- # 3 Nylon Hose Both attached to pantie girdle. "9536 All purpose sheer seamless, 10 R, medium, all nylon." There is a green line in the top portion. Red stains do not give a test for blood. No hair or debris was found in the hose. A female secretary pointed out that the foot was not flattened as it would have been had the hose been worn and the crease was still apparent.
- # 4 White Brassiere "Lovable" brand Red material on strap does not give a test for blood. No hair or debris was found. A female secretary pointed out that the straps showed no signs of having been set for wear. The garment had not been pressed from original packaging, she said.
- # 5 Black Full Slip "Baronet", Size 34. No debris or hair was found. There is no evidence of wear or washing. Again it was pointed out that the garment could not be worn the way the straps were set. The straps showed no creasing for a set position for wearing.
- # 6 Pink Panties All nylon tricot, Large (7) Reddish stain does not give a test for blood. No indication of their having been worn could be found.
- #7%8- Necklace and Bracelet Strings of beads, pearl-like. The bracelet had small pieces of string attached that appear to be where a price tag was attached. No hair or debris was found.
- # 9 Two pearl-like earrings No hair or debris was found on them.
- #10 Revion Aquamarine Spraymist, "Thrifty 2" written on top. Can appears to be full.
- #11 Lipstick Germaine Monteil "super moist lipstick" on bottom "Moist Rose" "Not for sale". Secretary says lipstick shows no lip marks.
- #12 Bobby Pins Black, Solo No. 2961
- #13 Dark Glasses White Frames Appear to have glue remaining where price tag was stuck.
- #14 Four plastic Hair Bands Various colors No hair found in bands.
- #15 Bottle of Fluid Make-up Max Factor hi-fi Make Up "Candle Glow" - Practically full.
- #16 XXXXX- Eyebrow pencil and Eyeliner "Mary King" Dark Brown The pencil appears to be unused.

#17 - Blue Net Head Piece - No debris or hair found.

Page 4 - Analysis of Evidence, Continued:

- #18 Brown Paper Sack
- #19 May Co. Green Sack
- #20 Gum wrapper holding used gum.

Conclusion:

The clothing is new and has never been worn. The stains are probably on the clothing from being in contact with the lipstick and fluid make-up in the sack. The lipstick has no top and the fluid make-up bottle shows evidence of having leaked.

several hundred people and a band (Sunset and foyer area) in these rooms, which would further mask out the sound of a weapon being fired in the kitchen.

The sounds of firing the weapon were heard from the lower second level of the northwest, outside stairs of the Embassy Room. The sound-level meter reading indicated a 12-14 decibels change.

The sounds of firing the weapon in the kitchen were not heard from the lower 2nd level of the east west, outside stairway of the Embassy Room. Tests were conducted with the exit door from the Sunset Room both open and closed. Sound level mater readings were 1/2 decibel or less.

Lt. D.W. Mann, O-I-C, Criminalistics Section, S.I.D. DETAILS: The weapon used in this case was an Iver Johnson, Cadet Model,

.22 caliber, 8 shot revolver (25" barrel). This weapon had eight expended shell casings in the cylinder at the time of recovery from the suspect. A trajectory study was made of the physical evidence which indicated that eight shots were fired as follows:

- #1 Bullet entered Senator Kennedy's head behind the right ear and was later recovered from the victim's head and booked as evidence.
- #2 Bullet passed through the right shoulder pad of Senator Kennedy's suit coat (never entered his body) and traveled upward striking victim Schrade in the center of his forehead. The bullet was recovered from his head and booked as evidence.
- #3 Bullet entered Senator Kennedy's right rear shoulder approximately seven inches below the top of the shoulder. This bullet was recovered by the Coroner from the 6th cervical vertebrae and booked as evidence.
- #4 Bullet entered Senator Kennedy's right rear back approximately one inch to the right of bullet #3. This bullet traveled upward and forward and exited the victim's body in the right front chest. The bullet passed through the ceiling tile, striking the second plastered ceiling and was lost somewhere in the ceiling interspace.
- #5 Bullet struck victim Goldstein in the left rear buttock. This bullet was recovered from the victim and booked as evidence.
- #6 Bullet passed through victim Goldstein's left pants leg (never entering his body) and struck the cement floor and entered victim Stroll's left leg. The bullet was later recovered and booked as evidence.
- #7 Bullet struck victim Weisel in the left abdomen and was recovered and booked.
- #8 Bullet struck the plaster ceiling and then struck victim Evans in the head. This bullet was recovered from the victim's head and booked as evidence.

A Walker's H-acid test was conducted on Senator Kennedy's suit coat in the area of the entrance wounds. This test indicated that the muzzle of the weapon was held at a distance of between one to six inches from the coat at the time of all firings.

NAMES - ALALINATION - ALALINATION - ALALINATION		Powder pattern on Senator Kennedy's ear indicate that the weapon's muzzle was approximately one inch from the ear at the time it was discharged.							
		The bullet recovered from Senator Kennedy's 6th cervical vertebrae was identified as having been fired from the Iver Johnson revolver recovered from the suspect. The bullet recovered from Senator Kennedy's head was too badly damaged for comparison purposes.							
		Sound tests were conducted at the Ambassador Hotel to determine if a weapon fired in the kitchen area could be heard on the east fire escape of the Embassy ball room. Sound level meter reading of approximately 1/2 decibels change indicated that a person would not be able to hear a weapon fired in the kitchen area.
