

CLINICO-PATHOLOGICAL CORRELATION OF
SYSTEMIC AUTOPSY FINDINGS

INTRODUCTORY COMMENT:

The gross and microscopic findings obtained from the postmortem examination of the decedent have been correlated with information available from the clinical records of The Hospital of The Good Samaritan. Each organ system is reviewed, noting all changes and how these changes were manifested clinically. In addition, effects of therapy and the effects of the agonal events upon the gross and histopathological findings are described.

CARDIOVASCULAR SYSTEM:

The structure of the cardiovascular system appears to be within normal limits for the age of the decedent. There is no morphologic evidence of sustained hypertension, as the heart weight is normal and the myocardial thickness is also within the range of normal. No valvular deformities or abnormal intracardiac shunts are found to account for the systolic murmur reported in the clinical notes. No vegetations or antemortem marantic thrombi are seen grossly or microscopically. No myocardial necrosis of the type occasionally noted following the treatment of shock with vasopressors is identified in multiple sections. The coronary arteries reveal no evidence of significant luminal compromise by atherosclerosis. The minimal amount of interstitial edema within the myocardium is considered to be of agonal origin. The aorta and the venae cavae are within normal limits. No antemortem thrombus is recognized in the inferior vena cava in the region of the central venous catheter. The splenic vascular bed shows an amount of arteriolar hyalinosis normally seen in individuals of the stated age. Minimal fibrous thickening of the intima of intermediate sized renal arteries is also consistent with the age of the individual. The slight amount of hyalinosis of occasional periadrenal arterioles is also considered to be within normal limits.

RESPIRATORY SYSTEM:

The gross and microscopic changes described in the trachea are those usually found in comatose individuals in whom tracheostomy has been performed. The patchy denudation and regeneration of surface epithelium frequently accompanies measures utilized to keep the airway open. The are described in the microscopic notes as showing mucosal necrosis and acute inflammation is typical for the site of a tracheostomy tube. Such a lesion can show complete regeneration of epithelium following removal of the tracheostomy tube. The degree of calcification of tracheal cartilage rings is usual for the age of the decedent.

The pulmonary alterations are those usually encountered in the comatose individual. Mild intra-alveolar and interstitial edema frequently appears during the agonal period of life. Some pooling of secretions in the dependent portions of the lungs and the accumulation of the edema fluid in the hypostatic areas have given rise to a mild bronchopneumonic process. No evidence of abscess formation is noted microscopically, and the bronchopneumonic process appears to be early, showing no evidence of organization. No microscopic evidence of oxygen toxicity is noted. The pulmonary septal cells are unremarkable. The thromboemboli described microscopically are small and infrequent in these sections. These thromboemboli appear to be of recent origin and are not associated with infarction. Material suggestive of necrotic central nervous system tissue is identified in two arterial branches. Such pulmonary embolization of central nervous system tissue is not infrequent in craniocerebral trauma in which large vascular channels have become disrupted.

HEMOLYMPHATIC SYSTEM:

The lymph nodes examined microscopically are within normal limits. The spleen demonstrates red pulp congestion such as is usually seen as an agonal event. There is no manifestation of systemic sepsis. The bone marrow reveals a slight erythroid hyperplasia, this change reflecting an early response to a major blood loss. The thymus demonstrates the usual residual atrophic lobules. Many small cystic structures derived from Hassall's corpuscles are found throughout the medullary portion. Such cystic changes are not clinically significant.

GASTROINTESTINAL SYSTEM:

The bacterial colonies identified in the hypercornified lingual epithelium are frequently seen on the tongue of an unconscious individual where there is no mechanical effect of chewing or swallowing to cleanse the surface of the tongue. No inflammatory changes are identified in the tongue.

The esophagus shows no evidence of mucosal erosion or ulceration and there is no evidence of esophagitis.

The stomach shows no evidence of mucosal erosion or ulceration frequently associated with central nervous system disorders. The minimal amount of superficial autolysis of the epithelium is consistent with the post mortem interval from pronouncement of death until autopsy. Of interest is the prominence of parietal cells in the gastric glands. The plasmacytic and lymphocytic aggregates within the lamina propria suggest a slight chronic gastritis.

No specific lesions are identified in the entire gastrointestinal tract.

PANCREAS:

The pancreas shows no gross or microscopic alteration of any significance.

The central venous congestion observed within sections of liver is a usual agonal event. No liver cell necrosis is observed and the liver is devoid of inflammatory disease. There is no demonstrable evidence of toxicity of any therapeutic agent in the material examined.

