RE: CHARLES QUITMAN STEPHENS

In view of the expressed interest of the Attorney General's Office in the well being and welfare of CHARLES Q. STEPHENS, a principal witness in this case, I made efforts on two occasions on the morning of 6/28/68 to contact FRANK C. HOLLOMAN and Chief LUX of the Memphis PD, with information about CHARLES Q. STEPHENS. I had subsequently received information indicating that STEPHENS was returning to Memphis this date and had promised to contact me on his return. I was unable to reach either HOLLOMAN or LUX because of previous commitments on their part.

At approximately 4:30 p.m., June 28, HOLLOMAN called me and advised that the PD had located STEPHENS in a bar on South Main Street. I told HOLLOMAN at that time that I was aware of the fact that STEPHENS was back in town and this was my reason for trying to reach him earlier in the day. I told him I wanted to inform him of STEPHENS' contemplated return to town. HOLLOMAN raised the question as to whether or not there was anything the FBI could do to insure the safety of STEPHENS. I told HOLLOMAN that of course he knew we could not take STEPHENS into protective custody inasmuch as he was a state witness. HOLLOMAN said that he was worried about the safety of STEPHENS and was afraid that in the event something happened to him because of his known propensity for drinking a principal witness in a murder case might be missing. I agreed with HOLLOMAN, but again said I did not think there was anything the FBI could do and it was not our responsibility to protect CHARLIE STEPHENS. I suggested to HOLLOMAN it was quite possible that there might be a public spirited citizen he knew who was in a position to furnish a place for STEPHENS to stay. HOLLOMAN said he would look into the matter and would advise me later.

During my discussion with HOLLOMAN, Chief LUX was overheard in the background and HOLLOMAN told me they had called Attorney General CANALE's Office and advised his office of the fact that STEPHENS was back in town and that the responsibility for insuring the safety of STEPHENS rested with Attorney General CANALE's Office.

SAC CAMPBELL of Las Vegas telephonically informed as follows, July 31, 1968:

City Editor BATISTE of the "Las Vegas Review Journal" has informed SAC CAMPBELL that an individual named BILL JOE CHEEK, Aka Scott Owen Bell, has contacted BATISTE and has insisted that the FBI and law enforcement officers all over the country have been looking for him, that is, CHEEK. CHEEK tells the story that on the day MARTIN LUTHER KING was killed in Memphis, CHEEK was one of several body guards for MARTIN LUTHER KING and was in Memphis. Before Dr. KING was shot, CHEEK and one or two other fellows decided they would get a bite to eat. After they had left the motel, they heard shots and observed a man running in front of a rooming house. CHEEK claims to have tackled JAMES EARL RAY at the time he ran from the rooming house.

CHEEK is a white male, about 25 years of age, 5' 5" in height, and weighs 115 lbs. The editor of the newspaper is most interested in knowing whether he has a story.

It was pointed out to SAC CAMPBELL that CHEEK's story no doubt was a fabrication but that CHEEK should be interviewed. It was agreed that I would telephone the Bureau and then let SAC CAMPBELL know the reaction of the Bureau.

After talking with Supervisor McDONOUGH of the Bureau, I telephonically informed SAC CAMPBELL that CHEEK should be interviewed but that we are not in a position to give the editor details of information obtained from CHEEK. However, should the interview with CHEEK prove that he is a nut and that his story is a fabrication, it will be satisfactory for SAC CAMPBELL to indicate off the record to the editor that CHEEK

If SAC CAMPBELL advises that CHEEK does not have any information of value, the results may be reported to the Bureau by airtel. Otherwise, if CHEEK seems to have something of significance, the Bureau should be telephoned.

They had heard he had a private TV and phone in his cell.

They also went to see a Mr. CHENSHAW of Memphis Housing Authority (MHA) to see about moving slum area Negroes into units operated by MHA. They allegedly have taken photos of slum housing areas in preparation of sponsoring possible rent strikes by tenants in sub-standard housing.

ABERNATHY, Chairman of Southern Christian Leadership Conference (SCLC) when SCLC holds its 1968 National convention in Memphis. He said COLLINS is called NICKY COLLINS. LEWIS also claimed Sheriff MORRIS promised him that he, LEWIS, could be an observer at JAMES EARL RAY's trial.

