Dear Mrs. Roth:

President Johnson has asked me to thank you for your letter at this time of terrible sorrow.

The President more than shares your concern over lawlessness in a country that has and must always draw strength from the decency and dedication of its people. In his words, there can be no justification for violence that tears at the fabric of our national life.

For many months the President has urged the Congress to enact stringent crime and gun control legislation. Of immediate importance, you may want to read in full his remarks of June 5 and June 10 on combatting and inquiring into the causes of violence. The enclosed copies come to you with the President's appreciation for your interest.

Washington, D. C.

Honorable Sir:

I am a Feature Story writer for the Troy Record, in Troy, New York, and sick, saddened and disheartened over the atrocious crime committed on Senator Robert F. Kennedy, I wrote the enclosed article.

Many, many people feel as I do. We want legislation passed to give full scholarships and grants to those dedicated men, who have the ability and desire to go into this field. The maniac must be gotten off the streets and kept away until he can function in society. A trained person can recognize this maniac before he strikes. We want also better and more mental institutions, so the diseased man perhaps can become well once more, and if not, he must be kept away. All of this can be brought down to the local level, for several years ago, in the Town I live, a demented man, released from an institution, killed a doctor, who had gone to his home, when called.

I want to compliment you on your selection of men on the new Commission to Combat Violence.

Sincerely,

"It Must Not Happen Again"

Americans have now awakened from a nightmare to find that is is all true. Yes. Senator Robert F. Kennedy is dead, and he was assassinated by a loathsome, cruel, inhuman and diseased man; a man who should have been taken off the streets and away from society before he had a chance to strike; a man who hated himself more than he hated society.

One's griefstricken reaction was that this must be a sick country. However, as the hours went by and one saw thousands and thousands of people, no matter what their political alliances were, heartbrokenly paying their respects, one knew immediately that this was not a sick country, but a country full of wonderful people, who should not be blamed for the crime of a diseased man. Many people are wondering how they can help to stop this contagious disease, a disease which is spreading all too rapidly; yet others are pondering what creates this type of beast.

It is the duty of every parent; every school; every citizen; and every man elected to public office to see that this does not happen again.

When a child comes into this world, he is born with a clean slate. However, he needs parents who will nurture him with love and with kindness; with understanding and encouragement; with recognition and respect; with honesty and with fairness, so that he can enter the outside world free of fear, of hate, of prejudice, of jealousy, of hostility, and with the feeling that the world is a nice place in which to live. For, when a child lives with hostility, he learns to fight; when a child lives with fear, he learns to be afraid; when a child lives with jealousy, he learns to hate; when a child lives with encouragement, he learns to be confident; when a child

lives with praise, he learns to be appreciative; when a child lives with love, he learns to love; when a child lives with recognition, he learns to have a goal; when a child lives with fairness, he learns justice; when a child lives with honesty, he knows what truth is; when a child lives with friendliness, he learns that the world is a nice place in which to live.

When parents have failed, then the country becomes infested with sick people. It is then the duty of the school to recognize this and take the necessary steps to help the child. This can only be done with an adequate amount of psychiatrists and psychologists in the school. The citizen can help by writing letters to his representative, asking him to help pass legislation enabling more money to be spent towards this end. The millions of dollars being sent to other countries, to help citizens there, while our citizens are dying on the streets, can be directed in large grants and scholarships to the young people, encouraging them to go into the fields of psychiatry and psychology and in mental hygiene. Trained people are needed desperately to detect the criminal before he strikes. The sick must be removed from the streets, before it is too late. More mental institutions are needed, and better conditions in the mental institutions, are needed, so that the sick can be treated and kept until they are well again, and not be released to repeat their attacks of violence.

The whole Nation must be attuned to the call of the young people, for they are crying out, saying: "Help us make this a Peaceful country, which in turn will bring peace to a chaotic world."

Dear Sir: My heart too is grieved this morning with the sad news of Sen. Kennedy's death. I realize the whole world is in a turmoil & confusion.

So many people asking--Why--Why ?

Why all this violence & confusion ?

But if you will open your BIBLE and read 2 Chronicles--chapter 7 and verse 14 , you will understand. As the LORD was speaking to Solomon in that day, HE is also speaking to AMERICA. GOD is being left out of the plans these days, and SELF put in the place of GOD. My PRAYER is-- May AMERICA turn back to GOD and once more be a GOD fearing & a GOD loving Nation, then HE will hear from HEAVEN and heal our land.

Sincerely--

Each Morning when I awake, I say-

I place my hand in GODs to-day

I know HE will stay close by my side

My every wondering step to guide,

HE leads me with the tenderest care,

When paths are dark, and I despair.

No need for me to underatand, if I but

held fast to HIS hand.

My hand in HIS, no surer way, to walk in

safety through each day.

By HIS great bounty I am fed, warmed by

HIS love and comforted.

When at ends day I seek my rest, and realize

how much I'm blest, My thanks go out

to HIM, and then, I place my hand

in GODs again.

*Comments on Assassination
of Sen RFK*
SH-69 6-18

June 6, 1968

Dear Mr. President,

John F. Kennedy, Martin Luther King, and now Robert F. Kennedy.....
all dead, all assassinated.

The first reaction of the nation was "Oh my God", immediately followed by "What is wrong with this country"? Quite contrary to popular opinion, there is nothing wrong with this country, or its society. This is truly the greatest country in the world. What then, you might ask, is killing the leaders of this great society? The answer to this question is quite logical, the killing is being done by ill-minded individuals. It is not a conspiracy, nor is it politically oriented, but rather a private endeavor waged by one hypercynical and insignificant individual, striving for ultimate recognition. The normal person strives for fame, this type of person feels that fame is impossible, but that infamy is definately within reach. He entertains the thought of total recognition, while almost overlooking the risks involved.

This type of person cannot be stopped by regulating the present arms laws (though it might help), nor can his infamous act be anticipated. He must be deprived of the goal for which he thrives..... recognition. This can be accomplished by omitting the assassin from public appearances, and by not divulging his name or personal statistics to the general public. By doing this, we are depriving this individual of his primary reason for committing this act, we are, in effect, truncating his motivation for infamous recognition.

Just as history records famous American heroes, it also records infamous heroes. We must ask ourselves if it is really essential that our children be taught such names as, John Wilkes Booth, or Lee Harvey Oswald.

If recognition is the assassin's nourishment, then the only possible solution is starvation.

Respectfully submitted,

Carl C. Beauchamp

Dear President Johnson,

This is not anything new with these killings. First it is President Kennedy - then Oswald - Dr. Luther King & now most important Robt. Kennedy. Can't you & your government see that the people in this country are truly sick. I mean mentally sick. You say you can't understand what you & the rest of the government can do to stop this sickness. What we need so very much is to bring in Billy Graham as an advisor - most of all we need to bring God back to this country. You are chief head of this government - then I think that you should insist & demand that all in this country should be forced to go back to church & God to pray for Kennedy. We need all the prayers we can get. It doesn't matter which church they go so long as they go & pray. The people of the U.S. are mentally sick since they strayed away from God & the church - & it will not change till they all decide to go back to God & church. It could happen to you - ^{anyone of} your congress - legislature & Senators. Anyone could just step out the door or inside & get it the same way Senator Kennedy got it without warning. Now I think that you should stop talking & do something drastic - so this won't get a chance (over)

to happen again! The time now is to stop
talking - but do something. Please try & get
Billy Graham to advice & ask his help so
we can try & save this country before it is
too late. Hoping & praying to God that you
will try & follow thru - that is if you really
care what happens to this country.

DEAR SIR,

ON THE MORNING OF JUNE 6, 1968 AT 1:44 PM. WE LOST OUR FUTURE PRESIDENT. AS YOU KNOW HE WAS ROBERT F. KENNEDY. HE WAS ASSASSANATED. HIS BROTHER, JOHN F. KENNEDY, WAS ASSASSANATED LESS THEN FIVE YEARS AGO. MAY GOD BE WITH BOTH OF THEM.

I ASK YOU PRESIDENT JOHNSON; WHAT HAS HAPPENED TO THE DEMOCRATIC AMERICA WE USE TO HAVE. THE THREE ASSASSANATIONS WE HAVE HAD WITHIN THE LAST FIVE YEARS HAS STRUCK PEOPLE MIGHTY HARD. ESPECIALLY YOU AND THE FAMILIES OF THE ASSASSANATED. ALL I KNOW IS THAT IT MUST STOP, IT MUST STOP!