UROGENITAL SYSTEM:

The left kidney contains a solitary renal cortical adenoma and a renal cortical cyst. The adenoma is well circumscribed, small, and composed of benign renal tubular epithelial cells. Lesions of this type are extremely common findings in postmortem examination and are of no clinical significance. The solitary renal cortical cyst is of no clinical significance. The slight amount of compression atrophy of renal parenchyma adjacent to both the adenoma and the cyst is so minimal as to not compromise renal function.

There is no evidence of renal tubular necrosis morphologically demonstrable in right or left kidney. The minimal vacuolar change described in some of the proximal tubular epithelium is a frequent finding associated with mannitol infusion. Such changes are reversible. There is no evidence of infection involving the renal pelves or calyces or parenchyma. The vascular congestion described is considered of agonal origin.

The slight amount of calcification around basement membrane around collecting tubules identified in the renal papillae is of obscure origin. Such calcification can be seen in individuals suggesting large amounts of milk or alkali or vitamin D. It is of no clinical significance.

The mild edema, congestion and slight acute and chronic inflammation of the bladder neck is consistent with the presence of an indwelling catheter. The changes are mild. No ulceration of bladder mucosa is recognized. The small collections of acute inflammatory cells within the prostatic periurethral glands are also consistent with the presence of an indwelling catheter. There is no evidence of hyperplasia of prostatic glands. The small calcific spherules and corpora amylacea within the prostate are frequent normal findings.

The testicular tissue is completely within normal limits.

ENDOCRINE SYSTEM:

The thyroid gland and pituitary gland show no gross or microscopic alteration.

The adrenal glands are small but within normal limits. The cortices are thin, have normal zonation and show decreased lipid. The adrenals frequently show this pattern in healthy individuals dying acutely due to various causes. The Decadron therapy was of too short a course to have caused significant suppression and atrophy of the adrenal cortex.

NOTE: In the preparation of these opinions and conclusions, a number of diagrams, x-rays, and photographs, together with their descriptive notes were utilized as work documents consistent with generally accepted medicolegal practice. In each instance, these items support the findings and conclusions contained herein. They are, however, not included as part of this report, pursuant to the provisions of Section 129 of the California Code of Civil Procedure.

Reference To:

EVANS, Elizabeth Y.
F/W 42.

admitted to the Huntington Hospital at 2:35 A.M.

DR. CUBA, the Emergency doctor, examined MRS. EVANS. He found that she had been shot. The bullet entered the scalp of the forehead, just below the hair line, off center to the right and traveled upward to approximately one inch (1") above the hair line. The bullet did not exit or penetrate the skull. X-rays indicate that the bullet flattened itself against the skull.

DR. RAVELO also examined MRS. EVANS. He decided to leave the bullet in the scalp and have a surgeon remove it later this morning. He admitted MRS. EVANS to the hospital.

The nurses on duty said that a man identified as ARTHUR W. EVANS, the victim's husband, was present with DR. RAVELO.

Upon officers ELWELL and CASS' arrival, DR. RAVELO and MR. EVANS had departed. DR. CUBA was interviewed and the aforementioned information obtained.

SGT. MC INNES notified L.A.P.D. Homicide Division, that MRS. EVANS was in the Huntington Hospital.

Officers ELWELL and CASS met with SGT. CORCORAN (#2840) and SGT. LEWIS (#5750) of L.A.P.D. Detective Headquarters, Central Division., MA 4-5211 x 2504. All information obtained was given to SGT. CORCORAN and SGT. LEWIS.

A copy of MRS. EVANS' consent for treatment and admittance form was obtained and is attached to this report.

<p>Vict is a full time student at Pierce College and also works for Continental News Service, 15303 Ventura Blvd. S.O. Vict obtained press pass and Embassy Room pass from the Continental News Service. Vict purpose was to record Sen. Kennedy's speech and also record any special sound effects. Vict arrived at hotel approx 7:30p and during the course of the evening set his recording set near the podium where Sen. Kennedy was to speak. Vict stated that late in the evening he got hungry and was told by unk person that there were sandwiches and food in a small kitchen. Vict & wit were in this kitchen along with other people when Sen. Kennedy came into the area. Wit shook hands with him & then Sen. Kennedy passed by vict & approx 3 secs later the shooting took place. Vict stated that he was struck in upper left thigh. Vict stated he did not see the susp prior to or after the shooting. Vict was transported to the Encino Hosp for treatment of gunshot wound L/Buttock, super track under skin of lateral hip, bullet easily palpable under skin.</p>

CONTINUATION SHEET

PC 217 Attempt Murder

7-3-68

569 061

SIRHAN said he got on the Freeway from Hill St. and at that time had noticed the two suspect vehicles as they appeared to blow the car horns at each other and began changing lanes. At that time, the victim was in the number three lane, but sensing that he was possible being followed by the two vehicles in question, he changed to the number Two lane (Center) in an attempt to allow the vehicles to pass. According to the victim, the vehicles did not pass, but instead the V.W. Bus fell in behind the victims car and remained there until they were approximately $\frac{1}{4}$ to $\frac{1}{2}$ mile from the end of the Freeway.

