Santa Barbara, California 93105

Dear Ruth:

President Nixon has referred to this Department your correspondence of May 5, 1971. We apologize for our delay in responding.

The basic presumption of our American system of justice is that an accused person is presumed innocent until proven guilty before a jury of his peers. This safeguard insures that every person will receive a fair trial based on carefully gathered evidence proving that he has indeed committed a crime.

Sincerely,

DAVID L. NORMAN  
Acting Assistant Attorney General  
Civil Rights Division

Washington, D.C., 20000

Dear Mr. President:

I know that the Sirhan Sirhan murder trial is over, but I would like to know more about trials of this kind. It seems to me that the trial took too long. In a murder such as this, there were many witnesses who saw Sirhan Sirhan murder Mr. Robert Kennedy. My opinion is that Sirhan Sirhan was without a doubt, guilty.

Why do we have to spend the taxpayer's money on such a long trial. The man is guilty as everyone saw. Someone in the United States Government should have the power to send him to jail or to his death without the need of a long court trial.

I would appreciate hearing from you and what your opinion is in this matter.

Your fellow American,

*Ruth Villarreal*

Re: Sirhan Sirhan

Dear Sir:

A young Jordanian national has recently been placed as the victim on the Altar of false pride of many public officials that occupy positions of responsibility to the little people of the world to set a good example in administering justice. This however, has become the rule in California courts not the exception. Judicial decisions based on presumption and assumption of guilt in this case because circumstantial evidence has been deliberately placed in order to have a victim to appease a public that demands a life for a life.

I personally challenge the mental competence of those who have so betrayed the American ideals to become such a travesty of justice. Mental competence in this case I wish to define as the use of the facts (concrete) objectively employed purposively as a means toward an end. It is in my own personal opinion based on the facts as they came over the newscasts, the newspaper, and personal acquired knowledge that it would have been a physical impossibility for Sirhan Sirhan to have been the one to fire the fatal bullets. There were three bullets that penetrated Senator Kennedys brain from the rear. Senator Kennedy was facing Sirhan the only way that it would have been possible would have been for the bullets to have hit a very hard object and ricocheted back, thus losing much of the force where they might have only grazed his skull. There were however six other people injured that were taken to different hospitals, but the names and hospitals would still be in the newspaper files. This would have meant that two guns were used instead of one. Who was it that took the gun from Sirhan and turned it over to the authorities? Were there any tests made to see if all three bullets came from the same gun? A freak of nature may have actually caused the lodging of the third bullet to prolong the Senators life, thru reducing the loss of blood from the brain.

A stethoscope is very often unreliable, and one inexperienced in the use of it might not be able to distinguish the pounding of their own heart from, the heart beat of another person. (Thru personal experience I am aware that the absence of a pulse need not indicate the absence of life, and this is true of a cerebral vascular injury or stroke. I sometimes suffer from postural hypotension in which there is no pulse on my left side when in a horizontal position)

If it is true that only half of the Senators head was shaved then there was no surgery possible, only an autopsy. Surgeons would not accept the responsibility of a man's life without the right to do it right.

Page 1 of 14

ORIGINAL  
April 28, 1969

Why have the doctors that performed the autopsy had a court order or restraint placed upon them to prevent them from divulging facts? Were these men called and given the opportunity to testify to all the facts or was there an evasion of the truth (deliberate)

Why was there so much emphasis on the search for the polka dot girl suddenly called off? There are very few psychiatrists that are qualified to make an objective examination with the ability to be impersonal in their analysis. Very few of them are interested in learning how in Calif. They have no need to be, their opinions are being accepted as facts. This is being permitted by the judiciary branch in spite of an extensive three years of study into the Dilemma of Mental Health Commitments in California (at a great expense to the tax payers). This confirmed that 91% of the patients in California Mental Hospitals do not belong there. The Subcommittee's survey of California commitment hearings in this found the average length of the time allotted to a hearing was 4.7 minutes. One third of them took less than two minutes. Two minutes to impose a life time sentence for the majority. Any one may file a petition of mental illness merely by going to the office of the District Attorney or the Mental Health Counselor. Evidence also revealed that the commitment becomes automatic that the hearing is ceremonial rather than functional. In Los Angeles County the person alleged to be insane is not even interviewed by either the D.A. or Mental Health Counselor, In San Francisco County geriatric screening reveals that most petitions that are filed are nothing more than Family feuds.

Nowhere in the United States is there a greater display of mental incompetence of public officials, judges, attorneys and medics than there is in the State of California. This began with the Brown administration (to my personal knowledge) and the corruption has increased with each election.) It actually started to my knowledge in Whittier, the former home town of the President of the U.S.A. It has been a bitter reality for many years that the parents, the police department were helpless against the failure to act judicially in the involvement of the narcotics traffic. This has increased the narcotics traffic and includes doctors, pharmacies and dentists who actually are promoting narcotics. They are subject to no authority outside of themselves, and in this there is no self discipline. Nor do they attempt to recommend legislation that would make some form of restrictions on the unethical doctors among them. The San Gabriel Valley doctors, dentists and druggist Assoc. was formed because the doctors resented the idea of having to fill out a triplicate for percodan when it was proved to be a dangerous narcotic. One patient became addicted thru its use for a broken arm. (As a former medical secretary I was aware of how some doctors were promoting narcotics, and how narcotics addiction was being promoted by Mil-Mor Foundation.) This in itself would have made me a threat to the medical professional pride.

I was also one of those that had what was tantamount to a death sentence to hide a failure to utilize diagnostic equipment, and to gain control of an estate. This was another reality that the officials would not wish to be exposed. I was also a great admirer of Mr. Nixon, and considered him to be more of a statesman than a mere politician, one that was symbolic of the true Christian ideals for which this country was founded, and representative of an era that we needed to be returned to, when the average small town boy could grow up and become the President a position he might earn himself without the backing of great wealth.

Page 2 of 14

April 28, 1969

**ORIGINAL**

I also wrote a manuscript entitled Human Dignity a copy of which was sent to the American Medical Association in which I used Dr. Douglas D. Mc Kinnon as an example of an ideal doctor of medicine, one that practiced

preventive medicine and made use of the diagnostic equipment that is essential today, for even a simple appendectomy has need of specific scientific tests. This apparently created envy among those who have not achieved this stature through dedication to humanity, and the relief of human suffering. Those would be the ones that are dedicated to the profession of medicine itself and thus to their own positions as doctors of medicine. The former are never worried or concerned by mal-practice suits, to the latter it is a major concern.

One of the most eminent brain specialists is now in England conducting his research although he is an American. Dr. Grey Walter, but apparently the doctors here do not use his findings. It is possible to use an EEG and discern whether one has a dominant audio or visual learning ability. If one is of the latter to depress the cerebral cortex is to depress the learning ability, but so too has it proved that barbituates and sedatives diminish the visual reflexes. To diminish the ability to learn. The eyes of Sirhan in the pictures especially those taken afterwards have revealed an absence of reaction to light. This is the first test a doctor makes when an unconscious patient is brought in or a coma, to see if there has been brain damage. There was even admission that Sirhan had suffered a brain injury, were there any EEGs made? Were there x-rays taken, Were there any indications of his having been given electro-shock therapy? Were any tests made to see if he were under the influence of a hypnotic drug? He was said to be requesting sleeping pills, but these are mostly hypnotic drugs even aspirin is known to have a mild hypnotic effect. These hypnotic drugs produce a state of automatism, in which the behaviour is automatic without conscious purpose or knowledge. The subject appears normal to an observer but the real personality is latent, such a person is not responsible for his acts and must be watched very carefully. He may carry out complicated acts without any idea of them or any aftermemory. (Taber's Cyclopedic Dictionary.) Post hypnotic suggestions are transmitted during the hypnotic state to be carried out later. Sirhan testified that he had no memory of having killed the Senator.

2  
pages 3 of 14

I wrote an article entitled Paths Of Glory meant to depict the common problems that war, assassinations bring, to all women especially, no matter what their party, race, creed, or color. To portray its futility and absence of being united with a common bond of love and understanding that none ever occupy a position so high that they are above being vulnerable to such incidents, but in it I also revealed the probability that Sirhan Sirhan was not the one that fired the fatal bullet, but this I did not realize until it was too late one of the copies had been stolen from my room. I sent a registered letter to the District Attorney on June 17, 1968 and told him of this and ask him to try to secure it back, that it would have been Millie Morrison of Mil-Mor Foundation or her directions. I also went to the office of Joseph Carr the Chief Investigator, but was refused the opportunity to even talk to him by his secretary Miss Day. June 17, I recognized the inadvisability of returning to my former room and checked in the Hollywood Plaza Hotel, although I had no luggage and a broken toe. It while I was there that I had an attack of tachycardia, these I have learned to live with, but I also recognized the danger of being found unconscious so I explained that I had a heart condition and requested that Dr. Ralph Goldman of the Good Samaritan Hospital be notified in any

April 28, 1969

**ORIGINAL**

emergency arose and also gave them the name of my brother Col. E.E. Curran as being with the North American Air Defense. I rented an apartment at the Wilshire Towers or was going to, but would not have signed the lease because it was drawn up in the name of Patricia Ann Tierney and not as the receipt or my legal name as requested, but by then I also recognized the type of security that was given there would not be beneficial to me, but quite the contrary, a camera on each of three levels for the subteranian garage made it obvious one could be made to have a compromising position. I discovered this when the front door was locked and it was not even dark, nor would my key unlock it.

appear  
to be  
in

I received a refund, checked my luggage, and tried to find an apartment on Wilshire near a bus, and near the stenotype school I hoped to enroll in. I rented one at the Talmadge an exclusive hotel type apartment, but mine was one on the roof usually reserved for employees on 24 hour call. It had just been newly carpeted and the footsteps showed whenever any one entered during my absence, which was every time I left. I changed the locks on the brief case I had in order that one that might work the day before would not or used a chain to fasten it in among my clothes, I made it as difficult as possible for any one to enter and remove any papers I had that I might need. I also sent a registered letter to Mr. Joseph Carr to inform him where I was. I had previously placed in a safe deposit vault at the Union Bank duplications that included evidence of the failure of many public officials to render me assistance in protecting my life, my property rights and my right and ability to receive mail. (The latter is still being interfered with). I had written to the Regional Vice President or Director, Edwin Zeigler, on June 14, 1968 and again on June 17, 1968 to request assistance in protecting my bank account and to show there had been no true balance of the account because of the absence of checks. I have made many attempts to secure an accounting, but they have denied me this right. I still have money in the Union Bank a total of \$675.00 if every check I wrote went thru, but I doubt if they did. This figure of \$675.00 was by coincidence the amount that was said to have been all the money or support I had a right to, but I specified on the back of the check and had photocopies made with and without the endorsement, this enabled me to have a witness to the signature a Miss Rose Mary Davidson of the American Heritage Bank in Colorado Springs. This is the only money I have received other than the money I earned in New York, the failure of the New York Labor board to collect the shortages each week from my check forced me to seek assistance from Waverly Center in New York for one week prior to receiving the \$82.40 that was supposed to have paid my train fare to Los Angeles, although I intended stopping here. They had previously informed me that I would be allowed \$130.00. My disability check was held at the Law firm of Murge, Rose, Guthrie, Alexander & Smith until after the 12th the last date for a change of address and 10 days late to me.

Page 4 of 14

I had previously inquired at Marble Collegiate Church where my mail was being forwarded when I first went to New York, (with their permission) and had received the previous check there forwarded from Colorado Springs, Box 2249). I was told by a gentleman there that a check had come to me but he did not know where it was. This information disturbed the janitor especially when he also informed me that a large amount of mail had been received for me there (This I did not receive)

I had rented the apartment at the Talmadge with the stipulation that Mr. Wolinaw guarantee that he would personally see that I received all of my mail. I did not.

ORIGINAL

I not only made this specification I also made that it remained that it would be on the approval of my cousin Mr. Thomas R. Curran, the former General Manager of the UPI in South America and during that time he had his headquarters in Argentina. He was also at one time offered the Post of Ambassador to Argentina during the Perrone Regime, but declined. He later was transferred to London, England and was General Manager of the UPI European Division, and later their Consultant. Alexander Wolinaw was of Russian-French parentage, a member of the Argentine Syndicate, a former importer according to him, but he also resembled some one that often took the part of a sadistic european, prussian military role in movies where Americans were being prtrayed as being tortured. He was a very small man, I doubt if he was five feet tall, completely bald, and with connections with an expert make up artist, a wig, false eye-lashes etcetera/ could have been very easily disguised as a girl in polka dots especially in the evening in dim lights. (He also answered the descripton in the paper of the one that planted the bomb in the English At the end of my moth, I had requested a few days longer but was suddenlyConsulate told I had to stay another month, I refused and packed up instead. I went to the Family Service Association and Captain Latros assisted me in securing a taxicab, the cab driver was a negro, but he rendered me a service many white men would not have, and somehad even refused. It was with his assistance that of two of the hotel employees that I was moved out everyting in the cab. We made two trips, and one of the employees warned me not to return alone by the way he turned the lock. The cab driver returned with me and waited until I finished picking up the odds and ends. He even moved my stereo which was apartment size and these were at first put in the hotel room of the YWCA, and later entrusted to the keeping of Mr. Scotty, the Bell Captain at the Hayward Hotel, this included the stereo that I believed may have ben tampered with. I later moved into the Evangeline Residence but was told the day I moved in after i paid two weeks rent that two weeks would be all I would be permitted if I were not working. This enabled them to use my name & my cousins or his daughters who was married and residing in Argentina to transport dope etcetera thru unsealed air freight.

Page 5 of 14

I planned on leaving Calif. prior to Mr. Nixon's arrival to begin his campaign tour, however I left even earlier when I learned of the death and circumstances of it of Dr. Louis R. Nash. I went down and purchased a ticket for the first train out of town. I recognized the importance of having Mr. Nixon becoming elected. I also recognized that it would be too easy for his political enemies to shoot him and place a gun in my hand if I were any where in the area in which he was and the possibility of many being willing to committ perjury to accomplish this.

I stopped in Ogden, because I would have preferred to remain in a small town where it was easier for me to get around, but when I went to see Jim Whetton, he informed me that he did not need any more girls, although I had not asked him for any position. I said I wished to take acourse in stenotype and try to do some creative writing that apparently my previous efforts were considered to be quite valuable. I also warned him about the Argentine Syndicate taking over control in So. Calif. and pointed out the clean cut young men and women here and hoped they would keep it that way but he informed me that they too had changed the streets as they had in Whittier by changing street signs. He was fully aware that I had a letter from Mr. Nixon with me, and that Clinton Harris had refused to render me any assistance either in contacting legal assistance, Mr. Nixon or securing my Workman s Compensation. Jim acknowledged that I should be receiving it, but made no offer to assist, nor did I ask him to although he witnessed the concussion, he had left Whittier prior to the time the blood tumor formed and ruptured. (I signed a form to protect any future claims but did not press it at that time.) I had mailed him copies of the letter and explanations of it from Colorado Springs as well as the warning of the dangers of sabotage against many companies here in Ogden, including

April 28, 1969

ORIGINAL

Utah Light & Power, the Union Pacific Railroad, The Bell Telephone System the three General Motors Dealers or four. He apparently was not interested although he was aware of the stuffed ballot boxes, and the probable illegal expansion of Holifield's congressional territory, fortunately there were others that were informed that were intelligent enough to act constructively. He saw me but refused to recognize me, the second time I went to his Agency, I had called the day after my arrival to tell him I had taken the liberty of giving his agency as an address but these were replies for three telegrams sent from Chicago. Senator Dirksen, Harry Fleming and the N.Y. Labor Board. I did not receive my disability check until the 11th making it necessary to go to the Weber County Welfare for Temporary assistance.

I have since requested an inquiry be made into the possibility of there being duplications in Soc. Security checks in variations of my name being sent out. I have received no reply, nor to any of the mail sent out, I was notified that the letter sent to me by the Dept. of Rehab. was returned although the street of Orchard is only two blocks long a 2500 and a <sup>3248</sup> 2600 block, the local carrier would have had to be informed that a correction had been made on the box application prior to being approved.

In Washington last Septmeber, I came out of my room to see three policemen standing by either room 611 or 610 and when the elevator arrived there was a basket in it to take a body to the morgue. As I looked at it I realized it was just my size. I sent many telegrams, and did receive a very important reply from Camarillo confirming that none had guardianship rights or that there had never been a declaration of mental incompetence. my room was 601

*Page 16 of 14*

I had not written any checks because of the lack of cooperation from the Union Bank, instead I requested a transfer of funds thru two Washington Banks, these claimed I had no funds. The checks that I had written for my hotel bill at the Bellevue, were where I was actually staying. These were the canceled checks that were returned stamped insufficient funds using the bank # 16/77 one The Talmadge had used for a check number. I was threatened with arrest unless these were made good. My brother Col. Curran was permitted to send me \$250.00 to go to Colorado Springs. I recognized what I was up against the first time I walked into the Main Post Office and saw the name of Congressman Evans on the Directory and wondered if he were related to the Thomas Evans that had previously inter-  
ferred with my mail. He was also director of the United Citizens for Nixon at the Willard Hotel, but what became of the campaign funds??? none were spent in Colorado Springs. I had the only bumper stickers in town, these I placed on my motel windows, and I also had the only Nixon lapel pin although there were many for Evans & Humphreys. Reagan made a pitch for a local Senator & Congressman both of whom were defeated at a so called campaign fund dinner, but none for Mr. Nixon.

After the massacre on the Campus in Texas, I sent in evidence of the lack of competent medical attention to the young man that went beserk, I recognized the dangers of the power of suggestion being misused and even prior to the manuscript The Secret Weapon of the Communist did send to Gov. Reagan thru Max Rafferty this evidence in order that no such incidence might occur in a Calif. Campus due to the use of hypnotic drugs that could be used without the victim being aware of it. This too was included in the material sent to Johnson, the A.M.A Senator Dirksen, Columbia University (Dr. Margaret Mead) Bishop Sheen and a redemptorist priest Philip Aggeler. in which I reported Joseph Veich of Whittier, as one that both the archdiocese of L.A. and the ELA Medical Assoc. did not believe had the true credentials of a psychiatrist. I stated that I believed that it was necessary for a Congressional investigation in the interests of our national security. It was not until later that I did send the series of the Secret Weapon of the Communists first to my

ORIGINAL

cousin T.R. Curran and Mr. J. Edgar Hoover the same time. I sent them to Johnson, Secy. of Health Educ. & Welfare, Bishop Sheen, Dr. Peale, Cardinal Mc Intyre, Cardinal Cushing and Gov. Reagan, and The Right to Life committee, there were still two unassembled copies in my home the last time I was there, and I requested both law firms to secure protection for these, Lawton, Christenson, & that of Curran Golden Mc Devitt & Martin. The not only failed in this but managed to make it appear that Mr. Nixon was the one that failed to render me legal assistance, simply because I knew of none that was qualified. I asked his assistance in securing legal assistance in Calif. but this was when Thomas Evans answered a letter addressed to Mr. Nixon personally. I had placed Mr. Nixon in a difficult position politically and unintentionally myself. I therefore secured the evidence of who were the guilty parties in a safe deposit box at the United California Bank in Whittier, there were duplications that I decline to state where they went or how. There were also duplications that were placed in the Union Bank at 8th & Hill in Los Angeles. that I opened up on June 4th election day the Calif. primary. I had an affidavit drawn up at the Wilshire Western Branch of the Union Bank, giving Mr. Nixon personally the right to access to either box and that he was the only attorney that did have, and that my cousin Thomas R. Curran had rights of coownership, but I had not been able to sign a card for him and did not trust the mails. I also had an affidavit that stated that I had one charge account at J.W. Robinsons that I was not using that I had no hidden assets in any bank vault, these originals were left in the deposit box at Wilshire & Western. I recognized the technicalities that might cause some to declare them invalid or misinterpret them, so, I had another one notarized on July 19 to replace the one on July 12, 1968 that gave the same authority but specified the relative attorneys Curran & Lawton were not legally empowered to enter. Mr. Nixon & Mr. T.R. Curran were the only ones to ever be given any legal authorization to make decisions in regard to the sale or publication of any of the manuscripts including the comparative analysis of the brain, the mind and a television. The first one was written in 1964, in non-technical language and intended to demonstrate the indiscriminate viewing of television, but also a demonstration of the thinking that Dr. Daniel Block had described as paranoid. and unrealistic. A copy of Human Ignition was sent to Holifield four days after the others, my intuition had told me to have the others arrive first, but I could give no logical reason for the delay at that time. In a letter to him (copies had previously gone to Senator Dirksen of the letter to Holifield, It was an appeal to prevent the administration of electro shock therapy to reduce a woman to the level of an animal. Those who failed to act apparently have been deprived of even their natural intelligence now, and in the desperation they hoped to drive me to, they see but a reflection of their own. These men that sought to control the thinking of others in order to rule the world have learned that another human being may thru hypnosis or shock therapy control only an empty shell, an empty body devoid of a personality, a human soul. Those who failed their responsibilities, no matter how high or low as employers as elected or appointed govt. officials, failed themselves and their own personal families most of all. They have dishonored their community, their country, the dignity of man. The evidence in the safe deposit boxes reveals who had the opportunity to act to prevent the damage thru colored T.V. to the hearts, the minds of our youth via Pay T.V. & the General Telephone Company, have the guilt on their own selves they sought to publically impute to Mr. Nixon, myself and my only son.

Page 7 of 14

Today in a Los Angeles County prison a young Jordanian national sits with a death sentence over his head, one that was imputed to him to ~~present~~ ~~themselves~~ by others who needed a scape goat to protect themselves but those who would use the children of others, those that are deeply and sincerely loved as shields to protect themselves are not worthy of the positions they occupy whether it is civil or ecclesiastical of any denomination and their own children and grandchildren they dishonored most of all.

I do not doubt that there is a sorrowful mother that sits and waits in agony, awaiting the crucifixion of one that was destined to be a child of God, in a world of peace and brotherly love under the Fatherhood of God. The God that Created a Universe, and has given to mankind so many great blessings was crucified Himself, that men might learn to know the truth, how to live in a world of light and not sit and grope around in the darkness. It is this invisible God that gives to mothers every where the strength to hope for miracles in the face of despair. Surely one sorrowful mother of two thousand years ago is having her own heart pierced again in the heart of every mother that ever sat beneath a cross.

Do you know that love makes no sacrifice, love never counts the cost, love never dies, love regrets that it can not fill all the human needs of any child, love desires happiness and beauty, but love also recognizes that love has to be freely given and have no ties to bind, for only then can the love be completed and fulfilled, love that is said to be an obligation is nothing more than a debt to a lower self an empty ego, that takes what it does not or can not give.

Who was it that failed the young Jordanian national, the Govt. that failed to adhere to the immigration restrictions not in denying him access but by denying that a sponsor can only sign a paper without recognizing the privilege of helping another partake of a better world. A Govt. that forgot the dignity of mankind can never be bought for in the Garden of Eden, there was everything Adam & Eve desired, there every want had been filled by an Indulgent Loving Father, but the one thing that was missing was the grace to appreciate the multitude of blessings, these were taken for granted. This is the secret of happiness, not in having everything one could desire but in appreciation of what one has been given. The Father of Humanity too had an error to correct, the right of sharing in the creating of a more beautiful Garden of Eden.

Page 8 of 14  
A Govt. that forgot to remember the heritage, the ideals for which this country was founded, the four freedoms, one that forgot that there are none endowed with high positions that do not bear a corresponding obligation to act for the good of all, but the one that grew so accustomed to an economy geared to war & profits forgot the inestimable worth of every child. These are the human temples, the human hearts, the minds, that have a need to be filled with creative ideas to construct a brighter world. it is not in the number one has, but in the quality of the contents poured into these temples, that draw out the inherent goodness that an infinite creator has endowed a human heart with the capacity for. Children are not born with pride and prejudices these are acquired only when one loses the gift of gratitude, one need not ever possess a world of material things if one can but possess the ability to see the beauty in all things.

How is it possible for a young Jordanian National to see beauty thru prison bars, to look out at a country that once held promise and hope? He stated that Jesus Christ Himself could not have saved him, but would not this be a strange remark for one of his nationality or creed/ or is he a Christian. If Christ could not save him it was because there are no redeemers to be the instruments of that saving of a human life. This miracle he needs is a simple but forgotten one of simple justice, investigation, and a fair trial based on reality, medical evidence and then objective analysis.

There are too many interested in saving their own faces to permit the truth to be told, they would rather go on heaping injury to the insults of the despotic aristocrats that can afford to be wrong because they have the political power, the wealth to control the destiny of a nation, a nation that would rather be able to remain poor in order that they might never be bought or sold out.

If one only has a face to save, What became of the soul???? Surely it must be the Divine retribution that caused them to lose that which they caused so many to have buried alive within in those with the latent personalities, the dormant souls. To have a personality, one must first become a person and no two human personalities are exactly alike. No two humans ever react to the external circumstances of life in an identical manner. None have yet given an objective analysis of the young Jordanian without revealing what they expect to find there.

One claimed that he was substituting his own father, but there was never any personal relationships, therefore this would require a generalization to be objective. What is every father ideally the symbol of?? An invisible, ideal Father that is perfect, but also something enough of a human father not to expect more than he gives. What would Senator Robeert Kennedy represent to young Sirhan? What was he in reality a Christian leader, if there was rebellion could it have been in the Christian leadership of the world of today? Has there been justice in this Christian leadership of all denominations to the young people of America, much less the nationals?

The Doctrine of the Indulgences split the Christian world asunder and this division has increased until nowhere is it more apparent than in the Church of Rome, for it can no longer claim to be Catholic since it is no longer universal in its teachings, nor can any other denomination claim to be without its dissenters. The shepherds of mankind still quarrel among themselves as to who is right, forgetting that it is what that matters. The wolves come in and steal the sheep and the young lambs are still being led to slaughter. This is the curse of the Church of Rome that has been passed thru too many generations the demand for being infallible, when the Creator Himself is still seeking to perfect His own Creations thru the hands the hearts, the human wills that are united with His. In a common bond, a common purpose of a world in which there is peace on Earth for all. One can never give up a human will, without surrendering it to another human that is also prone to err. One can never give up the right to make a decision without trying to take this from another. One can never give to the rich the right to do wrong or be wrong, one can never make a reparation to the young people of America for having failed to pass on to them at least as much as we were given, a world in which there was hope for peace and harmony and a hope for the foretaste of the happiness of heaven while still here on earth.

Page 9 of 11

Who paid the farmers not to work, who dumped the vitamins of health and strength in the ocean by the carload, while there was still so much poverty here in the Southern States, that candidates always fear ~~of~~ not securing the votes, the confidence of? Who forgot the value of the rotating of the crops? Who forgot that to be independent and free and lead the way, we must also be self sustaining in our farms, our dairys, our ranches. Who caused the cities to become ghettos, if not those who advertised the large welfare payments, but failed to inform them of the rest of the truth, that a Dollar in New York, or any big city does not go as far or buy as much as in a small community. Do we not have many ghost towns that once had utilities in many with durable constructions of an era that built a home to endure that could be reclaimed. Do we not endanger our industries by having them so close to a shore, it may save on transportation, but does it not double the risks of defeat and invasion by failing to support the railroad in times of peace so they will be there in times of need? (Did the railroads or unions either one secure unemployment benefits for railroad employees under the Soc. Sec. Act) There will always be times of inequities that will require changes and rearrangements, but there will never come a time when any nation, will ever be without the need to participate and be a vital part of the world but so too is this true of the individual worlds. the human soul

ORIGINAL

(conjectures)

If the young Jordanian National did not kill Senator Kennedy, who did? Who actually did the killing and who planned it and why???? Who would have gained? It happened in California where A governor and an attorney General of the State knowingly tolerated the imprisonment of many to bury the diagnostic failures of medics (failure to try to make a diagnosis) but this too was the real crime on the Campus in Texas failure to make use of the diagnostic equipment that research has brought about, and a Govt. that failed to take proper disciplinary measures then. One medic that is undisciplined creates an epidemic of them, but so too was there another pseudo-psychiatrist that was seeking to destroy the minds and hearts of the people in the Whittier area. Those who were aware of this failed in their responsibility to themselves, their professions, their own families, the community, and the nation. Caution among the undisciplined was not even necessary for they had learned that the Govt. officials at that time would help them and tolerate their own incompetence. Failure to use their talents for the benefit of their fellowman. This is how they repaid their debt to the country that had made their educations possible, and provided the funds for the research. The scientific tools they did not need to use, they forgot that only God has the power to see into another human soul, a human mind, but California was the State that has denied the values of human lives, human souls and tolerated the mental<sup>in</sup> competence of others and blame it or attribute it to those who have no power politically to help themselves.

(conjectures)

Thomas Lynch, the Attny. General, and Reagan were the ones that might have gained politically by the elimination of one they might have seen as a threat to the achievement of their political aims, and they both would have gained had it been possible to implicate Mr. Nixon even indirectly. Who could have investigated it, who failed to fill the office of District Attorney, the same one that has been tolerating the lack of investigation prior to condemning patients to mental institutions in order that the politically powerful might steal their estates, but then he too had failed to make restitution in correcting this or preventing its reoccurrence when he had the opportunity to do so. He failed to face up to his responsibility to the people themselves when he received a copy of Paths of Glory that inadvertently told him the truth. Instead time and energy was expended to render me helpless, in order to be able to secure the evidence of his own failure to do so. A false felony charge might have enabled him to have a warrant to secure the evidence of the office of the District Attorney to fail to have the mental competence to distinguish between a civil suit and a criminal offense, but there was a chance that it might be attributed to Mr. Nixon instead of to him, but in this too he failed so while they were keeping me from having any assistance the mushroom of evil grew. They hoped I might despair of finding assistance, but then they forgot that I was aware that my sons world, his future, his happiness could never be purchased at the price of another and while they sought to discourage me, the evil still grew and reached epidemic proportions.

I was the mother that tried to instill in my son a respect for authority, but discovered one day, there was no authority left to respect because none had the courage to administer it with justice. I once tried to instill in my son a reverence for human lives, but one day discovered that the State of California tolerates the willful destruction of a mothers love and life, A woman no longer was a person in her own right merely a chattel to be destroyed if one could profit. My personal hope became the election of Mr. Nixon, not that he might render me personal assistance but that he might restore respect for authority, by the administering it for the welfare of the people as a whole.

Page 12 of 14

ORIGINAL

If one were to analyze the analysts opinions ~~of this~~, one might come to the conclusion that men who fail to use the power of their position for the benefit of the majority are the same ones that fear losing those positions, and this is the fear of failure when in reality the failure was that of the willingness to try, to seek to inflate their own egos, by deflating those who oppose them, but an ego can be deflated but a person can not, and the envious greedy men who sought to destroy Mr. Nixon politically failed because Mr. Nixon was on Gods side, they were not. Mr. Nixon represented freedom and justice for all, they represented the freedom to do as they pleased. When one seeks to take away an intangible, they mistakenly seek to take away the outward manifestations of the hidden value. Character, backbone, moral courage that has been earned by effort and thru the right use of personal talents can not be destroyed. I saw its beginning in Whittier, in which men resented the lack of political coat tails for them to ride on, so they went over to his opposition. Holifield.....They did not expect Mr. Nixon to win but then neither did they care if he did, for another Republican came along that was more to their personal taste of rendering them assistance in cheating their employees, in placing the burdens of taxation on the populace. (Gov. Regan's property holdings are so extensive, he resents the taxes he personally must pay, he has managed to have them reduced each year thru political connections but the Democratic Central Committee chairman was a woman by the name of Watson. Was she the wife of the tax assessor?) Is Regan a Republican or Democrat, it is difficult to tell for both parties have the subversive element in them and he has only been carrying on the policies of his predecessor)

An ad in the paper a few days before The Calif. primary had Holifield listed as supporting Lynch's uncommitted delegation.

Thomas Lynch, was one of the hold overs of the Brown Administration, that was fully aware of the injustices being perpetrated in the California Courts, but he no longer had to act for the benefit of justice there were none big enough to for we had become a disunited states with no Federal authority to act when States fail to administer justice. They still quarrel mainly over who has the right to spend the funds. They also caught a glimpse of what Mr. Nixon would represent when his own personal income taxes and financial holdings were bared to public view, those who could not do the same feared exposure. Regan today is pushing a bill that would place taxation burdens on the middle class no matter how many dependents one might have, but so too was he the one that signed the bill that permitted the medics to claim to be able to pre-determine the mental health or mental capacity of an unborn child, when in reality they can not evaluate the mental health of the adults. In so doing they revealed their own mental incompetence, the inability to use their acquired knowledge, applied objectively.

Thomas Lynch was also the head of the Lynch Delegation that was not committed to any specific candidate, the absence of the outstanding contender would have enhanced the choice of the Lynch delegation. Who was it, Holifield, the Congressman that had usurped territory from Mr. Nixon, the one that was on the atomic energy committee, the one that was on the military affairs committee, the one that was reputed to have the communists backing to gain power? This was the question I asked last summer in Washington? He was the Congressman that failed in his duties to seek a Congressional investigation into the pseudo-psychiatry and used postal patronage and the General Telephone Co. in Whittier to completely isolate me from contacting any assistance. There were those that might have but they did not have the moral courage to act either; nor did they wish to become involved. This lack of willingness to recognize their own individual responsibility to the young people, to their country has jeopardized their own positions and this they sought to hide. The Catholic doctors, priests, and attorneys that prevented me

Page 11 of 14

CONFIDENTIAL

from contacting Mr. Nixon or Senator Dirksen. One can not place the welfare of any segment of society as being of any greater importance than that of the whole, one can not permit conditions to exist that are detrimental to the entire young America without jeopardizing the segments. One can not permit the crucifixion of a young Jordanian National without recrucifying Christ in him. One can not deny the benefits of a just and fair trial to one young man without exposing the injustices that would be the fate of the majority in a society that tolerates this.

How many young men would have the capacity for intuitively recognizing that seven people can not be injured with only one gun. Who were the real perpetrators, who actually did the killing? Who had the opportunity to take the gun from Sirhan and in the heat or wave of confusion exchange it? Who was it there to motivate the young Jordanian that probably had his own personality rendered dormant and helpless, was this Alexander Wolinaw, he told me in a phone conversation that he had killed Robert Kennedy, but he may have done so expecting me to tell this to the D.A. He had the opportunity to steal a copy of RHs of Glory and may have expected me to become involved, giving them the opportunity to silence me. I had learned there was no authority that functioned for the benefit of the tax payers, it was being used to hide the scandals of the higher echelons of our society. This too gave many the opportunity to steal the manuscripts they wished credit for without earning it. As long as they could keep me helpless, they had a chance to steal these.

The Redemptorists that might have were subject to the will of a Cardinal who could not afford a scandal. One of the non-profit charitable organizations (so-called) was Mil-Mor Foundation, it was a state supported alcoholic Rehabilitation center that in reality was nothing more than a front for ~~alcohol~~ narcotics addiction, Millie Morrison was the director and female Christian anarchist that ruled by threat of expulsion, I only talked to her once and she stated that she would throw any one out that voted for Richard Nixon. (Chances are those who did vote, did so but quietly to be able to defy her inwardly if not openly)

*Page 12 of 14*

The men in the armed forces too would have the intuitive ability to recognize that more than one gun would have had to be used, the doctors with knowledge of the function of the brain, the notable absence of information that was silenced by a court order. We have lost our respect as a nation because we lost respect for those who occupied positions of trust, and if we have no self respect as a nation, then neither can we expect other nations to respect us.

Is there not the possibility of a previous injury from the rock the Senator was struck with? a factor that might have healed itself in time or formed a tumor? I never heard Senator Kennedy speak prior to his death, only the commercials, and in these I noticed that he sounded very much like his brother, but there was something missing in these because there was a flatness about the voice, this is one of the effects of injury to the frontal lobe, it is called emotionally flat, but its effect is the loss of the ~~inability~~ ability, to transmit ideas or meanings that correspond to the words. Is there not scientific equipment that can test the pitches of the voice to identify them, were there ever any comparisons of the tapes of the voice prior to the blow from the rock and after?

A man that was informed that he had terminal cancer such as Jack Ruby had might be willing to be a martyr for a party, for he might have nothing to lose. There was division in the ranks of the democrats then. Who was it that failed in his duty to investigate the assassination of President John Kennedy, is it the place of a Supreme Court Justice to

OK AL  
conduct investigations or listen to the accumulation of facts and evidence after it has been accumulated by both the defense and the prosecution. In the case of the assassination of a President would this not have been the role of the Attorney General of the United States, with the assistance of the Federal Bureau of Investigation? The man that failed to accept the responsibility of his own office was the same one that became victimized by a repetition of the lack of justice, the lack of respect for the rights of the people to determine their own choice at the Ballot box.

The enactment of gun control laws will not eliminate assassinations, nor will it appease the people. One must first find the cause to be able to effect the cure. Could it be a failure to give a healthy respect to the young for the right use of these. But then we have become a nation that has not the ability to use the other material things for their specific purposes such as scientific equipment to make a diagnosis. The legal minds no longer need use their acquired knowledge in a court of law, they do as they please by pleasing the party in power. As a nation we do not make use of these material blessings for the purposes for which the Divine Creator intended them to be used. Instead there is a loss of the sense of values in the things themselves so it is now quantity instead of quality.

A long time ago, at the first outbreak of violence that I remember, at a Southern California School, it was one that was pro-Cuban, there was also the wife of a doctor from the Good Samaritan Hospital that spoke to the Mothers of St. Marys Parish School. She warned us of these things that have come to pass. The main point I received was that it would take a strong faith, to counteract these dangers. I recognized she was telling the truth and this I wanted for my son. Faith in an invisible God, to sustain him in times of danger or times of need. Some seem to take it for granted that membership to a church or specific religion is the same as having faith.

Page 13 of 14  
A religion that exists only in words is an untried, impractical theory and therefore to have a proven value the words must have a practical application thru the every day living of them. These acquire a value but only to those that choose to live them and then only in the measure they have been lived. This is what transforms a religion into a living faith, but its value is only to the person that lived them and Catholic, Protestant or Jew need only live according to their own. The Church of Rome can never prove its infallibility by proving every other one is wrong for science has too often proved the fallibility of their decisions. One can never find security in membership in any organization, specific creed or association because this too can be lost or proved to be of no value.

I placed a petition on the Altar of Perpetual Help, for I recognized if my own son needed a Guiding Star then too so too did the other children. I had always requested the Source of Perpetual Help to Mothers to render me assistance in guiding him, and if it was not possible for me to be the one to recognize his needs and fill them to please let there be some one else to do it for me. I can not give my son respect for authority, for this is something I once had but lost, but we now have a President that can with God's help and enough of those who care to follow him to restore the administration of authority to function for the benefit of all.

ORIGINAL

He can not do it alone, for society is much to complex. When men\* fight just battles, they find God on their side, when men protect the rights of the weak, the helpless, they do not fear their own human frailties. When men give themselves the right to examine the consciences of others, they reveal their own. When men expect to find evil in another, that is what they too will find, but how can they know or be sure that it is not just the evil of their own thinking them to be. Men who have failed to defend the homes, the people that depend on them because of their position in society, they fail a sacred trust.

\*men in this sense also include women <sup>here</sup>  
The ability to utilize the intelligence is something that is very personal, it is not dependent on how much one knows, or how many degrees one has, nor is it a possession. It is an ability and must be used. One need not possess great talents, but in Biblical times talents were a medium of exchange, coins. Talents too can be personal abilities including <sup>181219</sup>acquired knowledge. In the parable of the talents, There were two servants that were rewarded for the manner in which they used their talents. One invested his wisely and earned an increase for the Master, one tried but failed, he too was rewarded for his efforts if not his successes. It was the one that buried his for fear of losing them that was rebuked by the master.

I was the Catholic that voted for Mr. Nixon in 1960 because I sincerely believed that he more truly personified the true ideals of Christianity. I did not hesitate to say so. This was an unpopularity contest among the elite.

In 1968, I was the Protestant that voted for Mr. Nixon, I became a protestant for the same reason millions of others have since Martin Luther. I do not believe one can ever repair a wrong by a contribution of alms to an institution. In civic circles this is called bribery, by buying political favors. It just so happens that I did not ever see it the way others have been taught, but then I learned my catechism lessons from a mother who saw to it that I returned the pennies that I stole, before I said the words. It was in this way I learned not to steal pennies from another. A reparation must match the act, the sin of detraction calls for a retraction. Gossip is never considered a serious offense but in reality it is gossip that is damaging to the reputation of others, and how many of the psychiatrists comprehend the psychiatric truth, The hidden guilt we see in another is but a reflection of our own. If it is hidden then would not the speaker have to be aware of it, and who is it that sees the anxiety neurosis of the American people as a sense of hidden guilt. The medical profession that looked away from its own sins (ignorance) have placed themselves in the position of being guilty of being the mill stones around the necks of their fellow members. The attorneys that use their talents to gossip about the ones that use the gift of tongues to defend freedom. The judges that make decisions on precedents, or an opinion another judge once rendered or the social position of the defendant. The district attorneys that promote themselves thru promoting the party in power. The adults in this world that have no children that care not about the world of tomorrow, the parents that expect to take away from the children of others to give to their own, cheat their own most of all by depriving them of the right, the ability to earn their own human dignity.

