

IN SESSION NOTES

Project 8003 Session CCC 33
250900 Mar 80

Start - first imagery

① 4 story bld - lot of glass in windows - vertical about
lg "L" shaped bldg
open field in front

* something
vertical about
windows
not on
Sketch #1

② behind and to
③ are buried
to L. is a lg open area

to R. is partially buried concrete channels
abt about 400 mtrs from big bldg.

go to slight altitude

④ open park

lg circular to bottom left

box w/ black squares in it

steel/pipes or something

over and thru ^{elongated} concrete box

look down at starting point

⑥ could be
sculpture lg section of white bent metal
grid shape covering it

prong things going thru it - black

move to 1st bldg - one half mi SE
OK

how describe

⑦ "U" shape but one leg of "U" is shorter like a "6"
6-5 story - all brick

lot of reflection - like glass

* smelled something familiar
fenced court yard - double fencing
wall around bldg

Activity

all in doors -

More indoors

funny doors - everything white
glass holes in doors

laboratories

electronic equip

human research

experiments maybe

Smell is like a cleaning fluid

semi dark room w/ flash strobe
flashing

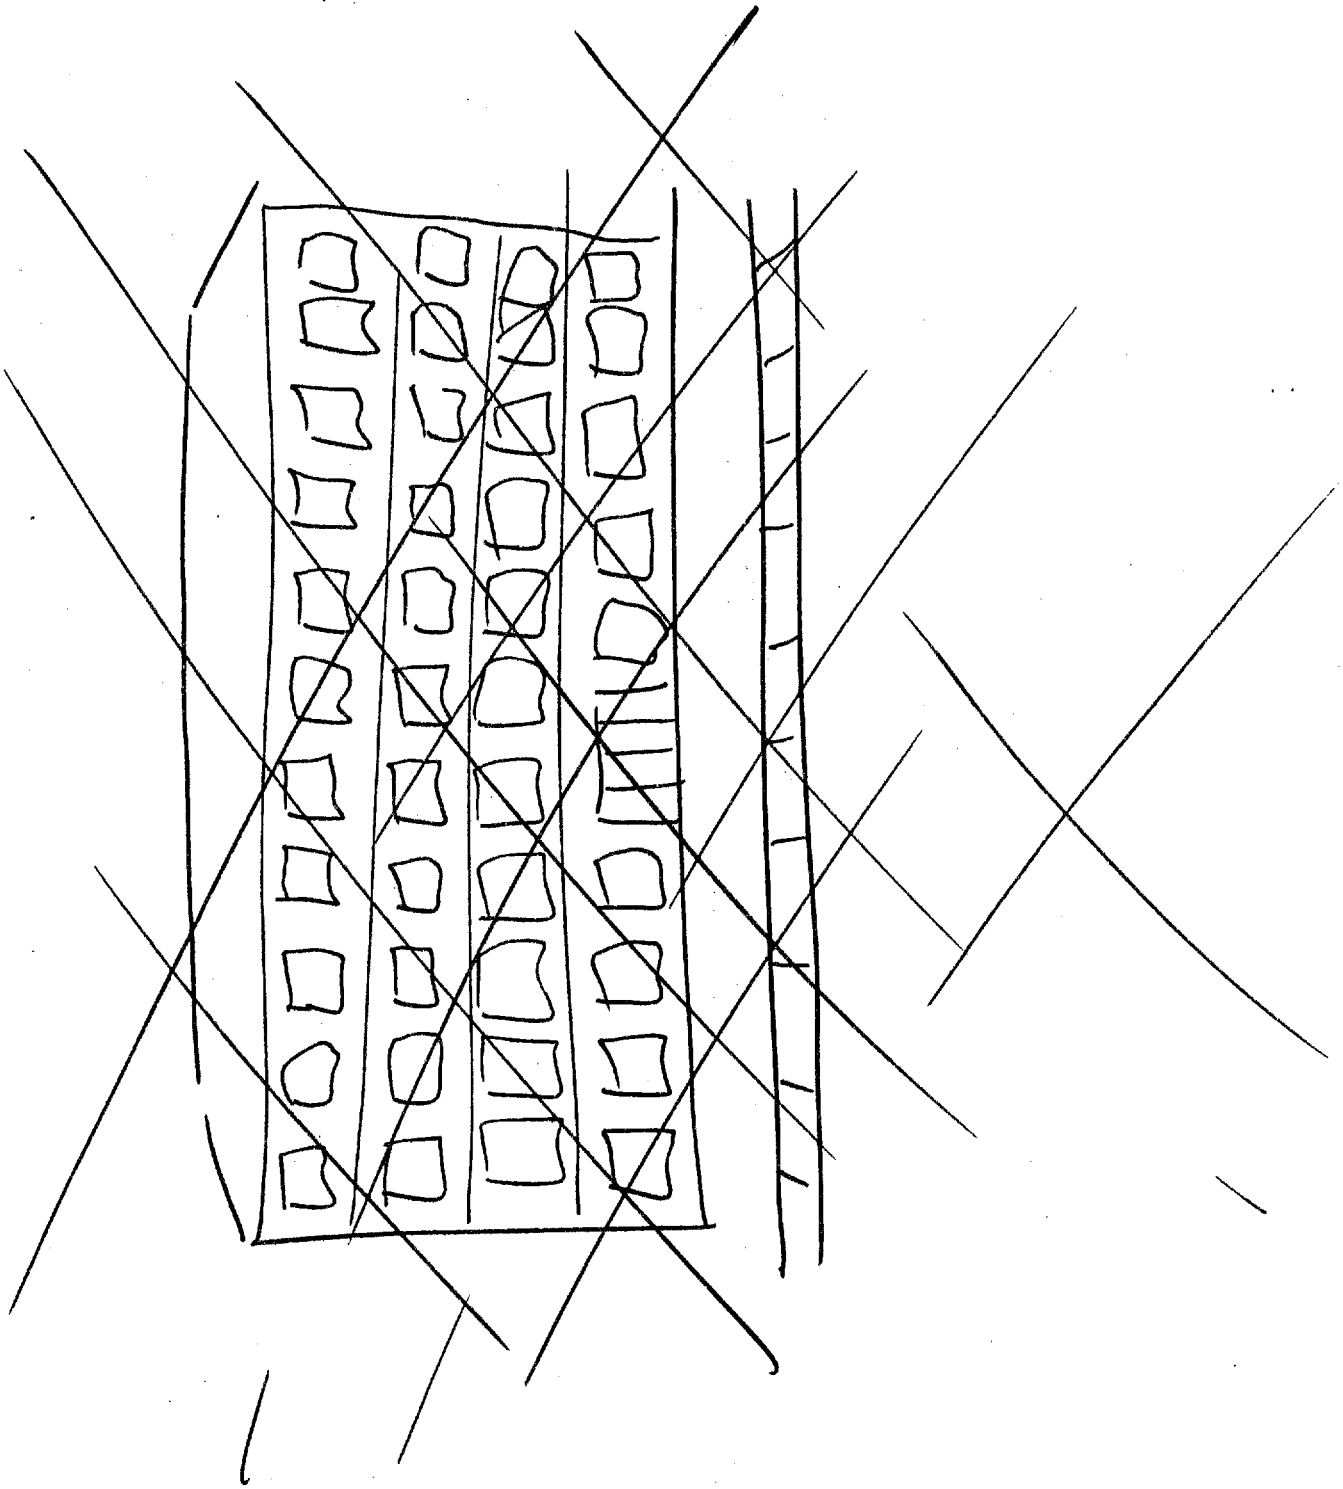

like residential type rooms - like apts
one whole floor - cages - small animals

The — is in the base of the "U"
R. side is shortened somewhat,
half moon shaped covering on pillars
extending from front door - looks
like overhang

Peculiar odor - knows but can't remember