THE COMMUNIST COUNTRIES HAVE LONG WANTED THIS. THEY WANT AMERICA TO RISE AGAINST ITSELF. IF WE DO, WHICH I PRAY NOT, THEY WILL STRIKE.

THE AMERICANS OF TODAY AND FOREVER MUST WORK TOGETHER NO MATTER WHAT THE RACE, WEALTH, OR SMARTNESS OR DUMBNESS. IF WE DON'T, IT MAY RESULT IN DOWNFALL, AMERICA'S DOWNFALL, THE "DEMOCRATIC" DOWNFALL.

I ASK THIS OF YOU, SEND ME SOME BOOKLETS + PICTURES ON SENATOR ROBERT F. KENNEDY. I WISH TO REMEMBER A MAN WHO DIED WINNING.

Dear President Johnson,

I am a middle-class, law-abiding citizen. I can't understand the present trend of this country. At the age of 45, I feel prehistoric in my respect of authority and discipline. My family and friends join me in horrified shock at the permissiveness displayed by authorities on our university campuses and in riot areas.

Yet to speak out against such lawlessness three days leads to a maligned brand of anti-humanitarian and anti-intellectual. I am guilty of neither.

I strongly support your statement that 200,000,000 Americans are not responsible for these murders and that violence will not be permitted in this country.

Dear President J. B. Johnson,

We are shocked the same as the
rest of the people of this country
of the death of Bobby Kennedy.
It seems to me you, Pres. of this
Country has more than your
share of trouble on your hands.
This Country is in a very bad
shape. We think the war in
Viet and Saigon is bad but it
is just as bad if not worse
here on the home front. ^{I do have} relatives in
the service.
I did not know Bobby Kennedy

For his brother John personally but
I have the good sense to know
they were two very good boys
and indeed intended to do good
for our Country. I do not think
such good people as these
brothers should die so young
and at the point of a gun.
They had good intentions but
I also know the people of our
Country are very ignorant and
do not realize when one is
trying to help them.

I believe this man ^{which} ~~was~~
murdered Robert Kennedy should
be put to death immediately

3/ if you are going to show
the people of our country
you have the power in your
hands to rule this country.
If I were President of this
Country or any other Country
I would take in to consideration
these to deaths in the Kennedy
family. I do believe this is
your only solution to end
vigilance in our country. Unless
action is taken immediately I
am afraid we are going to have
a war here on our own home

front. Jealousy and hatred
are mounting and it is getting
worse all along. I do not speak
only for myself but many feel
the same as I do. The only
difference is, I am taking the
time to write to you.

You must ^{put} to death this man
if you want to save our nation.
I have boys of my own, I have
3 grandchildren. I am not a
Crank I am speaking for our
people here at home. Jealousy &
hatred are worse than any sickness
known to man. Sincerely yours
Mrs. Kermit Rogers

Dear Mr. Johnson,

I am not one of your ardent admirers but I am glad to say I will always remember and be proud of the message you delivered when the late Senator Robert F. Kennedy was struck down.

News media has made the public believe that there is a great rift between the Kennedys and the Johnsons. I am now a non-believer of this rift. I was extremely moved by your delivery. You seemed very moved and upset by the entire happening. I have never heard your words filled with such strong feelings or emotions.

I hope that as your administration comes to an end, efforts, even though posthumous, will be made to make the dreams of the late Robert F. Kennedy and millions of other hopeful Americans very real.

Sincerely yours,
Miss Sandra E. Brown

Dear Mr. President,

This terrible tragedy,
that happened this pastures-

You speak of millions going
to bed hungry, every night
in America - why? -
we spend that on every
day missiles - going to the
moon, and this is really
'imperative'! Especially,
since we can't solve things

On this earth. A rich nation
that is 'poor' in a thousand
ways. I can't believe that
any man, be he Democratic,
or Republican, does not
have the biggest job on his
hands, being President of
these United States, could
or would not run for
such, unless he could
serve his Country to the
best of his ability - and
for no other reason.

May I suggest you

As I am writing this,

I hope and pray

Dear President Johnson -

I would imagine you shall receive many letters in view of past, recent events. My letter is to tell you I wish there were some way to help you bear the tremendous burdens of our times. Your face was etched in grief the other night when you spoke after Senator Kennedy's death. To me of us is bearing this alone, nor is his family. Millions of us feel the same lonely shocked feeling. All of us can, in his every day life, try to improve the tension which builds to violence. I know I have done some serious soul searching, and I shall do my best.

I know what this abrupt disruption of a family's life will do to you. Three years ago I wrote you to ask your help in achieving the transfer of my husband, a civil service worker in New Jersey, out here

to be near his parents in a time of serious family illness. With all the monumental problems you have, you took the time. We are happily settled here now, and each time I say a fervent thank God for our many blessings, I say an equally fervent thank God for you and your tremendous capacity for caring for others.

You and your family are in our thoughts and our prayers always. Please know always that you are not alone in your problems and decisions.

Sincerely

President Johnson has asked me to thank you for your letter at this time of terrible sorrow.

The President more than shares your concern over lawlessness in a country that has and must always draw strength from the decency and dedication of its people. In his words, there can be no justification for violence that tears at the fabric of our national life.

For many months the President has urged the Congress to enact stringent crime and gun control legislation. Hear President Johnson,

It is 6 AM in Denver, Colorado on the morning of June 9th, 1968.

After watching them bury Robert Kennedy on television yesterday, and knowing all of America was saddened by his death, but then the News came on, and said that Sirhan Sirhan was going to enter on the Insanity Plea. This was real upsetting to me, and I'm sure it was very upsetting to all who heard it. What on earth has happened to the words "Liberty and Justice for all?" Do they mean nothing these days?

I believe that violence first got its good start when prayer was banned from public schools. This gave the children a feeling that God was no longer important, but that school, work and money was much more to their advantage. And if they grow up with this idea, Mr President, ~~they~~ are sure not going to change their mind when they Graduate at the age of 18.

I believe that Americas' first step should be "To Put a Prayer back in Public Schools"

All of these assassinations even make me feel Violent inside, and stop and think, something has to be done for this Country before its too late, if its not already too late.

I am for the Anti-Gun Bill if it will help America, if You can really enforce it and take them away from the Bad guys along with the Good.

People say to me "Why write a letter to The President, he may not even read it, and it will probably end up in a trash can."

If that is America today, where one modest citizen cannot try to help, then America is even worse off than I thought.

Put Prayer Back in the Public School, I'm sure it will help curb Racial Violence, War and the Rising Crime Rate.

Next, get a law in that will
not let Killers off on the
"Insanity Plea", and sign the
Anti-Gun bill and enforce
it. I pray that America gets to be
a better place to live for all.

Very Sincerely,

Lyndon B. Johnson
President of the United States
Washington D.C.

Dear Mr President:

I am writing to you at this time because I feel in view of the tragedy that has just happened, that something very drastic should be done NOW to rid my country of undirables.

The congress and the senate are on trial for the unwanted slaying of Senator Kennedy, by reason of not tightening up on our immigration laws, it has and is too easy to get into our country.

Every one in washington ask what is happening to our country ? well this is self explanatory, STOP sweeping the dirt under rug, sweep it out the door instead.

When you keep this kind of element from getting in and properly cleaning house, these tragedies will not happen.

Furthermore put and end to these so called demonstrations, this country lived a long while without them, where there was there are violence.

There is too much talk about the guns, what about crazy people with automobiles, are you going to stop them also?

Stop nursing foreign nations, and bring our men back and clean house, do not ask these nations to give us respect, demand it we had this once, and I can not see why not now.

If washington wanted this nation to survive, they would close down these colleges and Universities to the young rebels that has infiltrated into them and causing trouble.

It should not make any difference who violates the law, they should be punished whether white, red, brown, yellow or green, whether whether or not catholic protestant, jewish or anything else.

The sheister attorneys that defend these criminals should be disbarred to practice law, these men are making it impossible for our law enforcement to operate, and also making a mockery of our courts.

As far as constitutional rights are concerned, a felon or any felonious acts performed by any individual, automatically loses his rights under the constitution, only the law abiding citizen is protected, these sheisters practicing law and using our constitution to get felons loose is deplorable.

I say again the Senators and the congressmen and all of our so called law makers are to blame for Senator Kennedy's death, and they if they have the decency do something NOW to rectify the present way of thinking.

This is a wonderful country I know because I am an american by four generations, and I am heart sick to think that a handful of individuals that control our destiny, are so neglectful in their judgement.

