to the viewer at the beginning of the session. The facilitator was informed that this was the first time this viewer was targeted against the coordinates provided. Specific cuing data was limited to; "Describe the target!", and "What is the activity?", as shown in TAB B, Session folder #CCC43.

2. (S) The following information was provided by the viewer as relates to the target coordinates provided during the session:

a. (S) The viewer reported being in an area surrounded by "...very old masonry structures." Also he could see "...a structure on pillars with a rounded roof over there." Viewer stated that there did not appear to be anything under the shed cover.

b. (S) Viewer further described the area he was in as sort of a "town square", with an "obliisk shape" standing in the center with steps going up to it.

c. (S) Activity reported by the viewer was "military type uniforms running across an open park square like area." He stated that he could see an "APC" and "six tanks" the the six tanks appeared to be "light tanks."

d. (S) During the drawing session the viewer provided more detail of the buildings that he was seeing. He stated that there were many supporting columns under the edge of a long overhang, and that there were ornate tops to these pillars. He also stated that the wide street like areas running through the buildings were more for walking on than riding on in a vehicle.

3. (S) The above information was provided to Mr. John Armstrong (ITAC, Estimates Division, Building #213), in a santized format, to review for accuracy and to provide comments. Therefore, comments provided within paragraph 4 of this document reflect Mr. Armstrong's assessment of accuracy for the information provided.