*Mrs. Patricia D. Stoffe*  
Mrs. Patricia D. Stoffe

To compensate for their own weaknesses

Gossip was once considered to be the vice of women.

Member of the United States Congress  
c/o Postmaster, Main Post Office  
Washington, D.C.

DUPLICATE

What was it that my mother saw when you took her to keep Cam company to witness an A-Bomb test outside of Las Vegas? This was just prior to her death and did you really think that she would have told me anything that might have jeopardized my life? Is this why she had a premonition of death and why when she was killed in an auto accident near Baker, that the Chief of Police of Las Vegas at that time found a note inciting that she did not expect to return alive to her own home? She left it on the dining room table of her home in Las Vegas at 846 Kenny Way.

My brother was an air force attache in Damascus at that time, there was nothing phenomenal about my believing that he should be notified prior to any decisions setting a time for the funeral. I simply believed he would return if possible and this he did. This is what one might have referred to as a family association since my brother loved my mother and did not have the opportunity to see her prior to his departure for Damascus, Syria, and Jordan.

Apparently there must have been a skeleton in the closet at Magna Corporation that you wished to hide. All I did was the accounts receivable and was required to keep in perfect balance, this I did by a trial run on the ledger every 10 days. However, there were other restrictions that were part of this job too, such as seeing that there was a purchase order for every invoice for the precision instruments that went to Caracas & Arabia. This was essential to protect both Magna Corporation and the customers such as Esso International. With the proper invoices and purchase orders the overseas shipments were the responsibility of the purchaser when they arrived at their destination. American goods being used by American Companies. (This would prevent them from being used by the wrong people)

We were shown what was supposed to be classified information about the saline water project. I saw nothing of interest or value in the film and wondered why they were showing this to the office help. It was a film but left no impression on me because it was of not interest to me. Was this an attempt to use film and and subliminal perception? My brother was in Caracas during the time I worked at Magna (He had been given training for a position here in Ogden...Were you instrumental in having this altered to an assignment at Caracas?) I doubt if he even knew I worked there until recently. (No precision instruments were shipped there without purchase orders either when I did the accounts) I was not even corresponding with my brother then, possibly the results of the electro shock therapy I had in 1956 that did not destroy my ability to think, to make decisions, but broke the bond of familial relationships. I did not see my brother again until May of 1966.

*Century* Are you aware by now that electro shock therapy effects can not be predetermined, nor can one be hypnotized that would not be willing to, nor would one act according to a previous concept of morality (willingly accepted) One may be conscientious without being inhibited. My brother entered the Air Force in 1940, he was a good soldier and was promoted rapidly after he received his wings. His character and personality were carefully molded by my mother, in spite of hardships, you see we were not unwanted, unloved children, and we never had to bear a sense of guilt at being a burden to her for she did not see us that way herself. To my mother we were a sacred trust, it was her role to give us guidance and direction, but never domination. We were permitted to make our own decisions, to have a free will of

April 24, 1969

our own. Many mothers seek to compensate for their own failures to develop the conscience & personality of a child by dominating them. ~~On might say~~ seeking to possess their souls. My mother did not.

**DUPLICATE**

My brother Tom, amazed many because he too was quite brilliant, was he not? You gave him an appointment to West Point, the first test was excellent in everything but math, so well that he was sent to Cornell for a year at the Army's expense to study math. This too was unusual for one to have such a high score in logic and be poor in math, but then my son also received poor grades in math but after graduation from high school did exceptionally well on intelligence tests. (Is this attitude derived from the fact that one learns to reason in the primary grades thru reasoning problems? These use words. Is it a coincidence that my brother Tom too was given electro shock therapy? What about my brother Jean, was he given some in Texas to diminish his memory, for the deliberate induction of amnesia so that he would not be able to remember that I had rights of inheritance in the Tierney Trust Fund? You were aware that sedatives and hypertensive medications would also diminish the efficiency of his cerebral cortex, as well as create loss of initiative and low blood pressure.

My son too was the victim of an unprovoked attack and taken to the Stanford Hospital for a nose realignment. (May of 1966) This can be dangerous too for it very often causes a young man to suffer from sham rage as does electro shock therapy. (That was the nose bleed that cost the insurance company almost \$300.00 for an overnight stay in the hospital) My son had been my source of strength and encouragement in the months that preceded that, but I myself believed that he should move away from home because my son loved me and it was difficult for him to see my difficulties. He was helpless to help me as was my husband. They were not attorneys, they were not doctors. Professional agitation came from many sides did it not?? But failed to drive me to desperation as many hoped.

The paper said that you were instrumental in the formation of the Transportation Post, but so too do I remember the gossip that linked you with the Communists at the time you first ran for office. Your red tie identified you as being sponsored and backed by them. Your appeal to the unions and laborers also would be along communistic lines. At one time Helms Bakerys were a fine organization until the professional agitation put the union in. They do their dirty work and leave. (Dob Schultz) He used to be in the cleaning business and would have had a knowledge of the effects of reversing the carbon dioxide in a refrigerator unit. This was done with a celanoid to make it appear to be my husband. My husband would have had no understanding of the effects of the odorless tasteless gas. In this case my sons deviated septum turned out to be a blessing as did his fathers and mine. It diminished the intake of carbon dioxide thru inspiration. It became worse though after I called the Sears Service Dept. to fix it, that was when I learned that it sounded like a reversal of the odorless tasteless gas, this kept only milk and cheese products safely, meat became contaminated in a few hours. Whatever was causing the refrigerator to sweat also was causing me to do the same. It became necessary for me to sleep out doors in the day time and I closed off the kitchen and eat up at night. (intuitive action)

My son came to take me for a ride one day, and I accidentally bumped my head when I got out of the car, this made me realize that even an accidental bump could cause my husband or son to be blamed for my death.

One could hardly have blamed my son or husband for the carbon dioxide stained on my clothing (purchased after moving into the Wm. Penn Hotel) This toxic poisoning created a non-functioning kidney and the poison poured out my pores, although it was not so noticeable at the Wm. Penn. I had learned to recognize an odor. It apparently was in my blood stream because the yellow carbon dioxide stains were

April 24, 1969

on the right side of my neck only. This too created problems of making muscular movements being more difficult. (That is why I refused to pay my hotel bill until an attorney or public official tested the stains on the clothing, but that was before so many other incidents took place and I left California, in order to preserve my rights to life, liberty and eventual rehabilitation.

**DUPLICATE**

I saw a red tie on a Mr. Lake one day in the cafeteria at the State Bldg. and remembered yours, but then he was the one that was supposed to have seen to it that I received my rehabilitation and never did. I applied for this in Feb. of 1966, it was eventually approved for the Bryant School but had I been able to travel 30 miles to school, I would have been able to work. I requested Whittier Business College, but upon trying to use the stairways, I found them too exhausting and repeated my request for stenotype training thru La Salle University. At one time I was told my husbands salary exceeded the minimum, but this was supposed to have been thru Soc. Sec. and not part of the poverty program.

I applied for stenotype in Washington D.C. but was not there long enough to be refused. In Colorado Springs, I was told that in 1967 their allotment had been used up by March, and no funds would be available until January, but I left Colorado Springs on January 8, 1969. The Rehab. here in Ogden could not secure my records until the end of the period indicating a check is being paid to some one in my name. There was a stenotype studio there that was supposed to be a school, but also a correspondence course, I tried repeatedly to find some one there to enroll and pay my own way while in Colorado Springs, but none were ever there. How many times have funds been granted and approved but never given to me and who would be cashing the checks?

Did you have your sights on the Vice-presidency? Thank God you did not succeed. Can your children or grandchildren be proud of the kind of a legislator you have been? How can you protect them from the crimes of the enemies of humanity that went out over the T.V. set up. These are crimes that none can compensate for, nor would you permit me to reach any that would render me assistance in providing the evidence of how it was being done. These are crimes that are on your soul not on mine, in your expectation that I might become desperate, you could only see a reflection of your own despair.