As I stated before, STOP sweeping the dirt under the rug, sweep it out the door, comb this nation for all ~~undesire-~~ undesirable, meaning all aliens without papers of citizenship, send them back to where they belong, close up our doors to make it hard to enter, then, and only then, will they really appreciate the United States

Wishing to express my deepest sympathy for the Kennedy family for their great loss I am

sincerely yours

Dear Mr. President:

K2
Having heard your comments on TV and radio June 5 to the effect that 200 million Americans are not responsible for the actions of this one man who perpetrated such a crime in Los Angeles on June 5, 1968, I wish you to know that I support your statement. It would appear that with now three assassinations a conspiracy is being perpetuated against the American public. How can the Attorney General dismiss this possibility so lightly? It is this sort of action that incurs the frustration of all good and decent Americans. Do we not have some control over what is to be investigated? Why do we need to have another commission to study the so-called ills of our society. A moral and legal law has been violated by one man - will we ever know why? Or For What Reason?

Yours truly,

President Lyndon B. Johnson
The White House
Washington, D.C.

Dear President Johnson:

I am a soon-to-be college graduate from Northern Illinois University, in DeKalb Illinois. As a result of the events of the past few days, I have begun to examine how and why, in my opinion, there can be so much violence in the United States today. Everyone seems to say that we are a "sick" society of violent people. I do not believe this, as I know you do not. Obviously, something has to be done soon, though. We are a great people and a great country, but we cannot tolerate the murders of such distinguished Americans as former President John F. Kennedy, Dr. Martin Luther King, and now, Senator Robert F. Kennedy. Also, we cannot stand by and watch countless other United States citizens killed in the same manner!

I admit that a strict gun control law will, most likely, curb this problem considerably. But, I don't think that this is playing a major role in the causes of these murders. I believe that it is due to a lack of an effective court system to deal with the people that commit these crimes. This is illustrated in the following two examples, where a man has murdered one or more people. The first deals with Lee H. Oswald, the alleged killer of President John F. Kennedy. This man was proved beyond a doubt to be at least one of the people who committed the crime. Then another man named Jack Ruby murdered Oswald. Now, my point is, that if Ruby had not

killed Oswald and if Ruby had not died in jail, that they would both still be alive and possibly free to walk our streets. This is the way it would have been, in our present system of court procedure.

My second example concerns Richard Speck, who was also proved beyond a doubt to have murdered eight nurses in Chicago. This man is still alive, and as I understand it, will remain so for some time. I am sorry to say that this will probably also be the outcome of the trials of Dr. King and Senator Kennedy's killers. Our lawyers advise these people of their constitutional rights and then say that if they admit anything, it can be used as evidence against them. Obviously, no one is going to say anything against himself, if a lawyer tells him this! What is wrong with us? Have we all gone crazy? Why in the name of decency can someone get away with this type of activity? It is no wonder that so many people commit crimes: they know that they won't be put in the electric chair, and that most likely, they will get off in a few years!

The sag in our system of laws is also seen in the doctor when he attempts to treat a person who has been seriously injured in a traffic accident. This doctor, who is trying to do nothing but save an innocent life, can be sued for all he has if anything goes wrong with the person who is injured. This is unbelievable, that this can occur in America!

Until our present system is changed to provide and enforce the elimination of killers and murderers from our country, the present crime rate will continue. Also, we should rid our laws of the clause which mentions that the accused should

not admit anything because it could be used as evidence against him. Why should a murderer be given a chance to protect his "rights" when he is known to have committed the crime in the first place? It should be the other way around. Everything possible should be found out in order to secure a complete case against the accused. If our laws do not get tougher in these cases, some people will commit murders just to become well known in our nation!

Our law and court system is in sad shape. We are not violent because we are a "sick" people. We are violent because criminals are not treated like criminals and are given rights which enables them to survive. All we do is sit around and say "How can this happen in America?" Well, it is going to continue this way until our laws are changed or until our lawyers stop defending convicted criminals. I would appreciate your explanation to me, Sir, as to why no one realizes or says anything in public, about what I have just mentioned. We have just got to make it rough on law-breakers. The success of our country stands on this premise.

Thank you very much for your time and consideration with my views. I would appreciate any comments you might have on these matters.

Sincerely yours,
Alan B. Wright Jr.

In the assassination of Senator Kennedy some of our greatest ideas have been crushed. Our hopes and desires have been greatly distorted. Nevertheless, the fact that he built our hopes to such a high degree of expectation has given us a value beyond measure and a new hope has now dawned that God will touch another heart to do the noble work which Senator Kennedy invisioned.

Dear Pres. Johnson & Vice Pres. Humphries,

I don't know if this will reach you or be handled by your secretaries. I don't know that I am even worthy to even try to write to anyone like you or not. I am only a housewife and mother of five children. We live only from day to day depending on God to provide the needs for that day. I'm not saying we ~~amass~~ the poverty stricken people of our nation, but we don't have much. Thanks to God we don't go hungry and we keep clothed. I'm only saying these things to show that I don't feel worthy to write what's on my heart. However, with God's help I shall try and let God use it as He wishes.

Senator Kennedy's death seems to be stirring people in many ways. I can't say that I was a Kennedy supporter, for I wasn't. To me it is just a warning from God. How many more ^{warnings} is our country going to have to have before we return to God. It is a tragedy to our country and now a family of almost eleven is without a father. All his millions cannot replace him in the lives of these children. Children need their fathers whether rich or poor. My heart goes out to them in their loss.

I'm afraid circumstances prevented us from registering in the last election. I am praying we will not lose

that opportunity this time. I will be very frank to admit that we have up to this time felt that we have had a very poor choice of candidates to choose from. Maybe not politically, ~~to~~ but there have been so few God fearing men to stand up for our country and to trust God to guide them in their duties which are so great in leading a nation.

Please don't misunderstand me. I do not believe in mixing religion and politics. I do believe a man's life ought to speak out by his actions his trust in God. His life ought to be such that all his people know without him saying a word religiously that he trusts God and is letting God show him the way and is helping him in his decisions. If late you seem to ~~show~~ showing more evidence in this direction.

To me it is so very sad to see the things that are happening in our nation. Race riots, hippies, drugs, addictions, crime on the increase, our youth ~~is~~ so confused and dissatisfied, even frightened. I'm afraid our forefathers would be terribly disappointed in our nation should they come back today. Sure we've material gains and educational program that are among the highest in the world. We've been one of the richest countries in the world. Today it grows harder and harder to keep your heads above water. We were advised 2 yrs ago to take bankruptcy. We refused, with God's help we are fighting with all we have to beat it and still feed and clothe our family. We would've gone down long ago if God hadn't been helping ~~us~~ so much. We have found since that our relatives and friends are having their struggles, too.

Our nation was founded on religious freedom. God fearing men established this great country.

and started it on its way, but they did not do it alone. Their faith in God and his guidance made this a land that all the people of the world looked up to and ~~came~~ for refuge. Today the world is losing respect for us. Our country is in turmoil within.

Every nation that has ever been destroyed by communism has been destroyed from within - not without. They are gaining such a foothold within our country today it is unbelievable. Only God can save our nation (Not a religion - but God). If you've spent any time studying your Bible and the history of Israel you can't fail to see great parallels to our country. Whenever Israel fell away from God they met with tremendous defeats and trials. I'm sure it is not too late for our nation if they will return to God now.

I suppose I sound ~~like~~ ^{like} a religious fanatic, but I'm not really. I'm an American whose first must serve God then my country. I'm a Christian and as such I owe my country my prayers and whatever little I can do to help it. I feel very strongly that if America would return to God, great things could happen to us. We could again become the nation our forefathers hoped for.

I believe we need Dr. Graham to lead our country in greater revivals than ever before. I think we need him as much or more than the rest of the world now as never before. "Physician, heal thyself. . . ." Luke 4: 23 & b. Our country needs spiritual healing. "If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways, then shall I hear from heaven, and

forgive their sin, and ^{heal} ~~heal~~ their land." II Chronicles 7:14. I truly believe this. I think Billy Graham and his team members should be asked to begin to lead in such an effort to return America to God. When Israel sinned, God sent the Kings to their knees and to their prophets to be restored to His favor.

If I'm a fanatic because I feel this way, I guess I shall have to be a fanatic. I surely do pray that God will guide you in each thing you have to do Pres. Johnson, and that He leads you Mr. Humphries as you campaign for the job as our next President. It is a tremendous responsibility. I should not want to trade places with you at all, but surely want to do anything I can to make your job easier. (although I don't know anyway I can expect to pray for you. I am too aware that a housewife isn't much help to the president & vice president of her nation!).

