

PH 44-1368

The Textile Marking Machine Company advised that the machine that made the pertinent tag is defective in that it produces a tape 1-1/16" long instead of 1-1/8" long, and is not projecting the tape far enough, resulting in the cutting off of a portion of the first letter.

Although the Textile Marking Machine Company indicated a standard code for the Northeastern United States, we have been getting various codes from various stores, which would indicate that the one suggested by the machine manufacturer is not utilized by each store, and that all set up their own codes. The following laundries are located in Resident Agencies' territories:

B. GROSS COMPANY
State and Jackson Streets
Media, Pa.
SR 233766 (machine number)

IDEAL CLEANERS
783 Broad Street
Chambersburg, Pa.
SR 32485

NEW IDEA LAUNDRY COMPANY
Woodland and Olive Streets
Coatesville, Pa.
SR 32451 and SR 32452

NORM'S AND SPEEDE, INC.
Washington and Noble Streets
North Norristown, Pa.

SR 32092

SARITA'S CLEANERS
519 Davisville Road
Willow-Grove, Pa.
SR 33536

PH 44-1368

SERVICE CLEANERS
704 East Market Street
West Chester, Pa.
SR 31782

STEEL's HANOVER LAUNDRY, INC.
110 High Street
Hanover, Pa.
SR 31348

WHARTON's, INC.
552 Lancaster Avenue
Haverford, Pa.
SR 33958

It is suggested that in contacts with the above establishments, the actual operators of the machines as well as supervisory personnel be contacted. It has been further learned from Textile Marking Machine Company that the letter "O" may have been used rather than a dash for the first character. If the code is recognizable by the insertion of a dash instead of the letter "O" or if the code is recognizable as it appears on instant tape, the office should be notified immediately so that the Bureau can be advised.

Samples of the tape with the 02B-6 designation should be obtained.

All leads should be handled *immediately* upon instructions from the Bureau.

Results of all investigation regardless of whether it was positive or negative should be put in writing and sent to instant file.

THE BUREAU HAS INSTRUCTED THAT IN CONNECTION WITH ANY INQUIRIES, NO INDICATION SHOULD BE GIVEN THAT THE INVESTIGATION IS BEING CONDUCTED IN CONNECTION WITH CAPTIONED CASE.

PH 44-1368

NEW LEAD

GALT has been reported as having attended dancing schools in Birmingham, New Orleans, and California. All Resident Agents should immediately check all dancing schools in their territories for any record of prior attendance at any such schools by GALT and follow any leads developed.

GALT reportedly signed up for a one-year dancing course in New Orleans in 1964 and took dancing lessons for several weeks in Birmingham in September, 1967. He also took a \$499 dance course from December, 1967, to February, 1968, at Long Beach, Calif.

The Bureau points out that GALT may have used the name HARVEY LOWMYER or JOHN WILLARD.

UNKNOWN SUBJECT SHOULD BE CONSIDERED ARMED AND DANGEROUS.

UNITED STATES GOVERNMENT

Memorandum

TO : SAC (44-1368)

DATE: 4/15/68

FROM : SA KENNETH K. SMYTHE

SUBJECT: MURKIN

This memorandum is written to specifically consolidate leads which had previously been set out telephonically to the Resident Agents.

An individual utilizing the name of ERIC STARVO GALT is the principal suspect in instant case.

All Resident Agents have been notified telephonically to check all city and telephone directories, financial institutions, and to conduct credit and criminal checks in their territories and to contact other logical sources to obtain any information whatsoever regarding GALT.

GALT was known to have been the registered owner of a white 1966 Mustang, bearing 1968 Alabama license 1-38993. The car has since been recovered in Atlanta, Ga.

In his application for a driver's license, GALT was described as a white male, born 7/20/31 (place unknown), 5' 11" tall, 175 pounds, with blue eyes and brown hair.

