

Specimen Q28 is a partial tube of "Colgate" toothpaste, 3.25 ounce size.

The Q29 and Q30 socks are a pair of black knee length synthetic stretch socks. No markings or labels were found on these socks.

The Q31 can of "RIGHT GUARD" deodorant is a 7 ounce size. "M313" is printed in black on the bottom of the can.

Specimen Q32 is a Channel Master radio receiver. A label affixed to the inside of the rear cover indicates that the receiver is Model 6502, 6 transistor, super heterodyne, with a frequency range of 535-1605 Kc/s and operates on a 9-volt battery supply. The words "CHANNEL MASTER CORP." are imprinted on the bottom of the label. The words "HONG KONG" are molded on the outside of the light-colored plastic cover; however, some components are marked "JAPAN." A 9-volt Eveready battery, #216, was connected inside the case. The front of the case is made of polished or plated metal and is stamped "6 TRANSISTOR CHANNEL MASTER." The remainder of the case, about one-third down each side, is maroon-colored plastic. The case measures approximately 4" x 2 3/8" x 1 1/4".

Radio products bearing the Channel Master name are very common.

When received, the dial indicated approximately "10" and was turned to approximately 1020 Kc/s. The tuning range of the receiver is approximately 530 Kc/s to 1660 Kc/s, which covers the regular broadcast band. The receiver was operational when received.

The Q32 radio bears scratches on one end interpreted to read "00416."

The Q33 plastic "BUFFERIN" bottle is a 60-tablet size and contained 10 whole tablets and 2 partial tablets, all bearing the letter "B."

Specimen Q34 is a man's elastic belt bearing Greek or Roman heads on the buckle. The belt is 3/4" wide and 31" long, unstretched. The waist measurement of the wearer could not be determined in view of the type of belt.

Specimen Q35 is a partial tube of "BRYLCREEM" hair dressing, 3 ounce size.

Specimen Q36 is a bottle of "ONE A DAY" vitamins, 25-tablet size. There were 21 tablets in the bottle.

Specimen Q37 is a small hotel-size bar of "Cashmere Bouquet" soap.

Specimen Q38 is a clear plastic hairbrush with white synthetic bristles. "U.S.A." has been molded to the underside of the handle.

The Q39 bar of "dial" soap is a 4 7/8 ounce size and has the price "2/45¢" stamped on one end in blue ink.

The Q40 tube of "Head & Shoulders" shampoo is a 2.7 ounce size. It bears a price label with "LIGGETT-REXALL 1678 1.10" on the side.

The Q41 can of "KIWI" brown boot polish is a 1 1/8 ounce size. Some of the polish has been used.

A price tag on the Q42 can of "PALMOLIVE RAPID-SHAVE" menthol shaving cream bears "LIGGETT-REXALL 3478 .79."

Nothing of significance was noted about the Q43, Q44 or Q63 buttons; however, they are suitable for comparison with other buttons present on suspect garments.

Specimen Q45 is a used red-handled "Pepsodent" brand toothbrush. "U.S.A. M K5" is present on the underside of Q45.

The Q46 razor is a "Gillette" make and has no blade in it.

A price tag is on the Q47 3.75 ounce bottle of "MENNEN afta" after shave and skin conditioner lotion bearing "\$1.00 PLS TAX." "202x" is printed in blue ink on the bottom of Q47.

Specimen Q48 is a small bar of "Cameo" soap manufactured by the Brunswick Soap Company, Brooklyn, New York.

Specimen Q49 is a small bar of "Cashmere Bouquet" soap, a product of Colgate-Palmolive Company, New York. A shield with "Member Friendship Inns" has been printed on the wrapper.

The Q50 and Q51 bobby pins are light brown colored, common pins.

Specimens Q52 and Q53 are full cans of Schlitz beer. "MISSISSIPPI TAX PAID 4 CENTS" has been printed in black on the bottom of each can. "03 has been stamped into the 158" metal in the bottom of each can. Both cans are alike. These cans were found attached to the Q54 carrying device in the Q55 paper bag.

Nothing of apparent significance was noted about the 4"by 6" brown paper Q56 bag.

The Q57 key fits the lock on the Q15 zipper bag and probably belongs to this bag.

Specimen Q58 is a common, round, used toothpick.

