DIARY NOTES

DD/S

28 June 1968

1. Donald Bozarth, Director, Current Planning and Programming for the National Capitol Planning Commission: Mr. Bozarth called Jake Goodwin today to inquire what our planning is for future growth in Langley. I will seek further clarification of his question but our basic response is that at this time we have no plans largely because of budgetary restrictions and hold-down on construction but for the future it appears logical to us to consolidate at Langley some of our activities that are now scattered in other buildings for which we are paying rent on a commercial basis. On 1 July I attempted to call Mr. Bozarth but he was not available. He is to return my call.

2. Space Requirements: The Director has directed that CI Staff engage in a project which will require the services of 15 additional people, which project will run about a year. Space is needed within about five days. I directed that 1500 square feet of space in 2 F corridor be set aside for this purpose and so informed Bill Edwards of Commo of this action and asked him in turn to make other arrangements in Commo spacing. Commo has under consideration some reorganization plans and was also holding up space moves in consideration of these possible changes in their organization. I asked them to include in their planning consideration moving several of their component units to WTC as space requirements will continue to develop in Headquarters and there is no additional space. As had previously been discussed last year there are several Commo units that could move out of this building if deemed necessary.

DIARY NOTES

DD/S

30 June 1968

Seaboard World Airways: On the night of 30 June I received a call from the Operations Center inquiring on behalf of the Director whether the Agency had any chartered flights with SWA. I advised we did not and that we had no connection, to my knowledge, with the flight that strayed over Soviet territory and was forced down by the Soviets. I did advise that we had a working relationship with Seaboard World Airways but the nature of it was not pertinent to this inquiry.

DIARY NOTES

DD/S

28 June 1968

1. Records Management Proposal: I had suggested to Colonel White that our Records Management proposal be the subject of a Deputies meeting. To this he agreed and the date has been set for 3 July. Copies of my memorandum have been transmitted to each Deputy. I have asked Mr. Wiltse and Mr. Bosak to prepare a presentation of this subject together with graphic displays of the records problem. It was agreed that we would meet at 4 p.m. on 1 July for a preview of this presentation.

2. Okinawa Future: Jack Blake called to advise that my memorandum of 18 June to Communications and Logistics concerning the future of Okinawa and our consideration of the future of our installations and facilities was a subject that is being covered in the Okinawa study. Mr. Blake asked permission to defer any action on my 18 June request pending the results of the Okinawa study and to this I agreed.

3. ISOLATION--Wives of Students: It was brought to my attention that 28 CT's will have their wives in Williamsburg in the next several days and permission was requested for these wives to visit ISOLATION. Since they already know the fact of ISOLATION I agreed to this request with the stipulation that it be handled discreetly.

DIARY NOTES

DD/S

26 June 1968

1. Polygraph Questions: Today Jack Maury called and asked if he could make available to Congressman Henderson of North Carolina, Post Office and Civil Service Committee, our standard polygraph form questions. He proposed to do this following our testimony on S. 1035 to show that our questions are highly structured and not offensive. After checking with Colonel White I approved this action and the questions were shown to Congressman Henderson.

*2. Meeting with DD/S Midcareerists: In my meeting today with the DD/S Midcareerists I found them to be an enthusiastic and highly dedicated group. They obviously benefited greatly from the Midcareer course and had high praise for its structure and the manner in which OTR operated the course. They were unanimous in stating that the last week of the course which was conducted at Headquarters caused the course to lose some of its initiative because they became so quickly involved in the Headquarters routine. They would have preferred to have the course conducted through the last week at ISOLATION where they are separate from their offices and Headquarters involvement. They know that this poses a problem for the guest speakers but hoped that some consideration would be given to this suggestion.

*Extract to D/OTR

DIARY NOTES

DD/S

25 June 1968

1. Executive Director--Youth Council--\$75,000: Today a query came to Chuck Mason from Mr. Rimestad's office in State asking for the transfer of \$75,000. It was stated that this was an agreement with Colonel White. After some searching it was determined that this referred to the Youth Council (of CA activity) that State was to be responsible for. There is an involved history on this matter with which Colonel White is fully familiar. It was agreed that we would give State \$75,000 and authorization to this effect was given to Mr. Bush, Director of Finance.

