SUMMARY ANALYSIS

REMOTE VIEWING (RV) SESSION C77

1. (S) This report provides documentation of a remote viewing session conducted for training purposes to enhance a remote viewer's demonstrated ability.
2. (S) During a previous session this viewer was tasked to look at an area and describe the location, activity and event to take place. The remote viewer described an area located adjacent to the target area. During this session the viewer was asked to go back to the area he described previously and was directed to describe the area adjacent to him. His description of this target area correlated well with the type of activity known to take place at the target location.
3. (S) The protocol used for this session is detailed in the document, Grill Flame Protocol, AMSAA Applied Remote Viewing Protocol (S), undated.
4. (S) Following is a transcript of the viewer's impressions during the remote viewing session. At TAB A are drawings made by the viewer reference his impressions of the target site.

TRANSCRIPT

REMOTE VIEWING (RV) SESSION C77

#14 This will be a remote viewing session (edited for security).

PAUSE

Alright #19.5, I want you to get back to the set up area, staging area, and follow your road down to an area you described previously. I want you to follow that road, through the area, and continue on down the road until you run into another area and describe that area to me.

PAUSE

#19.5 Ok. Give me a second to focus on the...the underground tunnels and stuff.

PAUSE

#19.5 Ok. I'm going to sketch it and describe it. This a...see this road coming into a valley... not a valley but a...like an open plain area... big flat wide area and there's ...there's probably mountains...three sides. These are...these are mountains, circle type things...going around a road of mountains. This big flat area is a... a sandy, hard pack, flat, arid type area...like a desert, but baked. I see a...see what appears to be a prepared circular section of ground. It appears to be north of the road. Seeing what...
+04 I'm seeing like a triangular formation type thing
+05 that I saw before. It appears to be in four parts, or pieces. It's kind'a there, and isn't. It's kind of a wavering type impression...getting a distinct impression that it's...it's temporary and it was there during the...uh...supposed tests, but it's not there anymore. It's obliterated or something...uh...I'm going to draw these triangular things that I'm seeing on page 2.

~~SECRET~~

~~SECRET~~

#19.5 They're...uh...some kind of connected triangles. Probably in the shape of an X. Sort...I keep wanting to write 4 of these out...draw 4 of these out and...uh...sometimes I see 3. There's a... sometimes I'm seeing a pattern of 3...look like propellers. They're a...they're in the center of this...uh... wait a minute. They're...uh...they're white... white on a dark background and they're...uh... there's a pattern there, and I'm trying to focus on the pattern. I'm seeing it in pieces and I think it's an entire pattern. Something like an X or cross of some form. Think these...these patterns are in the center of the prepared circular area. It's either an X or a Y in the prepared area.

PAUSE

+08 I see some...uh...there's a small...small block type object located very close to the center of the six ...put an arrow to it...some kind of electronic device ...sort of a white cross of some kind. I've seen a white cross, but I don't know if it's on that electronic box or...it's in that circular prepared area...and there's a...nothing else there.

#14 Do you perceive any other patterns on the ground, anywhere? Any other identifying features.