WARREN LEWIS also told informant that he is not happy about Neighborhood Organizing Project (NOP) operated by black powerites, the Black Organizing Project, under sponsorship of War on Poverty Committee at 1210 N. Thomas, close to his barber shop at 837 N. Thomas. He said he does not trust the NOP as it has too many irresponsible leaders.

The following investigation was conducted by SA HARLEY E. GYLFE on the dates indicated:

Inquiry was made at banks in Memphis, Tennessee, to determine the identity of individuals making a withdrawal of \$10,000 or over in cash during April, 1968:

Mr. CHARLES E. RAUSHER, Cashier, Union Planters National Bank, 65 West Madison Avenue, Memphis, Tennessee, advised on May 23, 1968, that he would contact responsible personnel of the Main Office and the 30 branch offices of this bank to determine if any unusual withdrawals of \$10,000 or more were made during April, 1968. Mr. RAUSHER advised that during World War II the main office and all branches of this bank prepared a form for the Federal Reserve Bank in Memphis indicating any withdrawal of \$2,500 or more, which amount later was raised to \$10,000. This form bore the identification TCR-1 and indicating the name of the person making the withdrawal, the date, amount, and in most cases denominations. He advised this practice was discontinued shortly after World War II and has not been reinstituted.

Mr. RAUSHER advised the bank does not maintain a record of large withdrawals of \$10,000 or more but it is the general practice of all tellers of the banks to call to the attention of the responsible officials of the bank information concerning large withdrawals. He again stated that \$10,000 or more would be considered a large withdrawal.

Mr. RAUSHER advised on June 12, 1968, that all large withdrawals made during the current calendar year and especially during April, 1968, had been determined to be normal, legitimate business transactions and in no way questionable.

Mr. FRANCIS H. HALL, Assistant Manager, First National Bank of Memphis, 165 Madison Avenue, Memphis, Tennessee, advised on May 23, 1968, that he would check with responsible officials of the bank concerning large withdrawals made from the main office or any of the 27 branches of this bank. Mr. HALL explained that at the present time this bank does not maintain a listing of large withdrawals made during any period of time. He stated that during World War II, the main office and each carefully recorded all large withdrawals on Federal Reserve Bank Form TCR-1. He stated that shortly after the war this practice was discontinued and has not been reinstituted. He said they formerly recorded all

FBI - MEMPHIS	

withdrawals of \$2,500 or more, which amount was subsequently raised to \$5,000 and then to \$10,000. Mr. HALL stated it is the practice of all tellers of the First National Bank of Memphis to report any large or unusual withdrawals to responsible officials of the bank. He stated the officials in turn, almost without exception, refer this information to his office.

On June 12, 1968, Mr. HALL, above, advised he had determined no unusual withdrawals made during the current calendar year and especially during April, 1968. He said all large withdrawals were determined to be normal, legitimate withdrawals, such as for purchase of property, stocks, bonds, and other legitimate business transactions. He added that none of the large withdrawals, as \$10,000 or more would be considered a large withdrawal, were determined to be questionable in any way.

Mr. DAN GREER, Auditor, National Bank of Commerce, 45 South Second Street, Memphis, Tennessee, advised he would check with personnel of the main office and fourteen branches of that bank to determine if there were any unusual or large withdrawals made since January 1, 1968. He said he would be particularly alert for any such withdrawals during the period of April, 1968. Mr. GREER advised that during World War II his bank made a practice of preparing on a Federal Reserve Bank Form information relating to large withdrawals but this practice was discontinued after the war and has not been reinstituted.

On June 3, 1968, Mr. GREER advised he had not completed a review of all the branches as to large withdrawals but stated that to date no large withdrawals have come to his attention.

On June 11, 1968, Mr. GREER, above, advised he had determined that all large withdrawals made since January 1, 1968, and especially during April, 1968, had been normal, legitimate business transactions. He stated the large withdrawals made had been for purchase of property, bonds, stocks, or similar business transactions. Mr. GREER stated that none of the large withdrawals appeared to be questionable in any way.