2. Congressional Questions: This is documented elsewhere but today Jack Maury advised that Congressman Derwinski asked in the S. 1035 hearing for our figures on periodic security and suitability reviews and Congressman Gross asked for the number of supergrade and scientific pay scale positions within the Agency. The appropriate figures on these matters were pulled together, approved by Colonel White and made available to Mr. Maury for appropriate briefing of the above two Congressmen.

* * * * *

3. Bill Crawford: We had asked John Hart, C/EUR, for the release of Bill Crawford to take a position in NPIC. Hart agreed provided we came up with a suitable replacement. I am about to propose to Hart that Clay Norment be the replacement but he will not be available until January 1969. I propose that we furnish a substitute during part of this period. I checked this out with Les Bush who agreed to this action which will give Norment some additional overall administrative experience before he is tagged for a senior position in the Office of Finance.

4. Howard Preston and Ralph Brown: I talked with George Meloon about the assignment of Ralph Brown to Saigon to replace Bill Kearney and advised I would promote Brown to GS-16. It was also proposed that Howard Preston be made Chief of Supply and stationed at the Franconia Warehouse. I agreed to a promotion of Preston to GS-16 when the slot occupied by Harry Wagener becomes vacant with his retirement on July 11. The reason for the delay is that Wagener has some medical problems that might affect the date of his retirement.

DIARY NOTES

DD/S

24 June 1968

Meeting with Colonel White: Colonel White informally discussed the result of conversations he had with the Director, all of which would be reflected in subsequent memoranda. For the record, however, I will cite in brief but general terms the Director's reaction to several of the matters discussed. (a) ISOTROPIC-- The Director wanted to close it out but was prevailed upon by the Executive Director to have a study conducted as was suggested by this office. When the study is received a decision will be made. (b) The Director wanted a study of all real estate holdings such as ISOLATION, WTC, Midwest Depot, etc. I advised that the Office of Logistics is conducting a staff study of space holdings of the Agency as previously directed and that we expected to have our full report by 1 August. This report will serve as a basis for the maximum utilization of our space holdings at this time. This, of course, is the result of the Director's decision that the Agency will not acquire any additional space. I believe that the Director has concern about the extent of our real estate holdings and presumably will consider the Logistics space study as a sort of jumping-off place for a further study of real estate holdings. (c) WTC--No construction of any kind for FY 1969. DD/S can propose this for the future in its program memoranda but there is a definite hold-down at this time on construction. (d) CHECKROTE II-- Agency is going to put a proposed CHECKROTE II in our program memoranda to the Bureau of the Budget. A site survey team is to go to Iran and DD/S representation is to be included. (e) The purchase of a C-130 for the Eglin Base was disapproved. (f) IUMEDRICK--Director approved a level of \$500,000 for FY 1970. For once this program held down. (g) Records Center--Director wants a program organized for all facets of records creation and records installation. I advised that a proposal of the DD/S had already been sent to the Executive Director's office covering exactly these same points. Executive Director had not seen the paper yet but felt as I had outlined it that it would serve the purpose of the Director. Bob Wiltse called today on a proposed feasibility study by Logistics for the construction of an addition to the Records Center at WTC. The contractor had raised his asking price from \$6,000 to \$17,000. I advised Wiltse to cancel the proposed feasibility study in light of current developments.

DIARY NOTES

DD/S

24 June 1968

1. Defense Communications System: Last week I mentioned the difficulties of obtaining land in Thailand for a transmitter site and this led to a discussion which held that our future answer to real estate problems would be the availability of staff communications satellites. The Director suggested that we have the Chief and Deputy of the Defense Communications Agency for lunch where this matter can be discussed and we can encourage progress towards a satellite communications system. Admiral Taylor advised that he knows the DD/DCA personally and is interested in assisting in arrangements for this luncheon. I briefed this matter to Mr. Scott and asked that he give me a briefing on the Commo planning for staff communications satellites together with the problems in the interest of the DCA in establishing this capability. Today Colonel White called to remind me of this luncheon requirement and I advised the briefing described above after which we will then endeavor to set up the luncheon.
2. Emergency Helicopter Service: In view of the problems in Washington in closing out the Poor Peoples March on Resurrection City the Director requested information on the availability of helicopter service in order that he may attend scheduled meetings, particularly at the White House and Department of Defense. The system for obtaining helicopter service was updated this morning and the information made known to the Executive Director and the Director.
3. Communications Presentation on BALPA II Exercise: Messrs. Scott and Edwards are to brief Ambassador Burns and his special group on 26 June at 10:30 a.m. They will present the facts of what we consider to be our main requirements for a viable worldwide communications network. This was agreed to since the Ambassador's recommendations on a country level would not permit the Agency to maintain its communications network if their recommendations were accepted. The Executive Director asked for an advance briefing which was set for 2:30 p.m., 25 June in order that the Agency may back up our communications presentation with Ambassador Burns.