The metal split ring, Q59, has overlapping ends. It appears to be the type of ring that new keys are attached to.

Nothing of significance was noted about the Q60 and Q61 coat hangers.

Specimen Q62 is a two-link portion of an "ADJUST-O" silver-colored watchband. The links may be compared with the watchband should same be recovered.

The Q69 undershorts and the Q70 T shirt each bears a laundry tag with what appears to be the characters "02B-6." Only a portion of the first character is present on each tag. The Laboratory does not maintain a file of visible laundry marks. No invisible laundry marks were found on the undershorts or T shirt.

The pair of undershorts is small in size while the T shirt is large.

The pair of undershorts does not have a brand label. The T shirt has a "JOCKEY" brand label.

The T shirt label is held flat with a folded piece of 3/4" wide cellophane tape. The piece of tape is about 1" long. One end has been cut, and the other end has been torn.

The crotch seams of the undershorts have been repaired in two places with brown thread. The repaired areas are hand stitched.

The Q209 strap, which appears new, measures 37 1/2" in length. This strap fits the strap guides on the Q14 binoculars and could be the strap for Q14. No strap is presently on Q14.

A short hand strap is presently on the Q22 binoculars case. The Q210 strap has the same appearance as the hand strap on Q22 except that it is longer. Specimen Q210 could be the shoulder strap for the Q22 case. The Q210 strap appears new and measures 37" in length.

No marks to indicate source were found on Q213. The Q213 pin appears to be a patriotic emblem.

There is a large hole in the right front portion of the collar of the Q76 shirt. The Q77 necktie has been forcibly torn apart in the right front neck portion also. The object or objects causing the damage were larger than a bullet of .30 caliber size and irregular in shape as all of the yarns were broken, not cut. One or more segments of bone could not be eliminated as the cause of the damage.

The right lapel of the Q78 coat has three damaged areas on the surface of the fabric. These areas have been torn by some object or objects, but the damage does not extend through the lapel. The torn areas vary from 1/4" to 1" in length and the condition of the yarns indicates the object or objects struck the coat from above and probably glanced off the coat.

Due to the sizes and ragged edges of the damaged areas of the Q76 shirt, Q77 necktie and Q78 suit coat, it was not possible to recognize any bullet holes or to

determine from visual examination whether or not a bullet or any bullet fragments had passed through or struck these items.

No bullet holes were found in Q79 through Q85.

The edges of the hole torn in the Q76 shirt collar, the edges of the three tears on the collar of the Q78 suit coat and the material near the ends of the Q77 necktie were contaminated with traces of lead which could have come from a bullet or from bullet fragments. The lead contamination of these items could not be associated with a particular bullet or lead source.

FINGERPRINT EXAMINATION

Specimens Q1 through Q63, Q69, Q70, Q209, Q210, Q213, and ten transparent lifts of latent prints from room at 420 South Main Street examined and latent prints of value found or developed as follows:

- One palm print on black rifle box, Q1
- One fingerprint on side of rifle, Q2
- One fingerprint on telescopic sight on rifle, Q2
- One fingerprint on binoculars, Q14
- One fingerprint on front page of newspaper, Q19
- One fingerprint on after shave lotion bottle, part of Q24
- One fingerprint on Schlitz beer can, Q53
- One fingerprint on lift marked in part "Lifted from Dresser top"
- One fingerprint on lift marked in part "Rt. side of fireplace (front)"

No other latent impressions of value found or developed.

The latent fingerprint on the rifle, Q2, the latent fingerprint on the telescopic sight of the rifle, Q2, the latent fingerprint on the binoculars, Q14, the latent fingerprint on the newspaper, Q19, the latent fingerprint on the after shave lotion bottle, part of Q24, and the latent fingerprint on the Schlitz beer can, Q53, have all been identified as fingerprints of JAMES EARL RAY, FBI#405942G.

The latent palm print on the rifle box, Q1 has been identified as the right palm print of Birmingham gun store clerk Donald F. Wood. The latent fingerprint on the lift marked in part "Lifted from Dresser top" has been identified as a fingerprint of Memphis police officer Glynn King.

The remaining latent fingerprint is not identical with the fingerprints of RAY or with the fingerprints submitted for elimination purposes. Photographs of this latent fingerprint are being retained in our files for any additional comparisons you may desire.

