Result of examination:

Due to differences in time of writing and due to the limited amount of available writing of Sirhan Bishara Sirhan, a definite conclusion was not reached whether Sirhan Bishara Sirhan wrote any of the questioned writing on specimens submitted previously in this matter. Due to the limited amount of writing available for examination, a definite conclusion was not reached whether the writers of K4 through K7 wrote any of the questioned writing on the specimens submitted previously.

Specimens K2 through K8 are being returned to FBI, Los Angeles. Specimen K9 is being returned to FBI, San Francisco. These specimens have been photographed.

NOTE FOR LOS ANGELES AND SAN FRANCISCO:

This confirms Bureau teletypes dated 6-11-68, 6-12-68, and 6-13-68 addressed to Los Angeles in this matter. For your investigative guidance, similarities were noted in the writings of Sirhan Bishara Sirhan and certain questioned writings.

Los Angeles has been requested to obtain contemporary writings of Sirhan containing words and letters comparable with the questioned writing. Efforts to obtain known writings comparable with the questioned writing should be continued.

San Francisco requested the return of specimen K9 so that it could be returned to the Argonaut Insurance Company. Since K9 may become a piece of ~~general~~ evidence in this case, San Francisco should retain K9 until such time as this specimen may no longer be needed as evidence.

The above items were obtained on 6/7/68 from EDWARD D. WARREN, President, Watts Chapter, National Association for Advancement of Colored People (NAACP), 10201 $\frac{1}{2}$ South Compton Avenue, Los Angeles, who advised that he received items on 6/5/68. He could not furnish any information concerning the possible identity of the individual or individuals who may have sent the above and advised that there is no "Director" in the Watts branch and pointed out that the Watts branch is not identified as the "Watts Section."

Mr. WARREN furnished the opinion that possibly the sender or senders may have had in mind the Executive Director of the NAACP, New York City, New York, Mr. ROY WILKINS. Mr. WARREN also advised that numerous persons have handled these communications.

The Laboratory is requested to conduct appropriate hand printing and typewriting examinations on the enclosed items and compare with previously submitted material in an attempt to identify the sender or senders or possibly with that of SIRHAN B. SIRHAN.

These items may be retained by the Laboratory.

- Q20** Accompanying piece of paper bearing typewritten message beginning "KINDLY SEE THAT..."

Result of examination:

The typewriting on Q17 through Q20 corresponds to the standard for International Business Machines (IBM) pica style type having a horizontal alignment of ten letters to the inch. Q17 through Q19 bear black ribbon impressions and Q20 bears orange ribbon impressions. The notation "AIR MAIL," written in blue ball-point ink, appears on envelope Q19.

The questioned specimens were compared with the Anonymous Letter File without effecting an identification with any prior submissions. Copies are being added thereto.

No significant indented writing was found on Q17 through Q20. No watermarks were found in Q17, Q19 and Q20. Q18 contains a very fragmentary watermark consisting of a design and several letters. This watermark may be a part of a watermark "Old Council Tree" which watermark has been used by the Neenah Paper Division,

Result of examination:

The conclusion was reached that the majority of the questioned writings on pages fifteen and ~~Twenty~~ seven of notebook Q1 were not written by SAIDALLAH B. SIRHAN, K11; by SHARIF B. SIRHAN, K12; or by MUNIR BISHARA SIRHAN, K13. While the writings on K11 through K13 are too limited and not sufficiently comparable for adequate comparison with other questioned writings on the specimens submitted previously in this case, many differences in handwriting characteristics were found.

Due to the limited nature of the writing on K18 and due to a lack of comparable handwriting, the writing of ADEL BISHARA SIRHAN, K10, could not be adequately compared with the questioned writings. Some differences were found in the writing on K10 and the questioned writings.

Specimens K10 through K13 are being returned to FBI, Los Angeles. These specimens have been photographed.

Specimens received 6/13/68

Q21 Metal container, piece of wire and slack particles

Results of examination:

Specimen Q21, as received in the Laboratory, consists of a metal container, a piece of insulated wire and numerous black particles. Specimen Q21 is contained in a plastic envelope and the wire is not attached to the metal container.

The blast drum-shaped metal container in specimen Q21 is approximately 13/16" in diameter and approximately 5/16" thick. A 1/4" diameter brass rod extends from one side of the container and a mica diaphragm and brass plate are mounted on the other side. Black granules or particles are present in the container. The container appears to have been damaged before receipt in the Laboratory.

The metal container appears to be a microphone button of the type used in telephones manufactured twenty to thirty years ago. Microphone buttons of this type were manufactured in great quantities. These microphone buttons contain carbon granules which form a variable resistance under the influence of voice vibrations. Without additional components and circuitry, Q21 could not transmit special speech signals or otherwise act as a monitoring "bug."

The black particles present in Q21 are essentially carbon.

There are impressions on the metal container which appear to have been made by a tool employing a gripping action such as a pair of pliers. There are also scratch type marks on the container which are not sufficiently characteristic to determine the type object causing these marks. The marks and impressions on the metal container are suitable for comparison purposes.

Enclosed for the Laboratory are two senior high school program cards for SIRHAN SIRHAN dated 1/29/62 and 9/11/61.

The above cards were provided by Mrs. JEAN O. MORE, Records Clerk, John Muir High School, 1905 North Lincoln, Pasadena, California, to SA RICHARD H. ROSS. Mrs. MORE stated the cards contained the handwriting and handprinting of SIRHAN SIRHAN. She said that according to registration practices at the high school during the 1961 and 1962 school year, students were required to write the name of their parent or guardian and the date the form was executed. The student received the card in the early morning and was required to return the card at the end of the same school day; therefore, she is of the opinion that the writing is that of SIRHAN SIRHAN, even though the signature is in the name of Mrs. MARY SIRHAN.

The Lab is requested to conduct appropriate handwriting and handprinting analysis, utilizing the enclosed cards. These cards are to be returned to Los Angeles upon completion of examination.