~~SECRET~~

~~SECRET~~

4. Retirement Board: In discussing the problems of accelerated retirement with Colonel White and Mr. Fisher the question was raised as to the attitude of the Board on some of the special problems being presented calling for interpretation of retirement criteria. This led to a question as to the size of the Board, presently 9 members, and it was expressed by the Executive Director that this was too large and presumably unwieldy. He was considering reorganizing the Board with 5 members only, namely, a representative from each Directorate with the Director of Personnel as Chairman of the Board. The Executive Director advised that he would draft this memorandum.

5. Criteria--Agency Retirement System: Mr. Fisher and I met with the Executive Director to discuss the possibility of using the Agency Retirement System to induce a limited number of early retirements. The proposal was to liberalize the retirement for a stated period of time up to 1 July 1969 and under specific circumstances whereby a certain number of people not now eligible could be made eligible for retirement purposes. Basically, persons about to retire in the next several years who lack a few months of overseas service and who are engaged technically in the support of overseas operations or are engaged in the type of duty which cannot be discussed outside the Agency would be eligible for special consideration. I proposed that we develop this criteria for the Director's approval and we then ask the head of each office on a confidential basis to review his pending retirees who might fit within the approved criteria. After we have an estimate on the numbers, the head of the office could then talk to each individual and indicate that he would be willing to support an exception by the Retirement Board if the individual is interested in early retirement. We will not have used about 100 of our allotted 400 spaces by 1 July 1969 and this would be an effort to make the fullest utilization of these 100 spaces. Mr. Fisher will draw up the proposed criteria and submit such for approval. This matter will be held on a highly confidential basis. If necessary, Colonel White will be prepared to speak to the Retirement Board.

DIARY NOTES

DD/S

22 June 1968

S. 1035--DCI Briefing: Today the Director called to advise that we had left a sentence out of his testimony on the first page. This was true and it was unfortunate that it had escaped our attention. Case examples from the Medical Staff, Security and the IG were prepared and presented Monday, 24 June for possible use in questions following the formal briefing.

Coffey, Maerker - AL

Meloon - AL in P.M.

~~SECRET~~

DIARY NOTES

DD/S

21 June 1968

1. BOB Visitation: It was reported that John Hurley wants to visit Franconia, ISOLATION, and WTC. I passed the word that I wanted his visit organized, that he be given a full and proper briefing, that everyone at those installations was aware of who he was and the purpose of his visit, and that particularly no one have their feet on the desks. I was assured that this would be done and apparently all visits went off well.

2. Briefing of High School Students: Congressman Gude of Maryland has requested and the Director has approved our giving a briefing to about 40 Montgomery County high school honor students who are being given a Government orientation by Congressman Gude. This briefing will take place sometime between 24 June and 12 July 1968 in the Agency auditorium. We will pick up the students with an Agency bus on a date to be set by Congressman Gude. I requested that OTR arrange for a briefing of these students on the Agency, its mission, and other interests that would be appealing to a high school group. Jack Maury will advise of the date set by Congressman Gude, and I asked that OTR make all necessary arrangements for the visit. Mr. Meloon will provide the transportation of the students.

3. John Hurley/BOB: Hurley visited ISOLATION and they showed him Site 3, and Hurley in turn asked if he could stay overnight on a weekend at this site with his wife. Additionally, he would want to watch some jump training. I checked with Colonel White and then told John Richardson this was O.K. I suggested, however, that the crowd at ISOLATION not sell Site 3 to outsiders in the enthusiastic way they have been doing. While we don't object, play it down a bit. Jocko Richardson said he understood.