May God richly bless you and lead you according to His will in bringing this nation to its knees before God.

Sincerely (a child of God first & fellow American
next)

Dear Mr. Crane:

President Johnson has asked me to thank you for your letter at this time of terrible sorrow.

The President more than shares your concern over lawlessness in a country that has and must always draw strength from the decency and dedication of its people. In his words, there can be no justification for violence that tears at the fabric of our national life.

For many months the President has urged the Congress to enact stringent crime and gun control legislation. Of immediate importance, you may want to read in full his remarks of June 5 and June 10 on combatting and inquiring into the causes of violence. Lyndon B. Johnson
President of the United States
The White House
Washington, D. C.

Dear Mr. President:

This is another sorrowful day in the unfolding history of our great Country. Sorrowful because presidential candidate Robert Kennedy has been shot, but, perhaps, more sorrowful because we now have a further symptom of the ill state of American psychological health. I join you in your concern for the spirit of violence which prevails in this Country, indeed in the whole world, today.

In spite of all the instances of violence in our recent history, and in spite of many warnings from concerned, well trained, intelligent people, we continue to imbue the citizens of the United States with the spirit of violence. In short, we have trained the people of our country to act violently; they are acting violently; we must begin to train our people to act humanely.

I urge you to exert your influence to cause our presently most effective educational medium, television, to stop inculcating violence as a way of life in our people. Influence the television industry, even more, to project positive values; as: humane ideals, kindness, peace-making. Suggest an immediate White House Conference of all leaders in the Television Industry to cause these men to consider the national interests as the most important factor in their programming procedures.

May God bless you, Mr. President.

Respectfully yours,

President L.B. Johnson and

To the editor of the Post Standard:

For years I have read completely the columns of Drew Pearson, Inez Robb, Joseph Alsop, John Chamberlain and many others that appear frequently in the Post Standard.

I have noticed that since Robert F. Kennedy began his campaign for president, the first three aforementioned columnists, have persistently made many uncomplimentary remarks about our murdered presidential aspirant.

The fact that Sirhan B. Sirhan, a native of Jordan, who was captured and is now accused of the murder of the successful candidate in California, had "Hate Kennedy" notes in his possession, when arrested, makes me wonder if he may not have been inspired by what he had read in these syndicated columns.

Granted these authors had every right to their own opinions, regarding the qualifications of a presidential candidate, they should all look twice, in their future columns, before expressing themselves in Daily newspapers, now that tragedy has again struck the Kennedy Family.

They could have been responsible, in part, for the hatred developed by the accused killer, but I hope not.

After reading today's (June 6) Lead editorial in your paper, plus Drew Pearson column, also in today's issue entitled "Control of guns still rejected", I believe a Federal Gun Control Law should be enacted immediately, that would require within 90 days, the registration of every hand gun, rifle, shotgun, sub-machine gun owned by every citizen and police officer in the U.S.A. with penalties of no less than 5 years imprisonment anyone failing to comply with the law, if caught using any kind of gun, rifle etc. (for any purpose, hunting included) without proof of registration.

The law should also include a mandatory 5 year prison sentence for anyone caught carrying a switch-blade knife or any other form of concealed lethal weapon and 10 years imprisonment for any one convicted of commission of a crime, using such weapons.

I know the National Rifle Association and other sportsmen's groups will disagree with me, but to curb our present lawlessness and violence, it is necessary to inconvenience the legitimate owners of weapons, to trap the illegal owners.

I cannot understand why any organization should object to this type of law and I expect to pay a small registration fee, not to exceed \$1.00 to help pay for cost of administrating this law, so Americans can feel safe to walk the streets in our cities.

I hereby volunteer to reveal I own a 25 caliber rifle of Italian make, purchased locally in a discount store as war surplus, a few years ago that bears the serial number 1936 XIV Eretta Cardone No. D 53373. I also purchased 25 cartridges, have fired one and have 24 left.

How about the rest of the legitimate owners revealing the number of weapons and serial numbers of the guns they own, the others will eventually be caught, if Congress will get busy on the number one legislation we need immediately.

My dear President -

(I hope as I write this letter that Pres. Johnson at least hears about it - and at this time I wish that millions of other mothers from all over this America would write.)

I am from the mid-west a mother of 6 children. and only God knows what kind of a world I have brought these 6 children into. But Mr. Johnson - I feel you could do much too alleviate some of the terrible things that are happening in one of the greatest countries in the world. Please, please Mr. Johnson - I call on you and the Holy Spirit to make this country right again. I as a simple mother

feel I have to take care
of my own family when
they are troubled and you
as the Father (so to speak)
of our country much take
care of our country. I feel
the time has come to
quit reaching out to help
all our neighbors - we have
enough trouble right here
in our own family.

Bobby Kennedy was shot to-
day - he was not my Candidate
for Pres. but he was my
brother - he was our family
wasnt he Mr. President?
God - pray he pulls through.

All I ask - is we rid
this country (I did not say
the world) of violence,
communist control - what lets
face it Pres. Johnson - we
are being controlled by something
more powerful than our

wonderful American standards.
We are being taken over -
you know it. I know it.
Pres. Jack Kennedy's death was
not by just some nut - Martin
Luther King's was not by some
kook - nor last night Kennedy's
was not just a spur of the
moment thing - we are being
invaded and I think we all
know it.

Please Mr. Johnson - Call on
all your powers - I love you
I trust you and right now
I and millions of Mothers
are depending upon you.

I ~~was~~ didn't feel at one
time I trusted Pres. De Gaulle
but he didn't fool around.
Last week did he?

Maybe we should get tough!
Before it's too late. They won't
have too drop a bomb on
America - they will just kill
all our leaders and that
should throw the country into

have.

I pray for you in all
my masses Mr. President.

I admire you and my
heart goes out to you.

I know your burden has
been terribly hard. But
let's get busy and turn
the steer off before it
turns.

A Mother who loves
her American family -

Dear Mr. President:

During the last six years, since Oxford, Mississippi, I have become increasingly concerned about our nation's welfare. Robert Kennedy's assassination has left me, as I hope it has left all Americans, in an extremely distressed state. I have thought long and hard these last five days and I wish to convey some of those thoughts to you.

I know that you advocate strong gun laws but I want to implore you to do all that is possible to get those laws through the two houses. It appears to me that the National Rifle Association, through its lobby, is about to the point where it will take the legislative prerogative away from the legislature.

Secondly, I want to express my concern about some of the Supreme Court decisions regarding criminal codes. It is tragic irony that two days before Senator Kennedy was shot, the Court made a decision that probably will make it impossible to convict and penalize his killer. That decision was only one of several that have been made that gives the minority criminal the advantage over the majority citizen. A decision of the Supreme Court is, of course, the law of the land but is there not some way that the executive and/or the legislative branch can constitutionally reverse the dangerous trend that has been set by the court? There can be only one result if the present trend continues-the vigilante committee. This must not come to pass, for if it does, our nation will cease to exist. Anarchy almost rules now but if vigilantism appears on a national scale, what we have seen now cannot compare to what we will see.

While I am writing, I would like to express my opinion on another matter also. Ever since your March 31 announcement, I have been distressed over your intention not to seek the nomination. Perhaps I can best express my feelings on that by using the symbolization of another time. When I was eleven, in 1944, FDR's campaign slogan was, "Don't change horses in mid-stream". Now, if you will permit a symbolization that is not meant to be offensive, the horse is requesting a replacement to carry the rider on across the stream.

Very truly yours,

Carlton L. Guidry

Dear Mrs. Sutton:

President Johnson has asked me to thank you for your letter at this time of terrible sorrow.

The President more than shares your concern over lawlessness in a country that has and must always draw strength from the decency and dedication of its people. In his words, there can be no justification for violence that tears at the fabric of our national life.

For many months the President has urged the Congress to enact stringent crime and gun control legislation. Of immediate importance, you may want to read in full his remarks of June 5 and June 10 on combatting and inquiring into the causes of violence. The enclosed copies come to you with the President's appreciation for your interest.

President Johnson

Dear Sir,

I am from the fifth grade
and I am writing about the
problems our country is
having.

I believe that we,
our country should have
more respect for our
countries police. I heard
on T.V. people blaming
the police for Kennedy's
being shot and not being
there during the
assassination.