Mr. JOHN WORLEY, Auditor, Commercial and Industrial Bank, Sterick Building, Memphis, Tennessee, on May 23, 1968, advised that his bank, consisting of the main office and four branches, does not maintain a record of large withdrawals made from this bank. He stated \$10,000 or more would be considered a very large withdrawal. He stated it is his understanding that during World War II the main office and the branches of this bank recorded large withdrawals and furnished this information possibly to the Federal Reserve Bank. However, this practice was discontinued after the war and was never reinstituted.

On May 29, 1968, Mr. WORLEY, above, advised he had checked with the officials in the main office and the branches of Commercial and Industrial Bank and had determined there were no out of the ordinary withdrawals made during the period January 1, 1968, to date, especially during April, 1968. He stated the branches maintain a minimum amount of cash on hand and, therefore, a large withdrawal would normally deplete their cash reserve and would immediately come to the attention of the officials of the bank. Mr. WORLEY stated all the large withdrawals were for normal, legitimate business transactions and were not questionable in any way.

Mr. RAY H. WEATHERLY, Auditor, Memphis Bank and Trust Company, 44 North Second Street, Memphis, Tennessee, advised on May 23, 1968, that he would review large withdrawals from the main office and three branches of that bank especially for April, 1968. Mr. WEATHERLY stated that during World War II, as is his understanding, the main office and branches of this bank recorded any unusual or large withdrawals and furnished the information to the Federal Reserve Bank in Memphis. He stated this practice was discontinued shortly after the end of World War II and was never reinstituted. He said the bank does not maintain a list of any large withdrawals for any period of time but stated it is customary for the tellers of the bank to call to the attention of responsible officials of the bank any large or unusual withdrawals.

On June 12, 1968, Mr. GARY SOLOMAN, Accountant, Memphis Bank and Trust Company, 44 North Second Street, Memphis, Tennessee, advised that he worked with Mr. WEATHERLY, above, concerning the review of large withdrawals made from the main office or any branch of this bank since January 1, 1968. He

advised that all large withdrawals, and \$10,000 or more would be considered as a large withdrawal, had been reviewed and it was determined all such withdrawals were normal, legitimate business transactions. He stated these withdrawals were generally for the purchase of property, bonds, stocks, or as a transfer from checking to savings or savings to checking account. Mr. SOLOMAN stated that particular interest was given to such withdrawals during April, 1968, but it was determined no withdrawals made during this period were of a questionable nature in any way.

On May 23, 1968, Mr. JESSIE TURNER, Executive Vice President, Tri-State Bank of Memphis, 222 South Main Street, Memphis, Tennessee, advised he would have the auditor and assistant cashier, Mr. ARVIS V. LATTING, cause a check to be made of all large withdrawals from this bank, specifically of \$10,000 or more, during the past three or four months. He advised he would determine if any such withdrawals were for legitimate business transactions or if there was anything questionable about them and would furnish this information at a later date.

On June 5, 1968, Mr. ARVIS V. LATTING, above, advised that Mr. TURNER had not brought the above matter to his attention but he advised he, LATTING, would immediately check with officials of the main office and the branch to determine if there were any large or unusual withdrawals made, especially during April, 1968. Mr. LATTING stated this bank does not maintain a list of large or withdrawals but it is the practice of the tellers to call to the attention of responsible officials any large withdrawal or any unusual withdrawal.

On June 12, 1968, Mr. LATTING, above, advised he had determined that all large withdrawals made from the main office or branch during the past three or four months, and especially during April, 1968, were normal, legitimate business transactions. He said these withdrawals were made to transfer funds from a checking to savings or savings to checking account, or for the purchase of stock, bonds, property, etc. Mr. LATTING stated that none of the withdrawals were questionable in any way.

Mr. HOWELL OSBORN, Vice President, Peoples Bank, Shelby Center, 6767 Summer Avenue, Memphis, Tennessee, advised on May 23, 1968, that this is a small, local bank and all customers are

ME 44-1987

5

personally acquainted with the officers of the bank. He stated any withdrawal of \$1,000 or more would be immediately brought to the attention of the officers of this bank. He stated there were no large or unusual withdrawals of a questionable nature in any way made during March, April, or May, 1968.