4. Area 51: John Warner called to query as to what action is being taken concerning Agency retention of Area 51. I advised that I have discussed it with both Carl Duckett and John Bross and strongly urge that we retain it even in a mothball state. I suggested that John pursue this with both Duckett and Bross and let us know the results and indicate our interest in sponsoring retention.

~~SECRET~~

5. Report on Recruitment Program for FY 1969: The report on the recruitment program was submitted by Personnel on 7 June. I reviewed it and found it not acceptable because it briefly stated what we have been doing and did not emphasize the additional actions we are contemplating. Certainly it was not responsive to the Director's directive. Accordingly, I have had several meetings with Messrs. Wattles and Fisher and the report is now in process for its third revision. We should have it the first part of this coming week. We are injecting one note into the report, namely that we may be overrecruiting geniuses and that we are now experiencing difficulty in finding meaningful jobs for the extremely talented gung-ho graduates who expect to be immediately challenged after entering on duty.

* * * * *

6. Charlie Francis: With the assignment of Tom McKinley as Chief of Support, Finance, no assignment had been worked out for Charlie Francis and he was quite concerned as to what his future would be. This was conveyed to me by several people. I advised Mr. Vernon Turner and Mr. Charles Davis to make Charlie Francis Deputy to Tom McKinley for a minimum of three months until such time as we work out a suitable assignment.

DIARY NOTES

DD/S

20 June 1968

1. Communications Satellites: As a result of my mention at the Morning Meeting of the difficulties of acquiring transmitter site real estate at Bangkok and the fact that this represents a growing and continuing problem, the Director asked that we meet with the Director and Deputy Director of Defense Communications Agency with a view to perhaps accelerating what is considered to be the future solution, namely communications satellites. I accordingly asked Dick Scott to arrange for me a Commo briefing on satellites so that we can structure our future meeting with the D/DCA.

2. DCID 1/14: NSA objected to the final proposed language. However, Admiral Taylor personally took the matter up with Lou Tordello and was able to effect a language change which was satisfactory. NSA took a hard-nosed approach to the problem, but when the issue was faced they relented and accepted the committee version. The DCID was approved on a vote-slip basis without having to be presented at the USIB meeting.

3. Real Estate--Foreign: The Director spoke to the problem of maintaining operating bases overseas in the face of growing pressures from other countries not to grant such privileges or to revoke privileges now in existence. He advised that we obviously are going to continue to lose such bases and we will not make any gains. We might as well face up to it. On some of those programs that the country has been conducting unilaterally we must now consider whether we can ask the host country to conduct the program under our guidance and assistance with our sharing, of course, the take. It was considered that this certainly would be a matter that would be pertinent in BALPA IV.

4. Dr. Michael McKee: Dr. McKee has been offered a visiting professorship in the Department of Psychology at the University of California at Berkeley for a 9-month period. After checking with Colonel White, I advised that he should go ahead and negotiate under the following provisions: that he will be on LWOP from the Agency; that the fact of his Agency affiliation will be made known to the Dean and the appropriate administrative officials

~~SECRET~~

~~SECRET~~

of the University with the understanding that he will not have any Agency responsibilities nor be given any Agency orders in the course of this visiting assignment. This is regarded as a professional plum and will do much to benefit Dr. McKee's career.

5. Chuck Briggs/OCS: Briggs called to advise of a problem in the installation of computer terminal links and advised that he had heard that there was a 6-month backlog of work orders and that he was low on the priority list. I suggested he call Don Mulcahy and try to work out an arrangement and that I seriously doubted that he was that far down the priority list. If he does not get satisfaction, I asked him to let me know.

6. WTC--BRUSHWOOD: Gene Winters called to advise that Tom Karamessines and Cord Meyer had visited WTC and expressed interest in having a group of foreigners spend several days at WTC for conference purposes. It was agreed that if the group consisted of 10-12, BRUSHWOOD would be most suitable. If the group was larger, about 20, we could put them up at Site A and take precautions to keep the WTC trainees out of sight. Tom Karamessines has not formalized his request as yet.

* * * * *

7. Doug Andrews: Mr. Andrews advised that he is planning to retire about July 1969. He is now seeking a position in an administrative capacity with a southern university and, if successful, he may retire earlier than July 1969.

8. Director of Finance: Mr. Bush was asked to ascertain the identity of his staff officer who told an employee "shopping" for a job that if he was unsuccessful, he would not be accepted back. The Inspector General had not furnished the name of the staff officer and the case is getting a little sticky. I advised Doug Andrews to pass the word to Les Bush to cease all action and I will get the name from the Inspector General at a later date.