I should think
nobody would bail the
man who shot
Kennedy out of jail.
I believe this because
someone is surely
going to try and kill the

man. If anyone does
pull him out that
person is surely going
to get in the same
trouble.

I was wishing
that Senator Kennedy
would pull through
and live. But his
death has come and
I'm surely hoping that
no more tragedy comes
to the Kennedys.

His family is "so rich,
yet so poor!"

I also want
a president just like
you. I would also
want you to protect
McCarthy, Humphrey, and
every other candidate.

Sincerely, Sonia S. Wong

Dear Sir,

I am concerned about the assassination of Senator Kennedy. I think that Sirhan Sirhan should be charged with third degree murder and five charges of attempted murder. I think there should be more secret service men at the doors to check for guns.

I am very concerned about the assassination of Senator Kennedy. I am going to tell you what I think about this. I think that Senator Kennedy took a big risk of not having much protection. Dear Sir:

We're concerned about the assassination of Senator Kennedy: I personally think there shouldn't be any firearms unless they have proper identification like the police or the secret service. Also they should be trusted or take the gun away. Important public gatherings should be well guarded. If they have some identification or a permission card they are able to enter. I feel bad about the assassination and the family.

Sincerely yours,

Dear sir,

I am very concerned about the assassination of Senator Robert F. Kennedy. I hear that his assassin, Serhan Serhan, came in from the kitchen door. The problem that I think should be solved is that every door of a gathering place should be guarded at all times, so that nobody else comes in. That comes to another problem: The people who come to the gathering must be checked to see if any arms might be on them. If any, the police officers should take them away and have a talk with the people who had them on why, for any reason they would have them. Policemen must have an identification card to show that they are policemen. That goes for the rest of the people too.

Give my regards to the Kennedy family.

Sincerely Yours,

When Kennedy's assassination was heard on T.V. you knew how many people loved him. I think the man who shot Kennedy should not have a bail because people who murder should be sentenced for life. Well it wouldn't matter because the people would get him anyway. I think Kennedy was very brave because he didn't have secret service agents.

Dear Sir,

We're concerned about the assassination of Senator Kennedy. I personally don't think anyone should be aloud in a public gathering without being checked for a gun. Also the judicial systym should be greater because my father told me about a man who stole some bread and was put in jail, and a man who stole a car, was let go. We feel terribly bad for his family. I think there should be a stricter law about guns and who gets them. We know it must be hard to run the U.S. but to keep it running I think we should have stricter laws.

Permission must be obtained to reprint any part of "Planet Earth" magazine.

Statement of Purpose

The purpose of this magazine is to pursue truth - to develop opportunities
for expression - and to keep a sense of humor.

To this end we shall not be afraid to question, to search - and to smile.

EDITORIAL NOTES

- A. The following Statement of Support by "Resist" on page 4, represents one of the steps of the path that Rev. Martin Luther King, Jr., set out for us to follow.

Let us therefore not be afraid to take the one small step on this noble path.

- B. The two poems, "Sorrowful Sights" by Ed Roberts, and "In Memoriam" by Cathy Greenridge on pp. 5-6, represent the thoughts of two young writers, reflecting upon problems that face the youth of today.

Although these young writers may not agree with each other, they nevertheless reflect to a large extent the fears, aspirations and anxieties of today's youth.

- C. Because of its importance, timeliness and the fact that it has gone virtually unreported, "Planet Earth" Magazine is most pleased to present as a major part of this special issue, U.S. Senator J. W. Fulbright's most significant speech, "The Price of Empire", commonly known as "The Sick Society". We also wish to thank Senator Fulbright for his encouraging permission to reprint his speech.

STATEMENT OF SUPPORT FOR:

BENJAMIN SPOCK, MICHAEL FERBER,

WILLIAM SLOANE COFFIN, MARCUS RASKIN, MITCHELL GOODMAN

We stand beside the men who have been indicted for support of draft resistance. If they are sentenced, we, too, must be sentenced. If they are imprisoned, we will take their places and will continue to use what means we can to bring this war to an end.

We will not stand by silently as our government conducts a criminal war. We will continue to offer support as we have been doing to those who refuse to serve in Vietnam and to those indicted men and all others who refuse to be passive accomplices in war crimes. The war is illegitimate and our actions are legitimate.

SORROWFUL SIGHTS By Ed Roberts 4/8/68

I spied an old beggar man, on the roadside he was lyin
His heart it was heavy, tears of blood he was cryin,
I knelt down along side him and asked what grieved him,
"What sorrowful sights have your eyes been a-seein?"
He glanced up at me and clasped my hand tightly,
Said, "I'll tell you the visions that are haunting me nightly."

"I've travelled this world from the east to the west,
Seein nothin but hatred, deceit and unrest.
I saw seven Negroes, their bodies in chains,
Their skin was a-bleedin from their unholy reins.
Their pride it was raped by some white men's preachings,
Their backs they were scarred by some white men's whippings."

"I saw a fair damsel dressed all in white satin,
Virgin of womanhood - she claimed to be queen.
Her lustful desires met no satisfaction,
Possessing at will what e'er could be seen.
Homage was paid her and glory given,
By those who needed an idol to worship."

"I saw three ravens on a black branch a-sittin,
The trio was starin at a young solder's corpse.
They lighted aside him and started a-diggin
A grave for the lad who had died in a war
Of meaningless causes and multiple horrors."

"I saw a young babe a-weepin and wailin
For love and affection of which she had none.
Her bare body quivered with signs of emotion.
Her arms stretched outward for some sign of attention.
A stranger at three years and twenty-one days,
A child forlorn, left alone in life's maze."

"I saw a whole city burnt black as the night.
Huge empty skeletons consuming my sight.
Bodies grown cold lay beneath the bent steel,
Killed by the sword they intended to wield,
To cut themselves free from oppression and hate,
And now to realize the truth ----- is too late."

"These sights and more in my life I have seen,
Depressing as death and sad as lost dreams.
My faith in mankind lies in today's youths
To benefit humanity and utilize truth.
Tis their goal, their quest to be conquered and won,
To right all wrongs, to live as but one,
For I am no longer, my time it is done."

I rose from the dead man with tears in my eyes,
Wondering why all men have to die.
Perhaps death saves them from long sleepless nights
Of infinite nightmares of sorrowful sights.

Killed In Action - March 31, 1968

My husband's brother, Michael
Died Sunday in Vietnam
Just recently having written
"I'm happy where I am!"
'Don't believe half of the stuff
You may hear or read
You've just got to be there
To see the want...the need.'
He wasn't afraid of dying
He believed he was doing some good
In helping those people
As much as he possibly could
"What they've done to these people"
Is too much to explain
To see these children...these elders
Suffering torture and pain.
If you people at home
Would really concentrate
You'd see how very lucky you are
How very fortunate'
All this I gathered from his letters
Which were like him...so full of life
And the harder it got
The more he would strive
I would never stop to say
That Michael died in vain
Knowing him...anyone could see
He would gladly do it again.

THE PRICE OF EMPIRE

Standing in the smoke and rubble of Detroit, a Negro veteran said: "I just got back from Vietnam a few months ago, but you know, I think the war is here."

There are in fact two wars going on. One is the war of power politics which our soldiers are fighting in the jungles of southeast Asia. The other is a war for America's soul which is being fought in the streets of Newark and Detroit and in the halls of Congress, in churches and protest meetings and on college campuses, and in the hearts and minds of silent Americans from Maine to Hawaii. I believe that the two wars have something to do with each other, not in the direct tangibly causal way that bureaucrats require as proof of a connection between two things, but in a subtler, moral and qualitative way that is no less real for being intangible. Each of these wars might well be going on in the absence of the other, but neither, I suspect, standing alone, would seem so hopeless and demoralizing.

The connection between Vietnam and Detroit is in their conflicting and incompatible demands upon traditional American values. The one demands that they be set aside, the other that they be fulfilled. The one demands the acceptance by America of an imperial role in the world, or of what our policy makers like to call the "responsibilities of power," or of what I have called the "arrogance of power." The other demands freedom and social justice at home, an end to poverty, the fulfillment of our flawed democracy, and an effort to create a role for ourselves in the world which is compatible with our traditional values. The question, it should be emphasized, is not whether it is possible to engage in traditional power politics abroad and at the same time to perfect democracy at home, but whether it is possible for us Americans, with our particular history and national character, to combine morally incompatible roles.