It should be noted that Mr. CHARLES RAUSHER, Mr. FRANCIS HALL, and Mr. DAN GREER, all mentioned above, voluntarily furnished the information relative to their respective banks furnishing the form TCR-1 to the Federal Reserve Bank, Memphis, during World War II. Mr. HALL commented that the Federal Reserve Bank requested this form be prepared in duplicate but his bank had made the practice of preparing it in triplicate and furnishing the original and one copy to the Federal Reserve Bank for each separate transaction handled by the bank requiring this form be executed. Mr. HALL stated he did not recall the exact time the bank discontinued this practice but is certain it was prior to 1950. He stated he did not know of any bank in the Memphis area which has continued this practice since that time.

The above individuals advised a review of their files revealed no one using the name JAMES EARL RAY or any of his known aliases of ERIC STARVO GALT, HARVEY LOWMEYER, JOHN WILLARD, PAUL BRIDGEMAN, PAUL BRIDGMAN, or RAMON GEORGE SNEYD, had an account with their respective firms, had never had an account and had not rented any safety deposit box from their respective firms.

GYLFE that their respective institutions do not handle transactions for anyone other than their customers except in those instances where the individual is personally known to an official or employee of the association. They all advised that, therefore, there would not be any questionable withdrawals from customers' accounts during any period, including April, 1968:

Mr. J. H. WEIR, President, First Federal Savings and Loan Association of Memphis, 150 East Court Avenue, Memphis, Tennessee;

Mrs. VIRGINIA FINLEY, Supervisor, Savings Department, Home Federal Savings and Loan Association of Memphis, Main Office, 147 Jefferson Avenue, Memphis, Tennessee;

Mrs. SHIRLEY HARPER, Secretary, Colonial Savings and Loan Association (formerly Southaven Savings and Loan Association), 1 Office Park Plaza, Memphis, Tennessee;

Mr. ERNEST OPPENHEIMER, Executive Vice President, First Federal Savings and Loan Association, mentioned above, advised on June 13, 1968, a review of the records of this association did not reflect any large or unusual withdrawal by any customer during April, 1968. He pointed out that this firm does not pay out large amounts in cash but rather by check. He pointed out that some large withdrawals were made in April, 1968, but these generally were for payment of income tax, purchases of property, and other legitimate transactions. He also pointed out there were some large deposits made to

The following investigation was conducted by Special Agents WILLIAM Y. DORAN and JOHN MARKEY at Milwaukee, Wisconsin:

On April 25, 1968, "Milwaukee Journal" reporter TOM LUBENOW telephonically contacted Chief HAROLD BRIER, Milwaukee Police Department, and advised him that after reading a recent edition of "Newsweek" in which an article appeared concerning a JERRI PETERSON, white female with blonde hair and blue eyes, who was reportedly a girl friend of JAMES EARL RAY, he received information from a source he refused to identify in Los Angeles, California, indicating that a girl meeting the above description left Los Angeles approximately a week ago and had reportedly checked into the Royal Hotel, Milwaukee, Wisconsin, with a man vaguely resembling JAMES EARL RAY. He stated that the girl's name was DYRELL DENNIS. He stated that he verified the fact that DENNIS had stayed at the Royal Hotel, 5th and Wisconsin Avenue, during the period April 14-21, 1968, at which time she checked out.

On the same date, the above information was furnished to the Milwaukee Division of the FBI by Chief BRIER, and efforts were made to locate DYRELL DENNIS for interview.

On the same date, DENNIS was located at the Towne Hotel, 723 North Third Street, Milwaukee, Wisconsin, at which time she furnished the following information:

She stated that she left Los Angeles alone by Greyhound bus approximately two weeks previous for the reason of visiting her 17-year-old son, CURTIS PAUL, who resides with his paternal grandparents, Mr. and Mrs. ROBERT PAUL, on Twelfth Street, Milwaukee. She stated that she was previously employed at the Beverly Wilshire Hotel on Wilshire Boulevard, Los Angeles, as a switchboard operator under the name DYRELL DENNIS until March, 1968. She stated that her previous employments included work as a switchboard operator for the "Los Angeles Times" between 1951 and 1954; switchboard operator for Motion Picture Studios (now Desilu) 1945 - 1949. She furnished her home address as 1151 Wilcox, Los Angeles, California.

