Specimens received from Newark, 4/13/68 Q134 Enrollment Form of the Locksmithing Institute, Little Falls, N. J., dated 7/31/67, in the name "Eric S. Galt" "Confidential Information" form of the Locksmithing Q135 Institute, bearing the signature "Eric S. Galt" Result of examination: The "Eric S. Galt" signatures on Q128, Q130, Q131, Q132 and Q135 were prepared by the writer of the signatures in this name appearing on items previously submitted in this case. The typewritten impressions appearing on Q127, Q128, Q130, Q131, Q132 and Q135 were found to be the same style of type but the lack of identifying defects precluded a determination as to whether the same typewriter prepared all of these items; however, no significant differences were noted between the impressions appearing on these items. The style of type appearing on these specimens conforms to a standard for Royal pica style of type spaced ten letters to the inch. This style of type also appears on a typewriter sold under the Singer name. It was determined that the hand printing appearing the Q133 order blank and the Q134 enrollment form was prepared by the same individual. No questioned hand printing appears on the other items received. Indented impressions were noted on the reverse side of the Q128 letter. The names "Ray;" "Galt" and "Rily" and numerals "ET3623" were some of the notations interpreted on this item. A photograph of the indented writing is enclosed for the information of Los Angeles. The submitted evidence has been retained. Page 2 D-560665 JK 2025 RELEASE UNDER E.O. 14176

Galt" QAH5 Post Office Department Application For Delivery of Mail Through Agent, Form 1583, signed "Dric S. Galt" Result of examination: It was concluded that the "Eric S. Galt" and the "Eric Calt" signatures on Q216 through Q221, Q223 and Q224 nere prepared by the writer of the signatures in this name appearing on specimens previously received. The signatures on Q222 are too distorted for identification with these previous signatures but similarities were noted. Because of the lack of comparable writings and variations, it could not be determined whether the other writings appearing on C216 through C224 were prepared by the writer of the available writings which are attributable to Calt. however. similarities were noted between the payce names on money orders and the "Galt" writings. Because of the lack of comparable letters and letter combinations necessary for an adequate comparison, it could not be determined whether the "Marvey Lomeyer" signature on the C72 gun invoice was prepared by the writer of the money erders, G216 through Q284, and other writings attributed to Ualt. It was concluded that the questioned signatures on Q225 and Q223 were prepared by the writer of the "Galt" signatures on other specimens previously submitted. The typewritten invressions appearing on Q225 are the same style as these appearing on other items believed emanating from Galt, but the lack of identifying defects precludes a determination that the same typewriter was used to propared all of these items. The submitted specimens are temporarily retained. Photographs were made. Page 2 D-500023 JK D-500945 JK

4/12/68

ITEMS FROM 1966 FORD MUSTANG:

Q118 A piece of Kleenex box bearing letters "At pool" on one side and names "Ginger Day and Anita Katzwinkel, 1535 Serrano, Apt. 6," on other side

Q119 One air release shutter in original package

Q120 Sunglasses with case

Q121 Two pieces of cardboard from trunk

Q122 Scraps of paper from glove compartment

Q123 Scraps of paper from under rear seat

ALSO SUBMITTED: Four lifts of latent impressions found on auto Rearview mirror

1967 Alabama license plate 1A 88354 1968 Alabama license plate 138993

Result of examination:

It was concluded that the writings appearing on Q118 were not prepared by the writer of the other material attributable to the unknown subject also known as Eric S. Galt. While the limited nature of the "Harvey Lowmyer" signature on Q72 and the lack of comparable letters for comparison precluded an adequate examination, differences were noted between the writings on Q118 and the questioned "Lowmyer" signature.

Result of examination:

It was concluded that the "Eric S. Galt" signature on Q173 was prepared by the writer of the signature in this name appearing on other specimens previously submitted in this matter.

The typewriting appearing on Q173 is the same style as that appearing on other items, but the lack of identifying defects precluded a determination as to whether the same typewriter was employed in preparing this item and other specimens believed to have emanated from Eric S. Galt.

Specimens received 4/16/68, from FBI, Newark

Q215 White envelope postmarked "Montreal, P.Q., VII, 1967," bearing return address "Eric S. Galt 2589 - Rue Notre Dame Est. Montreal, Canada, Quebec" and hand printed address "Locksmithing Institute Little Falls, New Jersey, U. S. A. 07424"

Specimen received 4/15/68, from FBI, Chicago

K35 Nine sheets of paper bearing known handwriting and hand printing of GINGER NANCE

Result of examination:

It was concluded that the hand printing appearing on the Q215 envelope was prepared by the individual responsible for the preparation of the hand printing on the Locksmithing Institute Enrollment Form and the Superior Bulk Film Company order blank which were previously submitted in this matter.

No significant indented impressions were noted on this envelope.

Except for the word "broult" it was concluded that the questioned writings on Q118 (torn "Kleenex box") were prepared by GINGER NANCE, K35. Similarities were also noted between the word "broult" and the known writings of NANCE but the lack of known writing precluded a definite opinion from being reached.

The submitted items have been retained. Photographs were made.

Result of examination:

Examination of Q176 ("Arrow" map of Atlanta) revealed the following markings: In area number 17, ink lines were noted on Daniel Street between Arbor Avenue and Boulevard Drive; in area number 03 an ink circle approximately 3/8 inch in diameter the center of which would be approximately on Auburn Avenue at Courtland; in area number 14, two ink circles which are approximately concentric with diameters of about 1/4 inch and 1/2 inch. The centers of these two circles lie approximately at the intersection of Simpson Road and Paines; in area number 09 an ink circle approximately 1/2 inch in diameter and the numeral 10 were noted. The center of this circle lies approximately on 14th Street between Crescent Avenue and Peachtree Road; in area number 06 an ink circle approximately 3/8 inch in diameter appears. The center of this circle is approximately at the meeting place of Highland View and Ponce de Leon Terrace.