Administration officials tell us that we can indeed afford both Vietnam and the Great Society, and they produce impressive statistics of the gross national product to prove it. The statistics show financial capacity but they do not show moral and psychological capacity. They do not show how a President preoccupied with bombing missions over North and South Vietnam can provide strong and consistent leadership for the renewal of our cities. They do not show how a Congress burdened with war costs and war measures, with emergency briefings and an endless

series of dramatic appeals, with anxious constituents and a mounting anxiety of their own, can tend to the workaday business of studying social problems and legislating programs to meet them. Nor do the statistics tell how an anxious and puzzled people, bombarded by press and television with the bad news of American deaths in Vietnam, the "good news" of enemy deaths -- and with vividly horrifying pictures to illustrate them -- can be expected to support neighborhood anti-poverty projects and national programs for urban renewal, employment and education. Anxiety about war does not breed compassion for one's neighbors; nor do constant reminders of the cheapness of life abroad strengthen our faith in its sanctity at home. In these ways the war in Vietnam is poisoning and brutalizing our domestic life. Psychological incompatibility has proven to be more controlling than financial feasibility; and the Great Society has become a sick society.

I Imperial Destiny and the American Dream

When he visited America a hundred years ago, Thomas Huxley wrote: "I cannot say that I am in the slightest degree impressed by your bigness, or your material resources, as such. Size is not grandeur, and territory does not make a nation. The great issue, about which hangs the terror of overhanging fate, is what are you going to do with all these things?"

The question is still with us and we seem to have come to a time of historical crisis when its answer can no longer be deferred. Before the Second World War our world role was a potential role; we were important in the world for what we could do with our power, for the leadership we might provide, for the example we might set. Now the choices are almost gone: we are almost the world's self-appointed policeman; we are almost the world defender of the status quo. We are well on our way to becoming a traditional great power -- an imperial nation if you will -- engaged in the exercise of power for its own sake, exercising it to the limit of our capacity and beyond, filling every vacuum and extending the American "presence" to the farthest reaches of the earth. And, as with the great empires of the past, as the power grows, it is becoming an end in itself, separated except by ritual incantation from its initial motives, governed, it would seem, by its own mystique, power without philosophy or purpose.

That describes what we have almost become, but we have not become a traditional empire yet. The old values remain -- the populism and the optimism, the individualism and the rough-hewn equality, the friendliness and the good humor, the inventiveness and the zest for life, the caring about people and the sympathy for the underdog, and the idea, which goes back to the American Revolution, that maybe -- just maybe -- we can set an example of democracy and human dignity for the world.

That is something which none of the great empires of the past has ever done -- or tried to do -- or wanted to do -- but we were bold enough -- or presumptuous enough -- to think that we might be able to do it. And there are a great many Americans who still think we can do it -- or at least they want to try.

That, I believe, is what all the hue and cry is about -- the dissent in the Senate and the protest marches in the cities, the letters to the President from student leaders and former Peace Corps volunteers, the lonely searching of conscience by a student facing the draft and the letter to a Senator from a soldier in the field who can no longer accept the official explanations of why he has been sent to

fight in the jungles of Vietnam. All believe that their country was cut out for something more ennobling than an imperial destiny. Our youth are showing that they still believe in the American dream, and their protests attest to its continuing vitality.

There appeared in a recent issue of the journal Foreign Affairs a curious little article complaining about the failure of many American intellectuals to support what the author regards as America's unavoidable "imperial role" in the world. The article took my attention because it seems a faithful statement of the governing philosophy of American foreign policy while also suggesting how little the makers of that policy appreciate the significance of the issue between themselves and their critics. It is taken for granted -- not set forth as an hypothesis to be proven -- that, any great power, in the author's words, "is entangled in a web of responsibilities from which there is no hope of escape," and that "there is no way the United States, as the world's mightiest power, can avoid such an imperial role. . .".¹ The author's displeasure with the "intellectuals" -- he uses the word more or less to describe people who disagree with the Administration's policy -- is that, in the face of this alleged historical inevitability, they are putting up a disruptive, irritating and futile resistance. They are doing this, he believes, because they are believers in "ideology" -- the better word would be "values" or "ideals" -- and this causes their thinking to be "irrelevant" to foreign policy.

Here, inadvertently, the writer puts his finger on the nub of the current crisis. The students and churchmen and professors who are protesting the Vietnam war do not accept the notion that foreign policy is a matter of expedients to which values are irrelevant. They reject this notion because they understand, as some of our policy makers do not understand, that it is ultimately self-defeating to "fight fire with fire," that you cannot defend your values in a manner that does violence to those values without destroying the very thing you are trying to defend. They understand, as our policy makers do not, that when American soldiers are sent, in the name of freedom, to sustain corrupt dictators in a civil war, that when the CIA subverts student organizations to engage in propaganda activities abroad, or when the Export-Import Bank is used by the Pentagon to finance secret arms sales abroad, damage -- perhaps irreparable damage -- is being done to the very values that are meant to be defended. The critics understand, as our policy makers do not, that, through the undemocratic expedients we have adopted for the defense of American democracy, we are weakening it to a degree that is beyond the resources of our bitterest enemies.

Nor do the dissenters accept the romantic view that a nation is powerless to choose the role it will play in the world, that some mystic force of history or destiny requires a powerful nation to be an imperial nation, dedicated to what Paul Goodman calls the "empty system of power,"² to the pursuit of power without purpose, philosophy or compassion. They do not accept the Hegelian concept of history as something out of control, as something that happens to us rather than something that we make. They do not accept the view that, because other great

nations have pursued power for its own sake -- a pursuit which invariably has ended in decline or disaster -- America must do the same. They think we have some choice about our own future and that the best basis for exercising that choice is the values on which this republic was founded.

The critics of our current course also challenge the contention that the traditional methods of foreign policy are safe and prudent and realistic. They are understandably skeptical of their wise and experienced elders who, in the name of prudence, caution against any departure from the tried and true methods that have led in this century to Sarajevo, Munich and Dien Bien Phu. They think that the methods of the past have been tried and found wanting, and two world wars attest powerfully to their belief. Most of all, they think that, in this first era of human history in which man has acquired weapons which threaten his entire species with destruction, safety and prudence and realism require us to change the rules of a dangerous and discredited game, to try as we have never tried before to civilize and humanize international relations, not only for the sake of civilization and humanity but for the sake of survival.

Even the most ardent advocates of an imperial role for the United States would probably agree that the proper objective of our foreign policy is the fostering of a world environment in which we can, with reasonable security, devote our main energies to the realization of the values of our own society. This does not require the adoption or imposition of these values on anybody, but it does require us so to conduct ourselves that our society does not seem hateful and repugnant to others.

At present much of the world is repelled by America and what America seems to stand for in the world. Both in our foreign affairs and in our domestic life we convey an image of violence; I do not care very much about images as distinguished from the things they reflect, but this image is rooted in reality. Abroad we are engaged in a savage and unsuccessful war against poor people in a small and backward nation. At home -- largely because of the neglect resulting from twenty-five years of preoccupation with foreign involvements -- our cities are exploding in violent protest against generations of social injustice. America, which only a few years ago seemed to the world to be a model of democracy and social justice, has become a symbol of violence and undisciplined power.

"... it is excellent," wrote Shakespeare, "to have a giant's strength; but it is tyrannous to use it like a giant."³ By using our power like a giant we are fostering a world environment which is, to put it mildly, uncongenial to our society. By our undisciplined use of physical power we have divested ourselves of a greater power: the power of example. How, for example, can we commend peaceful compromise to the Arabs and the Israelis when we are unwilling to suspend our relentless bombing of North Vietnam? How can we commend democratic social reform to Latin America when Newark, Detroit and Milwaukee are providing explosive evidence of our own inadequate efforts at democratic social reform? How can we commend the free enterprise system to Asians and Africans when in our own country it has produced vast, chaotic, noisy, dangerous and dirty urban complexes while poisoning the very air and land and water? There may come a time when Americans will again be able to commend their country as an example to the world and, more in hope than confidence, I retain my faith that there will; but to do so right at this moment would take more gall than I have.

3. Measure for Measure, Act II, Scene 2, Line 107.

Far from building a safe world environment for American values, our war in Vietnam and the domestic deterioration which it has aggravated are creating a most uncongenial world atmosphere for American ideas and values. The world has no need, in this age of nationalism and nuclear weapons, for a new imperial power, but there is a great need of moral leadership -- by which I mean the leadership of decent example. That role could be ours but we have vacated the field, and all that has kept the Russians from filling it is their own lack of imagination.