DENNIS was displayed available photographs of subject JAMES EARL RAY, and she stated that she did not have any knowledge of RAY or anyone by the name of ERIC STARVO GALT or any of the other names used by the subject. DENNIS stated that she intended to remain in Milwaukee if she is able to obtain employment, but will return to Los Angeles if she cannot.

DAVID LENSKE, Manager, Royal Hotel, stated on April 25, 1968, that DENNIS registered alone at the Royal Hotel, Room 208, on April 14, 1968, and paid through April 21, 1968, during which time she was suspected of engaging in narcotics or prostitution activities. Based upon previous information received from Los Angeles, it was determined that LUBENOW's source in this matter was LOUIE LOMAX, controversial Negro TV personality whose program was recently terminated at Los Angeles, and that DENNIS was probably identical with JERRI (LNU), the mysterious blonde referred to by LOMAX in articles appearing April 24, in Los Angeles and New Orleans.

On April 26, 1968, Los Angeles communication to the Bureau stated that JOE PETERS, bartender, Sultan Room, Hollywood Boulevard, Los Angeles, California, identified photographs of DYRELL DENNIS as being identical with a woman he had seen in the company of subject JAMES EARL RAY on one occasion.

On April 27, 1968, DYRELL DENNIS was located at the Belmont Hotel, 751 North Fourth Street, Room 504, at which time she furnished the following information:

She stated that during the period March 1-9, 1968, she was residing at the St. Francis Hotel in Los Angeles, California. She said that she occasionally went to the Sultan Room on Hollywood Boulevard during this period of time, and that on one week night, the exact date of which is unknown, she was approached by a man who was sitting at the bar in the Sultan Room. She stated that this man, who was unknown to her, introduced himself as ERIC (LNU). She described him as a white male, late thirties or early forties, 5'10", slender build, salt and pepper hair, light blue eyes, who was dressed neatly in a suit, white shirt and tie, and was well groomed. She further advised that ERIC (LNU) had

pointed facial features, appeared very nervous, spoke with a nasal twang which she said was not southern or hillbilly, had an olive or tan complexion, drank screwdrivers, and said something about working with computers. She said that ERIC (LNU) asked her if he could buy her a drink and subsequently they had several drinks together. She said he displayed a large sum of money in ten and twenty dollar bills and that he gave her money with which to play the jukebox. She said that she talked him into giving her a twenty dollar bill, after which they left the Sultan Room and went to the Rabbit's Foot Club on Hollywood Boulevard where they continued to drink. She stated that after leaving the Rabbit's Foot Club she went to ERIC's room, which she recalls as Number 403 at the St. Francis Hotel. She stated that they talked for a short time and that on more than one occasion he told her that he could become violent. She stated that she became afraid of him, thinking that he was probably a psychopath, and decided against having relations with him. She said that she told him to go and get some scotch and water, and when he left the room she fled from the St. Francis Hotel.

She subsequently met up with RAY FERNANDEL (phonetic), whom she described as a Mexican male, in his forties, 5'7" 155 pounds, black hair, dark eyes, and he was from Los Angeles. DENNIS stated that FERNANDEL is a friend of hers and that they returned to the Sultan Room where they ran into ERIC (LNU), and he threatened to call the Police unless she returned the twenty dollar bill, which she did. DENNIS stated that she was with ERIC (LNU) for approximately three hours, during which time both of them were intoxicated.

DENNIS was shown all available photographs of subject JAMES EARL RAY, and she advised that the only photograph that resembled ERIC (LNU) is Missouri Department of Corrections photograph taken January 4, 1966, which photograph was not available when DENNIS was interviewed April 25, 1968.

DENNIS stated that she saw ERIC (LNU) on one other occasion, which was one or two days after the above described experience, when she observed him leaving the St. Francis Hotel by the rear exit. She said she has not seen or heard from him since.

DENNIS was advised of the provisions of the Harboring Statute, and she advised that she would be glad to assist the FBI in efforts to locate ERIC (LNU) or JAMES EARL RAY. DENNIS advised that she planned to stay in Milwaukee if she could obtain employment, however, she intended to make a trip to San Antonio, Texas, to visit another son. She stated she would keep the FBI in Milwaukee advised of her whereabouts.

It should be noted that during the course of the interview with DENNIS on April 25, 1968, she was intoxicated and not very coherent, but at the time of the interview on April 27, 1968, DENNIS was sober and coherent.