9. Presidential Trip to Central and South America: The White House communications unit has been in contact with our Office of Communications for communications support for a possible trip of the President to Central and South America. I had passed the first indication of this trip to the Director and to Abbot Smith. I asked the Director if I should continue reporting pertinent leads received in the Agency from this channel. He advised yes, and I accordingly instructed Bill Edwards to notify Chuck Enright, Abbot Smith, and Bill Broe of any pertinent information received from the White House concerning this trip.

~~SECRET~~

~~SECRET~~

10. Charlie Kane/Office of Security: After a number of discussions with Howard Osborn and several subsequent discussions between Charlie Kane and me it was agreed that Kane will take over the newly created Security office in Miami. The change is in the best interests of all concerned in that Charlie's method of operation, which is aggressive and direct, is a bit at variance with the more personalized leadership that Howard Osborn exhibits. While there was no conflict, there was not an atmosphere of alter ego and it was best that it be corrected. This is not to be construed in any possible way as reflecting on either Howard or Charlie. In fact to their credit they were mutually and amicably recognizing a situation and working out a solution. It was proposed that Ermal Geiss will succeed Charlie as Deputy Director of Security about the end of August. The Director's approval of this was requested and he offered no objection. He expressed the fact that he did not know Ermal Geiss, but understood the high recommendation that obtained for the assignment.

DIARY NOTES

DD/S

19 June 1968

1. BALPA Returnees: Colonel White asked whether we would have the plan from the Deputies available by 1 July as to what the Agency will do with all the BALPA returnees. I checked the record and found that we had been asked to make certain personnel placement arrangements, but we were not charged with consolidating the Deputies' reports. (This was corrected on 21 June by a memorandum from Colonel White to each Deputy extending the deadline to 5 July with Personnel coordinating the replies.) I have asked Charlie Davis to prepare the DD/S reply.

* * * * *

2. Roy Fallis: Roy has indicated his intention to resign and take a job with the Defense Language Institute. I discussed this at some length with John Richardson and Colonel White. Roy is an extremely capable language technician and has been in the job 17 years and he indicates he hates the prospect of 15 more years in the same job. He plans to spend some time in a language research capacity in the Defense Language Institute and then return to the academic world. While we are losing a technician, he has not been very effective as a manager. Perhaps it is all for the best as now we can bring a better management program into the OTR Language School. We have agreed not to make an issue and wish Roy all the best.

DIARY NOTES

DD/S

18 June 1968

1. LBJ (Presidential) Library: I met with Larry Houston, Bob Wiltse, and Vince Bosak to discuss Agency problems in furnishing records to the LBJ Library. It was agreed we would constitute a committee representing each Directorate under the chairmanship of Bosak. We will propose to follow the same procedure as in the Kennedy Library. I will brief this to the Executive Committee at the appropriate time for policy guidance and then proceed from there.

2. Polygraph Briefing: The Director and the Deputies were briefed on the Polygraph Research Report. Bob Moroney of Office of Security conducted the briefing. The substance of the briefing went well, but the presentation not so well. The briefing was structured in a formalized way and the Director reacted. Also, the briefer used terms taken from the R&D report such as "optimized" polygraph. The Director said he does not want the Agency to use this type of expression as this represents bureaucracy at its worst. He likes all statements made in plain English that are meaningful in themselves. We clearly made a mistake in the manner of presentation. I will pass this guidance at the next DD/S Staff Meeting.

* * * * *

3. Investigation of Senator Robert Kennedy Assassination: Howard Osborn advised that Charles Redden of the Los Angeles Police has requested the appearance of William Curtin before the 23-man commission appointed by Mayor Yorty to look into the Kennedy Assassination. This resulted from our furnishing the Los Angeles Police information that we had obtained on Sirhan Sirhan. I recommended to the Director that we should not appear inasmuch as our relationship with the Los Angeles Police was confidential and the injection of CIA openly before a 23-man commission would certainly result in speculation. The Director agreed and accordingly Charles Redden was in turn advised that we would not want to appear as our relationship was a confidential one.

