story quoted Hays as saying that security arrangements in Ray's county jail cell were endangering the prisoner's health and the defense might ask for a continuance of his trial scheduled Nov. 12.

The Press-Scimitar story

quoted Arthur J. Hanes Jr., who is assisting his father in Ray's defense, as saying there were "no plans" to ask for a postponement of the trial. The story also quoted Hanes as saying in a Birmingham interview that the round-the-clock guards, lights and TV scrutiny of Ray's cell constituted "cruel and inhuman treatment" and were "enough to bug anybody." These statements were not made to a Press-Scimitar reporter but were taken from a story by The Associated Press.

## 'EXHIBITS'

Copies of the two newspaper stories were attached to the petition as exhibits. The petition was signed by the following members: Lucius E. Burch Jr., J. Alan Hanover, Cooper Turner Jr., James D. Causey, Leo Bearman Jr., Lee A. Hardison and Don Owens, who is president of the Bar Association.

Hamilton and Edmundson were called separately into the office of Chief Roy Nixon, administrative assistant to Sheriff William N. Morris, where a deputy read and issued them copies of the court summons.

Judge Battle's order enjoined all principals in the Ray case, including attorneys and their employees, law enforcement officers, witnesses and others, from making public statements, but the injunction did not apply to reporters or the news media.

## Prisoner Ray Seeks Privacy; Motion Filed

By JOHN MEANS

James Earl Ray is becoming "nervous and disturbed" by high-powered lights in his cell, and by television cameras and microphones that monitor him around the clock, a motion filed on his behalf says.

The legal paper asks Criminal Court Judge Preston Battle to order Sheriff William N. Morris Jr. to turn out the lights, disconnect the microphones and remove the television camera.

It was one of two such motions filed yesterday by Arthur Hanes of Birmingham, Ray's attorney. The other motion says Mr. Hanes is not permitted to talk to his client without two officers present, that the television camera and microphones pick up every word they say, and that he is searched for notes from his client before he is allowed to leave Ray's County Jail cell.

It asks that the accused slayer of Dr. Martin Luther King Jr. be allowed to confer in private "absent from the presence of law enforcement officers" with Mr. Hanes and Arthur Hanes Jr., his two attorneys, and "to permit defendant and counsel to exchange notes and to correspond without the censorship of the sheriff," stating that Ray's mail to his attorneys is read by Sheriff Morris before being sent.

Mr. Hanes and his son would not discuss the two motions yesterday, and left for Birmingham shortly after visiting the office of Atty. Gen. Phil Canale where they were allowed to inspect physical evidence involved in the nation's most celebrated murder case.

## **Prisoner Ray Seeks Privacy; Motion Filed**

By JOHN MEANS

James Earl Ray is becoming "nervous and disturbed" by high-powered lights in his cell, and by television cameras and microphones that monitor him around the clock, a motion filed on his behalf says.

The legal paper asks Criminal Court Judge Preston Battle to order Sheriff William N. Morris Jr. to turn out the lights, disconnect the microphones and remove the television camera.

It was one of two such motions filed yesterday by Arthur Hanes of Birmingham, Ray's attorney. The other motion says Mr. Hanes is not permitted to talk to his client without two officers present, that the television camera and microphones pick up every word they say, and that he is searched for notes from his client before he is allowed to leave Ray's County Jail cell.

It asks that the accused slayer of Dr. Martin Luther King Jr. be allowed to confer in private "absent from the presence of law enforcement officers" with Mr. Hanes and Arthur Hanes Jr., his two attorneys, and "to permit defendant and counsel to exchange notes and to correspond without the censorship of the sheriff," stating that Ray's mail to his attorneys is read by Sheriff Morris before being sent.

Mr. Hanes and his son would not discuss the two motions yesterday, and left for Birmingham shortly after visiting the office of Atty. Gen. Phil Canale, where they were allowed to inspect physical evidence involved in the nation's most celebrated murder case.

Mr. Hanes, a private detective on his staff, and two Memphis newspaper reporters were ordered by Judge Battle earlier in the week to show cause Friday morning why they should not be held in contempt of court for violation of Judge Battle's order relating to publicity in the Ray case. The action was recommended by a committee of lawyers appointed by the judge to advise him on publicity and procedures in the Ray case.

Evidence recovered by Bureau, including the 1966 Mustang vehicle and documents, retained by Bureau in view of outstanding Federal charge against James Earl Ray. In view of scheduled state trial of Ray in Memphis on November 12, 1968, disposition of evidence recovered by Bureau discussed with Department. Department advises 1966 Mustang should be turned over to Memphis authorities, and we should retain all other evidence in view of outstanding Federal charge. The Department further advised in connection with future court action, if Mr. Phil M. Canale, Jr., who is handling state prosecution, should make a request for any particular piece of evidence retained by the Bureau, such items should be made available to him. Conference held with Mr. Canale and other representatives of his office and they recommend their representatives meet with our Laboratory examiners to review the evidence in our possession and in selecting those items which will be most advantageous to introduce at time of trial. Mr. Canale plans to hold pretrial conferences in the field with all witnesses including FBI Agents. When this is firmed up instructions will be issued to SACs to personally attend to protect Bureau's interest.

