# Memorandum

TO : SAC, SPRINGFIELD (44-561)

DATE: 4/16/68

FROM : SA QUENTIN P. STINSON

SUBJECT: MURKIN

On 4/13/68, writer contacted JACK RUSSELL, Rural Route 1, Canton, Illinois, Box 111 (telephone 647-7604). This contact was made in connection with a call RUSSELL had made the previous evening to the Springfield Office regarding his observations the previous evening while transporting a hitchhiker in the Peoria vicinity.

RUSSELL advised he is an independant trucker and hauls cinders and rock for driveways and patios in the Fulton and Peoria County areas. He advised that on 4/12/68, he was en route from Banner, Illinois, to Mapleton, Illinois, to obtain a load of crushed rock. He advised he observed a hitchhiker on Route 24 at Banner, Illinois, just before dusk which he would guess to be about 5:50 to 6:00 P.M. He said he gave this individual a ride to Mapleton, Illinois, during which time this person was in the cab of the truck less than 15 minutes. He said that the person continued to hitchhike on Route 24 in the direction of Peoria, Illinois, however, he said he was loading his truck for approximately 30 minutes and when he returned to the highway area, this individual was not in sight, apparently, having obtained a ride.

RUSSELL advised that during the late evening, approximately 10:00 P.M., he had observed an artist's conception of the assassin of Dr. MARTIN LUTHER KING on television both front and side views. He advised that the side view closely resembled the individual whom he had transported earlier that evening. He described this individual as follows:

|        |                              |
|--------|------------------------------|
| Age    | 40-42                        |
| Dress  | Casual, Clean                |
|        | Carrying a zipper cloth bag. |
| Voice  | Southern accent              |
| Height | 5'10"                        |
| Weight | 170 pounds                   |

Hair

Dark and balding

He described the man's facial features as resembling those of the artist's conception of the assassin and that he had a distinct sharp nose and receding hairline.

RUSSELL advised that he could furnish no further information regarding this individual. He stated the man made no comments regarding his background or his future plans as to destination. RUSSELL stated he had not really been observant concerning what the individual was wearing as to the color of his clothes or the color of the bag which he was carrying. He advised that should he again see this individual, he would notify the FBI.

(OO:MEMPHIS)

Re Bureau teletype, 4/9/68, and Albany airtel to Bureau, 4/10/68.

For the information of offices not previously advised, the following is set forth:

Search of premises believed occupied by Unsub who assassinated Dr. MARTIN LUTHER KING on 4/4/68, disclosed suitcase in which was located tee-shirt and undershorts bearing laundry mark on red tape with black lettering believed to be thermo-seal type, manufactured by Textile Marking Machine Co., Inc., Syracuse, N. Y. The tape is  $\frac{1}{4}$ " wide and  $1 \frac{1}{16}$ " long and bears letters and numbers 02B-6.

Experts at Textile Marking Machine Co. advise type on this machine is unusual in that the first two characters are 15 point type and the last three characters are 18 point type, with the middle character, the letter B, probably being narrow rather than regular type. The usual machine carries 15 point type for the first three characters and 18 point type for the last two characters.

Textile Marking Machine experts also stated this machine is defective in that it is producing a tape 1 1/16" long instead of 1 1/8" long and is not projecting the tape far enough resulting in cutting off a portion of the first letter. The code used in the Northeast part of the U. S. is as follows:

The first letter O stands for lot number; the first number 2 indicates the day of the week, two being Tuesday; the second letter indicates the first letter of the store name, this is the letter B; the last number is the bundle number, this is 6. Color coding of the tag may designate various things such as a different month or the identity of a store in a chain. Experts also state the use of this system on laundry items is unusual in that the system is normally used on garments being dry cleaned.

The Bureau has instructed that all textile machines using this type tape be located and machines using this code be identified.

The following is a list of locations of Thermo-seal marking machines by states in alphabetical order made available by Mr. DONALD BROTON, Textile Marking Machine Co., 2204 Erie Blvd. East, Syracuse, N. Y., on 4/7-10/68:
