

Memorandum to Mr. DeLoach
RE: MURKIN

Although Captain Steele concluded that Ray escaped in the bread truck, he pointed out that it would have been necessary for Ray to use a false bottom in the bread box if the bread was neatly stacked as described by two guards. No false bottom was found and Steele raised the question, "Why should the inmate dispose of the false bottom when the bread was mangled beyond use?"

Carmen E. Ramage, Oklahoma City, advised that she is acquainted with Robert Dale Porter who was released from Missouri State Penitentiary, 12/8/67. Porter told Ramage that Ray had not escaped in a bakery truck as reported in the newspapers but had escaped in a guard's uniform which he obtained when he was working in the dry cleaning plant at the prison. Porter said that Ray and the guard had been good friends and that the guard has since been fired. It is noted that one inmate previously interviewed stated that Ray had actually walked out the front door instead of hiding in a bread truck.

ACTION:

Vigorous investigation is continuing to locate Ray as quickly as possible.

Handwritten note: 76-21

This case involves the murder of Martin Luther King, Jr.

Attached is a photograph of Ray that has just been obtained from the Postal Inspector of Los Angeles. It has been determined from identifying numbers on the back of this Polaroid print that the film was manufactured in August, 1967. The photograph was mailed on or about 2/17/68 to a girl Ray had written through a correspondence club. This is considered the best picture of Ray yet obtained since it shows more detail of the lines and features of his face than previous photographs have shown.

ACTION:

This photograph is being duplicated for wide distribution through field offices and Legats.

K211 Various documents comprising thirty-four pieces of paper bearing purported known handwriting and hand printing of JAMES EARL RAY, obtained from his file at Missouri State Penitentiary

Result of examination:

It was concluded that the questioned hand printing appearing on items attributed to Eric S. Galt was prepared by JAMES EARL RAY, K171 and K211.

Because of the presence of characteristics which cannot be explained on the basis of the known handwriting of JAMES EARL RAY, it cannot be definitely determined whether the "Harvey Lowmyer" signature on Q72 was prepared by this individual; however, significant handwriting similarities were noted.

Specimen K211 has been photographed and is temporarily retained.

Re: MURKIN

FBI File No. 44-38861

Lab. No. PC-A5505 BX IZ

Specimens received personally delivered on 4-8-68 by SA Robert Fitzpatrick,
Memphis

Q69 Undershorts

Q70 T shirt

Q71 Board from windowsill in bathroom

Results of examination:

The undershorts and the T shirt each bears a laundry tag with what appears to be the characters "02B-6." Only a portion of the first character is present on each tag. The Laboratory does not maintain a file of visible laundry marks. No invisible laundry marks were found on the undershorts or T shirt.

The pair of undershorts is small in size while the T shirt is large.

The pair of undershorts does not have a brand label. The T shirt has a "JOCKEY" brand label.

The T shirt label is held flat with a folded piece of 3/4" wide cellophane tape. The piece of tape is about 1" long. One end has been cut, and the other end has been torn.

The crotch seams of the undershorts have been repaired in two places with brown thread. The repaired areas are hand stitched.

No hairs were found on the undershorts or T shirt.

The Q71 board bears a recent dent which could have been produced by a light blow from the muzzle of a weapon such as the Remington rifle, Serial Number 461476

previously submitted in this case. The dent contains microscopic marks of the type which could be produced by the side of the barrel at the muzzle but insufficient marks for identification were left on the board due to the physical nature of the wood. The microscopic marks present are different from the type which would be produced by the duck-bill pliers or tack hammer which were in the blue zipper bag previously submitted. No other marks were found on the board.

No gunpowder or gunpowder residues were found on the Q71 board.

No wood, paint, aluminum or other foreign material was found on the rifle barrel nor were any significant marks found on the rifle barrel.

Subject: *X* **FREEDOM OF INFORMATION ACT (FOIA)
REQUEST OF HAROLD WEISBERG FOR RECORDS CONCERNING THE
ASSASSINATION OF DR. MARTIN LUTHER KING, JR., (MURKIN)**

PURPOSE: To place on record ticklers of the Laboratory Division pertaining to the Murkin investigation and have them made a permanent part of Bufile 44-38861.