Who placed Clinton Harris in a position in which he needed to sell his ranch, a former employer? a former General Mgr. That and the Oldsmobile that was purchased by Mr. Nixon from General Motors thru Harris might have been made to appear that it was a political token, but it just so happened that I did the DMV according to my own judgement, and not as some one expected me to do. His ranch was in Colorado, is it in the area of the Air Force or part of it? Which committee would that come under Military operations? Last summer Jim Whetson had a ranch. Did he sell his thru you, is that why he chose not to recognize me when I came to Ogden. Apparently some people do not wish to have honest accountants any more. In New York some are being paid \$35.00 an hour, but these are not the type that use the ledger systems and have regular accounts receivables dept. Although any General Motors ~~system~~ Dealer that adheres to the General Motors system of Bookkeeping where a monthly financial statement is used, probably not only has greater protection from less repos. but less trouble with the internal revenue audits being investigated. How can any company that has no accounts receivables such as Magna Corporation had ever withstand an internal revenue audit. Without these, firms are very apt to have to dig deep to pay back taxes.

Your pseudo-saline water projects, your postal edicts, your stuffed ballot boxes all have failed, have they not? You over looked one very important factor, and that is hope springs eternal in the hearts of American mothers for a restoration of law...order...and an authority that will render us assistance in administering that authority to give protection to those who

April 24, 1969

**DUPLICATE**

recognize the need for it. We very often find that because of the likes of you, but somehow that is when an invisible God sustains us to somehow keep trying, to keep searching for a better way.

Following the year I worked at Magna there was an extensive investigation of our income tax. Months were spent in looking for an error and finally the investigator had to be transferred from the downtown office to Hollywood to claim we had to pay on the \$800.00 we paid a relief driver to take over Stans route when he was in the Hospital, but we were also told it could be taken to court to establish a precedent. This became obvious that it was the Bakery that was reaping the benefits of a dual deduction, and the men were paying for it. but the bakery too suffered a lost cause. In letting the men down, they let themselves and their own families down most of all.

Dr. Breitman too gave me a fringe benefit of a major medical insurance but renigged because it would reveal his own incompetence and unreliability as an employer or doctor. I never received the benefits from this (over \$3,000.00)

Clinton Harris too, did not have to assume the responsibility of an employer, I signed the wormans compensation claims in 1961 to protect any future claims, this was paid into a private carrier and I was told the state had no record of it being turned in. Or did an office manager collect it in my name, as secretary of his incorporation, he might not have had much to say about it, if she did. His lip service as President of the Nixon Committee would not be associated with you but imputed to Mr. Nixon.

Under the Nixon <sup>administration</sup> honest accountants will be the ones that receive the premiums. The knowledge that we preferred to pay our own taxes once, to asking for political favors apparently gave many former employers or prospective ones the jitters. Would the FBI be the ones to turn to if one were inclined to be a tax informer. I recently did seek to protect myself from any false charges by informing the Internal Revenue Service in Washington that there undoubtedly were some claiming the rights to handle estates for me with the use of an illegal letter stating that I had been declared incompetent, when in reality three attempts to render me so have failed, and not even a declaration of mental illness was secured.

I am therefore establishing my residence here in Ogden, Utah to protect my life, my proerty rights, my rights to have medical assistance, legal assistance and rehabilitation even if I have to pay for it myself. I had to leave the State of California before the Dept. of Mental Hygiene could render me any assistance and provide me with the necessary documents. The only alternative would be Canadian citizenship and I doubt if Canada will be any safer from the effects of your incompetence, avarice, and greed than is the U.S.A.

It is no coincidence is it that the doctors of the Good Samaritan Hospital in L.A. Angeles, were the same ones that you lied about and had the medical reports substituted in the Soc. Sec. File. Apparently there were actually only three tax evaders among those I saw that you could weild a club over. They were also the same ones that attended Kennedy, but why was there an injunction to silence them? Was there surgery or just an autopsy. Was he still alive when they were called in? Surgeons do not operate on a skull with only half a head shaved.

Your every attempt to break my spirit and discourage me has failed, and will continue. I am in the one out of every 9 working people that are doing without because of the Social Security Hoax. The other 1 out of the 10 would be the civil service employees of the Soc. Sec. Dept that are not interested in their fellow Americans, but they too are tired of being broke and can not see beyond their own noses.

Mrs Patricia A. Stoffe  
Mrs. Patricia D. Stoffe

Post Office Box 965  
Ogden, Utah 84402  
April 28, 1969

Mr. Jay Kramer, Chairman  
New York State Labor Relations Board  
Southern Regional Office  
270 Broadway  
New York, New York 10007

DUPLICATE

Dear Sir:

I have before me a letter from your office dated March 3, 1969 in which I was advised that the Division of Labor Standards at 80 Centre Street, New York, New York 10013 would be the proper agency and authority to collect the additional wages due me from Uniforce Temporary Employment Agency in New York City for wages earned at Eastern Life Insurance Company, 355 Lexington Avenue, New York, New York.

Apparently the board I was referred to is unaware of their function, or else the individual that replied was unable to interpret the written word, since there was not only ample evidence that there was a rather large sum still due to me for services rendered from January 17, thru February 14, 1969, but there was also evidence that the Federal taxes would never be turned in to be credited to my Federal Income Tax Account withholding for this year. I found it a strange coincidence that the Contract Employers using this little illegal device had the name of Uniforce,, since there is also an outfit in Whittier, California by the name of Unitax that pulled the same illegal device last year. (They also advertised their tax returns were figured by computers but failed to mention that the women auditors were the computers) They failed to report either my number of exemptions claimed, or my social Security Account number ~~six exemptions~~

The absence of the use of a check protector made it obvious that the figure on the company records might not correspond with the figure on the check. They used 3 zeros in front of the figure. A posting machine may have been used to post their records making it necessary for the figure in the hundreds to be inserted correctly in their records, but the first two zeros were necessary to line up the third 0. The rate of pay I received was the lowest one possible for a file clerk, but I was working in an Insurance Company where my experience and background qualified me for every department they had including that of medical underwriting. I also had a perfect score on their cash accounting test.

The uniforce Agency also had two types of paychecks. (regular) and those they gave out to employees at the office on Friday of the week they worked. According to this there were dates on the time slips that were not included on the checks, making it possible to have charged the company far more than they ever paid me. Each week I informed them that my check was short, and each week they said turn it in and it will be included in your next weeks check, but it never was.

The individual that replied to my many inquiries including a telegram from Chicago, and certified letters apparently is one of those victims of progressive education where they do not learn to interpret the written word. This would make it necessary for some one to instruct him very carefully as to what the function of his position is. This lack of the

Mr. Jay Kramer, Chairman  
New York, State Labor Relations Board

April 28, 1969

comprehension of words however is being very expensive to the taxpayers of New York, in my case it made it essential to secure public assistance for one week (during which time I was given a larger amount to live on than the Uniforce checks were for one weeks pay period. I also received \$82.40 from the Waverly Center to pay my transportation to Ogden Utah.

I do not enjoy paying high taxes any more than any one else, nor do I care to pay them and not have them credited to my account. I object even more so to supporting the illegal endeavors of communistic Congressmen that were allowed to perpetrate frauds, felonies, and perjury to cheat the American people especially the aged and the disabled thru the misuse of Social Security Funds.

They are also taking advantage of the many pensioners that are not aware of their rights in regards to earnings. It is not that pensioners lose benefits it is that only a portion is non taxable. The lower level of the Soc. Security Admin. Offices has failed to inform these people of their rights. (One example of how the middle class is divided against itself by the previous administration).

There are also undoubtedly many collecting welfare in New York that also may be entitled to collect Soc. Security benefits, but then this might enable them to be a little independent of the party.

I would therefore appreciate it very much if you would instruct the agency you recommended me to call on Eastern Life Insurance and inquire how much they paid to Uniforce for my services (Telephone calls and mail are rather unreliable in New York especially in the business area post office of Grand Central Station. You might also recommend that they see how much they did deposit at a Federal Reserve Bank for taxes withheld. (Since the time is passed for making these deposits)

They also refused to make out my name in the same manner as my Social Security Account (They eliminated the middle initial) they also refused to put either my permanent home address at that time or my New York address as you can see by the photocopies of the checks and stubs. There was no means of identification on the stubs, making it necessary for me to have photocopies of the checks and stubs prior to cashing them. It therefore made it impossible for them to alter the checks and claim I had altered the figure on the check. Chase Manhattan Banks were the only banks that would cash these checks.