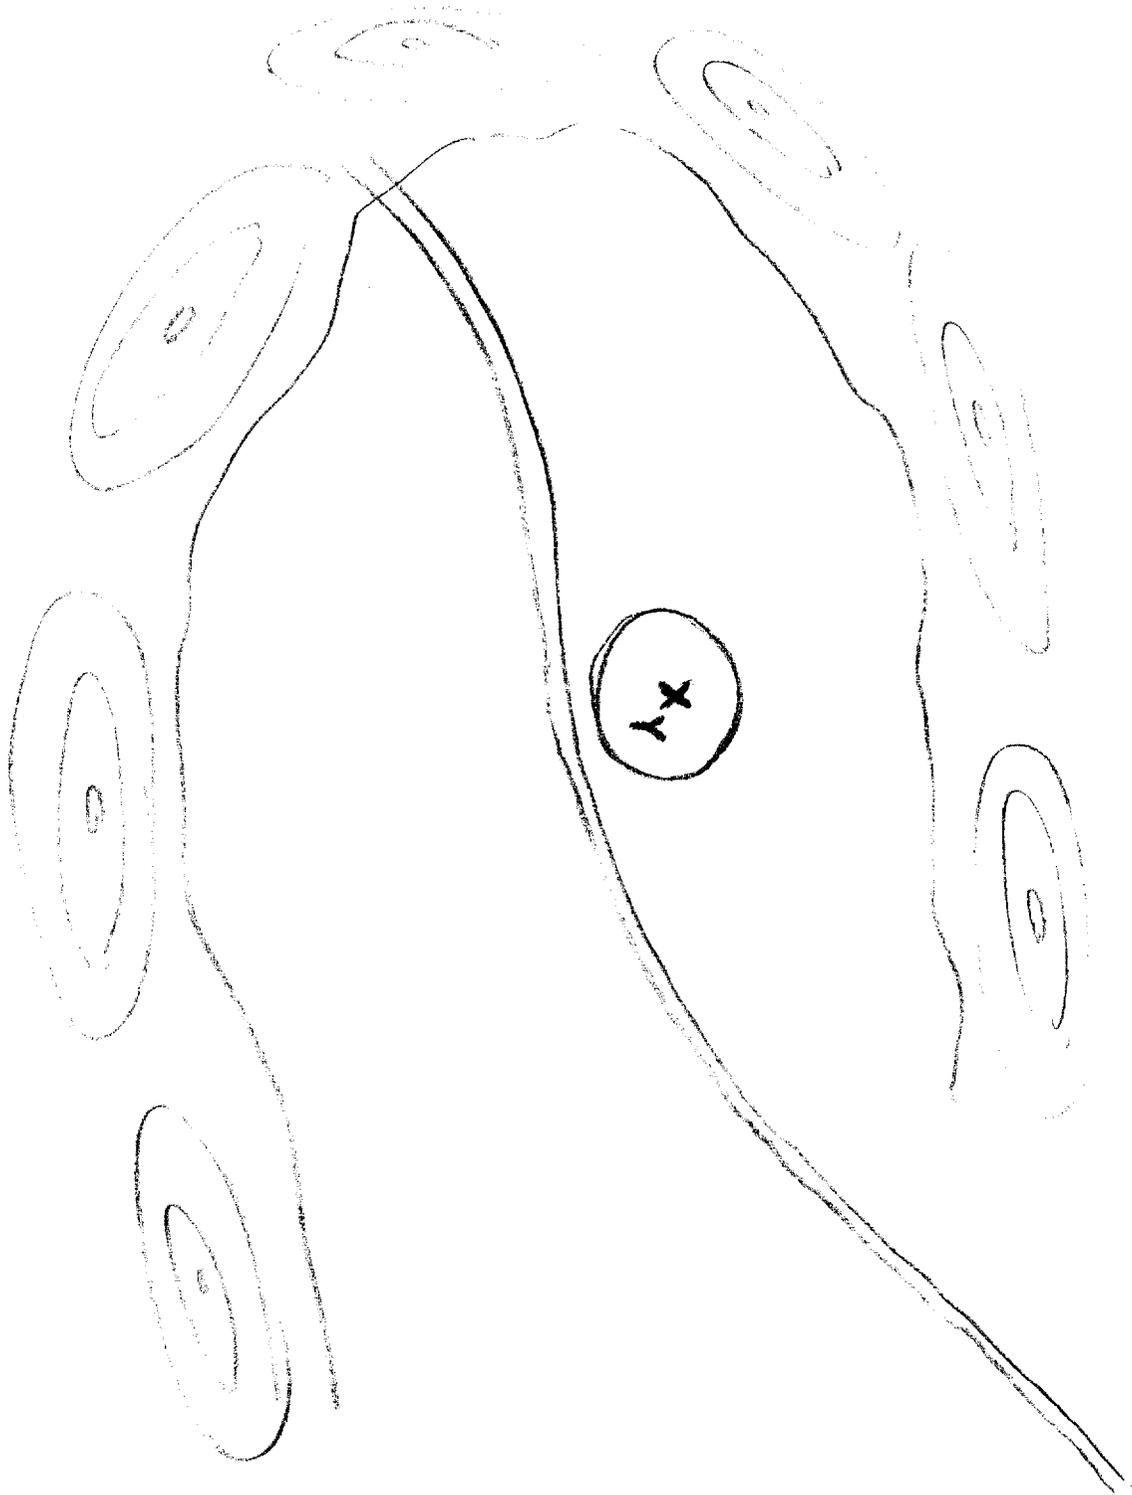

#19.5 No. That's all I see. It's a white X or a cross or something on the ground and it's in a circular prepared area. It's north of the road and it's flat hard packed, sand.

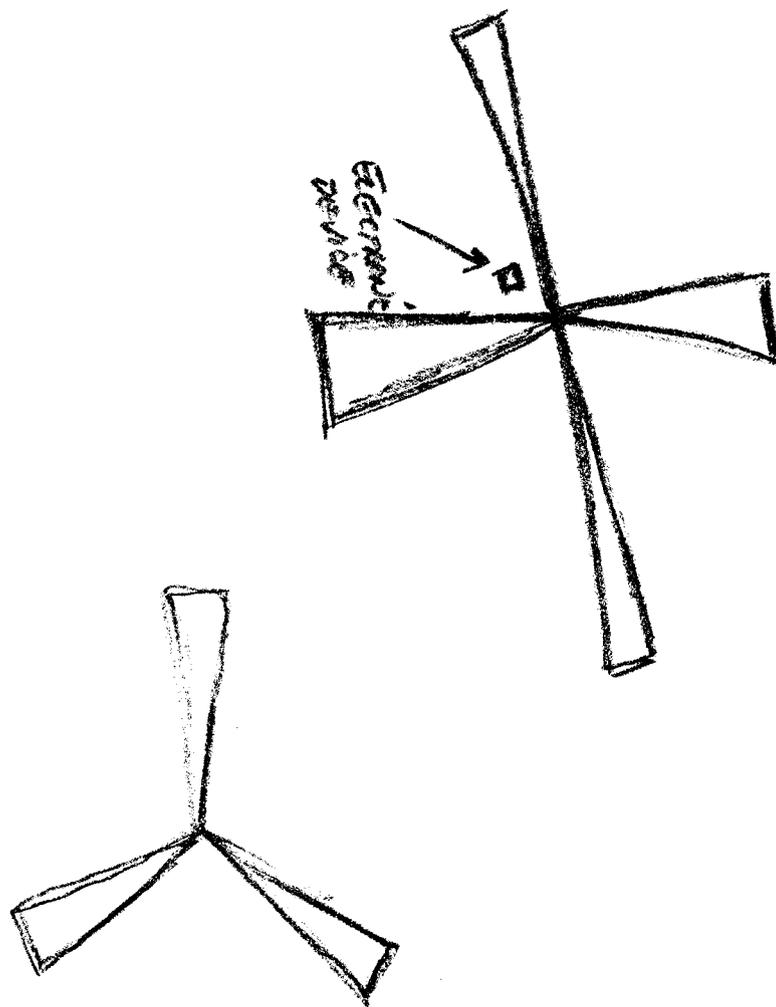

+10 #14 Ok. We'll call it the end of the session.

#19.5 That's it.