SIRHAN went on to say that as his vehicle approached the end of the Pasadena Freeway, (N/O Orange Grove Blvd. overpass) the V.W. Bus pulled alongside in the number three and the Chevrolet made the same movement in the number one lane. It was the opinion of the victim that the two vehicles were attempting to box him in, in an attempt to slow his car. As the V.W. pulled alongside, SIRHAN said he thought he saw a hand gun being pointed out the drivers window, but couldn't determine if the driver had the weapon or if it was in the hand of the passenger in the front seat.

When the first shot was fired through the right wind wing, the victim leaned to his right in an attempt to avoid being hit and he then heard the second shot which followed immediatel- after the first shot and also came through the right wind wing. After the secondshot had been fired, the three vehicles were at Glenarm St. and the Chevrolet turned left on Glenarm St. and the V.W. turned right. The victim continued north and came to this department to report the incident.

The projectiles fired by the suspects were recovered by the undersigned and taken as evidence. -See attached physical evidence form.

The victims vehicle is a 1955 DeSoto, 2dr, White top/Lime body with primer on fenders and left portion of body, '68 Calif. Lic. QTP 455.

later taken in the robbery. The victim advised the two reporters that he did not wish to have his photograph taken or to give them a photograph. The two reporters left without any incident.

The victim added that at approximately 11:30 p.m., he heard someone kicking on his front door. He answered the door and just as he unlocked the screen door suspect #1 kicked the door open, hit the victim on the cheek with his fist and then stated, "Damn-it, we're going to kill all you Arabs." The suspect then went into the livingroom. The victim sat down on the sofa and told the suspect to calm down. The suspect #1 then stated, "If you don't give your photograph to life we're going to take it from you." At this point suspect #1 took the photograph from a small table which was in front of the sofa. Suspect #1 then exited the apartment by the front door. Suspect #2 did not enter the apartment and the victim could only see the reflection of light off his glasses. The victim did not see or hear any vehicle.

The victim added that he could identify suspect #1.

A duplicate of the photograph taken by the suspects was Xeroxed and released to Inv. Houlihan and Shaw.

The victim had the impression that suspect #1 at one time wore glasses due to the marks by his nose and under the eyes.

	(1) 7 to 9 keys, small screw driver, on ring.	Unknown
	(3) The victim is quite confused. He says that he has been drinking heavily for a week. He claims that he was drinking in Patti's Bar & Grill on Colorado around 11:00 P.M. When he walked out the back door into the alley he met the F/W (listed under suspect). The F/W called him by name, SIRHAN, and invited him to go for a ride with her. The victim agreed and they left with the F/W driving. MR. SIRHAN claims they drove around Los Angeles and L.A. County for several hours. During their travels, the F/W began discussing SIRHAN B. SIRHAN. When the victim complained about the topic of conversation the F/W became angry and said "I'm going to fuck you up." The victim then

asked to leave the vehicle. The F/W let the victim out of the car at Colorado Blvd. and Arroyo Parkway. The time is quite confusing, MR. SIRHAN says about 5:00 A.M. He said they drove for about 1 hour.

MR. SIRHAN's automobile is parked in Ray's Lunch parking lot, 17 South Raymond Avenue. The vehicle does not appear to have been tampered with.

I searched the immediate area for the missing keys with negative results.

MR. SIRHAN says he does not know the F/W. He further said that he always carries his keys in his hand and the F/W must have taken the keys.

MR. SIRHAN was transported to his home.

While on security detail at the above location the above listed suspect approached the property on foot. He came to the police car and stated that he wanted to speak with his mother and asked me if I would go to the door and ask her to come out. The mother Mary SIRHAN apparently observed her son (the suspect) talking with me as she came out of the house and approached the police unit. When the mother arrived in the area of the police unit the suspect asked her to give him some of the money she had been receiving for the SIRHAN family from several Arab church groups. The mother stated that she had received no money from anyone. The suspect then replied that he had been advised by several people within these