The notations set out below were observed on Q196 ("Atlantic Richfield Co." street map of Los Angeles.") On the top of that side of this map which contains the alphabetical street listings a small pencil circle was noted in the "Van Nuys District" at the intersection of Buffalo Avenue and Oxnard Street.

On the large map on the other side of this map the following markings were noted in the Beverly Hills area. Two vertical lines in ink at the east end of the park which is located at Clympic Boulevard and Heath Avenue; vertical lines in ink at San Vicente Boulevard and Masselin Avenue; an ink line running between the two vertical lines previously mentioned generally following Pico Boulevard and Packard Street; an ink line extending from the vertical lines at the park along Olympic Boulevard to Alfred Street.

An ink line at the intersection of Beverly Glen Boulevard and Woodruff; an ink line at the intersection of Beverly Glen Boulevard and Warnall Avenue.

Also noted was an ink marking at Sunset Boulevard and Palm Drive.

Page 2 (contin D-560880 JK PC-A5688 AT

(continued on next page)

Ink parentheses were noted around the words "Somma Way" and "Rocca P1" which are located in Stone Canyon.

The pair of trousers, specimen Q202, is old and soiled. The lining and pockets are yellowed, the two front pockets have holes in them and the edge of the left front pocket is threadbare. The trousers have a "NEEDLECRAFT" label. The waist is 34 1/2 inches and the inseam is 26 inches. A name handwritten in black on the right rear pocket is probably a cleaners mark. This name appears to be "Z SOLOFF;" however, the last two letters are not clear. No invisible cleaners marks were found on Q202.

Several brown to dark brown head hairs of Caucasian origin were found on the trousers and in the pocket debris. These hairs are different from the hairs from the Mustang and Memphis scene. It was concluded that they did not originate from the same source. No hairs were found on the Q201 necktie.

No fibers were found on the Q202 trousers or on the Q201 necktie that could be associated with cloth items previously submitted in this case.

No marks or labels were found on the Q201 necktie.

Examination of the other items described above disclosed no other pertinent information.

The submitted evidence has been retained.

PRINT N. GONKAN, a builder, who resides at 9023 Lark Ellen Circle, Los impoles, California,

CORMAN provided this eard to SA G. J. MOORENKAD on 4/25/68 and explained that on Friday, 4/19/65, he had hired a day laborer from the atroot in Los Angeles what he described as the slave market. He said that this is where translant nearmion workers gather for day jobs.

The man he hired demolished a shed that COMAN had on one of his job sites and assisted COMAN in planing several glass doors in his garage. COMAN asked the man if he could work again on 4/20/68 and this was agreed. The man wrote his name, telephone number and address on the reverse of the duclosed business card. It is shown as follows:

WILLIAM STRATI BORLL BANK COLL BANK BANK B. KALD BA.

THE gave

LA 44-1574

the morning of 5/20/68, the men did not appear. GORMAN checked at the hotel and determined that they had no tenant named JUHKAU and that the telephone was a disconnected number. GORMAN did not have a good recollection of the man, however, he said he was similar to a newspaper picture of JAMES MARL RAY. This person said he had been in New Orleans, however, GORMAN also had been in New Orleans and from their somversation he said it was obvious to him that the man was not familiar with that sity.

GORMAN provided the following description: White, male, 5'10", 165 pounds, slight to medium build, 40 years, right-handed, brown heir.

persons who "shape up" in the slave market are "on the lamb" and that even if this man is not RAY, he might still have reason to some sal his identity.

The Bureau is requested to examine the enclosed card for any handwriting comparisons that can be made. GORMAN stated that he has fingered the card repeatedly and would have ebliterated any fingerprints. The Bureau may dispose of this card as they see fit.

The glass doors mentioned herein were inspected for latents and note were located.

Result of examination:

It was concluded that the "Eric S. Galt" signature on Q255 was prepared by the individual responsible for the preparation of other signatures in this name which have appeared on specimens previously received.

The typewriting on Q255 conforms in style to the questioned typewriting appearing on other items received in this matter, but the lack of identifying defects precludes a definite. determination as to whether the same typewriter was employed. However, no significant differences were noted between the typewriting on Q255 and that appearing on other specimens attributed to Eric S. Galt.

Specimens received 4/22/68

- K172 Sample #1, laundry tape, obtained from Thermo-Seal machine, Serial No. 32192, Model H5L4
- K173 Sample #2, laundry tape, obtained from Thermo-Seal machine, Serial No. 31900, Model H5L4
- K174 Sample #3, laundry tape, obtained from Thermo-Seal machine, Serial No. 32190, Model H5L4
- K175 Sample #4, laundry tape, obtained from Thermo-Seal machine, Serial No. 32189, Model H5L4
- K176 Envelope No. 5, Wearing Apparel Rate tag, Flat Rate tag and Customer Receipt, of laundry list No. 31053
- K177 Envelope No. 6, Wearing Apparel Rate tag and customer receipt of laundry list No. 30826

Result of examination:

The size and style of the numerals and letters on K172 through K175, as well as those appearing on some other known specimens received, are the same as corresponding portions of the laundry tapes appearing on the Q97 sheet and the Q99 pillow case.

Because of the lack of identifying features on which to base a definite opinion, it could not be established that one of the machines used to prepare K172 through K175 was used to prepare the questioned laundry marks. Of these known specimens, only K175 has the letters "0" and "R" spaced the same as on the Q97 and Q99 tags. There are an insufficient number of known specimens available imprinted "20R-3" to assess the significance of this feature; however, prior examinations indicate this factor alone is not sufficient to identify a laundry tag with a particular machine.

K172 through K177 have been retained.