DIARY NOTES

DD/S

17 June 1968

* * * * *

William Kearney: Mr. Meloon advised that Kearney, who is TDY Headquarters from Saigon, indicated he had glaucoma and his doctor advised his not returning. I asked Mr. Meloon to arrange a meeting with Dr. Tietjen to affirm the Agency viewpoint of this, and it was reported that such a condition does exist and it would not be feasible for him to return to Saigon. This presents a problem as he has been in Saigon only two months. We must now select a replacement and it will be either Al Cromartie or Ralph Brown, most likely the latter.

DIARY NOTES

DD/S

14 June 1968

* * * * *

Deputies' Meeting--13 June 1968: Jack Coffey mentioned that in the discussion on career management at the Deputies' meeting, Jack Smith stated he has a list in each component of DD/I wherein they have identified the "comers." He uses this list as a guideline in checking and encouraging recommended promotions, advancements, and special assignments. I think this is a good idea and I asked that such an identification on a strictly confidential basis be established. We have our executive inventory which is somewhat different, and these two together should be an excellent guideline for developing talent.

DIARY NOTES

DD/S

12 June 1968

1. NSA Polygraph Research Project: The DDCI called to advise that General Carter was asking Agency advice as to whether he should renew the \$100,000 research contract on how to beat the polygraph. I checked with Steve Aldrich/DD/S&T and the Office of Security and neither one was aware of this contract. It was generally agreed that such a research project should not be implemented until we develop the new polygraph. We also agreed we did not want to get involved with NSA research. I so advised the DDCI who agreed and said we would not offer any advice to NSA. It was agreed, however, that we will contact NSA and find out what progress they are making in this field.

2. Ken Addicott: It was noted that Ken Addicott is not listed in the telephone book which is not practical since he is head of the Retirement Counseling and Placement Staff. Perhaps this is a carry-over from his old cover status but certainly does not apply today. We shall be honored by having his name placed in the telephone book.

* * * * *

3. Paul Hildebrand: The Inspector General has asked that Paul Hildebrand join his staff and accordingly we should cease inquiring whether we can provide a job for him.

DIARY NOTES

DD/S

5 June 1968

Picnic Tables: I advised the Executive Director-Comptroller today of our proposal to place 30 picnic tables on the lawn behind the cafeteria for the use of employees during lunch periods. Colonel White agreed and accordingly I have approved the request from Mr. Mulcahy to obtain such equipment.

DIARY NOTES

DD/S

4 June 1968

1. Demonstration 17-19 June: I asked Howard Osborn to give me a memorandum outlining what is anticipated to be the composition of the demonstration on 17-19 June by groups, numbers, organizations and leaders. This is to be followed by a weekly updating so that we can be properly prepared for this development.
2. Robert Benjamin: Admiral Raborn called to advise that this individual, a former employee of Aerojet General, and presently residing at Santa Anna, California is interested in seeking employment with the Agency. Admiral Raborn will send me a resume and I promised to circulate it for consideration.
3. Retirement Package: I queried Mr. Wattles as to the status of the retirement package and he advised that Bertha Bond is completing it this week. After reviewing it we will consider presenting this to the Deputies.
4. Retirement Incentive: Mr. Wattles quoted Colonel White's recent memorandum encouraging consideration of eligibility in the CIA Retirement System based upon qualifying service in support of overseas operations. At the same time Mr. Karamessines has recently taken the position that more lenient consideration should be given to the application of this qualifying service principle. Since this now is the order of the day I shall address a memorandum to each DD/S Office Head asking his review of his personnel eligible for retirement but not fully qualified under the CIA System by present definition but whose cases could be considered on the basis of qualifying service.
5. Brookings Group: It was suggested at the Executive Committee Meeting that the American Education article, "A Close Look at the CIA," be distributed in advance to each Brookings group so that they will have a better understanding of the organization. This was readily agreed to.
6. Ramparts Article: The issue that hit the streets Friday has an article on the opium trade in Southeast Asia and cites Air America and Continental Air Services. I asked Alan Warfield to alert George Doole to this article and get a message to Vientiane alerting them to the existence of this article.

~~SECRET~~

* * * * *

7. Summer Employees: Howard Osborn and Mr. Wattles met with me to discuss the cases of four summer employees on the basis of certain information that has developed. The cases are as follows:

Joseph D. Mapother--to be dropped from active consideration.