<p>Ofc's Rec. info from Sgt. Hays of a poss bomb threat at the Los Angeles County Hall of Justice. Ofc' went to that location and spoke with the P/R a Lt. for LASO who was in charge of the DHQ Div. at the Hall of Justice. Ofc's informed the P/R of the bomb threat. Ofc's then checked with LAPD Communications Div and found that RTO operator #143 W. #2, had rec. a call from the City Hall Switchboard operator supervisor (W-1). Wit #2, informed Sgt. Hays Cent. Div W/C. Ofc's contacted W #1, who informed ofc's that she had rec. a phone call from a male with a poss Unk type accent. This male had stated, "I'm going to put a bomb in the Hall of Justice. He killed Kennedy and I'm going to kill him Sirhan Sirhan" The suspect then hung up with out saying any thing futher. Ofc's notified Cent. W/C of there findings. P/R stated LASO would take care of security of the Hall of Justice.</p>

church groups that money was being given to the mother for the whole SEDHAN family.. He stated that he was entitled to his share and that he was not going to leave the location until his mother either gave him some money or he was arrested.. The suspect then asked his mother why she was treating him this way.. The mother again denied that she was receiving any money.. The suspect then replied, "I'll bust you right in the head."

At this point Sgt. Hollard was called to the scene and he conferred with Mrs. Sirhan but she refused to arrest the suspect.

The undersigned then persuaded the suspect to leave the location to eliminate the disturbance.. Finally, the suspect agreed to leave the scene..

15.2
1980
--INTRA-DEPARTMENT CORRESPONDENCE

TO: THOMAS REDDIN, CHIEF OF POLICE

FROM: WILLIAM BROWN, CAPTAIN
COMMANDER, EMERGENCY CONTROL CENTER

SUBJECT: SUMMARY OF THE DEPARTMENT'S ALERT DURING THE ASSASSINATION
OF SENATOR ROBERT F. KENNEDY, JUNE 5, 1968, 12:10 A.M. TO
JUNE 6, 1968, 2:30 P.M.

On June 5, 1968, 12:10 A.M., Senator Robert F. Kennedy of New York was shot in the head and the shoulder after delivering a speech at the Embassy Room, Ambassador Hotel. The suspect, Sirhan Bishara Sirhan, was immediately apprehended by members of the Senator's party and transferred to the custody of the Los Angeles Police Department. Senator Kennedy died at Good Samaritan Hospital on June 6, 1968, 1:44 A.M.

From the moment of the shooting, the responsibilities of the Los Angeles Police Department became three-fold. First, the follow-up investigation of the crime and security of the prisoner. Secondly, the supervision of crowd control at the Good Samaritan Hospital, Ambassador Hotel, and other major points of crowd interest. Thirdly, security for the remainder of Senator Kennedy's party and other dignitaries in the Los Angeles area.

Additionally, the Department had to greatly expand its press relations capabilities to match the influx of news media to the Los Angeles area.

SUBJECT: SUMMARY OF EVENTS OF THE DEPARTMENT'S ALERT DURING THE
ASSASSINATION OF SENATOR ROBERT F. KENNEDY, JUNE 5, 1968,
12:10 A.M. TO JUNE 6, 1968, 2:30 P.M.

SENATOR ROBERT F. KENNEDY OF NEW YORK SHOT

On June 5, 1968, 12:10 A.M., after delivering a victory speech to his campaign workers in the Embassy Room, Ambassador Hotel, 3400 Wilshire Blvd., Senator Kennedy proceeded to his suite through a narrow passageway in the kitchen area. In this passageway, Sirhan Bishara Sirhan fired 8 shots at the Senator from an Iver-Johnson blue steel, 2 inch, 8 shot, 22 caliber revolver. Two shots hit the Senator and other shots wounded five other persons in his party. The suspect was immediately disarmed and captured by members of the Senator's party and transferred to the custody of the Department. Senator Kennedy was rushed to Central Receiving Hospital and at 12:45 A.M., he was transferred to the Good Samaritan Hospital. The Senator underwent brain surgery for 3 hours and 40 minutes, but died in the intensive care unit on June 6, 1968, 1:44 A.M.

FIELD COMMAND POST ESTABLISHED AT THE AMBASSADOR HOTEL

On June 5, 1968, 12:25 A.M., a Field Command Post was established at the hotel. Deputy Chief Davis ordered the dispatching of all response units to Rampart Station for assignment to the field task force. All egress routes from the hotel were secured and, after the initial investigation and interviewing of witnesses, the hotel was cleared of all persons except registered guests and the news media. The crowd problem at the hotel was enormous. Thousands of persons were attending campaign parties, not only for Senator Kennedy, but for Senatorial Candidates Allen Cranston and Max Rafferty. All persons, upon learning of the shooting, surged toward the Embassy Room. Panic was in evidence everywhere. Assistance to the Department was received from one Sergeant and 24 Deputies of the Los Angeles Sheriff's Department, who were on duty at the I.B.M. office where Los Angeles County Primary votes were being counted.