RECOMMENDATION: That the Laboratory Division Murkin ticklers be made an enclosure to this memorandum and maintained as a bulky exhibit to Bufile 44-38861, inasmuch as they have been reviewed under the FOIA and portions made public through litigation with captioned requester.

DETAILS: Ticklers maintained by the Laboratory Division pertaining to the Murkin investigation were reviewed pursuant to the provisions of the FOIA, and portions were released to requester, Harold Weisberg, by letter dated February 21, 1980. The review was made at the behest of Quinlan J. Shea, Jr., former Director of the Office of Privacy and Information Appeals, Department of Justice, who was at that time conducting a Second Administrative Appeal Review of the FBI's FOIA processing of Murkin and related documents. This second review was ordered by District Judge June L. Green in Harold Weisberg v. U. S. Department of Justice U.S.D.C., D.C; C.A. No. 75-1996. Three of the denied documents became the subjects of further litigation when Judge Green ordered them

DEPARTMENT OF JUSTICE TASK FORCE REPORT
ON FBI INVESTIGATIONS INVOLVING
DR. MARTIN LUTHER KING, JR.

Attached is a copy of a three-page news release which was made by Attorney General Griffin B. Bell on 2/18/77 pertaining to the report prepared by the Department of Justice Task Force which conducted a review of our security investigation, as well as our investigation regarding the assassination, of Dr. Martin Luther King, Jr.

There also is attached a copy of the Task Force's report, together with its exhibits. Copies of this report, including its exhibits, have been made available to news media by the Department of Justice.

I have made the following statement in response to inquiries regarding the Task Force's report which have been received at FBIHQ:

"I noted with great satisfaction the conclusions of the task force that the FBI's assassination probe of the Martin Luther King slaying was 'credible and thorough'; that there was no evidence of a conspiracy; and that the report clearly indicates no complicity on the part of the FBI in this assassination.

Department of Justice

FOR IMMEDIATE RELEASE
FRIDAY, FEBRUARY 18, 1977

AG
202-739-2028

The FBI conducted a thorough investigation of the assassination of Dr. Martin Luther King, Jr., a Department of Justice task force concluded in a report released today by Attorney General Griffin B. Bell.

The 149-page report was submitted by the task force of the Office of Professional Responsibility following an eight-month intensive review of FBI files and interview of witnesses. The purpose of the study was to examine FBI activities involving Dr. King and to evaluate the effectiveness of the assassination investigation.

The report concluded that the FBI had conducted a painstaking and successful investigation of the 1968 assassination in Memphis, Tennessee.

The task force also found no evidence of FBI complicity in the murder.

The only new evidence that was developed related to details that did not affect the ultimate conclusion that James Earl Ray was the properly convicted murderer.

The task force of five attorneys and two research analysts reviewed more than 200,000 documents from FBI Headquarters and Field Office files and interviewed some 40 witnesses in its study of the King case.

On April 26, 1976, then Attorney General Edward H. Levi directed the Office of Professional Responsibility, headed by Michael E. Shaheen, Jr., to review Department files to determine:

(1) Whether the FBI investigation of Dr. King's murder on April 4, 1968, at Memphis, Tennessee, was thorough and honest;

(2) Whether there was any evidence of FBI involvement in Dr. King's death;

(3) Whether any new evidence had come to the attention of the Department bearing on the assassination which should be dealt with by the proper authorities; and

(4) Whether the relationship between the FBI and Dr. King called for criminal prosecution, disciplinary proceedings, or other appropriate action.

After reviewing the murder investigation, the task force turned to the pre-assassination security investigation of Dr. King. The task force found that there may have been an arguable basis for the FBI to initiate a security investigation on Dr. King, but continued that the security investigation should have been ended in 1963 and not continued until his death five years later.

The FBI's COINTELPRO-type harassment of Dr. King and efforts to drive him out of the civil rights movement were found to have been clearly improper.

Mr. Shaheen's report concluded that any criminal action against FBI participants in the harassment campaign was barred by the statute of limitations. The task force recommended no disciplinary action because the chief FBI officials responsible for the harassment are dead or retired.

The task force submitted recommendations for tighter supervision of the FBI's domestic intelligence activities and endorsed the Department's new guidelines in this area. The task force also proposed outright prohibition of COINTELPRO-type activities against domestic intelligence subjects.