One of the best leads in instant case stems from piece of laundry tapes found on a pair of shorts and a T-shirt in a room believed occupied by the suspect in Memphis, Tenn., on 4/4/68. The laundry mark was on red tape with black lettering, and was of the thermo seal type, manufactured by the Textile Marking Machine Company, Inc., in Syracuse, N. Y. The tape was 1/4" wide and 1-1/16" long, and bore the letters and number O2B-6 or D2B-6. The beginning of the first character was slashed off so that it was difficult to tell whether it was an "O" or a "D." However, subsequent information would indicate that it was an "O" since the letters appear as the third character in the laundry marks of most machines used.

PH 44-1368

The Textile Marking Machine Company advised that the machine that made the pertinent tag is defective in that it produces a tape 1-1/16" long instead of 1-1/8" long, and is not projecting the tape far enough, resulting in the cutting off of a portion of the first letter.

Although the Textile Marking Machine Company indicated a standard code for the Northeastern United States, we have been getting various codes from various stores, which would indicate that the one suggested by the machine manufacturer is not utilized by each store, and that all set up their own codes. The following laundries are located in Resident Agencies' territories:

B. GROSS COMPANY
State and Jackson Streets
Media, Pa.
SR 233766 (machine number)

IDEAL CLEANERS
783 Broad Street
Chambersburg, Pa.
SR 32485

NEW IDEA LAUNDRY COMPANY
Woodland and Olive Streets
Coatesville, Pa.
SR 32451 and SR 32452

NORM's AND SPEEDE, INC.
Washington and Noble Streets
North Norristown, Pa.

SR 32092

SARITA's CLEANERS
519 Davisville Road
Willow-Grove, Pa.
SR 33536

PH 44-1368

SERVICE CLEANERS
704 East Market Street
West Chester, Pa.
SR 31782

STEEL's HANOVER LAUNDRY, INC.
110 High Street
Hanover, Pa.
SR 31348

WHARTON's, INC.
552 Lancaster Avenue
Haverford, Pa.
SR 33958

It is suggested that in contacts with the above establishments, the actual operators of the machines as well as supervisory personnel be contacted. It has been further learned from Textile Marking Machine Company that the letter "O" may have been used rather than a dash for the first character. If the code is recognizable by the insertion of a dash instead of the letter "O" or if the code is recognizable as it appears on instant tape, the office should be notified immediately so that the Bureau can be advised.

Samples of the tape with the 02B-6 designation should be obtained.

All leads should be handled *immediately* upon instructions from the Bureau.

Results of all investigation regardless of whether it was positive or negative should be put in writing and sent to instant file.

THE BUREAU HAS INSTRUCTED THAT IN CONNECTION WITH ANY INQUIRIES, NO INDICATION SHOULD BE GIVEN THAT THE INVESTIGATION IS BEING CONDUCTED IN CONNECTION WITH CAPTIONED CASE.

PH 44-1368

NEW LEAD

GALT has been reported as having attended dancing schools in Birmingham, New Orleans, and California. All Resident Agents should immediately check all dancing schools in their territories for any record of prior attendance at any such schools by GALT and follow any leads developed.

GALT reportedly signed up for a one-year dancing course in New Orleans in 1964 and took dancing lessons for several weeks in Birmingham in September, 1967. He also took a \$499 dance course from December, 1967, to February, 1968, at Long Beach, Calif.

The Bureau points out that GALT may have used the name HARVEY LOWMYER or JOHN WILLARD.

UNKNOWN SUBJECT SHOULD BE CONSIDERED ARMED AND DANGEROUS.

UNITED STATES GOVERNMENT

Memorandum

TO : SAC (44-1368)

DATE: 4/15/68

FROM : SA KENNETH K. SMYTHE

SUBJECT: MURKIN

This memorandum is written to specifically consolidate leads which had previously been set out telephonically to the Resident Agents.

An individual utilizing the name of ERIC STARVO GALT is the principal suspect in instant case.