It is unfortunately true that many companies are using temporary help to avoid having to pay the  $\frac{1}{2}\%$  of the Soc. Security, since they do not have to pay this if one is employed for less than 3 months. I also requested that the Agency fee be specified since it would be deductible for me if included in my earnings.

This may be why the American People have no respect for authority. The failure of a Labor Board to render assistance in collecting wages enables employers to take advantage of all employees, meaning there is no authority if it is not exercised for the benefit of the taxpayers. The amount of State and City withholding would indicate the State and City are receiving their share of taxes withheld from such paychecks but not the Federal Government. Especially in a case where the taxes would be turned into a different Internal Revenue Service Center than that of the permanent home address at that time.

We the American People have had enough of the lack of law, order and authority<sup>not</sup> functioning for the benefit of the taxpayers. There will be a restoration of respect for law and order when there is a return of it being administered to benefit the American people as a whole and not the tax evaders, and communists within the Government itself.

Mr. Nixon was elected in spite of the campaign funds being diverted, and in many instances in locales where no funds were expended at all. Colorado Springs+for example.

You have inherited the Cabinet Post in which there is more corruption and graft than in any other department in our Government today. If you are politically ambitious it would be advisable to start earning your votes for any future positions you might wish to have. Any failures to correct that corruption in the Dept. of Health, Education and Welfare will be proved to be existent with your knowledge and approval and therefore you will not be in a position to blame either Mr. Nixon, the Postmaster General, or the Attorney General.

Your failure to take steps to correct this makes it apparent that you too along with Regan would seek to blame your own incompetence on Mr. Nixon For the Social Security Hoax and the Saline Water Frauds, going on thru out the U. S. A. today.

The enemies of our country have a habit of liquidating those they use to gain power, when they are thru using them. One man or even two or three can not accomplish a miracle because miracles have to have some believe enough in them to strive to make them possible. It has been the denial of responsibility for many high officials in California that has not only turned it into a Welfare State but one that is pretty well dominated by the Communists, who are turning the people and officials into Zombies thru the use of colored film on black and white programs from Mt. Wilson thru the pay T.V. set up in the Whittier area, with the knowledge and approval of Gov. Regan, and Rasputin Mc Intyre. The vilest suggestions that are beyond description have been implanted in the minds of the young people and which of the same officials has the power to protect his own children or grandchildren from being victimized by this. Unless the Communists and those who support them without being a party member by their own evasion of responsibility (on every level of society) start working with Mr. Nixon there may not be an America for the politically ambitious to take over.

Mr. Nixon was elected as the last hope of the American People for restoration of freedom, justice for all but he can not accomplish it alone. Nor could General Eisenhower.

Mr. Leslie H. Fraz, Postmaster  
United States Post Office  
Los Angeles, California 90052

Attn: W. C. Potter, Director  
Administrative Services

Dear Mr. Potter:

I am enclosing a copy of a reply from the Delivery and Collection  
Unit in which Mr. Tillman E. Thomas, the Superintendent is  
acknowledging and accepting the responsibility of the Postmaster  
of Los Angeles to make an investigation, the failure to do so  
might not be apparent from the names of some of the registered  
letters but on only four receipts there is evidence of the possible  
domestic repercussions to the professional and personal reputations  
of many people who hold positions of responsibility to our nation.

Would this  
be the proper  
department?

That which they tried to do to others has come back to them and indeed sold.  
Does any postal clerk or Postmaster have the right to presume that  
Mr. J. Edgar Hoover would have agreed to personally sign for a reg-  
istered letter that an additional fee would be for its insured delivery  
to no one but him?

and a letter directed to one Mary Emma Smith, a woman  
in North, be allegedly signed for by a man that would Mr. Smith  
for when the letter was intended consider it important to have every  
postal clerk or Post Office Official presume the contents were un-  
important?

As a private citizen do I not have the right to have evidence of my  
compliance with the postal regulations that could be detrimental to  
my monthly income by a failure of a Postmaster to comply with these  
same regulations?

not yet  
but  
hope  
spring  
eternal

I am therefore requesting immediate action in seeing that all of  
my mail is delivered to me, and deny that anyone has had the right  
to either refuse to permit me to transfer my own mailing address or  
to do it for me.

Yours truly,

U.S. Attorney General:

Dear Sir: The outrageous legislation enacted by our Supreme Court has given impetus to the increase of crime and murder. Supreme Court has undermined the morale and effectiveness of police and law enforcement. Criminals have grown bolder with the permissiveness of Courts and responsible for the encouragement to youth that a career of crime profits. When a case as Sirhan's at a staggering expense to burden taxpayers can be allowed loopholes to prolong this case to such lengths!! The judge refuses to accept the confession of guilt by Sirhan, giving the attorneys more leeway for the most ridiculous procedure ever enacted in a Court of law. The attorneys have brought into the limelight a minor Arab UN official, Issa Nekhleh who boldly condones Sirhan's crime by statements to press and TV broadcasts that the crime is political and justifiable. It is time common sense was restored to Supreme Ct. and to safeguard our citizens.

THE CONSTITUTIONAL GOVERNMENT OF THE UNITED STATES  
P.O. Box 113 - Swanton, Ohio - 43558

OPEN LETTER

April 26, 1969

TO: Pope Paul VI - The Vatican - Rome, Italy

"Pilgrimage To Gmose a"!

# 21-037-142

Enclosed you will find a copy of my letter of April 24, 1969, addressed to Judge Herbert V. Walker, Presiding Judge, prohibiting the execution of Sirhan Sirhan because of miscarriage of justice in his trial. I expose your own criminal complicity with the Government of Israel, to overthrow Constitutional Government in the United States by inciting to war in the Near East, through your puppet Robert F. Kennedy, and protégé Richard M. Nixon inciting them to murder and treason, in the 1968 elections, which led to Kennedy's assassination.

The analysis speaks for itself. The next necessary legal step in preventing this miscarriage of justice for Sirhan Sirhan - because the victim of highest Vatican - World Zionist - U.S. intrigue and sedition - becomes the necessary intervention of another of your puppets, Governor Ronald Reagan of California, who has Constitutional authority to set aside, or to mitigate, the sentence of death.

Because of your absolute authority over the mind and soul of Ronald Reagan, whose single loyalty is to you, you alone can intervene to cause him to fulfill his Constitutional responsibility to protect the security of the people of the United States and of the world - a shameful admission and indictment of political disloyalty of all "true" Roman Catholics throughout the world. If Sirhan Sirhan life is spared it will be because you so decree!

In the year A.D. 1077, Emperor Henry IV of Germany, who had offended Pope Gregory VII by daring to rule his people under his own lawful authority, was forced, as a penance, to walk across the Alps, barefoot, to Canossa where Gregory was a "guest" of the Countess Matilda, and to wait in the snow for three days until it served the convenience of "guesting" Gregory to lift his excommunication. Now I, in principle and under my secular authority, and under the inspiration of a Universal Power of Truth which is no respecter of persons, be they Popes, or Governors, or beggars, ~~REITERATE~~: That you, figuratively, march across the icy mountains of Vatican murders and treasons, to ~~SEEK~~ the lifting of the curse of the ban of excommunication which ~~you and your predecessors have brought upon yourselves~~; in your "Spanish Inquisition" of 16 centuries of bloody-handed murders, especially against your own people. If you are able to exert authority over sequences of persecution of Roman Catholic citizens of the United States (unlawfully and in violation of duties of Citizenship to defend the Constitutional freedoms), to breed warriors for your war in Vietnam as they have been bred for your perpetual wars all over the world, you are able to exert authority to prevent miscarriage of justice ~~as outlined in this one man~~:

I hold you responsible, personally, to me, under the Law and Spirit of the United States, which I represent. You have seen winds of hatred and violence, and if you fail in your "penance", will surely reap the whirlwind of disaster of the prophecy of Nathan, that "the Pope will lie dead and bleeding at the feet of his throne".

So Must It Be - And So It Is!