CROWD PROBLEMS AT CENTRAL RECEIVING HOSPITAL AND GOOD SAMARITAN HOSPITAL

Los Angeles Police Department personnel were immediately rushed to Central Receiving Hospital to maintain security and to control the crowd. When the Senator was transferred to Good Samaritan Hospital, a Field Command Post was established in the lobby of the hotel. A crowd of 500 persons maintained a vigil outside the hospital. Although orderly, the crowd seriously hampered the flow of traffic in the area. The dispatching of patrol units depleted Patrol Division

strength and for several hours, radio calls were backlogged. Metropolitan Division mobilized, formed 12-hour watches, and maintained a unit of 1-Lieutenant, 3-Sergeants, and 26-policemen at Good Samaritan Hospital.

At approximately 12:40 P.M. on June 6, 1968, Senator Kennedy's body was removed from Good Samaritan Hospital and taken by motorcade to Los Angeles International Airport for the flight to New York. One thousand persons were at the Hospital at the time of removal. Security was the responsibility of the Secret Service with assistance from the Department. A crowd of approximately one thousand persons assembled at Los Angeles International Airport, and Venice Division established a Field Command Post, staffed by 40 officers.

ARREST OF SUSPECT

The assassin was identified as Sirhan Bishara Sirhan aka Sirhan Sharif Bishara, booking number 495139, 187 P.C. (Murder). He is a male, Jordanian, date of birth 3-12-44, 5-2, 115, black, brown. After interrogation at Rampart Division, he was transferred to Central Jail Division. Tight security immediately went into effect at Parker Center with guards placed at all entrances. At 7:00 A.M., June 5, 1968, Sirhan was arraigned in Court where bail was set at \$250,000. The suspect was then placed in the custody of the Los Angeles County Sheriff's Department and detained in the County Jail.

CASUALTIES

1. Senator Robert F. Kennedy - bullet wounds behind right ear and in left shoulder. Deceased at Good Samaritan Hospital.
2. Paul Schrade, District Representative of the United Auto Workers' Union. Bullet wound in head. Satisfactory condition after two hours surgery at Kaiser Hospital.
3. William Weisel - American Broadcasting Company. Bullet wound in abdomen. Satisfactory condition at Kaiser Hospital.
4. Irwin Stroll - Bullet wound in left shin. Satisfactory condition at hospital.
5. Elizabeth Evans - Bullet wound in head. Satisfactory condition at Huntington Memorial Hospital.
6. Ira Goldstein - Bullet wound in left hip. Satisfactory condition at Encino Hospital.
7. Robert Funk - Pain and soreness of the chest - released at Central Receiving Hospital.

8. Linda Berd - Shock - Released at Central Receiving Hospital.
9. Patrick Thornton - struck in head by a camera. Released at Central Receiving Hospital.
10. George Flores - shock. Released at Central Receiving Hospital.
11. Gabar Kadar - shock. Released at Central Receiving Hospital.

COORDINATION OF DIGNITARIES ARRIVING IN LOS ANGELES

Immediately after the shootings, members of the Kennedy family, doctors, and official dignitaries began arriving in Los Angeles. The Department coordinated the transportation of these persons from the airport to Good Samaritan Hospital. Both Los Angeles Police Department and Los Angeles Fire Department helicopters were used for this purpose.

TACTICAL ALERT INITIATED AND E.C.C. ACTIVATED

On June 5, 1968, 3:00 A.M., a tactical alert was initiated. This alert remained in effect until 12:00 P.M. The Emergency Control Center was activated on June 5, 1968, 1:30 A.M. by the Commander, Business Office Division. The E.C.C. coordinated the assignment of personnel to the field task force. All information regarding the assassination was imputed to the E.C.C. from where it was relayed to Rampart Detective Division and Intelligence Division. The E.C.C. was ordered deactivated by Deputy Chief Gates on June 6, 1968, 2:30 P.M.

EXPANDED DEPARTMENT PRESS RELATIONS POLICY

Upon learning of the assassination, the Public Affairs Division was alerted and the Department Press Relations officer and the radio and television liaison officer established a receiving desk at Parker Center. One hundred thirty-five temporary press passes were issued to press representatives from all over the world. Press conferences were also established in the Parker Center Auditorium for the Chief of Police.

A large volume of incoming phone calls from the news media was transferred to the E.C.C. where the E.C.C. answered all inquiries. Public inquiries became so great that Communications Division established a "Police Citizen's Information" board, manned by police recruits and student workers.