Rosen to DeLoach Memorandum  
RE: MURKIN

BACKGROUND:

This is the case involving the murder of Martin Luther King, Jr.

At the specific instructions of the Director the evidence recovered by the Memphis Police Department at the scene of the assassination in Memphis was returned to them after our Laboratory examination. The report of our Laboratory findings was also transmitted to the Memphis Police Department.

Evidence recovered by the Bureau has been retained in our Laboratory in view of the outstanding Federal charge, namely, the Civil Rights conspiracy charge against subject Ray. The evidence we have recovered includes the 1966 Mustang automobile, maps, bed sheets, a television set, various items of food, and personal articles of clothing. It is noted that a latent fingerprint was located on a map which matched Ray's fingerprints and hairs and fibers located in the articles of clothing compared favorable with those located in the evidence at the scene of the assassination.

We also have in our possession documents which include the handwriting, hand printing, and typewriting identified as being prepared by Ray. We are continually comparing new documents with those we are retaining. For example, on August 23, 1968, we learned that subject Ray was employed by a restaurant in Winnetka, Illinois, during May and June, 1967. The documents relating to Ray's employment were obtained and forwarded to the Laboratory for examination purposes and identifications were made.

We have raised the question with the Department as to whether or not the complaint filed against James Earl Ray should be dismissed. The Department has advised that in their view it would not be appropriate to dismiss the complaint at this time as the conspiracy investigation is still underway. The Department further advised that after investigation has been completed, they would want to review the facts to determine whether or not Federal prosecution of Ray or other persons might be appropriate.

In view of the scheduled state trial of James Earl Ray in Memphis, Tennessee, on November 12, 1968, we discussed with the Department the disposition of evidence recovered by the Bureau. As a result thereof, the Department has advised that the 1966 Mustang automobile recovered in Atlanta should be turned over to the Memphis authorities; however, all other evidence which we recovered, including the documents, should be maintained in our possession in view of the outstanding Federal charge and our continuing investigation. The Department further advised they

Rosen to DeLaach memorandum  
RE: MURKIN

intend to meet with Mr. Phil M. Canale, State Attorney General, Shelby County, Tennessee, during the latter part of September, 1968, to thoroughly discuss the state's prosecution. Mr. Canale is, of course, aware of the existence of the evidence and the results of our findings. The Department advised that in the event Mr. Canale desires a particular piece of evidence for court purposes which we recovered and in our possession, we should make arrangements to turn it over to him.

A conference was held at our Memphis Office with Mr. Canale and his representatives and the matter of lining up witnesses and evidence in the forthcoming state trial was discussed. Mr. Canale proposed the following procedures be established:

1. Representatives of his office to meet with our Laboratory examiners who conducted examination of the evidence. He would like this meeting to take place preferably next week.

2. Mr. Canale would desire that his representatives thoroughly review the actual physical evidence for the purpose of selecting those items which will be most advantageous to introduce and it would be determined the number of examiners he may need in connection with the trial.

3. After review of the evidence he proposes that representatives of his office contact pertinent field divisions and discuss with Agents who obtained the evidence what they can testify to and he may desire to talk to the witnesses. This in effect will amount to a pretrial conference with Agents who conducted the investigation, would obviate the necessity of unnecessary Agents to appear for extensive pretrial conferences, and would minimize the time Agents will spend in Memphis in connection with the trial. This, of course, would result in the savings of Agents travel and per diem cost.

4. Mr. Canale mentioned the possibility that a representative of his office may become involved in foreign travel which would relate to the investigation conducted in those foreign countries. Mr. Canale would, of course, do this at his own expense. Mr. Canale feels it will be necessary for him to evaluate the persons as witnesses and to conclude which witnesses it would be necessary to utilize.

Rosen to DeLoach memorandum  
RE: MURKIN

It was of the opinion of Mr. Canale that if the preliminary work can be completed, he can better evaluate what he needs for the trial and feels that on this basis he will need a minimum of FBI personnel to testify as to the various items that may be of pertinence in this case. The SAC in Memphis concurs with Mr. Canale and recommends that we honor his request.

MURKIN

On this date, Sheriff WILLIAM N. MORRIS, JR. advised that he received information that J. B. STONER, Attorney, had been in correspondence with JAMES EARL RAY. The nature of the correspondence was to the effect that J. B. STONER volunteered his services at no cost to JAMES EARL RAY and indicated that he would arrive in Memphis on Wednesday, 9/25/68, to meet with JAMES EARL RAY.

Sheriff MORRIS was of the opinion that JAMES EARL RAY was losing interest in ARTHUR HANES, his present attorney, and might conceivably let STONER defend him in the forthcoming trial. Sheriff MORRIS also advised that he had picked up information indicating that JAMES EARL RAY at the present time was desirous of taking the stand on his own behalf when the trial occurs in Memphis. Sheriff MORRIS also stated that the current attorney, ARTHUR HANES, does not want his client JAMES EARL RAY to testify.

Bureau will be kept advised of additional developments as they occur.
