MEMORANDUM FOR THE RECORD

SG1A

SG1A

SUBJECT: Summary of Unconfirmed Source Information Pertaining to [REDACTED] (S)

SG1A

1. (S) The following information was provided in response to a query about the type of work that [REDACTED] is involved in and where the work is conducted:

SG1A

a. (S) The source described [REDACTED] as someone in middle management in an industrial complex that had production lines. The source reported that he had seen [REDACTED] at various locations one of which was speaking from a public platform in a large auditorium/cafeteria complex. The meeting was conducted in a long low single story building just recently completed and awaiting landscaping. While describing this shirt-sleeved "orator" in front of a shirt-sleeved audience, he stated that the word "anarchist" seems to apply. Other locations were described in a private living area studying diagrams or drawings over a drafting like table. He was also described walking through a scenic park like area looking for something. He was also seen driving a car in a metropolitan area.

SG1A

b. (S) Source stated that he saw a map on which he thought he recognized a large Y shaped river as the Mississippi. A point was marked on the West bank several hundred miles South of the fork. The area appeared to be in the Southwest outskirts of a city. He described pictures he had seen of the area that showed a long low single story building set in a pleasant hillside. The site apparently had a good view of a scenic valley.

SG1A

SG1A

c. (S) The source believed that [REDACTED] was concerned in some way with a production line like for automobiles. He is not a laborer on the line. The words "labor union" seemed significant.

2. (S) This data should be evaluated as soon as possible and comments forwarded to the undersigned. The comments will be used to evaluate the accuracy and intelligence value of data provided by the source.