All Resident Agents have been notified telephonically to check all city and telephone directories, financial institutions, and to conduct credit and criminal checks in their territories and to contact other logical sources to obtain any information whatsoever regarding GALT.

GALT was known to have been the registered owner of a white 1966 Mustang, bearing 1968 Alabama license 1-38993. The car has since been recovered in Atlanta, Ga.

In his application for a driver's license, GALT was described as a white male, born 7/20/31 (place unknown), 5' 11" tall, 175 pounds, with blue eyes and brown hair.

One of the best leads in instant case stems from piece of laundry tapes found on a pair of shorts and a T-shirt in a room believed occupied by the suspect in Memphis, Tenn., on 4/4/68. The laundry mark was on red tape with black lettering, and was of the thermo seal type, manufactured by the Textile Marking Machine Company, Inc., in Syracuse, N. Y. The tape was 1/4" wide and 1-1/16" long, and bore the letters and number 02B-6 or D2B-6. The beginning of the first character was slashed off so that it was difficult to tell whether it was an "O" or a "D." However, subsequent information would indicate that it was an "O" since the letters appear as the third character in the laundry marks of most machines used.

SUBJECT: MURKIN

Re: Butel 4/10/68

On April 10, 1968, all financial institutions in Lancaster County were checked for any account for ERIC STARVO GALT and no account was found.

The Credit Bureau of Lancaster County, Incorporated, and the records of the Pennsylvania State Police, Troop J and the Lancaster Police Dept. were checked and no record of ERIC STARVO GALT was found.

A search of the Telephone directories for ~~villages~~ all areas of Lancaster County, and a search of the Lancaster City Directory and Lancaster Suburban area directory (City Directory 1968 and suburban directory 1967) was made for the name ERIC STARVO GALT with negative results.

Approved: _____ Sent _____ M Per _____
Special Agent in Charge

AL 44-493

For the information of San Juan, the following is furnished:

Search of premises believed occupied by UNSUB who assassinated Dr. MARTIN LUTHER KING on 4/4/68, disclosed suitcase in which was located tee-shirt and undershorts bearing laundry mark on red tape with black lettering believed to be Thermo-Seal type, manufactured by Textile Marking Machine Co., Inc., Syracuse, N.Y. The tape is $\frac{1}{4}$ " wide and $1\frac{1}{16}$ " long and bears letters and numbers 02B-6.

Experts at Textile Marking Machine Company advise type on this machine is unusual in that the first two characters are 15 point type and the last three characters are eighteen point type, with the middle character, the letter B, probably being narrow rather than regular type. The usual machine carries 15 point type for the first three characters and 18 point type for the last two characters.

Textile Marking Machine experts also stated this machine is defective in that it is producing a tape $1\frac{1}{16}$ " long instead of $1\frac{1}{8}$ " long and is not projecting the tape far enough resulting in cutting off a portion of the first letter. The code used in the Northeast part of the U. S. is as follows:

The first letter O stands for lot number; the first number 2 indicates the day of the week, two being Tuesday; the second letter indicates the first letter of the store name, this is the letter B; the last number is the bundle number, this is 6. Color coding of the tag may designate various things such as a different month or the identity of a store in a chain. Experts also state the use of this system on laundry items is unusual in that the system is normally used on garments being dry cleaned.

The Bureau has instructed that all textile machines using this type tape be located and machines using this code be identified.

LEADS

ALL OFFICES PLEASE NOTE: Bureau teletype to All Continental Offices, 4/9/68, stated that all laundries should be contacted in an effort to identify the tape on the shorts and tee-shirt believed to have been abandoned by UNSUB. The Textile Marking Machine Co. has advised that the above are the only machines known by that company to be in the above listed states which would be capable of producing the laundry mark on the garments. This company advised that the tapes on the garments are their tapes exclusively and that there is no other marking machines in the world which could have produced the tapes.