The following background and descriptive data was obtained by observation and interview:

The company's normal store hours are 9:30 to 5:30 p.m., Monday, Tuesday, Wednesday, Friday and Saturday, and from 9:30 a.m., to 9:00 p.m., on Thursdays.

On Thursday, April 4, 1968, due to the assassination of Dr. MARTIN LUTHER KING, JR., he decided to send most of his employees home at 5:30 p.m. and retain just a skeleton force until at least approximately 6:30 p.m.

GATTAS was at the 387 South Main location at the moment KING was shot; however, GATTAS did not hear the shot and did not realize what had happened until he heard police sirens in the street. A police officer came into his office and asked to use the telephone and told him what had happened.

He stated he could furnish no information about this matter.

The following employees of the Fred P. Gattas Company, Inc., were interviewed and were unable to furnish any information of value pertaining to the assassination of MARTIN LUTHER KING, JR.:

UNITED STATES GOVERNMENT

Memorandum

TO : SAC (44-1987)

FROM : SA WILLIAM H. LAWRENCE

SUBJECT: MURKIN

DATE: 8/23/68

On 8/1/68 ME 338-R(Ghetto) orally advised the writer as follows:

Informant has long been a personal friend, professionally, of white male RENFRO TURNER HAYS, a private investigator, who has in recent years done much investigative work for Memphis attorneys such as RUSSELL X. THOMPSON and JERE HUFFMAN.

It will be recalled that on Friday night, 7/26/68, Captain JEWELL G. RAY, Intelligence Bureau, Memphis, Tennessee, Police Department, and now in charge of security for prisoner JAMES EARL RAY, indicted for the 4/4/68 sniping shooting of MARTIN LUTHER KING, JR., advised the writer that RAY's attorney ARTHUR HANES of Birmingham, Alabama, was in town and was going to the Home Federal Building Office of RUSSELL X. THOMPSON to meet with THOMPSON and RENFRO T. HAYS.

It will be further recalled that on the night of the KING killing, 4/4/68, ME 338-R(Ghetto) phoned the writer to confidentially point out that HAYS could have been a suspect in the KING killing, in that he had a white compact car and had been inquiring on or about 4/3/68 as to the room number of KING who was then staying in Room 306, Lorraine Motel.

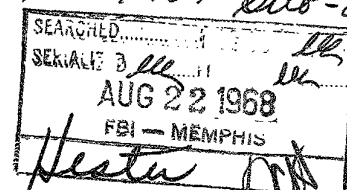

On 8/1/68 HAYS contacted ME 338-R(Ghetto) and said he, HAYS, and THOMPSON were going to do some legal and investigative work in behalf of RAY's defense for ARTHUR HANES and that among other things they would want photographs made of RAY in the Shelby County Jail and possibly other photographs such as the rooming house at 422½ South Main Street and at the Lorraine Motel.

RENFRO said that THOMPSON, a white attorney, formerly in the integrated law firm of Ratner, Sugarmon, Willis and Thompson, was now a law partner of former Memphis Mayor, WILLIAM B. INGRAM; that nevertheless he would not jeopardize his Negro clientele because he was still on retainer of NAACP; and that the NAACP had no objections to his helping with the RAY defense as the NAACP would like to learn more about RAY and THOMPSON felt this would be an excellent way to get the inner secrets, if any, regarding the mystery surrounding JAMES EARL RAY.

HAYS wanted ME 338-R(Ghetto) to arrange to have photographs taken for the RAY defense. HAYS claimed that a Memphis white photographer, WILBUR CURTIS, with offices in the 100 North Main Building, has taken a series of aerial photographs of the rooming house and Lorraine Motel area.

HAYS said that THOMPSON and HANES are relying heavily for defense leads and strategy on an article which appeared in "Ramparts" Magazine, issue of 7/13/68 entitled, "Some Disturbing Parallels," by WILLIAM W. TURNER, former FBI Agent, and now a senior editor for "Ramparts."

A Xerox copy of this article is attached to each copy of this memorandum.

ME 338-R(Ghetto) has decided not to get involved, feeling that any fees would be offset by loss of business from the Negro community. He might arrange for some still photographs of the rooming house and the Lorraine which he already has taken.