At the same time, as we have noted, and of even greater fundamental importance, our purposeless and undisciplined use of power is causing a profound controversy in our own society. This in a way is something to be proud of. We have sickened but not succumbed and just as a healthy body fights disease, we are fighting the alien concept which is being thrust upon us, not by history but by our policy makers in the Department of State and the Pentagon. We are proving the strength of the American dream by resisting the dream of an imperial destiny. We are demonstrating the validity of our traditional values by the difficulty we are having in betraying them.

The principal defenders of these values are our remarkable younger generation, something of whose spirit is expressed in a letter which I received from an American soldier in Vietnam. Speaking of the phony propaganda on both sides, and then of the savagery of the war, of the people he describes as the "real casualties" -- "the farmers and their families in the Delta mangled by air strikes, and the villagers here killed and burned out by our friendly Korean mercenaries" -- this young soldier then asks ". . . whatever has become of our dream? Where is that America that opposed tyrannies at every turn, without inquiring first whether some particular forms of tyranny might be of use to us? Of the three rights which men have, the first, as I recall, was the right to life. How then have we come to be killing so many in such a dubious cause?"

II The Sick Society

While the death toll mounts in Vietnam, it is mounting too in the war at home. During a single week of July 1967, 164 Americans were killed and 1,442 wounded in Vietnam, while 65 Americans were killed and 2,100 were wounded in city riots in the United States. We are truly fighting a two-front war and doing badly in both. Each war feeds on the other and, although the President assures us that we have the resources to win both wars, in fact we are not winning either.

Together the two wars have set in motion a process of deterioration in American society and there is no question that each of the two crises is heightened by the impact of the other. Not only does the Vietnam war divert human and material resources from our festering cities; not only does it foster the conviction on the part of slum Negroes that their country is indifferent to their plight. In addition the war feeds the idea of violence as a way of solving problems. If, as Mr. Rusk tells us, only the rain of bombs can bring Ho Chi Minh to reason, why should not the same principle apply at home? Why should not riots and snipers' bullets bring the white man to an awareness of the Negro's plight when peaceful programs for housing and jobs and training have been more rhetoric than reality? Ugly and shocking thoughts are in the American air and they were forged in the Vietnam crucible. Black power extremists talk of "wars of liberation" in the urban ghettos of America. A cartoon in a London newspaper showed two Negro soldiers in battle in Vietnam with one saying to the other: "This is going to be great training for civilian life."

The effect of domestic violence on the chances for peace in Vietnam may turn out to be no less damaging than the impact of the war on events at home. With their limited knowledge of the United States, the Vietcong and the North Vietnamese may regard the urban riots as a harbinger of impending breakdown and eventual American withdrawal from Vietnam, warranting stepped up warfare and an uncompromising position on negotiations. It is possible that the several opportunities to negotiate which our government has let pass, most recently last winter, could not now be retrieved. Some eighteen months ago General Maxwell Taylor said in testimony before the Senate Foreign Relations Committee that the war was being prolonged by domestic dissent. That dissent was based in part on apprehension as to the effects of the war on our domestic life. Now the war is being prolonged by the domestic deterioration which has in fact occurred and it is doubtful that all of the dissenters in America, even if they wanted to, as they certainly do not, could give the enemy a fraction of the aid and comfort that has been given him by Newark, Detroit and Milwaukee.

An unnecessary and immoral war deserves in its own right to be liquidated; when its effect in addition is the aggravation of grave problems and the corrosion of values in our own society, its liquidation under terms of reasonable and honorable compromise is doubly imperative. Our country is being weakened by a grotesque inversion of priorities, the effects of which are becoming clear to more and more Americans -- in the Congress, in the press and in the country at large. Even the Washington Post, a newspaper which has obsequiously supported the Administration's policy in Vietnam, took note in a recent editorial of the "ugly image of a world policeman incapable of policing itself" as against the "absolute necessity of a sound domestic base for an effective foreign policy," and then commented: "We are confronted simultaneously with an urgent domestic crisis and an urgent foreign crisis and our commitments to both are clear. We should deal with both with all the energy and time and resources that may be required. But if the moment ever arises when we cannot deal adequately and effectively with both, there is no shame -- and some considerable logic -- in making it plain beyond a doubt that our first consideration and our first priority rests with the security of the stockade."⁴.

Commenting on the same problem of priorities, Mayor Cavanaugh of Detroit said:

"What will it profit this country if we, say, put our man on the moon by 1970 and at the same time you can't walk down Woodward Avenue in this city without some fear of violence?

"And we may be able to pacify every village in Vietnam, over a period of years, but what good does it do if we can't pacify the American cities?

"What I am saying . . . is that our priorities in this country are all out of balance . . . Maybe Detroit was a watershed this week in American history and it might well be that out of the ashes of this city comes the national resolve to do far more than anything we have done in the past."⁵.

4. The Washington Post, July 27, 1967

5. Comments on "Meet the Press," reported in The Washington Post, July 31, 1967.

Priorities are reflected in the things we spend money on. Far from being a dry accounting of bookkeepers, a nation's budget is full of moral implications; it tells what a society cares about and what it does not care about; it tells what its values are.

Here are a few statistics on America's values: Since 1946 we have spent over \$1,578 billion through our regular national budget. Of this amount over \$904 billion, or 57.29 percent of the total, have gone for military power. By contrast, less than \$96 billion, or 6.09 percent, were spent on "social functions" including education, health, labor and welfare programs, housing and community development. The Administration's budget for fiscal year 1968 calls for almost \$76 billion to be spent on the military and only \$15 billion for "social functions."

I would not say that we have shown ourselves to value weapons five or ten times as much as we value domestic social needs, as the figures suggest; certainly much of our military spending has been necessitated by genuine requirements of national security. I think, however, that we have embraced the necessity with excessive enthusiasm, that the Congress has been all too willing to provide unlimited sums for the military and not really very reluctant at all to offset these costs to a very small degree by cutting away funds for the poverty program and urban renewal, for rent supplements for the poor and even for a program to help protect slum children from being bitten by rats. Twenty million dollars a year to eliminate rats -- about one-one hundredth of the monthly cost of the war in Vietnam -- would not eliminate slum riots but, as Tom Wicker has written, "It would only suggest that somebody cared."⁶ The discrepancy of attitudes tells at least as much about our national values as the discrepancy of dollars.

III The Regenerative Power of Youth

While the country sickens for lack of moral leadership, a most remarkable younger generation has taken up the standard of American idealism. Unlike so many of their elders, they have perceived the fraud and sham in American life and are unequivocally rejecting it. Some, the hippies, have simply withdrawn, and while we may regret the loss of their energies and their sense of decency, we can hardly gainsay their evaluation of the state of society. Others of our youth are sardonic and skeptical, not, I think, because they do not want ideals but because they want the genuine article and will not tolerate fraud. Others -- students who wrestle with their consciences about the draft, soldiers who wrestle with their consciences about the war, Peace Corps volunteers who strive to light the spark of human dignity among the poor of India or Brazil, and VISTA volunteers who try to do the same for our own poor in Harlem or Appalachia -- are striving to keep alive the traditional values of American democracy.

They are not really radical, these young idealists, no more radical, that is, than Jefferson's idea of freedom, Lincoln's idea of equality, or Wilson's idea of a peaceful community of nations. Some of them, it is true, are taking what many regard as radical action, but they are doing it in defense of traditional values and in protest against the radical departure from those values embodied in the idea of an imperial destiny for America.

The focus of their protest is the war in Vietnam and the measure of their

6. The New York Times, July 23, 1967.

integrity is the fortitude with which they refused to be deceived about it. By striking contrast with the young Germans who accepted the Nazi evil because the values of their society had disintegrated and they had no moral frame of reference, these young Americans are demonstrating the vitality of American values. They are demonstrating that, while their country is capable of acting falsely to itself, it cannot do so without internal disruption, without calling forth the regenerative counterforce of protest from Americans who are willing to act in defense of the principles they were brought up to believe in.

The spirit of this regenerative generation has been richly demonstrated to me in letters from student leaders, from former Peace Corps volunteers and from soldiers fighting in Vietnam. I quoted from one earlier in my remarks. Another letter that is both striking and representative was written by an officer still in Vietnam. He wrote:

"For eleven years I was, before this war, a Regular commissioned officer -- a professional military man in name and spirit; now -- in name only. To fight well (as do the VC), a soldier must believe in his leadership. I, and many I have met, have lost faith in ours. Since I hold that duty to conscience is higher than duty to the administration (not 'country' as cry the nationalists), I declined a promotion and have resigned my commission. I am to be discharged on my return, at which time I hope to contribute in some way to the search for peace in Vietnam."

