16 April 1980

MEMORANDUM FOR THE RECORD

SG1A

SUBJECT: Assessment of Unconfirmed Information Provided by an
Unevaluated Source, Against the [REDACTED] (S)

1. (U) The following information applies:

a. (S) Source reports that there is a bunker type of installation at the location, with blast walls at each end. The ceiling is very high and rounded, but the facility appears to be almost empty.

b. (S) There are 3-5 round long canisters presently stored inside. These are approximately 2 feet in diameter. Source stated first that length appeared to be six feet, but he then later qualified that to be approximately 18 to 20 feet.

c. (S) Source states this target is in some way associated with storage or is being utilized as a depot for these objects.

d. (S) When questioned as to what he might think those objects were, he stated that he could see tail fins on one of the objects and feels that they are probably surface to air missiles.

2. (S) Request the above information be evaluated and comments be provided to the undersigned no later than 02 May 1980, in order that an evaluation of the sources' information can be performed.
