**Result of examination:**

The writing on the photocopy, Qc24, is too indistinct for adequate comparison of the Sirhan Sirhan signature and address thereon with the available writings of SIRHAN SIRHAN. If the original document for Qc24 or a clearer photograph is submitted, a more suitable examination can be made.

The additional purported handwriting of SIRHAN SIRHAN, designated as specimen K19 is too limited to permit a definite conclusion to be reached whether SIRHAN wrote any of the unidentified questioned writing on the specimens submitted in this matter. It was found that the writing on specimen K19 is of value as an additional handwriting standard of SIRHAN.

Specimens Qc24 and K19 are being returned to FBI, Los Angeles. These specimens have been photographed.

NOTE: For FBI, Los Angeles

Los Angeles will refer to the comments of the FBI Laboratory made previously in this matter. Similarities in handwriting characteristics were found in the known writing of SIRHAN SIRHAN and the signature and address of SIRHAN SIRHAN on Qc24. If the original document or a clear photograph made normal size (with scale exhibited) is submitted, a definite conclusion with respect to the comparison with the writing of SIRHAN may be reached.

Re: Autopsy Report - Senator Robert F. Kennedy.

Dr. THOMAS T. NAGUCHI, M.D., Chief Medical Examiner-Coroner, Los Angeles County, advised that the photographs and report concerning the autopsy conducted by he and his staff on the body of the late Senator ROBERT F. KENNEDY is still not complete. He said the delay is primarily due to one segment of the report which concerns the various organs of the body not directly related to the penetration of the bullets. He said, however, this report will probably be complete within the next week or so and he will probably advise the Los Angeles Office when it is ready. *promptly*

In connection with the photographs taken during the post mortem examination, he pointed out that there may be between 200 and 300 photographs taken during the autopsy. The Los Angeles Office has requested six sets of photographs at a cost of 27 cents per photograph, therefore, the total approximate cost could be \$486.00.

It is recommended that Bureau authority be obtained to expend money ~~in excess of \$400 to obtain~~ these photographs ~~in the event it is necessary.~~

Re LA airtel 7/8/68, making reference to Sacramento airtel to Bureau dated 6/7/68.

A search in the Bureau's records does not disclose the receipt of Sacramento airtel dated 6/7/68, with attached certified copy of California driver's license [redacted] of SIRHAN BISHARA SIRHAN.

Sacramento will search its files to determine whether referenced airtel actually has been mailed to the Bureau.

Past experience of the FBI Laboratory reveals that copies of driver's licenses frequently are not clear enough for adequate handwriting examination. In submitting the copy of SIRHAN BISHARA SIRHAN's driver's license, Sacramento should obtain a clear photograph made normal size, properly certified, so that suitable document examination may be conducted.

Enclosed for the Bureau is one photocopy of Calif. driver's license [REDACTED] for SIRHAN BISHARA SIRHAN.

Sacramento files do not contain airtel to Bureau dated 6/7/68. Sacramento files revealed above referenced teletype advising the Los Angeles Division that Calif. driver's license for SIRHAN BISHARA SIRHAN was being furnished that date to the Los Angeles Division by routing slip.

By above referenced telephone call, the Los Angeles Division was advised that inquiry at Dept. of Motor Vehicles, Sacramento, revealed that the original application for Calif. driver's license for SIRHAN BISHARA SIRHAN was in the custody of Senior Special Investigator, Mr. JAY MORRIS of the Van Nuys Office, 14920 Vanowen St., Van Nuys, Calif., telephone number 213-787-7220.

Inasmuch as the enclosed photocopy of SIRHAN's driver's license comes from the Soundex Files, of the Calif. Dept. of Motor Vehicles, which in turn is a negative, copy of the original application with the photo attached, the Los Angeles Division was requested to contact Mr. MORRIS and obtain a clear photo made normal size, properly certified, to forward this to the FBI Laboratory for document examination.

Examination requested: **Engineering**

Remarks:

The analysis and comparison of voices for speaker identification is conducted to provide investigative guidance.

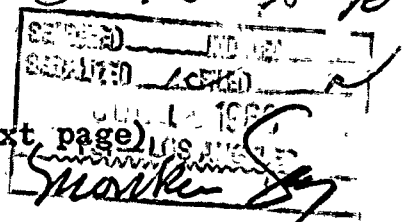

Due to intermittent background sounds and a poor signal to noise ratio, the utterances recorded on K21 were not suitable for voice comparison purposes. A comparison of the utterances of SIRHAN BISHARA SIRHAN, designated as K20, with the voice of the anonymous caller to Radio Station KNEW, Oakland, California, designated as Q27, has been made. The K20 utterances differ in significant characteristics from the anonymous voice on Q27. It is not likely that they could be the same speaker.

ADMINISTRATIVE PAGE

Although there is no proven scientific basis for accurately determining qualities such as age, education, occupation, regional accent, etc., on the basis of a limited voice sample, the following subjective aural impressions based on the voice quality and language usage of the unidentified caller, are set forth:

The voice of the anonymous caller is that of a mature male, possibly between the ages of 35 to 45. Although the thoughts which he expressed are somewhat disorganized and vaguely stated, it is believed that the caller is intelligent and well read but probably has little if any formal education.

The accent of his initial comment seems to be somewhat affected "hillbilly;" but, thereafter, his accent can be broadly characterized as Southwestern United States. His speech patterns are idiomatic and do not appear to be contaminated by foreign influence.

It is noted that the anonymous caller, with the exception of his initial comment, pronounces his words fully without swallowing syllables or clipping word endings, particularly final (r).