Lab. No. D-661771 JK

Specimens received 4/22/68

Q203 Air Mail envelope postmarked "LOS ANGELES, CALIF. 48 PM 25 APR 1968" bearing typewritten address "TERRY S. GALT, 2015 WILSON BLVD., LOS ANGELES, CALIFORNIA. 90057" and typewritten return address "ERIC S. GALT, 2005 HOLLWOOD, HEB. HOLLWOOD, CALIF. 90028."

Q204 Autographing sheet of paper bearing typewritten message dated 2/22/68, signed "Eric S. Galt"

Result of examination:

The typewritten impressions appearing on Q203 and Q204 are the same style as those appearing on items previously submitted in this case attributed to Eric S. Galt. Because of the lack of identifying defects, it could not be definitely determined whether the same typewriter was used in producing Q203 and Q204 and the other items submitted, but no significant differences were noted.

It was concluded that the "Eric S. Galt" signature on Q204 was prepared by the writer of the signature in this case appearing on numerous other specimens previously received.

Q203 and Q204 are temporarily retained. Photographs were made.

It was concluded that the questioned hand printing appearing on items attributed to Eric S. Galt was prepared by JAMES EARL RAY, K171 and K211.

Because of the presence of characteristics which cannot be explained on the basis of the known handwriting of JAMES EARL RAY, it cannot be definitely determined whether the "Harvey Lowmyer" signature on Q72 was prepared by this individual; however, significant handwriting similarities were noted.

Specimen K211 has been photographed and is temporarily retained.

Re: MURKIN

Date: May 3, 1968
FBI File No. 44-38861
Lab. No. D-562013 JK

Specimens received 4/30/68

- Q300 Envelope postmarked "LOS ANGELES CALIF. 4A PM APR 22 1968" bearing typewritten address "Editor, Citizens News, 1545 N. Wilcox, Hollywood, Calif. 90028" and return address "James E. Ray, Far Away"
- Q301 Accompanying clipping captioned "88 Days in a Red Prison" which appears to have been smeared with a fecal material and bears on the reverse side typewriting beginning "The Citizens News has. . ."

Result of examination:

It was determined that the typewriting on Q300 and Q301 is not identical to typewriting on material previously submitted in this case attributable to Eric S. Galt.

Q300 and Q301 were searched in the Anonymous Letter File without effecting an identification. Copies have been added to this file for future reference. The typewriting on these specimens most closely resembles Corona pica style of type spaced ten to the inch. The submitted material was examined for watermarks and indented writing with negative results.

Q300 and Q301 have been photographed and are being returned to Los Angeles separately.

Result of examination:

The K207 laundry tapes is similar to the Q69 and Q70 laundry tapes in color, construction and composition. The K207 tape measures 1/4 inch by 1 1/8 inches. The Q69 and Q70 tapes measure 1/4 inch by 1 1/16 inches.

The size of type and printing characteristics of K207 are similar to those on Q69, Q70 and K10 indicating that all may have been prepared by the same machine. The lack of significant identifying features precluded a definite conclusion from being reached.

Q316 Typewritten advertisement beginning "SINGLE MALE CAUC. 36..." bearing typewritten name and address "ERIC S. GALT, 406 SO 2nd. ALHAMBRA. 91802"

The typewritten impressions on Q315 and Q316 are the same as the impressions appearing on other typewritten items in the name Eric S. Galt which were previously submitted. Because of the lack of identifying defects, it could not be determined whether the same typewriter was employed to prepare the current and previous submissions, but no significant differences were noted.

The Eric S. Galt signature on Q315 was prepared by the individual who prepared the signature in this name appearing on numerous other items received.

- Q313** Accompanying one-page typewritten letter beginning "Dear Editor, By the time..." ending "...never kill again." signed "James Ray"

Result of examination:

The typewritten impressions on Q312 and Q313 are not identical with the typewritten impressions appearing on items previously received in this matter in the name Eric S. Galt.

Although significant handwriting differences were noted between the "James Ray" signature on Q313 when compared with the available known signatures of James Earl Ray, because a portion of the questioned signature is overwritten and because of the limited nature of the questioned writing involved, a definite opinion could not be reached as to whether the questioned signature on Q313 was prepared by Ray.

No watermarks, indented writing or other identifying features were noted on Q312 and Q313 which might indicate their immediate source.