Some years ago Archibald MacLeish characterized the American people as follows:

"Races didn't bother the Americans. They were something a lot better than any race. They were a People. They were the first self-constituted, self-declared, self-created People in the history of the world. And their manners were their own business. And so were their politics. And so, but ten times so, were their souls."⁸

Now the possession of their souls is being challenged by the false and dangerous dream of an imperial destiny. It may be that the challenge will succeed, that America will succumb to becoming a traditional empire and will reign for a time over what must surely be a moral if not a physical wasteland, and then, like the great empires of the past, will decline or fall. Or it may be that the effort to create so grotesque an anachronism will go up in flames of nuclear holocaust. But if I had to bet my money on what is going to happen, I would bet on this younger generation -- this generation who reject the inhumanity of war in a poor and distant land, who reject the poverty and sham in their own country, this generation who are telling their elders what their elders ought to have known, that the price of empire is America's soul and that price is too high.

was a Ph.D. student in mathematics at the time of his tragic death in a hit and run auto accident.

Although he was a mathematics student, Jay Seldin was

nevertheless concerned with social problems. This poem "One A or (H)-Bomb", represents his attempt to

ONE A OR (H)-BOMB

(Tune: "One Meat Ball")

By Jay Seldin - 1939-1960

- 1) Some scientists worked at the chore
Of finding ways to win the war;
They got a bright idea at last
To do it with a single blast.
One A-Bomb! One A-Bomb!
We can end it all with one A-Bomb.
- 2) So to Hiroshima one fine day
Came an airplane from the U.S.A.,
The crew took one quick look around
Then dropped their Bomb onto the ground.
One A-Bomb! One A-Bomb!
They only needed one A-Bomb!
- 3) The city fell beneath the shroud
Of an enormous mushroom cloud;
Where once a multitude had been
There now was nothing to be seen.
One A-Bomb! One A-Bomb!
They blew it all up with one A-Bomb.
- 4) And showers of radioactive rain
Poisoned all those who were not slain;
Before they knew what it was about,
They became first victims of fallout.
One A-Bomb! One A-Bomb!
There's more kinds of death from one A-Bomb!

(more)

ONE A OR (H)-BOMB (continued)

- 5) When news of what they'd come upon
Reached the generals in the Pentagon;
They said, "If all this damage was done
With a better bomb, we'll have more fun."
One H-Bomb! One H-Bomb!
They started work on one H-Bomb!
- 6) Then Edward Teller and his Gang
Built an H-Bomb with a great big gang;
On a Pacific island they let it fall
And it disappeared in a fire ball.
One H-Bomb! One H-Bomb!
They sank an island with one H-Bomb!
- 7) While America did burst with pride
A message from the other side
Said, "Don't fool with that bomb; we're warning you.
For the Soviet Union has it too."
One H-Bomb! One H-Bomb!
Each country has a right to One H-Bomb!
- 8) Now we live in security
As the balance of terror keeps us free;
Both East and West have cause for mirth
Enough H-Bombs to destroy the earth.
One H-Bomb! One H-Bomb!
We can end us all with one H-Bomb!

June 18, 1968

Dear Mr. Slovy:

President Johnson has asked me to thank you and the employees of your firm for writing at this time of terrible sorrow.

The President more than shares your concern over lawlessness in a country that has and must always draw strength from the decency and dedication of its people. In his words, there can be no justification for violence that tears at the fabric of our national life.

For many months the President has urged the Congress to enact stringent crime and gun control legislation. Of immediate importance, you may want to read in full his remarks of June 5 and June 10 on combatting and inquiring into the causes of violence. Dear Mr. President:

In connection with your statements made on TV and radio June 5 concerning the attempted assassination of R. F. Kennedy, wish you to know that I support your statement that "society" of 200 million Americans is not responsible for the actions of this assassin. I take exception to your appointment of a commission to study the reasons for such violence. We have commissions studying commissions, etc. etc. I believe we the American Public are the victims of a conspiracy - why not have a commission to study this possibility. How can the Attorney General of the United States dismiss this possibility so easily without any apparent investigation on his part? It is this sort of action that breeds frustration on the part of the American. We feel we are victimized, are being used for purposes over which we have no control.

Yours truly,

Hon. Lyndon Johnson
President of the U.S.

Honorable Sen. :

After the heinous attack
on U.S. Senator Kennedy
my blood is beginning
to boil.

Notwithstanding the fact
that I am a Republican,
I feel for the respect and
honor due a man of Kenne-
dy's stature.

When is all this lawless-
ness going to stop in America?

When is the Congress going
to adopt laws to have every
gun owner in America register
its possession?

Let's get rid of the Squad
Law and let our Police author-
ities resume in the methods
previously used to provide law
& order in every community.

2

Police all over the nation
are retreating all because their
hands are tied. Let the Supreme
Court give them the authority
they need to establish law
and order in this great
land of ours.

Let some of your last
acts in office be for the
betterment of our Country.
Let's do the things that will
restore Law and order, and
respect for authority in each
community.

You as president can be
a great influence to both
houses. Do your utmost in
this great need, and you will
retire from office as the great-
est president that ever served
the American populace.

President Linden Johnson,
President of United States of America,
White House
Washington, D.C.

Dear President Johnson:

Our hearts are all grieved with the
news of Robert Kennedy's assassination to-day.
Many of us Christians all over this great
country of ours have been praying for
Our Lord and Saviour to save this country
from violence and bring us back to the
way of life our Founders hoped and

perhaps it should be.
Share the Baptism of the Holy
Spirit and are sent as first fruit
prophecy of all which are to be
need of seeing them.
I had been called to David and
was awaiting time of my departure
when President John Kennedy was killed.
At your first election for the
highest office our beloved country
rested upon a man, all dead
was praying for you to win. Many
many times I had to assure people
you would win. I don't know
for when a man in America finally
and an other term of President, America
always give him an opportunity to show
what he can do for the country in
this position under his own plans.

at that time almost daily; American women, tourists and otherwise were assaulted just over the border on the Israeli side and attributed to Arabs. Women with escorts - escorts were man handled tied or injured so they could not help.

These women after being abused were killed thrown in wells, in shallow ditches, vacant houses or tanks and jeeps rusted and left on road sides since war of 1948 to keep in mind the horrors of War.

This was evidently being done to seem to Our Country that it was the Jews mistreating our women.

Now our country has a taste of the unprovoked viciousness of the Arab.

I arrived in Israel just two days

after a new Consul General and his wife arrived in Israel from America and his wife taking a walk behind the King David Hotel in Israeli Jerusalem got one foot over the border at twilight and was shot dead.

Many experiences were mine during that fifteen months but I learned under every harrowing experience the Jew does not want to kill, but if he has to his shot is sure. Where an Arab shoots and thinks after.

If in this free country of America a man like Robert Kennedy can't say in a campaign speech "Israel should receive help from America," or be killed for saying it. Where has our freedom of speech gone?

May Our Precious Lord guide
and bless you and yours

Mary C. Matthews

June 5, 1968

To The President of the United States
Washington, D. C.

My dear President-

As I attempt to put my thoughts
into words, I am dismayed & broken
hearted, as everyone is, at the horrible
most horrible act of assassination,
the untimely death of such a fine
young American who was striving for
a better life for all human beings.
This terrible act of violence is unforgivable
and as a mother and grandmother my
heart goes out to that unfortunate
Kennedy Family. In my humble
mind, there is only one real
(over

solution to these unspeakable crimes, that is to treat the murderers with equal violence - give them a taste of what they give to others, that is - to inflict severe bodily punishment and torture. Only fright & bodily torture would eliminate these senseless killings. A mere jail sentence is definitely not enough, for they get good food, a place to sleep and they ready to plan their next crime. It is such a pity that three (3) of our great Americans have gone to their untimely deaths by the hands of some idiots who deserve the Hitler tactics of

inhumanity ^{III} upon them. So, please
reconsider this very humble solution
Maybe Congress could enforce
those laws to fight violence
with greater violence & bodily
torture.

To say that we are all disheartened
is, indeed, putting it very mild.
I sincerely hope that You, my dear
President, will get to read this
letter and find a quick
solution to these horrible

crimes.

May I thank you again
for your attention, and I
will oblige.

I love my adopted America.
I love my President, and
always praying for peace &
prosperity in my wonderful
land.

Very sincerely,