Jacqueline Wallin--to be accepted but placed in a quiet area.

Linda C. Roman--to be accepted but Security will talk to her before EOD.

William D. Barnard--to be dropped from active consideration.

8. Winston A. Geize; Charles L. Kaldfus: Mr. Wattles advised that Mr. Kaldfus wishes to meet with him because his request for retention in employment after his proposed marriage to a Vietnamese girl was disapproved. We understand he dropped consideration of this marriage. He indicated his awareness of the fact that Mr. Geize has been approved to remain in employment following his marriage to a Vietnamese national. The question he raises is why this discrimination. I asked Wattles to get from Osborn the security information which as I recall listed a host of influential foreign relatives. I asked Wattles to meet with Kaldfus and find out what his questions are but to point out that each case is decided on its own merits. We will determine what if anything we do as a result of this interview.

DIARY NOTES

DD/S

3 June 1968

1. PATB Testing: I met with Dr. Tietjen and Dr. Bradt who presented the revised version of the PATB test which is to be used in our recruitment testing. It was agreed that I would forward a copy to General Counsel for his review in addition to the DD/S' review. There were several points brought out in our superficial review which involve the questions as follows:

- a. Items 161, 169 and 181 of the Strong Vocational Interest Blank;
- b. Questions 10, 11 and 57 of the Biographical Information Section and the World Events Section.

It was agreed that after the Agency had coordinated this test format we would submit it to the Educational Testing Service at Princeton for any comments they may have. Dr. Tietjen suggested that in our plan to have the recruiters brief the officials of the universities of our new testing procedures beginning 1 July that rather than have the recruiters endeavor to explain the test to any official who wants an explanation that we arrange for the ETS representatives to explain the technical features of the test. It was felt that this would be a better approach by having a professional testing officer conduct the explanation rather than a recruiter who is not expert in the field of testing. I advised I thought this was a good suggestion and we would consider putting this into effect.

2. Michael Acree, Deputy Director, Internal Revenue for Compliance, telephoned today to advise that they are conducting an investigation of the New York office of the Bureau of Narcotics. A supervisor there is involved in some overseas activities and before Internal Revenue moves they wish to know whether that supervisor had any connection with the Agency. I asked Mr. Osborn to contact Mr. Acree and get the necessary details and in turn advise of whether a relationship exists.

DIARY NOTES

DD/S

31 May 1968

1. Overseas Medical Program: Dr. Tietjen advised that he had discussed his program with Vern Gresham who in turn briefed Tom Karamessines. Tom was sympathetic to the overseas program and he in turn asked Charlie Katek to hold the line in support of this program. Dr. Tietjen asked if I would back this up with a word to Mr. Karamessines. I will do so at the first opportunity.

2. Protection for the Shah of Iran: Today Howard Osborn advised that Jim Critchfield had requested additional protection for the Shah of Iran during his visit to the United States in the early part of June. The Shah had indicated to Agency representatives that he lacked some confidence in State Department's ability to provide what he considered to be necessary protection. Osborn proposed an arrangement whereby the Agency would assign several Security Officers to State Security to back up their protective detail. I vetoed this suggestion and after talking to Tom Karamessines reaffirmed my veto in that we do not want to get mixed up with State's responsibility for the protection of foreign visitors. I suggested that we offer to State our willingness to provide any necessary information, supplement their communications or perhaps serve or assist in a liaison capacity but no direct responsibility for the protection of the Shah. Mr. Osborn later arranged with State for the presence of an Agency Security Officer in a liaison capacity in arrangements by State for the protection of the Shah. This arrangement seems satisfactory to all concerned and will permit ~~NS~~ division to assure the Shah of our interest in doing what we can to assist in his protection.

3. Senate 1035: I read the DoD letter of 7 May to Senator Ervin on S 1035. I called George Cary, Legislative Counsel staff, suggesting that the Agency draft a legal position on this bill wherein we would suggest changes or alternative language in the event the House Post Office and Civil Service Committee should request an Agency version of the bill. I pointed out to Mr. Cary that up to this point our position had been complete exemption with no alternative. It could well be that the bill will gather momentum and if it does pass we will have to live with it and we should endeavor to effect language changes so as to best serve the interests of the Agency. Mr. Cary will contact his staff and John Warner and will name a small working group to start on this problem.
